POSTPONE FALL PROCESSION TO LAST OF WEEK

Annual Affair Will be Most Impressive of Year's Ceremonies Says Jessup

By Irma C. Reihman

The second annual University Procession planned for to-morrow morning has been postponed until the end of the week according to an announcement from Pres. Walter A. Jessup's office yesterday.

This is the second annual procession in the history of the University and probably will be the most impressive ritualistic ceremonial of the academic year.

Is Annual Event

Convocation has been an annual event at the University of Iowa for the past twenty years but the year 1921 saw the establishment of a new tradition that of the University procession.

"The sight of the whole University body gathered together in the bleachers at Iowa Field will be one that for solemnity and dignity will not be soon forgotten by anyone who sees it," President Jessup said when expressing his desire that all students should realize the dignity of the occasion.

Last year more than 5000 students formed in line according to the foundation of their respective colleges and their classification and led by the band and members of the military department marched from Old Capitol to Iowa Field there to await the coming of the 500 faculty members in their richly colored academic robes. Upon the seating of the student mass President Jessup gave his address of welcome embracing as a fitting subject the growth of the University from the mere handful numbering 124 to its present enrollment of more than 5000. Music was under the direction of Philip G. Clapp of the department of music and the entire assemblage joined in the singing of "Old Gold", "On Iowa" and "America."

Plans Not Complete

Although plans are not completed for this year it is expected that the line of march will follow that of last year. The University band, members of the college of applied science, dentistry, pharmacy, medicine, school of nursing, law, liberal arts, graduate college and faculty.

Classes will be suspended during the exercises. It is the belief of Prof. Charles H. Weller that the line of march will extend over a mile in length and provision will be made accordingly.

President Jessup will call a meeting of the committee in charge within a day or two when plans for the program will be completed.

Students who are entering the University of Iowa for the first time will be given an opportunity to witness an impressive and stupendous gathering of their fellow students and members of the faculty and be better able to understand the spirit that exists in the University of Iowa.

COAL PRICE BOOST BLAMED ON STRIKES; BOSTON HARD HIT

(By United News)

New York, Sept. 25—Coal price increases of from \$1 to \$6.50 a ton, due to the mine and rail strikes will be charged in many cities this winter, according to a survey by the United News.

The greatest boost in prices is noted in Boston, where bituminous coal which sold for \$8.50 to \$10 is now costing \$15 and \$16 a ton. Anthracite registers no change.

Appointment of state fuel administrative co-operating with secretary of state Hoover in taking action on profiteers has held down coal prices, most cities reported, and in many cases no increases above the present levels are expected.

Des Moines is one of several cities which reports like prospects of increased coal prices. However in this city, which depends almost entirely on Iowa coal, no anthracite is on hand, it is reported.

GILKEY ADVISES WELL-ROUNDED COLLEGE COURSE

The Rev. Charles Whitney Gilkey, the first vesper speaker for this year, delivered his address, "College Atmosphere," to a large audience Sunday afternoon at 4 o'clock in the natural science auditorium.

In his talk the Rev. Mr. Gilkey compared the college student of today in his search for an education, to the processes used by a tree to gain its food. Much is absorbed by the roots, yet still more is absorbed from the atmosphere by the leaves of the tree. The lecturer pointed out the necessity of a college student absorbing the most from the atmosphere about him to insure a well-rounded education.

TARIFF TO COST \$45 PER CAPITA

Democrats Feature New Bill in Campaign Text Book

By Clayton Whitehill (By United News)

Washington, Sept. 25—The new tariff according to democrats will cost the American consuming public more than \$5,080,000,000 annually or about \$45 per capita, and will give industry only about \$2,712,000,000 worth of protection.

This is the main point of attack on the administration party in the democratic campaign text book which has just been made public. The text book studiously avoids any mention of the League of Nations and of the foreign policy of the republican party in the present administration.

The republicans have not completed their senatorial campaign text book as yet.

Many Commodities Increase

An analysis of the figures presented by the democrats in criticism of republican tariff policies, reveals the following increases in important commodities from sugar to toys. The additional cost to the individual consumer is based on the grand totals on each staple commodity, average among 110,000,000 persons an individual increase of \$45 per person.

At this rate, democrats claim, the annual outlay of the average household for sugar will increase \$1.90; for meats and fish \$3.50; for woolen goods \$5.00 the democrats predict that men's woolen suits will cost at least from \$46 each more this Autumn than they cost last year and men's woolen overcoats will cost from \$5 to \$15. For hosiery and knitted goods \$5.25; for corsets \$0.55; for cotton manufactures \$5.50; for silks \$4.50; for glass ware \$0.60; for aluminum pots and pans \$0.40; for enamelled ware \$0.85; for bricks, tiles, terra cotta, etc., \$0.60; for electrical supplies \$5.25; for window glass \$0.65; for cutlery \$0.80; for structural iron—of interest to the home builders \$0.33; for sewing machines and parts \$0.30; and for toys \$0.20.

Democrats Fear Extra Profits

While the democrats admit that most of the household articles on which the tariff is unusually high are made in America and that the purpose is merely to keep out foreign competition, they contend that the American manufacturers will charge an extra profit on domestic goods nearly equal to the Paris duty on similar articles made abroad.

The new tax on fertilizers will cost the farmers of the country an individual expenditure of approximately \$1.25 annually if the farmers represent one-third of the total population of the country. They also predict that he will pay sixty-six and two-thirds per cent more for hand saws and cross cut saws; ten per cent more for hobs and wagon blocks; fifty-five per cent more for harness hardware.

"Wheat flour formerly free, it to be taxed \$1.50 a barrel," they say, "and this grab of millions annually goes to the big millers and food speculators." The presidential powers clause of the new law, which authorizes the president to change rates as he sees fit and which is signalled out as an accomplishment by the republicans, was, in the opinion of Senator Underwood leading democratic tariff experts, pushing the bill in an effort to overcome the constitutional objection that only Congress has the power to levy and collect customs duty, and to assert that the president does not impose the new taxes on the people, and that he is merely following the legislative mandates of the Congress and therefore the Congress is writing the rates.

REGISTRATION TO SURPASS FORMER MARK

Colleges of Dentistry and Pharmacy Show Greatest Gain in Students

"It seems clear," stated Herbert C. Dorcas, University registrar, "that the number of students whose registration was completed Saturday night will materially outnumber the registration figures of one year ago. The exact total, however, is not yet available." Last year's mark was 5970.

Students Still Coming

The men's gymnasium still presents a busy appearance. Students late in registering, from whom a fine of two dollars for each day of delay began to be collected yesterday, and students filing petitions and re-arranging conflicting classes kept the registration authorities hard at work yesterday.

In the college of applied science, Dean William G. Raymond declared the present total of 384 engineers to be practically identical with last year's enrollment.

In the college of law, 215 have registered, a slight increase over last year's mark.

Tuition is Increased

The college of medicine reports the nearing of the 300 total, but, largely due to increased to non-resident tuition, this year's medics will not greatly outnumber last year's. The college of dentistry surpassed other records as enrollment mounts to 300. A freshman class of eighty far eclipses in number the class of fourteen of last year. In the college of pharmacy, the 103 entered is nineteen better than any previous enrollment.

Every indication points to the largest total registration in the history of the university.

INJUNCTION APPEAL PLAN LAID BEFORE JUDGE WILKERSON

(By United News)

Chicago, Sept. 25—A plan whereby the restraining injunction procured by the government against striking shopmen can be appealed at once to the United States supreme court was presented to Judge Wilkerson by attorney Donald R. Richberg, chief counsel for the leaders of the shopcrafts union.

