## Senate Sustains Bonus Veto With Four Votes to Spare

### DORCAS READY TO REGISTER 200 AN HOUR

#### Enrollment Will Exceed That of Former Years Is Belief of Registrar

Commencing at eight o'clock this morning both new and old students bid vacation a three months farewell. The general plan of registration is to be the same as that of the two past years which has proven quite satisfactory. Cards will be distributed bearing numbers this morning at the east entrance of the natural science building to the hundreds of students who have returned during the past few days and there is every reason to believe that registration will equal and perhaps exceed that of last year when 5980 registered. The summer session showed an increase in enrollment of over 300 the past summer. There is no reason for not believing that the total figure for registration this week should not also be increased by that large a number.

The present system of registration takes care of 200 students every hour. With three days of registration all students will be accommodated who are not late. These will be forced to pay the late registration fee of \$2.00 per day.

There are to be four main stations in the registration itinerary. Printed programs giving the complete registration itinerary will be passed out today but an error on these programs states the first station to be at the Old Capitol entrance on Iowa Ave. This station No. 1 is to be at the east entrance of the natural science building. Here the registrant may secure a number slip as well as information. The women's sponsor booth and a men's booth where rooms and employment may be sought will also be found at station No. 1. All students must visit this booth.

**Secretary Office Station No. 2**  
Station No. 2 is the secretary's office at the south entrance of the Hall of Natural Science in the basement. All professional students will pay their tuition and fees at the secretary's office and will then register with their respective deans. Students who have received admission cards the past summer to professional colleges are included in this number. Liberal arts students will not stop at this station but will go directly to station three from station one at the north entrance of the hall of Liberal arts where will be found the high school certificate room for the new students on the first floor and also the fee assessing station, the fee receiving station and the registration materials station.

**Last Stop Men's Gym**  
From here students will go to the men's gymnasium and enter by the front entrance. Here are to be found advisors stations, the section committee and tel checkers' room which will be found on the second floor of the gymnasium in the wrestling room.

This year all students will be asked to fill out library identification cards. These will be distributed at the general information stand at the Library. Students are asked to fill them out and keep them until reaching the fee paying station in the liberal arts building where these are to be deposited at the library table. They should be stamped here as indicating that these cards have been filled out.

About 300 students have registered by mail, according to H. C. Dorcas, University registrar. Registration by mail will very likely be abolished in another year. When registration is as nearly perfected as it has been here the past two years it proves a much more satisfactory way of registration than the mailing system.

#### LAW LIBRARIAN APPOINTED

Miss Helen Moylan has been appointed law librarian at the college of law. Miss Moylan has been law librarian at the law school of West Virginia for the past two years, and has also served four years on the Harvard law library staff.

### NEW LAW DEAN WHO SUCCEEDS McGOVNEY

Henry C. Jones

### ILLINOIS DEAN TO HEAD LAW COLLEGE HERE

#### Graduate, Cornell and Harvard, Returns to Native State as Law Dean

Henry Craig Jones, for the past year dean of the law school of the University of Illinois, has been appointed dean of the college of law of the University.

Dean Jones is a native of Iowa. He was born in Central City, June 18, 1879. His father was John Barnard Jones, formerly a Methodist minister in this state. Both of his parents are deceased, his mother having died at Cedar Rapids a short time ago.

After graduating from the Clarence, Iowa, high school, Professor Jones attended Cornell college, where he received his B. A. degree in 1900. Later on he attended the Harvard law school, where he graduated in 1906. He then began practicing law with the firm of Rubens, Fischer and Mosser, in Chicago. He kept this position for five years, and in 1911 he went to George Washington university as assistant professor of law. In 1914 he became dean of the college of law of the University of West Virginia, and remained there until 1921, when he went to the University of Illinois.

He is secretary of the American Law School association and is a member of the American Bar association. While in West Virginia he was a member of the state board of law examiners, and a member of the bar association of that state.

Dean Jones was editor of the West Virginia law quarterly and compiled Illinois Cases on Suretyship. He is a member of the republican party.

### FIFTY POSITIONS ON IOWAN STAFF OPEN

Fifty positions on the staff of the Daily Iowan are still open. Any student of the University may compete for a place although preference will be given to upperclassmen. No previous newspaper training is required.

Ten of the above positions carry salaries ranging from \$100 to \$900 a year. Students may specialize in any department of the paper: news, sports, society, feature, or literary. University credit is given when work on the Iowan is done in connection with courses in journalism.

Apply today at room 14, liberal arts building.

### TURKEY'S FATE MAY BE FIXED AT NEW PARLEY

#### Powers O. K. Near East Conference; Kemal's Men Promise To Await Result

**By Hudson Hawley**  
(United News Correspondent)  
Paris, Sept. 20—Great Britain and France have agreed to convene a Near East conference to decide whether the Turk shall be given a new foothold in Europe. Japan will be invited to participate as well as Italy, Greece, Roumania, Jugo-Slavia, and representatives of the Turkish nationalist government of Angora.

Soviet Russia will be excluded despite the declaration of Kemal Pasha that he will agree to no settlement formulated without Russia. This conference probably will be held at Venice. No time or place has been definitely fixed as yet. The decision to hold a separate peace conference was reached the first day of the conference between Premier Poincare and Lord Curzon, the British foreign minister.

#### British War Policy Opposed

Poincare, it is learned, received formal promise from the Kemalists that they would not make any attempts to pass the neutral zone near the straits but would wait the outcome of the peace conference. The French premier expressed the hope that Great Britain would hold her war plans in abeyance until the allies can find common ground on which to meet the Turks with peace proposals. It is understood that Poincare also attempted to convince Lord Curzon that the continental bloc including France, Italy, Roumania, and Jugo-Slavia, is solidly against the British military policy in the near East.

Poincare is not expected to participate personally in any peace conference. The decision to summon the international conference is regarded as auguring a greater degree of co-operation between France and Great Britain. France was spurred on in her desire for allied peace in the Near East by the information that Soviet troops are now massed on the frontier of Roumania and Poland.

#### Turks May Not Confer

The French government has been informed that a secret treaty has been made between Russia and Bulgaria. The omission of Russia from the list of nations invited to the conference has caused considerable diplomatic concern and in some quarters it is feared it may cause strained feelings between the Kemalists and the Allies and the Kemalists may be disposed to insist that Russia be consulted about the disposition of the straits.

According to information reaching the French government the Turks are not disposed to confer unless given some information in advance as to what they may expect as compensation. Poincare and Curzon will confer on Friday. Meantime the British minister will consult his government. Both the British and French will have the opportunity to sound the Angora government.

French opinion, as evidenced in official circles, considers that the problem now before Poincare and Lord Curzon will be beneficial in its present outcome toward the feeling in Franco-British negotiations and will bridge the chasm between the two nations caused by Lloyd George's recent actions. This is regarded as more important here than the settlement of the Near East problem because it concerns the entire trend and future of European diplomacy. The French public is more bitter toward Lloyd George than it has been at any time.

#### HUSTON IN EGYPT

Cloyce K. Huston, former editor-in-chief of the Daily Iowan, who accepted a position as instructor in English at the American university of Cairo, Egypt, last spring, arrived at Cairo recently after a short tour of Europe. From the University last spring Huston went to New York city where he was employed on the New York Times until he departed for Egypt.

### SOUSA'S BAND FIRST ON NEW CONCERT LIST

#### Many Famous Musicians Scheduled to Appear on Program for 1922-23

Sousa's band, the St. Louis Symphony orchestra, Anna Case, Frances MacMillen, and Thurlow Lieurance appear on the concert program arranged for the coming year by Phillip G. Clapp, head of the department of music.

Season tickets will be placed on sale during registration and may be had for \$6.00. Single admission to each of the six concerts which appear on the program will be \$1.50. Season ticket holders will be given the choice of reserved seats before the general seat sale opens. Professor Clapp states that the low price for season tickets this year was made possible by a small surplus left from the concert season of the past year.

Sousa's band will give the first concert. They will play Thursday afternoon, October 19. The other concerts are as follows:

Frances MacMillen, violinist, November 14, evening.

Anna Case, soprano, December 8, evening.

American Indian music in costume by Thurlow Lieurance and assisting company, February 1, evening.

St. Louis Symphony orchestra, afternoon and evening. The date of this concert will be announced later. Michael Gusikoff, soloist, or Bruno Steindl, cellist will appear on the afternoon program and Carolyn Dazari and Rudolph Ganz at night. Season tickets will be good for both afternoon and evening concerts.

### NEW FRIVOL GOES ON SALE MONDAY

#### Many New Features In Store for Readers Including Ten Cent Price Cut

Fresh Fruit Frivol, not too green and not overripe, will make its first appearance of the year Monday morning, with an effort to prove to the students of the University that all is not gloom; and to provide a pleasing antidote for those who are tired of life.

The Frivol this year, under a complete change of both editorial and business staffs, has for its first aim the duty to provide amusement to the hordes who will be worn out from rushing, registration and other duties of the first week of scholastic activities. In order to inject the amount of pep into the students necessary to carry on their University work successfully, Frivol announces that this issue has been planned to affect the minds of those who read it so as to insure complete optimism towards what this year will bring.

With a mixture of the two most important topics of the beginning academic year, the freshmen and the pledging, Frivol carries on impartially with advice to each. The first page, therefore, is simply a picture of a sight to be seen in almost any sorority house during the first week of school, and sometimes thereafter, while the rest are immediately enticed by "A Ballade of a Booster," which everyone who has passed through his first love affair can appreciate.

"Stories from the Styx" and "The Newest on What Every Girl Should Know" have a great deal on meaning to men and women respectively, while the "Ballade of That Little Game" proves that a woman editor knows at least something about the men of the University. "The Straight of It" gives the correct account of the little romance of Pyramus and Thisbe, and so on down the line to "The Petting Party"; every article, sketch, verse and picture having a deep significance even to our freshmen.

### FIRST VESPER SERVICE SUNDAY; CHARLES W. GILKEY IS SPEAKER

The Rev. Charles W. Gilkey, pastor of the Hyde Park Baptist Church, Chicago, Illinois, is scheduled as the Vesper speaker at the first Vesper services to be held Sunday September 24 at 4 o'clock in the natural science auditorium.

The Rev. Mr. Gilkey is a graduate of Harvard in 1904, of the Union Theological Seminary in 1908 and of the Universities of Berlin and Marburg in 1908-9. He was ordained to the Baptist ministry in 1910 and is now Pastor of Hyde Park Church in Chicago. His home is also in Chicago.

The Rev. Mr. Gilkey will stay over in Iowa City and address a meeting of the freshmen Monday.

### EIGHT PLAYS ON SCHEDULE FOR YEAR'S PROGRAM

#### All Will Be Produced Under Supervision Of Professor Mabie

The University theatre has announced a program of eight plays for its second season of 1922-23. Two of these plays, "Heartbreak House" by George Bernard Shaw and "From Morn to Midnight" by George Kaiser have never before been produced, outside of New York, in America. The entire program of plays will be produced under the personal direction of Prof. Edward C. Mabie of the department of speech.

The director and board of governors of the theatre have added equipment which will make possible the working out of some interesting technical problems and effects in production. There will be new scenic designs and new lighting effects for every play.

#### The program:

"Seven Keys to Baldpate," by George M. Cohan, October 26, by the University Players.

"Mr. Pim Passes By," by Alexander A. Milne, November 23, by the Hesperia and Zetaganthian societies.

"The Faith Healer," by William Vaughn Moody, December 14, by Irving Institute and Erodolphian societies.

"The Merchant of Venice," by William Shakespeare, January 18, by the class in dramatic production, with Mr. Francis N. Suplee of Iowa City as Shylock.

"Too Many Cooks," by Frank Craven, February 15, Octave Thanet and Philomathean societies.

"The Copperhead," by August Thomas, March 8, by the University Players.

"Heartbreak House," by George Bernard Shaw, March 22. This is a play which Shaw started before the war began and as a consequence is based on a war situation. The class in dramatic production will present this.

"From Morn to Midnight," by George Kaiser, April 19, cast to be made up of the best players among the seniors in the classes in dramatic production.

Professor Mabie says: "The Merchant of Venice," which will be presented on an especially designed stage with Mr. Francis N. Suplee of Iowa City as Shylock, promises to be an unusual production. Another feature of the University theatre's second season will be the presentation of the "Book of Job," by Stuart Walker's company, on February 5. This production will be the finest play on tour this season, and the company one of unusual merit. The company has been booked solid for a tour of twenty-six weeks, eight performances per week. For this reason Mr. Walker is sending out an even better company than he had in New York."

Season tickets for the productions above named will be \$5.

### CUMMINS AND RAWSON VOTE TO PASS BILL

#### House Overrides Harding 258 to 54; Congress to Adjourn This Week

**By Clayton Whitehill**  
(United News staff correspondent.)

Washington, Sept. 20—The action of the twenty-eight senators on the vote to sustain the President's veto to the soldier bonus killed that measure so far as the present period is concerned. Inasmuch as only forty-four votes could be mustered to override the veto the bonus lost by four votes the necessary two-thirds majority to incorporate the measure into law.

The vote was as follows:  
Senators voting to sustain the veto were:

Republicans: Ball, Borah, Calder, Cameron, Dillingham, DuPont, Edge, Ernst, Fernald, France, Keyes, Moses, Nelson, New, Newberry, Pepper, Phipps, Reed of Pennsylvania, Smoot, Sterling, and Wadsworth.

Democrats: Dial, Glass, Myers, Owen, Shields, Underwood, and Williams.

#### Forty-four Back Bonus

Senators voting to override the veto were as follows:

Republicans: Brandegee, Bursun, Capper, Colt, Cummins, Curtis, Gooding, Hale, Harrell, Jones of Washington, Kellogg, LaFollette, Lenroot, Lodge, McCormick, McCumber, McLean, McNary, Nicholson, Norbeck, Oddie, Rawson, Shortridge, Stanfield, Sutherland, Townsend, and Watson of Indiana.

Democrats: Ashworth, Broussard, Culberson, Fletcher, Gerry, Harrison, Heflin, Hitchcock, McKeller, Ransdell, Reed of Missouri, Simmons, Smith, Trammell, and Walsh of Massachusetts.

#### House Overrides Veto

The House earlier in the day overrode the President's veto by a vote of 258 to 54, fifty more than the necessary two-thirds majority.

Now that the bonus has been disposed of Congress expects to adjourn Friday. Despite the marked disinclination on the part of several members of both houses President Harding is expected to call Congress for a special session about November 15 to take up the ship subsidy and a second attempt at railroad legislation, and to set in motion the machinery for passing next year's appropriation bill.

