## REGISTRATION ON INCREASE DORCAS THINKS

### Last Year's Mark, 5970, May Fall; Two Dollar Fine Effective on Monday

Registration for this year will exceed last year's mark of 5970 is the belief of Hubert C. Dorcas, University registrar.

Registration authorities stated yesterday that about 4000 had completed registration in the colleges of liberal arts, commerce, education and in the graduate college. Figures from the professional colleges are very incomplete but will probably raise this figure from a thousand to fifteen hundred.

#### Figures Show Increase

About fourteen hundred were again sent through at the men's gymnasium. All worked smoothly as was the case during the two preceding days of registration. Toward the close of the afternoon the flow of the registrants dropped noticeably so that all who presented slips were able to complete their registration before five o'clock.

Figures from the registrars office for the first two days showed a decided increase over the first two days last year. No actual figures were available for yesterday but it was the belief of the registration committee that even more passed through yesterday than on the third day last year.

#### Two Dollar Fine Imposed

Four thousand and seventy-five number slips had been issued up to five p. m. No slips under this number will be accepted on Monday with out the payment of the late registration fine of \$2 per day. The above number is about 1500 more than the number passed out during the three day period last year.

Three hundred and seventy-five had enrolled in the college of applied science last evening. Dean William G. Raymond pronounced this an increase over last year's number.

In the college of law there were 201 registrants, about the same number as were enrolled last year.

The college of medicine numbers 252 up to date this year, and enrollment in the college of dentistry may near the 300 mark this year. As a whole the professional colleges appear to show about the same increase as the non-professional colleges.

## HUGHES RETURNS FROM EXPOSITION

### Enthusiastic Over Welcome And Reception in Rio de Janeiro

(By United News)

New York—After a record breaking trip from Rio de Janeiro, Secretary of State Hughes today returned from the Brazilian centenary exposition, enthusiastic over his reception in South America. "We have had a most enjoyable trip," said Secretary Hughes, just before his departure on an afternoon train for Washington.

"The visit of the special mission to Brazil to attend the celebration of one hundred years of independence in that country was a tribute to the unbroken friendship which has existed between the two peoples, and we were received in the same spirit and were entertained with the most generous hospitality."

The Maryland on her return trip broke all battleship records for speed making ten days, sixteen hours and ten minutes for the total distance of 4,778 miles from Rio de Janeiro harbor to Ambrose Light ship near New York, travelling at an average speed of 18.51 knots per hour.

## GOMPERS TO ADDRESS STRIKING CAR MEN

(By United News)

Buffalo, N. Y., Sept. 23—Samuel Gompers, president of the American federation of labor, will address the striking street car men of Buffalo at Broadway auditorium here Monday afternoon.

The meeting is in protest against the International railway company for refusing to arbitrate their differences with 2500 car men who have been on strike since July 1.

## Yesterday's Scores

## CAPS MUST BE WORN TOMORROW

### Social Committee Endorses Movement; to Check up on Fresh

Tomorrow every masculine member of the class of '26 is expected to blossom out in the traditional green cap, worn by freshmen at Iowa for the past two years. The caps are on hand at the leading clothing stores and can be purchased in either of two styles. The prices are forty-five and sixty-five cents respectively, depending upon whether the wearer wishes a permanent or detachable button.

#### To Check Freshmen

Since Charles R. Marshall A4 of Knoxville, president of the Howling 300, issued the decree ordering freshmen to don the green headgear, plans for accommodating the yearlings' needs and for seeing that the caps are worn as set down by the regulations have been going rapidly forward. Every fraternity president on the campus has pledged himself to see that the men of his organization keep in close touch with their freshmen in regard to wearing the green skull protectors. Members of the social committee which at its final meeting last June endorsed the wearing of the caps will also cooperate in seeing that the freshmen comply with the rules. It is also probable that the yearlings will be checked up at freshmen lectures, and the proper steps taken to induce the reluctant ones to join the throng and get on their proper headgear.

It is not expected however that there will be any reluctance upon the part of the men of '26 in regard to wearing their temporary caps. When introduced at Iowa two years ago the custom met with very little opposition from the incoming students, and last year even more cooperating was evidenced on the part of the freshmen.

Rules for the wearing of the caps provide that they shall be worn from 6:00 a. m. to 6:00 p. m. every day except Sunday no matter what activity the freshmen is engaged in. On November 11, homecoming day, the freshmen will be considered full fledged University students and will be permitted to cast their headgear into the bonfires if they so desire.

The same system of colored buttons that has been used in this past to designate the various colleges will again prevail this year. The black button will be on the caps for the Liberal Arts freshmen; old gold button will be used by the pharmacy students and a purple button by the engineers.

## DISCUSS AMERICAN ENTRY INTO LEAGUE

(By United News)

Washington, Sept. 23—Discussions of American entry into the League of Nations and cancellation of the eleven billion dollar war debt Europe owes the United States will be muzzled in the congressional campaign under a decision this week by the democratic senatorial campaign committee.

Senator Walsh of Massachusetts, chairman, said tonight the committee expected democratic orators to confine themselves to domestic issues. There are enough of these, Walsh and other committee members said, to provide an adequate supply of campaign material.

## UPTON WILL BUY SATURDAY'S IOWANS

Loren D. Upton, business manager of the Daily Iowan, will pay three cents per copy for the first 100 copies of The Iowan of Saturday, September 23, delivered at the business office at 121 East Iowa avenue.

## GILKEY ARRIVES TO GIVE VESPER ADDRESS TODAY

### Chicago Pastor, Favorite at Eastern Colleges, Will Make a Two Day Stay in Iowa City

Charles Whitney Gilkey of the Hyde Park Baptist church, Chicago, arrived in Iowa City last night for his two day stay here during which time he will address two University audiences. His first address will be made at Vesper services to be held this afternoon at 4:00 o'clock in the natural science auditorium. Monday he will speak to the freshmen.

During the past decade the Rev. Mr. Gilkey has addressed large student bodies with striking results according to Rufus H. Fitzgerald, secretary of the local Y. M. C. A. Harvard, Princeton, Yale, Stanford, and other large schools have secured him a number of times in recent years. His usual plan is to remain at one place several days, giving a series of lectures. The Vesper address, "The Man of the Hour," will be his first one here.

The entire program is as follows: Prelude and Fugue in E flat minor Professor Philip G. Clapp Bach Invocation Rev. Ray. E. York Hymn 4, "Holy, Holy, Holy" Dykes Scripture Reading Violin Solo, "Hymn to the Sun" Professor Frank E. Kadrie Rimsky-Korsakoff Address "The Man and the Hour" Rev. Charles W. Gilkey Chicago Benediction

## BUSINESS MANAGER TO MAIL FRIVOLS THIS YEAR TO SUBSCRIBERS

For subscribers of Frivol, University humorous magazine, Reginald O. Mars A4 of Iowa City has followed the example set by the colleges of the East and this year will mail copies of Frivol to those who subscribe for the entire seven issues.

