## IOWA HOPES LIE IN FINAL TILTS

### Illness May Keep Devine From Playing at Michigan

Whether or not Aubrey Devine, forward on the basketball team, who has been out of the game for the past week on account of illness, will be able to take the last trip of the season is still a question. The Hawkeyes will leave Friday night for Ann Arbor, where they are scheduled to meet Michigan on Saturday, and it may be that the Iowa forward will be unable to make the trip.

In that case, either Voltmer, who showed up well in the game last Monday, or Frohwein, will probably get first call. McGovney, who also has been working in Devine's place, shows quite a bit of defensive ability but does not seem to be able to make baskets. Many were of the opinion that had Devine played Monday evening against Michigan, that the result of the game would have been different.

Coach Ashmore is preparing his defense for the Michigan offense, and is still working on his offensive play. The Hawkeyes, judging from what they did in the second half of the first game with the Wolverines, will have a good chance to take this game at Michigan, as it is almost certain that the Wolverines will not play any better basketball than they did here. On the other hand, Iowa seems to play better before a foreign crowd than they do at home, and the optimists are looking toward a Hawkeye victory.

A schedule of the conference games yet to be played follows:

- Schedule of Games**
- Mch. 3—Chicago at Illinois.
  - Mch. 4—Iowa at Michigan.
  - Northwestern at Ohio.
  - Wisconsin at Minnesota.
  - Mch. 6—Iowa at Ohio.
  - Northwestern at Michigan.
  - Mch. 7—Illinois at Purdue.
  - Mch. 8—Chicago at Wisconsin.
  - Mch. 11—Wisconsin at Chicago.

## WHITBY, ZETAGATHIAN, AND HAMLIN-GARLAND PRESENT PROGRAMS

Hamlin-Garland literary society gave a program Wednesday evening at the Erodolphian hall. It consisted of a reminiscence by pledges and a debate, Resolved: "That the men on the campus have more fads than the women. Helen M. Douglass A3 of West Branch and Clara M. Mathers of Somers spoke on the affirmative side and Juanita Loper A2 of Indianola and Gladys L. Watkins A2 of Woodbine spoke on the negative side.

Whitby literary society gave the following Old Gold program at Close hall Tuesday evening: "Laysan Islands" by Grace L. Daniels A4 of Moulton, "Louisiana Group" by Grace Martin A2 of West Side, "Ranney Library" by Marguerette M. Strubble A4 of Iowa City, "History of Old Gold" by Marga M. Bruning A4 of Galva; "A Sing," by Viola L. Kleinwort A4 of Carpenter and a piano solo by Audrey B. Camp A3 of Arispe.

Zetagathian literary society held tryouts Wednesday for the freshman and sophomore debates. The freshman question was: Resolved "That judgeless, open forum debates should be substituted for judged debates." The question used debated by the sophomores was, Resolved: "That the Allied debts should be cancelled by the United States.

## DAD'S DAY TO BE ANNUAL AFFAIR; A SUCCESS—A.F.I.

Was Dad's Day a success? A. F. I., men's honorary senior organization, feels that it was a big success and plans to make it a regular day every year from now on. E. J. Goodrich L2 of Anoka, Minn., president of the organization, said, "Although the number of Dads that were present was not very large, probably about 150, we feel that Dad's day was a huge success and will try to make it a regular affair each year."

## MURRAY LINES UP HIS COMMITTEE CHAIRMEN FOR BIG SENIOR WEEK

At a meeting of the Senior presidents, committee chairmen, Dean George F. Kay and Prof. Rollin M. Perkins, committee advisors, held this week, the duties of each chairman were assigned and explained by Tom E. Murray L3 of Little Sioux, all-senior president.

"In former years little thought has been given to senior activities said Murray, yesterday, "but this year the committees have started working early enough so that a great deal can be accomplished, and Senior Week will get the attention that it should."

The surplus fund in the senior treasury will probably be turned over to the Student Loan Fund, instead of being used for erecting a memorial.

The invitations are contracted for and will be ordered soon.

## HINT APRIL 21 AS PROM DATE

### Party Committee Waits For Rienow's O. K.; Class Officers Silent

Although class officials declined to make definite statements on the matter it became generally known about the campus yesterday that the date for this year's Junior Prom has been set for Friday, April 21.