### CAPT. ROBERT BATMAN OF MILITARY STAFF DIES OF WAR INJURY

Capt. Robert S. Batman, a member of the military department of the University of Iowa for the past year, died at 7 p. m. Tuesday at the University hospital of encephalitis following a four days' illness. His death is believed to have resulted primarily from a serious wound received in the St. Mihiel engagement in the world war when he was struck in the neck by a piece of shrapnel.

Captain Batman was born in Louisville, Ky., Aug. 23, 1890. He had been in army service since 1910 when he enlisted in the regular army. He was promoted to the rank of sergeant in the coast artillery corps and was made a second lieutenant in infantry at the start of the world war. He was promoted to the rank of captain during his war service. He served in all the major engagements in the world war on the western front.

A little over a month ago Captain Batman returned from a two-months' leave in Washington state. Mrs. Batman returned here about ten days ago. Captain Batman was an organization post at San-de-... also a member of... at the university club, and... bers.

## WIPE YOUR FEET

Welcoming the University's new students and extending cordial greetings to those returning to the campus is more or less a formality. Telling the freshman to wipe his feet on the mat, hang his hat in the hall and make himself at home is a phrase grown trite and the average freshman, no matter how unsophisticated he may be, smiles at its homeliness.

The University wants its freshmen to feel welcome and its old students to realize that the campus is mighty glad they are back, but to put the glad hand in words is a problem. Trying to make the new student grasp the idea that the University is really delighted in having him here becomes "soft salve" in type.

Some new students, through their association with friends in fraternities and sororities, will get a material sort of welcome. This isn't an attempt to inflict a spiritual welcome but we want the new comer to understand that that kind of a welcome is in the air.

This University believes it is pretty democratic in spite of some of the things the freshman may have impressed upon him by Greek letter society rushing parties; it believes just as much in the man who comes to work his way through as the student who comes with a roadster. This University believes it is pretty good, one of the best in the nation, and wants its new students to feel that way about it.

Because Mr. Jones has had his football candidates here for a week, the freshman is going to hear a great deal about the Varsity eleven, but he needn't think that is the entire University. We're mighty proud of the championship Iowa won last year but we have other things to boast about too.

Iowa is a large university. We know we're getting off the mat marked welcome but unless you know what kind of an institution you are attending, the welcome doesn't matter very much. Iowa's attendance this year is predicted to surpass all previous registration marks. With approximately 5,500 students on the campus, the new student is bound to feel like a small frog in the big puddle.

That's one of the reasons the University wants to extend a hearty welcome. It wants you to know that you needn't be a small frog and you don't have to have a publicity agent to reach the headlines either. All you need to be is an average Iowa man or woman and the other 5,499 will find you.

So wipe your feet on our mat, take off your hat and make yourself at home. We're sorry but we couldn't get away from that trite stuff.

## THE DAILY IOWAN

As early as 1879 in the history of the University, students recognized the need of a publication that expressed their views and chronicled the happenings on the campus. That was a time when the enrollment did not exceed 500. Today with the number of students over tenfold this number, a student paper has become a necessity. It is the link that connects the nine colleges of the University and keeps their six thousand students and faculty alive with the Old Gold spirit.

The Daily Iowan is owned and controlled by the student body. It attempts, as nearly as possible, to reflect student opinion and student life. Not only news of the University but also news of the world is to be included in its columns this year. A special wire service from Chicago will enable students to read later news of the world by three or four hours than that carried by any other morning paper sold in Iowa City.

Since the Iowan was first published in 1879, it has grown steadily until today it is one of the oldest student publications in America and is sold at the lowest in price.

It is needed to keep it grow-

University to get a degree rather than an education or at least to make a feeble attempt to get a degree. It is chiefly because of these parasites that higher education has come into disfavor among a certain class of people who come in contact with them in later life.

Spending one's time and money in a course because it is easy is about as reasonable as taking a double dose of medicine because it is cheap. When students learn that they are here for their own good; that what they learn is for their own advancement; and that a degree is merely a "scrap of paper," then education will come into its own.

At the same time, on the other side of the fence, some professors are worrying over all kinds of expedients to keep their course from being dubbed "pipes." This often leads them to assign a great deal of work from which the student receives little value. Professors should give only such work as they honestly thought worth the time spent in mastering it—independent of the fact that some students might be slipping along with little effort on their part. For in the end the student pays for his lack of industry, not the professor.

## The Sounding Board

Forewords aren't customary in columns but one is being placed here if for not other reason than to get things started. Fear of brickbats, verbal and otherwise, which may be shied at the editor for future paragraphs, forces him to withhold his initials at the close of the daily line. He admits cowardice, with reservations. Extenuating circumstances compel him to adopt a non de plume. But why go further; just read on.

It was rather mean of that sorority girl to jest about Iowa City's police chief wearing his badge on his outside coat. Her pin was displayed in like manner.

You know, the girl who wears her sorority pin on her outside coat, very likely wears her heart upon her sleeve.

Perhaps their dresses are longer, but why tell the boys "something is left to their imagination." Just as if they didn't have fond memories!

The reason the University hasn't any drinking fountains is because most of the buildings were erected at a time when Iowa City maintained public breweries.

Since mating seems to be one of the principal reasons some students are here, advice is hereby given, freely, against taking her out to breakfast. Many a pin has been returned after that faux pas has been committed in the past.

In looking 'em over, ladies and gentlemen, don't forget that Phi Beta Kappa is a pretty good bet. It has only one drawback. You have to stay here more than a semester to get its golden badge.

Amateur theatricals thrive on this campus. Most everybody takes a chance sometime or other, so why not be reasonable with the student body; try it now and have it over.

If you find you can't gain fame any other way, just try running for a class office.

That reformer who wants to cut out the petting parties in the fraternities houses must harbor the impression that some of the brothers, who put oil on their hair and part it in the middle, are sweet enough to love.

A tea hound has never been exactly defined but he isn't one who arises early Sunday morning and takes a ten-mile walk (slang for hike) into the country.

Speaking negatively, you can't become a campus celebrity simply by writing letters to the editor of the Daily Iowan.

"The first two or three days are just torture," the sorority girl said to the rushee. And the rushee, thinking of four or five "lines" she'd been trying to listen in on, smiled.

The story is told of the Nice Girl rushee, who fell in love with an Old Timer's Big Car during the rushing season. After a few days . . . The moral of this story is, "Count the garages behind the house, not the cars in front of it."

"Take home a ham," the advertisement said, and some brothers took home a couple.

Parnassus.

# WELCOME

## To New Students and Old Customers

We extend a cordial invitation to you to visit our store and look over a most Complete Line of New Fall Footwear---

### The New Strap Styles for the College Girl

The infinite variety presented in our all-inclusive collection of NEWEST FOOTWEAR MODES makes the selection of correct shoes for every occasion a pleasure rather than a task.

### New Brogues and Oxfords for Men

The new broad toed brogue is still in popularity, yet for those who want a lighter and narrower shoe we have a wide range of models from which you can make a selection. Our stock can not be beat for values and for style.

## IOWA MAY GET AMERICA DRAMA LEAGUE MEETING

Invitation Forwarded to National Directors by University And City League

An invitation has been forwarded to the national board of directors of the Drama League of America by the Iowa City Center of the Drama League and the University theatre of the University of Iowa for the league to have its next annual national convention April 23-28, 1923 in Iowa City. If the convention is held here leaders in the field of the professional and community theatre throughout the country will be here, it is said.

Among the speakers at the national meeting last year were Walter Prichard Eaton, the dramatic critic; Louis K. Anspacher, the dramatist, and Francis Neilson, editor of The Freeman. A great impetus is expected to be given to community dramatics in this state if the league meets here. The Iowa City Commercial club is co-operating with the Iowa City center of the league and the University theatre is seeking to bring the convention here.

The work program for the Iowa City center during 1922 and 1923 was prepared at a recent meeting. It is proposed to divide the members into three groups of Iowa City citizens recruited from among employees of business establishments and their friends. Leaders will be chosen for each group and one-act plays will be presented under the direction of such leaders as Vance Morton, Mrs. H. Y. Moffet, Mrs. Frank Hicks, Mrs. Myrtle L. Bristol, Miss Margaret Dolliver, Rev. W. C. Schafer, Miss Helene Blattner and Miss Gladys Fie.

The annual drama league play of the Iowa City center will be presented Dec. 6 with Professor Edward C. Mabie, assistant in the department of speech of the University of Iowa. Francis N. Sueppel will be director. The center will present a long play for children Feb. 24 which will be directed by Mrs. Ralph Parsons. Shorter plays will be given throughout the year for children.

## 2000 CALIFORNIA FRESHMEN CROWD TRADITIONAL FIRE

Disappointed Worker, Caught In Act of Slickering the Soph Foreman

Berkley, Cal., Sept. 21.—Crowding the edge of the traditional fire, two thousand freshmen were welcomed into the University last week in a blaze of the old time spirit. Under the efficient direction of E. W. Eng's '23, this year's rally committee chairman, unusual dispatch marked the carrying out of the entire program.

Fifteen thousand people, the largest crowd ever assembled in the Greek Theatre for a rally listened to the words of welcome delivered by Prof. Mathew C. Lynch of the school of jurisprudence.

From the top of the Greek Theatre the words "Welcome '26" blazed out in red fire.

After introducing each member of the family, referring to the different classes, "Mat" Lynch put the freshmen in their charge. He compared the sophomores to the "prodigal son," telling how but a year ago they had meekly gone through this same experience.

He said, "Look at our hope over here, this is what we have been able to do in the last year." In regard to the seniors he stated that they could never possibly be as bright and wise as they looked. At the conclusion of his speech the sophomore and freshman classes competed in a yelling contest, and after a spirited contest the decision was made in favor of the freshmen. Blue fire was thrown into the flames of the huge bonfire which caused it to blaze forth the colors which the University holds as its own, the Blue and Gold.

'Tis only a story of a frustrated freshman's wildest idea of revenge!

Tired and disgruntled he had hauled on the rope till his hands were blistered and decorated with vari-colored welts. His brain was functioning, however, for as the rickety, rusty wagon stopped at Shattuck avenue and Center street, the great idea of revenge was born.

While his brothers in work were wrestling with four large packing cases, the freshman stole from under the piercing, eagle glare of the watchful sophomore and appropriated two of the banged-up automobile tires which are always to be found decorating the totem pole at the intersection of the above named streets.

Still unperceived he took two more, and again two more. Finally he decided that he had sufficient material for his diabolical idea and proceeded to place two of these rubber rollers in each of three of the four boxes.

A broad grin now illuminated his face, for thoughts of the stench of burning rubber were uppermost in his mind. But the watchful sophomores nipped the idea in the bud.

And that is the reason why a freshman wearily dragged six rubber tires tied end to end in front of Wheeler hall steps.

## SENIOR DENT KILLED BY EXCAVATION CAVE-IN

Charles S. Fischer D '23 of Hartley was killed during the summer at Denver, Colo., when a mine excavation caved in. Mr. Fischer had gone to Denver expecting to work in a dental clinic, and failing to find work, joined a construction gang. He was a member of the Psi Omega dental fraternity and would have been a senior in the college of dentistry this fall.

## BRECKENRIDGE SUCCEEDS PATTERSON ON LAW STAFF

Attorney Millard F. Breckenridge of New York City will succeed Prof. Edwin W. Patterson in the college of law this fall. Professor Breckenridge has been editor of the Yale Law bulletin for two years and while he is in the University he will edit the Iowa Law bulletin. After graduating from the University of Chicago in 1915 Professor Breckenridge finished his course at the Yale law school, and since then has been practicing in New York City. Professor Patterson will join the teaching staff in the law school of the University of Michigan in Ann Arbor.

# Presenting Fashions of the Moment

MORE PRONOUNCED THAN EVER BEFORE IS SLIM SILHOUETTE OF THE NEW FROCK

Frocks have never been more thoroughly wearable or more pleasingly becoming. The lines of the modish silhouette suggest and accentuate youthful charm and slenderness. Fur is much in evidence as trimming as is also metal, embroidery and beads.

Frocks for every daytime and evening occasion are presented in this exclusive collection

SUITS AND WRAPS CHARACTERISTIC OF THEIR DESIGNERS ORIGINALITY

Their chic and exclusiveness of design is created on the Rue de la Pais where in famous ateliers they reached completion, the inspiration of master designers.

The new Wraps are distinguished by the richness of luxurious fur trimmings and handsome fabrics; while the mode for the new suit takes many an interesting and surprising turn.

NEW BLOUSES ADOPT MANY NOVEL STYLES

"A season for blouses states the most recent cable from Paris. The Blouse playing an important part in the correct wardrobe for Autumn boasts of brilliant coloring, and elaborate trimmings and embroidery."

SKIRTS AS EVER ARE EXTREMELY SMART

They remain as straight and simple as in previous seasons but display an originality in trimming and material which makes of them an interesting part of the Autumn costume.

UNDERGARMENTS ARE ENCHANTING BITS OF LOVELINESS

Tempting collections show all that is exquisite in new undergarments and lingerie. The College girl will find every thing she could possibly desire. There are those pieces charmingly simple or the more elaborate, bewitchingly trimmed.

LOVELY NEGLIGEE FOR CLOISTERED MOMENTS

Negligees fairylike in their sheer fluffiness are delicately colorful and have many charming trimmings

COSTUME ACCESSORIES

The success of the fashionable costume depends in no small way upon the merest details which assist in its completion.

All accessories to complete the Autumn attire are found here in the correct interpretations. Among these are Hose for street, sports and evening wear, in the novelty of which lies infinite distinction, Gloves in shades to harmonize with the Autumn costume, dainty neckwear for various occasions, perfumes of elusive fragrance, handkerchiefs of original designs and colors.

## LOVARSITY SHOWS STRONG OFFENSE

First String Hits Line And Runs Ends Almost at Pleasure

Surprising offensive strength was displayed by the first team last night in the longest scrimmage held so far this year. The varsity was working together like a team that had been practicing for a month instead of only six days. The third team did not furnish enough opposition to Locke's plunges, and the skirting runs of Parkin and Miller, so that Coach Howard H. Jones was forced to bring up the second string. These sub-varsity men were able to hold the first string on one or two attempts, but could not prevent Locke from plunging over for a touchdown.

The varsity presented the same line-up that has been running signals during the past with Engeldenger at right tackle, Hancock at right end, and Parkin at quarter. Parkin made some good off tackle smashes, and gives promise of being an able carrier of the ball. Hancock nabbed several passes with apparent ease, but he still shows greenness in taking care of his line opponent. About the same is true in the case of Engeldenger, for he has not yet learned how to use his size and strength in opening up the opposing line. "Doc" Miller was smashing around end and off tackle with success. He will be a hard man to keep off the team if he continues to play as he did yesterday. The rest of the veterans showed the same fighting ability that carried them to a conference championship last year.

