IOWA CITY, IOWA, THURSDAY, JULY 1, 1920

NUMBER 175

PROF. B. F. SHAMBAUGH TALKS AT WEDNESDAY'S WEEKLY CONVOCATION

Address is Short and to the Point—
Facts Are Brought
Out Clearly

PRESIDENTIAL YEAR IS TOPIC

Every Voter is Urged to Study the Question of Platforms and Candidates—to know What He Really Does When He Votes and to Have His Own Ideas

Prof. Charles H. Weller, director of the summer session, presided at the second assembly of the summer session held Wednesday morning from 10:30 to 11:15 in the natural science auditorium. "The students here during the summer session should feel they are as much a part of the student body of the University as the students who are here during the regular school year," said Professor Weller.

The Doxology was sung by the assembly and vesper choir directed by Prof. W. E. Hays. Rev. Robert R. Reed of the Presbyterian church led the prayer.

"Presidential Year: Opportunities and Obligations of the Voter," was the subject of the address which was given by Dr. Benjamin F. Shambaugh, head of the political science department of the University. In his address he pointed out that the presidential year consists of great groups of political parties, conventions, discussions, and the election. The foundation of the government is made up of the voters who constitute the electorate of the government, and whose function it is to revise the constitution, choose the chief officers of the government, and make and express clearly the public opinion which controls and governs all departments of the government. The obligation of every voter is to choose someone who will fulfill his office, therefore we occupy a position which we cannot neglect any more than the officials of the government can neglect their duties. When the voters have the interest and they act justly, we will have what we all want and which is difficult to get, a good government.

STARBUCK LECTURES

Tells of Underlying Principles of Art and Beauty

Rhythm, balance and proportion are the underlying basis of principles of art, declared Dr. E. D. Starbuck, professor of philosophy, in his lecture on the "Structure of Beauty," given last night in the liberal arts assembly hall. Professor Starbuck used lantern slides to illustrate his lecture. These lantern slides were taken from paintings, sculpture, architecture, and the dance. Original charts were used, also some musical illustrations.

The lecture was particularly original in the treatment of the form of music, and was designed to develop an appreciation and taste of the best in art.

JULY 3 IS DAY OF QUIET AT UNIVERSITY LIBRARY

The University library will be closed on Saturday, July 3. "Books taken out on Friday evening may be kept until Monday morning," states Jane E. Roberts, the librarian.

DR. AND MRS. FRANK WHEELER RETURN TO IOWA CITY

Dr. and Mrs. Frank L. Wheeler have returned to Iowa City, after a year's absence. Dr. Wheeler will be an interne in the department of oral surgery, under Dr. Fenton, at the University hospital. His work commences immediately. Next September Mrs. Wheeler will take up her work as superintendent of the nurses at the dental college. During the years 1916 to 1919 Mr. Wheeler was engaged as gymnasium coach, swimming coach, and physical training instructor at the men's gym here. In 1919 he graduated from the college of dentistry. He then went to Charemont, New Hampshire, to practice. It is from there that he returns to the University.

MEN TO DINE AT REICH'S TONIGHT

One Hundred and Fifty is Limit Set—
One Hundred and Thirty
Tickets Sold

Snappy talks, a program full of surprises, and a big feed are the main features scheduled for the men's annual summer session dinner to be given at Reich's pavilion at the city park this evening.

The committee in charge ask all those who intend to go to the dinner to buy their tickets as soon as possible, in order that they may know how many to prepare for. One hundred thirty tickets have already been sold, and the limit is one hundred fifty. "Tickets will not be sold later than Thursday noon," said Ira M. McIntyre, principal of the University high school and chairman of the committee. It is also requested that everyone be at the park promptly at 6:15.

Tickets may be purchased at the offices of Prof. Charles H. Weller, room 11, liberal arts and Ira M. McIntyre, University high school building, or from any of the men on the committee who are as follows: Leigh Ballinger, James Davis, C. E. Day, Elmer Ritter, H. M. Halverson, Paul K. Lovegren, Charles A. Kittrell, and J. C. McGlade. Mr. McIntyre is the chairman.

