## HAWKS DESCEND ON LAFAYETTE EXPECTING WIN

### Twenty-Four Men Left Last Night On Quest of Purdue Bacon

## PEP RETURNS TO SQUAD

### Final Practice Sees G. Devine, Locke, and Cotton Still Nursing Hurts

Twenty-four men comprising the first and second teams and two extra backfield men started for Purdue last night under the command of Coach Howard H. Jones, assistant coaches James Ashmore, Lawrence Block and Ray Hill, and Dr. Walter Fieseler. The Iowa squad consisted of Lester C. Belding, Max Kadesky, Fred W. Slater, George Thompson, John Heldt, Aubrey Devine, V. Shuttleworth, Glenn Devine, Gordon Locke, C. E. Boydston, Robert Hunter, Chester Mead, Paul Minick, Meredith Barrett, A. L. Cotton, Robert Harding, Alex Lindsay, Frank Thomson, Fred Seiling, Don Macrae, Glenn Miller, Clifford Anderson, F. A. White and Leo Kriz. Ralph Beck went with the team to care for the equipment.

Coach James Ashmore will go on to Indianapolis to scout the Notre-Dame-Indiana game Saturday. Indiana is expected to have all her cripples back in the game and on that account should give Notre Dame a hard fight.

Indiana teams always play good football against the teams that they meet late in the season, and Coach Ashmore should be able to get a line on the plays that Iowa will have to go up against on November 12.

### Team Totes Own Water

All the men who left last night had to be in the special Pullman, at the station, by 9:30 p. m. last night, and be in bed by 10 o'clock, but the car did not leave until after midnight. Water was taken along from Iowa City in special containers and as the men are not allowed to drink any other, no sickness will occur from drinking any other water.

Most of the cripples were out for practice last night and they seem to be all right, although Glenn Devine's leg bothers him somewhat and he was sent in, while Miller was called over from the second string to take his place. Cotton's knee is not badly wrenched, and he will be able to play if he is needed. Locke will probably start the game at fullback, but it is doubtful if he will be able to finish the game. If he is taken out Anderson will take his place as fullback.

### Varsity Pep Returns

The same lineup that started the Illinois game will probably start the Purdue game, though some of the second string will get in the game unless the opposition is so strong that no chances can be taken.

Last night's practice was very light, but the spirit and fight that has been lacking all week seems to have partly returned, for there was more life in the varsity last night than there has been for two weeks. Team work was still a little ragged, but it was approaching the old team work that beat Illinois. The team's defense against forward passes is still a little weak and much time was spent last night in correcting that trouble, for Purdue will probably try a good many passes. Moreover, the teams that Iowa plays after Saturday have highly developed pass attacks. Indiana tried thirty-five passes against Minnesota, and the varsity must be able to meet and stop such a game.

### Frosh Drop Passes

The freshman team came over and demonstrated a few of Purdue's favorite forward passes for the benefit of the varsity, whose backs endeavored to knock down or intercept the tosses. The second string backs were likewise given a chance to stop the freshmen pass attack and did nearly as well as the first backs did. Some of the tossers would have been good for gains if the receivers had hung onto the ball.

## 'COMMUNITY DRAMA COMBINES ART WITH SPIRIT' — MACKAYE

"The last time I crossed the Mississippi to supervise a production of mine was in 1914, at the Masque of St. Louis at St. Louis, where 7,500 people took part. But the art of the theatre is the same for this play, 'Mater,' as for that," declared Percy MacKaye, playwright and poet, who is the author of the comedy, "Mater," put on under his supervision at the University theater last night "By the art of the theatre I mean acting, stage management, lighting, and setting of the play."

Mr. MacKaye has written eight community dramas, among which his "Caliban by the Yellow Sands," put on at the Harvard stadium in 1916, with 5,000 actors, is considered one of the world's masterpieces of pageantry. When asked how he became interested in community drama, he replied, "I come from a family of theatre people and have grown up in that atmosphere. I noticed that the community had the spirit without the art, and the drama had the art without the spirit, so by the production of community drama the two could be combined."

### MacKay Silent on Future

"The modern tendency of the drama depends on what the dramatist wishes to portray, and how his work is received on Broadway. There can be no statement made at any season as to the characteristic kind of play for that time. At present there are at least six entirely different kinds of dramas playing successfully in New York," declared Mr. MacKaye.

Mr. MacKaye admitted that he is working on a new production, not a community drama, but said he never announced his work before it came out. One of his recent pageants, "The Evergreen Tree," is to be put on at Christmas time in Pasadena, California. His community bird masque, "Sanctuary," has been put on in Chautauqua circuit recently, and as a result 110 clubs for the protection of birds have been organized.

### Community Drama His Favorite

Mr. MacKaye has written twelve plays, eight community dramas, four operas, which have been produced by both the Metropolitan Opera company and Chicago Opera company, and seven books of poems, the latest being "Dogtown Common," written last year and read by him at the natural science auditorium Wednesday evening. His chief interests seem to be in the stupendous community dramas that he has put on so successfully. He showed pictures of the settings and some of the characters in both "Caliban" and the Masque of St. Louis" and told enthusiastically how the power of the productions was made to be felt by the audience. In the "Masque of St. Louis," 200 trained athletes were used where the pioneers wrestled with the earth spirits. St. Louis, the hero wrestled with Gold, and when St. Louis was thrown at one time a gasp went over the whole vast audience. This shows how Mr. MacKaye has succeeded in his attempt to link the art of the drama with the spirit of the community.

## SPECIAL TRAINING TO BE GIVEN FLAT-FOOTED MEN

A class for the purpose of correcting flat-feet will soon be conducted by E. G. Schroeder, director of physical education. Over three hundred freshmen have been examined by the student health department at the present time and with the exception of men with flat feet the majority pass the examination fairly well. Those who do not pass the examination will be given special training.

## PROMINENT UNIVERSITY MEN ARE DRIVING TO PURDUE

President Walter A. Jessup, Dean Dudley O. McGovney of the college of law, Prof. Burton P. Fleming of the college of applied science and Lieut.-Col. Morton C. Mumma leave this morning overland in Colonel Mumma's Wills Sainte Claire for Lafayette, Ind., to witness the Iowa-Purdue game tomorrow afternoon, returning Sunday.

## QUAD MEMBERS TO MEET TEAM

### Turnout Sunday Will Start Off Busy Year Across the River

The Quadrangle men will meet the football team on its return Sunday afternoon from the game with Purdue. The organization of the Quadrangle expects a one hundred per cent response to the plans to give the team a royal welcome, stated President Thomson of the Quadrangle association.

The men of the Quadrangle have started plans for a big year on the hill. A mixer held Wednesday evening in the form of a smoker was the first of a number planned to get the men acquainted.

The officers of the Quadrangle association are: president, Frank E. Thompson S2 of Davenport; vice-president Clarence O. Michaelson A3 of Leland; secretary, Kelse Saemisch A3 of Atlantic; treasurer, Clement F. Mullens L2 of Waterloo.

Committees for the year are: executive: Clarence O. Michaelson A3 of Leland, Frank Thomson S2 of Davenport, Manley E. Sweazey L3 of Webster City, and Arthur R. Jewell A2 of Cedar Rapids.

Finance: Victor L. Kloppenburg A2 of Davenport, Clement F. Mullin L2 of Waterloo, and Gustaf A. Swenson S4 of Newberry, Mich.

Health: Melvin B. Arneson A4 of Forest City, Ulysses S. Vance A3 of Laurens, Lewis L. Bisgard D2 of Burt, and Kelse Saemische A3 of Atlantic.

Social: Arthur E. Knocke A3 of Davenport, Fridel B. Shutsbank M1 of Centerville, Oscar J. Strom A3 of Scarville, and Stanley G. Kokoska S3 of Cedar Rapids.

### Active Year is Planned

The committees are making extensive plans for a busy year at the Quadrangle. A boxing tournament is being organized, open to all the members of the Quad.

Money collected as dues will be invested in preparing several tennis courts on the Quadrangle grounds.

### Deans Will Talk at Quad

A lecture course is being arranged plans being to have lectures every two weeks. The deans of the colleges and prominent faculty men will be asked to speak.

Last year the Quadrangle association did not arrange for as much entertainment as the year before. It is the aim of those interested this year to make the University year a busy one for Quadrangle men.

## BASKET MEN TUSSELE IN SEASON'S FIRST HARD SCRIMMAGE

A fifteen minute scrimmage between the first and second varsity basketball fives featured the practice at the armory yesterday afternoon. Coach Ashmore is perfecting both offense and defense playing of the teams through the coordination of the individual functions of the players with their teammates.

Barton looked good yesterday as Captain Shimek's running mate. He has the speed to keep up with Shimek, and his footwork is creditable. Frohwein and McGovney also worked smoothly together on the opposing team. A fight for the forward positions is already manifesting itself. During the scrimmage Barton scored the lone basket for his team.