After the varsity was sent in, the second team battled with the third string in a disappointing scrimmage. A lack of coordination was previously apparent in the team work of the second string. They had little luck in advancing the ball, and would have lost it several times if they had been limited in the number of downs. Many of the linemen who are expected to furnish strong competition to men on the varsity were lacking in aggressiveness, one of the attributes that Coach Jones demands from all of his players. They charged half-heartedly, and blocked with the side of the body instead of the shoulders. The second string backs directed by Rich and Bell seldom had holes opened for them, and gained ground, mainly by their own efforts.

The thirds tangled with the last squad in the final scrimmage of the afternoon. Roberts, third string tackle was the only casualty of the day.

## THETA SIGMA PHI AND WOMEN'S ASSOCIATION ENTER IOWAN CONTEST

Two of the leading women's organizations on the campus, the Women's association, and Theta Sigma Phi, women's journalistic sorority, will vie for honors in the Daily Iowan subscription campaign starting this morning. Although substantially outnumbered by the Women's association, the sorority women feel certain that they will lead their rivals when the final count of the subscriptions is made Saturday evening.

Twenty-five members of the Women's association have volunteered their services during the campaign and will work from early until late to receive the Iowan subscriptions. Lois Jackson, who is charge of the association girls will be assisted by Ione Fitting, Persis Carney, Lorraine Luthauer, Salome Fisher, Katherine Cox, Lillian King, Bessie Rasmus, Katherine Donica, Emily Russell, Verda James, Ruth Ferichs, Hortense Finch, Myrue Moffit, Melba Carpenter, Bernice Mead, Pearl Davis, Doris Probert, Mildred Smith, Catherine Wright, and Thelma Whimpey.

### Margaret Altman at Head

The Theta Sigma Phi women will be captained by Margaret Altman. Those who will help Miss Altman tomorrow will be Victoria Boyles, Mary

Cherry, Frances Carpenter and Emily Winthrow.

The Circulation department of the Daily Iowan is offering a substantial cash prize to the organization winning the contest beside a commission on all subscriptions. With the Iowan offering the greatest and most complete paper in its history, it is certain that the coffers of both societies will be fully replenished.

### To Give Buttons

Each subscriber will be given a distinctive button of gold and black, which he will be expected to wear until the end of the campaign. This will do away with the annoyance of solicitation.

Prospects for the largest circulation in the Iowan's history are at their brightest. With the special United Press service, the increased size, and the complete sport and women's page as special features, the circulation of the University of Iowa paper will go mounting to close to the 3000 mark. This will put the Iowan in the class of the five largest student dailies in this country.

The woman's organizations have set their goal at 1,500 subscriptions, and orders from townspeople and mail subscribers are expected to bring the total near to the desired mark.

# Blum's

SURPLUS  
ARMY STORE

**A Street Frock**

A Street Frock---worn as well in the class room---should be in navy, brown or beige, braid-trimmed perhaps in self or contrasting colors. Straightline and the bloused designs are correct.

**Blouses of Real Merit**

Especially becoming and voguish are the Blouses here. The overblouse holds first place, with its long hip-lines. Colored embroideries are the sort that youth can wear. Many will choose the tuck-ins, smart from cuffs to collar.

**The Coat's the Thing!**

For formal as well as informal wear, a Coat must have distinctive merits. The Fall Coats come bloused over the hip, straight-line, box or plain, and some are fur-trimmed, others embroidered generously; still others, plain tailored.

**Skirts Worn Dashingly!**

Skirts go more than half way to meet the new blouses and sweaters! It's not only that the fabrics used are so intriguing; the saucy pleats and belts are irresistible too---and, anyhow, who wants to resist them?

**WELCOME STUDENTS--To Iowa City and the Big Store**

WE WANT THE STUDENT GIRLS TO MAKE USE OF THIS STORE'S CONVENIENCES. MEET YOUR FRIENDS IN OUR SPACIOUS REST ROOM, USE THE PHONE AND ENJOY OTHER CONVENIENCES.

You realize the advantages of a good appearance and want to be well dressed on all occasions.

For thirty-four years we have served the college girl and we want to supply your needs.

For all activities of campus, class-room or for social affairs the new Fall Displays of Apparel for the College girl, will be found very complete.

We want you to visit this store and see:

**The new Suits, the new Dresses, the new Coats, the new Furs, the new Waists, the new Sweaters and the new Accessories.**

These fascinating garments are now on display in our modern, up-to-date apparel

department, waiting for you to see them, to handle them, to try them on.

All of the garments bear the marks of quality and the distinction of smart styling.

The prices are moderate and our expert salespeople will be pleased to assist you in making your selection.

We will be pleased to open an account for you. May we have the pleasure of serving you at an early date?

**A Frock for Dancing**

Tripping feet, winsome glances, a darling Frock---wouldn't that spell a glorious time? You furnish the tripping feet and the winsome glances,---and we'll do the rest. Lacy, filmy Frocks, Frocks of taffeta, of chiffon and everythin'.

**Cozy Blanket Bathrobes**

Blanket Bathrobes are warm comfy things to slip into when you jump out of bed these chilly mornings. They are nice to wrap yourself in at night and relax for an hour's reading before bedtime, too.

**Fur Coats for Stylish Comfort**

There's not a style in this group that wouldn't delight the college girl, the business woman who has to get about briskly between times or the woman who likes to reserve her long coat for the more auspicious occasions

**IN OUR WOMEN'S DEPARTMENT**

**Man-Tailored COATS**

For Women are the vogue

You will be delighted with the style, the careful tailoring of these Coats for Women. They are so practical, too, for every outdoor occasion --- motoring, shopping, the country club. Fabrics of the finest, in colors and models that will just suit your taste.

**Phoenix Hose for Women**

Our Phoenix Department will make the Hosiery section the favorite spot in the store today. Very fine quality. Full fashioned.

A complete line of Silk Hose, also Wool and Silk, Mix. All shades.

The usual guarantee with every pair of Phoenix Hose

**BREMERS'**

**BREMERS' BID YOU WELCOME!**

WE BID YOU WELCOME TO OUR CITY. WE ARE GLAD TO GREET OUR OLD FRIENDS, AND SHALL BE GLAD TO MEET AND MAKE THE ACQUAINTANCE OF ALL NEW--COMERS.

WE HAVE PREPARED THE GREATEST LINE OF YOUNG MEN'S SUITS AND OVERCOATS EVER SHOWN IN IOWA CITY. VALUES ARE GREATER AND PRICES LOWER THAN LAST SEASON.

**SUIT MODELS**

THE FAVORITE SUIT MODELS FOR FALL ARE THE "POYNTER", THE KAY-VEE SPORT MODEL AND THE BI-SWING NORFOLK.

**OVERCOAT MODELS**

THE POPULAR OVERCOAT MODELS ARE THE "POLO", THE "AFGAR" AND THE "BOMBO". THE ILLUSTRATION ON THIS PAGE IS THE "POLO".

# 13 COLLEGE SEND DEANS OF DENTISTRY HERE

Annual Faculty Meeting  
Here January 19, 20;  
15 to 20 Dentists  
May Attend

Thirteen deans of colleges of dentistry from all over the United States will assemble at the University of Iowa January 19 and 20, 1923 for the annual meeting of the Dental Faculties Association of American Universities, according to announcement made yesterday by Dr. F. T. Breene, dean of the college of dentistry of the University of Iowa and a member of the executive committee of the association. It is expected that fifteen or twenty dentists will attend the meeting.

The universities holding membership in the association are University of California, Columbia university, Harvard university, University of Illinois, University of Iowa, University of Michigan, University of Minnesota, University of Nebraska, Ohio State university, University of Pennsylvania, Tufts college, Washington university, and Western Reserve university. Augustus S. Downing, Albany, N. Y., commissioner of education for the state of New York is an honorary member of the association.

Officers of the association are: Dr. Alfred Owre, University of Minnesota, president; Dr. William Rice, Tufts college, vice-president; Dr. Marcus L. Ward, University of Michigan, secretary-treasurer. The executive committee consists of Dr. Fredrick B. Moorehead, University of Illinois, and Dr. F. T. Breene, University of Iowa. The educational committee consists of Dr. Harry M. Semans, Ohio State university; Dr. Charles B. Turner, University of Pennsylvania; Dr. Eugene H. Smith, Harvard university; Dr. Marcus L. Ward, ex-officio, University of Michigan.

### MANY CO-EDS SECURE POSITIONS AS TEACHERS

Geraldine Mars A '22 of Iowa City is teaching French and Latin in the Glennwood High school. Miss Mars was a member of the Pi Beta Phi

Beta Kappa, honorary fraternity.  
Ivaretta West, A '21 of Iowa City is teaching English in the high school of Cleveland, Ohio. Miss West was a member of Pi Beta Phi sorority, of Staff and Circle, and was chosen as one of the representative women of the University in 1921.

Ione Bliss MA '22 of Iowa City is teaching home economics in the junior high schools of Cedar Rapids. Miss Bliss was a member of the Sigma Rho sorority and for the past two years has been research assistant in the Child Welfare department.

Gladys M. Evans A '22 of Iowa City is commercial instructor in the high school at Le Mars. Miss Evans was a member of the Alpha Delta Pi sorority.

Dorothy Banks, A '21 of Burlington is teaching the high school at Burlington. Miss Banks was a member of Delta Zeta sorority, of Staff and Circle and was one of the Representative Women of the University in 1921.

Margaret Dolliver A '21 of Fort Dodge is teaching English in the Iowa City high school. Miss Dolliver was a member of the Delta Gamma sorority of Staff and Circle, and was a representative woman in 1921.

Mildred Freburg, A '22 of Pomeroy, will be an instructor in the department of speech in the University this year. Miss Freburg is a member of Delta Zeta sorority, of Pi Beta Kappa, honorary scholastic fraternity, and was chosen as one of the representative women of the University in 1922.

### FORMER STUDENT DIES

John E. Martin, a former student in the University, died from tuberculosis at his home in Tripoli in the early summer. Martin had partially finished his second year in the college of commerce when he had to leave school in 1921. He was affiliated with the Sigma Nu fraternity.

### HARRY KELLY TO HEAD IOWA ASSOCIATION

At the annual meeting of the University of Iowa association here in June, Harry Kelley of Chicago was elected president for this year. The meeting was the occasion for many renewals of friendship among the old grads, and the alumnus register showed a list of 1,040 names, about 500 of which were from the class of '22.

The other officers elected at the meeting were: Judge F. F. Faville of Iowa City, vice-president; Paul A. Korab of Iowa City, treasurer; F. C.

Ensign of Iowa City, secretary; Mrs. Grace P. Smith of Iowa City, assistant to the secretary; W. O. Finkbine of Des Moines and Frank Messer of Iowa

City, executive committee; and F. J. Smith of Milford, Lakeside laboratory representative.

represented at the reunion. Mrs. C. H. Smith of Omaha, Neb., who is the only living member of this class, comes back to Iowa every June.

## New Fall Apparel

Featuring the New and Beautiful

MOST MODERATELY PRICED

To express originality, personality and charm at one and the same time is possible to the woman who selects her Autumn Apparel here and now.

The most attractive modes are here, including graceful draped frocks; wraps and coats of supple pile fabrics richly fur trimmed. Suits in the season's smartest modes, Furs, Blouses, separate skirts, etc. In fact, the store is now brimful of Autumn's most favored styles of apparel for the Matron, the Miss or Junior. Stocks are complete — while prices are moderate indeed.

### THE NEW COATS AND WRAPS

Fashion has turned many a clever trick on the new Coats and Wraps for Fall. The Coat, full over the hips, with a slight flare—the straight line coat, and wrappy figure revealing coat, the Blouse Coat for younger girls, all are here, while the sweeping vogue for furs has added its luxurious note to many.

Prices begin at ..... **\$19.75**

### FALL FROCKS

Paris has vided the new Fall Frocks. They show color in the new Russian and Egyptian embroideries, while furs of various kinds are used as a trimming.

Draped lines with clever side closing effects are most in favor, while unique sleeves, panels and high collars on many garments are features that are decidedly new and charming. The materials most in favor are Poiret Twill, Kasha Cloth, Crepe Roma, Satin Canton and

Canton Crepe. Prices begin at ..... **\$16.75**

### OF PRIME IMPORTANCE IS THE SUIT

The supple quality of the soft pile fabrics, so much the vogue, lends inimitable grace to the most classic of the new suits.

Fashioned along strictly tailored lines, or elaborately trimmed with furs or embroidery, the effect is equally charming. Diversity of style, color, fabrics and trimmings make the Autumn presentation of suits one of vivid interest from every angle.

Priced as low as ..... **\$29.75**

AND UP TO \$110.00

**LONG DRESSES REAPPEAR ON CAMPUS;  
TYPE OF BEAUTY DETERMINES LENGTH**

How long are they wearing them? That the American college woman is independent enough to choose that length which is most becoming to her own particular type of beauty is the opinion of a prominent local dealer in woman's apparel. Other Iowa City merchants express their inability to control the length of the university woman's dress, although they insist that it shall not be shorter than eleven inches from the floor.

Flowing panels and hanging drapes often extend much lower than the body of the dress and sometimes reach the ankles. Afternoon dresses are longer than street and sport clothes and one dealer says students have bought strictly afternoon dresses which were only five inches from the floor.

**Black is Leading Color**  
All merchants agree that black is the leading color, although all shades of brown and navy are very good. Poirer twill and tricotine are the most popular materials for street apparel, while all kinds of silk crepes are used for afternoon frocks. That velvets and Duvetyns will be very popular among the students a little later was the opinion of two of the merchants.

The dress frocks have long clinging lines and graceful flowing sleeves. All kinds of draped effects with handsome ornaments, gorgeously embroidered peas-

ant sleeves, Egyptian girdles, tiny tucks, and caracul fur are the various ways of trimming the new gowns.

Sweaters continue to be popular and dealers predict that they will be worn all winter. Most of them are the slip-over styles worn with Peter-Pan blouses, or cuff and collar sets. All the darker shades with bright Egyptian designs, and the red and tomato shades are popular. The skirts are plain or checked made box plaited styles.

**Two Types of Suits**

Two types of suits are being worn of which the strictly tailored styles cut with very long straight lined jackets seem most popular among students. The dress suits made in more extreme styles and fur trimmed are not seen so often. As in dresses and dress coats, black, brown, and navy are the predominating colors in suits.

The mannish top coats either with or without racon collars are being shown for general and class wear. Materials are tweedish cloths mixed or plaid, in browns, tans and greys. For dress wear, fur coats and velvety finished cloth wraps with luxurious fur "cuddle collars" and wide flare cuffs, will be worn. They are being shown in misty black, deep blue, and radiant brown, deep piled fabrics with squirrel, platinum wolf, caracul, and beaver trimmings.

**Society**

**Gamma Phi Beta**

Gamma Phi Beta opened the preferred date parties with a Rainbow luncheon on Tuesday from 1-5 p. m. The pastel colors of the rainbow were used in decorations.