This service will be appreciated by those who were subscribers last year and who forgot their coupons the day Frivol appeared, thereby missing their copy of the magazine for a day and sometimes longer. The system which will be followed this year will be a simple, efficient plan and will mean no trouble at all to the subscribers. Those who take the seven issues will be issued a card good for the seven, so that they can get the first number, then the cards will be turned in to the Business manager of Frivol and a receipt issued. The cards will be placed on file at the office and the day before Frivol is sold on the campus the copies will be mailed to the subscribers so that they may have their copy of the magazine the day it is sold in the buildings.

A price of \$1.50 for the seven issues is asked this year, single copies of the magazine being sold for twenty-five cents.

## KAISER REFUSES TO BREAK ENGAGEMENT TO PRINCESS HERMINE

Berlin, Sept. 23—William Hohenzollern, former German Kaiser, flatly refused to break his engagement to Princess Hermine, pretty widow whom he is to marry November 5.

Word was received here that the party of monarchists who went to Dorn to protest against the proposed marriage had been informed by the Kaiser that the marriage would take place as scheduled.

The exile was deaf to pleas that his marriage would harm the monarchists' cause in Germany.

He stated that he had given the princess his word that he would marry her and that he would not back down now.

## BRYSON IS FOUND GUILTY OF MURDER IN SECOND DEGREE

Huntington, Pa., Sept. 23—Herbert J. Bryson, physician and Argonne hero was found guilty by a jury here late today of second degree murder of Mrs. Helen Irene Hain of Washington is alleged love-mate. The verdict carried with it a sentence of not more than 20 years in the penitentiary.

## ALLIES OFFER TURKEY LEAGUE OF NATIONS BID

### French Policy in Near East Wins Sweeping Victory; Hope to Avert War

By Webb Miller (United Press staff correspondent) Paris, Sept. 23—Great Britain, France and Italy tonight sent a note to Mustapha Kemal opening the way for Turkey to re-enter Europe, receive back Constantinople and Adrianople, and join the League of Nations.

This was done to avoid unforeseeable consequences of war in the Near East. The Turks are offered the territory of Thrace in Europe as far east as the Maritza river.

They are invited to send a plenipotentiary to Venice to negotiate and conclude a final peace treaty between Turkey, Greece, and the Allies.

In return for concessions offered, the Turks must cease their war on Greece and agree to neutralization of the straits.

England Makes Concessions This is regarded as an overwhelming victory for Turkey and for French policy in the Near East.

Premier Poincare of France declared he believed the Turkish nationalist leader will accept the offer.

Foreign Minister Curzon of Great Britain made large concessions especially with regard to Thrace which Britain previously insisted should not be given to Turkey.

He first submitted a British text which differed considerably from France but capitulated to avoid bloodshed in the Near East.

Following Poincare's flat refusal to permit France to participate in military operations against the Turks despite Curzon's argument, the allied conferees avoided that stormy subject and concentrated on agreeing on concessions to be made.

Kemal Wires, "Murry" The allies' decision was hastened by grave news from Constantinople. Poincare again reported that unless the frontiers were settled to the satisfaction of the Turks they would burn Constantinople.

Mustapha Kemal telegraphed Franklin Bouillon, the French commissioner appointed to negotiate with him; "We will await you, but hurry."

Bouillon will hasten to meet Kemal tomorrow bearing the Allied note and verbal assurances in addition. He will try to gain Kemal's acceptance and avoid any attack on British forces.

The text was telegraphed to Kemal tonight and also wired to the Sultan government at Constantinople. France urged that representatives of the Sultan and Kemal agree among themselves as to what answer shall be given the Allies.

## No War in Europe

London, Sept. 23—Mustapha Kemal's troops fresh from the Smyrna horrors must not be permitted to carry their war to Europe, Premier Lloyd George declared in a statement in the press today.

The premier's statement repeated the decision of the British government to act with the allies in sending a note to Mustapha Kemal, Turk nationalist leader, that Turkey may occupy Adrianople and Thrace as far as the Maritza river on condition that the neutral zone of the Dardanelles is not invaded.

In his statement the premier did not forecast the action of the allies which followed several hours afterward. The statement as it later developed was a warning to Kemal that even though Turkey is allowed to again occupy her European territory the war between the Turks and Greeks must not be carried to Europe.

In his statement Lloyd George declared that the straits of the Dardanelles should be given over to the keeping of the League of Nations. The premier said that Britain's forces in the Near East had been dictated by two supreme considerations. The first of these he said was Britain's anxiety for the freedom of the sea between the Black sea and the Mediterranean. The second consideration he stated was that the peace of Europe and the world depended upon the freedom of the Black sea and Straits of Dardanelles and the Mediterranean.

## YALE BEATS BATES 48-0 IN FIRST GAME OF SEASON

(By United Press) New Haven, Conn., Sept. 23—Overwhelming victory over Bates college featured the opening of the college football season today. The score was 48 to 0. A forty yard run by Kelly, Yale quarterback for a touchdown and other touchdowns by Malley Batch and Neidleninger featured the play.

## SPENS AIMS BLOW AT COAL HOARDERS

### State Governors Are Asked to Cooperate in Curling Profiteering

(By United Press)

Washington, Sept. 23—Telegrams urging the governors of all states to cooperate with the federal government in the nation wide campaign to curb profiteering in and hoarding of coal were despatched tonight by C. E. Spens, federal fuel distributor.

The aid of the governors and their state fuel organization is necessary to guarantee small consumers against intense suffering and high prices this winter, Spens pointed out.

Federal aid was pledged by Spens who stated the power of the interstate commerce commission would be invoked against profiteering coal operators. The federal government, however, is restricted to disciplining persons and agencies engaged in moving from state to state. Profiteers and hoarders operating within the state are out of reach of federal government—directly at least—and it remains for the governors and their fuel bodies to deal with their own fuel problems, Spens declared.

Spens asked the governors to enlarge their present fuel organizations if necessary so that every shipment of coal may be carefully scrutinized. They have sufficient power to deal with violators, he said.

"It is necessary to stop hoarding by big consumers if the people are to get enough coal to keep warm this winter," Spens declared.

## COX CLAIMS U. S IS DUE FOR ANOTHER WORLD WAR SOON

(By United News)

Cleveland, Ohio, Sept. 23—The old predictions of another world war and blaming America for the present Turkish upheaval in Asia Minor were the paramount points in the address of James M. Cox, former democratic candidate for president in an address before the Cleveland City club here late today.

Cox startled his listeners with, "The world is drifting no man can say where. Perhaps into another world war. Failure of America to stand by the allies is the reason. America alone by participation in European affairs can save the situation."

