HAWKEYE RIFLE TEAM DEFEATS KANSAS AGGIES

Lieutenant Martin's Sharp Shooters Lead by 108 Points

BADGERS WANT MATCH

Two Highest Scores Shot by Dehner and Bray of Iowa

Beating their own score against Minnesota last week by twenty points and knocking down a total of 1941 points, as against the Aggies 1833, the Iowa R. O. T. C. rifle team won its second sweeping victory by taking Kansas State Agricultural College into camp with a wide margin of 108 points.

The result of the match proved a surprise to the Iowa team since the Kansas Aggies carried off the championship of the institutions in the 7th Corps Area in the competition last year and won the preliminary competition at the 7th Corps Area Infantry Camp at Fort Snelling, Minnesota, last summer. As a result of this victory at Fort Snelling their team was sent to Camp Perry, Ohio, to compete in the National Matches of 1921 and gained much experience in shooting there. "We felt confident that we would win this match, regardless of the Kansas Aggies' record," Lieut. Thomas E. Martin, rifle team coach stated, "but I didn't think we would win by such a wide margin."

Hawkeyes Better Own Score

The fact that the Iowa team bettered its own score of last week against Minnesota by twenty points is indicative of the progress that the team is making and argues well for a high score in the Corps Area match next week.

The two highest scores made against the Kansas Aggies were shot by Walter J. Dehner A3 of Iowa City and Dillard W. Bray A2 of Burnside, Ill., who each made 99 prone and 98 sitting, making a total of 197 out of a possible 200. J. Fred Phillips S4 of Altoona, captain of the team came next with a possible at the prone position and 95 sitting, making a total of 195. The other possible at the prone position was made by Lovell F. Jahnke S4 of Muscatine.

Wisconsin Wants Match

A challenge has been received from the University of Wisconsin for a dual match to be shot off the latter part of next week. "It is altogether likely that we will meet them in addition to the Corps Area match, although it has not been decided," Lieutenant Martin said.

The decisive victories in the last two matches have been good tonic for the morale of the Iowa team and the experience gained in these two matches will help them later in the season.

The individual scores of the Iowa team are as follows:

Prone Sitting Total		
Dehner	99	197
Bray	99	197
Phillips (c)	100	195
Lambert	97	194
Hickox	98	194
Memler	99	194
De Klotz	77	193
Jahnke	100	193
Fabricius	96	192
Kinsler	99	192
		984 957 1,941

MILITARY DEPARTMENT DELAYED IN MOVING

The military department did not move to the new armory last week as planned, due to the fact that several things in the interior of the new armory have to be completed by the department of grounds and building before the quarters will be ready for occupancy. It is not known at this time when the military department will be able to move across the river, according to Colonel Morton C. Mumma, head of the department but announcement will be made in plenty of time so that those taking work in the department will be informed.

COLLEGE COACHES TO MAKE SCHEDULES FOR SPRING COMPETITION

College coaches and athletic directors in Iowa will hold their annual winter meeting at the University of Iowa, February 18, according to an announcement made by Director Howard H. Jones, who is sending out invitations to the meeting.

Baseball and track schedules for the spring athletic program and some football games for next fall are always arranged at this time between the colleges which send representatives to the meeting. It is expected that the business session will be held during the morning at the Hotel Jefferson and that the visitors will take in events on the Iowa athletic schedule during the afternoon and evening.

The dual track meet between Iowa and Illinois in the afternoon will be the first indoor meet held at Iowa. In the evening Ohio and Iowa will meet in basketball, the event marking the first time athletic teams from these two institutions have met.

RELAY CARNIVAL PLANS FORMED

Inter-sorority Race Will Be Feature at Indoor Meet February 22

Plans for the second annual relay carnival to be held in the new armory February 22, in which a number of the campus organizations will be represented, have been completed, according to reports from the athletic department. A feature of the carnival will be the inter-sorority relay race.

