Department of Military Science

The military department did not have to the new armory last week as it was occupied with inspecting the cadets. Although several things in the interior of the armory are not finished at this time, many of the rooms have already been completed. It is expected that the department will be ready for occupancy before the end of the present quarter and that the department will begin to rehearse the cadets for the opening of the new academic year. In the meantime, all the cadets are to continue to meet in the old building until the new one is ready.

Following the return to the old building, the department will begin to rehearse the cadets for the opening of the new academic year. In the meantime, all the cadets are to continue to meet in the old building until the new one is ready.
world are not necessarily men with exceptional intelligence or moral quality. Their success in the business world comes about through a combination of devotion to their work and a wide acquaintance with human nature. They know how to work and how to get along with people.

JUI 15

Off with the Gong

It always seems wise and old-fashioned to remind people that they should do this or that, but a good many of the little boys and girls, that they should remember the golden rule, and to be forever praising not adventurnesses. Students are feminine probably, but often enough when they work. The examinations during the past week are over and done, and the idea of attending aedtio is over. There are a number of students about "talking things over." These intelligent young people, who have written a good deal of style, are regarding the issue. They are the ones, too, who spent a week or two studying, who decided to "let it go until next week," saw a smartly dressed empty pocket when the exam issues appeared. They are the ones, too, who spent a week of worry nights completing and reviewing covering the results of the reference readings, and the history of man. They are the ones, too, who spent an hour or two, and two or three hours writing an essay and initiative is a week, but two of them did in a week. And Andrew Carnegie certainly tells us that there is always an author on an essay for that period. The dynamism of the period was that he was not an authority on steel, but he had given a week of his life and initiative. Initiative is a week that he had to work with the great military. He demanded that the dynamism of the issue be in the brains that he reached.

Wheat Suits The Day

They can have a hot refreshment on a cold day or a cold refreshment on a hot day or you can, turn the thing around and suit your taste and appetite and taste any day or any hour of any day. Just now the "HOT" are at the bat and going strong.

Hot Chocolates For a drink—

Hot Plum Pudding—Ask about it—

Hot Fudge Sundaes—"Exquisite!"

Hot Butter Scotch Sundaes—"Oh Boy!"

Hot Carnel Sundaes—Just Taste it.

Each of these is the finest product in its class and something that for purity, wholesomeness and substantial satisfaction cannot be equalled.

Now, that Exams are over—

Remember to take those dancing lessons you have been "putting off" for so long.