## JOHNSON ADVOCATES IMMIGRATION BILL

Washington, Sept. 23—A new immigration law reducing immigration by fifty per cent and with a provision excluding Japanese, except those coming to this country to join immediate relatives for travel or on business, was advocated by Representative Johnson of Washington, chairman of the House immigration committee in a statement tonight. Johnson indicated he would lay his proposal before the immigration committee when Congress reconvenes.

## PROTEST AGAINST BANDIT ACTIVITY

(By United Press)

Washington, Sept. 23—Bandit activity in the Tampico oil fields of Mexico where robbery and kidnapping of American citizens is again rampant has spurred the state department to renewed protest it became known tonight.

Representatives have been lodged at the Mexican foreign office by American diplomatic officials over recent holdups and robbery of the paymaster of the Atlantic Coast and West Indies oil company. An American firm at Tampico, in which 42,000 pesos were stolen and one American wounded.

## IOWA CITY BOY IS KILLED WHEN DITCH CAVES IN

### Lawrence Brown, Age 4, Last Night's Victim; Wayne Brown Escapes

Lawrence Brown, four-year-old son of Mr. and Mrs. Lawrence Brown of 217 North Madison street, was smothered to death last night about 6 o'clock when the sides of the drainage ditch, west of the new chemistry building, in which he was playing caved in upon him. The Iowa City fire department used its pulmotor in an effort to resuscitate the boy.

Lawrence and his young uncle, Wayne, five-year-old son of Charles Brown, a University foreman, were playing after the workman had left, in an open ditch that is being dug down Market street from the new chemistry building as a storm sewer. The sides of the ditch, which was about four feet deep, are partly of clay and partly of sand and it is thought that the sand started to slide causing the heavier clay to fall upon the two boys. Their absence was for a time unnoticed. When the cave-in was discovered and the two boys dug out, Lawrence was dead, and Wayne was unconscious. Wayne received numerous bruises but was not seriously hurt.

## LARGER IOWAN MEETS APPROVAL

### Subscription List Now Over 1000; Pearl Davies Leads All Solicitors

That the change to a larger and more complete Iowan is receiving the enthusiastic approval of students and townspeople was evidenced in the Iowan business office yesterday as subscriptions poured into the circulation department, sending the total to date well over the thousand mark. It is the aim of The Iowan to obtain a circulation of 2,500 this year.

In the subscription contest between the Women's association and Theta Sigma Phi, the Women's association is enjoying a comfortable lead at the present time. It is planned to continue the contest through the early part of next week, as members of both organizations will then be able to give more of their time for the final spurt. Registration and rushing parties, two of the chief distractions of the past, will not hinder the work of the women next week.

Pearl Davies in Lead Pearl Davies A4 of Plymouth, a member of the Women's association, is well in the lead in individual returns, having turned in over 150 subscriptions during the past three days. It seems unlikely now that any of the other solicitors will be able to win the cash prize offered for the largest number of subscriptions.

Lois Jackson A3 of Mechanicsville, and Catherine Wright A4 of Des Moines, who are directing the work of the Women's association workers, are confident that the good record of their organization will not fall during the closing days of the campaign. Margaret Altman A4 of Livermore, head of the Theta Sigma Phi women, asserted yesterday that the final spurt would find the lead of the Women's organization well cut down.

### Offer Special Rates

In order that the subscriptions from the fraternities and sororities on the Iowa campus, long far below the standard set at other institutions, might be raised, the Iowan is offering these organizations a special rate. A reduction of \$3 on an order for seven papers is the attractive offer made these societies. At Ames nearly every fraternity on the campus subscribes for ten copies of the college paper for the year.

## DJEREJINSKI ASSASSINATED

(By United Press)

Paris Sept. 23—The Soviet minister of the interior, Djerejinski, has been assassinated according to an Eastern Telegraph agency dispatch received here today. The story lacked confirmation.

### CONCERT SERIES DRAWS INTEREST

Sousa's Band is Scheduled to Appear Here on October 19

Students, faculty and townspeople alike are displaying great interest in the very interesting and varied series of concerts to be presented this year under the auspices of the University music association.

The first concert comes on October 19 when Sousa and his band will be heard in the men's gymnasium. For twenty-nine years this famous organization has been in existence, playing all over this country and even in Europe and the far east, until it has become a synonym for the best in band music.

On November 14, Francis Macmillen, American violinist, will appear in the natural science auditorium. Mr. Macmillen first attracted attention when at the age of sixteen he won the Grand Prix at the Brussels National conservatory, together with the Van

Hal cash prize of \$5000. His career has been followed with great interest and he now shares with Albert Spalding the title of "leading American violinist."

#### Anna Case Pleases Iowa

Anna Case, famous for her beautiful voice and charming personality, will be the attraction for December 8. Miss Case is one of the leading sopranos of the Metropolitan Opera, and has also made a great name for herself as a recitalist. She is a particular favorite in Iowa, having been heard in Des Moines five times in three years. A very unusual entertainment is promised for February 1. Thurlow Licurance, who is acknowledged the foremost authority on Indian music, will give an evening of Indian song and legends. He will be assisted by his wife, Edna Wooley Licurance, soprano, and by George Tack, fulist. Genuine Indian costumes and settings will add to the interest of the evening.

#### Ganz Here Again

The St. Louis Symphony Orchestra is to give two concerts in the spring. The fine work of this organization, under its talented conductor, Rudolph Ganz, has attracted wide attention, and many return engagements testify to a general appreciation of its high standing. The soloist at the afternoon symphony concert will be either their concertmaster, M. Gusikoff, or the first cellist, M. Steindel. For the evening soloist the management has secured Carolina Lazzari, the famous contralto, formerly connected with the Chicago Opera Association and now a member of the Metropolitan Opera company.

Season tickets admitting to the entire course are already on sale, at book and music stores and Whetstone's and by students in the music department. The price of a season ticket is six dollars, just three dollars less than it would cost to buy single tickets to all the concerts at \$1.50 apiece. In addition, season ticket holders have the advantage of being able to make reservations one day before those who buy single admissions.

#### "SPARTACUS" WILL BE PLAYED HERE; BACKED BY CLASSICAL CLUB

"Spartacus" is a feature film at bargain prices; a picture made in Italy by Italian actors," said Miss Pearl Bagenstos, president of Classical club, concerning the motion picture to be presented next week by that organization. "Though the play is laid in ancient Rome, it is a real picture film, and there is nothing dead about it," continued Miss Bagenstos. "The stars, though they are practically unknown in America, are famous Italian actors. You are loyal to your school, as well as benefiting yourself by purchasing a ticket to Spartacus."

