Plan To Form Entente; Kemal Evades Allied Issue

FINAL PLANS FOR PROCESSION ARE COMPLETED

Consider Formation for Parade; New Way of Choosing Committee

Final plans for the second University procession to be held Friday morning between 10 and 12 o'clock were completed at a meeting of fifty faculty members yesterday afternoon in the law building.

President Walter A. Jessup spoke briefly on the necessity of establishing this University procession as a fixed tradition at Iowa, and as something really distinctive; a ceremonial with which each academic year may be begun. If this can be done it will be one of the most spectacular events of the academic year, said President Jessup.

The formation of the students in their respective lines as outlined by Prof. Edward H. Lauer, chairman of the committee to be under the direction of various members of the military department, will be as follows:

Formation of Parade

University band at the intersection of Clinton and Davenport streets, liberal arts students, seniors and juniors on Davenport between Clinton and Dubuque streets, the seniors nearer Clinton street; sophomores on Davenport between Clinton and Capitol streets; freshmen on Clinton north of Davenport with men on the east and women on the west; law students on Bloomington between Clinton and Capitol streets; medical students on Bloomington between Clinton and Dubuque streets; nurses on Bloomington between Clinton and Dubuque streets following the medical students; dentists on Market between Clinton and Capitol; pharmacists on Market between Clinton and Dubuque streets; students of applied science on Market between Clinton and Dubuque streets following pharmacists; commerce on Jefferson between Clinton and Dubuque streets; students of the Graduate college on Jefferson between Clinton and Dubuque streets following commerce; employees on Jefferson between Clinton and Capitol; faculty (not in academic costume) on Jefferson between Clinton and Capitol following employees; faculty (in academic costume) before Old Capitol and move up to Jefferson and Clinton streets on the sidewalk.

Faculty in academic costume will march in column of twos. All others will march in column of fours. The heads of each college column are to meet on Clinton street opposite their column, and each college is to form with seniors first, juniors second, sophomores third and freshmen last.

When groups contain both men and women, the women are to march before the men. The general public will not be admitted to the field until after the students and faculty are all seated.

Whistle is Warning

If the weather is doubtful the blowing of the University whistle five minutes before the hour will be an indication that the procession will take place as scheduled.

The University band will assemble first in front of Whelstone's and march from there to their appointed place. In order to estimate the loyalty of the different student groups arrangements have been made to count all groups in the procession and compare these with figures from the registrar's office which will show the class with the largest representation.

Program Short

The program will be short and formal, comprising an address of welcome by President Jessup and a vocal selection, "The Lord is my Might" from Oley Speaks by Prof. Walter Leon of the school of music. Prof. Philip G. Clapp, head of the department of music will direct the singing of "Old Gold" and "America".

Tonight at 4 o'clock in room 105 law building, 124 members of a students committee will meet to devise

(Continued on page 4)

MEN LEAVE UNIVERSITY BECAUSE OF INABILITY TO FIND EMPLOYMENT

Men with excellent potential qualities have left the University during the past day or so because they were unable to find employment, Dean Robert E. Rienow stated yesterday.

At present there are no open positions on file in the office of Dean Rienow. Any one knowing of available work for students is urged to report the same to the office of the Dean of Men. Three men left the University because of the above difficulty.

HELLO! HELLO DAY COMES TOMORROW

President Jessup Will Speak at All-University Mixer in the Evening

Tomorrow is Hello Day, rain or shine, both sides of the street, all day. For purposes of getting acquainted and having a good time officials of the Y. M. C. A. and Y. W. C. A., the organizations sponsoring the celebration, predict that the day will make a Shriners' convention look like a crowd of democrats standing in the rain to get election returns from a strong republican state. The free all-University mixer at the new armory across the river at 7:30 in the evening with a speech by President Walter A. Jessup as the main attraction will bring the day to its official close.

Everybody on the campus on Hello Day wears a tag with his name and class on it all day and says, "Hello" to every fellow and sister tag wearer who passes within official hugging distance which is as far as the voice will carry. Besides President Jessup's speech the evening program includes a piano selection by Prof. Philip G. Clapp, singing by a male quartet, reading by Gregory Foley A4 of Rock Rapids, band music, University yells, and lots of what the committee calls "eats". An exhibition of club swinging may also be on the entertainment list.

A prize will be given to the first person to spell his own last name by getting the last name of a person present at the mixer for each letter of his own name. Men and women leaving the armory two by two will be given a souvenir of the occasion.