The court had issued the drastic injunction orders in the form asked by attorney Daugherty to which Richberg had reiterated his contention that the injunction is in violation of the constitutional rights of the defendants and disregards the fundamentals of the system of laws.

Uses 1903 Precedent

Richberg's plan for an immediate appeal to the highest courts in the land was based on a precedent established in 1903, and called first for the filing of a certificate by Attorney General Daugherty stating that the case is of supreme public importance. This certificate, if filed, would give the injunction precedence over all other business before the court. Richberg told the court the plan would expedite a final decision by many months and would also save the shopmen a great deal of money.

Wilkerson Denies Power

Judge Wilkerson said he had no power to expedite the hearing as suggested, but assistant solicitor Blackburn Esterline announced that he would communicate with Daugherty at once. Meanwhile the representative of the fifteen thousand railroad signalmen were arguing their petition for a wage increase before the railroad labor board. D. W. Helt, president of the signalmen's union had charge of the presentation of their case, which differed little from that contained in the argument of the signalmen before the board last spring, except in the added assertion that the cost of living had increased since July 1st when the Board reduced the wage of the signalmen by 5 and 6 cents an hour.

John G. Walber, representing Eastern railroads, is expected to begin the railroad argument against an increase Tuesday. The hearing it is believed will be finished by Thursday.

WOODCHOPPER INJURED WHEN HIT BY AUTO

Neal Knutesen Taken to University Hospital; May be Seriously Hurt, Claim

Neal Knutesen, a woodchopper living in the east part of the city, was run over and severely injured by a car driven by Mrs. Sarah Hanley of 314 South Dubuque street at the intersection of Dubuque and College streets yesterday afternoon. Mr. Knutesen was promptly taken to the University hospital for medical attention, as he was severely cut about the face and possibly injured internally.

Observers claim that Mrs. Hanley was not to blame as her attention was drawn by an approaching car when she struck Knutesen whom they said was cutting the corner.

ENGINEERS WILL EAT, DRINK, AND BE MERRY AT MIXER TOMORROW

President Walter A. Jessup, Dean William G. Raymond, Track Coach George T. Bresnahan, and William A. Turner S4 of Des Moines, president of the Association of Students of Applied Science, will speak at the mixer for engineering students at the men's gymnasium at 7 o'clock tomorrow night.

To help furnish the good time that is promised to all there will be radio music and plenty of pop, apples, and kolaches. The committee of arrangements includes Prof. Frederic G. Higbee, Prof. Andrew H. Holt, and Prof. Earle L. Waterman.

FIRST DAY SALE OF FRIVOL PASSES THOUSAND MARK

Over one thousand copies of Frivol, University humorous magazine, were sold yesterday, according to Reginald O. Mars, business manager. This was the first time Frivol has been on sale on the opening day of school and the plan proved to be a success. Quite a few subscriptions were taken, mainly because people realized the benefit of getting all seven issues at reduced rates. Frivol will be on sale at the bookstores and at the stand at the south-east corner of the campus for the next few days in an effort to get still more subscribers.

HOLD TRYOUTS FOR FIRST PLAY TODAY

Tryouts for the first University theatre production, a George M. Cohan play entitled "Seven Keys to Bald Pate", will be held in the University theatre at 4:30 today.

"Seven Keys to Baldpate" which will be produced October 26, by the University Players is based on the novel by that name written by Earl der Biggers.

The cast of nine characters will afford the University players an opportunity to uphold the high standard that the University theatre has achieved the past year. Only players are to tryout, but with all members from which to select the cast should be composed of the best the University theatre has to offer. Some who have not had an opportunity to appear before the University public will be given their chance at tryouts. Five men and four women characters constitute the well balanced cast.

The cast for tryouts consist of the following characters: Elijah Quimby, a caretaker of Baldpate; Mrs. Quimby, his wife; William Hollowell Magee, a novelist; John Bland, the millionaire's right hand man; Mary Norton, newspaper reporter; Mrs. Rhodes, a charming widow; Peters, the Hermit of Baldpate; Myra Thornhill, a blackmailer; and Lou Max, the mayor's man "Friday."

GIANTS BEAT CARDS, CLINCHING PENNANT

(By United News)

New York, Sept. 25—The New York Giants GMonday won the National league pennant when they defeated St. Louis in a ten inning game 5 to 4.

VIZIER'S RESIGNATION PRESAGES OVERTHROW OF TURKISH SULTAN

(By United News)

London, Sept. 25—The grand vizier, the foreign minister, and other members of the Turkish government at Constantinople have resigned according to an Exchange Telegraph despatch. The early fall of the Sultan is threatened and reports indicate that a nationalist government will be formed.

GET OUT OF SMYRNA BY OCTOBER 1, TURKS TELL U.S. AND ALLIES

(By United News)

Paris, Sept. 25—Turkish authorities at Smyrna have given the allies and the United States until October 1 to evacuate the 50,000 refugees there, officials of the Near East relief advised the United News by wire Monday.

Those remaining will be deported. All men between the ages of 18 and 45 have been taken to the interior by the Turks, it was said.

CLAIM GREEKS AS WAR PRISONERS

Plan Rescue of Refugees; General Massacre is Rumored

(By United News)

Athens, Sept. 25—Kemalist authorities at Smyrna are reported to have issued an order declaring all Greeks and Armenians between the ages of 18 and 45 prisoners of war.

Those who served with the Greek army will be shot and all others, including women and children will evacuate Asia Minor before September 30.

Will Attempt Rescue

(By United News)

Geneva, Sept. 25—Steps to rescue the Greek and Armenian refugees in Smyrna were taken by the League of Nations following word from London that the British Government hears the Turks are planning a general massacre for September 30.

The League organization at Constantinople has been ordered to do everything possible to save the refugees. An appeal for funds was addressed to all governments.

Efforts will be made to take the refugees to some of the islands near Smyrna before Saturday and the League will endeavor to feed the victims until permanent arrangements can be made. The Persian delegation offered its services as an intermediary between the League and the Turk. These steps were taken after Lord Balfour had appealed for immediate action and informed the assembly of the fears entertained by the British foreign office.

Balfour said he had been advised that a great catastrophe is facing the thousands of Greeks and Armenians and other refugees in Smyrna.

His government he said, had requested that a world wide appeal be launched through the League for adequate transportation for the refugees and for food supplies.

England, Balfour added, was ready to contribute 50,000 pounds towards relief measures.

AMERICAN SWIMMER STARTS CHANNEL TRIP

(By United News)

Boulogne, France, Sept. 25—The American distance swimmer Patterson, started to swim the channel to England at 3:50 o'clock Monday afternoon taking off at Lavitrg near Griz Nez. The sea was calm. He is accompanied by a tug.

NO IOWANS ON MONDAY

The business and editorial offices of the Daily Iowan were swamped Monday with subscribers who wanted to know why they hadn't received their copy of the Iowan for Monday. For the benefit of those who didn't call, the staff of the Iowan wishes to announce that no paper is delivered Monday morning.

Sunday is the one day of the week that the editors, reporters and business staff rest or rather prepare for the coming week.

BRITIAN READY TO ADMIT TURK TO CONFERENCE

France Must Concur; all Signs Point to Turk Acceptance of Allied Offer

By Ralph H. Hurner

United News Staff Correspondent London, Sept. 25—Great Britain is willing to admit Soviet Russia to the forthcoming Near East peace conference at Venice, provided France concurs.

This decision was reached by the Cabinet at hearing a full report on the recent Paris negotiations from Lord Curzon, foreign minister, it was learned. Bulgaria probably will be represented at the conference also if Russia is admitted.

