The snowstorm which had been predicted overnight kept a number of people out of the game. The weather had to be a little bit warmer, and the snow had to be a little bit softer, before the game could be played.

I had my gear welded together today. I had to rush forty-five minutes before I and my friend could get away early this afternoon. Coach Jones can't get enough room to come out for the football squad.

There was only a small crowd at last week's noon meeting. It was conducted by a boy. 'The string allowed in this window.' ‘Nick wear 'bulls' tags and forget to say 'Hello.'"

**CHAMPION WRESTLERS MAY COACH MASTERS**

While no official confirmation has been made in the proposition of a wrestling coach it is known that Jack Reynolds, champion of the world's weight championship, and his friend, former coach and claimant of the lightweight title, have been in the country for some time, and are considering the proposition of the University for the position of wrestling coach.

We are reminded of the pithy advice to the student, ‘"Nothing fitted allowed in this window.'

The freshman enrols, "Hope it will be just the same as the old days."

**LIFE'S FOOTBALL GAME**

This is just a football game and must be played with the same spirit and love and skill that it has in life, it has its goal, and neither one is marked by pole. No life is complete without the thrill that accompanies a goal, and then the game must claim its titles."

AVG. UNIVERSITY WOMEN SPEND $800 EVERY SCHOOL YEAR.

"The expenses of the average University woman for a year amount to about $800, according to Miss Adele E. Rogers, editor of the of-mine school magazine. "Girls who work for both hand and room have been known to get along on $350 per year," she says, "but this has not been their case. We are not in the second or third class of schools, but in the very first grade of second-class institutions.

The expenses of the college a girl for the year come under four heads: board, room, books, and clothing. The average room rent ranges from $30 to $40 a month. For each girl, and head counts amount to about $70 in some cases $100.

Miss Blakeley, to whom we are indebted for this information, states that the living expenses of the college woman for the year average about $800, except in cases of illness, etc.

James Montague et al., was in City yesterday. He will address Inman High School this year.

We have a better, more scientific way of ironing, by pressure and heat only. There's no rubbing; pulling or tearing; no possibilities of wear. And, because all of our machines are heated by steam, there is no danger of scorching.

We'd like to have you see our steam-heated presses and flatiron workshops in operation—then you'll understand why we can so drastically iron your finest things.