The party committee has been named and is now awaiting the sanction of Dean Robert E. Rienow. It is expected that definite announcements in regard to the party will be made within the next few days, and preparations started for staging the party.

## VESPERS OF MARCH 19 TO INCLUDE DRAMATIC READING BY MAGARY

Dr. Alvin E. Magary, pastor of the First Presbyterian church of Cedar Rapids, will be the principal speaker in the next University vesper service, which will be held on March 19, in the natural science auditorium.

Different from the usual vesper addresses hitherto given in the University vespers services, a reading will be rendered by Doctor Magary on "The Tragedy of Job," an adaptation of the Book of Job in the Bible. In his reading Doctor Magary will be assisted by a special choir of the First Presbyterian church of Cedar Rapids. Dr. Philip G. Clapp, head of the music department, will render the accompaniment. Special vesper music will also be furnished in the program.

### Music Attends Reading

Dr. Magary, who is a graduate of Columbia university, has made a special study of the story of Job for years. In adapting the Book of Job for artistic reading, he has made certain re-translations and changes from the original in the interest of clearness and dramatic force. The reading, which takes about an hour, is accompanied by a special music which is specially made for it.

Dr. George T. W. Patrick, head of the philosophy and psychology department, and chairman of the University vespers committee, heard Dr. Magary's reading of "The Tragedy of Job," in the vesper service of Coe college in Cedar Rapids last Sunday. He said that the reading, with the special choir and music that went with it, was very impressive and powerful. He believes that the reading will be one of the best and most elaborate offerings of the University vesper services.

## SCARE CAUSED MEN BY OMISSION ON TICKETS OF 'NO FLOWERS' ALLEVIATED

Senior hoppers may say it with music tonight but not with flowers. Although no mention was made on the tickets concerning flowers, the party is included, as are all formal, under the social committee ruling which states that flowers shall be omitted.

## ILLNESS HITS IOWA MATMEN

### Purple, To Be Met Saturday, Have Defeated Nebraska; Team Unchanged

Iowa wrestling team will meet a strong opponent in Northwestern Saturday evening. The match to be held at the new armory with the Purple team promises to be close and top speed work by every Hawkeye man will be required to defeat the Northwestern men. The University wrestlers will not all be in the best of condition due to injuries received in the Nebraska meet, and through illness. Hunter, light-heavy weight, is nursing an injured ear and will work in the coming meet with it bandaged. Jacobsen has a badly wrenched arm, but by winning from Boydston in the final tryouts last evening retained his place in the 145-pound class. Vana and Pfeffer, both with perfect records for the season, have been ill this week but are expecting to compete Saturday.

Meyers a Strong Wrestler. The Northwestern team has but one veteran wrestler on the team, Meyers, in the 125-pound class. Meyers defeated Vana last year by a decision, but Vana will work hard for a victory though held back by his illness. Northwestern has won two of their five meets this season. Their victory from the Nebraska team which won from Iowa is an indication of their strength, but not a real comparison of the teams as it was the first meet of the season for Nebraska and several of their new men did not perform up to later form. The defeat of Northwestern by the Purdue wrestlers shows the inaccuracy of comparative scores, as the Iowa team easily defeated Purdue.

No Changes on Team. Several new men have tried for places on the squad this week, but no man has been able to displace the men of the team which met Purdue and Nebraska. Wednesday evening Trickey, a fast man in the featherweight division, challenged the veteran Vana, but lost by a decision after the full twelve minutes of wrestling. Trickey promises to be a good man in this weight and will be valuable next year. Four men appeared to try for the middleweight division: Sheets, Boydston, and McCorkle. In the preliminaries Scott won from Sheets, and Boydston beat McCorkle. In the match last evening Jacobsen, though still not completely recovered from his injury of last Saturday, won from Boydston by a fall in ten minutes.

## WOMEN DEBATE TEAM TO CLASH WITH THE HOOSIER IS NAMED

Women of the University who will debate against the feminine forensic representatives of Indiana university at Bloomington, April 12, have been selected, and are as follows: Margaret A. Brady A4 of Fort Dodge, Mildred C. Freburg A4 of Pomeroy, Eloise B. Smith A4 of Fairfield, and Gertrude Muxen A2 of Carroll as alternate. The question for debate is "Resolved, that the territorial, political, and commercial integrity of China is a solution of the problem of maintaining peace in the Pacific." The term China includes old China, Manchuria, and Korea.

