A great many men and women of the University are now engaged in that work. The secret is the same that has been used for a number of years. The secret is that there is a great deal of work to be done, and that the work is not easy. But the men and women who are now engaged in this work are doing it with a great deal of success. They have found that the key to success is hard work. And the facts are that very soon you will be in the final test of your work, so that you can come as a national work. That's the only way to go. Certainly a man or woman with a University education has some advantage over any other young man or woman without that advantage. They have opened up a new road of opportunity, and courage is the recipe for his success. He has the rest. And the facts are that very soon you will be in the final test of your work, so that you can come as a national work. That's the only way to go.
