The other day the Michigan Daily appeared with a news story on the

- Into this category of
mistakes goes that we many students make in
the current name of this educational
 institution. They call it "Iowa un-

they designate it by its exact name,
"University of Iowa". We write
"Iowa university" in their
summer, when they are freshmen
and continue to refer to it in terms of
the remaining years they spent on its
campus.
- It is not a very grave mistake as
we are informed, but it is one
that can easily be eliminated.

understandably so; in fact, it is

students make this mistake is
because they're fitness into the

that it can be broken without
mental effort. It is no sux? c1s a

STUDENTS VISIT DAYPORT

Commerce Students Visit Arsenal and Business Houses.

Twenty-five students in the school of commerce were the guests of the Dayport Commercial Club last Friday and Saturday, March 20 and 21, and visited some of the principal business houses of the city. The trip was under the supervision of Prof. Clarence B. Simmons of the school of commerce.

On Friday afternoon the students were taken to the Rock Island arsenal at 10:30 a.m. and to the arsenal furnished by the Commercial Club. “The special point of interest of the arsenal at present time is the museum, which is filled at 9 o’clock and at 11, and that students are not enrolled in these classes is limited to the lectures. The title of the film is “Bacteria, the Hidden Plague of the World.”

Doctor Griswold points out that bacteria are so frequently referred to as “plugs” that their potential character as pests is often obscured. Doctor Griswold concludes classes in hygiene and preventative medicine.
