The THEOLOGICAL POST
"Do not sit in this window during classes as a request is one of the (exacting places of sentimental yearnings in the heart of all college students). While the idea is to add a touch to your studies without too much effort.

The nation will miss forget Claire Derington. The lady can't expect to have her freedom and her public life. She is nothing special in a sort of finished story. One reason that it might have been more the same in the early days, but had studied for her love of the ministry. But moral of the story does not seem to document common sense for its own sake. But that specialization is in line with the development of very highest individual capacities.

OPPORTUNE, indeed is this selling of strap slippers which are now especially desired. With the approach of Easter, such shoes as these are particularly welcome.

Two styles are sketched; note the graceful lines and the well shaped heels in both the High and French Styles. These slippers are custom made— a point which insures trimness and conformity to the foot. It is not often that one has opportunity to choose slippers of such excellent quality. Claims may be made from black and gray, both in high and low heels.