Komal has steadfastly insisted that Russia, at least, be allowed to participate in the Near East settlement. Russia has threatened to refuse to recognize any disposition of the Dardanelles unless she participated in the fixing of the conditions.

Great Britain Hopeful

Semi-officially Great Britain is hopeful over the Near East outlook. It is believed here that Kemal will accept the allied terms through he is expected to first attempt some bargaining before finally yielding. Great Britain, however, is taking no chances on a refusal or a sudden breaking up of the conference. She continues sending troops to the Near East and she will keep them there until a peace is satisfactorily concluded.

Allied Terms Favorable

Hamid Bey, the Kemalist representative at Constantinople, is reported by the Daily Express as regarding the allied terms favorably. The correspondent adds that the Angora Government will accept the allied note as the basis for discussion although it will object to some details such as the provision for demilitarization of the Sea of Marmora. This the Turk believed would make the protection of Constantinople more difficult.

(By United News)

Constantinople, Sept. 25—All signs here indicate that the Turks will accept the invitation to attend the Near East peace conference on the basis of the allied terms, although they are expected to offer objections and reservations for the purpose of bargaining.

The Turks are not likely to prolong the negotiations as they suspect the allies of a desire to gain time in order to increase the reinforcements which they are sending to the Near East.

Constantinople Rejoices

Rejoicing was widespread in the Turkish sections when the meaning of the allied terms was realized. Crowds of Turks paraded through the streets waving flags and shouting Newspapers printed pictures of Adrianople with huge steamer headlines such as "Our beloved Adrianople which will soon be ours again."

The nerve tension among the foreign inhabitants continues, and disorders are feared. Wives of British, American, French and Italian residents here have lived all week with their trunks packed ready to rush aboard a steamer at a moment's notice of danger. Many are trying to get out of the city at once. A number of British families left Monday.

ATHLETIC YEAR BOOK SALES EXPECTED TO BREAK ALL RECORDS

With 2000 athletic year books already sold, the athletic department of the University in a statement made yesterday said that 4000 books would be the goal set for this year.

The great interest of the students in athletics this year is responsible for the high mark set by the board. 3300 year books were disposed of last year, which broke records up to that time, and the early impetus which has been given to the movement this year leads Coach Howard H. Jones, athletic director, to believe that this year's sale will top that of last.

The Weather

Clear today, with slightly warmer winds from the southeast. Increasing coldness tomorrow, which will probably be followed by a light frost.

LECTURE CLOSES FROSH INITIATION

Gilkey Advises Freshmen as to Their Life at College

Green caps, new and conspicuous collected themselves on the University campus in front of the natural science building yesterday afternoon as 4 o'clock drew near. On the hour expectant freshmen crowded the doors and hurried up stairs to their first freshmen lectures.

One green freshman was heard to say "I wonder if he'll tell us how to part our hair." Others knew just about as much concerning this new and required course. Girls, wholly as green without this becoming headgear, strolled here and there with numerous books under their arms waiting for the coming lecture.

On the inside of the building the

noisy buzz and clapping of hands told all—just freshmen. Balcony and back seats quickly filled, everyone seeming to think that the farther from the speaker the better.

George F. Kay, dean of the liberal arts college welcomed his large "family" and stated that henceforward the men would meet Monday afternoons at 4 p. m. in the men's gymnasium and the women on Tuesday afternoons in the women's gymnasium. He then introduced the Rev. C. W. Gilkey of the University of Chicago.

The Rev. Mr. Gilkey tried to make the first year students feel good by telling them that in Chicago the green cap wearers have a great social distinction. They are allowed to make fools of themselves without rebuke because they have their freshman badge. He compared the switch of a railroad to the critical point of everyone's life, and designated the first years of college life as that point. His talk was based on what he wished he had been told when he was a freshman at an eastern university.

He presented two issues: personal responsibility, and use of time. While in high school the responsibility rested with the teacher, the parents and others but here in the University the responsibility rests squarely on the shoulders of the man or woman. "Our responsibility," he said, "is so great that whether we turn the right switch of life or not is up to us and not others! Time has come now for self responsibility. The thin edges of critical points in life are never lighted or labeled.

"The correct use of time is one of the main factors in determining our success or failure in college. One of the greatest dangers of a fraternity is the temptation to loaf instead of working. You must make the most of twenty-four hours doing the most important things first. Don't fall in an abyss of fate or a swamp of mediocrity. Do the right thing as you see it. Have the brains plus the grit when the switch comes up to take it."

The Rev. Mr. Gilkey's lecture conveyed some real thought and was well taken by the new students. Dean Kay then announced that on next Saturday morning at 8 o'clock the men would meet in the men's and the women in the women's gymnasiums for an intelligence examination. No one is excused from this test. He then excused the class and thus ended the first day of college for our new freshmen.

government. At present Professor Horack is in Los Angeles, Calif. He has been connected with the University for about twenty years. During this period besides his work in the classroom he has written a number of monographs in political science. In the forthcoming numbers of the American Academy he will have an article on "Primary Elections in Iowa."

Y. W. C. A. BEGINS CAMPUS WORK

Employment Bureau Offers Aid to Women Desiring Work for the Year

With the opening of the university the various departments of the Y. W. C. A. have resumed their activities on the campus. If you are lonesome for the cabinet plans to broaden even further the field of activity among women a friendly chat, want advice, or seek work call at the Y. W. office and Miss Alvilda Buck, general association secretary, will welcome you.

The social service department is soliciting women interested in teaching or entertaining children at the Perkin's hospital and employment bureau offers opportunities to those desiring employment. Daily calls come to the office for stenographers, help to dust, iron, wash dishes, or stay with children. Those interested in further details concerning this department should call at the office.

The religious education department co-operates with the city churches. Bible study courses are offered through the churches.

There is no membership fee nor defined qualification for membership. Voluntary pledges used to cover general expenses are acceptable during the year.

New girls are especially invited to use the club rooms 117 liberal arts building. Current magazines and good books are available.

3 SOCIETIES HOLD MIXERS THIS WEEK

Zetagathian, Philomathean and Irving Give Stag Parties at Close Hall

The three men's literary societies, Zetagathian, Philomathean, and Irving Institute, have completed plans for the mixers which are to open the forsenic year. The Zetagathians will give a stag mixer tonight at close hall at 8 p. m.; the Philomathean stag will be held Wednesday night, September 27; and Irving Institute will give a like affair on the night following. Every University man interested in forsenics is invited to these mixers.

Vernon L. Sharpe, LI of Rolfe, president of the Zetagathian society, defining the purpose of the Zet mixer tonight, said, "We want to meet the new men and the old, and we want them to meet us. The literary society has a definite place on the Iowa campus, and we want every man interested in social mixing, dramatics, debate, and oratory to come. At the stag mixer, the fellows can get together, meet each other, hear some good music and talks, have something to eat, and at the same time the society can size up the men who may later become pledge members. Interest in forsenic work is the sole standard by which we judge them. Every university student will be welcome tonight."

"SPARTACUS" WILL BE SHOWN TONIGHT

Ullman Praises Historical Film Under Auspices of the Classical Club

"Spartacus," the historical feature film, will be shown to-night under the auspices of the Classical club, an organization composed of Latin and Greek students. There will also be a burlesque on Julius Caesar entitled "Friends, Romans, and Leo."

Have Shown Other Pictures The Classical club has sponsored numerous motion pictures since its organi-

zation. Two years ago "Julius Caesar" was shown with great success. Last year members of the club sold tickets for "Theodora" and other movies. "Spartacus" was shown here last spring to the Iowa Latin teachers' conference. Through the courtesy of the producer George Kleine the film has been made available to Latin teachers at reduced rates, and many who saw it last spring have taken advantage of the low price and sent for it.