BULGARIA WILL REMAIN ALOOF, SAYS STANCIOFF

(By United News)

London, Sept. 27—Bulgaria will remain aloof from military activity in the Near East, Demitri Stancioff, Bulgarian minister to Great Britain told the United News in an exclusive interview. "Bulgaria is firmly resolved to avoid participation in any military action" said the ambassador, "not only because the country is practically disarmed but also because the new Bulgaria is an agricultural country, and does not wish to risk a repetition of her previous misfortunes."

Stancioff anticipated serious consequences from the abdication of King Constantine, but he declared that Bulgaria is not concerned with the internal politics of Greece.

The ambassador denied that his government is sympathetic to the restoration of Thrace to the Turks. On the contrary, he said, Bulgaria favors autonomy for Thrace, or possibly neutralization.

Stancioff's interview set at rest the conflicting reports of the position of Bulgaria. There had been many statements that if a new Balkan conflict develops the Bulgarians would ally themselves with the Kemalists.

HANDBOOKS ON SALE TODAY

Freshman handbooks will be on sale today at both entrances of the liberal arts building and at the main entrances of the professional college buildings.

NOBODY SHOWS UP TO DIRECT NEW ELECTION

Student Council is in a Muddle; Committee Not Appointed Last Year

Due to a reorganization of the student council last spring, nothing definite has as yet been given out in regard to the coming fall election. According to the new constitution an election committee was supposed to have been appointed by the student council. At present it looks doubtful that such a committee was appointed. If such is the case, then there is no definite head to take charge of the coming election.

Members of last year's council who are back in the University have no knowledge of such a committee being appointed. Roscoe Nash A4 of Tipton when asked concerning the appointment of a committee said, "I do not believe anything was done last spring in regard to an election committee. At the last meetings the constitution was amended so that the new council will be composed of representative men on the campus. I think that it is up to some person interested in the new council to call a meeting of that body."

May Have Been Formed

Mary A. Gunn A4 of Sioux City, was under the impression that such a committee was appointed but was unable to give the names of those on the committee.

The other members of the old council who are back this year are Ruth Van Law A4 of Marshalltown, William Carr L3 of Lamonte, Mo., Joseph Dignan S4 of Perry, and Donald Soper D4 of Ames. None of these were able to give any further information in regard to such an appointment.

The new student council has not as yet been organized. The failure on the part of the council to make arrangements for this year, leaves the date of the election and the method of conducting it undecided.

Hot Contest Expected

With old political machines being oiled up and new ones being organized, it looks as if the election this year would be hotly contested. The fraternity men have already begun to look about for possible candidates among their brothers. With the political agitation already started on the campus it would appear that something definite should soon be decided. If the student council neglected to appoint an election committee, then some other method must be found to handle the situation.

Last year the council handled the election in a satisfactory manner and were expected to do so again this year. This is one of the duties for which the student council was organized three years ago.

SLOAN INTENDS TO WRITE CRITICISM OF WORKS OF HARDY

"In the next year or so I intend to write a criticism on the works of Thomas Hardy," said Prof. Sam Sloan, who has just returned from abroad.

Professor Sloan left last June for England, France and Italy. The greater part of his time abroad he spent in the Wessex country, in the southern part of England, which has been made famous by Thomas Hardy, well-known novelist, who lives in Dorchester and whose works deal extensively with that country.

This is the third trip abroad for Professor Sloan, he having gone in 1913 and 1921. Both times he visited Wessex but never before did he make a complete study of it as on his last trip. In hunting his new material he often had to do extensive motoring as well as walking.

He visited Mr. Hardy several times and each time received much valuable help from him. Professor Sloan returned to this country early this month.

The Weather

For Southeastern Iowa: Warmer with rising temperature.

REVOLT COVERS GREECE; PRINCE PAUL IS HELD

Fear Turk Invasion of Thrace as Result of Constantine Abdication

(By United News)
Paris, Sept. 27—Prince Paul, a younger brother of crown prince George of Greece, has been arrested and interned on a warship by the revolutionaries according to word received from Athens by the Greek legation here.

King Constantine abdicated in favor of his eldest son, Prince George, and Prince Paul is next in line.

General Nider, a supporter of Venizelos, is likely to undertake the formation of a new cabinet, it is reported.

Revolution Spreading

Athens, Sept. 27—Revolution is spreading throughout Greece following the abdication of King Constantine.

Both the army and the navy have joined the revolutionaries. The entire Greek fleet, officers and men, has revolted.

Various units of the army are hurrying to attach themselves to the revolutionary standard. There were reports of dissatisfaction from all parts of the country. Mutinous troops have landed at several points near Athens, and government leaders are conferring with the chiefs of the insurgents. Colonel Gonass is heading the revolutionary movement in the army. Crowds surged through the streets gathering in excited masses outside the public buildings of the capital.