A great deal of secrecy is being maintained as to the exact nature of the program. The committee, however, has promised an evening of fun and a variety of stunts that will excel those of all other summer session dinners given in the past.

KAY GOES TO LABORATORY

State Geologist Leaves for Lakeside to do Survey Work

Prof. George F. Kay, dean of the college of liberal arts, head of the department of geology, and state geologist, left Tuesday evening, June 29, for the Iowa Lakeside laboratory located at Lake Okoboji, where he will take up his geological survey work. He will return Saturday or Monday.

Dean Kay went to the Iowa Lakeside laboratory at the request of Prof. Robert Bradford Wylie of the department of botany and director of the Iowa Lakeside laboratory, who with Prof. Frank A. Stromsten, of the department of zoology, represent the University at the laboratory during the time that it is open, which is from June 21 to August 28.

NEW CHEMISTRY HEAD

Prof. Edward Bartow

Prof. Edward Bartow will assume his duties as head of the department of chemistry of the University in the fall. He was for fifteen years professor of sanitary chemistry at the University of Illinois, and has been chief of the state water survey division of Illinois.

UNIVERSITY WOMEN HOLD FORTH AT PARK

Large Number Turn Out to Make Picnic an Annual Affair of the Summer Session

Almost a hundred women of the summer session turned out to the all-University women's picnic, which was held at the city park last evening under the direction of Violet Blakely, social assistant to the dean of women, and the department of physical education.

The women met at the city park pavilion, carrying their own lunch baskets. From there they proceeded to a cool spot for the supper.

Impromptu games of all kinds, stunts and athletic events made formality vanish early in the evening. Miss Marion Lyon, acting head of the women's department of physical education, supervised the entertainment. The evening ended with the singing of old familiar songs.

WELLER DENIES STORY

Says University Officials Have Not Discussed the Buildings Yet

There is no foundation for the story which is now current that the University is making plans for a new library building and a new chemistry building, according to Prof. Charles H. Weller, director of the summer session.

"There is no discussion of these two buildings at present and the suggestion that they be built across the river is not up for consideration," Mr. Weller declared. "The report apparently arose from the fact that the University has been conducting a survey of the territory across the river."

DILL HAS CHARGE OF TRIP

The excursion scheduled for Wednesday afternoon was in charge of Prof. Homer Dill, of the department of zoology. The excursion was one of unusual interest to all who had signed up, as it included the exhibits in the natural science building of Laysan Island.

WOMEN'S SWIMMING POOL TO OPEN AGAIN FRIDAY

The swimming pool at the women's gymnasium will be ready for use the latter part of this week, possibly Friday, according to word given out by J. M. Fisk, superintendent of University grounds and buildings.

The chemicals which are used to disinfect the water has coated the inside of the pipes and prevented the work of the filters, said Mr. Fisk yesterday. The pool is also being drained and cleaned besides the repair work that is being done on the filters.

"Though the pool may be in order to permit recreational swimming Friday, no classes need report before Monday of next week," said Marion Lyon, director of women's department of physical education.

All other classes in physical education will meet as usual, said Miss Lyon.

NEW USE DISCOVERED FOR ORANGE JUICE

Dr. Albert C. Byfield and Dr. Amy Daniels Find a Preventative for Scurvy

A new use for orange juice has been discovered by Dr. Albert C. Byfield and Dr. Amy L. Daniels of the University of Iowa. Independently of Dr. Mendel at Yale, but at the same time, they by investigation determined that orange juice would prevent scurvy in children. Dr. Byfield and Dr. Daniels have gone further in their investigations and found that orange juice contains vitamins that stimulate growth in both children and adults and cures beriberi. Orange juice contains the vitamins that cow's milk does not contain, so babies fed on cow's milk may be fed orange juice to add the substance lacking in the milk.

The importance of this discovery to the medical world is shown by an editorial in the June 19 issue of "The Journal of the American Medical Association." The editorial reviews an article written by Byfield and Daniels on the "Antneuritic and Growth-Stimulating Properties of Orange Juice" for the "American Journal of the Diseases of Children" of May.

