## LAST PRACTICE GAME MAY BE PLAYED TODAY

Rain Prevents Tilt With Coe Yesterday; Field Is Soaked

**NO PRACTICE YESTERDAY**  
Hawkeyes Will Open Big Ten Season at Illinois Thursday

The game scheduled with Coe for yesterday afternoon, had to be postponed on account of the rain, and will, weather conditions permitting, be played at 4 p. m. this afternoon. Until noon yesterday, Coach James N. Ashmore had not cancelled the game, as the diamond was still in fair shape. The infield, especially, was in good condition. Although the outfield was wet it could have been played on. The continued rain, however, made it imperative that the game be called off.

### Becker May Start

The game today will be the last practice game before the varsity starts on its first conference trip. Frohwein has been slated to start today, but as the Illinois game is only two days later, he may be saved. Becker may be Coach Ashmore's choice in the box if Frohwein is not used. Becker pitched the first six innings of the first game against Coe, and got away to a bad start, as Coe made six runs in the first inning. After that he pitched good ball until relieved in the sixth. He is anxious to get another chance in order to show the Coe batters that they were lucky in the first game.

### Varsity Off for Illinois

Tomorrow the varsity leaves on its first conference trip with the Illini and Purdue as their opponents. Illinois is met next Thursday at Urbana, while Purdue is played on Friday. The squad will be weakened by the probable absence of Travis, whose bad ankle is still bothering him. Frohwein will probably start the first game, while Becker, Wells, or one of the other pitchers will work the Purdue game. Both Hurlbert and Poepsel are expected to make the trip since the competition between these two men for short stop is still being fought out. Hurlbert played the position last Saturday and made a very good showing. Barrett's thumb is practically well, and he will be able to play today.

### Michigan Beats Illinois

Illinois lost its first conference game to Michigan last Friday by a score of 3 to 1, and this loss will make them fight all the harder against Iowa next Thursday. They have a good baseball club, and Iowa will have to play good baseball all through the game in order to win. There was too much rain last night to permit outside work, so that Coach Ashmore was forced to limit practice to a short talk.

## "THE BIRD MAN" TO BE STAGED TONIGHT BY UNIVERSITY PLAYERS

"The Bird Man", the prize play of the University Players' contest last year is to be given in the Little theater of the elementary school tonight at 7:30, before the members of the University Players.

"The Bird Man" was written and directed by Mrs. W. F. Bristol, who is a graduate of the University of Indiana and who took graduate work here last year. The play is a character sketch of an old man, who dreamed of aeroplanes before they had been invented.

Jordan Larson L1 of Radcliffe plays the part of the aged dreamer. The rest of the cast is Helen Hadlock A4 of Greenfield, Lauren Smith M1 of Cherokee, Albert Cannon L1 of Iowa City, Otto B. Laing A3 of Corydon, Harry Voltmer A3 of Galva, and John Jacob Van der Zee, Jr., of Iowa City in a junior role.

"The Big Blue Book", the second prize play written by Lillian Lawler, is to be given at the next meeting of the University Players.

## STUDENT DECORATORS TO FURNISH SETTINGS FOR "A WOMAN'S WAY"

For the first time this year the settings for a University production will be made and decorated by students in their practical work in the class in dramatic production.

The interior box set for Thompsons Buchanan's "A Woman's Way" which will be produced as the next University production in May will be designed by Helen Thornton A4 of Pocahontas, Frances Hungerford A4 of Iowa City, and George O. Hurley A3 of Rolfe.

The interior will have as its base color a rich golden tan-brow, banded and designed with vermilion and gold. Combined with this will be a silvery gray which will work up beautifully under the varied colored lights that will change the atmosphere of the scenes as the lighting changes. All the lighting effects will be worked out by these student designers.