Since the date of the debate has been set definitely and the question decided the team will begin intensive training on the negative side of the question. Indiana has a strong team, from the report of L. R. Norvelle, the coach of the Iowa team. Mildred Freburg was on the team which debated Indiana last year and on the state high school championship debating team and also on the inter-society debate. Margaret Brady was on the Fort Dodge, Sioux City, and Council Bluffs triangular debate team for three years. Eloise Smith has debated on inter-society teams and in high school.

## COUNCIL DECIDES NOT TO SEND DELEGATE TO STUDENT CONFERENCE

That no representative will go to the session of the Mid-west Student Conference this year was the decision of the student council at its meeting Tuesday evening. The reasons given by those who opposed the sending of a delegate were the lack of funds available and the impossibility of any more being received before the conference session is held.

The meeting of the conference this year will be at the University of Kentucky in Lexington, April 20, 21, 22. The Mid-west Student conference, of which this is the second annual session, was formed last year at the University of Missouri at Columbia, when Edmund J. Harrington D4 of Sioux City and Harry H. Miller L3 of Webster City represented the Iowa student council. Other members of the conference are University of Alabama, Baylor university, University of Chicago, University of Cincinnati, Depauw university, University of Indiana, Iowa State college, Kansas State college, Kansas City junior college, University of Kentucky, University of Missouri, Mississippi A. & M. college, Northwestern university, Notre Dame university, University of North Dakota, Ohio Wesleyan university, Purdue university, University of Tenn., Tulane university and University of Wisconsin.

## BARBERS STILL HOLD OUT FOR OLD PRICES; CLEANERS AND BEAUTY PARLOR PEOPLE STAY AWAY FROM BOYCOTT MEETING LAST NIGHT

Students took advantage of the reduction in prices yesterday at the cigar stores and soda fountains and billiard halls. Shops which have been more or less unfrequented the past two weeks yesterday took on an aspect of activity and business again.

Fred Racine, proprietor of four cigar stores, and Jimmie Hungerford, proprietor of the Academy, both reported a marked increase in the volume of business. Students pronounced the new fifteen cent malted milks good, then shoved the cues for a while, tried out the twenty cent Camels and finished off with the candy bar.

### Barbers Hold Out

Eight barbers representing several tonsorial establishments met with the arbitration committee yesterday evening at the Commercial Club rooms. At the time for going to press no agreement had been reached between the students and the barbers. Barbers maintain that there has been no reduction in the cost of operating their establishments and hence argue that their prices are not exorbitant. They further point out that a University town is a two day town for barbers as most of their work is done on Friday and Saturday. As a consequence they lie idle part of the week.

## TEN HAWKS IN URBANA RELAYS

Noll Joins Sick List; Iowa Strong in Dashes With Wilson and Brookins

In the 440-yard tryouts held Wednesday afternoon in the new armory, Keppler and Morrow finished first and second and will accompany the track team to Champaign. These two men with Wilson and Brookins, who did not compete in the trials, will probably make up the one-mile relay team if Coach George T. Bresnahan decides to enter a team in that event.

Ten men will leave Iowa City on tonight for the relay carnival held each year by the University of Illinois. Most of these men are entered in special events, but can be used in the short relays. The men who make the trip are: Hoffman, Conn, Meder, Jaqua, Brookins, Wilson, Keppler, Morrow, Shope, and Belding.

Iowa will be represented in the high jump with Hoffman and Conn. Meder and Jaqua will both pole vault, while Jaqua will also broad jump. Shope and Belding will probably be entered in both the high and low hurdles. In the dashes Iowa will have two fast men in Brookins and Wilson. Wilson is also entered in the 300-yard special dash, while Brookins should make fast time in the low hurdles. These two runners with Keppler and Morrow will make a mile relay team that should give any of the other teams a hard fight.

## CLUB HAS LUNCH AND SUPPER THIS WEEKEND

Activities for the University Club this weekend are the Saturday luncheon at 12:30 and the Sunday night supper at 6. Both gatherings are to be in the University Club rooms in the Dey building.