GLOCK RANKS THIRD

Civil Service Examinations Give Iowa Graduate High Place

To rank third in the entire United States in the civil service examinations held by the United States geological survey this year was what happened to Waldo Glock, of Vinton, who received his bachelor of arts degree in June, 1920.

Mr. Glock was one of the five of the graduates of this year to graduate with highest distinction. He was a member of Phi Beta Kappa and was elected to associate membership in Sigma Xi, the honorary scientific society.

As a result of his success in the civil service examinations, Mr. Glock was elected assistant to Dr. A. C. Trowbridge, professor of geology, who is in charge of a party in Texas for survey work for the United States geological survey bureau. Mr. Glock will join this party.

IOWAN FUND GROWS WHILE CHILDREN ARE ANXIOUSLY WATCHING

Contributions Roll in to Help Make Fourth of July Glorious For the Youngsters

PASS THE HAT YOURSELF

Students and Faculty Members Are Asked to Help by Sending Money or Checks to Iowan Office—Anything is Accepted From Five Cents to Five Dollars

FOURTH OF JULY FUND CONTRIBUTIONS

Iowan Staff	\$5.00
Faculty Member	5.00
Sigma Nu and Sigma Phi Houses	6.00
A friend	1.00
Mr. and Mrs. J. E. Hacke	1.00
L. D. Henderson	1.00
Total	\$19.00

Come on, folks, help put across that Fourth of July fund for the sick and crippled children.

There are only three days left to pass the hat at your boarding house, at your fraternity house, to swell the growing pile of checks and money which will make the Fourth a really glorious one for the youngsters at the children's hospital.

No Picnic for Them

Everywhere else, children have been counting for weeks on the firecrackers they are going to have on that day, or the big picnic they have planned. But the youngsters at the hospital can't go on picnics. And not a thing was planned for their celebration until the Iowan decided to adopt them.

If they can have a display of fireworks in the evening they will be happy. And if more than enough money for fireworks comes in, there will be candy during the day and possibly little flags and paper caps and harmless noise-making toys.

All Gifts Are Welcome

No special amount is set for gifts. Anything from five cents to five dollars will be gladly accepted. It will all go to add just a little bit of happiness to the lives of the sick and shut-in youngsters.

Money can be brought or mailed to the "Children's Editor," at the Daily Iowan office, room 14, L. A.

What Five Cents Will Do

A five cent gift will buy a handful of torpedoes, or a small pin-wheel. That dollar of yours will furnish several sky-rockets, roman candles or larger pieces.

The shooting of the fireworks will be placed in the hands of a competent man by the Iowan, and nothing will be given to the children which could be harmful or dangerous in any way.

NO LECTURE SATURDAY

Dr. Esther Allen Gaw will not give the lecture scheduled for this Saturday on "The Tests for Intensity and Time Discrimination," on account of observance of Independence Day. The lecture will be given the following Saturday, July 8.

Bertha McMurray, '20, who has been visiting with friends at Iowa City since her graduation, left for her home in Corydon, Iowa, yesterday.

THE DAILY IOWAN

A morning paper published three times a week—Tuesday, Thursday and Sunday, during the six weeks summer session by the Daily Iowan Publishing Company, at 121-123 Iowa Avenue, Iowa City, Iowa.

"I believe we have room for but one soul loyalty, and that is loyalty to the American people." —Theodore Roosevelt

WEEKLY ASSEMBLIES

At the time of the weekly convocation yesterday morning, a small group of students could be seen idly smoking cigarets in the doorway of the liberal arts building; similar groups, made up those who cannot smoke cigarets at least in public, were assembled for their slight relaxation in drug stores adjoining the campus.

The prevailing impression among these students seemed to be that a short vacation had been given them, that classes had been dismissed early and did not begin until late in order to offer them a few minutes idling on a hot morning. Thirty minutes respite from their books was hailed with pleasure.

The talk at convocation was one which could not fail to be worth-while and of interest to every student, dealing as it did with the presidential election and the duties and obligations of voters, by the head of the university's department of political science.