May Encourage Turk

Paris, Sept. 26—News that the Greek revolution will encourage the Turk to march into Thrace and reject the allied peace terms are entertained in official quarters, where anxiety over the situation in the Near East is increasing.

Premier Poincare hurriedly returned from his vacation Wednesday to be on hand for a thorough discussion of the Near East situation at Thursday's cabinet meeting.

The "Quar D'Orsay" regards the situation as critical because it is feared that the Turk may now ignore the allied peace conditions and insist in occupying Thrace at once while the Greeks are in the midst of revolution disorders, and incapable of any effective resistance.

BORAH'S DEPARTURE FOR IDAHO MAY MEAN NEW POLITICAL PARTY

(By Clayton Whitehill)
(United News Correspondent)

Washington, Sept. 27—Senator William E. Borah leaves for Idaho, Thursday. His going foreshadows the possible development of a third party. A nation wide return to the direct primary system would be the keystone of the third party structure.

PHILOMATEANS PLAN NATIONAL UNION AT MIXER LAST NIGHT

Prof. John E. Briggs in speaking to approximately 100 Philomatheans and guests at the Philo mixer in the liberal arts drawing room last night, said he expected to see all the Philo chapters in the United States and Canada united into a national organization within the next few years.

In his speech he warmly praised the spirit which prompted the Iowa and Illinois Philo chapters to attempt such a union. Those on the Iowa Philo committee are: chairman George Kloeck A4 of Doon, George O. Hurley L1 of Rolfe, Floyd W. Miller A3 of Wapello and Carl Tucker S4 of Iowa City.

As a climax to the evening's celebration, Hurley, president of the organization, conferred honorary Philomathean memberships upon Prof. Clarence W. Wassam of the college of commerce, and Prof. Edward C. Briggs of the political science department, in appreciation for their help to the society.

POPE PIUS ASKS KEMAL TO STOP NEAR EAST WAR

(By United News)
Rome, Sept. 27—Pope Pius has personally communicated with Mustapha Kemal asking him to prevent further bloodshed in the Near East. The Pope also directed the apostolic delegate at Constantinople to extend all possible assistance to refugees of all nationalities and wired funds for this relief work.

GLEE CLUB WILL TAKE NEW TALENT

Tryouts for Women's Musical Organization is Scheduled for Tomorrow at 4

Women's glee club tryouts will be held Friday at 4:10 p. m. in room 110 in the school of music, under the supervision of Prof. Walter Leon.

Contraltos Needed

All University women are invited and old members are requested to come. There will be a number of opportunities for new talent, and contraltos are especially needed. Applicants for a place in the glee club will be tested for voice quality, harmonization with others, and the ability to read notes.

A new ruling was made last spring according to the president, Beatrice Gates, A4 of Pierre, S. D., by which women who are successful in tryouts become associate members by signing the constitution, and full members after taking part in a major performance, such as an operetta or oratorio.

To Elect Officers

The glee club is limited to forty members, and a meeting is held every Friday afternoon. Election of officers by the members will take place at the first meeting after the tryouts.

The retiring officers who are back this year are Beatrice Bates, president, and Lorna Schuppert, vice-president. The financial affairs of the club are controlled through the University music association, but all other business is managed by the officers.

Last year the glee club gave us its first operetta, and the success of the venture was an encouragement to undertake something slightly different and bigger this year, as it did last, and participate in programs at all other times, when its services are needed. Its rendering with the University chorus of the "Messiah", before Christmas, and "The Seven Last Words of the Cross," at Easter, together with the University chorus, were two enjoyable musical events of last year.

TRYOUTS FOR GLEE CLUB HELD TONIGHT

Tryouts for the men's glee club will be held at 7:00 tonight in the music hall, which is located two doors north of the Y. M. C. A. J. West Townsend A3 of Garwin, states a trip to Chicago for the glee club during the winter months is assured. There also may be a trip to eastern cities, he declared. The club will give a program in five Iowa cities at some time during the year.

INFIRMARY NOW OPEN

The dental infirmary finished its first full day of clinical work yesterday by serving eighty-five patients. The clinic is located on the second floor of the dental building on Capitol and Market streets, with hours on weekdays between 10 a. m. and noon, and 1 p. m. and 5 p. m. and from 9 a. m. to 12 a. m. on Saturdays. Many of yesterday's patients were students of the University.

NEWPORT SWEEP BY FIRE

(By United News)
Newport, R. I., Sept. 27—Newport was swept late Wednesday by a fire that destroyed 20 buildings and damaged several others before it was brought under control.