## UNION DRIVE IN WINDY CITY TO BEGIN MAY 2

University of Iowa Club Will Give Dinner For Chicago Alumni

### GRASSFIELD IS SPEAKER

Three Men Have Already Pledged \$8,000 To The Union

Everything is in readiness for the opening of the Memorial Union campaign in Chicago on Tuesday May 2. On that evening the State University of Iowa club will give a dinner to all Chicago alumni in honor of President Walter A. Jessup at the La Salle Hotel. W. O. Finkbine of Des Moines, Carl F. Kuehne of Davenport, W. H. Bremmer of Minneapolis and Union Director Grassfield will be present to explain the proposition to the Chicago people.

At the present time there are about 300 former University students in Chicago that the Union has definite information on and probably there are many others. Already Chicago has pledged about \$9,000 toward the Union. Of this \$8,000 has been pledged by three men. Rush Butler of the law firm of Butler, Lamb, Foster, and Polk has pledged \$5,000. William E. Lamb of the same firm has given \$2,000. E. R. Johnston has contributed \$1,000. No definite estimate has been made as to the probable amount that will be raised but a good showing is expected.

Although the campaign will continue for several weeks, all those present will be given an opportunity to make a pledge during the evening of the dinner. The University of Iowa Club will complete the drive.

After Chicago campaign is launched Director Grassfield plans to go into Cedar Rapids, Davenport, Des Moines, Muscatine and Ottumwa with the drive. He hopes to do this before vacation and then commence to work towns by counties. The framework for this has been already completed in thirty-nine counties of the state. With these drives completed it is felt that the actual construction of the building will be commenced.

### THIRTY-FIVE CANDIDATES GO OUT FOR BASEBALL

The comparatively small number of freshmen that responded to the first call for baseball candidates on Saturday was due to the fact that a large number of the first year men had classes in the morning and were unable to be present.

Only thirty-five men were present for the morning practice and that number was swelled by the appearance of eight more candidates in the afternoon. Both baseball coaches, James Ashmore, tutor of the varsity men, and H. B. Higbee, freshman mentor are of the opinion that there is a dearth of valuable material in the 1925 class who have not yet appeared for practice.

## FANS MAY BUY RELAY TICKETS AGAIN TODAY

Tryouts for Quarter Mile Will Take Place This Afternoon

### COLBY NOT UP TO FORM

Coach George T. Bresnahan May Announce Entries On Wednesday

Tickets for the Drake Relays have been held over for another twenty-four hours, and will be on sale all day today at the office of the department of athletics, according to Secretary M. Corso. This will be the last chance to get tickets for the Relays at Iowa City, as they will be returned to Des Moines after today's sale.

### Noll Makes Fast Time

Tryouts for the quarter mile will be held this afternoon on Iowa field and tryouts in the 220 yard dash will be held Wednesday afternoon, after which it is probable that Coach George T. Bresnahan will announce his entries for the Drake relays. The home meet Saturday seemed to be entirely satisfactory to the coaches, especially the fast time made by Noll in the one mile run. At Drake he will compete against the fastest milers in the West, but he should place, providing he retains his present form.

The meet also showed that the distance entries of the Hawkeye track team, will be greatly strengthened next year by the addition of Phelps, who broke the University record in the two mile run. Phelps has a whole season in which to improve, but already he has attained a pretty stride and his condition seems to be of the best. He ran the race Saturday like it should be run, and should easily win most of his meets next year.

### Colby Not in Best Form

Whether or not Colby will show up well enough to be counted as a real re-inforcement to the sprinters is still a question. In the races of the home meet he was well up toward the front, but in the past he has shown much better speed. Of course he is still fighting the stalemate which is bound to come after two years of rest and should improve as the season continues. It is rather doubtful if he will be used to a great extent at the Drake Relays, although in his position as anchor man on the quarter mile relay he comes across the tape in his old time style.