Each sorority on the campus has been requested by Coach Bresnahan to choose a captain from a list of distance men sent to them. The captains will in turn choose the other three men on the team who will run with him for possession of the travelling trophy that is now in possession of the Kappa Kappa Gamma sorority. Each team will consist of four men, a 220 man, a quarter miler, a half miler, and a miler. The first man will run 220 yards. He will then pass the baton to the second man who will run 440 yards. The third man will run half a mile, and the last will finish the race by running a mile.

The men of each team will wear the colors of the sorority which they represent. Last year the inter-sorority race proved to be the most thrilling race of the relay carnival. A number of men are now working out in the basement of the men's gymnasium each night preparing for the carnival.

The first relay carnival was considered a success last year by the student body and by those who participated in it, according to Coach Bresnahan, who hopes that it will be even more successful this year. The purpose of the carnival and of the inter-sorority relay race is to promote interest in track athletics among the student body.

CANTON COLLEGE, CHINA WANTS AMERICAN TEACHERS

T. M. Lau A4 representing Canton Christian College of Canton, China, wishes to meet students who would be interested in teaching in Canton College. Instructors are needed in the following departments: economics, business administration, physics, mathematics, French and German, and English. A bachelor of arts degree is required of applicants.

According to Lau transportation to and from the United States will be furnished by the college. The regular school year begins in September. The salaries paid are high in proportion to the cost of living in China. Half the faculty is composed of Americans and half of Chinese.

Lau will meet anyone who is interested in teaching in China at his room, 32 W. Jefferson street today or tomorrow.

REGISTRAR TO MAIL GRADES

Students Graded "E" or Less Will be Notified by February 4

Students who have received marks of "E", or lower in courses for which they were registered the past semester will be notified by the registrar before February 4, according to an announcement from the registrar's office. An "Fd" in a course does not permit the continuation of the course for the second semester. If the grade received is "Cond" the course may be continued with the chance to make up the deficiency during this semester's work. Within three weeks after the close of the examination period letters will be sent out to all students with the grades for the past semester providing that a self addressed stamped envelope with the registration coupon is left at the Registrar's office.

Students should remember that the privilege of removing the marks "left", "abs", "Ex", or "unf" do not hold after the close of the first semester of his residence at this University following the semester in which the grade was reported, or after the next session within which the course involved is given again, according to H. C. Dorcas, registrar. If a student wishes to complete a "e" course for which his mark is "left" or "ex", he shall first present to the committee on admission and classification his written petition for this privilege together with the written recommendations of his instructor and the head of the department concerned.

Before the mark "abs" can be removed the student must present to this same committee his petition that the absence be excused, for reasons specified and properly attested. Students who leave the University during the middle of a term should make application to the proper authorities so that the work may be taken up upon return to the University at a later date.

Students final grades should be received only through the registrar's office; though grades for examinations may be given out by instructors three days after the semester period is over.

NEW GREENHOUSE TO BE OPENED SOON BY BOTANY DEPARTMENT

A new greenhouse for the use of the department of botany is being finished and will open to the public in two or three weeks. The new structure covers about twice the area of the old greenhouse. The basement will be used for research work in the department. The new greenhouse was built between the women's gymnasium and the old science hall on account of the excellent protection these buildings afford from cold north winds according to Prof. Clifford H. Farr of the department of botany. They will also shade the greenhouse in such a way that the proper illumination may be had for any specie of plant.

One of the research rooms in the basement is constructed for the purpose of maintaining constant experimental conditions. It will be possible to vary conditions of temperature in this room in order to perform experiments under controlled conditions. Arrangements have been made whereby it will be possible to construct an underground passage connecting with old science hall.

The greenhouse was constructed for the purpose of providing additional means for the study of different plant groups, especially tropical and semitropical plants. Prof. Robert B. Wylie, head of the department of botany will spend the summer in the tropics gathering plants. According to Professor Farr it is especially important that students in the college of pharmacy who are studying pharmaceutical botany should have drug plants to work with, and the new greenhouse will provide facilities for keeping these.