**Kappa Kappa Gamma**

Kappa's preferred party was a dinner at the chapter house on Tuesday from 5-8 p. m.

**Alpha X Delta**

Alpha Xi Delta entertained at a breakfast on Wednesday morning from 9-12 a. m., for their preferred party.

**Chi Omega**

Chi Omega's preferred party was a four course Butterfly luncheon on Wednesday from 1-4 p. m. Butterflies and marigolds carried out the color scheme of blue and gold. Hawaiian music was furnished throughout the afternoon and Laura Adams gave a Butterfly dance.

**Alpha Delta Pi**

A French Cafe was the scene of Alpha Delta Pi's preferred party on Wednesday from 5-8 p. m. Balloons, confetti streamers, music and dancing transformed the chapter house into a gay cabaret. Miss Emily Hartman sang some vocal selections.

Today's preferred parties are a Delta Gamma breakfast, a Tri Delta luncheon, and an Alpha Chi Omega dinner.

The following alumnae of sororities are back for rushing:

**Achoth**

Marcia McKee, Kalona.

**Alpha Delta Pi**

Helen Peterson, Keokuk; Mary Cochran, Keokuk; Garnet Westbrook, Manhattan, Kan.; Eloise Smith, Cedar Falls; Dorothy Cave, Waterloo; Dorothy Stone, Clinton; Lillian Cook, Cedar Rapids.

**Chi Omega**

Sybil St. John, Riceville; Esther Mackintosh, Hopkinton; Ferné Wolford, Lone Tree; Helen Vanderveer, Cedar Falls.

**Delta Delta Delta**

Florence V. Bierring, Des Moines; Doris Vance, Cedar Rapids; Janet Townsley, Waterloo.

**Delta Gamma**

Kathryn Pyle, Keokuk; Helen Blount, Des Moines; Josephine Cochran, Red Oak.

**Delta Zeta**

Dorothy Banks, Burlington; Florence Van Metre, Eugene, Ore.; Helen Langworthy, Massena; Julia Darrow, Columbus Junction; Mildred Freburg, Pomeroy.

**Pi Beta Phi**

Mrs. John Reed, Cedar Rapids; Mrs. Byington, Des Moines; Mrs. Don Lane, Sioux City; Martha Stewart, Chariton.

**Chase-Prentiss**

Marion V. Chase '24 of Clinton and Henry J. Prentiss, Jr., B. A. '22, of Iowa City were married at the home of the bride's parents in Clinton on September 2. Mrs. Prentiss was a member of the Delta Gamma sorority and of The Daily Iowan staff. Mr. Prentiss was a member of the Sigma Nu fraternity, won an I-2 in basketball, and was night editor of The Daily Iowan. At present Mr. Prentiss is on The Des Moines Register staff.

**Orton-Souers**

Helen Ewing Orton B. A. '21 of Muscatine was married to Philip Souers of Des Moines in Rock Island, Illinois on September 27. Mrs. Souers was affiliated with the Kappa Kappa Gamma sorority. Mr. Souers was a member of the Beta Theta Pi fraternity and will be an instructor in the department of English this year, in the University.

**Pickard-Sweasy**

Pauline Pickard of Indianola and M. E. Sweasy of Webster City were married early last spring in Mora,

Minnesota. Both Mr. and Mrs. Sweasy are graduates of the University where Mrs. Sweasy was a member of the Alpha Chi Omega sorority and Mr. Sweasy of the Sigma Phi Epsilon fraternity. Mr. and Mrs. Sweasy are living in Boston, Mass., while Mr. Sweasy completes his work at Harvard.

**Stanton-Gales**

Ella Stanton of Greene and Mr. Frank E. Gales of Davenport were married August 23. Mr. Gales is an alumnus of the University.

**Steely-Swinehart**

Verna Steely of Waterloo and D. Morris Swinehart were married at Waterloo, August 23. Mrs. Swinehart was a member of the Delta Delta Delta sorority. Both Mr. and Mrs. Swinehart attended the University and are now living in Waterloo.

**Cheadle-Staley**

Myrtle M. Cheadle A3 of Iowa City was married to Darwin M. Staley A4 of Perry. Mrs. Staley is a member of the Chi Omega sorority and Mr. Staley of Chi Kappa Pi, Delta Sigma Pi, Beta Gamma Sigma and Order of Artus.

## NUTTING LEAVES FOR OXFORD ON SEPTEMBER 28

Gives Sketches of Life at English School; Tea is Served Each Day

Willis Nutting, a '21 Rhodes scholar will leave for his second year at Oxford Sept. 26, following a two month's visit here with his parents, according to a statement issued yesterday to an Iowan reporter.

"There are a number of irregularities with which an American must become acquainted on entering Oxford," said Mr. Nutting, "There is practically no registration, it is only necessary to call on your prearranged tutor the day after school opens. He outlines a course of from twelve to twenty lectures per week and lists reference books. Then, by combining these sources of knowledge, each student writes and submits to his instructor one essay every week. The student receives no grade until the end of his final examination.

### Games in Afternoon

Games take up most of the afternoon, but most of the scholars attend 5 o'clock lectures. Dinner is served at 7 p. m. followed by a two hour recreational period, but the men who are up in their studies need not return until 11. Those out later than twelve are at the mercy of the authorities.

Nutting says that the University grew up as a result of the number of endowed colleges at Oxford which desired to group. But in spite of this each college instructs in every line of work. Hence one taking theology, law, medicine, or science receives an A. B. degree, and not a B. D. LL. D., M. D. or B. S. respectively as he would do in this country. In addition, a Master degree there means very little, Nutting explained, inasmuch as anyone paying his University dues seven years after graduation can receive one. Another startling fact is that the English almost ignore a Ph. D., and only bestow it on Americans taking certain courses.

"Everyone lives in the college he is attending. The situation is much as if each fraternity house in Iowa City had its own teaching staff; or as if Coe were over on East Washington street, Cornell on South Capitol, and Grinnell on Van Buren; each a sep-

arate school but with a little organization to keep them from conflicting.

Mr. Nutting says that he has to work harder at Oxford than at Iowa, for the students have to work during vacation time, too. He is taking a course in theology in Keble college, Keble college which, has 180 students, is one of the twenty-five colleges that make up the university. There are two other Americans in Keble college and about 200 in the whole university.

"The men at Keble college have a regular daily schedule," says Mr. Nutting yesterday. "At 8 o'clock is college chapel, which each student must attend four times a week. Breakfast is served from 8:30 till 9:30. Usually they eat soon after 8 as the lectures begin at 9 and last until 1. Then lunch is served.

"The students are required to wear their college gowns at dinner. They must also wear them at lectures, at tutorials, and on the street after 8 o'clock at night.

### ANNOUNCEMENT

The University Players will hold try-outs for "Seven Keys to Baldpate" at the University theatre, Tuesday 4:30. —Gregory Foley.

## Largest Squad In History Answers Jones' First Call

### FIFTY-ONE MEN RESPOND; FIRST STRING CHOSEN

#### Nine Letter Men Will Form Nucleus; Substitutes Crowding Letter Men

Fifty-one men, the largest squad that has ever reported for opening football practice, appeared before Coach Howard H. Jones last Friday morning. This number is larger by twelve or thirteen than the group that was out last year at this time. Since then other men have reported until nearly sixty candidates are practicing daily. Men who are out are G. Locke, Captain, B. M. Barrett, A. L. Cotton, John Heldt, L. J. Kriz, Max Kadesky, Alex Lindsay, P. D. Minni, C. I. Meade, G. Miller, H. A. Moldenhauer, V. C. Shuttleworth, F. O. Seiling, G. D. Thompson, F. A. White, E. G. Rich, J. W. Hancock, Scott McIntyre, P. M. Lee, Karl Engeldenger, L. Otte, C. J. Kriz, P. Jans, R. G. Rankin, A. A. Johnstone, D. W. James, J. S. Springer, L. H. Kelley, L. C. Parkin, Kirk Yerkes, A. F. Witte, F. W. Hoffman, P. J. Frank, Ty White, Wayland Hicks, E. C. Halback, W. H. Thom, C. Duhm, C. A. Pangborn, Fred Colby, Frank Jaqua, H. H. Roberts, Handy, Fisher, C. E. Smith, Schlamp, C. Nugent, C. E. Zein, M. Hoag, F. J. Spencer, W. L. Lawson, E. R. Scanlon, and L. F. Krasuski.

#### Nine Are Letter Men

Nine of these men are letter men from last year's championship team while a number of the others won secondary letters. The majority of the others are from the freshman team. From this squad Coach Jones must pick men to fill the places of the "big four" of last year, Aubrey Devine, "Duke" Slater, Glenn Devine, and Lester Belding. The time left before the first big game of the year with Yale is getting shorter, and only four weeks remain. Coach Howard Jones has been sending the men through two strenuous periods of practice devoted partially to fundamentals and in part to signal practice. A light scrimmage was held Monday night, while on Tuesday a longer period was given to it.

#### Pick First String

A first string has been picked temporarily and has been running smoothly. The line from right guard to left end is composed of the same men who played in those positions during the past season. Meade is at right guard, Heldt at center, Minick at left guard, Thompson at left tackle, and Kadesky at left end. The place left vacant by Slater is being filled by Engeldenger,

### OUT TO BEAT BROTHER TAD'S YALE BULLDOGS

COACH H. H. JONES

a big 200 pounder, who has played some football at West Point. Belding's old place at right end seems filled by John Hancock from last year's freshman team. Engeldenger is big and aggressive. He should be able to fill the hole at tackle in a capable manner. Hancock was a back field man on the freshman team, weighs over 190 pounds and is fast for his size. He seems to have developed some of Belding's ability in snaring forward passes. Last year he gave promise of developing into a good punter, and he may be called upon to drop back and keep Iowa's line out of danger.

#### Three Veterans in Backfield

Three letter men, Captain Locke, Shuttleworth, and Miller, are being used in the backfield, with Parkin, an ex-freshman, at quarter. Locke and Shuttleworth seem to be permanent fixtures in their positions, while Miller is going much better than he did in the past. Parkin has the biggest job, in trying to fill the place left open by A. Devine. He is fast and shifty, passes well, and seems to run the team smoothly. He needs much work in increasing the deception on his passes, but otherwise he appears to fit in nicely. He cannot be expected to pick out plays with the uncanny accuracy shown by Devine last year, but he seems to be doing all that could be expected of him.

The team as a whole appears to be farther developed than it was at this time last year. The line from end to end seems to be just as strong as it was last year, and what little has been lost on the right side has undoubtedly been gained on the left. Hancock fills in Belding's place without much trouble, and while Engeldenger,

(Continued on page 14)

### CALL HARRIERS SEPTEMBER 23

#### First Meet is October 21 With Badgers; Gophers Here Nov. 11

Cross country training is going to start early this fall, according to Coach George Bresnahan who expects to call out all harriers on next Saturday, September 23. Three hard meets are on the schedule and the men must be in top shape to win any of them. The first meet of the year is with Wisconsin at Madison on October 21. Then the Hawkeye runners tackle their old enemy, Minnesota, at Iowa City on November 11, probably just before the Homecoming game with Minnesota. The big event of the season is the conference cross country meet at Lafayette, Indiana, on November 25.

Iowa defeated Minnesota last year by one point in one of the upsets of the season, after Wisconsin had defeated the Gophers by about the same margin. The team did not come through as well in the conference meet, although Captain Ristine, who has completed his three years of cross country competition, finished fourth. Minnesota has lost her best man, Sweitzer, but has the nucleus of a strong team left.

Captain Lester Peterman, who will lead the harriers this year, is expected back some time this week. Letters were sent out to about twenty five men who are expected to be among the mainstays of the squad this year. The veterans of last year's squad are: George Ashton, H. W. Bowen, E. R. Foster, H. R. Havig, J. F. Jarnegan, and H. F. Noble. The following men freshmen and upperclassmen who competed in the spring cross country meet are expected to furnish competition for the more experienced runners: H. R. Phelps, J. H. Sheldon, E. R. Zacher, W. C. Hermann, G. E. Snyder, N. Ashton, A. Payne, C. C. Graves, L. T. Ostberg, R. B. Foster, H. H. Murray, G. B. Noll, H. C. Morrow, A. Mergay, F. Wellslager, F. P. Bryan, and F. B. Gibson. Other men will probably report and increase the size of the squad.

#### Squad to be Smaller

The number of men expected to report who have had previous cross country experience is smaller than it has been in previous years, but there are men listed who give promise of developing into a better balanced team than Iowa has ever had before. In previous years, the Hawkeyes have had one or two men who always finished close in the front, but the rest of the team frequently came in far in the rear. Coach Bresnahan expects to have a team during the present season that will finish well to the front, but better bunched than in the past.

### HERE ARE THE FIFTY-ONE MEN WHO WILL FIGHT FOR PLACES ON THE TEAM WHICH WILL TRY TO WIN AGAIN THE CONFERENCE CHAMPIONSHIP

ball, and track. Each course included lecture work, study of plays by means of motion pictures, and demonstrations by athletes of national reputation. Coach Howard H. Jones, and Coach George Bresnahan were well pleased with both the number and the quality of the students who took courses under them this summer.

### FOOTBALL TEAM LOSES QUARTERBACK CANDIDATE WHEN HOLM IS INELIGIBLE

Iowa suffered its first football loss last Friday when Roscoe Holm A2 of Alton was declared ineligible by the athletic board because he had played professional baseball with the Sheldon team during the summer.

The absence of Holm is a distinct loss that will be sharply felt as he was one of the leading candidates for the job of quarterback left vacant by the graduation of Aubrey Devine. He was fast, a good open field runner, and an exceptional passer. He won freshman numerals last year, not only in football, but also in basketball and baseball. In the latter sport he gave promise of being one of the best shortstops ever developed at Iowa.

All of the conference teams have been taking voluntary action against men who have played professional baseball this summer, and several men at other universities have been barred, notably Stuart, Ohio State's star quarterback.

### BAPTISTS ERECT NEW BUILDING AS CENTER FOR STUDENT LIFE

The Baptist church and the State Baptist convention have completed plans for the Iowa State Baptist student center. The building to be used for

this purpose is already under construction and is being erected on the corner of Clinton and Bloomington streets. The building covers a space of thirty by forty-six feet; it will be three stories high, and of brick construction.

The fund was taken from the new world movement fund which the Baptists of the world are raising for benevolent and educational purposes. The cost of the house and grounds amounts to \$30,000.

### TENNIS TEAMS TO BE FORMED

#### Will Meet Teams From Big Ten Conference Universities

The development of another minor sport at the University was assured early this fall when it was announced by the department of athletics that a tennis team to represent the University in matches with other teams of the Big Ten conference would be formed this fall, and participate in a few contests for the purpose of intercollegiate experience before winter.

