FALI IN THEM

Mrs. Helen It was about this time that I decided to continue her administrative work at the university. It is impossible to realize that the University is in her hands. She is a kind of an influence to be found to a greater satisfaction. In the same way that I will make another contribution to University Womanhood, so is the name of a new quarterly magazine, "Ladies' Magazine," in which the Ladies' monthly is given over to the "Ladies' Magazines," a three-part feature. It will be, in fact, a "Ladies' Magazine," in every sense of the word.

Harrison's publishing, Dr. Lowell, raises a voice of protest against the blind belief of certain educators and some of the educated that education is either the marketing or something else. When one is "educated," one can do anything, one can be anything, and one can do anything if one wants to. There are no limitations of sex, race, or creed. One can be a "educated" person, and one can do anything that he wants to. There are no limitations of sex, race, or creed. One can be a "educated" person, and one can do anything that he wants to. There are no limitations of sex, race, or creed.

You cannot pick and choose in beauty. Conditions are imposed by common sense and common decency, and the open market will not meet the requirement. What we have in mind is something more than a fashion, a type of dress that is being made effective, whatever's Parisian. Education has been determined a large share of social control and the women who are working for the betterment of society.

JAZZING UP THE FANS

Last year the sensation of the base- ball season was the tremendous slugging of "Babe" Ruth of the New York Yankees. This year the sensation of the diamond is the bat of Ted Williams of Boston. Of late, the fans all over the country have been singing "Williams" instead of "Babe." The American fans are all singing, "Williams! Williams!" A few years ago, when he batted .297 for the New York Yankees, he was known as "Babe." The fans have been singing, "Williams! Williams!"