GREEKS PREPARE FOR WEEK OF HORSEPLAY TO SQUELCH UNRULY AND CONCEITED FROSH

Midwinter Drive to Subdue Future Pin Hangers to Start Within Next Two Weeks—Majority Holds Out For Paddle and Slapperitis

No sooner is the week's reign of absolutism history when the Hellenes prepare to inaugurate a new era with the favorite cup of Socrates for the future Athenians. Although the national interfraternity conference, which composed of over fifty Greek letter fraternities, at its annual meeting in New York City last Christmas went on record as unanimously opposed to horseplay, probation, and slapperitis for freshman, local chapters insist that the "frosh" of other chapters of the fraternity cannot be so conceited, overbearing, unruly, and sophisticated as the local pledges continue to be, or no such record would have been allowed on the books of the national conference.

Midwinter Drive Starts

Several fraternities on the campus have already dropped the custom, but the majority still hold out for the paddle, and will commence the midwinter drive in subduing the future

pin hangers within the next week or two.

There may be some room for argument regarding the merit of the paddle.

Upperclassmen of the fraternities must select men to perpetuate their institution and uphold its traditions after they have left the University. The influx of frosh was great last September but the quality was mediocre according to those who were forced to select material to repair the local chapters. Much of it was so poor that at least two or three of the local clubs made their selections from other classes.

Frosh Hate Themselves

Freshmen who were pledged this year have been laboring under the fantasy that they were pretty good stuff if they were affixed to a strong chapter. Needless to say, they will now soon realize what a

(Continued on Page 3)

CAMPUS LEADERS TO BE GUESTS AT KUEHNLE-FINKBINE DINNER

February 9 Is Date Set—Presidents of Organizations Invited Because Element of Leadership Is Desired By Hosts

The fifth annual dinner given by Carl F. Kuehnle L'82 and William O. Finkbine L'80 will be given at the Jefferson hotel Thursday evening, February 9. As the presidents of the various organizations have been chosen by their fellow students in their groups, they may be considered

fairly as representing the element of leadership in the University and will be invited to attend the dinner, according to Prof. Forest E. Ensign, who is in charge of the preparations.

The organizations for men on the campus as nearly as the office of the University of Iowa Association can determine are as follows: fraternities, Acacia, Alpha Kappa Kappa, Alpha Tau Omega, Beta Theta Pi, Chi Kappa Pi, Delta Chi, Delta Kappa Gamma, Delta Sigma Delta, Delta Sigma Pi (commerce), Delta Sigma Rho, Delta Tau Delta, Kappa Alpha Psi (Negro), Kappa Beta Psi, Kappa Sigma, Nu Sigma Nu, Phi Alpha Delta, Phi Beta Pi, Phi Delta Chi, Phi Delta Kappa, Phi Delta Theta, Phi Epsilon Pi, Phi Gamma Delta, Phi Kappa, Phi Kappa Psi, Phi Kappa Sigma, Phi Rho Sigma, Psi Omega, Sigma Alpha Epsilon, Sigma Chi, Sigma Delta Chi, Sigma Nu, Sigma Phi Epsilon, Sigma Pi, Tau Beta, Pi Theta Xi, Xi Psi Phi.

CHEM BUILDING READY OCT 1

High Elevator Tower Used in Laying Concrete Forms

The new chemistry building will be ready for occupancy by next October, according to J. M. Fisk, superintendent of grounds and buildings. The basement has been excavated, and much of the concrete base work has been laid. A hundred foot elevator tower has been built on the site of the building. By means of this tower all the concrete will be elevated and then be conveyed to the workers by a system of troughs.

The building has been designed in units, which can be built singly. From time to time new units will be added. \$400,000 has been appropriated to complete one third of the proposed structure. When completed the building will cover the entire block bounded by Capitol, Market, Madison and Bloomington streets.

Same Style as Dental Building

The new building will be of brick in an architectural style which will harmonize with that of the dental building beside it. From the main unit on Capitol street other units will extend in the form of wings along the side streets. Each unit will be fifty-seven feet wide, with ample space between them for lighting.