Coach Ashmore spent much of the practice in instructing the newer players in the short pass and criss-cross formation. Emhart and Thoma are showing up well in their playing. Emmert is fast on his feet, and has a good basket eye, and Thoma is showing good form as a defensive player. Yesterday concluded the practice for this week, as Coach Ashmore leaves for Indianapolis tonight.

### The lineup last night was:

Capt. Shimek	r.f.	Frahwein
Barton	i.f.	McGovney
Lohman	r.g.	Hicks
Voltmer	i.g.	Zell
Postma	c.	Kelloway

## WEATHER REPORT

Weather for Iowa—Cooler in the northwest portion of the state.

## ARMISTICE DAY TO BE OBSERVED

### Student Council Will Arrange Program; Legion, Silver Stars, Churches, Help

Plans are now going forward for the most complete and appropriate services and celebration in recognition of the significance of Armistice Day ever held in connection with the University and Iowa City, according to the chairmen of the committees from the different organizations which are co-operating to make this possible. The Student Council, Silver Star club, American Legion and Ministerial Union of Iowa City are going together in the plans for the morning exercises in the natural science auditorium, and the American Legion will carry through the program for the remainder of the day.

The various committees will meet together tonight at the Y. M. C. A. for the purpose of discussing plans for the morning exercises.

### Legion to Stage 40 and 8

The American Legion post contemplates holding initiation into the order of "40 Hommes and 8 Chevaux" in the afternoon. Students on the streets and street parade will take place in the early part of the afternoon, which the initiation proper, which will be private, will take place in the Armory. A Legion dinner at the Commercial club rooms at 6 o'clock will be followed by an athletic program in the American Legion hall above the Pagoda Tea room at 7:30.

### Committees to Co-operate

The committees representing the various organizations are as follows: Student Council committee Henry J. Prentiss A4 of Iowa City, chairman; Evan B. Baily P2 of Lewistown, Ill.; William K. Karr L3 of Lamont, Mo. Silver Star club J. S. Rogers and H. E. Wilson, American Legion, Mr. Lou E. Clark, chairman; Robert Schell and Mr. Gordon Dinsmore of Iowa City Ministerial Union of Iowa City Rev. Robert R. Reed, pastor of the Presbyterian church, chairman and Rev. W. C. Shaffer, student pastor of the Congregational church.

## OVER 50 STUDENTS REPORT DAILY TO HEALTH DEPARTMENT

An average of over fifty students a day are now reporting to the student health department. The majority of the cases are bad colds. "It is easier to prevent a cold than it is to cure one," says Dr. W. J. McDonald, director of the student health department. Several cases of bronchitis have already developed and unless more care is taken in regard to colds there will be much more sickness.

"Students afflicted with a cold should be careful not to sneeze or cough in public places for these germs are easily transmitted from one person to another," declares Doctor McDonald. The student health department is doing all it can to maintain the good health of the students, but they in turn should do what they can to take care of their own health.

An examination may be taken by any student whether he is seriously ill or not. "I would advise not only freshmen but any other student who wishes to maintain his good health to take a physical examination," says Doctor McDonald.

## MEDIC AND DENT UNITS

### REGISTER FOR R. O. T. C.

Registration in the newly organized medical and dental units of the R. O. T. C. is progressing satisfactorily and instruction work has been started in both units, according to Major Elton L. Titus, M. C., who is in charge of these units. Up to the present time, the enrollment in the medical unit, basic course, first year is two, advanced course, first year, fifty-one; in the dental unit, basic course first year is thirty-two, advanced course, first year, seven.

## HONORARY SCHOLASTIC FRATERNITY TO ELECT FIVE NEW MEMBERS

Five seniors in the college of liberal arts, those who have the highest standing in scholarship, will be elected to membership in Phi Beta Kappa, honorary scholastic fraternity, before the close of this semester, according to Prof. L. Charles Raiford, of the chemistry department, who is secretary of the Alpha chapter of Iowa. Graduates who completed their work during the summer session may also be taken in at this election. The exact date for the election will be determined within the next thirty days. All remaining seniors who are eligible will come up for election during the second semester.

### Must Have High Standing

Membership in Phi Beta Kappa is based solely on scholarship and character, and candidates are restricted to seniors who have maintained a general average of at least ninety percent throughout their work in the college of liberal arts, forty-five semester hours of which must have been earned in this University.

Phi Beta Kappa first came into existence on December 5, 1776, as a social and literary fraternity for men at the college of William and Mary, Williamsburg, Virginia. Little by little, as greater emphasis was laid on scholastic records, and honor men alone were elected to Phi Beta Kappa, the fraternity came to stand, as it does today, for a brotherhood of scholars. Women were first admitted to membership in 1875 by the chapter at the University of Vermont, but the number of women on the rolls was very small up to the year 1900, for until that time few chapters existed in colleges that were open to women.

### Only One Honorary Member

On October 14, 1894, five members of the faculty of the University of Iowa who had been elected to Phi Beta Kappa at their respective alma maters met and discussed the possibility of securing a chapter at Iowa. Their activities resulted in a charter being granted, known as the Alpha of Iowa, by the national fraternity on September 11, 1895.

The only charter members still in the University are Prof. Charles Wilson, head of the German department, and Professor Elbert W. Rockwood, formerly head of the chemistry department. In the matter of honorary membership, the local chapter has always adhered to a conservative policy, having chosen only one honorary member, Thomas H. MacBride, President Emeritus of the University.

## SMALL CROWD BIDS TEAM ADIEU AT TRAIN LAST NIGHT

A small crowd, led by the band and the Howling 300 saw the Hawkeye team off last night as it started on its trip to Purdue. The crowd left Whetstone's corner at 8:35 for the station followed by about a hundred to one-hundred and fifty loyal boosters. The Howling 300 had charge of the pep meeting, and they represented the biggest share of the crowd.

Nine rahs were given for each of the individual players and nine for Coach Jones by the bunch assembled about the team's sleeper.

Calls for speeches were made, Johnny Heldt giving the first one. Heldt said, "we are going to Purdue to beat them. Other teams have done it, and I am sure that we will bring home the bacon."

The next one called on was Anderson, who has been playing on the second team. Anderson stated that if he got a chance he would do all he could to help bring home the long end of the score.

Slater was called on for the next speech, and it took a lot of talking to get him to come out of the car and say a word, but by the aid of Johnny Heldt Duke came out and made the statement that he would tell us all about it when he got back.

A speech was called for from Captain Aubrey Devine, but Devine had not arrived yet. Locke was called on, as was Glenn Devine, but neither of them was there.

## "MATER" OPENS THEATRE YEAR AT UNIVERSITY

### Percy MacKaye, Author of Play, Gives Speech Before First Act

## ALL SEATS ARE SOLD

### Maurine Shaw and Fred Steiner Take Leading Parts in Production

The first University production of the season "Mater" was presented in the new University theater last night, and proved a great success. An overture was played by the University theater orchestra under the competent leadership of Prof. Frank E. Kendrie, which demonstrated the fact that a well trained orchestra did greatly in the creating of the desired atmosphere.

Reservations were only made in the auditorium for seven hundred and fifty people, as it was not thought desirable to sell some of the farthest seats. The finished nature of the production "Mater" was due to the careful coaching of Prof. Edward C. Mabie, together with the poetry and phantasy imbued in the characters by Mr. Percy MacKaye, author of the play. A face level light-effect gave a most realistic atmosphere to the performance last night as there were no footlights to separate the stage from the audience.

### Miss Shaw a Clever "Mater"

Of the five University Players presenting the play only two characters were women. Maurine Shaw U of Des Moines gracefully carried the title role, with winsomeness and subtle wisdom. At times it was a trifle difficult to hear Miss Shaw, but her gift of expressive laughter made up for that deficiency. The audience could not help but feel in sympathy with the golden fluffiness of the mother in contrast to the serious young son and daughter whom she called her black swans. Mary, played by Miss Neva Underhill of Yankton, S. D., amused everyone with her "highbrow air" which she condescended to adopt toward her more clever mother. Miss Underhill interpreted her character very well, especially in the scenes where she as the devoted sister tries to educate Rudolph in theoretical politics.

### Steiner Stars

The interpretation of Michael, by Albert F. Ward A3 of Clinton, surpassed Mr. Ward's previous portrayal of other characters. Burdened with his theories, the uncompromising idealist succeeded in antagonizing the political machine, when his quick-witted mother comes to his rescue. It is then, that the Honorable Arthur Cullen, played by Fred A. Steiner L2 of Corydon, begins to reconcile such apparently incongruous elements as politics and poetry. As usual Steiner carried out his interpretation in a thoroughly professional style. As the charming coquette, Mater, finely charged her trickery with laughter; Cullen laughed too, and the scenes between Miss Shaw and Steiner were carried off with wit and brilliant repartee.

Harold Ofelt L2 of Burlington portrayed the part of Rudolph, a well meaning lover, in a very pleasing manner. His pantomime was especially amusing.