The purpose of the Classical club in presenting the film is to raise money toward a fund which it wishes to send to the American School of Classical Studies at Rome, which is a school at Rome for American students only and offers splendid facilities for study in Italy. Since this university cannot contribute as a university, for it cannot use state funds for such a purpose, the club is attempting to raise the necessary amount. If Iowa is among the contributing universities any of her graduates may attend the school without charge. Membership in the school would give Iowa prestige both at home and abroad, and would offer opportunities to her graduates.

The film will be presented Tuesday evening at natural science auditorium at 7:30. Tickets are on sale near registration precincts and in university buildings by Classical club members. Admission for adults is twenty-five cents, and for children ten cents.

#### GRINNELL FOOTBALL PLAYERS MEET IN HEAD-ON COLLISION

(Grinnell Scarlet and Black)

An unusual accident occurred in football practice Wednesday night when George Critchett and John Cushman met in a head on collision which sent Cushman to the hospital and laid Critchett, up in bed for the following day. Critchett, who first appeared to have suffered the most from the encounter, is now apparently none the worse for the accident but Cushman will be in the hospital until it is fully certain that his injuries are not critical.

A number of men on the squad were passing several balls about while awaiting the regular practice and the accident occurred when two balls were thrown crossed in the air. Critchett and Cushman both attempted to catch one of the balls but neither saw the other, with the result that both men met at top speed with a crash that could be heard all over the field.

Critchett was rendered unconscious by the shock and was apparently the only one seriously hurt. Cushman continued the practice but was forced to call for the assistance of a doctor that night. Symptoms seemed to point toward a skull fracture but the X-Ray showed no break.

#### DEANS OF ENGINEERING COLLEGE LECTURE AT PURDUE TO FRESHMEN

(Purdue Exponent)

Beginning with the eleven o'clock period this morning, and continuing weekly at the same time thereafter, all freshmen engineering students will meet in Eliza Fowler Hall for lectures designed for their special benefit. The meeting this morning will be addressed by A. A. Potter, dean of the engineering schools, and also by the heads of the various engineering schools. Courses of this nature have proved extremely valuable to new students in the past, as they serve to acquaint them with the facilities of their schools, and give them an insight into the problems and type of work which they are entering.

It must be understood that all freshmen engineers are expected to attend these meetings, including chemicals, civils, electricals, and mechanicals.

The meeting on Saturday, September 23rd will be addressed by President T. C. Elliot. On the thirtieth Dean Coulter will talk. Although the course is intended primarily for freshmen, any other students who so desire may attend.

### Society

Tonight at six o'clock sororities will call at the Dean of women's office for the list of rushees who have accepted their bids. Silence period began last night at 8 p. m. and continues until tonight at 6 p. m. During this time no sorority woman active, pledge, alumna or patroness shall communicate with any rushee. Preferred parties given yesterday were a luncheon by Delta Zeta and a breakfast by Iota Xi Epsilon.

#### Delta Zeta

Delta Zeta entertained at a rose luncheon yesterday from 1 to 4 p. m., for their preferred date party. Pink roses were used in decorations and the favors were silver bud vases.

#### Alpha Gamma Phi

Alpha Gamma Phi entertained at a rushing party at the chapter house Friday afternoon. Little Betty Emmons gave several dances. Roses carried out the pink and white color scheme and the favors were rosebud vanity cases.

#### Acacia

Acacia entertained at a dancing party last night at the chapter house. Chaperons were Dr. and Mrs. Frank R. Peterson.

#### Sigma Phi Epsilon

Sigma Phi Epsilon fraternity danced last night at the Criterion hall. Mr.

and Mrs. David E. Arnbruster chaperoned.

#### Sigma Alpha Epsilon

Sigma Alpha Epsilon entertained at a dancing party last night at the City park. Rich's orchestra furnished music. Dean and Mrs. Wilber J. Teeters chaperoned.

Achoth entertained at a Daisy luncheon Friday from 1 to 4 p. m. for their preferred party. The color scheme was yellow and white. Japanese vases were given as favors. Cahill's orchestra furnished music and Betty Emmons of Iowa City furnished dancing.

Announcement has been made of the marriage of Miss Neva Cray of Duncombe to Robert D. Mott S4 of Duncombe. Mrs. Mott attended the Art Institute in Chicago. Mr. and Mrs. Mott will live in Iowa City while Mr. Mott completes his electrical engineering course in the University.

#### CORRECTION

The society item in yesterday's Iowan concerning the marriage of Miss Marion R. Lyon should have read married to Mr. Walter E. Schoole, a graduate of the college of engineering in 1915.

### INSTRUCTIONS GIVEN STUDENTS BY HEALTH DEPARTMENT OFFICERS

Too few students realize or are aware of the service offered to them by the department of student health, says a statement issued by Dr. W. J. McDonald, director of student health, yesterday. Students pay their \$7.50 grudgingly twice a year and consider it so much money parted with and no value received for it. Some few consider it worth the incidental fee asked for securing excuses for illness. Students may have free physical examinations, may secure medical advice or may be vaccinated here.

The department of student health occupies the main floor of the hospital annex at the corner of North Dubuque and East Jefferson streets. It is open from 8 a. m. to 5 p. m. on week days, and from 9:30 a. m. to 10:30 a. m. on Sundays and holidays. On Saturdays the office closes at 12 noon.

If you are sick and able to go out call at the office of the department of student health between 8 a. m. and 12 a. m. or between 1 p. m. and 5 p. m. on week days; Sundays and holidays from 9:30 a. m. to 10:30 a. m. Saturdays call from 8 a. m. to 12 M.

If you are sick and unable to go out telephone the call to the office of the department during the same hours as above. Telephone 887.

In emergency cases outside of office hours, telephone to the residence of the Director, 2130, or to the residence of any member of the staff. See telephone directory or students' directory.

#### Hospital Care Offered

Students needing hospital care are sent to the University hospital.

Students with communicable diseases are cared for in the Isolation hospital. Students pay board while in hospital as follows:

The University hospital costs \$2.50 to \$3.50 per day and the Isolation hospital \$3.50 per day. Outside of communicable diseases choice of hospital is optional.

The department of student health gives a complete physical examination to all students who take physical training or military training.

All other students are urged to have at least one physical examination during the year.

Those for whom this examination is compulsory are notified by card; others can get appointments at the office.

You are urged to consult the Department on all matters pertaining to health even if you are not actually ill.

General and personal hygiene, worries, overwork, undernutrition, habits, defects are subjects on which valuable advice can be given.

#### Should be Vaccinated

Students who have not had small pox or who have not been vaccinated within five years are strongly advised to be vaccinated against small pox. Vaccinations against typhoid fever is also urged. Vaccinations are done at the office on request.

Students should report to the office any unsanitary conditions which they may observe in rooming and boarding places.

Excuses for absence from class on account of illness are issued only through the department of student health.

All cases of illness whether or not a physician is in attendance must be reported immediately to the student health office.