The action of the department in deciding to form a tennis team is the result of the development of the sport in inter-class and local matches for the championship of the University. During the past few years the sport has gained popularity by leaps and bounds, and at the present time there are several students here who, it is thought, can successfully compete with students from other colleges and Universities.

Hector Janse A2 of LVerne and Ted Swenson A2 of Cedar Rapids are two men who are expected to make places on the tennis team. Both men have

### THREE CAPTAINS OF IOWA TEAMS ARE ON FOOTBALL SQUAD

Captains of three of Iowa's athletic teams are out for places on the football team this fall. They are Captain Gordon Locke of the football team, Captain Wayland Hicks of the basketball team, and Captain B. M. Barrett of the baseball team. Locke was the best fullback in the west last year, gaining places on both the conference and the all-western teams. He should be able to duplicate his success again this season.

One of the promising men out for quarterback is Wayland Hicks, one of the most aggressive guards that has ever played on an Iowa basketball team. He has played little football, but impresses everyone by the same fighting spirit that he shows on the floor.

Barrett made the baseball team as catcher in his sophomore year and was elected captain of the team last spring. He won a secondary letter as end on the football team last year and is out again for a place on the wings.

### TEN STATES REPRESENTED IN ATHLETIC COACHING CLASSES DURING SUMMER

Ten states were represented by the men who took courses in athletic coaching during the summer under Iowa's coaching staff. Sixty-five men were enrolled in football under Coach Howard H. Jones and Aubrey Devine, thirty took baseball under Coach James N. Ashmore, who is now athletic director at De Pauw, thirty-five were enrolled in track under Coach George T. Bresnahan and Aubrey Devine, fifty-seven were taking basketball under the supervision of Coach James N. Ashmore and Aubrey Devine, while twenty-five studied athletic conditioning under Dr. Walter R. Fieseler.

Kansas, Illinois, Minnesota, Texas, Colorado, Wisconsin, North Dakota, Louisiana, Montana, and Iowa were the states represented.

Men who have had several years of coaching experience in various high schools were attracted by the high standard of the course offered at Iowa during the past summer. Charles L. Parsons, coach of the Colorado school of mines, a former Iowa star and one of the three men who have won nine "I's" was among those who were enrolled in the football classes.

The facilities for this work at Iowa were unusually good. The big basketball court in the armory on the west side of the river is the equal of any in the conference. Iowa Field was in excellent condition for football, base-

## IOWA'S RIVALS ON GRIDIRON BEGIN WORK

### Yale Meets 3 Teams Before Iowa Game; 90 Men Out for Illini Team

Men who are out for the Yale football team reported for practice on September 5, and had their first signal practice two days later. Since then they have three ten minute scrimmages during one of which Oed (a substitute quarterback had a bone broken. The weight of the squad varies from Mackay, 225 pounds to Ives, 155. Few of last year's regulars have been lost, chiefly among them Aldrich and Into, star tackle who is ineligible. Yale's schedule favors them in that they have three games before they meet Iowa, while the Hawkeyes have only one.

**Illinois Has Green Material**  
Illinois started the season with a squad of over ninety men. Most of these are inexperienced, but there are many promising candidates out. Majors, a good open field runner, who can also kick and pass, is one of the leading half backs. Captain Wilson, at end, is the only lineman from last year's team, although there are a number of second string men fighting for places. The Iowa game is the Homecoming game, and Zupple will undoubtedly have a strong team in the field by that time despite the apparently dismal outlook at the present time.

**Purdue Has Strong Offense**  
Over sixty men reported for the first drill Friday afternoon. Coach James Phelan, Purdue's new football coach, is an old Notre Dame player who had a successful year during 1921 at the University of Missouri. Purdue's offense during the present season is expected to resemble that of Notre Dame. Many of the candidates for line places are big men and another heavy team is expected. Watson one of last year's half backs is ineligible because of scholastic difficulties. Purdue will have a new athletic field on the sixty-five acres donated to the university by D. E. Ross, and George Ade, the humorist. The last time Iowa played on the Purdue field two pulmotors were kept busy saving the players from

drowning. Purdue spectators thought they were witnessing a game of water polo.

**Minnesota Hopes to Come Back**  
Prices of the best seats have been reduced to \$3.00. Coach Bill Spaulding has a big squad to work with, and spirit is high with hopes for a return to the former glory of Minnesota football. Coach Spaulding has changed his lineup so frequently that no one is able to determine who will make the team. Aas, center on last year's team, is captain.

**Workman is Ohio's Star**  
Four squads are reporting daily at Ohio State. Petooff and Young are expected to make a strong bid for the tackle positions. Workman will probably be the sensation of the conference for he can run, kick, and pass. The new stadium seating 60,000 people will be dedicated this fall.

**Purple Has Veterans**  
Nine veterans are left from last year's team, and Northwestern's new coach, Glenn Thistlewaite, who had great success at Oak Park high, is very well pleased with his material. About fifty men are working, and a number of them are heavyweights. Practice has been light, the larger part of the periods being devoted to drilling in the fundamentals. A number of Oak Park high school stars have followed their old coach, and have registered at Northwestern. These men will form a good foundation for this year's freshman team. "Maury" Kent old Iowa coach is assisting Thistlewaite.

### 100 PER CENT LOYAL IS AIM OF JUNIORS AT CALIFORNIA UNIVERSITY

Berkeley, Cal., Sept., 21—TODAY'S THE DAY", say the enthusiastic members of the Blue and Gold staff. Today's the day when they will start soliciting you, if you're a junior; they will keep on your trail until you pay your \$6.50 assessment. There will be no escaping them, for they are bent on making a flying start to the 24 day campaign. Both on or off the campus, they'll campaign, until you and every other junior is wearing the badge of loyalty to the class, the "I am Loyal, '24" button.

Campaigners will personally solicit every junior in all the campus organizations, and a list of the fraternities, sororities and boarding houses, whose juniors are 100 per cent in their assessment payments, will be compiled at the end of the first week's drive, and published in the Daily Californian.

Bids to the Prom, and all the other Junior Day activities will not be sold to juniors who have not paid their assessments by the end of the 24 day drive. The members of the class who do not pay their assessments will be unable to secure copies of the 1924 Blue and Gold, as the management of the annual has decided that copies will not be on sale to juniors. Consequently the only way that the third year students can secure a copy of their year book is to pay the \$6.50 assessment.

The assessment also includes the cost of having individual pictures in the junior section of the 1924 Blue and Gold.

**Use New Method**  
A new method of collecting the assessments will be put into effect this year by the management of the Blue and Gold. Under the new system, the junior men's managerial staff of the annual will personally interview every man in the 1924 class, while the women's staff will carry on the same system of campaigning among the women of the class.

Besides the personal campaign among the men and women of the class by the junior managerial staffs of the Blue and Gold, the sophomore managerial staff will take charge of tables which will be placed at various positions on the campus, from which the members of the 1924 class who have not bought their assessments will be solicited by the second-year men.

### DECREASE IS SHOWN IN ATTENDANCE AT PURDUE UNIVERSITY

Lafayette, Ind., Sept. 21—Official figures issued by the registrar late yesterday showed an enrollment of 2,767. This figure will probably be higher in the next few days as many students are tardy in registering. It is not to be expected that the entire total will run up to the three thousand mark, however.

**Figures Lower**  
The figures as issued yesterday are lower than the total this time last year, due to the decrease in the three lower classes. The figures for this year as compared with those of last year are as follows: Freshmen, 943, last year, 952; Sophomores, 742, last year, 751; Juniors, 473, last year, 574; Seniors, 464, last year, 458. As indicated here every class has suffered a loss except the seniors which was swelled by the men coming back from the service. Special students enrolled this year number 54.

The Mechanical Engineering school continues to lead in numbers with 558, while the four year Pharmies have only 22. The rest of them rank as follows: Electrical, 530; Science, 491; Agriculture, 457; Civil, 368; Chemical, 189; two year Pharmacy, 61.

In the entering freshmen class the greatest number have chosen to take electrical engineering with 196, while the mechanicals are second with 173. The rest of them run about the same as their ranking in the other classes down to the four year pharmacy course with an entering class of 7.

**More Co-eds**  
The co-ed enrollment seems to have increased more than that of any other group, with a possible four hundred entering. This is an increase of approximately one hundred over last year, when the increase was only one.

### FROSH SPELLERS AND GRAMMARIANS PROVE SADLY INEFFICIENT

A spelling and grammar test conducted by Harold Y. Moffett, instructor in the department of English, revealed the fact that the average college freshman is as deficient in grammar and spelling as the eighth and ninth grade student. Mr. Moffett has carried on an extensive campaign throughout the state holding the tests in over 200 Iowa schools.

These tests grew out of a desire on the part of Mr. Moffett to learn as near as possible the result of the distribution of a bulletin prepared by the Extension Division, entitled "Minimum Essentials of English Composition". The primary aim of this bulletin was to make clear to the teachers, especially in the eighth and ninth grades, what the pupils in these grades ought to know. The bulletin has been widely circulated and used in other states as well as in Iowa.

Mr. Moffett's test in spelling consists of the dictation of a business letter at a stated rate of speed, in which the essential words named in the bulletin are used. The grammar text consists of exercises in capitalization, correct punctuation, and sentence construction.

The results of these tests are being tabulated now and as soon as results of the schools responding are arranged Mr. Moffett will be able to notify a school which has sent in a report just how it stands in the test compared with other schools in the state.

The results of two tests, one of fifty eighth-grade pupils in the Iowa City public schools, and the other of forty-two university freshmen attending this summer session, show a hitherto unnoticed fact.

Iowa City University eighth grade freshmen	
Number of papers	50
Largest number of errors	19
Smallest number of errors	1
Median number of errors	8
Number of perfect scores	0

"Occurred" is one of the spelling demons misspelled by forty eighth-grade pupils and twenty university freshmen. "Occasional" was misspelled by twenty-seven eighth-grade pupils and by nineteen university freshmen. Other of the "demons" in the test which show a high percentage of errors by eighth-grade pupils and university freshmen are "probably", "immediately", "finally", "lose", "stopped", "generally", and "sincerely".

### HICKS, APPOINTED AS THE UNIVERSITY NEWS EDITOR

Frank D. Hicks, formerly of the Waterloo Courier, received the appointment of University news editor, the vacancy occurring last spring when Harold Chamberlain, news editor for the past three years, left for Davenport to take a position with the M. L. Parker company department store. Mr. Hicks assumed his new duties last July.

Mr. Chamberlain received his degree in 1919, and immediately took his position as news editor. He is a member of the Alpha Tau Omega and Sigma Delta Chi fraternities, and A. F. L., honorary senior society for men.

## FOUR MEMBERS OF CHAMPIONSHIP TEAM COACHING

Belding at Boulder Aubrey Here Duke with Professionals and Glen at Parsons

Each of the four men on last year's championship football eleven who was lost by graduation is coaching this season. Glenn Devine is coaching at Parsons college. "Duke" Slater has charge of the line of the Rock Island professional team. Aubrey Devine, after assisting Coach Howard H. Jones during the summer coaching session, will have charge of the freshmen football team, while Lester Belding is head football coach at the university of Colorado.

**"Duke" at Rock Island**  
"Duke" Slater, all-American tackle on last year's Iowa team, who will play with the Rock Island Independents, one of the best professional football teams in the country, during the present season, reported to the Islanders last Sunday for practice. "Duke" will not only play but will be in charge of the line coaching. He will still be seen on the campus as he intends to complete his law course.

**G. Devine Coaches Parsons**  
Twenty-five men reported to Coach Glenn Devine at Parsons college last Friday, and more are expected out on Monday when registration commences. Glenn, one of the big four on last year's Iowa varsity, and one of the best defensive players ever wearing a Hawkeye uniform, has been at Parsons practically all summer getting things lined up for the fall campaign, and expects to have a good team in shape for the game with Grinnell on September 30.

**Colorado Calls Belding**  
Lester Belding, Iowa's all-western end during the past four years, has reported to the university of Colorado, where he is head football coach. Besides coaching football "Les" will assist in basketball and track. Belding started playing football during the days of the S. A. T. C., and his ability to snare forward passes immediately made him a marked man. He also was a star on the track team, special-

izing on the hurdles. He was captain of the track team in his junior year.

**Aubrey Busy with Frosh**  
Iowa's freshmen football coach, Aubrey Devine arrived in Iowa City last Monday and announced that he would issue a call for freshmen football candidates some time next week after registration is completed. Aubrey, who was Walter Camp's all-American quarter last year, was an assistant in the coaching school during the summer. He aided the coaches in the three sports in which he competed, in winning his nine "I's".

## CORNELL IS STILL WITHOUT LEADER

All College Moves Directed by Administrative Committee

Mount Vernon, Ia., Sept. 21—Cornell is still without a president, although at the time of Dr. Flints' departure for the chancellorship of Syracuse University, the Board of Trustees expected fully to have invested an executive head with the responsibilities of the college.

Delays of various kinds have postponed the public nomination of anyone as yet, however, though each day may bring forth new light upon the probable identity of the next administrator of affairs.

**Nominating Committee**  
The nominating committee chosen last spring is composed of Dr. J. E. Johnson, Waterloo, Hon. W. C. Stuecklager, Lisbon, Prof. W. H. Norton, Geo. W. Hunter, Des Moines, R. M. Gunn, Buckingham, O. P. Miller, Rock Rapids, and Rev. Frank Cole, Cedar Rapids.

**Considers Several Men**  
It is known that the nominating body has several men under consideration among them prominent educators and college presidents. No information as to the candidates for nomination is to be divulged under the present conditions however.

**Ebersole in Charge**  
The past summer the college has been managed very successfully by an administrative committee headed by Prof. W. S. Ebersole, with Prof. Norton and Tracy Thompson, executive secretary, working with him.

Many plans as to the future of Cornell with campus improvements and general expansion of the college figuring prominently, loom large among the

first duties of the new executive. For this reason, the Board of Trustees and friends of Cornell are anxious to settle the matter of the new president held as soon as possible.

## CORNELL ATTENDANCE SHOWS INCREASE OVER LAST YEAR'S FIGURES

Mount Vernon, Ia., Sept. 21—Registration this year bids fair to exceed that of last year by a large margin according to an estimate at the college office yesterday afternoon.

**More Freshmen**  
There was a notable increase in the number of Freshmen enrolled yesterday.

The pre-registration correspondence with prospective freshmen, equalled that of last year, when 336 frosh matriculated. The upper classes are expected to be swelled in addition to the return of a large percentage of upper classmen by an influx of students from Hedding College, Abingdon, Ill. Hedding closed its doors this summer and a large number of Hedding students have announced their intention of adopting Cornell in place of their original alma mater.