### MacKaye Gives Curtain Speech

Percy MacKaye, author of "Mater" gave a curtain talk in dedication of the new theater, expressing the relation of the University to dramatics. "The pleasure I experienced in directing the University players cast carried me back to memories of the days on the New Hampshire hills when I read "Mater" to my friends before it was published," said Mr. MacKaye. He also remarked upon the change in the public's attitude toward drama in the Universities.

"A few years ago," he went on, "Professor Goodrich was watching the rehearsal of my "Scarecrow" by the players in the University of Harvard, when he remarked that these young drama students would soon be wanting to act on the stage. Since that time, however, universi-

THE "LET-DOWN"

The Old Gold men shipped their baggage and football training last night and started to Purdue to work out another problem in the addition of three's and sixes and seven's. Judging from the amount of enthusiasm on the campus this week, this may be news to a number of students.

After winning a Homecoming game and one that was written in rather large letters on our schedule, "just another game" or "one of the remaining" may not be expected to arouse as much eagerness and speculation as might ordinarily be expected. On the other hand, to win one game and expect the laurels therefrom to carry us through the entire season is something that is scarcely to be expected from a group of live University students. What is commonly called the "let-down" is a thing that must be dealt with in the matter of all combat; it has lost many a game and turned many a battle from victory to defeat. In football, it creates no little concern among coaches and trainers. It has been in evidence on Iowa campus this week.

Students have not been speculating on the outcome with the ordinary concern, they have not been inquiring about the mass meeting or the time the team was to leave, they have not been keeping informed as to the possibility of the individual members' chances to be in Saturday's scrimmage; they have not shown the normal amount of interest.

Tomorrow's game will not be won until the last whistle blows. The pencil will not touch the conference slate until the official score is reported. Reason enough, is all this, then, for University students to avoid any further evidence of the "let-down."

Several University women complain that they are going to get a late start in the social whirl this year if the University directory does not appear on the campus soon.

IT MAY BE SO, BUT—

The New York World is interested in noting the degree of interest with which college women read the newspapers and to learn what makes the greatest appeal to them. An editorial in The World reads in part as follows: "To begin with, specialized news about women makes little appeal to them: of the 600 students to whom a questionnaire was submitted, only four gave the 'woman's page' preference, as against fourteen votes for the sporting page and six for the comic sections. Sixty-two per cent read the editorials regularly and twenty-five per cent registered a preference for editorial comment. Twenty-three per cent said that the general news attracted them most and thirty-eight per cent confessed to a predilection for headline-reading."

The World seemingly places all faith in the word of college women as set down in a questionnaire and is disposed in its editorial comment to treat these figures with the utmost seriousness. Perhaps it is justified. The census was taken among Radcliffe students and they may be especially devout in the matter of newspaper reading or their expression of an avid interest in the daily columns may be a correct measure of college women generally. But it is a thing that may be open to suspicion.

Whether The World was unknowingly "taken in" or is willing to deal in mythical figures or is sure of its basis for confidence is uncertain. Rather more certainty might be attached to the statement that to leave a college woman in a room alone with pen and ink and a questionnaire that may reflect something

of her interest in current affairs is just about as safe as to leave a small boy behind the barn alone with some corn silks and a box of matches.

The census further revealed that ninety-six per cent of the Radcliffe students read the newspapers habitually and intelligently. This shows lively and unexpected concern on the part of such students in happenings and opinions of the world. Even when reading a reasonable ration into these figures, however, 372 readers of the editorial page as compared with four readers of the "woman's page" nets a commendable figure.

Radcliffe college women have not suffered at the hands of these figures. It might prove more interesting to have a census taken among women representative of the colleges and universities throughout the country, and then to compare it with one taken among the men.

The University man had just received a letter from home that informed him about his fraternity pin being put through the washing machine, "D—", he muttered, "and if I had only known, I could have hung it last week."

A CURE

When things go wrong, don't worry.

Milton wrote "Paradise Lost," blind and dependent upon the assistance of his shrewish daughters. Byron had a club foot. De Maupassant produced the most polished short stories in the history of the literary world knowing that he was gradually becoming insane. Poe, dishonored, disowned, his child-wife dying amid abject poverty, wrote masterpieces which will live centuries after him. The diamond is the result of thousands of years of pressure and heat. George Elliott is said to have rewritten all her novels from twelve to twenty times before she considered them good enough to be published. A doctor must study six years before he is even allowed to begin the practice of his profession.

If things go wrong, don't worry. After all, what the world wants is results—not excuses.—Michigan Daily.

GALLANT IOWA SOLDIER WILL REPRESENT STATE AND S. U. I. AT ARLINGTON

John H. Wintrobe A3 of Winterset has been appointed by Gov. N. E. Kendall as one of the three overseas soldiers to represent Iowa at the memorial ceremonies at Arlington cemetery on November 11. There were originally twelve appointed to represent Iowa, but it has recently been reduced to three, there being besides Wintrobe, Adolph N. Nelson of Soldier and Arthur J. Goetsch of Walnut. All three were wounded and all were decorated for extraordinary heroism.

Wintrobe will leave November 7 or 8 to attend the ceremonies at Arlington cemetery, which is not far from Washington, D. C. The services are to be held on Armistice Day and are to be in the nature of a memorial to those men who were killed during the war. One of the parts of the ceremony will be the decoration of the grave of one of the country's unknown dead soldiers buried at the national cemetery. Governor Kendall will be unable to accompany the three Iowa veterans to the ceremony owing to speaking engagements at Grinnell and Des Moines.

John H. Wintrobe, now a junior liberal arts student in the University and one of the three appointed by Governor Kendall to represent Iowa at the ceremonies, was cited for extraordinary heroism in action near the River Ourcq, northeast of Chateau-Thierry, France, on July 30, 1918, and in consequence was awarded the Distinguished Service Cross. A sergeant in Company A, 168th Infantry, Wintrobe "took command of his company when all his officers were killed or wounded and handled it with extreme courage, coolness, and skill under an intense artillery bombardment and machine-gun fire during an exceptionally difficult attack."

Wintrobe is a member of the Beta Theta Pi fraternity, the Rainbow club, which is composed of members of the Rainbow division at the University, and also the Silver Star club, an organization of the federal board men in the University.

CHORAL UNION WILL PRESENT AN OPERA IN DECEMBER

Ohio State, October 27—For the first time in the history of the University an Ohio State musical organization will present a complete opera when the Choral Union offers "Martha" at the annual December concert in Memorial Hall.

The opera is by Flotow and is

characterized by its melody and colorful theme. Some of the arias have passed into the musical traditions of the nation, particularly "The Last Rose of Summer." Other numbers will be given in addition to the opera.

Plans, including a May Festival and outdoor symphony orchestra concert to be given when the Stadium is completed, are being made, with the idea of making the University the musical center of Columbus. Favorable responses have come from the New York and Philadelphia Symphony Orchestras in regard to proposals for concerts to be presented in the open arena of the Stadium.

The same conditions govern eligibility and participation in the Choral Union work as last year. One hour of University credit is given to members who carry work throughout the year.

CORN "I" ONLY ORNAMENT LEFT

Homecoming Decorations All Down But That; City and S. U. I. Like It

"We have with us today"—the corn "I" on the corner of Washington and Clinton. 'Tis the lone survivor of all the Homecoming decorations and features. Gone are the pumpkins and cornstalks, the "Welcome Illinois" banners, the old gold window displays, the headquarters tent, luncheon tables, "Hop In" cars, chrysanthemum stand and engineers' arch.

Every movement has its survival. Homecoming was a widespread movement here at Iowa, covering a period of three days; its survival is found in the corn monument at the entrance of the campus. Perhaps it is a case of the survival of the fittest, for the monument is staunch and strong and has withstood the force of recent high winds. (credit is due here to the work of Prof. Floyd A. Nagler and his group of engineers.)

All other Homecoming decorations have disappeared in one way or another. The window displays have been carefully removed and stored away for use next year at Homecoming time; the "Welcome Illinois" banners have wilted; the cornstalks and pumpkins have died a natural death; the engineers' arch has been removed,—part of it was burned in the all-consuming bonfires which constituted a part of the celebration. Only the corn "I" remains,—and it is likely to remain for some time yet.

Both the city authorities and the University officials are in favor of leaving the "I" where it is for a time, perhaps until the holidays. The city council approves of it for two reasons: first, because it is a distinct decoration for the city; second, because it is proving to be an effective regulator of traffic at this intersection of busy streets. No cutting of corners is possible with the corn "I" in the way.

The University officials approve of it, too; first, because it is a distinctive S. U. I. attraction; second, because the expense and work involved in its erection make it worthy of a longer display.

SURGEONS TO MEET

Armistice Day Sees Prominent Orthopedists Here

A convention of the Society of Orthopedic Surgeons of the Central States, of which Dr. Arthur Steindler, of the children's hospital, is a member, will meet in Iowa City November 11. Forty or fifty orthopedic specialists of outstanding reputation will attend the full day's clinic at the children's hospital. The following day they will convene in Kansas City for another clinic as guests of Dr. T. J. Griffiths and Dr. J. Francisco.