Plan Special Music Several high school students and teachers from Iowa City and nearby towns are planning to attend the showing of the film here tonight. However, the film is not only for high school students and Latin teachers, "but for everyone who wishes to see a good motion picture for twenty-five cents. The picture will be shown at the natural science auditorium tonight at 7:30 o'clock. Arrangements are being made for special music by a five piece orchestra.

"Students should not miss this opportunity of seeing a first-class film, not only interesting and exciting, but also of historical value. It gives a fine background for a study of Roman history and Roman life," said Dr. Berthold Ullman head of the Latin and Greek departments.

FIRST IMPRESSIONS ENCOURAGE FRESHMAN

Freshman, attending classes at the University today for the first time, as a whole had little difficulty in locating class rooms and are getting started in their class work in good shape. Some students however, were forced to apply for directions, and a few were completely lost.

Like The Work The new men who were questioned all stated that they expected a successful year in their courses and that they would like the work.

"Better than farming," was the opinion of Orville Johnson after attending classes in the University the first day. He believes that he is going to enjoy his work here. He had no difficulty in locating his class rooms, and was favorably impressed, he stated, by the program of work as outlined by the various professors.

Incorrect pronunciation of his name is causing one freshman considerable mental anguish and he desires that certain members of the faculty "be listed for executive." Aside from this, he says that he expects to be amply rewarded for his struggles in registering last week. He has located all class rooms, he says, and as yet has not been lost in the city.

Thinks Rooms Hidden John Morse is working hard at chemical engineering, and says that he intends to continue to do so. His greatest difficulty was experienced, he states, in locating the class rooms in the various buildings. He claims that they are all well hidden.

Maurice McMahon is another freshman whose difficulty is in locating class rooms. He is finding his course agreeable and stated that he does not expect to be taking conditional examinations next year.

Lawrence Blanch is confident that he will come through his course with flying colors and is not finding it "any harder than high school," he said. When asked whether early impressions were favorable, he said "I guess I'll have to like it."

FIRST RADIO CONCERT GIVEN LAST NIGHT BY ENGINEERING COLLEGE

The first radio concert of the year was held in the radio room in the north end of the basement of the physics building last night.

Recently new equipment has been added to the station to such an extent that concerts, lectures, and various other programs can be successfully broadcasted for a distance of 500 miles. The radio laboratory is now arranged in the engineering building where a new 200 watt sending set has been installed. It will be a month before the rooms are finished.

Every night, except Saturday and Sunday evenings, programs will be sent out from 8 to 8:30 p. m. Last evening registration data and football news were broadcasted. To-night Prof. A. H. Ford will give a lecture on "Adjustments of Automobile Headlights." On Wednesday evening the electrical department has arranged to receive a concert during the engineer's reception at the men's gymnasium. The program will probably be one from Davenport. Although no definite program has been arranged for the year yet, Professor Ford says that lectures will be broadcasted every Monday and Friday. Musical programs from the University classes will be sent out every Wednesday evening and on Sundays church services from the Congregational church will be sent out at 10:45 a. m. and vesper services at 4 p. m.

On some evenings when the station receives, it is the intention of the operators to use a loud speaker on the campus. The University call is "WHAA."

HANDBOOKS PROVE TO BE ASSETS TO NEW STUDENTS ON CAMPUS

The University of Iowa handbooks have saved this year's freshmen many embarrassing blunders, according to reports from a number entering college for the first time. These little booklets contain in themselves much information about school traditions, organizations, athletics, songs, yells, and church memoranda.

"Four hundred of them were sent out free by the Y. W. C. A. and nearly 775 were given away by the Y. M. C. A. to the freshmen who mailed in their high school credits before August 20. The Newman club paid one-third the expense." This statement given out by Melba Carpenter A3 of Iowa City of the local Y. W. C. A. and Rufus H. Fitzgerald, secretary of the Y. M. C. A. here in Iowa City.

ANNOUNCEMENTS

The University P. E. O. invites all members registered in the University to affiliate with the organization.

Will you co-operate by calling Red 482 as soon as possible? Marjorie Graham, president.

Kappa Phi will hold its regular business meeting Wednesday September 27 at 7 o'clock in the Methodist church parlors. All members are requested to be present. Salome Fisher, president.

All members of the University players are required to try out for "Seven Keys to Bald Pate," at 4:30 o'clock today in the University theatre. Gregory Foley, president.

Girl Scout and Camp Fire leaders will meet at Scout headquarters, 2 N. Clinton St., Tuesday evening at 7 o'clock. All girls interested in either Girl Scout or Camp Fire work are invited to attend this meeting. Mrs. R. E. Kany, Girl's director.

COAL SHORTAGE WILL NOT AFFECT UNIVERSITY

"The plans of the University for the coming year will in no way be affected by the coal shortage," says Mr. J. M. Fiske, superintendent of ground and buildings. Unless something unforeseen happens there will be no danger of classes being suspended because of the lack of coal.

IS NOT MERELY A NICE SOUNDING PHRASE,— IT IS ONE OF THE DEFINITE AND REAL THINGS THAT MAKE THIS BUSINESS STAND OUT FROM THAT OF THE AVERAGE CLOTHIER AND IS ONE OF THE BIG REASONS WHY WE ARE MAKING SO MANY MORE NEW CUSTOMERS.

There Are More NEW ARRIVALS New Dresses, Suits, Coats, Sweaters, Etc.

Smartly dressed young women know how distinctive it is to be first with the New Fashions. These new garments are a revelation. You must see them. They're very choice.

Our expert Saleswoman will be delighted to show you.

Embroidery Trims Tailored Frocks---

No question about Street Frocks being a prominent mode this Fall. It's partly because they costume one so smartly and serviceable for all times of day, but also because they are just good to look at like those of fine Poiret Twill with fine hand embroidery and draped in that new bewitching way.

The bright contrasting color that is used so generously this season for trimming adds smartness that you will like.

It will be a pleasure to have you call and slip into a few of them when passing the store.

"The Shop With the Campus Spirit"

Yes! Writing without effort!

What George S. Parker has achieved for students with the 25-Year Duofold

THIS lacquer-red pen with jet black tips is not only handsomer than gold—it's a perfect classmate for the college man or girl.

Better penmanship for every one—without effort or fatigue—on any paper—at study, at classes or at lectures.

Mr. Parker achieved it by producing a native Iridium point as smooth and life-enduring as a jewel bearing, and a leak-proof barrel with a grip that is balanced with scientific precision and symmetry.

Such perfect poise and super-smoothness in writing relieves the nerves of tension. The Duofold glides under your subconscious direction of its own balanced weight!

You think of only what you're writing—not how. So your thoughts come easier, clearer, more composed.

We will let you have the Duofold for 30 days to demonstrate. You'll never be content to write the old way after that. Even before they tried this 25-Year point, 62 men in 100 chose the Duofold for its classic beauty and balance from a tray of assorted pens. Its popularity has never been equalled.

Oversize Duofold—a real HE Pen holds a double ration of ink, \$7. Duofold Jr. and Lady Duofold at \$5 are like it in everything save size. Come in and try the points—extra fine, fine, medium, coarse and stub. Students are always welcome here.