### Y. M. C. A. TO START OLD BOOK EXCHANGE

The Y. M. C. A. proposes to establish a book exchange, soon, for students who have old books to sell. The name and address should be written inside the cover of each book together with the price at which the owner wishes to sell the book, and brought to the Y. M. C. A. A charge of 10 per cent will be levied for the selling.

The idea in starting this exchange is merely one of service. A place is provided where secondhand books may be bought and where old books may be sold; books that will be used this year in the college of liberal arts being especially desired.

The greatest need, now is for Merry's "Principles of Speech." There are now on hand only 1000 copies and at least 1500 copies are needed to supply the demand. Anyone taking books to be sold should see Frank Shuttleworth, assistant secretary.

### ICY STARES, CATTY SMILES AND QUAKING HEARTS ARE ALL A PART OF SILENCE DAY

Silence! Silence! Everywhere is silence! Poor little home sick women when greeting their new friends of the week who have treated them like queens are repulsed with cool stares. At varsity a strained, subdued quiet reigns. Catty glances are aimed at the older and more daring co-eds who condescend to smile reassuringly at their most popular rushee. An icy chill pervades the fraternity party where rival sororities glare inwardly and outwardly exchange sickly sweet smiles.

Meanwhile, in their rooms the rushee races to the door at the tinkle of every bell—writhe at the thought of what the bunch at home will think if she doesn't make the same sorority Jennie made when she was here two years ago. Then, too, something might happen to mix up the bids. At meal times she gets hungry but dares not leave her rooming place until her preferred slip comes for fear something would happen to it.

And when the longed for slip does come, it is duly filled out and returned and the agonized wait begins again. What if her first preference didn't bid her? Where will she eventually land in the shuffle?

At the sorority house excited groups gather on the porch and hover on the walks anxiously waiting for the list of rushees who are willing to enter their fold if coaxed a little more.

When the wouldbe pledges finally arrive, silence is broken with a crash and complete surprise is assimilated.

by the new pledges for of course "they never thought of such a thing" "Why they had no idea they would be bid."

And in their rooms a few unfortunate ones sit in a stony silence and make up their alibi. For sororities don't amount to much, anyway. Then too, it is always best to wait a while. For who cares whether they join up with one of these cheap gangs, anyway.

#### ANNOUNCEMENT

Freshmen women are expected to attend Freshman lectures on Monday, September 25th at 4 p. m. in the natural science auditorium.

**HOODOO ATTACKS HINDU;  
SPIRITS AWAY HIS RUPEES**

Berkley, Calif., Sept. 22—Oriental hoodoo followed one Hindu freshman from India and perched on his shoulder when he pulled out his blue card, preparatory to fulfilling one of the many registration functions, and thus spirited away \$250 last Friday. Blue Monday had a less azure tinge due to the prompt action of the Hindustan association, which met Sunday evening to discuss the most feasible plan for rendering first aid.

There are various theories being discussed in Indian circles as to what really happened to the money. The most plausible one to the freshman is that a red tapeworm crawled off the oaks in registration grove, and having a natural taste for the filthy lucre, he speedily finished the young man's roX. This idea has been given color by one of the professors in the bacteriology department. He states that this worm always feeds on the "cultural media" that disappeared from the poor Hindu's pocket.

**GAME BRINGS TALK  
OF TRIP TO YALE**

Funds and Reservations Are Main Topics Wherever Students Gather

After watching the first scrimmage of the year, which was held on Iowa field yesterday afternoon, conversation in local cigar stores and other places centered around the trip of the Iowa team to Yale, and the prospects for students without a great deal of money to get there for the game.

"Yale funds", short for the account which many students started last year when the game with the Bulldogs was scheduled, were in order for discussion. Those who have started funds, the proportions of which are nearing the amount needed to transport one person to New Haven, Conn., excited the admiration and envy of the crowd.

Special arrangements in the way of trains and reservations have been offered by the Chicago, Rock Island and Pacific railroad to Chicago, and arrangements have also been made for transportation past that point. The team will make the trip on the same train the students and townspeople take.

The large squad which is now working out daily on Iowa field will be carefully culled before the men who are to be taken on the trip are picked. Coach Howard H. Jones will not be restricted by Big Ten regulations governing the number of men he can carry, and it is believed that he will take a large squad.

So far no one has reported his intention to "ride the blinds" to New Haven, as has been done in previous years to Chicago and nearer universities.

The trip to Ohio for the game there later in the fall was also planned by some, the majority however did not seem to care to figure past the Yale encounter. The finances seem to govern the decisions in most cases.

**DARDANELLES ATTACK  
TO BE FOUGHT BY  
BRITISH AIR FORCES**

(By United News)  
London, Sept. 23—Great Britain intends to bombard Turkish forces from the air in case the neutral zone of the Dardanelles is invaded, it was indicated here when Air Commodore Samson was rushed to the near East to take command of air forces.

The second battalion of the grenadier guard and a detachment of the royal marine artillery were despatched over sea.

# HICKS HURT AS VARSITY SCORES TWENTY POINTS

## Second Team no Match For First String Men

Parkin and Locke starred yesterday in the first practice game of the year which the varsity won from the second team by a score of 20 to 0. During the early part of the practice Hicks, scrub quarterback was slightly injured. After the first team had scrimmaged for about twenty minutes, they were sent in and the second team mixed with the scrubs.

The second team kicked off to the varsity, McIntyre making the first tackle when he spilled Miller after a short gain. Using straight football the varsity marched down the field with little opposition and Locke plunged over for the first score. Shuttleworth failed in his attempted dropkick.

**Gain Over Thompson**  
Most of the varsity gains were made over Thompson and Kadesky, for many of the plays around the other side were spilled by Moldenhauer who had little trouble in getting through Engeldinger. Neither Kriz at tackle or Smith at guard on the second team was able to stop either Parkin or Locke. Otte was finally substituted for Smith and partially plugged up the hole. Kriz at tackle was a big disappointment for he was always

slow in charging, was easily blocked, and failed to show any aggressiveness.

**Varsity Scores Easily**  
The varsity scored two more touchdowns before the scrimmage was over, and Shuttleworth was successful with both of his dropkicks. One of the varsity touchdowns was made when Heldt blocked a second team punt and Minick recovered the ball behind the goal line. Toward the end of the practice the first team varied their attack by mixing passes with rushes and the varied attack had the second string badly fooled. Locke again plunging over for the third count.

In the final scrimmage of the day between the second and third teams the seconds were unable to advance the ball successfully lacking even a semblance of teamwork. In the last few minutes of the game the third team, displaying much better teamwork than that of the second team, was able to score a touchdown. It must be admitted that they were given the ball after they had lost it by a fumble under the goal post, but they had drive enough to put it over, the final play, a drive through the line going over Otte and Kriz.