1921 is the first year the organization of orthopedic surgeons has met in Iowa City. It convenes every year, visiting two centers of importance.

Last year the meetings took place in Chicago and Milwaukee.

Three of the prominent doctors who will be present at this year's meeting are Dr. John Rodlin and Dr. John L. Porter of Chicago, and Dr. M. S. Henderson of Rochester, Minn.

A full day's clinic, from 8 a. m. to 5 p. m. is scheduled for the visitors, with an executive meeting from 5 to 6 p. m. Dr. Steindler will entertain the convention at lunch, and a banquet will be held in the evening.

JAPS TO WRESTLE

Ju-jitsu Will Be Exhibited By Two Indiana Students From Japan

An exhibition of the Japanese ju-jitsu will be given between acts at the second of the series of Cosmopolitan club picture shows which will be held in the auditorium of the Student Building tonight. S. Sugiyama, '25, and Eiichi Maekawa, '25, two native Japs will stage the exhibition.—Indiana Daily Student.

WOUNDED VETERANS HOLD JOLLY PROGRAM; MR. RIENOW A GUEST

Mixing business and pleasure at the same time, the Silver Star club, composed of disabled world-war vet-

erans of the University, had an "eat-drink-and-be-merry" time Wednesday night in the liberal arts drawing room. Speaking of the "good time" one member, a former seadog in his "heyday" during the war, said, "It was a sort of a furlough from the daily routine of the University, and we intend to have much of it during the year."

Dean Robert E. Rienow, although not an ex-service man himself, was present, not to impose discipline and order, however, but to aid in the performance of one of the most versatile events of the University thus far attempted this year. The numbers of the program ranged from the serious transaction of the club's business to the more satisfying and palatable work of consuming the "eats", which were plenty and to spare. In between these two ex-

tremes, there were the clever imitation of the Irish brogue, the sweet clanging of the piano, the dexterous wielding of the Indian club, and the more or less amicable exchange of views on the world in general, about the disarmament, the winter clouds, and especially on "by-gone days" that will never come to them again.

That this club of "crippled students" will make good its threat to make the liberal arts drawing room resound with its merry going-on ever and anon, is testified in their minutes. The commanders of the club are: Norman Bickel C2 of South Dakota, president; Melvin P. Winters C4 of Shenandoah, vice-president; L. M. Boatman A4 of Barnes City, secretary; and Fidel C. Arquero A4 of Narvacon, P. I., treasurer.

We're standing by our policy

THERE seems to be a general idea that the only way for a store to get business these days is to quote the cheapest possible prices. Quality has to be lowered in order to do it.

It's all wrong. We're making our clothing low priced but we shall not make it lower priced by selling inferior quality. We'll make prices lower by cutting our profits—not by cutting quality.

We set the all-wool standard for ourselves years ago. We've lived up to it because we know such clothes are best for you.

What's best for you is best for us—today and every other day

## For Percy MacKaye

The University Players were hosts to Percy MacKaye at a tea given from three to five in the liberal arts drawing room, and at dinner at six o'clock at the Jefferson hotel yesterday.

During the afternoon over a hundred students and members of the faculty were introduced to the playwright who was accompanied in the receiving line by Prof. Glenn N. Merry and Prof. E. G. Mabie of the public speaking department, and Marion Smith A4 of Independence, secretary-treasurer of the University Players.

Mrs. William Hart and Mrs. Henry Morrow, of the Iowa City Drama League, Mrs. Glenn N. Merry, and Mrs. E. C. Mabie, poured; Jean Spiers A4 of Reinbeck, Winston Cray A3 of Grundy Center, Marjorie McQuilken A4 of Fort Dodge, and Lucille Everett A4 of Iowa Falls were in charge of the serving. The special committee for the tea was Mildred Freburg A4 of Pomeroy and Frances Smith A3 of Montezuma.

At dinner held at 6 o'clock at the Jefferson Hotel, the idea for the decorations and toast program was taken from Mr. MacKaye's play "The Scarecrow". A large scarecrow formed part of the Halloween decorations of the table. Prof. E. C. Mabie, as toast master, introduced Robert Block L1 of Davenport, Mr. Percy MacKaye, and Lucille Everett A4 of Iowa Falls. The guests of the players were: Percy MacKaye, Prof. and Mrs. E. C. Mabie,

Prof. and Mrs. Glen N. Merry, Prof. and Mrs. G. W. Stewart, Prof. Hardin Craig, and Prof. and Mrs. Philip G. Clapp. The entertainment committee of the Players in charge included: Ray F. Smith A4 of Lakota; Marjorie McQuilken A4 of Fort Dodge, and Lucille Everett A4 of Iowa Falls.

## Delta Zeta

A "Circus" dinner was given at the Delta Zeta house Wednesday night. The decorations for the dinner carried out in circus style, included popcorn balls lemonade and "hot-dogs". In the center of the table was a tent surrounded by sawdust and the place cards were animal crackers. Two of the girls dressed as clowns served the dinner. Seventeen women were guests of the sorority.

Tomorrow night a Halloween dance will be given at the Delta Zeta house. Dr. and Mrs. W. H. Wilson will chaperon. Music will be furnished by Sultzzer's orchestra.

## Housewarming Party

A housewarming party for the student nurses' new home and complimentary to the new probationers will be given Monday, October 31, Halloween decorations will be used.

Last evening the former students of Rockford College, Rockford, Ill., gave a dinner party at the Pagoda.

Miss Ruth Kruger, Kappa Delta of Coe College, is visiting at the Achoth house.

Mary Hensley is spending the weekend at the Alpha Delta Pi house.

## Shelly-Gill

Grace H. Shelly of Newton and Joseph F. Gill '16 were married at Albion, Thursday, October 20.

Mr. Gill graduated from the University in 1915, and has been associated for two years with the Iowa Merchantile company as advertising manager.

Mr. and Mrs. Gill will make their home in Newton after November 10.

## Guthrie-Bridges

Word has been received of the marriage of Isabel C. Guthrie of Cedar Falls and Robert M. Bridges '20 of Chicago, which occurred at Cedar Falls, Saturday morning, October 15.

Mr. Bridges graduated from the liberal arts college of the University in 1920 and attended Columbia University later. He is a member of the Sigma Phi Epsilon fraternity here. He now holds a position with Halsey, Stuart and Company of Chicago.

Mr. and Mrs. Bridges will make their home in Evanston, Illinois, after November first.

## Alpha Chi Omega

Alpha Chi Omega sorority will give a Halloween dancing party at the chapter house this evening. Mr. and Mrs. Terrence McGovern and Mrs. C. C. Burleson will chaperon. Drake's orchestra will play.

Varsity will be chaperoned tonight by Mr. and Mrs. R. B. Ayres and Mr. and Mrs. L. G. Mercer.

Paul Minick A3 will give a dance at the K. of P. hall tonight. Mr. and Mrs. A. Valtiner and Mrs. Montgomery will chaperon.

## Phi Kappa Sigma

Phi Kappa Sigma fraternity will give a dancing party at the Pagoda tomorrow night. Mr. and Mrs. Ralph Grassfield will chaperon.

## Sigma Phi Epsilon

Sigma Phi Epsilon fraternity will dance at the chapter house, Saturday evening. Professor and Mrs. Klingaman, Professor and Mrs. A. O. Thomas and Mr. and Mrs. Armbruster will chaperon.

## Delta Zeta

Delta Zeta sorority will give a party at the chapter house Saturday evening. Prof. and Mrs. W. H. Wilson will chaperon.

## ANNOUNCEMENTS

A Halloween social will be held in the Presbyterian church parlors on Saturday evening at 8 p. m. All students are welcome to attend.

Persons holding unsold season tickets to University Players report at Professor Mabie's office Friday. Kenneth Shumaker, president, board of governors.

## ENGINEER SECTIONS SEE HYDRO-ELECTRIC WORK IN MOVIES

"Recent hydro-electric developments and their applications" was the subject of the moving pictures given last night at the meeting of the engineering societies in the physics building. The pictures were sent out by the Westinghouse Electric and Manufacturing company of Chicago, being taken from the southern California Edison Company, and which were secured by Professor Arthur H. Ford, head of the electrical engineering department.

Each week the different section of the college of applied science, such as the civil, electrical and mechanical meet separately; and once during the month they hold a joint meeting, such as last night's get-together. All senior and junior students are members of these societies and are compelled to attend the meetings for two years before they receive their degrees.

## SIXTEEN SUSPENDED STUDENTS ALLOWED TO ATTEND CLASSES

All of the 16 engineers suspended yesterday morning by the administrative board of the University for alleged participation in the recent class rush in violation of the all-University ruling setting the date for the scrap, are attending classes today. All but three of them, it was

reported last night, came to Dean E. E. Nicholson's office yesterday to sign the pledge promising future observance of University rulings, and these three were permitted to attend classes this morning until the interview could be arranged.—Minnesota Daily.