## NEWMAN CLUB INITIATES

Newman, Catholic students' organization, initiated fifteen members Tuesday evening; they were Mayr Louise Atwood A1 of Geneseo, Ill., Mac Henry Russel A1 of Clarion; Paul Dwyer A1 of Olwein, Cecilia Sommers, J. Clayton Hollister A1 of Fort Dodge, Walter F. Morrissey A1 of Albia, Raymond L. Fox S1 of Keokuk, Vincent O'Neil A1 of Stuart, Helen M. Barrett A1 of Dunlap, Loretta Hess A1 of Sioux City, Clement Hansen P1 of Riverside, Leonard Donahue A1 of Iowa City, Emil V. John S1 of Cedar Rapids and James Cooney A1 of Parnell.

## BABIES BORN TO FACULTY

Two faculty members report increases in their families this week in the arrival of a daughter at the home of Dr. and Mrs. Howard Beye Monday night and the birth of a baby girl to Mr. and Mrs. Parks A. Nutter Wednesday. Mr. Nutter is an instructor in the college of commerce.

The boycotters take the view that if there are more than enough barbers to do the work, the number ought to be cut down and that the student ought not to be forced to help support the oversupply of barbers. Englert Exempted. Owing to the tremendous overhead of a theater the size of the Englert no restrictions were made on it. Nate Chapman announces that matinee prices will ordinarily be twenty-five cents. Program pictures will, however, be reduced to twenty-five cents. Feature shows, such as the one now showing, will show for forty cents. There will be no more fifty cent pictures, however. Manager Chapman cancelled his engagement for one movie which was to have shown for fifty cents. Prices on road shows will remain at the old prices.

The monthly Baconian lecture will be given by Hamilton M. Jeffers, instructor in mathematics, in room 301 of the physics building at 7:30 this evening. The subject of the lecture will be "The Nebulae". The address will be illustrated with lantern slides. The public is invited.

## BACONIANS HEAR JEFFERS ON NEBULAE TONIGHT

The monthly Baconian lecture will be given by Hamilton M. Jeffers, instructor in mathematics, in room 301 of the physics building at 7:30 this evening. The subject of the lecture will be "The Nebulae". The address will be illustrated with lantern slides. The public is invited.

## DENTS PASS COUNCIL'S PROPOSED AMENDMENT

At a meeting of the Association of Dental Students last night it went on record as in favor of the proposed amendment to the student council constitution.

Officers for the coming year were elected. They are: Howard Denbo D3 of Iowa City, president; Max Kadesky D3 of Dubuque, vice-president; Frank F. Patterson D2 of Waverly, secretary; Glenn Rogers D3 of Sioux City, treasurer. The retiring president is Glenn C. Anderson D4 of Iowa City.

## USUAL TWO-BITS UPSTAIRS

The programs are of brown suede leather, with the University seal and the words Senior Hop stamped in gold on the outside. Spectators will be allowed the use of the balcony at the usual price of twenty-five cents, and the ceiling will be draped in such a manner as to allow spectators a good view of the floor below Chaperons for the evening are Prof. and Mrs. Ronald Perkins.

## FOUR SENIOR MEDICS ARE HIGHLY HONORED

Four senior medics were initiated into Alpha Omega Alpha, honorary medical fraternity, at a meeting last Monday night. The men are Harold King M4 of Iowa City, J. J. Collins M4 of Williamsburg, Lawrence A. Block M4 of Davenport, and Ivan F. Weidlein M4 of Wellman.

## TAXIS AGAIN WHIZZ TO HOP THIS EVENING

### Spring Effect Expected To Wilt Many a Starched Front

## PERKINS TO CHAPERON

### Ladies Will Park Wraps in Cadet's Room, Men in Wrestlers'

Tonight taxis, like bees buzzing about their hives, will rush madly to and fro with their formally dressed passengers who have forgotten dull care for the time being and are prepared to celebrate the last class's big party of their college days,—the Senior Hop. This third formal of the year will be held at the men's gymnasium.

That the party will be attended by a capacity crowd is an assured fact since it has been impossible to beg, borrow or steal a ticket for the past week and every one of the 200 programs made for the event has been distributed.

## "Keep to the Right"

Dancing will be from 9 p. m. until 1 a. m. Ladies will check their cloaks in what was formerly the military department headquarters on the second floor of the gymnasium. The men will leave their ladies at the head of the stairs and follow the balcony to the wrestling room in the rear of the second floor of the gymnasium, rejoicing their partners at the front stairs. If couples will keep in mind the old slogan, "Keep to the right," all the confusion of former parties will be avoided.