Parker Duofold

The 25 Year Pen

OVER-SIZE \$7

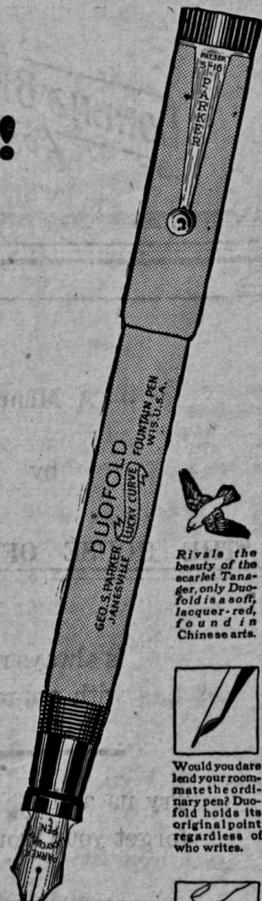

Duofold Jr. 65 Same except for size

Lady Duofold 65 Handbag size with gold ring for chateleine

EMIL L. BOERNER I. FUIKS IOWA SUPPLY CO.

KEITH & MCHESNEY FRED RACINE JOHN T. RIES

H. B. SHILBY CO. W. E. SHRADEB YETTERS DRY GOODS

Rivals the beauty of the scarlet Tanager, only Duofold is a soft, lacquer-red, found in Chinese arts.

Would you dare lend your roommate the ordinary pen? Duofold holds its original point regardless of who writes.

Press the button and Duofold drinks its fill. No pump—no lever to catch on clothing and spill ink.

Latest Sports News of University and Conference

BARRY ARRIVES; WILL SUCCEED COACH ASHMORE

Resigns Directorship at Knox to Coach Baseball and Basketball at Iowa

J. M. Barry, Iowa's new basketball and baseball coach arrived in Iowa City last night. Barry, whose appointment though widely circulated was never officially announced by the board in control of athletics, has for the past four years been coaching at Knox college, at Galesburg, Ill. He had just been made director of athletics when he resigned to accept the place left vacant by the resignation of James N. Ashmore who left to become athletic director at De Pauw university.

Won Letters at Lawrence

He attended Lawrence college, Appleton, Wis., in 1911 and 1912 winning letters in football, basketball, and baseball both years. Lawrence won the football championship of the Wisconsin conference during both the years that he was on the team. During the summer of 1913 he played professional baseball with the Appleton team in the Wisconsin-Illinois league. Afterwards, he attended the University of Wisconsin for a year. For several years he coached at the Madison Wis. high school, leaving when he went to Knox.

During the period of his work at Knox he has produced teams that ranked well with any in the "Little 19", an organization of Illinois colleges. In fact, his basketball teams have more than once taken the measure of the teams of some of the Big Ten universities. During the past winter,

he took his team East playing a large number of games and winning more than their share of the contests.

Team Played With Cardinals

For several years Knox basketball teams have journeyed to Madison and played a series of early season games with the Cardinal teams. These games have made him familiar with the Wisconsin short-pass game as taught by Dr. Meanwell, and Iowa teams in the future will probably use a modified type of the Wisconsin offense.

Besides coaching basketball and baseball, Coach "Sam" Barry will assist Coach Howard H. Jones with the football team.

There will probably be no fall baseball practice this year, according to Coach Barry, who said that most of his time would be given to aiding with the football team. He intimated, however, that basketball practice would start fairly early this year. At first this practice will be confined to two nights a week, but as the season advances it will soon develop into daily workouts.

GYMNASTIC TEAM HAS GOOD PROSPECTS FOR COMING YEAR'S WORK

"Prospects for a good gymnastic team are very bright this year," said Coach Harold E. Briceland of the department of physical education for men. All the members of last year's team are back with the exception of Robert Leimer who graduated last June. G. W. Tompkins, a member of the 1920-1921 team, has returned to school and will undoubtedly earn a place on the squad.

A gymnastic meet has been scheduled for Illinois at Urbana and, without doubt, the team will be sent to the conference meet at Ohio State.

The following men have returned: Capt. Thomas P. Treynor M4, Iowa City; Ed F. Kohrs, M2, Davenport; Albert Sindelar C4, Cedar Rapids, G. W. Tompkins, A4 Garrison, L. H. Kelly, A3, Walla Walla, Wash.; J. W. Blay-

ley, A2 of Des Moines, D. F. Bray, A3, Burnside, Ill., L. J. Bailey A3 Marion, L. A. Meder D2, Elkader, G. E. Cummings A2, Wapello, C. A. Nicoll, A3, Clinton; M. L. Mills A3, Muscatine, and H. J. Van Olst A2, Iowa City.

CLASS IN WRESTLING WILL BE ORGANIZED EARLY THIS SEASON

Mike Howard, wrestling coach of the University, who will return in November to take charge of the wrestling team for this year will find his men already in the process of getting in condition. Advice from Ernest G. Schroeder, director of physical education for men, stated that regular classes in wrestling would start in about a month, and that the men out for the team would probably begin their work about that time.

Heretofore it has been the custom at Iowa to postpone the real work on the mat until later in the year. This is thought to be one of the reasons why the wrestling team was slow to get started, and this year it is hoped by reason of the earlier practice to be in the best of condition for the first match. By giving the men a longer time, they can have more time to get into condition and will not have to rush their work.

Sweeney, captain of last year, Vana 125 pounds and Hunter light heavy-weight have been lost to the team. Of the regulars, Johnny Heldt, will be seen in the heavyweight division, Pfeffer in the 115 pound class and James in the 158 pound class. Men who are expected to take the places of those who graduated are Barnes, Trickey, Thom, and Jacobson. The latter had some experience last year.

The captain of this year's team will probably be picked during the next month.

SLATER UPHOLDS REPUTATION MADE AS HAWKEYE STAR

"Duke" Slater, former Iowa tackle, lived up to his reputation as the greatest football tackle in the West last Sunday when the Rock Island Independents played the Moline Indians, another independent team. According to paper reports of the game Slater playing right tackle for the Independents ripped great holes in the line of the opponents whenever the Rock Island team had the ball. On defense he was a stone wall, stopping every play directed against his side of the line.

COACH GLENN DEVINE AT PARSONS HAS WEALTH OF HUSKY MATERIAL

So many men reported to Glenn Devine, member of the Hawkeye championship eleven, who is now a coach at Parsons college, that he ran out of suits and had to put off a number of promising candidates. Over thirty men are already working out in preparation for the game with Grinnell on September 30, and this number will be increased as soon as Coach Devine is able to outfit them.

Several of the men who are now working out are veterans of former years and one of them is an excellent punter. Great results are expected from these men and from some new candidates who have reported.

WILL NOT ALLOW CUT RATES FOR TRIP TO NEW HAVEN IS RULING

All hopes for a reduced rate to New Haven for the Yale-Iowa football game seem to have disappeared. The latest information that can be obtained is to the effect that there will be no reduction. Mr. Dyas of the New York Central lines and Mr. Harry Broene of the Rock Island line who have been working for reduced rates for the last three months are both of the opinion that the present rates will stand.

"There is very little chance that we will be able to get reduced rates," said Mr. Dyas last night. "As far back as April I received a letter stating that there would be no change in fares and I have received nothing to the contrary since that time."

PHYSICAL TRAINING STARTS OCTOBER 2

"All classes in physical training will begin October 2," stated Ernest G. Schroeder, director of physical education for men. All men registered for physical training must report. This includes freshmen football men. Those going out for the freshman team will be transferred to the football squad later.