## BIG TEN NEWSPAPERS SEND INQUIRIES ON HOMECOMING IOWAN

The Homecoming edition of The Iowan has been the cause of the receipt of several letters of inquiry from staff members of other university dailies in the Big Ten. One business manager of a conference university newspaper ordered thirty copies of this issue of The Daily Iowan, while a staff member of another university paper asked a number of questions concerning the printing and editing of the rotogravure section, with the purpose in view, as stated in the letter, of publishing such an issue for that university.

Iowa has the distinction of being the first university to have printed a rotogravure section of its own, which was last year's Homecoming Iowan. Copies of this year's Iowan were ordered by several large city newspapers in this section of the country.

## STATE'S POOR HELPED BY PROF. A. L. COTTRELL OF EXTENSION DIVISION

Important social work among the poor and unfortunate people in towns throughout the state is being done by the extension division of the University of Iowa. Prof. Anna Louise Cottrell of the social welfare section of the extension division has been making many trips to various towns in the state and finds many poor families in need of permanent support.

"Every town should have a social committee which should be organized for the purpose of taking care of the needy families," said Miss Cottrell. "There are only sixteen towns in the state which have organized social committees, which are: Burlington, Cedar Rapids, Creston, Davenport, Des Moines, Fort Dodge, Grinnell, Iowa City, Muscatine, Okaloosa, Ottumwa, Sioux City, Waterloo, Charles City, Council Bluffs, and Newton.

Miss Cottrell goes where she feels her work is required the most. Her last trip was to the northern part of the state. She visited Decorah, Winneshiek county, where she found several families without sup-

port. When insane people are found without support they are sent to the psychopathic hospital here in Iowa City. "Some counties are using many thousands of dollars for social work with little accomplishment," declared Miss Cottrell. "If this amount were used by organized social committees a great deal could be done toward permanent maintenance of these unfortunate families."

## FIFTY IOWA ROOTERS TO ACCOMPANY TEAM ON THE PURDUE TRIP

"We expect to have about fifty rooters accompanying the team to Purdue," said John J. Dondore A3 of Iowa City, president of the Howling 300. "No special train or cars have been chartered by the fans as many will make the trip by auto."

The Iowa fans have not reserved a section in the Purdue grandstand, but expect to be seated together in one portion of the field. The Howling 300 has prepared several standards bearing the words "Iowa Fights" and "On Iowa" which will be placed near the Iowa rooters on the Purdue field.

"I expect to lead yells if there are enough men present," said Dondore.

# BIG TEN TEAMS PLAY SATURDAY

Iowa-Purdue, Michigan-Illini, Wisconsin-Minn., Maroons and Colorado

Every conference team will get into action this week with the exception of Ohio State, who after their elimination of Michigan last week will take a rest. The other nine teams of the conference will be seen in action, although three of them will play teams outside the Big Ten.

The Iowa-Purdue encounter at

Purdue should be an exciting contest. Since their loss at the hands of Notre Dame two weeks ago, the Boilermakers seem to have taken a new lease on life, and after a thorough shakeup of the eleven by Coach Deitz the Purdue warriors look like a winning eleven. The material is certainly there, and if it ever gets started it will be hard for any team in the conference to win from them. Iowa, after a two weeks rest, is prepared for a hard battle, and though some of the Iowa backers are forecasting a twenty or twenty-five point lead over Purdue, it is more probable that the contest will be a very close one.

Notre Dame Doped to Win  
Indiana meets Notre Dame in their annual contest at Indianapolis.

So far this season Indiana has appeared to be a mediocre eleven, beaten as they were by Minnesota, Notre Dame, after losing to Iowa, has been winning with their old time regularity, and is doped to take the contest Saturday. If Indiana does win the contest however, it will be because the Hoosiers have accomplished wonders in a few days' time. As the elevens showed up last Saturday, Notre Dame should win with ease.

Loss of Oss Cripples Northmen  
Wisconsin should have little trouble with "Doc" Williams' Gophers at Madison tomorrow, as Minnesota has not displayed anything very startling yet. With Oss out of the lineup, the Gophers are psychologically defeated before the game is over, even though they put up a good battle against Indiana last week. There is no one on the Gopher squad at the present time who can compare with Oss, and it is extremely doubtful if he gets off the sidelines before the Iowa game on November 5.

Maroons Expect Grapes  
Chicago will tackle a new foe in Colorado which is an unknown hard games this year, and has had practically five weeks of nothing but practice. On the other hand, Chicago has been playing a heavy schedule, and with that experience should give the eleven from the west a trimming. It seems rather foolish to think that a team that could beat Princeton would fall before a team which is as unheard of as Colorado, but stranger things have happened, and the westerners may surprise the conference by winning from the Maroons.

It is hard to dope the outcome of the Northwestern-DePaul encounter. DePaul has not shown very much, but Northwestern looks hopeless as far as the conference is concerned. It may be that Northwestern will succeed in taking the contest, but it will probably surprise them if they do it.

Michigan May Meet Upset  
The Michigan-Illinois game will attract the most attention of any game in the middle west. Illinois is already eliminated as far as the championship is concerned, and the Illini are anxious to have at least one conference scalp on their belts. It is a certainty that Zupke will do his best to eliminate Michigan in tomorrow's game, and if he succeeds in so doing, the race will again have an entirely different aspect.

## UNIVERSITY GROWTH MAKES NEED OF CIVIC CENTER OR UNION

During the last few years the world has undergone a great change in education, progressing at a rapid rate. Not many years ago the average person could take all the courses offered by the University in four years, but if this were attempted today it would take him just eighty years to cover every course of study offered here at the University of Iowa.

Domestic science, manual training and many other similar courses have only been established during the last few years. In this modern day the people turn more to subjects which are of a practical value to them. The world looks toward the college-trained student as a leader in the future and expects him to take charge of the civic movements for the betterment of the community, for he knows what is necessary in the line of improvements for the progress of the community.

In order to give the student a better insight into civic matters and community problems the University of Iowa recognizes the need of a civic center where the individual may secure all of these things and develop himself in the best manner. The one way to accomplish this great task is through some medium such as the proposed Iowa Memorial Union. The alumni and friends of the University insist that this is the one way that Iowa can care for the great social problems of the student body. The Union building will cost \$1,000,000 and will be erected some place on the campus in order to give it a place that will be of the greatest advantage to all the students of the University.

Michigan and Purdue Build Unions

Iowa alumni are not the first to recognize the need of such an institution on the campus. The alumni of the University of Michigan have already constructed a Union building costing nearly \$1,500,000 which is a monument to the loyalty of the alumni of that University. Purdue is ready to break ground for her new Union building which will cost \$1,000,000, of which \$800,000 has been raised and the rest will be subscribed before the building is completed. The city of Lafayette, Ind., the home of the University, gave \$100,000 of this total sum.

University Towns Donate  
Kansas university Union will be built soon, as \$615,000 of the \$1,000,000 has already been raised. Lawrence, Kansas, the home of this university, gave \$140,000 of this sum. The University of Missouri is trying to raise \$500,000 for their new Union building. The alumni and the citizens of Columbia have donated \$325,000, the town of Columbia having given \$100,000 of this amount. The University of Illinois, Ohio State university, the University of Minnesota, the University of Wisconsin, and our own neighbor, the Iowa State college at Ames, are all raising funds for their Union buildings and all report great progress thus far.

## GOLF BECOMING POPULAR SPORT IN UNIVERSITY

Golf as a University sport has been talked of more this year than ever before. Several promising men are in the University this year, including Lee Herrin A1 of Le Mars, the winner of the tournament at the lakes this summer, also runner-up at the invitation meet at Spencer; Paul Barton D2 of Fort Dodge, another promising man regarded by golf critics as one of the best amateurs in the state; Harold Lehmkuhl S2 of Independence, winner of the tournament at Independence for the last two years; Lester Stebbins A4 of Cedar Rapids; Lloyd H. Koch A3 of Saint Ansgar; and John J. Donore A3 of Iowa City.

Practically every one of the Big Ten schools has adopted golf as a sport. Michigan, Minnesota and Wisconsin are planning on having a tournament this spring. With Iowa's material, why couldn't we join them?

Besides the students, several of the faculty are interested and would like to see it established as a major sport in the University. Prof. Charles F. Ward of the department of Romance languages, Prof. J. Hubert Scott of the department of English, Dean Wilbur Teeters of the college of pharmacy, Coach Howard H. Jones, and Prof. Rudolph Kuever of the college of pharmacy are some of the faculty members who indulge in the sport.

## MAY USE MAGNAVOX TO LET PUBLIC HEAR RADIO-PHONE MUSIC

The University of Iowa Now Has One of Most Complete Stations in Middle West

Students may soon have the opportunity of hearing radio-phone music, according to officers in charge of the University's wireless station. The electrical engineering department plans to install a Magnavox by which radio-phone music will be intensified sufficiently so that concerts can be given in the natural science auditorium.

"We are now receiving music from many portions of this state," said Carl Menzer G of Lone Tree, chief operator, "and if the Magnavox is installed musical concerts will be given."