**May Run to 800**  
Last year 643 students had registered before the opening day, and 705 by the close of the first week. It is thought that more than 700 had registered at closing time Tuesday night and the total registration may be expected to run close to 800, without duplication of figures in any way.

Registration, class room, and laboratory arrangements have been improved and extended so that the department heads will not be forced to embarrass students by having to refuse them admittance to their courses.

**Busy First Week**  
The first week-end of the school year is filled with social events for students and faculty members. The faculty will be entertained at a dinner Wednesday evening. A Y. M. Y. W. C. A. "get-together" will be held in Alumni gymnasium Thursday evening.

The old "Pep Club," revived last spring following a student-body agitation for its resurrection after a four-year burial, will hold a monster mass meeting in the auditorium, followed by the annual watermelon jubilee in Ash Park Friday night.

The Frosh-Soph tug-of-war may be staged across Ink's Pond the first Saturday, although some complain that it might spoil the losers' taste for the very formal faculty reception the same evening.

## JESSUP GIVEN LL.D. DEGREE BY WISCONSIN

Third Degree Conferred Upon President; Won B. A. Degree in 1903 And Ph. D. in 1911

President Walter A. Jessup was granted an honorary degree of doctor of laws by the University of Wisconsin at its annual commencement exercises last June. Charles R. Crane of Chicago was also granted the honorary degree of doctor of laws with President Jessup, and Francis Greenleaf Allison of Brown university, Providence, R. I., received an honorary doctor of letters degree.

Doctor of laws is the third degree which President Jessup has had conferred upon him. He secured his bachelor of arts degree in 1903 at Earlham College, and the degree of

doctor of philosophy in 1911 at Columbia University.

He has been president of the University of Iowa since 1916, and was dean of the college of education three years previously, from 1913 to 1916. He began his educational work in 1900 when he became superintendent of schools at Westfield, Ind., where he remained for seven years, after which he held a similar position for two years at Madison, Ind. In 1912 he was dean of the school of education at Indiana university from where he came to Iowa as dean of the college of education.

## MIKE HOWARD, WRESTLING COACH, BACK NOVEMBER 1

With the announcement that Mike Howard, wrestling coach of the University, has been requested to report for duty on November 1, the board in control of athletics has decided to start the first workouts on or about that date.

Although Iowa's conference champion, Edward Vana, 125 pounds is lost by graduation and the champion of the year before, Charles Sweeney, 135 pounds will be lost to the team, it is

thought that the success of the team last year will insure increased numbers out for the sport this year.

James, 175 pounds; Heldt, heavy-weight; and Pfeffer 115 pounds are the only three men who will be out for the team this year who have had previous experience. Trickey and the Kriz brothers from last years second string are expected to put up the best battles for places on the team this year.

## FOUR NEW TENNIS COURTS BUILT TO RELIEVE CONGESTION

As a result of continued objections by tennis players that there were not enough courts to allow more than a few to enjoy the game at a time, four new courts have been constructed by the University during the summer.

Although the new courts are located just south of the Quadrangle it is thought that this added distance will not deter from their popularity, especially when training for the annual tennis tournament gets under way. The courts were planned to follow the same style as the ones located at the gymnasium.

*The Pagoda Tea Shop*  
ANNOUNCES  
*A New Management*

The Pagoda Tea Shop will be under a different management for the 1922-23 Season. It will however, have the old time standard of Courtesy, Service and Good Things to eat. The new feature of the season will be Table D'Hote and a la carte dinners, private dining rooms for parties, and dancing every evening until 8:00

**Pagoda Tea Shop**

# Good Things to Eat

## Welcome Students

We are very glad to have you back in Iowa City again. We know you all have enjoyed mother's cooking, and by eating at

## Jerry's Restaurant

you will still be eating the good things that mother put on the table, as Jerry does all the cooking and Mrs. Joiner bakes all the pies, rolls and cakes. Our big Plate Luncheon consisting of choice of three meats, potatoes, vegetable, bread and butter, coffee, and choice of pies or ice cream

### All for forty cents

For supper one of our tender steaks with potatoes, bread and butter—all for forty cents.

Warren Lauson, the best piano player on the University campus, and his famous orchestra will render their selections for your approval, beginning Sunday night—every day at noon and evening.

Come and make your home with us—eat, rest and be merry—you are always welcome.

*We also have a \$5 meal ticket for \$4.50*

# TRACK TEAM WINS THREE MEETS DURING SUMMER; TAKES FIFTH IN NATIONAL; 3 PLACES AT NEWARK

## Iowa Men Take Amateur Meets at Omaha, St. Joe, and State Fair

Since closing a most successful season last spring by winning the state track and field meet at Des Moines and placing second in the conference meet at Iowa City, Coach George T. Bresnahan's tracksters have continued their successes this summer, and have competed in five meets, winning three of them.

A week after the conference meet, the team competed in the national intercollegiate meet at Chicago, placing fifth with 11 34-45 points out of a field of over thirty teams. The meet was won by California with 28 1-18 points. Illinois, winner of the meet the previous year, and counted on as a strong contender for first honors, placed fourth, Penn State being second with 19 1-2, and Notre Dame third with 16 7-10.

### Brookins Breaks Record

Brookins broke the meet record in the low hurdles, running them in :24 1-5. Wilson placed second in the 220-yard dash and fourth in the century. Morrow was third in the half-mile, and Aubrey Devine raised the University record in the pole vault to twelve feet, tying for third place in the event. Hoffman tied for fifth in the high jump.

On July 4, six Iowa men went to St. Joseph, Mo. to compete individually in the first annual amateur meet there, and by securing eight places, led the contestants from any other university with a total of 30 points. Kansas Aggies were second with 18, Kansas made 17, Kansas Normal 11, and Nebraska 8.

Brookins won the 220-yard low hurdles in :24 2-5, with Crawford second. The latter took first in the 120-yard hurdles in :15 3-5 in the first competition for the former star hurdler in over a year.

Morrow was first in the half-mile, running it in 2:00. Coulter, last year's sprinter on the freshman squad, placed third in the 100-yard dash. Devine took third in the pole vault.

Belding, a freshman in the University two years ago, who attended the University during the summer session, won both the novice and open broad jump events. Iowa finished second in the mile and half-mile relays.

### Win at State Fair

August 26 and 28, Coach Bresnahan's tracksters won first place in all but one event of the first annual State fair track meet at Des Moines, romping away with first honors in the meet. A hard rain, which started when the meet was about half over, prevented running all events on Saturday, and some were postponed until Monday. The meet was featured as one of the main attractions of the State fair.

Coulter surprised track followers by winning the 100-yard dash from Brookins, who finished second, ahead of Hass of Chicago. The time was :10 1-5. Coulter also won the 220-yard dash in :22 1-5. Fessenden of Onawa, Iowa, was second and Read of Iowa third.

Iowa made a clean sweep in the 220-yard low hurdles, placing Brookins, Crawford, and Shoppe first, second, and third respectively. The time was :24 flat. Shoppe won the 120-yard high hurdles in :16 2-5 ahead of Patterson of Drake and Brown of Ames.

Two Iowa men placed in the 440-yard dash, Read getting second and Beck third. It was won by Fessenden of Onawa, Iowa in :50 flat.

Noll and Goodrich placed first and second in the half-mile, and Ristine and Goodrich were first and second in the one mile run. The latter race went in 4:57 in spite of being run in a blinding rain and on a muddy track.

Both the quarter-mile and half-mile relays went to Iowa, Coulter, Brookins, Lambert, and Colby won the short relay in :44 3-5, and Shoppe, Crawford, Noll, and Read won the longer one in 1:33 2-5.

### Iowa First at Omaha

Eight Iowa men went to Omaha September 2, where they won the Mid-Western A. A. U. meet with 37 points, finishing one point ahead of the University of Nebraska. Drake was third with 15 points. Over twenty universities, colleges, and athletic clubs competed in the meet, but most of the competition was between Iowa and Nebraska for first place, the winner of which was in doubt until the last event.

Brookins won the 100-yard dash, the 220-yard low hurdles, and ran on the winning one-mile relay team, taking individual honors in the meet. Crawford won the 120-yard high hur-

les, and Shoppe took third, with Gish of the Omaha Athletic Club second. Crawford also took second in the lows. In the 100-yard dash, Coulter pulled a tendon and was unable to finish. Although it prevented him from further competition this summer, the injury will not seriously hinder him next spring.

Read won the 220-yard dash, Noll the half-mile run, and Ristine took second in the one-mile run which was won by Rathbun, running unattached, in 4:31, which was exceptional time when the slowness of the track is considered.

The one-mile relay team, Crawford, Read, Noll, and Brookins, led from the start, and finished thirty yards ahead of Nebraska and the Omaha American Legion, which came in second and third.

### All Place at Newark

Brookins, Crawford, and Noll, accompanied by Coach Bresnahan, Douglas Fessenden of Onawa, a former University of Illinois track man, who won the 440-yard dash at Omaha, and Ben Lingenfelter of Des Moines, winner of the javelin throw at Omaha, competed in the National A. A. U. meet at Newark, N. J. September 7, 8, 9, and every man placed in at least one event.

In the Junior Championships, Crawford won first place in the 120-yard high hurdles, running them in :15 9-10, and Noll placed third in the one-half mile run, which went in 2:00 5-10. Fessenden won the 440-yard dash in :52 2-10, and Lingenfelter was second in the javelin throw, hurling the spear 165 feet 2 inches.

Brookins was ineligible to compete in the Junior Championship competition because he had won a first place in the low hurdles in the conference meet. However, he competed in the Senior Championship low hurdles, and placed third among the fastest competition in the country. The event was won by S. Harrison Thompson, former Dartmouth hurdler. The time was :24 6-10, which appears slow when it is considered that Brookins has done :23 4-5, but this is accounted for by the exceedingly poor condition of the track where the meet was held.

Crawford competed in the Senior high hurdles, and placed fourth.

The expenses of the Iowa men were paid by contributions from track fans over the state. The fund was handled by the Des Moines Register.

## NEW FOOTBALL RULES ELIMINATE FAST SHIFT

At the last session of the football rules committee, several important changes were made, particularly in regard to the scoring of a point following a touchdown. The number of times that a player can be substituted has also been reduced, and the rules regarding penalties has been clarified. The rule that will most effect teams that use a shift is the ruling that every man who has moved from his position to another must come to a complete stop so that when he starts again he starts from a standstill.

The most important change taken from the official guide is given below.

Rule 10. Try-for-point after touchdown.

A team which has made a touchdown may add one additional point to its score by putting the ball in play by a scrimmage from any point on or outside the five-yard line, and by successfully executing in a single play any one of the following:

(a) Kicking a goal, either by drop-kick or place-kick.

If the ball passes directly over one of the goal posts, or if, after being kicked, it strikes an opponent and then passes over the cross-bar or one of the goal posts, it shall count a goal. In no case shall it count a goal if the ball, after leaving the kicker's foot, touches the ground before passing over the cross-bar or goal posts.

(b) Carrying the ball across the opponents' goal line, either by rushing or as the result of a forward pass.

(c) Completing a forward pass in the opponents' end zone.

If a foul is committed by the side making the "try," or if such team makes an illegal or incomplete forward pass, it shall forfeit the opportunity to score the additional point.

If a foul is committed by the side on defense, the additional point shall be awarded to the team making the "try" without further play (whether or not the "try" was successful).

If fouls are signaled against both teams on this play, the "try" shall be played over. (See Rule XXIII, Section 8.)

Whether the "try" be successful or not, the ball shall then be put in play by a kick-off.

## CALIFORNIA SENIOR UNEDUCATED CAN'T RIDE STEEL GIRDER

Berkeley, Cal., Sept. 21.—Wishing to emulate the brave iron worker who rides aloft on a dangling iron bar and waves his gloved hand to the gaping throngs below, a senior boy with cords on, begged a ride on one of the two-ton steel trusses being hoisted to the roof of the new Physics building.

His ambition was perfectly justifiable but experience in this difficult feat was entirely lacking so that two vain attempts to straddle the girder and assume a nonchalant air were entirely balked.

The third attempt was disastrous and as he slipped from the girder a stray rivet, whose tentacle was sharp, ripped a supposedly ripless seam, from the ankle to the knee.

The ironworkers grinned at the educated youth who knew not the simple stunt of riding a girder and the senior sorrowfully hunted his sawdust strewn sombrero.

## FOOTBALL MAKES MINT OF MONEY

### Other Sports Lose Total Receipts for Year Are \$75,256.26

Just after the athletic department of the University of Iowa completed an accounting of the profits from football last fall—profits of \$23,537.72—it had visions of a stadium plated with silver and gold. After it had ceased making up deficits in basketball, baseball, wrestling, swimming track, and the high school basketball tournament, however, the silver and gold had turned to lead, since there was but \$4,470.53 left.

Football receipts amounted to \$60,532.27, and the expenses of the sport amounted to \$36,994.55. This was the only sport to show a profit during the last fiscal year, all other branches of athletics suffering a net loss of \$19,467.19. In addition to these sums the annual yearbook sales amounted to \$33,140.

Sports other than football had the following expenditures and receipts:

Baseball—Expenditures, \$5,550; receipts, \$981.

Basketball—Expenditures, \$6,786; receipts, \$3,907.

Wrestling—Expenditures, \$1,643; receipts, \$170.

Swimming—Expenditures, \$1,266; receipts, \$265.

Track (including the Western Intercollegiate Conference meet)—Expenditures, \$14,946; receipts, \$7,250.

State high school basketball tour-

ament—Expenditures, \$3,594; receipts, \$2,148.

The total receipts in all branches of athletics were \$75,256.25, of which football contributed all but \$15,000. The total expenditures outside of football for games and meets reached \$33,791.17, and the total receipts were but

\$14,723.98. Receipts in these tabulations refer to cash at the gate and the box office and are exclusive of the \$33,000 yearbook sales. Salaries of coaches and administrative officers are not included in any of the above lists of expenditures.

# Hands crave this Over-size Pen

## As they crave a balanced golf stick

Chinese-red barrel—handsomer than gold

Super-smooth point—guaranteed 25 years

NO ONE more appreciates the new Parker Duofold than the students who play golf. The moment you grasp it your hand responds to that unmistakable feel that means business. Its fit, weight and balance produce a sensation akin to the pleasure of gripping your favorite club. It holds nearly twice the ink of the ordinary.

It has a point of native Iridium—as smooth and life-enduring as a rare jewel bearing—and guaranteed 25 years for wear and mechanical perfection.

This is the pen that Geo. S. Parker, inventor of the leakproof "Lucky-Curve" perfected through 30 years of infinite pains. Money can buy fancier mountings, but the world contains no other point like this. Its popularity has made a stir at the campus and classrooms unlike anything known before. Many pronounce it "handsomer than gold."

When one record shows that the average student buys 4 pens a year, don't you agree that it's better economy to buy one Duofold in a lifetime even at \$7? Now is the time to come in.