FOOTBALL WORKOUT SHOWS BAD FAULTS

Fumbles, Poor Forward Passing, and Many Injured Men Make Varsity Look Weak

Stiff and sore from the hard scrimmage last Saturday the football squad went through a long warming up on Iowa Field yesterday afternoon before the real workouts started. Several of the men have had "charley horses", particularly Hancock the big end. Thompson and Engeldinger, varsity tackles have bad hands, while Jaqua, sub fullback, broke a rib in the scrimmage last Thursday and was out last night for the first time since then.

Ends, halfbacks, and punters were given a good workout yesterday as Coach Howard H. Jones had the backs running back punts while the ends tried to prevent them from doing so. Many fumbles by the backfield men, and poor work by the ends who frequently allowed the runner to get on the outside marred this practice.

The varsity pass attack was unimpaired against a skeleton second team composed of ends and third string backfield men, and it worked fairly successfully against them. Although poor passing and fumbles were prevalent, a large percentage of the passes were completed. One or two passes were intercepted by the seconds in such a manner that they would have resulted in touchdowns against an opponent as the varsity was lax in protecting against interceptions. The Iowa team will undoubtedly depend upon an air attack against Yale, but it must be working smoother than it was last night if it is to be successful.

After the forward pass practice was over, the linemen went through their daily workout against the dummies, and then went through short signal practice before going in.

Hicks, who was injured Saturday, was hobbling around the field. While his knee is still bothering him, he seems to be recovering quickly and may be out again in a few weeks.

BRESNAHAN REQUIRES CANDIDATES FOR THE CROSS COUNTRY TEAM

"Opportunities to make the cross-country team have never been better," said Coach Bresnahan last night, "for there are only two men, Peterman and G. Ashton, from last year's

team that seem sure of places on this season's team. The other four places, in fact, all six places are open to men who will come out and fight for them."

About twenty men are at work under Coach Bresnahan's direction, but with the large number of vacancies that must be filled there is an opportunity for many men to win a place and fight for the cross country championship of the conference.

Iowa Failed in Meets

Up to a few years ago Iowa had hardly made a ripple in the annual conference cross country meet, although Ames had been well represented for a long time. Last year, the first Iowa team to attend a conference meet for a number of years ran at Bloomington, Ind. One man, Captain Bistine placed fourth, but the rest of the team were too far back to allow Iowa to place among the leaders.

"To win the conference meet is the ambition of Coach Bresnahan and he hopes to be able to do it this year. Iowa has had a conference champion football has had a track team that finished

second in the conference track meet, has had good basketball and baseball teams, but has never had a good cross-country team. In order to bring Iowa athletics up to the point where they should be, Iowa must finish first in a conference cross-country meet.

Need More Men

The number of men now working out is not as large as Coach Bresnahan would like to have. There is not enough competition. Several track men, including Noll and Morrow who will work out in order to strengthen themselves for the quarter and half mile and will probably not be used this fall, will work out with the cross-country runners.

The men who reported last night were: H. H. Murray, F. D. Gibson, N. A. Ashton, G. E. Snyder, J. H. Sheldon, C. C. Ashton, R. E. Foster, H. R. Phelps, W. Keppler, 440 yard dash man from the track team, E. R. Zacher, A. Mergy, A. H. Payne, W. C. Herman, W. R. Hunter, R. L. Toll, J. G. Farrell, I. A. Barnes, and L. M. Wolters. Among the freshmen were J. E. Van Ness and W. S. Shaler.

ALL REGULATIONS TO BE OBSERVED IN PRIVATE HOMES

Mrs. Adelaide Burge, dean of women, wishes the girls on the campus who are rooming in private homes to understand just why it is necessary to have social regulations in those homes here in the University. Many colleges and universities have room for all their girls in dormitories, thus eliminating the necessity of such rules, but in Iowa City about 230 are cared for in that way, beside a few hundreds in sororities. In order that they shall

be properly chaperoned and cared for, landladies listing their rooms with the Dean of Women sign cards, pledging to see that the University regulations are observed by the young women who lodge in their homes.

It is understood that these rooms are taken for at least an entire semester and all business arrangements are directly between the landladies and the young ladies concerned.

These rules have appeared in a former edition of the Iowan and have caused a great deal of concern especially among the freshman women. A list of the regulations is usually

posted but many times is not noticed enough by the girls to make a lasting impression. If the young women and their landladies cooperate in this matter, it would save a great deal of trouble, which is reported to the office of the Dean of Women from time to time.

Dean Burge says "I am very glad to have this brought before the girls through the Iowan, for if more of the girls appreciated the importance of these rules there would be a better understanding between them and their landladies."

WOMEN'S ASSOCIATION MAKES NEW PLANS

The Women's association has been attempting a change over their work last year. The sponsor system is one of their latest efforts to help university freshmen. Elizabeth Ensign A4 of Iowa City, who is in charge of the sponsor system, has been managing an information booth in co-operation with the Iowan staff and Staff and Circle in the library.

The point system is being developed by Margaret Avery A4 of Spencer and a special effort is being made to try to overstep the bounds.

Women's association in co-operation with Theta Sigma Phi, honorary journalistic sorority, has been conducting a sale of the Iowan. To date over 1000 subscriptions have been taken. It is the aim of the staff to reach a circulation of 1,500. A canvass will be made Tuesday, Wednesday, and Thursday. A booth will be provided in the north end of the liberal arts building for subscriptions.

Parties for University women will be held every month as last year. The sponsor party will precede the upper classmen tea, the nurses party, representative women's banquet, and co-ed hop which is given in co-ordination with the Y. W. C. A.

BARTOW, DELEGATE TO CHEMISTRY MEETING, RETURNS TO IOWA

Prof. Edward Bartow, head of the department of chemistry, has recently returned from a trip to Europe. The primary object of the visit was to attend the meeting of the International chemistry union at Lyons, France, as one of the six American delegates appointed by the national research council.

He also attended a meeting of the French industrial chemistry society at Marseilles, which was held during the French colonial exposition, giving an opportunity to attend the Exposition. Professor Bartow had an opportunity

to visit chemical laboratories in Liverpool, Birmingham, Manchester, Sheffield, London, Paris, Lyons, and Marseilles, and an opportunity to visit some of the more recent sewage disposal plants in England and France.

He also visited some of the battlefields and devastated regions including the Vosges, Verdun, Pont-a-Mousson, St. Mihiel salient, Dinant, Namur, Liege and Arras.

The professor returned in time to attend a meeting of the American chemical society at Pittsburg, Pa.

BIG THREE ENTER NEW AGREEMENT

A new agreement has been entered into between Harvard, Yale, and Princeton regulating the athletic policies of the three universities. This agreement which is to take effect January 1, requires that every man who participates in athletics shall sign a statement giving in detail the sources from which he secures financial support. This is expected to aid in abolishing, or at least reducing, the number of athletes at these institutions who are paid for that ability.

Another blow was aimed at the traveling athlete when in another section of the same agreement it was decided that no athlete who has competed for another institution against outside opponents shall be eligible to compete in either of the three universities.

Following in the lead of the conference the committees of the three Eastern institutions have decided that no post season games shall be played, nor long and expensive trips taken. The length of the training period was reduced so that practice will not start earlier than a week before the universities open.

If the rule against the traveling athlete were to go into force this fall instead of January, it would probably ban several good football players at each of the three universities. In particular, Fitts of Harvard, the best punter and passer on last year's team, who started his football career at Tufts college would be unable to play.

GREEN CAPS

Men of the class of 1926 will appear on the campus today with green caps. Some of them, naturally, are doubtful as to the advantage of wearing headgear of such a nature. A few will rebel against the ruling; some will resent it; and a great many more will accept the new top piece without reservation.