### Wilson and Brookins Good

Wilson and Brookins can be counted upon to take their share of the points. Both have already proven their worth and are greatly feared by the rest of the conference runners. Lambert, Smith, Seiling, Miller and Adams are all showing good speed in the dashes. Tomorrow in the 440 yard dash and in the half mile should make somebody step in those events although he has little chance of winning them. The Hawkeye weak spot is in the field events.

## CAPTAINS FOR TEAMS NEXT YEAR WILL BE CHOSEN THIS SPRING

Captains in all branches of sport except one will be elected at the annual banquet held this spring. The banquet will not be given until after the track and baseball seasons are over. Captains in the following sports will be elected at that time: basketball, swimming, wrestling, track, gym, baseball, and cross-country.

At the close of the football season Gordon C. Locke A3 of Denison was elected to lead the team next fall. Retiring captains this year are: football Aubrey A. Devine L1 of Des Moines; basketball, Frank J. Shimek A4 of Iowa City; swimming Iloff Sheperd A4 of Mount Pleasant; wrestling, Charles B. Sweeney A4 of Sutherland; track, Edgar Hoffman, A4 of Ida Grove; gym, Thomas P. Treynor M3 of Iowa City; baseball, Clarence O. Michaelson A4 of Leeland; cross-country, Lester Peterman A4 of Iowa City.

## 1000 ENTRANTS ARE EXPECTED IN PENTATHLON

Second Annual Event to Take Place on Iowa Field May 21 to 27

### MACRAE WON LAST YEAR

Freshmen and Sophomore Classes Will Have Examinations

About 1000 men are expected to be registered as entrants in the second annual Pentathlon which will be held on Iowa field the week of May 21-27. The number of entrants this year will be somewhat larger than the number of men participating in the event last year.

### Any Man Eligible

Any man in the University will be eligible to enter the contest providing he is not a member of the varsity or freshman track squads and is not a letter man in track from this or any other institution. The entrant will specify at the time of his registration the five events he wishes to enter. These events may be chosen from any of the regular field or track contests. Each man will be awarded a certain number of points according to ability he displays in each event.

This system, which was devised by the physical training department, has been proven to be highly efficient for it is so arranged that the better record the individual makes in each of the contests the more points he will receive. The person winning the largest number of points will receive a silver cup as a permanent trophy.

### Two Events Daily

The schedule of the events is so arranged that two events will take place daily throughout the week. Each man in the freshman and sophomore physical training classes will be required to pass an examination consisting of five track or field events. Points won by these men during the examination will be counted to their credit in competing for the cup.

### Macrae Won Last Year

Donald Macrae M1 of Council Bluffs, was the winner of the Pentathlon held last year. Macrae stood highest as point winner having won 3966 points out of a possible 5000.

## WOMEN'S SWIMMING TEAMS ARE NAMED BY JUDGES MONDAY

The class swimming teams chosen yesterday were as follows: senior team—Mary Freeman of Nocatee, Florida, Bertha Shore of Des Moines, Jean Spiers of Reinbeck, Helen Hayes of Iowa City; junior team—Gladys Taggart of Spencer, Emilie Hartman of Junction City, Kansas, Mary Hammerstrom of Clinton, Julia Darrow of Columbus Junction, Geneyieve Hansen of Clear Laake; sophomore team—Amy Benner of Keokuk, Alice Sherwood of Creston, Helen Spencer of Des Moines, Charlotte Fiske of Iowa City, Catherine Farthing of Creston; and the freshman team—Mabel Quiner of Des Moines, Margarita McGovney of Iowa City, Emily Russell of Aberdeen, S. D., Sarah Cox of Iowa City, Marjorie Buhler of Atlanta, Georgia.

### LARSON IS HERE

Erling Larson '21, representing the Bond and Mortgage company of the Davenport office, is here today to interview students from the college of commerce who are interested in commercial work which his company is doing. The Students' employment bureau of the college of commerce arranges interviews for students with Mr. Larson.