Ushers are wanted by the athletic department to work during the football games this fall. Men who take these jobs are granted free admission to the games in payment for their services. Anyone desiring to usher should apply to C. W. Lounsbury at 1142 East Court St., city.

### TEN HARRIERS TAKE FIRST WORKOUT OF SEASON YESTERDAY

Ten white clad cross country runners worked out yesterday for the first time of the season. They jogged around the track unnoticed by the large crowd watching the football game, went through some calisthenics, listened to a lecture by Coach George T. Bresnahan, and ended their work by an easy trot over a short course. Ten men were out, all of them veterans except Captain Lester Peterman who has not yet reported, and two freshmen. The old men were H. H. Murray, F. D. Gibson, G. E. Snyder, J. H. Sheldon, G. C. Ashton, R. R. Foster, N. A. Ashton, H. R. Phelps, while the freshmen were J. E. Van Ness and W. S. Shaler.

Murray, G. Ashton, and R. R. Foster are all men who were on the team last year, while Gibson and Snyder were on the squad. Phelps, Sheldon, and N. Ashton were among the most promising freshmen on the prep cross-country squad.

The squad this year while not as large as those of previous seasons is composed of a larger number of men who have had some experience, and Coach Bresnahan is anticipating a successful season. Three meets have been arranged for, and there will probably be a number of time trials during the season.

the first of next week, says a notice from director of physical training Ernest G. Schroeder. With the completion of these four courts eleven are now available. More courts will be laid as soon as additional grounds are purchased by the University. Mr. Schroeder stated that the new courts would have to lay for the winter before being in the best shape, since present they are somewhat soft. A man has been secured to take care of all of the courts which assures the tennis fans a speedy court any hour of the day. All the tennis outlay is in charge of Mr. Schroeder.

Hours of play are from sunup until sundown, every day except Saturday. "It is customary, if the courts are crowded and people are waiting, to play for one hour, and if everyone would follow this rule all would get a chance to play and there would be time for beginners," said Mr. Schroeder. All are expected to conduct themselves accord to the rules of the courts. Director Schroeder wishes it clearly understood that no fees are required for the privilege of playing.

A fall tournament is to be held starting within the next two weeks. Tennis proved to be a most popular means of diversion last spring for the co-eds as well as the men, and the announcement that a tennis team might be picked to play other Big Ten teams should bring out many stars. Mens singles, mens doubles, womens singles, womens doubles, and possibly mixed doubles will be played.

### COAD WILL ADDRESS COMMERCIAL CLUB IN MEMBERSHIP CAMPAIGN

James E. Coad, noted civic worker of Chicago, D. H. McFarland, campaign director, Mayor Emma Harvat, and representatives of the University and local business and commercial interests, will have a part in the membership rally of the Commercial club at a 6 o'clock dinner Monday at the club rooms.

Pres. Chrain Yetter, of the Commercial club, has named Prof. Charles H. Weller, to act with the American City bureau representatives in preparing the by-laws of the reorganized club. Prof. Weller has accepted the assignment.

All the talks will be brief except that of Mr. Coad who has been allotted twenty-five minutes. The meeting will adjourn before 8 o'clock because of other affairs scheduled for that hour. Iowa City's big forward movement will be definitely launched at this gathering. Officers and directors expect it to be the most comprehensive community movement in the history of the city.

Speaking on behalf of the board of directors, Mr. Yetter called on the membership to make the meeting Monday the biggest thing of the kind in the history of the club.

Plans for the greater Commercial club are progressing satisfactorily, according to Mr. Yetter. A number of committees has been authorized.

### ANNOUNCEMENT

University orchestra tryouts will be held Monday, Tuesday, and Wednesday this week from 4:00 to 6:00 p. m. and Thursday from 5:00 to 6:00 p. m. in room 5, Johnson building.

### COE SOPHS FIGHT BY NIGHT BUT THEY HIDE DURING THE DAY

Cedar Rapids, Iowa, Sept., 22—After twenty hours of intermittent but sanguinary battle, hostilities between the freshmen and sophomores lulled at noon today, with a temporary armistice signed to hold from the noon hour until four o'clock this afternoon, when the pushball battle is scheduled to start.

With classes following the chapel exercises dismissed for the day by special grant of the faculty, class day events got under way shortly after completion of the chapel services. The varsity made their first appearance of the year, other than in practice, at 10:30 o'clock when they played the freshman squad.

At 12:30 o'clock, with active fighting between the younger classes halted by order of the Student Council, students gathered in the gymnasium for the picnic dinner served under the auspices of the Student Council.

**Program After Dinner**  
An extemporaneous program of varied nature was presented following the picnic dinner, with William Moore, '23 taking charge of proceedings. The program was to extend up to four o'clock with the pushball skirmish on the football field to follow immediately.

Early yesterday afternoon the freshmen began to gather on the campus, the first year men taking the initiative, of opening hostilities. Ralph Lacey was the first sophomore encountered after three o'clock, the opening hour of the scrap. He was discovered in the gymnasium and escorted to Cedar Lake, where he performed the unique act of ducking himself for the pleasure of the yearlings.

**Sophs Show Fight**  
William Traeger and Carl Sturges were next in line for the belligerent frosh. Sturges repeated Lacey's feat of ducking himself but Traeger showed more fight and succeeded in pulling Bowlby, of the freshman contingent, into the lake with him. Traeger departed for country regions shortly after, in company with a number of freshmen.

**Frosh Breaks Arm**  
Emerson Shulte, '26, a Cedar Rapids man, suffered a bad break of the right wrist bone during one of the evening's innumerable battles. College men were not to blame, it is said. A body of Cedar Rapids non-college men encountered the main freshman "army" on the campus shortly after 9 o'clock and made a sally against them, with Shulte's wrist broken in the scrap.

Shulte believes that one of the men must have struck him with a weapon of some sort, as the bone was fractured close to the hand, precluding any chance of its being broken in an ordinary scuffle. An X-ray was taken at once and the bone set.

While the freshmen were being innoyed by guerilla warfare from outside, the sophomores gathered early and retreated to a place of seclusion northwest of Daniels Park, where they remained until eleven o'clock.

During the next three hours, however, with the yearling army disbanded the second year men ranged over the campus environs at will. A systematic search of the fraternity houses was conducted. Several freshmen were

seized and taken to Cedar Lake. Paddles and one-way motor trips were provided for others.

### SIX KILLED WHEN AIRPLANE FALLS

(By United News)  
Minneapolis, N. Y., Sept. 23—Six persons were killed here tonight when a martin bomber aeroplane fell during a flying circus that climaxed the "war games" which were held here through the day.

The machine fell at the end of a nose dive. It burst into flames as it hit the ground. First Lieutenant Raymond Davis, the pilot, and five passengers all met instant death.

