CAMPUS WILL BE THE STAGE

"Will o' the Wisp" by Doris Holman, "She Who Prowls While the Lullaby" by Stuart Walker, and "The Hear Glass," by F. B. Yeats, at this Evening's Program.

The second of a series of two dramatic recitals will be given by the pupils of Mrs. Elizabeth Hunt this evening. The playlets will be presented three short plays: "Who Prowls While the Lullaby," by Doris Holman; "She Who Prowls While the Lullaby," by Stuart Walker; and "The Hear Clear," by F. B. Yeats.

For the past three years Stuart Walker is one of America's foremost playwrights. He is the author of "The Demon Theater.

When a boy Mr. Walker was a strongly imaginative youth. His father gave him a toy theater which he used in giving performances. After Mr. Walker took dominion, the toy theater of his boyish days gave him the idea for "The Demon Theater.

The Little Theater or Portamento stage is complete theatrically and can be pushed up and out of the way from one city to another. Mrs. Ray to Play Lead

"She Who Prowls While the Lullaby" was especially written for the Portamento stage. The story is of a queen who has been stopped as the ring-tos of the king's great aunt is coming to die before the four clocks strike 12. WOMEN'S ATHLETICS

The recent announcement that $5,000 is being expended to improve the women's athletic field, while it brings a feeling of pride to every loyal student of the University, can not fail to cause an unpleasant contract in the minds of some women on the campus.

During the past year, the women's athletic association made formal application for an appropriation of $250 nearly from the state, to go towards securing and maintaining a women's athletic field. The request was refused, with the statement that no funds were at that time available for such a purpose.

To be sure, it is the men's athletic association which is paying the greater part of the improvements on Iowa field, rather than the state. But, although a state appropriation is necessary to establish such a field for women, it would be the women's athletic association which would bear the greater part of the burden of keeping it up.

It is an admitted fact that most women, even excellent women, are too delicate of their health; that they do not exercise enough; the statement made that there is even constant physical deterioration among women of the present day, largely because of lack of recreation and proper exercise, is often heard.

A state university should encourage women's athletics. The introduction of women's swimming, basketball, tennis, and sports of all kinds, has made much to build up the type of college women who conform to the ideal American, strong, ideal, self-reliant. In its provision for indoor physical training the University has an adequate gymnasium with good facilities for swimming and indoor contests, but for outdoor sports women are obliged to use the men's athletic field; they are subject to great inconveniences in their baseball and hockey matches.

Another crying need is that of tennis courts reserved for women. At present the University maintains seven courts. They adjust the men's gymnasium and the sentiment seems to prove that men players have the first right. Moreover, they are always crowded, when the weather is favorable, with a large group waiting.

Several tennis courts as near as possible to the women's gymnasium would be a stimulus to renewed interest in the game among women students.

It is true that women's athletics are as spectacular or as interesting to the great body of student's as are men's athletics; nevertheless, they should have their recognized part in University activities.

A FEW DAYS

The first term of the summer session is drawing to a close—it is almost time to say goodbye and to the people of the community.

And now the question arises in the minds of everyone, "Have I done the things I intended to do?" It is in human nature to have regrets that one has not done the things one was expected to accomplish this summer.

But even though the time is short, there is still time to do what cannot be done. There is still time to make a few more trips to the Layson Island exhibit, or other interesting exhibits and while museums in the University; it will still be possible to spend part of an afternoon looking around among the unusual and fascinating books in the Ramsey Memorial library; it is not too late to spend these moments in the English or educational library.

We were thrown out of the art department today. Standing before a picture we ventured the remark that those articles are simply superb! You should paint birds as those ostriches are simply superb!

We remember an awful jar, and as we sit on the stairsway, we had a vague recollection of some one saying something about "not articles, but angels."
