MANY MEN PLAN TO ENTER PENTATHLON TO START JUNE 6

Nearly 100 men will be entered in the pentathlon meet which will be held the week beginning June 6, according to E. G. Schneider, director of physical education. The pentathlon was originally a Greek athletic contest in which each man participated in five events. It will take the place this year of the annual athletic meet which has been an annual event here until last year. As in the Old Greek contests each man will choose five events in which to compete.

The purpose of the meet according to Mr. Schneider, is to find material for future track teams and to allow a large number of men to engage in an athletic contest. It is often charged that college athletics benefit a comparatively small number of the students due to the nature of the sports. The new meet was instituted to overcome this evil.

Any student in the University, who is not on the varsity or freshman track teams and who has not won a letter in this sport, is eligible to enter the meet. Each participant may choose any five events from the regular track and field events of a track meet; scoring will be based on the conference track records which will constitute a score of 1000. For every fraction of one point or distance, under these, regular deductions will be made. It is planned at the present to hold a meet on the last day of the pentathlon among the five events chosen by each man. The individual point winner of the meet will be chosen by the point system. A useful aid to be given to the individual point winner but has not been definitely decided yet. The days on which the events will be run are as follows:

Monday, June 6, 100 yard dash, shot put, 110 h. hurdles, Tuesday, 2 mile run, pole vault, running high jump, Wednesday, 400 yard dash, high hurdles, showing throw, Thursday, 880 yard run, running broad jump, Friday, 220 yard dash, 80 yard low hurdles, javelin throw, Saturday, final meet among the winners in each event.