An attitude such as that shown by these students, one, apparently, of seeking to avoid as much as possible that is of value, instead of to acquire as much as possible, makes one wonder why, after all, people like this go to college.

"JAZZ" MUSIC

A crying need, that of raising the tone of dance and popular music, is one which deserves serious consideration from college-going men and women.

Universities are supposed to be centers of civilization, gathering places of people who are highly enough educated to appreciate the best in literature, in art, in music—to not only appreciate the best, but to demand it, to be satisfied with nothing less; to allow music so uncivilized as the popular "jazz" to gain the hold it has upon undergraduate activities should be recognized as false to university ideals.

The Anchora, national magazine of the Delta Gamma sorority has this to say on the question:

"Jazz was born in low dives where noise and cheapness was desired. It was a novelty which crept swiftly into more refined places, but it certainly should be taboo on any university or college campus.

"Futurist art and Vers Libre may be the effort of some fettered soul to throw off the restraint of form, line and harmony in the release of this inarticulateness, too often a mere camouflage to an utterly commonplace thought, but the "jazz" has no idea, nor pretense of one—it is Bolshevik music gone mad; animalish noises clawing at a purer strain that seeks voice. It should be relegated to some savage island where it seems a proper accompaniment to a dance of dark-skinned beauties arrayed in their best whips of grass."

The same article tells of a concerted attempt made at the University of Minnesota, to free the dances of the college people from the pervasive influence of cheap music, which was undertaken by the Woman's Self

Government association. Under the direction of this organization, Saturday afternoon "Sunlight Dances," as they were called, were held for all students, with real music substituted for the popular "jazz," and these dances were made a success.

Unfavorable sentiment rising from a large university could do much to stem the tide of cheap music, which is sweeping the country, and substitute something better in its place.

HISTORICAL SOCIETY HAS NEW MEMBERS

Nine of the Group Are Appointed to Serve on Board of Curators For Two Years

The board of curators of the state historical society of Iowa held their regular meeting June 29. Eleven new members were elected.

Mrs. J. N. Beck, Glidden; Ernest W. Brown, Des Moines; W. W. Comstock, West Union; Emory W. Curtis, Chariton; Mrs. Mabel Duree, Centerville; Tracy Garrett, Burlington; Mrs. Louise M. Heneley, Grinnell; H. B. Morgan, Baxter; Lewis J. Neff, Walnut; Mrs. Charles H. Warrington, Jefferson, and Mrs. Frederick W. Weitz, Des Moines, were elected to membership in the society.

An official communication from the executive department of the state was read announcing that the governor had appointed the following persons to serve on the board of curators of the society for a period of two years: A. F. Allen, Sioux City; J. P. Cruickshank, Fort Madison; Charles J. Fulton, Fairfield; John M. Grimm, Cedar Rapids; John M. Lindly, Winfield; John T. Moffit, Tipton; W. F. Moore, Guthrie Center; H. O. Weaver, Wapello; and C. E. Pickett, Waterloo.

ROMANS RESEMBLED AMERICANS OF TODAY

Politics of Rome Are Compared With Politics of Modern Times in Ullman Lecture

Knowledge of Roman history is of significant importance to modern Americans, was the keynote of an address by Prof. B. L. Ullman, Tuesday evening. "Americans can appreciate their excellencies and their defects only by comparison with other countries and other ages," he stated.

"Modern campaign methods, modern campaign issues, the high cost of living, the franchise question, women in politics originated many thousands of years ago," declared the speaker.

Modern campaign methods ran rife in ancient Rome. Candidates sought prominence as today, election posters were spread broadcast, bribery existed then as now, and such headlines as recently appeared in an American newspaper Republican senators would put strict control on campaign funds would have been intelligible to a Roman.

Then as now the epigram "antiquity of modernness and the modernness of antiquity" fitted campaign issues. The Romans may not have had tariff or prohibition issues, but they had many land problems. Mexico today has similar problems since a small group owns practically all the land on which peons live. Again Russia has had since the seventeenth century, the problem of land distribution on her hands. The same problem is coming in the United States at no far distant date.