### COE COLLEGE FROSH DON THEIR GREEN CAPS

Cedar Rapids, Iowa, Sept. 23—Green caps, which are said to be the most brilliant things about freshmen, made their appearance on the campus early this week following the "ultimatum" issued Tuesday at the chapel service by President Turner, '23, of the Student Council.

The yearling men will be required to wear the verdant headgear when on the campus until Homecoming Day, which occurs October 28. The caps this year are slightly different than those of last year, but appear to be just as visible as former vintages. They are of bright green felt, trimmed in red, with the class numerals, "26" also in red, sewed on the front.

In order that the freshmen women may not feel slighted, the "powers that

be" have authorized them to wear small green pins, emblazoned with the class numerals. This is an innovation this year, the announcement of which was made at a chapel service this week. The pins will be worn at all times until Homecoming Day, the Student Council edict declares.

### WHERE'S THE SUN

The melancholy day has come. Normally, it should rain today. Sometimes the elements bring the sun, but not often, since everything combines to make this Blue Sunday.

A great many students of the University are away from home for the first time. Until today, registration troubles have given them little time in which to become homesick, but today, with nothing to do but wait for the opening bell tomorrow, their thoughts wander and they muse on the dreariness of their surroundings. Some of them didn't "go anything."

Three years ago today, a girl, who failed to make a sorority during the regular rushing period, shed copious tears. She had come to the University for an education and had wept when she believed that socially, she didn't make the grade. Her tears were in vain, however, for a few weeks later, they "beat a path to her door." Two years later, she was president of her chapter.

Blue Sunday is made bluer, we believe, because of the way fraternities and sororities "rush" their prospective brothers and sisters. For four days, a girl or boy, may be wined and dined, literally, and then on Sunday find themselves outside the pale.

To find one's self alone today doesn't make the outlook very bright when one is trying to overcome homesickness. To try to believe that you have the stuff, despite the immature judgment of college youths, takes a lot of good strong will power, but the student who can carry on under the circumstances is the one who will get the button if he wants it.

We believe sometimes that Blue Sunday is a good thing. It gives the student, who feels alone, a chance to size himself up. Those who are philosophers can laugh at the clouds since they know of the silver linings. The man or woman, who believes today, that he or she is alone, should start working their will power. Right now, at the start, is the proper time to snap out of it.

There have been a great many other students, who became leaders, who were lonesome on Blue Sunday. Some of them had "gone something", a lot hadn't but that didn't keep the latter class from stepping out and showing that a jeweled badge permits one behind all the scenes.

The judgment of the mature men very often is wrong; that of the college boys, selecting the "good men" among the new students, goes astray every fall. The best thing about Blue Sunday is that it has only twenty-four hours.

### A NEW NOTE

A decided reaction to the present system of education is evidenced by statement made recently in many parts of the country by noted education is evidenced by statements made relative to a love of knowledge as such; in short, the attainment of an "intellectual aristocracy" is the aim of the new movement.

Educators charge that colleges are becoming too commercialized and that they are catering to a class of students whose only purpose in attending an institution of higher learning is to engage in athletics or to affiliate with social organizations. President Ernest M. Hopkins of Dartmouth college is quoted as saying that it is only a question of time until young men and women who are now entering American colleges with such a purpose are eliminated.

In an interview with a United News correspondent, printed yesterday in the Daily Iowan, President Walter Dill Scott of Northwestern university said the following:

"We must eliminate very rapidly the people who don't come to learn; they invariably make poor students; those with more money than brains should stay away. . . . Colleges are not glorified athletic clubs or social societies. There should be more exclusive societies on the outside for the people who want them; but in college, education should come first. The people who don't want that are in the wrong pew."

The students who work their way through college, in the opinion of President Scott are usually found to be more worthy and in time will form a larger proportion of the student body. "In our investigations we find that those alumni who worked their way through college are playing a much better average in the game of life than those who did not," said President Scott.

### CONTEMPORARY OPINION (Daily Kansan)

#### PUBLICITY HOUND

The early fall issues of The Kansan are running off the press nightly now, and when the Kansan begins publication in the fall the publicity hounds come scampering in from one end of the campus to the other. By publicity hounds we refer to those people who have axes to grind, and wish to grind them in the free news columns instead of the paid advertising columns.

Your born publicity hound seems to have the opinion that newspapers are printed for his benefit, and for his benefit alone. He even becomes angry when the Kansan occasionally side-racks a little item boosting one of his pet axes and puts in its place a story containing real news. For instance: last fall a lady faculty member became irate when an article boomed her pet project—carefully dictated by the lady to a Kansan reporter—failed to appear. Whereupon she grabbed her telephone and became connected with one of the Kansan editors. She was highly indignant, she told this editor, because her free advertisement did not appear in that evening's paper. She wanted to know what sort of news judgment threw HER story out, and placed a little item concerning Mary Pickford and her ocean voyage in the paper.

The students of journalism who edit the Kansan do not know everything about newspaper work; they do not pretend to. They do know this, however; they know that certain types of story have a news value and are read; they know that others are uninteresting and have little news value. Consequently, they endeavor to fill the Kansan with matter which should be of interest to the student body in general.

### The Sounding Board

Parnassus had always believed she was a dumb-bell, but when she saw us yesterday and explained, "Why, . . . I just know you're the person who is writing 'The Sounding Board,'" he felt that his judgment of the lady had been unjust. He was about to apologize when she remarked, "Oh, we just pledged two of the sweetest girls you ever saw . . ." So Parnassus patted himself on the back and let his judgment stand.

It is said that the best looking man on the quad isn't going to make Mr. Jones' eleven, in which case the athletic board should evolve some arrangement to attract those co-eds who get thrills only of Arrow collar advertisements.

The best way to tell whether you've handed yourself packages, brothers, is to note which section of the Sunday papers the neopytes read first. If they choose the comics, rap on wood and hope for the best.

"Nobody has to Sleep in City's Streets," says a headline. No, but wait until the bridge sharks start wagering on their ability.

Parnassus knows the bootlegger who wears overalls as camouflage.

One didn't suspect how enterprising the man selling peanuts at a football practice was until he purchased his stale fruits.

Man is the vain creature. One we know had the name of a local fraternity, long since dead, inserted in his wedding announcement "as a member of."

One hears much these days of experience but, my dear, experience is simply one disillusionment after another.

These restaurant proprietors must be in collusion with the dance hall owners, else why should they have their orchestras forever playing jazz?

It may sound paradoxical, but some of them grow dumber as their bells tinkle louder.

"Too many men are going to college," the president of Dartmouth college is quoted as saying. There are some girls who don't concur with him, however.

The ideal college state, Parnassus supposes, will be reached, when every co-ed has at least three men showering constant attention upon her.

Well, brothers, hoy many "good men" have you met since Thursday?