## Warm Spring Portrayed

Work on the transformation of the gymnasium into a spring garden began last night at 9 o'clock and will be completed in ample time for the party. The decorating is in the hands of the New Idea Decorators, who will attempt to portray the beauties of spring in such a manner as to recall to some extent the atmosphere of former Senior Hops which were held during this season of the year. It is to be hoped, however, that the psychology of the artificial atmosphere created will not be of such an extreme nature as to cause any stiff fronts to wilt.

## Joy in Form of Accessories

Varsity orchestra will be partially hidden from view by an old-fashioned trellis at the north end of the gymnasium. Punch will be served at the south end from a Carolina bower with the sign "Punch" extending across the front, a smiling darky to serve the punch, and flowers to give the Carnival effect. "The committee," said J. G. Cooper L3 of Marshalltown, chairman, "does not propose to furnish the entertainment in the form of feature dances but will secure caps, horns, confetti and all other necessary equipment for a good old-fashioned get-together carnival dance at which nothing will be formal except the clothes worn, and it is up to the couples themselves to enter into the spirit of the occasion.

## Usual Two-Bits Upstairs

The programs are of brown suede leather, with the University seal and the words Senior Hop stamped in gold on the outside. Spectators will be allowed the use of the balcony at the usual price of twenty-five cents, and the ceiling will be draped in such a manner as to allow spectators a good view of the floor below Chaperons for the evening are Prof. and Mrs. Ronald Perkins.

## FOUR SENIOR MEDICS ARE HIGHLY HONORED

Four senior medics were initiated into Alpha Omega Alpha, honorary medical fraternity, at a meeting last Monday night. The men are Harold King M4 of Iowa City, J. J. Collins M4 of Williamsburg, Lawrence A. Block M4 of Davenport, and Ivan F. Weidlein M4 of Wellman.

OUR WATER STAND

Unheeded of science with all of its theories of bacteria, unmindful of Iowa's few traditions, our heretic class, undismayed by vehement curses mouthed by undergraduates, the old tin water stands which grace our University buildings with their feeble and bent legs and battered sides, bear the brunt of ages bravely.

Freshmen come, doctors of philosophy go, but they remain as one of Iowa's few traditions, out heritance of past ages. Probably their existence may be explained by reason of some white haired and kind hearted janitor who remembers the old oaken bucket and family tooth brush of his own childhood days. Just as Old Lady Hubbard of nursery fame, when the student gets to the tank with parched throat, he finds the paper cup rack bare. When the cups are there the water tastes like the old mill pond in summer.

The water from its nickel-plated throat trickles down onto the floor and then down the marble steps in miniature waterfalls, producing the effect of a winter garden in Babylon. And when on a hot day the garbage can is filled with discarded cups and sundry refuse, one's imagination treks back to the old red livery barn that fronts on Main street.

Amid halls of learning, where among other subjects hygiene is taught, one can't help but voice his admiration for these venerable objects which have held their own against encroaching science so worthily.

IT'S IMPOSSIBLE!

"You can't please everybody," according to an ancient parable about two men who tried it. Perhaps this is the reason why criticisms are heard around the campus at this University. Students in general are a never-satisfied group of people. Something is always wrong, and there is always some little thing to grumble about.

But is there really something wrong, or is it in our minds? A great many times when we are inclined to grumble about certain conditions, we should analyze the difficulty, and see whether or not we are among the majority, or whether the majority are those who are satisfied with that particular thing. In many cases we would find ourselves with the minority, and we would know that the trouble had only arisen from the fact that "you can't please everybody."

Introspection is a wonderful thing. If we could easily analyze our thoughts before we state them, perhaps a great many things would never be said. After they are said we can often introspect and analyze them, and then wish we had remained silent. In criticism we can more easily test the soundness of our arguments. Examine the criticism first of all and see if it is based on facts that warrant it. Then discover whether or not it is the result of something being wrong or whether it is just a case of you being one of those who can't be pleased with that particular thing.

All of us are satisfied with certain things, while others criticize them. It would be well before registering our little kick on some conditions, to find out first if our complaint is only a result of the parable "you can't please everybody."

It is reported that there were multifarious tricklings of tears and swelling torrents of wrath in feminine circles yesterday after reading a certain editorial on "Pajama Philosophy". We'll admit that we were never any good at telling funny stories, but we wonder if those directly concerned are in the habit

of cursing the author of a novel everytime he allows an impassioned hero to kick a whimpering cur.