The plans provide for two lecture rooms, a large one seating about 400 people, and another of about half that capacity. The building when completed will contain special laboratories for each of eight divisions of the chemistry department with numerous recitation and quiz rooms distributed through the building.

More Students Than Room

Last year 2000 students were registered for work in the chemistry department and this year the number is about the same. This is a far greater number than the old chemistry building can accommodate without extremely crowded conditions. On account of this, work in the chemistry department has been scattered through six buildings.

Athletic teams which will be represented include the baseball, basketball, cross country, football, swimming, track, gymnastic and the wrestling team.

Student Clubs Represented

Clubs and other groups to be represented are: aero club, A. F. I., Associated Students of Applied Science, Associated Students of Dentistry, Associated Students of Electrical Engineering, Associated Students of Mechanical Engineering, Cadet regiment, Chemistry club, Chinese club, Commerce club, Cosmopolitan club, Daily Iowan, Dramatic club, Eels club, Filipino club, Graduate club, Hawkeye, Howling 300, Interfraternity conference, Iowa Law Students Association, Iowa Memorial Union, Irving Institute, Men's Forensic council, Men's Glee club, Newman club, Officer's club, Old Gold Subdivision Chapter Rainbow Division, Pan-Hellenic council, Pharmaceutical Association, Philomathean, Quadrangle, Silver Star club, Society of Civil Engineers, Spanish club, Tri-City club, University of Iowa Association, University Players, Student Council, Y. M. C. A., Zetagathian.

Class Presidents Invited

Presidents of the various classes of the college of applied science, college of dentistry, college of law, college of liberal arts, college of medicine, and college of pharmacy will also be invited.

Besides the student guests there will be present the president of the University, the deans of the various colleges, Commandant of the military department, University editor and coach of the football team.

Mr. Kuehnle and Mr. Finkbine wish to have present the men who

PURDUE TAKES RETURN GAME BY LONE POINT

Hawkeye Defense Tightens—Boilermakers Fail to Gain Big Lead

SHIMEK STARS FOR IOWA

Gullion and White Held by Iowa Guards for Few Counters

Lafayette, Ind., January 28.—Purdue defeated Iowa here tonight in the fastest and most exciting game seen here in years by a sensational rally in the last few minutes. With three minutes to go Iowa led 26 to 19 and the Hawkeyes assumed a pure defensive game. A beautiful shot from the side and another from under the basket by White cut Iowa's lead to three points with a minute and a half to play. Gullion broke through for a ringer under the basket and seconds later tallied from the side, giving Purdue a one point lead and the game when the pistol sounded thirty seconds later.

Iowa led at half time 13 to 11 through good work by Shimek and Burgitt. The flashy forward connected for three long ones in the first half and at the start of the second half made the most impossible shot ever seen here. While standing backward he threw one from beyond the foul line. Purdue tied the score at 11 to 11 just before the gun in the first half only to have Devine break loose and sink one from under the basket as the period ended. With six minutes to go Iowa led 20-19 and under-basket shots by Burgitt, Hicks and Lohman gave the Hawkeyes a seven point lead.

Iowa missed three easy shots and with three minutes to go. Treat replaced Gullion. White tallied and Gullion went back for the winning points.

The defense of the Iowans baffled Purdue throughout the game and only in the closing minutes was it penetrated.

Iowa missed a number of easy shots in the last half while the long shots of the Purple team rolled around the basket only to roll out. The game was the cleanest here this year, only five personal fouls being called.

Summary: Field goals, Shimek 5, Burgitt 3, Hicks 2, Lohman, Devine, White 5, Gullion 3, Eversman 2, Masters.

Goal goals: White 5 out of 6, Shimek 2 out of 2.

Referee, Kearns of Depaul. Umpire, McCord of Illinois.

NINE ILLINOIS STARS DECLARED INELIGIBLE FOR FUTURE CONTESTS

Nine star athletes, students at the University of Illinois, were declared ineligible for further athletic competition last Friday night because they played in a semi-professional football game at Taylorville, Ill., at the close of the conference football season last fall. The names of the men are as follows: Walquist, Crangle, Joe Sternaman, Kaiser, Simpson, Teuscher, Milligan, Gammage, and Green.