The high cost of living is not new. It existed also in Rome. It developed from the legislation of the Corn laws at the time of the Gracchi. Wheat could be sold to poor plebeians at twenty-four cents a bushel, which was below cost. The government stood for the difference between cost and selling price. Later the amount sold

to an individual was limited to one and a quarter bushels per month. Later still the one and a quarter bushel was given free. Such a course became a worse drain on the public treasury than the modern pension system. It led to such abuse that Juvenal said, "The Roman people care for nothing else save a free meal and a baseball game."

Not all Romans had equal votes. A small group often controlled the government just as happens today. Woman suffrage issues did not meet the ancient Roman, although through marriage and other means women had great influence in politics. Cicero obtained knowledge of Catiline's conspiracy from a woman. At another time the women opposed strongly a bill forbidding them to wear over a certain amount of jewelry, and Cato spoke strongly against their action.

The absence of senators from their seats to avoid being put on record smacks of the present.

The famous Cicero-Catiline case has many analogies in American politics. The frame-ups, the concessions to public opinion, the vituperations of the opposite party and its members are all recognizable to recent newspaper readers.

BUILDING ON WEST SIDE PROGRESSES

Psychopathic Hospital Will be Great Asset to the Medical Students and the Faculty

The addition of the new armory and psychopathic hospital now being constructed on the west side marks the greatest and most extensive of University improvements since the plotting and completion of the campus proper. Almost three years ago the building of the new dental college loomed as an accomplishment of great mass but the erection of the new buildings now being superintended surpasses all former additions and improvements of the University. The combined cost of these buildings will amount to more than \$250,000 and neither time or labor is being spared in hurrying construction.

Both the military and athletic departments have been handicapped in their efforts to properly carry out the work of their respective routine and the addition of this new spacious armory will greatly facilitate the work of both. Up to this time it has been impossible for the military authorities to hold their regular drill classes except when weather conditions permitted the use of the out of door drill field and this alone has worked great havoc in retarding the progress of military training.

Athletic Benefit Will Benefit

The new armory, however, will give plenty of room for the drilling of the various companies, regardless of weather conditions. The cramped locker situation of the past year will also be relieved, thus creating more privacy of equipment as well as a more individual spirit of responsibility in each man for the equipment issued him.

The athletic department has also had its share of inconveniences and handicaps. The track teams have had practically no opportunity for indoor training and the baseball team has been compelled to do its early spring practicing on the gymnasium floor which offered but little room and no opportunity for actual fielding practice. The new building will take care of all these difficulties. It will be equipped with a 220-yard saucer track and a 60-yard straight-away sprinters' pad. The ceiling will be high, thereby relieving the pole vaulters, high jumpers and weight men who have suffered previous handicap on account of low ceilings. It will also be large enough for actual fielding practice in early spring baseball training and will provide ample space for football signal and scrimmage workouts.

New Hospital Helps Medical College

The psychopathic hospital is the second of the new buildings of the medical college, to be built on the west side, the other being the children's hospital. These buildings mark the beginning of the new medical college site which it is planned, will, in a short time, be the location of all the medical buildings. This, in addition to being a constructive asset to the University points to the broadening of one of the later fields of medical science.

Both the armory and psychopathic hospital are well under way of construction and their completion depends chiefly upon the ability to secure materials, which is at present a problem of doubt to J. M. Fisk, superintendent of grounds and buildings, who is in charge of the work.

EXHIBIT OF ENGLISH WORK

The department of education has on display on the third floor of the Liberal Arts Building, an exhibit of English school work. This work was taken from the Montem Elementary School in London. It covers all the branches of work done in the common and High Schools of the United States and presents to the student of education a very interesting illustration of the methods used in the English schools and of the results obtained.

Carl Johnson, summer session student, is sick at his home on 24 N. Gilbert street, with a fever contracted while swimming in the river Sunday.

SOCIETY

Crane-Elginfritz

Mary Ellen Crane and Hugh Elginfritz, both of Dexter, were married Wednesday evening, June 23, at Dexter, Iowa. Alice Cumming was maid of honor. Dorothy Dowdell and Elizabeth Cotton were bridesmaids. Mrs. Elginfritz was graduated from the University in 1918. She is a member of the Pi Beta Phi sorority.