### HOWLING 300 TO MEET THURSDAY

Organization Plans to Meet Visiting Athletics at Train This Year

Howling 300, student pep organization, will start the year's work Thursday night with a general get together meeting in the liberal arts auditorium. The meeting is called for 8:00 o'clock and is open to prospective members. Charles E. Marshall, A4 of Knoxville, president of the organization, said yesterday in speaking of the meeting, "Every old member and any one else who desires to become affiliated with the 300 this year should turn out to this meeting and help the club off to a flying start."

Since its organization here in the fall of 1920 the Howling 300 has been the leading force in getting students out to the games, meeting the teams, holding mass meetings and other demonstrations of loyalty to the team and the University.

This year it is planned to meet visiting teams at the stations, conduct them to their hotel, and answer their various needs so that whether they win or lose their contest, they will have a friendly feeling for Iowa. The custom of introducing the visiting players at basketball games will also be continued this year.

Last year the Howling 300 cooperated with the University administration in putting on the Homecoming festivities, and it was largely due to the club that many features of that celebration were carried out. Practically all of the decorating was done by members of the Howling 300.

As for themselves the club members will again wear their Old Gold and Black skull caps and carry their canes. They will also have a special section reserved for them in the west grandstands.

One of the things that will come up for special consideration Thursday night will be the matter of seeing that the freshmen wear their green headgear.

### SOUSA SEEKS TIME TO COMPOSE; IS ON SHORTEST OF TOURS

That Sousa and his band will appear here on October 19 in the men's gymnasium is already known to music-lovers of the city and vicinity. What is not known save to those "in the profession" is that the March-King is including the city on the briefest tour he ever shall have made since he resigned as conductor of the Marine band and organized his own famous organization.

The explanation is that Sousa is yielding to an impulse he has long held in suppression to compose another operetta. The plan is matured in his musical mind; and he is going to work on it in earnest at the end of his tour. Theatrical managers all over the world are forever supplicating him to "write another 'El Capitan.'" Now the March-King's answer is: "I'll try." "El Capitan," first heard in 1896, is in revival this summer by not fewer than twelve comic-opera companies, and is to be staged in spectacular style in Vienna in August.

### WHY YOU WILL PREFER OUR SELF-IDENTIFYING

# New Checks

#### PROTECTION---

Exactly same plan as Travellers Checks sold by every bank in U. S., and cashed by any merchant anywhere.

#### ECONOMY---

No charge for these books---Why pay for privilege of using inferior system?

#### SERVICE---

Know your exact balance always---No overdrafts to explain to the Dean---Same system used at Michigan, Indiana, Illinois, Ames and other schools---Convenient denominations.

**GALLANT SEVENTH TO BE ON SOUSA'S BAND PROGRAM OCTOBER 19**

"Let Sousa do it!" has for many years now been the submitted and accepted solution of all difficulties having to do with the military, naval, festival, and celebrational music of the American people. And Sousa, like the traditional "George" of "Let George

do it!" has always does it, and does it to the satisfaction of the same American people.

**Sousa Turns to Local Music**

For years without number, the Seventh Regiment of the National Guard of New York state has longed for a march of its own—one written for it, dedicated to it, and expressing its essential character. Practically every American composer with a knowledge,

real or assumed, of the difficult technique of the modern military band has taken a try at providing the long sought one-step. Even the world war failed to inspire any of the selected composers with the right idea, although marches without number were written and dedicated to the regiment, played over and forgotten.

**Turns to Local Music**

Along toward the end of his 1921-1922 tour, John Phillip Sousa, with rehearsals a thing of the past and his six or eight programmes "set," turned, for the sake of keeping busy, to the task of compiling a brief catalogue or memorandum of what he calls "local music," meaning music whose appeal is largely local to a given community or district. For, as the American public well knows, Sousa is restless in his search for novel stunts in his programmes.

As he looked over the titles, the thought struck him that the famous Seventh Regiment possessed no regimental march—at least, none had come to the March-King's knowledge. He quietly asked some questions, to be told that the regiment has never owned a march of its own. Then John P., as he is known to millions, sat himself down at a piano, and at the end of an hour turned to his desk to put which is now, and will be forevermore, the march of the Seventh Regiment, N. G. N. Y. S. For the officers of the regiment, having heard the march, at once begged that the March-King give it to them for eternal use.

"The Gallant Seventh" will be but one of the novelties in the Sousa programme when he and his "Estimable Eighty," as a Chicago critic termed the band, play here on October 19 in the men's gymnasium. A Sousa program is ever new and ever old-new in the sense of the fact that each program contains its measure of real novelties, and old in the sense of the fact that no Sousa audience will permit a concert to reach its end without demanding the old favorites.

**PALMISTS MARVEL AT HANDS OF MACMILLEN**

Palmists throughout the country have been excited to a high pitch by their study of the hands of Mr. Francis Macmillen, the American violinist, who comes to this city on Nov. 14.

Macmillen's hands are said to be most marvelous. The fingers long and sinewy, are possessed of great strength. While of slight build himself, it is no unusual trick of Macmillen's to master persons many pounds heavier than himself, when it comes to a question of feats of strength for the hands and wrists.

These wonderful hands have enabled the Virtuoso to obtain a mastery of the technique of the violin such as had been for years the marvel of his admirers and the despair of his conferrers. He plays the most difficult passages with the same nonchalance as he would execute a simple version of Home, Sweet Home.

**SOCIETY PRESIDENTS WILL ARRANGE DATES OF FORENSIC MIXERS**

The mixers which will open the forensic work for the coming year are being planned for the middle of next week. The definite dates for each mixer will be arranged later by the presidents of the three literary societies; Harold Reed, Irving Institute; Vernon Sharpe, Zethagathian; and George Hurley, Philomathian; and they will be announced later. As to plans that are being made, nothing definitely could be obtained. For Irving Institute, Eddie Baker A2 of Iowa City will have charge of arrangements, and David Scott A4 of Emmetsburg will have charge of refreshments.

Much interest is centered on the

debates this year. In inter-collegiate there will be two triangular debates instead of one as last year. The debate with Illinois and Minnesota will be held on December 8, and the other with Nebraska and South Dakota comes on March 16th. The names of prospective debaters of Philomathian and Ir-

ving Institute have not been given out as yet. Zethagathian reports the following men as candidates: Alvin G. Keyes, A2 of Cedar Rapids; Max Livingston, A2 of Waterloo, Ernest G. Linder A2 of Oakland; Tyrrell Ingersoll A2 of Algona; Floyd O. Rack-

of Oelwein; Buel G. Boems A3 of Anamosa; Robert W. Cooper A3 of Newton; Charles C. Cornwell A3 of Independence; Kenneth M. Dunlap of Jefferson; Kenneth B. Welty L1 of Spirit Lake; Vernon Sharpe L1 of Rolfe; and Glenn F. Crey L2 of Marshalltown.
