Students may borrow from fund today

More than a dozen urgent cases may be given consideration

Bates to issue funds

Goal of $5,000 has now been reached in the campaign

The Student Loan Fund, which is now completely organized and contains the original Student Loan Fund, is ready to accept and use the applications of deserving students today.

The funds will be issued from the office of W. R. Bates, Treasurer of the University, or the approval of a committee. The proceeds from the fund party, according to over $500, have been turned over to the Bates fund. The fund from Bates has been returned in cases where the applications were refused. The committee hopes to establish a precedent for the future.

According to reports from the office, over a dozen urgent cases have been presented for consideration. In the near future these students will probably be taken care of by the fund.

Regulations, drawn up by Presi­dent Bates and the committee of Mr. E. Bissell and Secretary W. R. Bates, provide that the fund has not been authorized for any particular purpose over the goal of $500.00. Loans may be made as long as the fund reaches the goal of $500.00. Funds may be used in the following manner:

1. Loans will be for an amount of not less than $2.00 and no more than $10.00.
2. Loans will be made for study expenses, books, supplies, and transportation.
3. Loans will be made for the purchase of necessary food and clothing.
4. Loans will be made for the payment of rent and utilities.

Loans made by the fund are to be repaid at the rate of 5% per month interest. The loan must be repaid in full within one year from the date of the loan. In the event of default, the loan may be repossessed and the borrower will be held responsible for any expenses incurred in the repossession.