Freshmen are usually of the opinion that green caps are forced upon them as a vindictive measure by upperclassmen, especially sophomores or as another occasion for making sport of new and unsophisticated students. They are wrong. Green caps are not a retaliatory measure; they were adopted with a purpose of making the new men on the campus feel that they are a part of the University and to arouse a spirit of comradeship in the class of 1926.

Since it is impracticable to hold meetings where all the members of the freshmen class can get together and become acquainted, the little green caps offer the only means of recognition. In the past when the enrollment was so small that every man knew his classmates, such a measure might have been superfluous. But today with approximately 1000 freshman men on the campus, it is necessary to have some distinguishing mark and green caps serve the purpose admirably. If nothing else, a new man has something in common with 999 other freshmen.

The ruling will be enforced. It has the sanction of the social committee and of every social organization in the University. There will be no browbeating or hazing for they have been found unnecessary. Freshmen are requested to wear them to give proof of their loyalty to the class of 1926 and to the University.

THE NEW FRIVOL

There is little doubt that a comic magazine fills a real need in University life. Whether or not it is possible to keep its humor within the accepted tenets of good taste and at the same time make it of the sure-fire variety depends wholly upon the ability of the editors. And this is no small task. The cry started three year's ago for someone who could do this work, and carry on the University's humorous magazine after its originators had passed on, has been answered in the person of a woman, Miss Margaret Wilson, who holds the added distinction of being the only woman editor of a University humorous magazine probably in America.

The first issue of Frivol is commendable. The verse is clever, and the jokes, if not so subtle as those of former issues, nor of the guffaw-producing type, at least are pleasant reading. College humorists often because of their inability to produce clean humor, are forced to inject lascivious matter into their magazines to make them appeal to the student body, which, it might be added do not always have the highest tastes in regard to literature. A number of college magazines professedly "get by" for the sole reason of their risque nature.

Miss Wilson has succeeded in publishing a clean magazine and also one that is humorous. The art work of the first issue will compare favorably with that of any University magazine in the country. If any criticism of the "Fresh Fruit" number is in order, it might be suggested that it hasn't enough bearing on the University of Iowa; it should have more local characters and atmosphere in it.

Frivol is an official publication of the student body of the University. It is worthy of your support.

CONTEMPORARY OPINION (Daily Illini)

ROOM RENTS ARE DROPPING

Room rents are dropping. It may be due to a sudden kind-heartedness of Twin City landlords, or it may be due to the more material law of supply and demand. The fact remains, however, that new students who, it appeared, were to receive a cold reception at the hands of people from whom they had the right to expect a welcome are now more sure of fair treatment. Room-

ing house owners are just as important a factor in making the University a possibility as the faculty and the students themselves.

And the students, on the other hand, are the source of income for the rooming house owners. It seems odd, therefore, that certain of them should have resigns of the goose that lays the golden egg.

Each year it is the same—a sudden raising of rents at the start of the fall semester with a sudden dropping as soon as the practice is made known. It is obvious that altruism has little to do with the sudden change of mind. In the past it has been an annual practice with the same excuses, the same protests, the same action, and the same results. Sophomores and upperclassmen are little affected by it, as they generally have their rooms waiting for them. But the new students are the ones who suffer. They know nothing of Illinois except by its reputation; they little suspect that there are some people who would hurt that reputation, and when they discover the fact, they are surprised. Numbers of them have been known to turn back without going to the trouble of registering in courses when they realize that their time here is limited by a meager purse.

True enough, the enrollment on the campus is increasing each year, and it is probable that before long there will be a positive lack of sufficient odgings to accomodate everybody. This incidentally, adds further weight to the argument for dormitories. Supply and demand, evidently, has had something to do with the matter.

At the present, however, there are plenty of rooms in desirable locations, and no student is forced to pay exorbitant rents. The University Y. M. C. A. has a long list of available rooms, and Illinois Union representatives are waiting to guide the new men to these rooms. These guides are working under the supervision of another Union man who is directing an investigation of every room visited. If the price is higher than that listed in the Y hut, if the room is not in a sanitary condition, if it appears that it will be overcrowded, a report is made immediately. In this manner, the undesirable and too high-priced rooms can be located. These, in turn, will be taken from the list at the Y desk.

The Sounding Board

Last week, the brothers, remembering their company manners, said, "Please, pass the cream." Today, they are cussing the steward's thin milk.

Casually glancing at him gives you the impression that he is good looking. He stands six feet or so in his shoes; his shoulders are broad and strong; a fair physical example of what a good football player should look like.

It takes him longer to complete his toilet—if that's the word—than any man in the Y. M. C. A., where we used to live. He shaves the little hairs between his ears, etc., and fumbles with his face each morning as though he were a sculptor remoulding it.

He is vanity personified . . . and yet who is there to jest at him.
Poor devil, he is deaf and dumb.

From one vaudeville theatre came an act in which the principal gentleman stops the flow of blood in the arm of his helper, for what purpose, deponent knoweth not. Loud cheers when the act is over.

From another theatre came a Jewish boy, who plays the piano, and a burly, rather good looking Ass, who sings "Old Kentucky" much after the manner of jazz. Deafening applause and three encores.

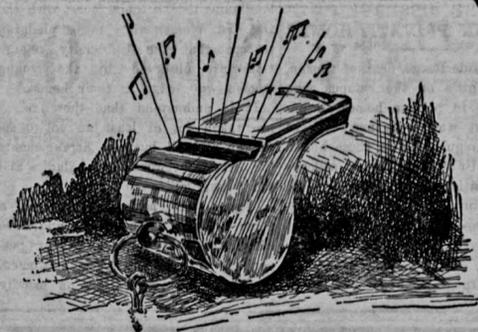

Comes then Mr. Guy Wiggins, whose speciality is painting. He pleads, not impassionately, for things aesthetic in Kansas City. When he bows off, the members of a prominent luncheon club clap feebly and rush for the door.

"My father has worked for the same factory twenty-two years and gets \$23.50 a week; my sister has worked for the same company four years and gets \$10. When I go to college I intend to have \$2,000 in the bank."

The boy works, in a large city in the Southwest from 4 a. m. until 10 p. m. and then attends school until 3 p. m. One can't get into college these days, he explains, until he completes the high school requirement.

He can solve his algebra and geometry like a whiz, but when it comes to Spanish, he's stuck. "I ain't had no English to speak of," he tells you, in explaining his troubles with that foreign language.

It's time the skirts were becoming longer. If they'd gone much higher, mere man would have been disillusioned altogether.

It will pay you to listen to this music

ALL over the country the whistle is blowing for the kick-off, the start of that great game—another college year.

Be on your toes when the whistle blows. A good start will carry you well on toward your goal.

Let the football candidate start by working away till his muscles ache from bucking the line.

Let the aspirant for manager put in careful study of his team's needs, always eager to help—arranging a trip or carrying a pail of water.

Let the publications man be alert for news and tireless in learning the details of editorial work.

Whatever activity you come out for, crowd a lot of energy into these early Fall days.

And if a good start helps win campus honors, it helps win class room honors, too. The sure way to be up in your work is to aim now for regularity at lectures, up-to-date note-books and particular attention to the early chapters of text-books, thus getting a grip on the basics.

This is best in the long run, and—selfishly—it is easiest in the long run. That is, if life after college is made easier by the things a bigger income can buy.

Have You Formed A Banking Connection

Every student should have a checking account, and should learn how to take care of it properly. This should be a part of his University education. It has become practically a universal custom to pay bills by check. The check serves as a legal receipt. The bank safeguards your funds and pays them out only on your written order. It undertakes to see that the orders paid are genuine, and if it inadvertently pays a forged check, it must make the amount good to the depositor. It furnishes the depositors with bank-book, check book and checks and at the end of the month furnishes a detailed statement with cancelled vouchers. Sooner or later every University man and every University woman will find it necessary to handle a checking account. Now is your best opportunity to learn to do it properly. Let us teach you.