Hear From European Cities  
The University of Iowa has now one of the most complete amateur wireless telegraph and telephone stations of any university in the middle west, according to Prof. Arthur H. Ford, head of the electrical engineering department.

"We are now able to receive wireless telegraph messages from all parts of the United States and from the principal countries of Europe," said Professor Ford. We very often get messages from Berlin, Paris, and other cities of Europe. We have recently installed a new set of instruments by which we are able

to transmit messages to all parts of the United States and Canada." The University of Iowa is a member of the Western Conference Radio News Service association, which is composed of all the large universities in the West except Indiana. Results of football games and local university news are relayed between the members of this association.

Hindered By U. S. Stations  
"The government station across the river offers too much interference during the day," declared Menzer, "so that most of our receiving is done during the night. The University is not yet offering any courses in wireless telegraphy at present, but we hope to in the near future."

"We are now installing a set of wireless telephone instruments which will enable us to receive and send telephone messages to all parts of the United States," said Professor Ford. "Iowa and Wisconsin are the only two universities in the Middle West that have wireless telephone outfits. Last year we were able to receive radio telephone messages and music by wireless from places hundreds of miles away, and with these new instruments we will probably have the most complete outfit of its kind in the Middle West."

## NEW SEALS WILL BE CHOSEN AT TONIGHT'S MEETING OF CLUB

The women who will become members of the Seal's club, honorary swimming club for women, will be chosen at a meeting of that organization this evening at five. Members are chosen according to their ability in swimming for time, in form swimming, and in diving.

The tryouts were held Wednesday night in the women's gymnasium. They proved very successful, with thirteen upperclasswomen tryout cut. The tryouts for all freshmen women will be held later in the year.

Those who tried out are: Edna Grimm A3 of Clear Lake; Genevieve Hansen A3 of Clear Lake; Katherine L. Farthing A2 of Creston; Alice Sherwood A2 of Creston; Carol Carter A2, and Charlotte Fisk A2 of Iowa City; Katherine Kox A2 of South Dakota; Katherine Alexander A2 of Atlantic; Celestia J. Presson A4 of Iowa City; Amy Louise Bengner A2 of Keokuk; Florence M. Zentner A2 of Bellevue; Dorothy Harriman A2 of Clear Lake; and Margaret Atwater A2 of Milwaukee, Wisconsin.

# MEDALS GO TO 12 RECORD MEN

### Award To Track Athletes Is Permanent; Three Men Not Here

November 11 has been designated as the day for the awarding of record holder's medals to the twelve University men who now hold the University records in the standard track and field events. The medals will be awarded at a mass meeting to be held on the night preceding the Iowa-Indiana football game.

The medals themselves, which are now on display at Racine's No. 2, are handsome gold emblems swung

from a beautiful silk pendant in the old gold and black colors. On the front side of each medal is a picture of Old Capitol, with the words "University of Iowa Record Holder" inscribed around it. Engraved on the back of the medal is the name of the holder, the year in which he made the record, the event in which he made it, and the time or distance which he made.

**Medals Are Permanent Award**  
Decision to award these medals was reached at a recent meeting of the board in control of athletics. These medals will be the permanent property of the men to whom they are given and will be an extra recognition aside from the mere recording of the fact on the shields in the gymnasium as has been the custom in former years.

Of the twelve men who will receive medals nine are still in attendance at the University. Those who are not now attending the University are J. M. Friedlander and J. R. Hill, who were members of last year's half-mile relay team that traversed the distance in 1:28 2-5. Both of these men have graduated. Another man who is not now in school but who will be awarded a medal is G. S. McIntire, holder of the University record in the mile run. His time was 4 minutes and 36 seconds. He is now a student at Ames.

**Wilson's Time Near World Marks**  
Other men who made their records during the 1921 track season are: E. C. Wilson, holder of the University record in the 100-yard dash, with a time of 9 4-5 seconds, 220-yard dash with a time of 21 2-5 seconds and the half-mile relay with a time of 1:28 2-5; F. O. Seiling, a member of the half-mile relay team; L. V. Peterman, holder of the two-mile run record, which is 10 minutes and 3 3-5 seconds; H. A. Crawford, holder of the record in the high hurdles which he ran in 15 3-5 seconds, and point holder of the low hurdles which he ran in 25 4-5 seconds; C. R. Brookins, joint

holder of the low hurdles record; and E. P. Hoffman, holder of the University high jump record of 6 feet 2 1-8 inches.

Those who made their record in 1920 and will be given medals are: Aubrey Devine, holder of the record of 11 feet 5 1-2 inches in the pole vault; F. W. Slater, holder of the record of 41 feet 4 inches in the shot put; and L. C. Belding holder of the former record of 26 seconds in the low hurdles.

### LUTHERAN CLUB HOLDS ELECTION OF OFFICERS

The Lutheran club held its first meeting of the year Wednesday and elected officers and new members. Edmund Rausch A4 of Waverly was elected president, Jasper Johnson A4 of Belmont vice-president, Florence Miller A3 of Iowa City secretary, and Anna Schmidt A3 of Dexter, treasurer. Eighteen new students were also elected to membership in the club at the same time.

Plans for a mixer to be held in a few weeks which will give the members a chance to become acquainted with each other were also considered. The club is a new organization, the plan being conceived only last spring.

About fifty old members have returned this year, and the following were elected to membership Wednesday: Oscar Hoth A1 of Westgate, Marguerite Brueckner G of Iowa City, William Woiwod A2 of Garner, Otto Kraushaar A2 of Waverly, George Bolk A1 of Sheffield, Hans Luthro A1 of Sheffield, Harold Havig A3 of St. Ansgar, Roy Miller A1 of St. Ansgar, Margaret Kurtz A1 of Fontanille, Laura Sherck A1 of Iowa City, Caroline Madsen A1 of Bradgate, Melinda Lenthe A1 of Reinbeck, Elida Larson A1 of Esterville, Nellie Yargo A1 of Griswold, Hazel Samuelson A1 of Iowa City, Lulu Dettner A1 of Sarnaville, Victor Hoeg A1 of Decorah, and John Samuelson A1 of Iowa City.

### SHAVINGS

(Chips From Many Blockheads)

He mixed his beans with honey. He did it all his life. 'Twas not because he liked the taste— It held them on his knife.

Having been hounded so much by ye editors about looking out for misspelled words, one of the demon reporters rushed into the Iowan office yesterday with the startling announcement that on the frieze around the top of the physics building Galileo was spelled Galilei.

And if you don't believe it, look for yourself, he says. Yes, being as there are only thirty-six such names on those former "greats" put up on that building at various intervals, it really shouldn't be much of a job to determine whether Galileo was spelled Galileo or Galilei, or either, or both.

### TWO-BITS, PLEASE

I have witnessed Ziegfield's follies, I have seen Mack Sennett's dollies, And admit they're very pleasing to the eyes, But for charm and fascination I must state in admiration That our co-eds here at Iowa take the prize.

—Steve.

It appears to us that the above should exempt the incomparable

Steve to at least a couple of trips to the Choc Shop.

The mystery about the abundance of Wednesday night parlor dates this week was explained when it was discovered that all chaperones of sorority houses and dormitories were away attending a meeting all evening.

Of the 5,843 students now in the University

- 5843 will read this paper.
- 2417 will read this column.
- 2416 will wish they hadn't.
- 3 will laugh.
- 1 will send in a contrib.

—H. D. R.

### HORRID BIOLOGY MEN MAKE OFF WITH CATS

A flashlight shone suddenly through the sorority window. Then followed a muffled sound of masculine voices uttering excited commands. Then silence, and the robbers had escaped; the piercing shrieks and wails of a few frightened coeds only remained.

The house was searched but no diamonds, other jewelry, or fur coats were missing; but the place had been robbed, for three men, accompanied by a gunny sack, were seen prowling around the house and escaping.

The next morning Tabby, the family cat, was reported missing; and several other pussies of the neighborhood were also gone.

Housewives, landladies, and even some students are bewailing the loss of their favorite cats which have been carried off by those horrid biology students in their nightly prowls in search of cats.

Beware! They are after cats. Watch yours closely or you may find him carried off in a sack to the biology laboratory all ready to be dissected.

### MRS. MAYER TO ATTEND DISARMAMENT CONFERENCE

Mrs. Max Mayer of Iowa City, national president of the Service Star Legion, will attend a state delegate conference on the limitation of armament which will be held in Des Moines, October 28.

The following will give addresses at the conference: Governor Nate Kendall, Mrs. Max Mayer, J. R. Howard, president of the National Farm Bureau Federation, Bishop Homer Stuntz of Omaha, Mrs. T. G. Winter of St. Paul, president of the National Federation of Women's Clubs, Dr. C. S. Medbury of Des Moines, Daniel Steck of Ottumwa, state commander of the American Legion, and E. T. Meredith of Des Moines.

The Methodist sophomore women will entertain the Methodist freshmen women at a Hallowe'en mixer at 7 p. m. Friday evening at the church.

## BETTY COMPSON

in "At the End of the World"

All the men she had ever known were the guzzling, gambling rabble that drifted through her father's den in Shanghai.