Mr. Elginfritz also attended the University and is a member of the Psi Omega fraternity.

Mr. and Mrs. Elginfritz left for Minneapolis last week. They will spend their honeymoon at the lakes in northern Minnesota.

Slaby-Stucker

Mary Slaby of Iowa City and Gerald S. Stucker of Fontanelle were married at Des Moines on June 21. Mr. Stucker was formerly a student in the University and is now in business with the guarantee veterinary company of Sioux City.

Spatz-Hubbard

The marriage of Myrtle Ellen Spatz of Adel, and Dr. Eugene T. Hubbard of Rippey, took place at noon Wednesday, June 30, at the home of the bride's parents, Mr. and Mrs. Martin Spatz of Adel.

Dr. Hubbard is the son of Mr. and Mrs. A. C. Hubbard of Adel, and is a graduate of the dental college at Iowa City. He served with the medical department of the army in France.

Beth Wellman, B. A. '20, will visit her sisters in Davenport this week end.

Ruth Rogers, B. A. '19, left Tuesday afternoon for Des Moines to take up her work for the Memorial Union in the field.

Ethel Verry, Delta Zeta, will leave July 14 for Minneapolis, where she will work with the associated charities. While in the University Miss Verry won Phi Beta Kappa honors.

Dorothy Dowdell, Pi Beta Phi, and her mother, left Iowa City Wednesday morning. They expect to spend several weeks in New York City.

Florence Johnson, of Currier hall, spent the week end at Dayton.

Elsie Maxson spent the week end at her home in West Branch.

Leona Hart was at her home in Stanwood over the week end.

The Delta Zeta girls picnicked at the park last Monday.

Gwendolyn McClain, Kappa Kappa Gamma, instructor in the department of English, left last night for Mackinac Island, to attend the annual convention of the Kappa Kappa Gamma sorority.

Dr. Reginald Fitz of the Rockefeller Institute in New York was a week end guest at the home of Dr. and Mrs. C. P. Howard at 8 E. Bloomington street. Dr. Fitz is a brother of Mrs. Howard.

TWENTY-FIVE APPLY FOR B. A. DEGREE AT CONVOCATION JULY 27

College of Applied Science Have Only One on List for Degree— Education Has Three

FIVE ASPIRE TO Ph. D.

Thirteen Try for Master of Arts— One From Korea and One From China—Four Signify Desire Master of Science Degree—Fifty-four Complete Applicant List

Applications for degrees at the end of the first summer session are coming in very slowly. So far there have been twenty-five applicants for the degree of education; three for the degree of bachelor of science in commerce; and one for the degree of bachelor of engineering. It is supposed that there will be thirteen who will take their master of arts degree, four who will take their master of science, and five who will take their doctor of philosophy degree either at the end of the first summer session or at the end of the second summer session.

Those who have made applications for the degree of bachelor of arts so far are: Iva Geneva Baker, Boone; Leon H. Brigham, Iowa City; Esther Luella Brown, Iowa City; Roy E. Coon, Brooklyn; Ursula Dunham, Iowa City; Odessa Farley, Lorimor; Quintin G. Fernandez, Victorias, Occ. Neg., P. I.; Glenn D. Kaufman, Iowa City; Isis M. Kinser, Promise City; Amelia Kraushaar, Waverly; Harold P. Merry, Iowa City; Arthur W. Muckler, Toledo; Margaret O'Keefe, Fort Dodge; Josephine Hunter Ray, Des Moines; Lee V. Roberts, West Liberty; Jean Ellen Safley, Springville; Lucille Sawyer, Shenandoah; Donald E. Shelmidine, Milford; Helen V. Sherrard, Lohrville; Clinton H. Smith, Clinton; Harold Burns Smith, Fort Dodge; Mabel Izette Snedaker, Mount Ayr; William Edwin Taylor, Detroit, Mich.; Herman White, Cedar Falls; Ethelyn Mae Yount, Marshalltown.