Crangle and Walquist will be remembered by Iowa students who saw the Illinois-Iowa game last year. Crangle played fullback, and Walquist halfback, in that game. Green and Sternaman were also regulars on the football team. Kaiser was one of the crack track men of the 1921 Blue and Gold squad. The other men were substitutes on the football squad. Walquist was considered the best basketball player of the Illinois squad.

When Coach Bob Zuppke, head football coach at Illinois was asked his opinion about the ousting of his players, he said, "It is a good thing, and I hope that it will start a thorough clean-up in the Conference. I hope that all of the Big Ten will be scoured. There are other teams in the Conference who play professional athletes."

OFF WITH THE GONG

It always seems trite and old fashioned to be continually reminding people that they should do this or that, that they should be "good little boys and girls," that they should remember the golden rule, and to be forever passing out admonitions. Students are likewise probably bored when urged to pursue their studies with diligence.

The examinations during the past week will serve as the best warning to students about "letting things slide." Those who forgot to buy books, who wanted to have a good time before they settled down to studying, who decided to "let it go until next week," are the ones who scratched empty heads when the examination questions appeared. They are the ones, too, who spent a week of long weary nights cramming and reviewing some of the reference readings that had not received the required attention. They are the ones who await with trepidation reports, favorable or unfavorable, from the registrar and from the dean's offices.

"Sadder but wiser" is an old phrase, but it may be applied to the student at the present time. He has learned that it will pay to put in the knockout blows in the first round; he will no longer rely upon eleventh hour frenzies; he will not disparage the man who spends a little time, just a little, with his books. A good way to make this more realistic would be for the student to practice his newly-learned lesson in the first class, to prepare the first assignment, to write the papers when assigned, to do the research at his leisure, and to obviate the necessity of the normally sad experience of examination week.

INFORMING ONESELF

Faculty members and students have introduced a remarkable way of securing greater personal contact at the University of Michigan, that of conducting discussion groups in an informal manner on any topics that may be of interest. They find that such subjects as politics, religion, ethics, travel, literature, history, philosophy, all have an attraction for both the professor and the student if they can be approached in the proper manner.

To the normal interest accruing to such topics in any discussion, under the plan used at Michigan the students have added the 'get together' spirit, they are assured of the honest intention of all taking part for they have gathered for a common end. To the air of reminiscence, of a curiosity 'airing,' of fellowship, of community interests, the fascination for such meetings is enhanced by the feeling that everyone is present to be informed, to increase his knowledge of various topics which are ever coming before thinking men for discussion.

The plan is laudable. Added to the mutual understanding arising from the personal contact there is the enlarging of one's range of thought. People are interested in vital topics; to make their discussion interesting one has only to provide a pleasurable vehicle.

INITIATIVE COUNTS

The rest of the world would improve the college man in many respects.

He is accused of everything from crass ignorance to inveterate snobishness, and the newspapers make the worst of it. If we read the press with only very moderate regularity there is but little danger of our leaving college with swelled heads. But there is one thing which outsiders consistently overlook—namely, the development of initiative. The men who do things in this

would are not necessarily men with exceptional intelligence or marked ability. A survey of the campus leaders, both among students and faculty, will evince interesting results. Many of the men whose opinions we respect and whose leadership we follow, have nothing unusual about them whatever except their initiative. So far as we can see about all that is necessary to succeed in this world is the will to do things; so few people have it and so many respect it that more than anything else—even more than education—it is the key to attainment. Andrew Carnegie certainly had no education, and personally he was not an authority on steel; but he had and gave out more energy and initiative in a week than his competitors did in a month. He had the will to succeed, and he succeeded. The dynamic personality of Roosevelt was one of the greatest factors in raising him to the heights he reached.