# SORORITIES IN MIDST OF GAY RUSH PARTIES

## Preference Bidding System to be Used This Year; Rushees Get Bids Sunday

The formal rushing season of the sororities on the campus started Tuesday morning at 9 o'clock and will continue daily from 9 a. m. to 8 p. m., until Saturday night. Silence hours are from Saturday 8 p. m. until Sunday 6 p. m., when the girls who have accepted invitations will be pledged.

Each sorority will give one preferred party at the chapter house and further parties at the chapter house will take the form of afternoon teas. No parties may be given outside the chapter house and five person shall constitute a party except at the chapter house. Sorority women are not allowed to arrange dates with men for rushees, or to help them register. The preference system of bidding which was introduced two years ago

will be used again this year. The complete rushing rules of both national pan-Hellenic and local pan-Hellenic together with the preferred dates of the various sororities follow:

- National pan-Hellenic Rules**
- All pan-Hellenic rules are binding alike on alumnae and active members.
  - Girls may not be invited to membership in any national pan-Hellenic sorority until they have been fully matriculated in a university.
- Local pan-Hellenic Rules**
- All sororities shall conform to the ordinary rules of fair play and the honor spirit, and any sorority breaking these, although adhering to the specific letter of the rule, shall be considered dishonorable and subject to penalty.
  - The preferred system of bidding shall be used. All bids shall be written and sent out according to the provisions under Rule 14.
    - There shall be no oral bidding. Oral bidding shall be defined as any communication whatsoever of a chapter with a rushee in regard to her preference for any sorority. Pledges as well as active and alumnae members shall conform to this rule.
  - The closed question shall prevail. No sorority woman—active, non-active, alumna, or pledge—shall discuss with a

rushee any matter pertaining to any sorority.

4. The period of rushing shall be Tuesday, September 19, Wednesday, Thursday, Friday, and Saturday, from 9 a. m. to 8 p. m., daily. The preferred parties shall be as follows:

- Tuesday, September 19**
- 1-4 p. m. Gamma Phi Beta
  - 5-8 p. m. Kappa Kappa Gamma
- Wednesday, September 20**
- 9-12 a. m. Alpha Xi Delta
  - 1-4 p. m. Chi Omega
  - 5-8 p. m. Alpha Delta Pi
- Thursday, September 21**
- 9-12 a. m. Delta Gamma
  - 1-4 p. m. Delta Delta Delta
  - 5-8 p. m. Alpha Chi Omega
- Friday, September 22**
- 9-12 a. m. Pi Beta Phi
  - 1-4 p. m. Achoth
  - 5-8 p. m. Kappa Omega
- Saturday, September 23**
- 9-12 a. m. Iota Xi Epsilon
  - 1-4 p. m. Delta Zeta
- (a) Invitations for these preferred dates may be given preference over all other dates
- (b) A rushee shall be excused by a sorority in time to fill her preference dates
- Rushing expenses shall not exceed \$100.00
  - No party shall be given in any place other than a chapter house, either by alumnae, active members, pledges or patronesses. Except at a chapter house five persons shall constitute a party.
    - Each sorority may give one preferred party. Further parties at a chapter house shall take the form of afternoon teas, the refreshments to be limited to one course of three items.
  - No rushee shall be taken to register by a sorority woman unless by a member of Staff and Circle, or by a member of the sponsor committee.
  - No rushee shall spend a night at a chapter house, nor shall a sorority woman spend a night in the same house with a rushee unless she is rooming at a house on the approved list of the dean of women where a rushee is staying.
  - A sister who is a rushee is exempt from Rule 8 only.
  - No dates with men shall be arranged either directly or indirectly by a sorority woman for any rushee.
  - No dates shall be broken without the consent of the rushee.
  - No sorority or sorority member may give to a rushee candy, flowers, or gifts except as a favor at the preferred party.
  - Any rushee wishing to confer with a particular group shall notify the President of pan-Hellenic, who will arrange a meeting at which the rushee, a member of the interested sorority and a member of a disinterested sorority shall be present.
    - Each sorority shall place on reserve in the liberal arts drawing room, its copy of Baird's manual for the convenience and reference of rushees.
  - All rushing shall end at 8 p. m. Saturday, September 23.
    - No invitation to join a sorority shall be issued before Sunday, September 24, at 7 a. m. at which time sororities shall hand in the list of girls whom they wish to bid to the lawyer chosen, who shall meet the delegates at the regular pan-Hellenic meeting at 7 a. m.
    - On Sunday at 12 noon, the lawyer shall send notification to the freshmen who have received bids, with a request for their preference list.
    - Such freshmen must hand in their preference list to the lawyer at the office at the dean of women, liberal arts building one hour after receiving the same.
    - There shall be a period of silence from Saturday, 8 p. m. to Sunday, 6 p. m., at which time sororities shall call for the list of girls who have accepted their invitations.

# PURPLE MASK SELECTS TWELVE

## Elect Hurley President of New Dramatic Society

Announcement of members in the Purple Mask, a new senior society in dramatics, was made at the close of school in June.

E. Lucille Everett '22 of Iowa Falls was elected the first president, and George O. Hurley A4 of Rolfe made president for the coming year.

The other charter members are Prof. Edard C. Mabie, Walter J. Dehner A4 of Iowa City, Mildred C. Freburg '22 of Pomeroy, Gregory Foley A4 of Rock Rapids, Helen Langworthy '22 of Massena, Henry Ruwe A4 of Marathon, L. Kenneth Shumaker '22 of Minnville, Ore., Fred A. Steiner L3 of Corydon, and Albert F. Ward A4 of Clinton.

The Purple Mask is not a producing society, but serves to unite a group of senior leaders who are interested in dramatics. It is expected to serve the University theatre in a manner similar to that in which other senior societies serve their special activities.

The next selection of members, will come at the end of the first semester of this year.

Last year 110 players took part in the University theatre productions. They represented six literary societies, the University Players, and the class in dramatic production. The University Players adopted the policy which has made the society a large democratic organization without limited membership. This democratic plan has been successful and will be continued this year.

# PROF. C. H. FAIR MAY REPEAT LECTURE ON PLANT PSYCHOLOGY

Prof. Clifford Farr, of the botany department, in a lecture on the "Psychology of Plants" in the liberal arts auditorium exhibited a new student in the University in the form of an oxalis plant that had in the course of a week's instruction learned to open its leaves at night and close them in the day time.

A mimosa or sensitive plant that had had the same course proved too wise and refused to learn the trick. Among other things he showed a sunflower seedling that didn't know which side it was on and some oats sprouts that could add and subtract.

**Fool Sunflower Plant**

The sunflower was fooled by placing it in a horizontal position and slowly rotating it by means of clockwork so that the delicate mechanism of equilibrium was confused and instead of causing the plant to turn up caused it to grow horizontally. Another plant that was not rotated was growing upward in the natural way. When the oats seedlings were exposed to the light twelve minutes and then placed in the dark for a time they turned to the place where the light had come from. If the twelve minute time of exposure were broken up into any number of intervals the response was the same but no response was obtained unless the intervals added correctly. The seedlings subtracted when they were exposed to the light on first one side and then the other. If the difference in time of the two exposures made twelve a response was obtained otherwise there was no response.

**Plants Almost Human**

Professor Farr defended and demonstrated his theory that plants have consciousness. Aristotle and other philosophers have declared that plants have no soul. Tabulations have been made of the degree of soul life found

in various forms of creation from rocks at "O" to seraphim at the highest point. Modern psychologists have considered consciousness in plants too rudimentary to be worth attempting to demonstrate but the inquiring mind of Professor Farr demands more evidence than they produce and he proceeds to get his own evidence. No line can be drawn, he says, between the animal and vegetable kingdoms in ascribing consciousness to them. It is not even possible to tell to which kingdom some specimens belong because plants lack means of expressing themselves.

The lecture may be repeated this fall.

# IOWA SHOULD AGAIN WIN CHAMPIONSHIP SAY CHICAGO BOOSTERS

Iowa's prospective football team seems to have a good chance to cop another championship if the answers given to the "Inquiring Reporter" of the Chicago Tribune can be believed. Of the five men questioned at the Illinois athletic association as to the probable winner during the present season, two of the five thought that Iowa should duplicate its success of the previous year. The other three picked either Chicago or Northwestern mainly because these were home town teams. One of the two that picked Iowa did so because the Hawkeyes have always been a hard team to beat. The other calls the Iowa team of squad fighters, "built around the capable Locke."

There has always been a number of loyal Iowa rooters in Chicago, witness the postoffice clerk who drew a picture of Iowa waving the championship flag on a package coming to the athletic department during the middle of last year's season, and that number does not seem to have diminished.

# Of Course...

We wish to extend you a hearty welcome to our City. When the first excitement of arriving has passed and you have a few moments to think of new clothes, just think of Rothschilds.

We think we have some good looking, garments and would like to know how they appeal to you.

**Daily shipments are arriving, with all the very newest styles of Suits, Coats, Dresses, Skirts, Etc.**

It will be a pleasure to show you if ready to purchase or not.

### PHI BETA KAPPA GIVEN CORNELL

#### National Council Honors Iowa College at Cleveland

Mount Vernon, Ia., Sept. 21—A wire from President Flint at Cleveland says Cornell has been granted a chapter of

Phi Beta Kappa, national honorary scholarship fraternity.

Only two other schools in Iowa, the State University and Grinnell, have chapters of this old society founded in 1775. Membership in Phi Beta Kappa is considered the greatest honor that can come to any student. At the Cleveland meeting of the National Council only the University of Maine, the University of Washington and a college in the south and Cornell were recommended for chapters. It is not known whether or not the petitions of the other schools passed the council.

### IOWA MEDICAL COLLEGE RANKS IN FIRST THREE

#### Clinical Advantages and Entrance Requirements Considered In Choice

A discussion as to the relative standing of the college of medicine of the University and medical colleges at other institutions was settled as definitely as possible by Dr. Henry S. Pritchett, Medical School, when he gave the Iowa college of medicine a place among the three leading medical schools in the United States. The selection was based on entrance requirements, ability of the faculty, laboratory facilities and clinical advantages.

The college of medicine of the State University of Iowa was organized June 26, 1870, under Doctors Peck, Farnsworth, Dillion, Henrichs, Boucher, Robertson, Shrader and Middleton, who accepted the fees from the students in lieu of salaries.

It was not until 1872 that the professors received regular salaries, and the fees were paid into the treasury.

The first courses of study only required attendance at two courses of lecture of sixteen weeks each, with the additional requirement of a year's reading with some physician.

In 1882 three courses of lecture of twenty weeks each, and in 1896 four courses of six months each were required. No other department or college, in this university has made greater advancement in requirement admission.

When the college was first established there were no requirements for admission. Today a student must not only have completed a high school course, but he is required to take two years of pre-medical work in addition.

There were but 71 students enrolled in the college in 1872. Today there is a total of 346. Consideration should also be given to the fact that the requirements are much more stringent today.

#### FIFTY-ONE MEN RESPOND; FIRST STRING IS CHOSEN (Continued from page 9)

er may not be the equal of Slater, he should be able to take care of most of the tackles that he meets.

**Backfield Rates High**  
The backfield, with the exception of Parkin, should rate nearly as high as the one last year. The biggest hole that must be filled, the position whose successful filling should make this year's team nearly as good as the championship team of 1921, is at quarter. If Parkin develops as he is expected to develop, all worries of Iowa supporters should be banished.

One of the other things besides the good early season showing of the first string that stands out is the large number of capable men out for each position. Last season there were only two or three substitutes capable of partly filling a vrsity player's position. This season should see men on the second string who are able to push the first team men in every position. Iowa has a second string that should be able to hold its own with some of the weaker teams in the Conference. One spectator on Iowa Field was heard to say that he thought that he could take the second team and beat Illinois. On the second string Wade and Cotton are at ends, Kriz and Johnstone at tackles, McIntyre and Moldenhauer at guard, and James at center. Rich and Yerkes have been working at quarter, Jaqua at full, and White and Frank as halfbacks. Among the other backs who have been working with this team are Handy at full and Duhm at half-back. Rich has been looking good at his new position, and will probably push Parkin hard. Nearly all of the other men are capable of displacing the players on the first string, if they show the right fight when the real scrimmages start.

There are a number of other good men out who are not as well known but who may push their way up as the season matures. Hicks, captain of the basketball team, has played very little football, but he is showing up in good style at quarter on the third team.

Tuesday night the second string

scrimmaged with the third team, which in turn took on "Bill" Kelly's scrubs. The scrimmage was hard fought, although none of the teams showed the team work that will be present later in the season. This was the longest period of scrimmage held so far this season.

While the other teams were scrimmaging the first team was dismissed except for the backfield men who practiced place kicking. The extra point after a touchdown this year must be made by a play from scrimmage, and place kicking seems to be the way that Iowa will try for that point, since there are no dropkickers on the squad.

#### Work Hard on Punters

Considerable attention has been paid punters. A. Devine and Belding who punters. A. Devine and Belding who have done all the punting for the Iowa teams in the past four years are both gone, and someone must be developed to take their places. Miller is able to punt, and so is Hancock, but neither is accurate, and neither has been getting off long punts.

Prospects are good this year for another successful season, perhaps as good a record will be hung up as was done last year. It is unfortunate that the Yale game comes as early as it does on the Iowa schedule. Yale has been practicing much longer than have the Hawkeyes, and have three practice games to Iowa's one, while Iowa has the disadvantage of a long trip. The team looks good enough, however, to journey to New Haven and give the Bulldogs a big argument. After the Yale game, the real conference season starts and irrespective of the results of the first big game, Iowa should come through with flying colors. Maybe that game will make the team as the Notre Dame game made the team last year.

### DENTAL INFIRMARY ADDS MORE CHAIRS; EQUIPMENT FOR 183

The dental infirmary of the University of Iowa was enlarged during the summer in order to accommodate the large class of dental students who are to take dentistry this year. Dr.

F. T. Breene, dean of the dental college said; "When this new equipment is added to the clinic, the infirmary will unquestionably be the largest of its kind in the United States."

The infirmary which has equipment for 162 students, will be increased to accommodate 183 students, an addition of twenty-one new chairs.

SOCIAL COMMITTEE WILL PROHIBIT MID-WEEK DATING BY FROSH WOMEN

For the benefit of its readers the Daily Iowan reprints the social regulations which will be in effect this year. The rule prohibiting freshmen women from dating during the week and the 12:30 rule will be in force. Swimming parties participated in by both men and women must be chaperoned. Dancing on Sunday by University students is a misdemeanor.

