"Theodora" is the Greatest Motion Picture the World Has Ever Known.

It is difficult to recall an attraction which has created such a stir on Broadway.

Theodora is an outstanding marvel among the motion pictures of all time. An entire empire set the torch to the great conflagrations of the world. So the love affair of the Empress Theodora, the most beautiful woman of all time, turned a kingdom to the agony of rout. To see this picture is an event in your life, a story that will thrill you, capture you, enthrall you and a page from history that you will never forget.

100 ENGINEERS TRY FOR PLAY

Thirty Students Will Give Parts in Mysterious Performance

One hundred engineers are trying out for the second Muroa play which will be given March 13 and 14. Of this number all but the thirty which will comprise the final cast will be eliminated before the play is presented. Meanwhile green and food preparations are progressing very satisfactorily under the direction of the women’s gymnasium instructors, Mr. Brown, the dramatic instructor, and Lloyd W. Anderson, author and director of the play.

Three Types of Dancing

There will be three types of dances in this show this year. There are two social dances, three wedding dances and one of the old-fashioned dances. The principal of the high school has given the girls permission to have the big rustic dance from Olden times. This dance will be certainly be here in time for the opening of the show.

The Associated Students of Applied Science will meet Thursday at 4 p.m. to discuss the progress of preparations for the show and get the final plans for its public presentation.

No Admissions

The engineers wish to make it known that no social or admission fare will be charged. Each student of the engineers’ college will receive free tickets to distribute among his friends.

The play to be given this year has a mysterious mathematical enigma which translated into plain English, “Invasion of the Engineers for Recognition to Property”.
