WRESTLERS TO TAKE PART IN BIG TEN MEET

Sweeney, Halvorson and Lee Vie For Iowa Crown

Three Iowa wrestlers will compete at the western intercollegiate gymnastics and wrestling tournament held at Madison, March 17th and 18th. The three freshmen were chosen by the conference team to try for individual honors by members of the conference committees. Iowa, Sweeney, Halvorson and Lee.

Under the rules, the percentage of wrestlers determined by the number of wrestlers entered in each event of the meet, with the exception of dual meets. Iowa wins the championship of the conference for the second year in a row with a score of five wins to no losses.

Indiana is second

Indiana scored nine to the conference of 10 and the third place in the last tournament. Iowa is first and Indiana is second.

PROF. H. A. LORENZ TO LECTURE THURSDAY

Prof. H. A. Lorz, mathematical physicist of the University of Göttingen, will deliver a technical lecture on "Old and New in Development" Thursday, March 14, at 8 p.m., in Physics building. Professor Lorz is emeritus of the University of Göttingen and has been director of a half dozen universities in Germany.

The greatest work of Professor Lorentz is called a "new theory of ether," a founder with Maxwell of the electron theory. In 1892 the Nobel prize in physics was awarded to Lorentz and to J. J. Thomson, due to their researches between Lorentz and his pupil, J. J. Thomson. Professor Lorentz may be truthfully described as a foremost engineer in the development of the physics of relativity.

The fundamental transformations of Einstein's universal theory of relativity of 1905 are called the Lorentz transformations. Although known from Lorentz, they were not worked out until after 1910 by him in about 1880. It is believed for Einstein's later use for or to set all those transformations which served the purpose, as given in the book of relativity, to re-interpret their true significance.

LEADING TREASURE ANcient DEALS WITh EXPERIENCES

The March issue of the Treasure which came from the press a few weeks ago will be a big issue as some of the others. It is full of stories about the basketball games. Chief among these is the one by Floyd A. N. Made, a professor of English and in charge of the University's library, on the "Utilization of the Library" in connection with the preparation of a backdrop upon which the library is shown at all the present-day, the new additions of the library. It is for those who are interested in the library. The library is shown at all the present-day, the new additions of the library. It is for those who are interested in the library.

An editorial on "Edison's Quincentennial," in a great place, by Anna E. Weidman, tells of the changes in the University at that time and at the present day. The new library is shown at all the present-day, the new additions of the library. It is for those who are interested in the library.

Co-Education

The graduates of a co-educational institution is better educated than a graduate of a school for men or women. We invite individual accounts before graduation and "joint accounts" after graduation.

IOWA QUINTET FINISHES FIFTH IN BASKETBALL

Hawkeyes have Average of 146 for 1922 Season

WISCONSIN IS THIRD

Old Gold Team is Helped by Badger Victories

Over Chicago

BIG TEN STANDING

Twelve

Four

Four

One

None

By virtue of their victories over Minnesota, Wisconsin, and Illinois last week, the Hawkeyes have a clear shot for the third place in the conference. A victory in the last two basketball games will clinch the third place. The Hawkeyes have more points than either Minnesota or Michigan, and will need to lose both their last two games to move down in the standings.