And when she was left the prey of three who loved her—a wandering writer, a sailor and a thief—

Come see the rivals' primitive struggle that ended—how?

A melodramatic film sensation of underworld, wreck and glorious regeneration. Suffused with the lure of the sea and the Unknown East.

Another heart-filling Betty Compson triumph like that in George Loane Tucker's "The Miracle Man."

Cast Includes Milton Sills, Mitchell Lewis, Casson Ferguson and Joseph Kilgour

### ILLINI QUARTET MEETS GRIEF

#### While Serenading Sorority, Angry Neighbor Calls Urbana Police

Urbana, Ill.—After awakening the women of the Alpha Gamma Delta house with a half hour serenade, the Ag Club quartette was arrested at 2 o'clock yesterday morning by the Urbana police. Those grasped by the firm hand of the law were Frank H. Shuman '23, Frank G. Makepeace '23, Richard W. Jeffery '22, and Alvin W. Craver '22.

The Ag quartette is one of the best known combinations of vocal artists on the campus. The Alpha Gamma Deltas are said to have been duly thrilled and appreciative; they applauded loudly although not noisily, just enough so as not to overreach the bounds of ladylikeness. The quartette waxed more vociferously as they warmed into their work—they had previously made but thirteen visits.

It is said, by those who know, that a resident living in the near distance, felt the need of nocturnal rest. So she called the police.

The Agmen appeared before Police Magistrate U. G. Martin yesterday afternoon. Said the judge: "Um! I was young once myself. Case dismissed."

### CLASS PRESIDENTS HAVE MADE NO APPOINTMENTS

No appointments on class committees have yet been made by the class presidents. Frank Shimek, senior class president, stated that the appointments would be made within the next two weeks, and also arrangements for the annual Senior Hop.

The junior president, Barney Dondore, also stated that no class committees had been appointed but that they would be in the next week or so.

"Pete" Halford, who guides the sophomore ship of state said, "I have been giving the matter due consideration and the appointments will be made soon."

Likewise the freshman class committees have not been appointed by the president, Roscoe Holm, although the freshman party will be given sometime before New Years.

### THE IOWA MEMORIAL UNION WILL PROVIDE A MEETING PLACE

The Iowa Memorial Union is expected to have a great effect upon the enrollment of the University when it becomes a reality upon the campus. It will provide a place for students to meet their friends and hold their meetings, to stop between classes for a few words, for a smoke or to look over that lesson for the next class. All these things tend to bring the students closer together for a more loyal student body. They will bring the faculty and students closer together by having a common place of association for every one who is connected with the University. The enrollment of the University has doubled since 1910 and with the Memorial Union the effect upon the enrollment in the future will be even greater than it has been in the past.

#### Loyalty Not Questioned

"The loyalty of the former students of the University has been of a passive form," says Ralph G. Grassfield, director of the Iowa Memorial Union. "They know little of their University and what it is doing but when they hear of a few things that Iowa has done and what it is going to do in the future their loyalty is not questioned the least bit." There has been no trouble in organizing the Memorial Union campaigns in the counties where the alumni are located. They respond to a man and all work for a better and a greater Iowa. Iowa has no funds to make it possible to keep in touch with her alumni which a privately endowed institution is able to do, and for this reason the alumni are in the dark as to what their University is doing. When the alumnus is told what is happening at the University and what has been accomplished in the last few years he wakes up and shows that he is loyal to Iowa by his work for the Memorial Union.

When he is told of the new college of commerce and of its wonderful growth since its organization only a few years ago, of the football team that we have this year, and the track team that we had last year, of the new childrens hospital and the proposed medical buildings, the rank of the college of medicine and the college of dentistry, the old Iowa spirit is awakened once more and he is all for Iowa.

#### Influence Shown

The influence of these alumni has already been shown by the number of students attending the University from the different counties that have Memorial Union organizations at the present time. Jasper, Clinton, Scott, Linn and Muscatine counties all have Memorial Union organizations and they are represented by more students than most of the other counties.

### NEW AMENDMENT TAKES POWER FROM WOMEN'S ASSOCIATION

The self-governing power of the administrative board of the Women's Association was greatly impaired by a constitutional amendment which was passed at the meeting of the executive council last Tuesday. Several minor changes were also made in the constitution, but the most important alteration was that of Article VII, Section II, which defines the duties of the board.

Faculty Senate Changes Amendment Section II, as presented to the faculty senate read as follows: "Duties. The administrative board will consider all cases referred to it, and administer such penalties as may seem advisable, except those cases involving students' official relation to the University which shall be referred to the dean of women. Cases involving both men and women will be referred to the dean of men and the dean of women. Members of the board shall report all violations of rules which come under their observance."

This article, however, was very much weakened by the amendment presented by the faculty senate. Section II now reads: "Duties. The administrative board will consider all cases referred to it by the dean of women, and recommend such penalties as may seem advisable." It was thought desirable by the executive council to pass the amendment as above.

#### Board Now Powerless

Lue Prentiss A4 of Iowa City, president of the Women's Association, in commenting on this action said, "The amendment renders the Board practically powerless and entirely dependable upon the will of the Dean of Women. We feel sure, however, that the faculty is anxious to cooperate with the students in this matter and that as soon as we prove our ability to handle such matters as are referred to us, we shall receive more self-government."

# CAPITOL LIGHT TO FLASH AT 9

## Arlington Wireless Will Give Correct Time to Us Nightly

Beginning tonight, the correct time will be flashed from the light on top of the Old Capitol building at 9 o'clock every night by operators of the local wireless station who will receive it direct from the station at Arlington, Virginia.

"The station at Arlington will receive the time from the naval observatory and it will not vary more than one-hundredth of a second when received here", said Carl Menzer G of Lone Tree, who is in charge of the radio station here. "The light on Old Capitol will be controlled from the wireless room, and a system of flashes will be used to give the public the right time."

At five minutes to nine the light will go out, then will flash on and off for four minutes and one-half. At that time the light will go out for one-half minute, and promptly at the hour the light will flash on and remain lighted. A key in the wireless room will control the light which will flash at the same time the flash is received at the radio room.

Arrangements have been made to have operators on duty every night here so that there will be no chance of the time failing to come. It is estimated that the light on Old Capitol can be seen for six or seven miles.

A great deal of interest is being shown by the students and townspeople in the new arrangements.

### ORGANIZATION OF STUDENTS OF APPLIED SCIENCE FORMED

A new organization, which is to be called the Engineers' society, has been formed. It is composed of members of junior and senior classes of the college of applied science. This organization includes all the branches of the college of applied science, mechanical, civil, chemical, electrical and architectural.

#### Society is National

The society is by no means a flimsy local organization, but is directly affiliated with the National Society of Engineers, each branch of the organization here being in touch with and directly related with its particular corresponding branch at national headquarters.

The organization here has chosen Walter C. Brandes S4 of Fort Madison to act as president over the entire organization of five branches. The society consists of 140 members, seventy-five of whom are juniors and sixty-five seniors.

#### Meetings Every Month

The regular meetings of the body are to be held every month. Two or three meetings of a social nature will also be held monthly.

The society is an outgrowth of the original Engineers' society that has been in existence at Iowa for some time. The old organization was made up of any engineer who cared to join. The importance of such an organization, however, has grown until the faculty has seen fit to promote a general reorganization of the society.

### TWENTY-FOUR MEN AND FIVE WOMEN LEAVE UNIVERSITY

Twenty-nine students, twenty-four men and five women have cancelled their registration in the University. Twenty-eight of those leaving before the close of the first month's work were freshmen, only one being an upper classman.

The most of the men who were forced to postpone their University work did so because of financial difficulties, according to Dean Robert E. Rienow. A large percentage of students come to the University expecting to work a whole or part of their way through by working their spare time waiting tables, firing furnaces, doing clerical work and many other lines of work about the University and the city. Many of those who come with very little in the way of cash can manage to find enough profitable employment for odd hours to enable them to continue their University career.

#### All Cannot Find Work

The increase in enrollment this year and the great demand for outside employment has made it impossible for all those seeking work to find it. Dean Rienow finds that students come to the University with as little as \$35 to begin their University life. It is very difficult for a student to carry the work expected of him and earn his entire way during spare moments.

"It is probable that most of the men who have left the University have done so because of the lack of work and sufficient cash to meet immediate expenses," said Dean Rienow.

Only four freshmen women have cancelled their registration. Of this number two left their work here to register in some other university.

### KANSANS PARADE IN THIN EVENING ATTIRE

Lawrence, Kas.—The most successful night shirt parade ever held, was the opinion expressed by those participating after the annual affair last Saturday night. Everything in the celebration followed schedule from start to finish and there was not a dull minute from the time the parade left the gymnasium, till the picture shows were out after midnight. The rowdism and property damage of previous years was lacking.

### NEBRASKA CO-ED CYNIC THINKS MEN ENIGMAS

Lincoln, Nebraska—Once upon a time I thought I knew men, and that I could marry one with my eyes closed; but alas, I have found that if you flatter a man it frightens him to death, and if you don't flatter him he is bored to death.

