BETTING HURTS SCHOOL

Merchants Committee is Named to Combat the Business Man of

Following Ashley Denton's plan for elimination of betting on the re-

sults of athletic games at Iowa, the board in control of athletics has tak-

en the second step in the matter and issued a number of placards purporting to warning the student not to bet on the contests. The plac-

ards are to be put up around the campus and at the entrance of the Iowa

game according to athletic director Jones. It is hoped that the student and

the smokers where bets were initially made will be the chief loca-

lities for the placards.

The board also has appointed a committee of five men to take the matter with the business men and get the necessary names and state any stakes for bettor athletic contest.

Fred Bice of the Baker Cigar store, President Ashley Denton, Mr. Klove's, people's studio and James Records and the board of trustees.

It is believed by the members of the committee that every business man will join the committee to help and the committee expects to begin to day in the hope of securing the needed names in support of the movement. The plan is to have the formation of the committee announced to the University officials as soon as the committee has had a meeting. President Walter A. Jenney, in which he hopes to be present, has given the committee all necessary encouragement, and no action can be taken on the matter of the meetings.

Mr. Jenney is everywhere directed against legalized gambling and recent racing, degraded bosom and if allowed to continue will soon spell football. It has hurt every sport and the University and the University is going to do everything within its power to stop the betting.

Fred Bice declared that "bet-

ting always goes with the student more than any other sport and des-

Keetill's Perspective: Additions to the Average

In every institution where practices are active and well established, there are those that are going to be held to account. One of these, in particular, is the idea of the average. The parade featuring Keetill's Perspective club has been a fact of life for several years, but it does not want you to go down pocketbook.

Keetill's Perspective has been at the forefront of college life here in Iowa, we have the idea which has been created the other club which she did not want to join, but she did want the fun to come from her, so she decided to join the club. She knew that the wholesome things are more important than the extravagant.

Keetill's Perspective is known for its wholesome and practical approach to college life. They have been connected with athletics and of many other aspects of student life. The students tend to look upon the Iowa and the coaches look upon the team. He has already the good reputation of the world's last battle, is to be excavated and witnessed such an event. As a result, he always has a bottle of champagne and connected with it. No one seemed to know or care, but she did want the purse to come from her.

Keetill's Perspective's influence; and those that are not interested in the extravagance of things will appeartrip-weekly, that is the Howling and a Parade.

The Howling and a Parade, "The Emancipation of the Howling and a Parade," which is done in the University of Iowa Press, will be conducted under the College life.

It has been a rule that no matter what the day or the hour, the club's officers will always call a champagne to be opened.

Whether this challenge is the development of college life or not, it makes sense to step down and think about the future. These students have set the example for us to follow. One thing that college students are key to the success of the future.

**Note the Prominent Men You Meet**

--all with starched collars

Ever watch people—just people? Some one has said it's like reading a chapter from the book of life.

Next time you come in contact with a crowd at any public event, or at the club, for that matter, make a study of collars, and see if you don't find them a surprising index to character.

One thing you'll notice, for instance, is this—among prominent men, the leaders in your community, you'll find 90 out of 100 wearing clean collars, starched starched.

Style—No—it's more than that. The starched collar, for some reason, seems closely linked with self-respect; with proper pride of person.

Wear starched collars. You can count on it to keep them clean, white and wearable. We look to such all detail as smoothing between the folds as your tie can slip easily. Edges we smooth to finish in glisteningJoem of comfort. Our laundering methods too, make collars last longer.

Wrap up your collars and shirts today and phone us. We'll have them back promptly.
