CAST SET TO PLAY COMEDY THIS EVENING

Actors and Managers All Inters will Enact Dramatic Class

FEW SEATS ARE UNSOLD

Stage "Mostly A Do About Nothing" at Eight in University Theatre

With but very few seats left un- sold and final rehearsals over, the management, which has been re-recently ready, the class in dramatic production, under the supervision of Professor Clift, will present its play to the public for the first time in its stage production of "Mostly A Do About Nothing," which was delightfully adapted from the popular comedy by Shakespeare. "Mostly A Do About Nothing," as its title indicates, will be offered to the patrons of the University Theatre at 8 o'clock tonight.

Committee Rehearsal

The principal cast of the entire folk tonight will be distinctive in its own way in the present and in the past because in all probability it will be the first professional play to have a production that has ever been presented on the campus of the University of Iowa, under the supervision of Professor Clift, art director of the theatre.

The class in dramatic production prepared an entire stage production, which it planned with the idea of putting all the elements together in a spectacular manner. The stage design, the costumes and the lighting are the work of the entire class. The entire stage play was constructed in the manner of the complete stage production, including all departments of stage management, stage properties, stage settings, stage costumes, stage properties and stage lighting. The play will be presented by the class this evening at 8 o'clock.

PI Beta Kappa Initiates Six

Program and Banquet at Pagaon Last Night After Initiation

Initiation ceremonies into Pi Beta Kappa, honorary scholastic fraternity, were held last night. Thirty women were initiated who were followed by a dinner at the school hotel.

The initiation program consisted of the long awaited ceremony at which Miss L. Lotus, president of the Iowa chapter in the University, presented the six new members to the University. Miss Lotus, in a short address, congratulated the newly initiated class of Pi Beta Kappa by Miss Kells, S. M. L., and Miss Gates, T. E. M. Isbey, head of the crowd.

The dinners given at the dawn of the initiation were an address from the initiates, President of the University, and Dr. F. L. Stover, professor of English, who delivered a short address in which he congratulated the six initiates.

Pi Beta Kappa was established at the University of Michigan in 1897 and is the first chapter of the high intellectual order. Its purpose is to develop those qualities of the mind that are the most important in the formation of the complete college graduate.

Mrs. Anser told of the origin of Pi Beta Kappa, saying that it was founded at the college of William and Mary in 1848. It was the first Greek letter fraternity in America, and one of the first chapters to be installed in the United States. Practically all of the present chapters of Pi Beta Kappa are located in the present and former confederate states. The chapter at the University of William and Mary was the first chapter to be formed in the United States. It was organized in 1848 and was the first chapter to be formed in the United States.

Although Pi Beta Kappa is claimed to be the most important of the Greek letter fraternities, it is possible that the members of Pi Beta Kappa are more interested in the present and former confederate states than in the present and former confederate states.

Significance of Key

Mrs. Anser emphasized the importance of the Pi Beta Kappa key. The key is a silver square. A standard pin was decided upon and passed by the members. It is used to denote the degree in which the key is held in the hands of the person who wears it. The key contains the letters of the alphabet and the numbers 2 and 4. It is a symbol of the character of the wearer and the year of the wearer's graduation. The other side of the key contains the Greek letters which symbolize the word Pi Beta Kappa and three stars placed in the upper left hand corner and a hand under the three stars, which is the right hand side of the key. The key seems to be able to be worn on the finger like a ring. The key was designed for the purpose of giving the first member to wear it a symbol of recognition and a symbol of recognition and a symbol of recognition.

Vanier Stronger

After a long talk during which the initiates were given a detailed idea of the significance of the key, President Vanier declared that any member of Pi Beta Kappa who was not a member of the fraternity was not a member of the fraternity. The phrase "Pi Beta Kappa" means that the initiate is a member of Pi Beta Kappa. If the initiate is not a member of Pi Beta Kappa, he is not a member of Pi Beta Kappa.

Vanier also emphasized the importance of the key. He said that any member of Pi Beta Kappa who was not a member of the fraternity was not a member of Pi Beta Kappa. The phrase "Pi Beta Kappa" means that the initiate is a member of Pi Beta Kappa. If the initiate is not a member of Pi Beta Kappa, he is not a member of Pi Beta Kappa.

Vanier also emphasized the importance of the key. He said that any member of Pi Beta Kappa who was not a member of the fraternity was not a member of Pi Beta Kappa. The phrase "Pi Beta Kappa" means that the initiate is a member of Pi Beta Kappa. If the initiate is not a member of Pi Beta Kappa, he is not a member of Pi Beta Kappa.

Vanier also emphasized the importance of the key. He said that any member of Pi Beta Kappa who was not a member of the fraternity was not a member of Pi Beta Kappa. The phrase "Pi Beta Kappa" means that the initiate is a member of Pi Beta Kappa. If the initiate is not a member of Pi Beta Kappa, he is not a member of Pi Beta Kappa.

Vanier also emphasized the importance of the key. He said that any member of Pi Beta Kappa who was not a member of the fraternity was not a member of Pi Beta Kappa. The phrase "Pi Beta Kappa" means that the initiate is a member of Pi Beta Kappa. If the initiate is not a member of Pi Beta Kappa, he is not a member of Pi Beta Kappa.

Vanier also emphasized the importance of the key. He said that any member of Pi Beta Kappa who was not a member of the fraternity was not a member of Pi Beta Kappa. The phrase "Pi Beta Kappa" means that the initiate is a member of Pi Beta Kappa. If the initiate is not a member of Pi Beta Kappa, he is not a member of Pi Beta Kappa.

Vanier also emphasized the importance of the key. He said that any member of Pi Beta Kappa who was not a member of the fraternity was not a member of Pi Beta Kappa. The phrase "Pi Beta Kappa" means that the initiate is a member of Pi Beta Kappa. If the initiate is not a member of Pi Beta Kappa, he is not a member of Pi Beta Kappa.
Shakespeare Comedy

The play is divided into five acts.

BADKERS CLOSE CONVENTION AT HOME TODAY
Course Has Been a Decided Success, Says Phillips
BANQUET AT PAGODA
Many Iowa Bankers, Business Men and Students Enrolled in Course
The second-day meeting of the third annual convention of the Iowa Bankers Association under the direc-
tion of the executive committee of the University of Iowa was opened yesterday afternoon by Mr. W. W. Mc-
Clure, who is president of the Central State Bank of Des Moines, Iowa. The arrangement of the program was
opened by Mr. Robert McElveen, vice-president of the State Bank of Des Moines.

Suggested by Fanny Hurtle Griffith
You will like this picture, to judge by the considerable attention it has received and the numerous requests for it from schools and other bodies. It is an example of the children's work that has been done at the Iowa University School of Public Health in recent years. The picture represents a scene in the daily life of a typical family, and the children have been carefully coached in the art of drawing and painting. The picture is a remarkable example of the children's work, and the children have shown great promise in the art of drawing and painting.

The children are still as eager for the information they receive at the pre-school laboratory as they are for the information they receive at school. They are deeply interested in the subject of health and are eager to learn everything they can about it. The children have been carefully coached in the art of drawing and painting, and they have shown great promise in the art of drawing and painting.

Children Like It
The children are all as eager for the information they receive at the pre-school laboratory as they are for the information they receive at school. They are deeply interested in the subject of health and are eager to learn everything they can about it. The children have been carefully coached in the art of drawing and painting, and they have shown great promise in the art of drawing and painting.
