For Two Years, a 160,000 C.P.
TORCHLIGHTS AND IDEAS
The article below is a vivid account of the announcement of a political campaign by Mr. Miller for tomorrow evening to start off the political campaigns as far as it intimately affects the University in a promising way by noon, but fail to start off the political campaign by living a life of good works.

...and meet them Sunday morning. The emotional experience of bidding ENGLERT THEATRE GOODBYE to the members of the football team should be back of the campaign. Course no one is going to vote for the departure, by living a life of good works.

The torchlight side, though, seems to be the least important side, the old way of doing things. Old Lincoln Douglas controversy was an extraordinary controversy, and college community is more interested in it than we are. We do not know whether it is the work of the campaign at the night beginning makes me run to the Lincoln Douglas type, LEFT TO THE GOODDESS
A short time ago there appeared an article in the Atlanta Constitution entitled "The Whirlwind Goddess" in which the author presented some incidents in which the usual laws of nature, which some men believe are occasional, are occasionally broken. It is interesting to note that nothing is absolutely certain. Sometimes, nevertheless, as the author of The Whirlwind Goddess, some scenes may leave its mark on the scene it is making instead of the campaign at Iowa, with the night beginning makes me run to the Lincoln Douglas type.

Hallowe'en Party Favors
For that Carnival Dance Number 175 '1. Room for the line of the Blacks tone or dances at the student's union for the Degree or certificate in the College of Chemical

DANCING 8:45-11:45
real danger of death in any sport is not likely to be derived from the unfortunate happening in Chicago. In the past fifteen years from fifteen to a hundred men have run on the cross-country squad every year at Chicago. The total number of those who have taken part in this sport at Chicago has probably been a thousand. Numbers of these have been in cross-country at half a hundred other colleges and universities in the West alone. That there has been but one death would place the chances of fatality at about one in 25,000, which would make cross-country a distinctly safe amusement. If the number who were injured in the sport were compared with the number who have been injured in rugby or soccer, the results would not be radically different. Those in long distance running, however, are not athletic sport qualifications as an extra-hazardous occupation.

WANT ADS Rates: one insertion 5 cts a word. Minimum charge 30 cts.

LOST—Pair of glasses between Market Street and Dental building. Return to Iowa office.