### PSI OMEGAS WIN

Psi Omega started the baseball season with a rush Thursday evening by defeating the Acacia team by the score of 6 to 2. Batteries were Psi Omega, Holm and Plagman; Acacia, Steinbach and Miller.

## LARGE REGISTRATION EXPECTED AT NEXT SUMMER SESSION

Applications for registration at the summer session of the University which are now received at the registrar's office, give indications that there will be more enrollment in the summer session this year than last year. University registrar, H. C. Dorcas, stated that, basing his opinion on the volume of correspondence from prospective students, he expects more attendance in the summer session this year.

The attendance in the summer session last year was above 1750. This figure shows an increase of 215 per cent in a decade. The striking characteristic of the attendance was the large number of mature students including, for example, 200 school superintendents. There were represented more than thirty-five states other than Iowa and numerous foreign countries.

## ANNUAL CANOE RACE WILL BE PLANNED SOON

Eels to Meet Thursday And May Arrange For Event

### COURSES CONSIDERED

Many Plans Coming Up For Consideration at Next Meeting

Definitive arrangements for the next annual canoe race are expected to be made Thursday night when the Eel club meets at the Pagoda tea shop for a dinner and election of officers. Aside from the election of officers the drafting of plans for the canoe race will be the chief business of the meeting.

### Seals May Help

The increasing popularity of the annual aquatic event has led to the proposal by some of the members of the organization that other events be added to this year's race, thus making a full outdoor aquatic exhibition. Members of the Seals club, sister organization to the Eels, may be asked to combine with their aquatic brothers this year and stage a women's canoe race. The holding of a men's swim is also being contemplated. Another plan that will come up for consideration Thursday night will be the altering of the course over which the races will be run.

### Two Courses Considered

Two courses are at present being considered. One involves a double lap race from the park bridge to the Iowa Avenue bridge and return, while another involves a race from the park bridge to a point in the bend of the river and return to the park bridge.

It is pointed out that either of these courses would afford the spectators a chance to see more of the races.

### May Be on Decoration Day

In case of a swimming race only a single stretch would be used thus avoiding a swim against the current. The affair will probably be held on Decoration day, the annual date for the affair.

## NOTED ARCHITECT LAUDS BUILDINGS OF UNIVERSITY

Prof. C. Howard Walker, chief architect of the Omaha and St. Louis expositions, now a member of the faculty of Harvard Institute of Technology, who was here to address a group of faculty people Wednesday evening, praised the architecture of the University buildings and plans for future buildings. He calls the Old Capitol "a remarkable building, far surpassing all the other University buildings in beauty of proportion." He went over the interior of the building with Supt. John M. Fisk, and made suggestions for the details of the remodeling. Mr. Walker expressed particular satisfaction at the plans for the Memorial Union building.

## IOWA'S R.O.T.C. WINS ANOTHER LOVING CUP

Hawkeyes Lead in Match With Score of 3,426 Out of Possible 4,000

### OREGON TAKES SECOND

Ames Takes Fifth Place and University of Illinois Is Ninth

Iowa's R. O. T. C. has added to its collection of silver loving cups by winning of the National Engineer unit gallery competition, information concerning which having been received by Lieut. Albert Riani, senior instructor in the Engineer unit yesterday.

### Score is Unofficial

The match was shot as a result of a challenge sent out to all Engineer units of the R. O. T. C. by the Oregon Agricultural college and Iowa led the twelve competing teams by a score of 3,426 out of a possible 4,000. Oregon aggies coming in second place with a score of 3,408. The information, which is unofficial, came from Oregon agricultural college, where all scores were sent and is to be verified by the official scoring of the targets, which have been sent to the office of the chief of Engineers in Washington, D. C., for that purpose. Iowa has a margin of eighteen points over Oregon, however, and the N. R. A. official scoring plug was used in marking the targets here, thus making it certain that the official score will not vary more than a few points from the one announced.