The University curriculum is sadly deficient so far as developing this quality is concerned. Upperclassmen are bound by attendance regulations which would do credit to a kindergarten; many of our professors still follow the old plan of asking catch questions in quizzes to make sure that everybody has read the lesson including the footnotes at the bottom of the pages, and the undergraduate body feels, rightly or not, that to disagree with an instructor is poor policy. There are tremendous difficulties in the way of improvement, however, difficulties which in all fairness to our much discussed faculty, the students should make an effort to lessen. If very much is left of our responsibility now, we usually make a fizzle of it; there are very good grounds for the skepticism of certain faculty members.

Both faculty and students are at fault; the first steps apparently must come from us. Let's do show some of the initiative we're trying to develop and take them.—Minnesota Daily.

CONTRIBUTORS COLUMN

To the Editor: That old story about the pessimist who was always kicking may soon include my initials, but out of due courtesy to Mr. J. M. Fisk, I wish to add a word. The basis for complaint of my first attempt lay directly on one of our public amusement houses, which I believe anyone will agree, lacks ventilation. My only mention of the natural science auditorium being that of

Graduates

Now is the time to secure your position for next year. Only Graduates and those with two years work above secondary schools enrolled. We have men travelling all the time interviewing school boards. The manager has had eight years experience in placing teachers. Write for blanks. We have vacancies to be billed at once.

Commercial & Professional Service Bureau, Inc. Des Moines, Ia.

comparison on one particular night only. As a usual thing, my objection to the heating of this auditorium would be unfounded, and as I at one time tried to regulate a similar indirect heating system, I realize some of the difficulties involved. However, where a direct means of heating is used, more actual control seems to be possible.

When one enters most of the theatres of Des Moines, or other large cities, he is met at the entrance by a breeze that almost removes his hat. Most theaters take some pride in advertising similar facts of "A complete change of air every three minutes," etc. And some care seems to be taken to cater to the comforts of the patrons. It would be unfair to say that all local theaters come under this criticism. Yet I am convinced, upon further inquiry, that the one which caused the complaint at first cannot shift the blame. Patrons, both in the parquet and balcony, suffered alike. If the theaters were large enough

to notice any falling off of patronage, something would probably be done as a remedy, but with the limited seating capacity available, it is not noticed; or at least nothing is done. Coal surely is too high to allow waste, and physicians statements are even higher; so any suggestion improving the health conditions should be welcomed, if true. F. P. B.

CAMPUS LEADERS TO BE GUESTS AT ANNUAL DINNER (Continued from page 1)

give special evidence of leadership in the University and from the beginning of the series of dinners it has been the custom to extend invitations to the presidents of the various classes, fraternities, athletic captains, literary societies, and other men's organizations. Invitations are issued through the office of the University of Iowa Association of which Prof. Forest C. Ensign is acting secretary.

Mr. Ensign requests that if there are other organizations beside those listed he would greatly appreciate the information so that the list may be made complete.

SOCIETY

Psi Omega
Psi Omega, dental fraternity, gave a dancing party at the chapter house last night. Dr. and Mrs. E. Thoen chaperoned. Johnnie Wright's Hawkeye Quintet played.

Sigma Nu
Sigma Nu fraternity entertained at a dancing party last night at the Criterion. Mr. and Mrs. W. D. Cannon chaperoned. Engelman-West orchestra of Cedar Rapids furnished the music.

Sigma Pi
Sigma Pi fraternity danced at the Burkley last night. Dr. and Mrs. J. Voss chaperoned.

Nu Sigma Nu
Nu Sigma Nu, medical fraternity gave a dancing party at the Pagoda last night. Mr. and Mrs. Chapman Reynolds and Mr. and Mrs. Lewis Leighton chaperoned.

Varsity
Varsity was chaperoned last night by Mr. and Mrs. G. C. Lantz and Mr. and Mrs. R. D. Smith.

Cotillion
Cotillion was chaperoned last night by Mr. and Mrs. A. C. White and Mr. and Mrs. J. R. Westerman. The Illinois Five orchestra played.

Kappa Sigma fraternity announces the pledging of Wayne Bouck A1 of Mason City.