How'd the boycott advocates ever overlook the florists? The Senior Hop tickets don't have the usual slogan 'No Flowers', which is causing the boys lots of worry.

After reviewing the W. A. A. vaudeville, we maintain that organization has a monopoly on the bob-haired models.

No matter how cynical an editorial writer is about women, he doesn't believe his own stuff, girls.

"SHIFTERS", BORN AT IOWA, NOW FLOURISH ON EASTERN CAMPUSES

Do you remember the night that you were initiated into the solemn order of "Shifters" and had to pay the initiation fee of so many hairnets or treats at Reichs? The order of quote is said to have had its origin on the Iowa campus, and yet in the ritual service of the initiation there was the statement that the organization was as old as time itself. Adam was a "Shifter", and consequently he shifted from the garden of Eden. Noah, too, followed in his stead by using his Ark on the mighty flood of waters; and so on down from Cleopatra, Caesar, Napoleon, Wellington, Washington, Lincoln and Bryan.

Many Here Joined

The "Shifters" enrolled in its membership approximately three-fourths of the student body, the other one-fourth refusing to join when they learned that the initiation fee meant treats for the initiators. The faculty of this University held aloof from the organization. After the Greek letter organizations arising from this movement died out nothing more has been heard of it but the faint memory that there was such a movement.

Even Urchins Belong

But the progenitors of the "Shifters" have carried to the East, and the latest reports have it that the colleges in and around Boston, even old conservative Boston proper, have fallen for it. Thousands of people in Boston are members, which is evidenced by the badge that they wear. All clerks in stores, street urchins of all descriptions, dignified professors of Boston Tech, Wellesley, Harvard, Smith, and of the smaller schools thereabouts wear their badge of the "Shifters". Not only on everyday occasions in the school or shops, but also in the elite society of the Wellesley Junior Prom the badge was worn on the gorgeous evening gowns and on the shiny black lapel of the formal dress costume. In the Middle West there was no badge, but in the East the small paper clip is the sign of the order.

Faculty Turn Shifters

It is reported that Dean Talbot of Boston Tech was initiated by twelve upperclassmen who exacted

the fee of a dinner costing \$5 a plate. The Dean in turn initiated a group of professors.

The only one man in Boston who is not reported to have become a "Shifter" is "The Thinker" in the Boston museum. He probably has retained his position for so many years that he will not now consider shifting.

ORDERLY MANNER OF PROBATION BY FRATS PLEASES HARRINGTON

"Fraternity probation and initiation ceremonies this year have on the whole been conducted in an orderly manner, and much of the outside pranks and horseplays have been eliminated," stated Edmund J. Harrington, chairman of the Interfraternity council yesterday. "There can be no objection to the ordinary run of outside activities such as running the last block home or walking the street car tracks, since these, while they do cause considerable comment at times, are innocent diversions which tend to make the freshmen keep on their toes." The only objection voiced by the chairman of the Interfraternity council was the sending of freshmen to sorority houses to entertain the girls; at the same time making fools of themselves.

Harrington believes that the idea of compelling freshmen to do outside stunts is to make them realize their position as inferiors and thereby hasten their education in the knowledge of fraternity life, and that stunts of this nature should be confined to the fraternity house, or at least where less notice will be taken of them than there would be if pulled off for the benefit of some sorority.

The only possible good to be derived out of special trips to sorority houses is the enhancement of some upperclassman's prestige and if the said upperclassman is not capable of holding up his end of the affair he should at least be big enough to admit his deficiency and not uphold it by making fools of his brethren-to-be, says Harrington.

ENGINEERS TO STEP OUT IN A REGULAR PARTY MECCA WEEK

The annual Mecca Day dance of the engineers will be staged this year on March 18, in the men's gymnasium, and will be a much larger and more elaborate party than has been staged heretofore during Mecca week. Although the original dance was planned by the committee to be a costume affair, it has been decided not to have it a party of this kind.

The gymnasium will be decorated this year much as the other University parties and decorations will be carried out in an old gold and black effect. The plans of the committee are to have a number of feature dances throughout the evening.