### Ames Is Fifth

Ames came in fifth place with a score of 2,998 and University of Illinois placed ninth with a score of 2,793. A silver loving cup appropriately engraved will become the property of the Iowa Engineer R. O. T. C. unit after the official scoring has been completed and the result announced.

The conditions of the match called for two sighting shots and ten shots for record by each man, in each of the four positions, prone, sitting, kneeling and standing, with ten men on a team.

### Team Standing

The standing of the teams entered in the match is as follows:

1. University of Iowa	3,426
2. Oregon agricultural college	3,408
3. Colorado school of mines	3,231
4. University of Kansas	3,136
5. Iowa state college	2,998
6. Washington state college	2,989
7. Rose polytechnic institute	2,977
8. Virginia military institute	2,921
9. University of Illinois	2,793
10. University of Cincinnati	2,434
11. University West Virginia	2,016
12. California Institute of Technology (5104 out of 6000)	

California Institute was evidently put in last place because they shot more targets than were necessary and did not conform to the conditions of the match in that particular.

The total scores in all four positions shot by the Iowa men are as follows:

Phillips	348
Hartman, T. A.	355
Jahnke	369
De Klotz	356
Miller, H. B.	338
Memler	330
Lambert	333
Hickox	315
Gibson	350
Kinsler	332
Total	3,426

### DORCAS TO ST. LOUIS

Herbert C. Dorcas is leaving tonight for St. Louis, Mo., to attend the annual meeting of the American association of collegiate registrars of the United States and Canada. The session of this year's meeting will cover three days, April 25, 26, and 27. As in previous years the meeting will discuss the problems connected with the work of registration in colleges and universities.

SOMETHING ADO

A man likes a little fuss and ostentation, naturally enough, and enjoys having much made of him after accomplishing something difficult. To just slide out of the University after four or more hard years of application to studies would seem a disappointing end to his undergraduate career to a senior this spring. He doesn't regard the closing of school as a mere prelude to a summer vacation. It means to him the end of formal education, his school days. He has to grow up from then on; he has to go out and buck the world; he is starting out in "real life".

And so he wants to make his departure something pleasant to remember. A jolly recollection capping a long experience of going to school is the thing.

He would like a little formality about his exodus, even a little ceremony and pomp. A gathering of all the University at a serious convocation, with himself and his fellows the center of attraction is what he wants to satisfy this desire. And he wants a little fun, too. For this, a senior frolic, a masquerade, a "hooky day", or any frivolity marking the end of his long years of serious application, would do.

It is a great event in the senior's life, this graduation, and he is entitled to have it treated as such.

THE MAN AND THE JOB

Employment bureaus, teachers agencies, and employment managers are filling the mails these days with inquiries and answers to inquiries that are busied with the task of bringing the college graduate and his job together; students are sending mimeographed copies of applications for "most any sort of work" and photographs and statements of qualifications all over the country; employers are looking forward to the annual season of breaking in the college man and pounding a little common sense into his head; interviews and appointments and conferences and board meetings are devoted to finding the "right man".

Whatever may be the justification of the common accusation that the college man is self-confident and important and thinks too highly of himself, it is certain that he comes up against the real thing when he comes to sell his wares. Such accusations seem to lose their basis when it is observed how willing is the college student to start at the bottom. To be sure, he is after the "ten-thousand-dollar-a-year" job, but he has just enough philosophy to realize that he may be a year or two getting it.

AS TO CRIBBING (Purdue Exponent)

It is indeed a sad fate for a promising, and otherwise intelligent, student of the University to be summoned before the all-powerful and seemingly merciless dishonest committee charged with using a "crib" or "pony" in an examination or test. If the committee finds the defendant guilty it is, in all fairness to the rest of the class and to the institution, duty bound to take some action more or less drastic in the case.