GREEKS PREPARE FOR WEEK OF HORSEPLAY
(Continued from page 1)

mistaken notion it was. Freshman at fraternity houses are a necessary nuisance, and the old men are out to prove this theory the next few weeks while they are on probation.

Paddle Theory Predominates
Each clan advocates a slightly different theory regarding the method of getting a freshman in shape for initiation. Some hold out for two things as particularly effective, paddles, and more paddles. Others believe that humiliation, embarrassment, and subjugation, work the best results. The A. T. O.'s have laid in a couple of cases of cold storage eggs, and announce that probation will not end up there until every egg has been broken in the pledge's hip pockets. For the benefit of the Currier hall women, they were prepared to announce also that their pledges will draw straws for answering the doorbell these next few weeks.

At the S. A. E. house the gentle razz for the yearlings will commence next week and will continue for four weeks. The course for the first two weeks will consist of "Principles of Probation." The text used will be Fitch's "Petey Simmons at Siwash." A good supply of texts is on hand at both Ries' and University book stores, and copies should be secured at once. The last two weeks will be devoted to research, and perhaps a little seminar if any are found who are of the proper calosity.

Delts Plan Barrel Brigade

The Delts, who had a tough time to subdue their wild men last season are rumored to have ordered a dozen salt barrels with the bottoms knocked out, from a local feed store. Some one has put two and two together and got six, and predicts a barrel brigade migrating campusward from 720 North Dubuque in the near future.

The Sig Eps have made no statement regarding their plans for probation. It is a certainty that their program will include a series of stunts which will impress upon the frosh the calibre of the organization which is soon to unfold them. Last year a fish pond was planted in front of the chapter house porch and the pledges were allowed to fish from an upstairs window. They were also asked to "hippiti-hop" about the campus as an outward expression of their inward joy. Paddles were also vigorously applied.

Local Clubs Handicapped

It is hard to say what the local fraternities will do. Last year when two locals were organized the charter members took turns giving the other boys the mean eye and when all were thought to be sufficiently hardened they held initiation and became brothers.

Professional and honorary fraternities do not advocate so much bodily punishment and other inanities but plead rather for intellectual chastisement.

The Phi Beta Kappa's are reported to require about five theses before initiation, in addition to the consumption of at least three varie-

ties of fire water, among which are Green River, Coca Cola and Virginia Dare (1922 style).

It is said that Tau Beta Pi honorary engineering fraternity requires all of its pledges to score at least 666 in the horseshoe tournament which the college of applied science holds each spring.

Sisters Grab Frosh Dates

A veil of mystery surrounds the plans of the sororities for their buds. The old ruse of denying the pledges dates during probation will unquestionably be one of the favorites as it gives the older sisters a much sought advantage.

More definite plans will be forthcoming from other fraternities and sororities next week, when festivities actually commences.

ANNOUNCEMENT

All students are invited to a social at the Presbyterian church parlors Saturday evening at 8 o'clock.

Now, While that Fine Underwear is New, Plan to keep it at its best

The life of your fine woolens depends largely upon proper washing.

In our modern plant we use the purest of rainsoft water; the mildest of white soap, and exactly the temperatures which long experience has proved best. We wash your woolens gently, rinse them thoroughly, and dry them slowly, in a soft current of fresh, warm air.

When we return them, you'll find each fine, fleecy fibre vigorously alive. Their softness will delight you, and you'll be pleased, too, with their genuine, fragrant cleanness.

Better start right, today, while they're new. Bundle up your woolens with the rest of your family washing, and phone for our representative.

THE ONLY NEW SHOW IN TOWN MONDAY

STRAND THEATRE

3 DAYS
STARTING
TODAY

Don't believe what we say---

But just take the advice of these big showmen who
already run—

Steward Edward White's Mighty Drama

"THE WESTERNERS"

With Robert McKin, Roy Stewart and Mildred
Manning. Here's what they say—

NEW YORK STRAND: Moe
Mark: We played "The
Westerners" pre-lease the
first week in August, with
very hot weather, to the big-
gest summer week ever
played at the Strand

UBLINER & TRINZ CIR-
CUIT, Chicago: Chicago is
supposed to be against
"western" pictures. But
"The Westerners" is differ-
ent. It went strong all
down our circuit.