The applicants for the degree in education are: Edna Boak, Ricketts; Ruth Regan, Madison, S. Dak.; Helen W. Rundorff, Burlington.

The applicants for the degree of bachelor of science in commerce are: Charles Alfred Davis, Maxwell; Paul Kenneth Lovegren, Burlington; Harold G. Sandy, Lake City.

The one applicant for the degree of bachelor of engineering is Harold Raymond, of Jefferson.

Those who will probably take their degrees of master of arts some time this summer are: Myrl Lewark Bristol, Iowa City; Helen Caldwell Davis, Corydon; Lena B. Hecker, Postville; Joseph Robert Hilgert, Kinnswick, Missouri; Wallace Kiang, Nauchang, China; Harry D. Kies, Albia, Ryea; Sik Kim Reong-Chyun, Korea; Ernest Earl Lindsay, Shellsburg; John C. McGlade, Cedar Falls; George Newton Mendenhall, North Liberty; Francis D. Sesner, Central City, Neb.; Fannie Pauline Pickard, Indianola; Floyd Edward Walsh, Iowa City.

Those who will probably take their degrees of master of science are: Eva Cresswell, Iowa City; Adolph E. Fant, Ophiem, Ill.; Elizabeth Maxwell, Earlham; John Emmet Rock, Williamsburg.

Those who will probably take their degree of doctor of philosophy are: Grover H. Alderman, Iowa City; Eugene Manasseh Berry, Burrage, Mass.; Raymond Albert French, Orange City; Aubrey Ward Goodenough, Iowa City; Chester Arthur Gregory, Eugene, Ore.

It is not official that all these applicants will receive their degrees at the end of the first summer session as none have as yet been checked up to see whether they have the required number of credits or the right kind of credits to justify them receiving their degree.

BELLE J. ALLEN TALKS ON MISSIONARY WORK

Dr. Allen Tells Nurses and Currier Women of Experiences in Japan and India

Dr. Belle J. Allen, general secretary of the student volunteer movement in America, spent the first part of the week in Iowa City in the interest of the missions in foreign fields.

Dr. Allen gave two talks while in Iowa City. On Monday evening she talked to the women of Currier Hall.

Dr. Allen has spent ten years in Japan and several years in India. When she went to India she had neither nurses nor hospitals. With no assistance she superintended the building of a hospital and then set about training her own nurses

Prepare for the Fourth

When One Owns a Wash Skirt it is Possible to Always be Decked Out in White

Fashionable women everywhere have accepted the Wash Skirt as just the thing for informal summer occasions, the tennis court and the links. These snowy white, unusually chic originations have just the right air of charm and youthfulness about them. Choice of many different styles are offered here.

They're Pre-shrunk

Wash Skirts are made of fine white gaberdine, tricotines, and baronet Satin.

The weave strongly resembles the wool weave and the finish of the fabrics is much the same, in fact one can scarcely see the difference.

They're snappy styles too. Sizes range from 24 to 32 belt measure. Extra sizes range from 32 to 40 belt measure.

The prices are \$5.00, \$6.00, \$7.50, \$8.50 and \$10.00.

SMOCKS AND MIDDIES

Our display of Smocks and Middies is of unusual interest as we approach

THE FOURTH

Embracing as it does the newest and most popular of the season's modes. They are moderately priced from \$2.98 to \$6.98.

MANY WOMEN ARE BUYING BATHING SUITS AND ACCESSORIES

The warmer the weather the more persuasive become the beach and water. And to show that it approves heartily of this most healthful diversion this store offers an unparalleled assortment of smart Bathing Suits, chic Robes, Shoes, Wings, and all the small accessories necessary to full enjoyment of the Beach.

WASH DRESSES

We've a wonderful pretty showing of plain Voiles and Organdies in whites and colors that sold from \$5.00, \$10.00, \$15.00, \$20.00 and \$25.00.

Choose from our stock of Gingham Dresses that sold from \$7.50 to \$20.00, at— \$5.00, \$6.98 and \$10.00

Beginning Tuesday, July 6th, this Store will close at 5 o'clock during the months of July and August.

We will be closed all day Monday, July 5th.