If the offense is slight and the erring student is not ignominiously dismissed from school or dropped from the course, record of the case must at least be made for future reference, and this in itself is a blot on a man's character as far as his

school record is concerned. With only a few more weeks left to make up any back work or raise present low marks, and with the usual rush of spring events coupled with the popular spring fever to distract the student's attention the temptation becomes increasingly great to use unfair means to pass a test over unprepared work. Often times a low grade at some particular time will mean the fatal "thumbs down" in that course with the result that the student will not graduate with his class or will be required to carry extra work the following semester.

But after taking all this into consideration isn't it a thousand times better to take the test like a man and get an honest grade than to try to fool ourselves and the instructor by using some cleverly arranged crib? We admire the spirit of the freshman who said to us the other day: "I only got a 59 in that test but I am prouder of it than if I had got a 90 per cent like several around me did." The student with good sound principles of integrity like that will win out in the long run and will make a better Bollmaker than a dozen who slide by using any method unscrupulous of otherwise to pass the course.

Many members of the faculty put almost unlimited confidence in their students and yet even in these cases when it seems as though it would be the lowest level of dishonor to crib, you will find unprincipled students cheating their way through. This might in part answer the hue and cry we hear for the installation of the honor system. The best policy is to avoid all possible suspicion of dishonesty in the class room and turn in your work for what it is worth. Then your grades come nearer to being a criterion of your real ability, and you have the satisfaction of knowing you have played the game square.

CONTRIBUTORS COLUMN

Editor Daily Iowan:

I have been very much interested in the articles on the tennis situation at Iowa which appeared in last week's issue of the Daily Iowan. The tennis problem is one which I think the university authorities will have to face sooner or later and the old saying is, "Eventually why not now?"

A rubber stamp ought to be presented the university authorities with the inscription "We haven't the money or the grounds available". That is the first answer given by them and while I believe it is to a certain extent the truth still if the worth of the proposition can be proven I think they can easily find the necessary money and ground. This is not the most poverty-stricken state in the Union by far and what others can do certainly we can at least attempt. If we allowed this stereotyped answer to our first demand for more courts to act as a dash of cold water on our campaign we would be admitting that the tennis situation is not the vital problem we proclaim it to be. But if we continue in spite of this apparent discouragement and attempt to show the authorities the soundness of our proposition and the sentiment of the student body they cannot fail to meet the demands of those for whom this money is to be spent.

How much do we spend a year on our football teams, our basketball teams or our baseball teams? What portion of the student body benefits by these expenditures? Or is it merely an advertisement for the University?

In answer to the first question I believe it can be safely stated that the expenditure for any one of these sports for one year would build enough tennis courts of the sort we now have to meet the demands of the students. Mr. Fisk states that four tennis courts are to be instaled south of the Quadrangle this summer at an expense of approximately \$1000, or \$250 per court. At this rate we could have at least sixteen new courts with the appropriation for only one of these major sports for one year.

The proportion of students who benefit by these expenditures is so small in comparison with the number who would benefit if applied to the equipment and upkeep of a number of courts that it is hardly necessary to go into the matter. Indirectly the student body as a whole derives a benefit out of these expenditures in that they are allowed to pay to see those who derive the benefit demonstrate their ability. Why are they not allowed to benefit directly and participate in the sport themselves instead of making it a chosen class? We cannot all be good athletes but at least the greater majority of

us can enjoy a good game of tennis providing we have a place to play.

To have a good football team or any other team is a good advertising plan for the school but why do we want to advertise for more students if we cannot handle those we have already? If we cannot meet the demands of the student body as it grows surely we are not going to be able to do so when it grows up.

Any criticism which does not offer some means of remedying the defects pointed out is undoubtedly of no value. Therefore I would suggest that a petition be drawn up and signed by those students who desire more tennis courts, better tennis courts and better care of tennis courts and presented to the university officials for their consideration. In this manner we can convince them we are in earnest and really believe in our proposition.