What the Pledges Look Like

Many girls shivered yesterday morning because they didn't want to wear coats and cover up the new pledge pins. They wanted everyone to notice they had been pledged to some sorority the night before. If you don't know what sorority your friend pledged, you can recognize it by the tiny badge she wears just above her heart.

Achoth. Brown rectangle bordered in gold with the word Kochoy on it.

Alpha Chi Omega. Diamond, half red half green, with a gold lyre in the center.

Alpha Delta Pi. Silver bar with the Greek letters.

Alpha Tau Beta. Elliptical with black background and the Greek letters in gold.

Alpha Xi Delta. Elliptical with dark red background and the Greek letters in gold.

Alpha Gamma Phi. Black enamelled square with concave sides having a pearl on each side, and the gold letters in center.

Chi Omega. Dark red oblong with the Greek letters in gold.

Delta Delta Delta. Hollow silver triangle made up of three smaller triangles.

Delta Gamma. White shield with gold border and the letters Pi Alpha in the center.

Delta Zeta. Green diamond with a small Roman lamp.

Gamma Phi Beta. Red triangular shield with a gold crescent.

Iota Xi Epsilon. Gold oblong with the Greek letters.

Kappa Kappa Gamma. Small gold Delta.

Pi Beta Phi. Small gold arrow head with the letter Beta.

Kappa Omega. Gold diamond shaped with the letter K in center.

Iota Xi Epsilon

A background of white lattice work entwined with golden rod furnished the setting for the preferred party of Iota Xi Epsilon which took the form of a breakfast Saturday morning from 9 to 12 o'clock, at the chapter house. The dining tables were centered with baskets of golden rod and yellow candles. Favors were small corsages of mixed flowers.

Phi Kappa Sigma Pledges

Phi Kappa Sigma announces the pledging of David J. James, Colfax; John Hedges, Iowa City; Reed Hedges, Iowa City; Mark Cord, Danbury; Dean Vogel, Hartley; William Walters, McGregor; Ted Carlson, Belle Plaine; Vertie Bruce, Indianola; Richard Dalton, Iowa City; Richard Feister, Iowa City; Robert Heckel, Independence; William Goodman, Colfax; Harry Hoeye, Des Moines; Harvey Carter, Shell Rock.

MILITARY 1 O'CLOCKS START NEXT WEEK

"One o'clock classes in military training will not begin until next week," said Major Ray C. Hill, senior instructor yesterday.

The other classes will meet as usual in the armory and it is thought that by the end of the week all of the men in the department will have been issued clothing and rifles.

W. A. A. TO GIVE WELCOME PARTY

First Year Women Will be Entertained on October 4

Getting acquainted with your neighbor and changing that cool nod of recognition which you have probably been giving her to a cheery "hello,"—that is what you'll be doing if you attend the W. A. A. welcome party which is to be held Wednesday evening October 4, at the women's gymnasium.

The student board of directors of the athletic association has lost four members in this year's shuffle of registration. The vacancies on the board are to be filled Wednesday evening of this week at a special called election, and when the new incumbents are sworn into office plans for the mixer will be definitely arranged.

The "welcome party" is the initial fall social affair sponsored by the Women's athletic association and is a decided effort to interest first year and freshmen women in lines of athletic endeavor. The privileges which W. A. A. members may share will be revealed to the guests in a series of "pep" talks made by the officers of the organization. "I" sweater wearers will outline the route which leads to the ownership of these distinctive Iowa honor symbols.

Alternating with the series of talks will be a program of stunts and games. Miss Dorothy Brooks is committee chairman to arrange the evening's entertainment. In addition to the "mixer" features she has chosen to present a number of solo dances on the program.

While plans for the welcome party are being pushed with all possible speed, plans for the year's activities of the group are not being overlooked. The schedule of the girls athletic events, baseball games, basketball games, soccer, inter-class contests—is rapidly taking form and soon will be ready for publication.

NEW LEATHER-BOUND HANDBOOK ON SALE NOW AT Y. M. AND Y. W.

University of Iowa handbooks compiled by Y. W. C. A., Y. M. C. A. and Newman club representatives are now on sale to upperclassmen at twenty-five cents each. The handbooks may be secured either at Y. W. or Y. M. club rooms. During August these booklets were sent free of charge to freshmen enrolling in the University.

The handbook permanently bound in black leather has five main divisions: the University, organizations, athletics, churches, and calendar. There are brief explanations as to the University in general, location, scholarship, the seven colleges, museums, and libraries. Purposes and officers of the various organizations are published. The calendar contains several pages for daily memoranda.

The committee in charge is composed of Margaret Brady and Arnold Hand representing Newman club, Harold Read, editor, and Lorenz Wolters representing Y. M. C. A., and Melba Carpenter, associate editor, and Eleanor Williams representing Y. W. C. A.

BAND PRACTICE IS SCHEDULED FOR TODAY

Registration for the band has been progressing at the usual rate according to Prof. Orie E. Van Doren, band leader. With a large number of the players returning the band is expected to excel its performances in past years. Practice begins today at four-thirty for those who played in the band last year. The freshmen have their tryout tomorrow at the same hour.

NEW JERSEY PRIMARY BRINGS PROGRESSIVISM FORWARD AS ISSUE

(By United News)
Newark, N. J., Sept. 25—The primary election in New Jersey Tuesday brings forward again the issue of progressivism. Senator Frelinghuysen who is a candidate to succeed himself, is a regular old guard republican. George L. Record, who is opposing him is a "progressive" with decided views and has had progressive support.
The contest is in many ways similar to those in western states including Iowa and North Dakota, in which progressive candidates have been victorious. Frelinghuysen at the outset of the campaign was considered certain of reelection, but Record has been gaining and friends of Frelinghuysen are reported as somewhat worried.
Record for Government Ownership
Record advocates government owner-

ship of railroads, gas companies, street railways, coal lands, and utilities. He favors the excess profits taxes and other high taxes on the wealthy. He was actively associated with the progressive party under Roosevelt, and was instrumental in obtaining passage of some of the legislation it advocated. He condemned the Daugherty injunction and the seating of Senator Newberry.
Added interest attaches to the campaign because Frelinghuysen is a close personal friend of President Harding. Frelinghuysen was Harding's personal agent when the Bonus bill was sidetracked, when it looked as if it would go through the Senate without difficulty.
Recall Edwards' Slogan
The wet and dry issue comes to the front in New Jersey as well. Governor Edwards, the democratic candidate for the senatorial nomination is unopposed, so the real test on this issue will come in November. Edwards'

MEXICO CITY MAY BE NEW FATHERLAND FOR EXILED HUNS

(By United News)
Mexico City, Sept. 25—As Paris has become the refuge of the rich Russian aristocracy and nobility, so Mexico City may soon receive a colony of Germans of royal or noble blood. The Crown Prince in his exile in Holland, is said to be in communication with agents here directing them to find a dwelling for him which would be in accord with his old position as the Kaiser's first son.
The grand Duchess Anastasia of Mecklenberg, reputed to be one of the wealthiest women in Europe, has delegated that the Princess Paula Arkov, a resident of the local German colony find a mansion for her, intending to come here as soon as possible. The Grand Duchess is now living incognito in Europe, according to the Princess.
Various other Germans who managed to retain robust fortunes despite the economic crises in Germany are also interested in the colonization project.