The Social committee disapproves of picnics or automobile rides of individual couples. Students are not allowed to attend social functions of any nature held outside of Iowa City without permission from the committee on social organizations and affairs. The rules are in force during vacations as well as throughout the academic year. Following are the complete social regulations:

- 1. The University expects all students to conduct themselves according to the usages of good society. Failure in this respect will be considered a violation of social regulations. 2. All evening parties must conclude by 12 o'clock, midnight, including time for refreshments. This does not include the four formal parties enumerated in Rule 9.

Parties Must be Chaperoned

- 3. All parties for both men and women must be chaperoned, the official chaperons to be selected from the approved list, and reported to the Dean of Women at least two days before the date of the party. A chaperon must be present throughout the time of the party.

- 4. Dancing parties may be given and attended only on Friday and Saturday nights, or the night preceding a holiday, except by permission of the Committee on Social Organizations and Affairs.

- 4. The Freshman party shall be in every respect an informal party.

- 6. All evening dancing classes shall be interpreted as parties.

- 7. It is the sense of the Social Committee that if any swimming parties are planned to be participated in by men and women students, or by women students alone, or if swimming in the Iowa river is planned to be a part of other picnics or parties, notice of the same shall be filed with the Dean of Women, and proper chaperons provided.

- 8. Freshman women may make evening social engagements only on Friday, Saturday and Sunday. This rule should not be interpreted to prevent attendance at an entertainment given under the auspices of the University or at a play at which late leave is granted. Special privileges for the second semester may be granted by petition to the Social Committee on a scholarship basis.

Four Formals This Year

- 9. There shall be only 4 formals when dancing will continue till 1 o'clock. These shall be the three class dances, the Senior Hop, the Junior Prom, the Sophomore Cotillion and the Military Ball.

- 10. It is a misdemeanor for an undergraduate woman to remain out after 12:30. Chaperons are required to re-

port such cases to the Dean of Women except as covered by rule 9.

- 11. If a girl stays over night at some house other than her own, she must do so with the permission of her chaperon.

- 12. It shall be a misdemeanor for any young person escorting a young woman home to remain at her place of residence later than the closing hour for callers.

- 13. It shall be considered a misdemeanor for University students to participate in dancing on Sunday.

- 14. Fraternities and similar organizations may not entertain young women at their houses without a chaperon reported at the office of the Dean of Women. In case of impromptu dinner parties or similar entertainments duly chaperoned the chaperon may be reported at the office of the Dean of Women later than the time at which the party is given.

- 15. No person shall serve upon any committee having in charge any University social function, unless he shall have satisfactorily completed at least twenty-eight (28) hours of college work during the preceding year; or who shall have against him any probation or disciplinary penalty incurred during either the academic year or the summer session; or unless he shall be carrying not less than fourteen hours. This regulation does not apply to members of the freshman party committee, who must be approved by the Committee on Social Organizations and Affairs, and who must show evidence that they are doing satisfactory work at the time of their appointment.

Committee Must be Approved

- 16. No committee shall be permitted to have charge of any University social function unless such committee shall have been approved by the Committee on Social Organizations and Affairs.

- 17. No organization connected with the University is permitted to hold any social entertainments with a view of raising money to be divided among its members. All committees having in charge University social functions, at which any admission fee is charged, shall before preparations are made for the same, submit to the Committee on Social Organizations and Affairs a budget of all anticipated receipts and expenditures, which budget must be approved by the Committee on Social Organizations and Affairs. Within one week after such social function has been held, the committee having the same in charge shall make a complete report of receipts and expenditures, with satisfactory vouchers, to the Chairman of the Board of Audit. Any profits accruing from such function shall be turned over to the Treasurer of the organization as a whole and for the purpose for which the organization was established.

- 18. No fraternity, sorority, or other student organization may permit any person not a registered student or employee of the organization to live at the house controlled by the organization without the permission of the Committee on Social Organizations and Affairs.

- 19. Every chapter shall, through its president, file with the office of the Dean of Women or Dean of Men, as the case may be, a statement of the disposition made of their chapter house during the vacation periods, and this statement shall contain the name of party or parties officially responsible therefor.

Chaperons Required

- 20. Groups of students organizing as local clubs, for the purpose of later securing a charter from a national fraternity or sorority shall maintain themselves in good standing for at least, two years before applying for such charter. Exceptions to this rule may be made in favor of honor organizations. Approval of the Committee on Social Organizations must be obtained from the National Organization for which they are petitioning.

- 21. Social functions of any nature given by students and held outside of Iowa City are not permitted except by permission from the Committee on Social Organizations and Affairs.

- 22. Official chaperons are required to file with the Dean of Women an official card provided for that purpose for any social function which they have been asked to chaperon.

- 23. It is the judgment of the Social Committee that picnics or automobile trips of individual couples should be discouraged.

- Rules and regulations made by the Committee on Social Organizations and Affairs are always in force and are not voided by holidays or vacations.

SOCIAL ORGANIZATIONS TO HAVE CHAPERONES

Chaperons for dances may be chosen from any of the names appearing on the official list of chaperons compiled last year if these persons are willing to serve. The social committee will soon send out letters to all organizations on the campus asking them to name persons whom they wish to be placed on the official list of chaperons for this year. If the persons thus chosen are satisfactory to the social committee and are willing to serve their names will be placed on the new list.

SCHLESINGER IS HISTORY AUTHOR

Head of Department of History Gives New Viewpoints On History

Prof. Arthur M. Schlesinger, head of the department of history, has written a book on "New Viewpoints in American History" which is being published by the MacMillan company, New York.

Professor Schlesinger became head of the department of history in 1919, coming from Ohio State University where he was professor of history. He is the author of several books and numerous magazine articles on historical subjects. In 1918 he published "Colonial Merchants and the American Revolution" which received the Justin Winsor prize given by the American Historical Association for the best book in history written during the two year period.

"New Viewpoints in American History" is the outgrowth of the course of that title which was given in the University summer school two years ago," said Prof. Schlesinger commenting on his new book yesterday.

"The object of the present work is to bring together and summarize in non-technical language, some of the results of the researches of the present era of historical study and to show their importance to a proper understanding of American history.

"History teachers in the public schools may also find in this volume a short cut to a rather extensive literature inaccessible to most of them. It is the further hope of the author that graduate students venturing forth into the field of American history for the first time may find this book useful in suggesting the special interests of the present generation of historians and

some of the tendencies that seem likely to guide historical research for some years to come."

U. S. RADIO HERE HAS RANGE OF 1500 MILES

The United States government wireless station, which is located on the west side of the river beyond the men's dormitory, is one of a chain of stations on the Transcontinental Air Line from New York to San Francisco. This station began operation last September.

These stations take charge of the traffic of the post office department, especially that of the ships of the air mail service. Some of the stations also have a broadcasting service and broadcast market reports in addition to their work for the mail service.

The station across the river is equipped with a five kilowatt transmitter and a navy type receiver with a two stage audio-frequency amplifier. The aerial is supported by two one hundred foot galvanized towers. It has a sending range of about 1,500 miles in the winter and half that in the summer.

The receiving range is much greater and messages may be received from all parts of the United States. In order that the government stations will not be bothered by amateur operators, the amateurs are not allowed to have a wave length of over 320 meters. The government stations, because of their high wave length, can shut out all amateur messages. If any amateur uses a high wave length the government stations detect it at once and the amateur suffers the loss of his license.

The operators in charge of the Iowa City station are P. E. White, who was in the naval service during the war as a radio gunner, and A. E. Gerhard, who has been recently transferred from the station at Rock Springs, Wyoming. They work on eight hour shifts and keep the station open from

5 o'clock in the morning to 9 o'clock at night.

HUNT TEACHES IN PITTSBURGH

Prof. Percival Hunt of the department of English, while on his leave of absence, had charge of composition for freshmen and advanced classes in the University of Pittsburgh. Professor Hunt was much impressed by the fact that although the students of agricultural Iowa and the students in the great manufacturing center of Pittsburgh have a much different environment, their interests appear much the same.

CONCESSIONS--ATHLETIC CONTESTS

Sealed bids for the privilege of holding the concessions indicated below for indoor and outdoor athletic contests conducted under the direction of the University of Iowa Board in Control of Athletics will be accepted between the dates of September 20 and October 2, 1922.

A total of three (3) concessions only will be let, under the classification of: 1. Refreshments; 2. Programs; 3. Cushions.

Bids are to be mailed to H. H. Jones, Athletic Director, prior to October 2. The Board in Control of Athletics reserves the right to reject any or all bids.

CONCESSIONS--CLASSIFICATION 1922-1923

- 1. REFRESHMENTS: Candy, Carbonated Beverages, Pop-Corn, Fruit, Peanuts, Chewing Gum, Ice Cream, Lunches, Hot Drinks. 2. PROGRAMS: Football, Track, Baseball, Wrestling, Basketball, Swimming. 3. CUSHIONS: All Outdoor and Indoor Collegiate Athletic Contests.

BOARD IN CONTROL OF ATHLETICS, H. H. JONES, ATHLETIC DIRECTOR

# UNION DRIVE TO END THIS YEAR IS COUNCIL AIM

## Summer's Work Brings Total Fund at Present To \$475,000

"Put 'er Thru in 22!"

That was the battle cry of the students and Alumni championing the Iowa Memorial Union at the close of the last academic year last June. Encouraging strides have been made the past four months and the Union Council is preparing to make announcement of its program for work this coming year.

Immediately following one of the most successful campaigns under direction of the Union council, the organization work on the campus was pushed rapidly forward resulting in a compact organization with a definite

program at the close of school last June.

### Homecoming is Goal

Under the direction of H. H. Matt, chairman of the council, the program outlined last spring will be followed closely. The details of the Union Council's plans are interesting in the extreme and affect every student and organization on the campus. To complete the organization by homecoming time is the present goal. Homecoming, therefore, will be a red-letter day in the history of the Union according to those who are close to the situation.

The summer's work throughout the state was most profitable, both from the standpoint of new pledges and in extending the influence of the Union among the alumni. Commencement week, H. H. Matt, C. C. Bowie, B. F. Martinsen, and A. D. Clem, working under the leadership of Director R. G. Grassfield commenced completion of county organization and the conducting of campaigns for new pledges.

### Work During Summer

Starting at Cedar Rapids, these Union representatives spread over the

whole state with exception of the south-west corner. All of this work was accomplished by the middle of August. Total results were fifty-three county-wide alumni organizations, and the total Union fund boosted to nearly \$475,000. Analysis of the reports of the Union Boosters show that more than a thousand Alumni and former students of the University were personally interviewed. Furthermore the report proves conclusively that the Alumni are back of the Union with both moral and financial support. The economic conditions growing out of the strikes has been a factor for the workers to contend with, but despite this the board of trustees and the director are well satisfied with the showing.

As a result of the summer's work, campaigns for funds will be put across in a number of the larger cities of the state early this fall. Owing to circumstances these cities requested that nothing be done during the summer, but that with the opening of fall business conditions, they promised whole hearted support. Among these cities are Davenport, Des Moines, Ottumwa, Sioux City, Ottumwa, Oskaloosa, Dubuque, and Muscatine.

The old science building and the University high school building are all that remain of the original old campus, and plans are in progress whereby these will be replaced by the building which is planned for the new library. At present various libraries are scattered about the campus in the different buildings. The new library is to contain all the libraries and is to be used only for this purpose. After this building is completed the quadrangle of the campus will also be complete.

The slope of the campus toward the river its to be terraced and beautified by fountains and picturesque flower beds. The center of the campus may be occupied by the Memorial Union building, between the parts of the campus which are on the east and the west sides of the river. This, with the new lighting system, which is to be installed, will not only beautify the campus, but will also make it one of the most efficient and convenient in the middle west.

### 800 NEW LOCKERS BEING PUT INTO MEN'S GYM

Eight hundred men will be accommodated with new lockers when Ernest G. Schroeder, director of physical education for men has completed the improvements in the basement of the gymnasium, which were started last summer. The floor of the basement which formerly was used for an indoor running track has been cemented, and arrangements have been made for the installment of new shower baths in addition to the lockers.

The fact that last year many of the men were required to double up in the use of lockers and that for the past several years there has been a scarcity of room in the gymnasium is responsible for the action.

### STUDENT WALKS FROM COLUMBIA TO ATTEND IOWA SUMMER SCHOOL

Abol G. Bakhtiar, a native Persian, and former student at Columbia University, walked from New York to attend summer school at the University of Iowa. He is twenty-eight years old and has been in this country but three years.

Bakhtiar started from Columbia May 31 and arrived in Iowa City June 11. He walked from 30 to 35 miles a day, also being fortunate enough to be picked up by tourists occasionally. He

carried a pack containing a blanket, a few utensils and other necessities. During the entire trip he slept only about three of four hours a day. The route Bakhtiar took is a distance of about 1,300 miles.

When asked why he came to Iowa for summer school Mr. Bakhtiar said: "I heard that Iowa was a good school and that they had a long session in which I could complete my work. And then I was anxious to see something of the country and acquire knowledge about the different things with which I came in contact, I decided to walk because I had very little money and knew of no other way of getting here."

Bakhtiar attended Columbia for three years before coming to Iowa.

### MARSHALL HEADS LIST OF PISTOL SHOOTERS AT FORT SNELLING

Charles R. Marshall, A4 of Knoxville, who attended the R. O. T. C. infantry camp at Fort Snelling, Minn., last summer, was awarded the medal at the close of camp for the highest pistol score made by any cadet at the camp during the record pistol firing.

Marshall easily led the field of some 300 cadets at all ranges, going to the

last range with only seven points out of fifty needed to qualify him as expert pistol shooter. At this range he kept up his average and turned in the highest score of the camp.

Out of fourteen cadets from the University at Fort Snelling, all qualified in rifle but three.

### GRINNELL FROSH THIS YEAR REQUIRED TO WEAR NEW HEADGEAR

Grinnell, Ia., Sept. 21—Grinnell freshmen are soon to be granted the privilege of wearing a distinctive head-dress when the shipment of red skull caps which has been ordered by the Honor G club arrives. This is the first time that Grinnell preps have had to wear distinctive skull caps so common on other college and university campuses. The scarlet and black color is to be carried out very effectively by the little black button on the top of the red cap.

According to the plans of the Honor G club now the preps will wear the caps from the time that they arrive, which will be within a few days, to Thanksgiving, and from Easter to the spring recess.

## OLD CAPITOL TO FACE IOWA RIVER

### Being Completed From Plans Made Eighty Years Ago

Old Capitol, started July 4, 1840, is just being completed.

When its west portico is completed this fall the building will face the river as it was originally planned by its designer said to have been Father Mazzuchelli. Father Mazzuchelli also designed the St. Mary's Catholic church here.

The offices of the president, secretary and registrar which are being remodeled now are to be in readiness later in the fall.

This attempt to preserve one of Iowa's most perfect types of architecture is only one of the many changes which are to take place on the campus very soon. The building plan of the state for the University includes, besides the new chemistry building, a new library which will be a million-dollar structure.