Newport Casino and other large buildings were threatened for a time by the flame. Three firemen were overcome and fifteen families driven from home. The losses amount to several thousand dollars. The origin of the blaze has not yet been determined.

MAY DISOBEY ULTIMATUM OF GREAT BRITIAN

Twelve U. S. Destroyers Sent to Near East for Protection Only—Denby

(By United News)
Copenhagen, Sept. 27—The Russian newspaper Golos Rossiji, published at Berlin, states the soviet government is negotiating for the formation of a Near East entente.

Russia, Turkey, Afghanistan and Mongolia would be included.

Kemal Evades Issue

(By United News)
Constantinople, Sept. 27—Mustapha Kemal has sent a note to General Charles Harrington, the British commander in the Near East, evading the questions as raised in the allied ultimatum and stating that the Turkish Nationalists are not officially cognizant of the existence of a neutral zone. He added that the Turks are as desirous of avoiding incidents as are the allies.

The allied ultimatum called for withdrawal of the Turkish forces from the Dardanelles neutral zone within 48 hours. Although the time limit has almost expired, Kemal shows no sign of evacuating the neutral position.

Meanwhile the Turks are growing bolder in voicing objections to allied peace terms for the Near East. They openly expressed hope that Mustapha Kemal will attack the British, who are considered to be most strongly opposed to the Turk objective. Extremists even boast that the victory over the Greeks proves the Turkish army capable of winning everything demanded.

U. S. to Protect

(By United News)
Washington, Sept. 27—The despatching of 12 destroyers and the United States S. S. "Bridge" to Constantinople is specifically for the purpose of protecting American interests in the Near East war zone, and is not to be regarded as a move by the United States to participate in any way in the hostilities there, according to both State and Navy departments.

The announcement by Secretary Denby that two divisions of destroyers and the supply ship "Bridge" had been ordered to leave Norfolk for the Near East followed closely upon the declaration of Secretary Hughes that this government approved the allied proposal to insure effectively the liberty of the Dardanelles, the Sea of Marmora, and the Bosphorus as well as protection of racial and religious minorities. But it was explained the approval of this government did not in any way imply participation in the allied defense of the straits.

90,000 MINERS WORK HALF WEEK ONLY; FACE COAL SHORTAGE

(By United News)

Chicago, Sept. 27—Approximately 90,000 Illinois coal miners are now working but 24 hours a week out of a possible 48 and are producing little more than half their capacity output, as the result of the effects of the shopmen's strike and the coal moving capacity of middle western railroads, Robert M. Medill, Illinois fuel administrator, declared Wednesday.

Coal moving capacity has been reduced sixty per cent as a result of the strike, Medill said, and unless the railroads can fulfill their promise to get to normal within thirty days, the middle west and the northwest will be faced with an acute coal shortage.

STRIKEBREAKERS TO STRIKE

Buffalo, Sept. 27—Street cars strikebreakers are threatening to strike. This follows notice that pay will be cut from \$7.50 daily to sixty-five cents an hour, and that free meals, lodging and entertainment are to be abolished. The strikebreakers are from Philadelphia, Baltimore and other eastern cities. They were brought here to take the place of workers who walked out July 1.

MILITARY WORK OPENS MONDAY

Basic and Advance Course Both Show Gain in Number of Men Enrolled

"Military classes will begin Monday October 2," said Major Ray C. Hill, yesterday in speaking of the coming year's work in the department of military science and tactics.

The enrollment in both the basic and advanced courses considerably exceeds that of last year, it is stated. Students who have completed the basic course may register for the advanced course any time this week. All men registered for the advanced course receive three hours University credit besides the regular army commutation of rations.

Quite often beginning students fail to understand the real purpose of the military organization of the University. Major Hill emphasized the fact that the R. O. T. C. forms the cornerstone of our national defense and stressed the need of an Organized Reserve officered by graduates of the advanced course. All who complete the advanced course are given commissions in the Regular Army and are assigned to a Reserve unit in the area in which they reside.

All men enrolled for Military Train-

ing are required to wear the regulation army uniform all drill periods. The complete uniform is furnished by the military department with the exception of shoes, which must be purchased by the student. Arrangements will be made whereby students may obtain their shoes through the military department at a nominal cost, if they care to do so.

BAG RUSH TO BE HELD AT OBERLIN

Sophomores and Freshmen Will Meet While Thousands Look on

(The Oberlin Review)

Oberlin will see its first big rush on Tuesday at 4:30 on Dill field when the yearlings and sophomores clash in this newest form of their traditional scrap.

