She opened the door, pulled out her umbrella, and stepped into the rain. A man approached, looked into the wet, shining eyes. It was a busy street corner. A police siren wailed in the distance.

"Is it safe to cross the street?" she asked.

"It's safe, but it's pouring," the man replied. "The trickles of rain down in the street are green." He opened his umbrellas and the street was more visible, showing the colorful droplets of water reflecting the streetlights.

"I hate these rainy days," she sighed. "The summer session is almost over and I'm not ready to go home yet."

"The summer session is always a bittersweet moment," the man said. "The sky spread a mass of weather-grumbler. But I always look forward to the fall, when the leaves change color and the air is crisp."

"I don't like the cold," she said. "I wish it would just stay warm."

"The rain is refreshing," the man said. "It cleans the air and makes everything feel fresh."

"I don't like how it makes my suit damp," she said, glancing at her soggy trousers.

"You have to learn to enjoy the rain," the man said. "It's a natural occurrence, not something to be feared."

The stranger turned toward home. "Some weather," he said. "I can hardly stand this weather, but I don't want to move to a place where it doesn't rain."

"You have a different perspective," she said. "You're a traveler, I can tell."

"I've seen many places and seen many sights," the man said. "But nothing compares to the beauty of the Midwest in the summer."

"I wish I could see it," she said. "But I'm stuck here and I have to get back to the office."

"It's up to you! Don't let your energy go to waste! There is so much more you can do with your energy," the man said, stretching his arms wide.

"I wish I could," she said, sighing. "But I have a lot of responsibilities."

SUMMER RAIN IS UNDER WAY

The head is to be made up of small
costumes from both town and University.
 Any experienced hand musician in
the community will be eligible; trombones
and trumpet players are particularly
needed. We are in need of 15 men who
are to wear the roman costume. We have
a number of costumes from last year's
University band in use in the city for the
summer. There, with a number of chances
for parts, the student should make a good
hand possible with a minimum amount of
rehearsal," said Dr. D. R. 
 Fox Bros., who will have the newly
ordered band in charge.
