PENTATHLON WILL BE STAGED IN PLACE OF MASS ATHLETIC MEET

E. G. Schenker, director of the department of physical training, is making plans for a pentathlon to be held the week beginning May 11. This meet will take the place of the mass athletic meet this season.

The pentathlon was originally a Greek athletic contest in which each contestant was required to compete in five out events, jumping, high jump, running, throwing the discus, and throwing the spear. Of these five events, all but wrestling will be included in the pentathlon to be held in Iowa.

All men enrolled in physical training classes and any other student in the University not on the varsity or interscholastic teams may enter the pentathlon. Each man may choose the five events in which he wishes to compete. The basis of point giving will be the same track meet system which will represent scores points. In this case, the individual point winner of the meet will be picked. It has not been decided yet whether or not a cup or medal will be presented to the individual star, according to Mr. Schenker.