The men's senate placed its final stamp of approval on plans for the affair at its meeting last night.

Thousands of fans are expected to crowd the Dill field bleachers to show their loyalty to the Boost Oberlin association which will receive the net proceeds of the contest.

The bag rush is to take the place of the old tie-up. An admission fee of 10 cents will be charged all spectators

including junior and senior guards and referees.

Tickets will be on sale Monday and Tuesday in Peters court and Tuesday after chapel on the plaza.

Eligibility tags for both freshmen and sophomores must be obtained at Warner gym Monday at 4 p. m.

The frosh will meet at the M. B. at 4 o'clock Tuesday to be escorted to the field by junior men. Sophs meet at Peters hall with senior escorts. All upper class men are expected to wear class sweaters if possible. "Art" Winters, '23 is chief referee. Harold Wood, '23, assistant referee; Ed Zeller, '24, chief score keeper.

All rules of the contest will be strictly enforced. Unnecessary slugging or foul play will be penalized by a one yard set back for the first offense. For the second offense the offender will be expelled from the contest.

The winning class shall have the right to fly its colors on the campus flag pole the day following the scrap. If the freshmen win they have the privilege after Thanksgiving of dispensing with their caps after 6 p. m. but must wear them throughout the day until spring vacation as heretofore.

OKLAHOMA STUDENT TO BROADCAST FOOTBALL GAMES THIS YEAR

(The Oklahoma Daily)

When the referee's whistle blows for Oklahoma's first big grid battle this season, many football fans over Oklahoma and adjoining states will be prepared to listen to the results of the game play by play for this feature is a part of the broadcasting service to be sent out by the Oklahoma Daily.

It is through the cooperation of Maurice L. Prescott, 426 W. Eufaula, junior electrical engineer that this radiophone news service is made possible. The station to be used is one built and operated by Prescott himself.

The sending out of news bulletins containing university news and Whirlwind jokes was started Monday night and will be continued daily. Concerts by fine arts students, lectures by professors, in fact, the whole faculty will be brought into play in furnishing entertaining programs for the thousands of radio fans throughout the middle west.

Much has been heard of radio station which has been broadcasting programs W K Y, the Daily Oklahoman station for about a year. The outfit being used by the Oklahoma Daily is not competing or will not interfere with the Oklahoma City station for the schedule as arranged begins when W K Y stops.

Prescott does not know just how far his phone will reach. He has only had it in operation for several days as it was completed just a short time ago. Reports have already been received from Milwaukee and Madison, Wisconsin; Peoria, Ill.; Council Bluffs, Iowa; Fordule, Indiana; Denver, Colo.; and many other places in the middle western states saying that the station was coming in with good modulation which translated in the laymen's tongue means clearness of voice.

Arrangements have not as yet been completed for handling programs by the fine arts students and university faculty but will be in a short time, Prescott states.

The schedule at present begins at 7:45 p. m. and continues until 8:15 when W K Y starts up with an hour's program after which Prescott begins again and continues until 10:15 or later. Students and people in Norman may hear this broadcasting by going to the Pioneer Pharmacy where a receiving instrument operated by the Oklahoma Radio Engineering company is located. Noble F. Hilsmeier, Prof. O. W. Walters and Prescott are owners of this company.

It is hoped that equipment will be complete so as to be able to announce next week's schedule within the next few days, Prescott said.

ILLINOIS U. RECEIVES TWO AEROPLANES FOR CLASSES IN AVIATION

(The Daily Illini)

With the arrival of two new airplanes for use in the air service unit of the military department here, plans for the advancement of instruction in that unit have materially progressed, according to Capt. J. G. Whitesides, in command, and more than 150 freshmen are expected to enroll in the course.

The planes—a single-seat Oranco scout plane, and a DeHaviland 4B model—will be used in the instruction of students in courses of rigging and assembling ships.

Members of the air service staff here are working for the establishment of a landing station in the Twin Cities, and as soon as a government hanger is obtained, such action will be effected. With the building of a hanger here, the course in air service will include flying in its work.

INDIANA SENIOR COEDS ADOPT CRIMSON JACKETS

(Indiana State Students)

Crimson flannel coats were adopted as the senior girls' distinctive dress at their meeting yesterday afternoon in the student building. Resolutions left to senior girls by the class of '22 were acted upon and passed with reservations. There will be a committee appointed to draw up the resolutions and read them at the Senior breakfast in the spring. To encourage senior girls to go out for sports on a take an active interest in the inter-class contests, a party will be given in honor of girls on various class teams, it was decided at the meeting.