NEWARK STRAND, Newark,
N. J.: "The Westerners" did
a big week for us. It built
up each day till Saturday
when we could not take care
of the crowds.

CLEMMER THEATRE, Seat-
tle: We did a wonderful
week's business with Mr.
Hampton's picture.

KEITH'S VICTORY, Provi-
dence, R. I.: This is the big,
sincere kind of story that
audiences like on the
screen. Mr. Hampton held
close to Mr. White's novel
and what a wonderful pic-
ture he made.

MILES MAJESTIC—MILES
REGENT: Detroit: I wish
we had run it in all three
theatres at once. In Cleve-
land we had two tremend-
ous weeks with it at our
Miles and Grand theatres.

PALACE THEATRE, Des
Moines: A. H. Blank. We
did a wonderful week's
business with "The West-
erners." I want more pro-
ductions like this for my
theatre.

REGENT, Wichita, Kan.:
"The Westerners" is a great
picture and we played it to
capacity business.

TALBOT'S AMERICA, Den-
ver, Colo.: I did one of the
biggest week's business the
America has ever had with
"The Westerners."

COACHING COURSES TO BE OFFERED WOMEN IN SUMMER SESSION

Announcement has been made that
three new courses for women will
be added to the University summer
courses in athletic coaching and
physical training to be given during
the next summer session. This will
be the first time during summer
sessions of the University that wo-
men have had a chance to study
athletics and physical education as
coaches or instructors. The new
courses will be as follows: athletic
coaching and aesthetic dancing, by
Director Marion R. Lyon; gymnastics
and public school methods, by
Instructor Bess M. Baker; play-
ground and swimming, by Instructor
Miriam W. Taylor.

Courses for men will be as fol-
lows: football, by Coach H. H.
Jones; baseball and basketball, by
Coach J. M. Ashmore; track athlet-
ics, by Coach G. T. Bresnahan; con-
ditioning of athletes, by Dr. Walter
Fiesler; football and basketball, by
Assistant Coach Aubrey Devine;
gymnastics, by Ernest G. Schroeder;
swimming by Assistant David A.
Armbruster.

All courses will be open to Uni-
versity students, or people prop-
erly qualified, either alone or with
other courses, with, or without
credit. Tuition fee for the term
will be \$15.

ANNOUNCEMENTS

Athena literary society will hold
an open meeting Tuesday evening
at 7:15 at the home of Marian
Smith, 502 E. Iowa avenue.

Hesperian literary society will
hold an important business meeting
Tuesday evening, January 31, at 7
o'clock. All members are requested
to be there promptly.

Helen Langworthy, president.

Theta Sigma Phi will meet to-
morrow afternoon at 4 o'clock in
room 13 liberal arts building. All
girls enrolled in journalism courses
are requested to meet there at 5
o'clock.

Reba Kelly, secretary.

Mr. C. P. Harry, national secre-
tary for students religious work,
will speak to the Lutheran Bible
Class at 9:45.

Chi Omega will hold an open
meeting Monday evening at 7:30,
in the chapter house. Dean Kay
will be the speaker. A cordial in-
vitation is extended to all friends
of the fraternity.

Florence Landon, president.

coming Spring season.

COASTS'

GARDEN 4 Days STARTING THEATRE TODAY

"Always a Good Show"

Another Wm. Fox Super Special-Production Extraordinary.
Starts in China, from thence to a millionaire's home in fashionable San Francisco,
then to the underworld of notorious old Chinatown, and ends in the frozen North.
A story which for plot, action and heart appeal will never be equalled. One of
Wm. Fox's best pictures of the season.

"SHAME"

SEE—

Smuggling in San Francisco's
notorious Chinatown.

See a Chinatown dive with
three floors underneath the
ground.

SEE—

A man kill a vicious wolf with
his bare hands.

See a fight different from any-
thing ever before screened.

This big Super Special at no advance in prices. Admissions—
