ARMISTICE DAY NAMED HOLIDAY FOR STUDENTS

Dean Katz gives Student Program Day’s Observance Inaugurated

CHALORL PLEDSICS A. F. L.
Some Form of Memorial Service is Likely - Student Council to Give Vote

Last Year’s Observance Promounced A Success By Board of Directors

Armistice day will be a holiday for the entire University this year. Dean Katz has announced that the students will be dismissed at 8:00 o’clock on Armistice day.

Some form of memorial service is likely to be held but it is expected that the students will take the matter in their own hands and put on a program that will carry remarkably the spirit of the Christian demonstration staged here on the first Armistice day a year ago, or with the one last year.

President Davis, Dean Katz, and President Dooley, the college of liberal arts, in speaking of the Armistice day observance said that it is the first time that the student body has ever had an Armistice day service. At that time a semester was lost and there were a number of deaths in this country in the great war. It is a movement that must go on.

A NEW GOD OF THE NORTH

A new god of the north has recently returned from the Super Bowl. This god, who has recently returned from Two Rivers, Wisconsin, has been the driving force behind the Baldwin population of the area.

The communication of the north god has been facilitated by the invention of the latest in technology, a wireless platform. This platform has allowed the north god to be heard by all, even those who cannot see. The north god's voice is clear and bright, but it also has the ability to be heard from a distance.

The north god's voice is filled with joy and hope, and it is a reminder to all of us that we are not alone. We are part of something much larger than ourselves.

A NEW GOD OF THE NORTH, STATE OF IOWA

Our state has a new god, a god of the north. This god has been awakened by the Super Bowl, and it has been recognized by the people of the state. The north god is a god of the modern world, and it is a reminder to all of us that we are part of something much larger than ourselves.

The north god's voice is filled with joy and hope, and it is a reminder to all of us that we are not alone. We are part of something much larger than ourselves.

Men will look better this season

This season's style is quite dif- ferent and many college women will be glad, because it is more comfortable and easy-looking than the soldier-like models of past seasons.

The new coats have a free swing from the shoulders—the waist line is lower and not shaped in—the vent is shorter and behaves better.

And remember there is art in the cut of a full coat. It must look right when you sit or stand—when it's buttoned or unbuttoned—when your arms are up or down.

Art in design is what has made the Style reputation of Society Brand Clothes. And all-wool fabrics along with fine hand-tailoring hold these clothes to the lines of the design.

With the varied grades of clothing flattering the market, look to Society Brand Clothes.

STUDENT HEALTH DEPARTMENT TO FILL ALL NEEDS

Expansion of Medical and Hygiene Department Is Aimed for Students' Needs

PAST RECORD SATISFACTORY

Similar Medical Care Is Taken of Students in Other Stanford Universities. All Students in the State College Get Medical Clinic Given To Those Needing It

Expansion of the department of student health is anticipated by President Walter J. McDonald, director of the department. Dr. W. J. McDonald pointed out that extension work of the department is being made this year in other ways. Emphasis now is being placed on the health conditions of students as well as the individual cases of health.

Duncan's In 1919

The student health department of the University of Iowa was organized in the summer of 1919 and Dr. W. J. McDonald appointed director. A general plan, covering the best features of the work being done in the universities of California, Indiana, Wisconsin, and Michigan, was used as a basis on which the work was adopted which best suited the situation here.

The purpose of the department is to do all possible to prevent the occurrence of diseases with its consequent loss of time to the student, injury to his health and loss of property to the university. President Walter J. McDonald, of the University, in declaring the extension work of the department a part of the work of the University, spoke of its future importance as "the beginning of the school year with students present or away." The students may be excused from class work at any time, subject to the discretion of the instructor, if it be found necessary to consult the doctor or to see the student in private. An extra charge is made for night calls. A ban on night calls and with instructions to send the child to the clinic. The work of the past year comprises:

This is done by serving, distribution of pamphlets, bulletin boards, and exhibitions. The lovely works are given to the Freshman through the year by real members of the faculty while the lecturer to upper classes are given by the Department of Preventive Medicine and Biology.

Of the success, especially related to school living, makes frequent inspection of the elementary school. Any child who does not seem well is referred to this department for examination. Education is the opinion of the school child in need of medical attention. It is given a note to its parents stating that the child seems in need of medical attention and with instructions to send the child to the family physician. The department does not treat the students in these schools.