If you permit him to make love to you he gets tired in the end; and if you don't he gets offended in the beginning.

If you believe all he tells you, he thinks you are a fool, and if you doubt him he thinks you are a cynic.

If you agree with him in everything you cease to interest him, and if you argue with him in anything you soon cease to charm him.

If wear gay colors, rouge and startling hats he hesitates to take you out, but if you wear little brown toques and plain tailor-mades, he takes you out and gazes all evening

at some other woman's gay colors, rouge and startling hats.

If you are jealous of him he simply can't stand you; if you are not he can't understand you.

If you join in his gayeties and approve of his smoking, he vows that you are leading him to the devil; if you disapprove of them he vows that you are driving him to the devil.

If you are affectionate, he soon tires of your kisses; if you are cold, he soon seeks consolation in some other woman's kisses.

If you are cute and babyish, he longs for a mental mate; if you are brilliant and intellectual he longs for a play-mate, and if you are temperamental and poetic he longs for a help-mate.

But he falls just the same.  
—Vera Coy.

### MAGAZINE EDITOR WILL LECTURE HERE IN DECEMBER

Edward T. Devine, associate editor of "The Survey" since 1812 will be here for a series of lectures and conferences under the auspices of the college of commerce during the first week in December. Mr. Devine gives addresses and short courses of lectures before city clubs, chambers of commerce, rotary clubs, women's clubs, social worker's organizations, colleges and universities, and other educational institutions interested in current social problems.

Mr. Devine was professor of social economy in Columbia University from 1905 till 1919, and has been prominent in Red Cross work. He has also been general secretary of the New York Charity Organization society, and director of the New York school of philanthropy.

### NO MORE CIVILIAN CLOTHES FOR R. O. T. C. AFTER MONDAY

Beginning Monday, October 31, all members in all units of the R. O. T. C. will wear the prescribed uniform at all military classes.

This year each section is to be inspected as to condition, fit, and completeness of uniform at the third period of the week beginning October 31. This inspection will be made by the professor of military science and tactics, Lieut. Col. Morton C. Mumma.

A club room for cadet officers and non-commissioned officers is to be fitted up at the new armory as soon as the military department moves over there, which will be, according to present plans, about the middle of December. This club room will have a library in connection

with it which is to be furnished by the profit which the military department receives from the sale of the R. O. T. C. textbooks which are required to be used by all members of the R. O. T. C. this year.

According to Captain M. O'Keefe, these textbooks have been approved

by the War Department and each student must provide himself with a copy. In cases where two students room together one copy will suffice for both. The texts are appropriately colored green for the freshman course, while those for upper classmen are of another line.

## OFFER FRENCH FELLOWSHIPS

Society of Field Service Men Will Aid American Scholars

The society for American Field Fellowships for French Universities will offer for open competition among graduates of American colleges and other suitably qualified candidates a number of fellowships not to exceed twenty-five. The fellowships to be awarded this year by the society will be good for the academic year of 1922-23 in the French Universities.

The appointees will be chosen at large from the colleges and Universities of the United States. The necessary qualifications to compete for the fellowships are: The candidate must be a graduate of an institution requiring four years to obtain a degree or of a professional college which requires at least three years of study for a degree. The competition is not limited to college men however. Any citizen of the United States who is between the ages of twenty-four and thirty and who has been employed in one establishment for five years performing work which requires technical knowledge and skill is eligible to compete.

### To Preserve Fraternal Spirit

College graduates to be eligible must be at least twenty and not over thirty years of age besides being citizens of the United States.

The purpose in awarding the fellowships is to provide a memorial for the one hundred and twenty-seven field service men who sacrificed their lives in the late war. The society for American field service fellowship for French Universities also wish to preserve the fraternal spirit existing between the United States and France during the war. The society is taking as a means to promote and perpetuate this friendship the awarding of fellowships in French Universities to American students. Occasional fellowships for French students in American institutions will also be awarded within the next few years.

### Financial Aid Offered

The financial aid which goes with the fellowship amounts to \$200 and 10,000 francs. The \$200 is paid in June and the remainder of the money is paid in two installments of 5,000 francs each during the year for which the fellowship is awarded.

An excellent opportunity is offered by these fellowships for any graduate student who wishes to obtain the equivalent of a doctor of philosophy degree in any one of the many French institutions of higher learning. Besides the University of Paris and the Government universities, the fellowships will admit American students to any one of the sixteen principal provincial institutions scattered throughout France. Appointees are urged in fact to attend one of the provincial Universities as a better knowledge of the French language can be gained more readily at these places than in Paris.

### Renewable Second Year

The fellowships are renewable for a second year upon application if a record of satisfactory progress during the first year is obtained by the student from his instructors. This provides the student with ample time to receive a degree in most branches of learning which he might select. Their "doctorat d'Etat" which is the ordinary state degree is awarded to professional students and which entitles them to practice their profession, will not be given to American students for it is limited to students of French birth and nationality. A degree from the University showing that the student has covered the same ground that would entitle him to hold a state degree will be awarded instead. In the case of branches of study not recognized by the state, the University will supply a degree for work satisfactorily completed. For students not wishing to obtain a degree, a certificate of proficiency will be given for one year or more of work showing the ground that has been covered.

### Many Courses Given

Study may be pursued in over thirty different lines covering a wide range of subjects. A few of the things that can be taken up in the French Universities are agriculture, criminology, classic languages and literature, law, medicine, Oriental literature and philosophy, psychology, Slavic languages, and sociology. This list merely gives a slight idea of the versatility of the French University.

Further information regarding the fellowships may be obtained at the office of the graduate college, room 108 Physics building.

## WOMEN WORK HARD FOR "I"

Requirements For Letter Includes Difficult Tasks

If men had to do what women have to do to win an "I", few men would be wearing the athletic letter, according to Pauline Spencer A3 of Des Moines, president of the women's athletic association. For instance, a man gets an "I" for winning a first in a dual meet or a point in a conference meet. A woman who is highest point winner in a track meet scores 100 points toward an "I", and it takes 1000 points to win the letter. Swimming meets and tennis tournaments for women are scored the same way. In all three sports, the woman who finishes in second place scores seventy-five points and in third place, fifty points. Anyone who enters the meet gets ten points.

### Must Belong to W. A. A.

To win an "I" a woman must be a member of the W. A. A. and to qualify for membership it is necessary either to hike twenty-five miles, five miles at a time, or to swim for thirty minutes at a time fifteen times within six weeks, or to paddle a canoe to Coralville and back four times.

Making a first team in field ball, soccer, basketball, hockey, dancing, swimming, gymnasium, or baseball counts 100 points toward winning an "I". Making a second team counts fifty points, but swimming and gymnastics there is only one team. Numerals are awarded to women making first teams.

An A grade in freshman or sophomore gymnasium work counts fifty points and an A grade in certain elective courses counts twenty-five points. Any student taking these courses scores five, ten, or fifteen points, according to whether the course is for one, two, or three hours a week.

A woman's "I" is an old gold letter on a black sweater. The number of stripes on the sleeve indicate the number of years she has spent in the University.

### Two Years Necessary

It is almost impossible for an "I" in one year, but it has been done in two years. In order to make it in two years it is necessary to have played on three or four teams each year in addition to winning a tennis tournament, a swimming or a track meet. At present only six University women have won "I's". They are C. Pauline Spencer A3 of Des Moines, Lorena Bowen A4 of Iowa City, Julia Darrow A3 of Columbus Junction, Dorothy O'Donoghue A4 of Storm Lake, Rosamond Read L2 of Postville, and Ruth P. Zorn A3 of Montezuma.

### LAW STUDENTS ELECT VAN LAW AND DOUD TO POSTS IN SOCIETY

The Iowa Law Students association held election of officers Wednesday evening. James Van Law L1 of Marshalltown was elected secretary, Allen Doud L1 of Doud, treasurer. Joseph Pollock L3 of Le Claire is president of the association.

Nothing has been done so far in connection with the law jubilee other than the appointing of Fred Steiner L2 of Corydon manager of the jubilee committee.

### "MATER" GIVEN LAST NIGHT AT NEW THEATRE

(Continued From Page One) ties have come to regard this art as a vital matter. The essence of dramatic literature is to look into our own hearts, and mirror beauty in them by human voice." In conclusion he said that the University people were the ones to lead drama out of the slough which has formerly surrounded it.

### HAWKEYES DESCEND ON BOILERMAKERS

(Continued From Page One) Coach Howard H. Jones spoke to the third string and told them he was sorry that he could not take them along on this trip, as he appreciated the efforts that they were making to help Iowa's football team. He said that while the plans were not matured yet it was possible that the entire squad would be taken to the Minnesota game. He also urged them to keep on fighting for places on the next higher team where their work would attract more attention.

Barney Dondore, University cheer leader, is going to take his megaphone along to Lafayette to help the Iowa people who will be there yell for Old Gold.