RELAY RESULTS TO BE SENT BY RADIO

Des Moines, Ia., April 22, (Special)—Announcement has been made that the Kiwanis club of this city has been granted permission by the United States government to use radio instruments with a wave length of 360 meters in broadcasting the results of the Drake relay meet April 28 and 29.

This is the first time in the history of athletics that the result of such a meet has been flashed through the air by wireless as rapidly as the events are concluded.

Because the broadcasting of messages over a 360 meter radius is contrary to government statutes, it was necessary that special permission be secured.

## FRIVOL TURNS CAMPUS CRITIC

Campus Activities Are Rated  
By Well-Known Senior  
Students

Criticism in the form of a numerical rating of about 150 campus activities will feature the Radical number of Frivol to be sold on the campus and at the Bookstores Monday, May 1. The rating has been compiled from separate ratings turned in by request by Maude Adams A4 of Des Moines, Lloyd Anderson S3 of Madrid, Harold Andrews A4 of Des Moines, Fred E. Egan L3 of Missouri Valley, Edgar J. Goodrich L3 of Anaka, Minn., Bruce Gould A4 of Des Moines and Cloyce Huston A4 of Crawfordsville. Everything from Harding to Hot Dogs has been treated in the rating.

### Dramatic Criticisms

"Pillars of Society" and "Clarence", plays recently produced by the University theater, are given final critical judgment in the Radical number. A full page of pictures illustrates the review.

"Poniards For Two" unearths further hitherto hidden facts and thoughts of Messrs. Achterlooney and Gollenbecker. An article entitled "Big Lies I Have Believed" illustrates the process of delusion through which practically every young man of active temperament has gone or will go. "Intimate sketches of Celebrities" shows how Joan of Arc, Edgar Allen Poe, Arthur Schopenhauer, William Shakespeare, and Leo Tolstoi act under certain rather ordinary occasions not previously divulged by biographers.

### To Elect Editor

Numerous candidates for the position of editor and staff members have appeared during the last week. An electing of both editor-in-chief and business manager will be made sometime in May. Only candidates who have actually performed work on the magazine in either editorial or business department will be considered for the positions, according to the statement of members of the board directing the elections.

### Last Issue in May

The Radical number of Frivol is the sixth issue of the year. The last issue will be called the Narcissus number and will appear about May 24.

## SOCIETY

### Whipple-Tobin

The wedding of Virginia Whipple of Vinton to Attorney Louis P. Tobin '21 of Vinton occurred Sunday, April 23, at the Congregational church of Iowa City. Florence Wright A3 of Knoxville and Jack Oswald A3 of Omaha, Neb., attended the couple.

Mr. Tobin graduated from the college of law of the University last year and is a member of Delta Chi and Phi Alpha Delta fraternities. Mrs. Tobin is a member of Kappa Kappa Gamma sorority. Mr. and Mrs. Tobin will make their home in Vinton.

### Lynch-Brooks

Miss Gertrude A. Lynch A4 of Ottumwa and Mr. Albert W. Brooks of Iowa City were married in Rockford, April 1.

### Guthrie-Remley

Miss Ethel Guthrie and Mr. Robert Remley were married in Marshalltown, April 11. Mrs. Remley is a graduate of Drake University, where she was affiliated with the

Iota Delta Omicron sorority. Since graduation she has been engaged in home demonstration work for four years, and has taught domestic science in Earlham and Webster City. Mr. Remley is a graduate of Iowa, where he was a member of the Sigma Alpha Epsilon fraternity. Mr. and Mrs. Remley will live in Webster City, where Mr. Remley is an attorney.

### Psi Omega

Psi Omega fraternity celebrated the thirtieth anniversary of the fraternity last Saturday evening at a banquet at the Pagoda tea shop. Many of the alumni were present to help enjoy the occasion with the active chapter. Vincent J. Carroll D4 of Clinton acted as toastmaster. After dinner speakers were Holmer D. Luglan D3 of Radcliffe, president of the active chapter; Dr. R. H. Volland professor of dentistry; Dr. Erling Thoen, associate professor of dentistry; Dr. M. B. Loomis of Cedar Rapids, Dr. R. Ogle of Muscatine, and E. J. Harrington D4 of Sioux City.