The walls of the gymnasium will be covered with old gold with black interwoven throughout. The lights will all be covered with interwoven black and gold and will all be connected with streamers which will make possible the covering of the entire ceiling, while the center piece is to be a large hanging basket of flowers.

Harold A. Neville S3 of De Witt is chairman of the committee. The other members are Theodore L. McDaniel S4 of Clinton and William J. Hogan S2 of Davenport.

WORK BOOMS ON SEA WALL CONSTRUCTION

Steady progress is being made by the contractors on the additions to Iowa field. Although nothing has been done toward the construction of the bleachers proper, considerable in the way of preparatory work has been accomplished. As the foundation for the sea wall,

which will also support the bleachers, about 100 pilings have been driven, with several hundred more yet to be placed. This work has been facilitated by the addition of a power-driven pile driver which replaces the horse-driven machine used up to this time. Another crew

is engaged in building a runway of heavy timbers to be used when the actual work of pouring concrete begins.

The recent snow and present weather conditions while being a handicap have not materially interfered with the work.

### RIFLE SCORES SHOW INDIVIDUAL RATING OF R.O.T.C. TEAM IN MATCH

The unofficial scores of Iowa R. O. T. C. rifle team in the first two stages of the N. R. A. intercollegiate match have been announced by Lieut. Thomas E. Martin, rifle team coach. The match is shot in six stages, one stage being shot each week. As the official scoring is done at the N. R. A. headquarters in Washington, D. C., the official scores made in the match will not be known until after the completion of the match—the week ending March 25. The individual scores in the first two stages are as follows:

Name	Prone	Sitting	Total
Bray	100	99	199
Dehner	99	99	198
Phillips	98	98	196
Fabricius	99	94	193
Lambert	98	93	191

Second stage, week ending February 25:

Name	Prone	Kneeling	Total
Lambert	100	97	197
Dehner	100	96	196
Bray	99	95	194
Fabricius	99	92	191
Phillips	99	84	183

The third stage, consisting of the prone and standing positions, will be shot this week; the fourth stage, prone and sitting, the week ending March 11; the fifth stage, prone and kneeling, the week ending March 18; and the sixth and last stage the week ending March 25.

"Because of the excellent showing this team has made in the first two stages we have decided to enter a second team in this match in lieu of a second team in the Corps Area matches as previously announced," was the statement of Lieutenant Martin yesterday.

The members of this team have not been designated as yet owing to the keen competition for membership on the team. Several are tied for the high places and it will take a few days yet to determine who shall make up the team. Owing to the fact that it is already two stages behind it will have to shoot two stages a week until it has caught up with the rest of the competing teams.

### PRICE RETURNS FROM ENGINEERING COLLEGE MAGAZINE CONVENTION

Vern C. Price \$4 of Corydon, business manager of the Transit, has returned from the convention of the Engineering College Magazines Association which was held at Ann Arbor, Michigan, last Friday and Saturday. As a result of his trip the Transit was admitted to the association and from now on will be able to publish a much better and larger paper due to the fact that they will receive more national advertising.

The main purpose of the association is to bring closer contact among the members, and to promote publication of Engineering college magazines in the different colleges throughout the country.

The March issue of the Transit will appear the latter part of this week, and will contain several feature articles.

### ESPANOLES ENTERTAINED

The Spanish club had a meeting at the Alpha Omicron house Wednesday night. The program consisted of the following numbers: a one act play, Ralph E. McIntosh A1 of Davenport, Glenava F. Klopping A4 of Newton, Dollie G. Dulgar A4 of Muscatine; a talk on Bolivia by Jose Hinoposa A1 of Cachabamba, Bolivia, and music by Tom T. Norris L1 of Manchester.

### SOCIETY

#### Delta Theta Phi

Delta Theta Phi announces the following initiates: Alden L. Doud L1 of Douds, Fred O. Paulson L1 of Clear Lake, Harold Hoersch L1 of Davenport, Ralph L. Sheets L1 of Iowa City, J. Vernon Buckles L1 of Onawa, Hugh J. Tamisela L1 of Missouri Valley, Waldo R. Fimmen L1 of Burlington.

#### Staff and Circle.

Lucile Everett A4 of Iowa Falls and Margaret Brady A4 of Fort Dodge were hostesses to Staff and Circle at dinner last evening at the Pagoda.

#### Alpha Chi Omega.

Marian Rummel A2 of Independence returned yesterday after several days' visit at her home.