9288 REGISTERED IN CALIFORNIA UNIVERSITY

(The Daily Californian)

At the close of the first week's registration at the University, forty-four more students were enrolled at the Recorder's office than had signified their intention of attending college at this time last year. The total enrollment thus far is 9288 students.

The slight increase in the attendance is attributed by the Recorder's office to the growth of the graduate division of the University, which now has a registration of 1004 students in comparison with 890 students enrolled at this time last year.

Students in the undergraduate division number 8284 against 8354 enrolled as for the fall semester of 1921. This slight increase of seventy students in the undergraduate division of the University, signifies a return to normal conditions of attendance, according to

James Sutton, Recorder of the Faculty.

New undergraduates this semester number 2528, approximately the number of new students which the Recorder estimated would be in attendance this semester. It is probable that the registration for the semester will rise to 9500, when the final enrollment figures are made public.

TAKE PICTURES OF BADGER ENGINEERS

(The Daily Cardinal)

Freshmen entering the college of engineering now are required to sit for a photograph as a part of their registration. The photographs are attached to the permanent record cards of the students.

This plan was instituted this semester by Prof. A. V. Miller, chairman of the committee on freshmen registration, for the purpose of more easily identifying students for whom recommendations may be requested by employers or others at a later date.

Professor Miller probably knows more engineering students than any other three members of the faculty. In late years the enrollment in the college has been so great that he finds it difficult to remember them all by name and sight, however. He has adopted the plan of photographing new students in order that he may know them individually rather than by the classroom records.

A unique arrangement for taking the pictures rapidly was set up in the stacks on the mezzanine floor of the engineering library. The new student now sits on a chair facing a vest pocket size camera. On his right is a mirror

placed at such an angle that his profile and front view are exposed on the same film.

Beneath the mirror are two slides in which are inserted the date and the name of the student. Artificial lights and a white curtain for a background assist in making the pictures clear.

HOLD SOCCER PRACTICE

(Cornell Daily Sun)

With more than 40 players in uniform on lower alumni field yesterday afternoon, Coach Bawlf held a brisk practice in the fundamentals of soccer followed by a short scrimmage between two tentative teams. Several men who played in last year's Varsity games took part in the workout.

After instructions in passing, dribbling, and kicking the ball, two teams were selected from among the candidates and a brief contest was staged. Veterans playing on "team A" included Captain Smith, Righter, and Thompson. Of the new prospects uncovered, Crozier, Ayau, Clarke, and two Chinese students, Li and Hu, appear especially good.

PERMANENT JOBS SCARCE AT WISCONSIN UNIVERSITY

(The Daily Cardinal)

Although permanent positions for students are scarce there are several openings for those desiring part time work, according to "Dad" Wolf of the Y. M. C. A. Salesmen and men for work on nearby farms are especially needed.

The Arrival of Autumn Sweaters Brings Vivid Outdoor Colors

Each season has its own mode in sweater coats.

For they have become a taken-for-granted item in every well-planned wardrobe.

The out-of-the-usual in sweater coats is always found here.

Always, there is a new style, the latest color.

The Wool Slip-overs so in vogue now are specially featured at

Society

New Pledges

Sigma Chi

Sigma Chi announces the pledging of the following men; Paul M. Kenefick, Algona; Harlan L. Kelly, Savanah, Mo.; Edwin E. Smith, Sioux Rapids; William B. Baird, Mason City; Loren W. Lundt, Nashua; Norman Nixon, Clinton; W. S. Scott, Rochester, Minn.; George L. Boyle, Algona; Carl O. Henning, Norfolk, Nebr.; Gerold G. Henning, Norfolk, Nebr.; Dean Swanson, Webster City.

Kappa Beta Psi

Kappa Beta Psi fraternity announces the pledging of William Carpenter, Iowa City; Donald D. Conley, Atlantic; Walter E. Cannon, Oakland; Harold Hoyt, Cherokee; Frank Jakman, Grand Junction; John Tiedeman, Muscatine.

Phi Epsilon Pi

Phi Epsilon Pi fraternity announces the following pledges: Elmer Cohen, Waterloo; Ray Cohen, Des Moines; James Lutz, Des Moines; Julius Schwartz, Des Moines; Edmond Ohsman, Cedar Rapids.

Kappa Beta Pi

Kappa Beta Pi, legal sorority, announced the pledging of Storm Lake.

Phi Delta Chi

Phi Delta Chi pharmacy fraternity will hold a pledge dance tomorrow evening at the chapter house. The chaperons will be Dean Wilber J. Teeters of the college of pharmacy, Prof. and Mrs. C. L. Raiford, and Mr. and Mrs. B. H. Davis. C. Hill's orchestra will furnish the music.