Psi Omega fraternity announces the pledging of L. G. Kilbourne D3 of Iowa City.

Edmund J. Harrington D4 of Sioux City will spend the weekend at home and on his way back will attend the State dental association meeting at Des Moines, May 3 and 4.

### Alpha Chi Omega

Alpha Chi Omega sorority announces the initiation of Winifred Murray A1 of Cedar Rapids, Frances Price U of Des Moines, Edna Grimm A3 of Clear Lake, Ruth Farmer A1 of Pierre, S. Dak., and Catherine N. Macartney, instructor in the art department of the University.

### Delta Zeta

Delta Zeta sorority announces the initiation of Alice Timberman A1 of Massena, Lora Vetterick A1 of Massena, Lorraine Luthmer A1 of Sumner, Esther Burns A1 of Iowa City, and Dorothy Calhoun A1 of Eldon; and the pledging of Esther Van Cleave A1 of Iowa City.

### ANNOUNCEMENTS

## FRESHMEN TO SPEAK TONIGHT

### Samuel Lefevre Prize Will Be Awarded Winner Of Contest

Eight contestants will compete in the freshman declamatory contest which is to be held at the liberal arts auditorium at 7:15 this evening. The Samuel Lefevre prize of twenty dollars, which was founded by Mrs. Anna Lefevre of Iowa City in memory of her son, will be awarded to the winner. The presiding officer and judges have not been chosen. The contest is open to the public and no admission will be charged.

The contestants will be William J. Berry of Iowa City and Kermit Christenson of Jewell who will have "A Plea for Cuba" as their subjects, Lowell P. Peterson of Laurens whose subject will be "Race Problems in the South," Max Livingston of Lamson who will speak on "Napoleon, the Little," Ernest G. Linder of Oakland who will use "The Preservation of the Union" as his subject, Vivian A. Conrad of Burlington whose subject will be "Builders of an Empire," Dorothy Chapman of Bonaparte who will use "Toussaint L'Ouverture" and William Voss of Algona whose subject will be "The Question of the Hour".

### STUDENTS WILL USE VARIED MEANS OF GETTING TO RELAYS

Three modes of travel will be used by the 200 and more students of the University who are going to Des Moines Saturday April 29 to take in the thirteenth annual Drake Relay meet. Ray Harris A1 of Des Moines and R. Parnell A2 of Cambly are grooming all the fearless men from the Quadrangle for a trip to the Relays via the side pullman route. C. H. Johnson L1 of Jefferson is going to Des Moines with an automobile party. Elbert M. Prichard L3 of Onawa and H. J. Wade L1 of Iowa City with a party of laws are going to Des Moines over the Rock Island in regular fashion.

The luckiest chance of seeing the relays is that offered the twenty senior civil engineers who are going to Des Moines Friday morning April 28 on an inspection trip. They will leave here at 4:35 a. m. so that they may be able to complete their work; which includes inspection of a number of bridges, the gas and electric light plants, the cement works, a tile factory, the American bridge and steel plant, the Des Moines bridge and iron works; in time to be present at the Drake Stadium when the

first event of the relay meet begins. Reduced rates of \$6.54 for round trip to Des Moines is being offered by the Rock Island railway company for the benefit of people who wish to make the trip to the Relay meet. The reduced rate will take effect Friday morning, and people traveling on the excursion ticket will be able to stay over in Des Moines until Monday, May 1. The Rock Island railway company will attach special coaches to trains leaving Iowa City on Friday and Saturday if there is a demand for them. Groups who are planning on going to the Relays over the Rock Island can make arrangements for extra cars with the local ticket agent.