Flora Benham A4 of Burlington is a patient at Mercy hospital following a minor foot operation.

Varsity will be chaperoned by Mr. and Mrs. Van Doren, Saturday evening. There will be no Varsity Friday evening on account of the Senior Hop.

### ANNOUNCEMENTS

Order of Artus lunches this noon at the Pagoda.

George Draper, M. R.

Christian Endeavor of the Congregational church will give a box supper at the conference house on North Clinton street, to which all Congregational students are cordially invited. No box will cost more than fifty cents.

All women who have tickets or money from W. A. A. Vaudeville turn it in at the Women's gym today at 5 o'clock.

Frances Hungerford.

## 119 POSITIONS TO FILL SOON

### Graduate College Offers Paying Positions to Assistants

The graduate college is offering 119 salaried appointments for the next school year, 1922 and 1923. Five research associates will be appointed and paid \$1000 and over in proportion to qualifications for independent service. Fifteen research assistants will be appointed to work on half time and will be paid \$600 and upwards.

In addition to these there will be three senior fellows who will be paid from \$600 to \$800 and tuition, eighteen junior fellows to be paid \$300 to \$500 with free tuition, eighteen scholars to be paid from \$200 to \$400 with free tuition, and about sixty graduate assistants on half time to be paid from \$700 to \$800.

The higher positions will be awarded to those who have already proved their superior ability in graduate work. Scholarships are open to graduates of any college or university in good standing, junior fellowships to students who have already had one or two years of graduate study or who have had equivalent preparation, senior fellowships to students who have already earned their doctor's degree or who have preparation equivalent.

The applicant for a fellowship or scholarship must show marked attainments in one or more lines of study and must give promise of ability in research. Testimonials from responsible persons as to the general worthiness of the candidate must accompany the application. The graduate faculty will award the scholarships and, other things being equal, will give preference to candidates from the standard colleges of the state.

Only men who have completed the work for the doctorate, or equivalent training, and desire to devote their time entirely to original work may be appointed research associates. They are usually appointed on half time, with the privilege of carrying a maximum of two-thirds of a graduate schedule. The distinction between research and graduate assistants is that the former is appointed exclusively for assistance in research, whereas the latter is appointed in assistance in undergraduate instruction.

Graduate assistants receive their appointments in the various departments in the undergraduate colleges of the University. Only those will be considered who have graduated with high record from the standard college and have taken advanced courses in the subjects in which they may serve as assistants. The appointments are made for half time service to the department, with the privilege of carrying from one-half to two-thirds of the graduate schedule.

Applications for appointment to fellowships and scholarships are research associates should be made to the dean of the graduate college on blanks prepared for the purpose, for action of the spring meeting of the board of education, before March 15, and for action at the June meeting, before May 15. Applications for research and graduate assistant positions should be made directly to the department in which the major will be selected.

## FORMALS HIT BY HARD YEAR

### Frat Parties' Expenses Are Closely Scanned by the Authorities

Members of the fraternity and sorority world at the University have gone in for less frivolity this year than ever before. Formals are noticeable by their absence. Dance and song may go on, but they go on in the fraternity parlor to the tune of the little old Victrola. So far, only two fraternities, Acacia and Delta Zeta, have given formal dancing parties.

Whether or not the students are working harder this year or not is a question. The stress of the financial situation throughout the country probably most effects the spare change that the frat man has to spend for pleasure.

Violet Blakely, assistant dean of women, said regarding this matter, "The University has not found it necessary to limit the amount a fraternity may spend on a formal. The social committee, however, has this power and could restrict the amount as easily as it has limited the price of all-University formals. The committee has discussed the subject, and it is their idea that extravagance of any form should be discouraged. Any definite action, however, they have left to the interfraternity conference."

Edmund J. Harrington D4 of Sioux City, president of the interfraternity conference, said, "At one of the meetings early last fall, the conference discussed the price of fraternity formals and passed a resolution recommending that the cost of such parties be kept at the minimum. Since some fraternities had already made their arrangements for formals, no definite amount was fixed. The majority of the fraternities do not give a form-

al dance every year. Most of the ones who are planning formals for this year did not give them last year."

### INTERFRAT MEETING MARCH 8

The regular meeting of the interfraternity conference has been postponed from Wednesday, March 1, to Wednesday, March 8.