Kappa Omega

Kappa Omega sorority announces the pledging of Gladys Obrecht A2 of Havelock.

Hamlin Garland

There will be a meeting of the members of the Hamlin Garland literary society, Friday, September 29, in room 115 liberal arts building. Every member is urged to be present as plans for the year will be discussed.

Currier Hall

Currier hall upperclassmen entertained at an informal mixer Tuesday evening after dinner, in honor of the freshmen women. Dancing furnished entertainment and Marjorie Barfoot A4 of Decorah was the chairman in charge.

Fullerton-Richter

Miss Claire Fullerton A2 of Kansas City, Mo., was married to Belvel Richter L3 of Des Moines in July. Mrs. Richter is affiliated with the Delta Delta Delta sorority and Mr. Richter with the Sigma Chi fraternity. Mr. and Mrs. Richter will reside in Iowa City until Mr. Richter finishes his course in the college of law.

Kerlin-Bastian

Miss Madge Kerlin of Murdo, S. D., and Lloyd S. Bastian of Redfield, S. D., were married in Iowa City on September 21. Mrs. Bastian formerly attended the South Dakota state college and is taking music at the University this year. Mr. Bastian is a member of the Sigma Phi Epsilon fraternity and a pledge of Delta Sigma Delta, dentistry fraternity. Mr. Bastian was registered in the college of liberal arts last year and is taking work in the college of dentistry this year.

Green-Loeck

One of the late summer weddings was that of Miss Bessie Green B.A. '20 of What Cheer, and John Loeck B. S. '22 of Varina, which occurred on August 27. Mrs. Loeck is taking graduate work in the University this year and Mr. Loeck is a junior in the college of medicine. They will make their home while here at 109 1-2 South Clinton street.

Miss Joyce Brady A '21 of Akron has been Society editor on the Iowa City Press-Citizen, since August 21. While in the University Miss Brady was a member of Delta Gamma sorority, of Hesperia literary society and of the Seals club. Miss Brady succeeded

Miss Geraldine Mars A '22 of Iowa City who resigned to teach Romance languages in the Glenwood high school.

SOCIAL COMMITTEE MEMBERS WILL BE SELECTED SOON

"New members of the Social committee will probably be chosen very soon, but until they are chosen the members of last year's social committee, who are still in the University, will serve," is the statement of Dean Wilbur J. Teeters, who has been chairman of the committee for many years.

The Social committee is composed of six faculty members, appointed by President Jessup, and six student members. Three student members are chosen from the Senior classes of any of the colleges, and the other three student members are chosen from the Junior classes of any of the colleges every fall.

The purpose of the Social committee is to make all social regulations for University students. "I think it is especially important that the women students be represented on the committee, since so many of the regulations affect women," said Miss Clara M. Daley, who has been secretary of the committee for four years.

Dean Teeters says, "It would be a splendid thing if the student members could be elected at the same time the class officers are chosen in the fall." Last year they were not elected at the general election, and he is of the opinion that matters would be less complicated if some arrangement could be made for their election this year at the general election.

Last year's faculty members were: Mrs. Adelaide Burge, dean of women; Robert E. Rienow, dean of men; Prof. Rollin M. Perkins, Prof. Ewen M. McEwen, Prof. Henry L. Rietz, Miss Clara M. Daley, secretary.

Student members were: Lucile Everett, Robert T. Kenworthy and Edwin A. Nixon from the senior class; Margaret Moore, Maurine Yaggy, and Donald S. Gaston from the junior class.

IRVING INSTITUTE WILL OPEN FORENSIC SEASON TONIGHT WITH MIXER

Irving institute will open the forensic year with a stag mixer in the liberal arts drawing room at 8 o'clock this evening. All students, the new men entering the university especially, are invited to this get-together "literary" meeting.

Edwin Baker A2 of Ioa City, in control of arrangements, after guaranteeing the new men a hearty welcome, promised a varied program.

Dean Kay to Speak

Other features are a talk by Dean George F. Kay of the college of liberal arts; dramatic reading, Gregory Foley A4 of Rock Rapids; oration, Abram M. DeVaul L3 of Fonda; piano solo, Albert F. Ward A4 of Clinton; declamation, William J. Berry A2 of Washington, D. C.; trombone solo, Harry E. Mundt A3 of Everly; history of Irving institute, Lowell Jahnske S4 of Muscatine; and Sam D. Whiting of Iowa City, a former Irving, will give a humorous talk.

Walter J. Dehner A4 of Iowa City will tell some of his experiences last summer at Camp Perry, Ohio, where he placed high among the best rifle shots in the United States.

David H. Scott A4 of Emmetsburg, is in charge of the refreshments.

FIRST BACONIAN CLUB MEETING IS SCHEDULED FOR TOMORROW NIGHT

The first meeting of Baconian club for the University year 1922-23 will be held Friday, September 29 at 7:30 p. m., in the physics lecture room. Prof. E. W. Chittenden, president of the club, will address the meeting upon the subject—"Modern Mathematics." The speaker will present in a non-technical way some of the differences between the past and present day mathematical theories.

What are the fundamentals concepts of mathematics? What is the nature of the more recent extensions of mathematical thought? Is mathematics keeping up with the progress of science in other fields? Today we are in the midst of an era in which the triumphs of science are so prodigious that we look forward expectantly to the discovery of even more astounding facts. Does "Modern Mathematics" keep its place in this movement? Do the mathematical discoveries of the age compare in range to the discoveries in Physics and Chemistry, for example? What is the proper attitude toward an "axiom"? What is a group, an invariant, a transformation? Professor Chittenden will discuss some of these problems.

The annual election of officers will take place at this meeting. All members are urged to be present and the public is cordially invited.

MARKSMEN PROUD OF NEW GALLERY

Most of Last Year's Winning Squad Return; Team Hopes for More Honors

This year's rifle team may prove to be another winner. At least that is the way the members feel about it, for the squad will practice in the new gallery that has been built in the armory, which is the second largest gallery in the United States. Nearly all of the members of last year's squad are enrolled in the University this semester.

Make Good Record

The rifle team was brought into existence again last year after a lapse of five years, and made a record of which the University is proud. The team was made possible last year through the untiring efforts of Lt. Col. Morton C. Mumma, Commandant, who made the splendid shooting gallery which we now possess a reality. Colonel Mumma, himself a rifleman of long experience and the holder of a nation reputation as a skilled shot with rifle or pistol, has worked hard for that end, and when the new armory was erected he at once reserved space for a complete shooting gallery. Colonel Mumma commanded the Camp Perry small arms school during the war, and was executive officer of the 1918, 1920, 1921, and 1922 rifle matches.

Eight Won Letters

Last year eighty men tried out for the rifle team, out of which twenty were fired during matches throughout the year. Eight men won letters, and three won numerals. The awarding of numerals is to freshmen only, who are not eligible to receive the rifleteam I's, but who receive the letter numeral instead. A total of twenty-six contests were fired, out of which Iowa won nine dual matches, and won first place in Seventh corps area shooting match, and the National championship of engineer unit as well as fifth and sixth places in the national meet. The rifle team has two cups in its possession for winning those meets.

Old Men Back

Last year's team members were James F. Phillips, capt., George G. Fabricius, capt.-elect, Dillard W. Bray, individual champion shot of last year, Lowell F. Jahnske, Walter J. Dehner, winner of the Governor's day match, and who also placed in the first hundred at Camp Perry out of over 700 entries, Ralph C. Woods, Theodore A. Hartman, and Harold B. Miller. These men won the rifle team I. Clarence W. Smith, Robert D. Lambert and Fred W. De Veloty won the freshman numerals. All of last year's varsity will be back this year, with the exception of Harold Miller, who was drowned shortly after commencement last spring, and Robert Lambert who is at Annapolis naval academy this year.

Ballard of Davenport is a national match man and is being watched. The squad will probably be double this year due to last year's record and the fine shooting facilities which provide for over twenty riflemen at once. It is being contemplated to enter three teams of five men each in the United States tournament and two teams of fifteen men in the Seventh corps area tournament, which will include the states of Nebraska, Iowa, Arkansas, Missouri, Kansas, Minnesota, and the Dakotas, with the place of shooting at Omaha. One team will also be entered in the war department matches. In addition dual meets will be shot with the leading universities in the middle west. These will be arranged as soon as they are indicated by the number of challenges received by the Iowa team. The team will arrange as many meets as it will have time for.

Gallery Open for Tryouts

Iowa's record of last year has made it an object to be aimed at by all universities boasting a rifle team of any merit. The shooting gallery is open at any time and officers will be on hand all day to drill men and give them pointers. The team will be up against some stiff competition this year and men who possess any ability at all are urged to make use of the shooting gallery and try out for a place on the team.

Captain Martin in Charge

It is hoped that a large number of freshmen will avail themselves of the shooting gallery and thereby make known their abilities with the gun. Captain Thomas A. Martin, an excellent shot and also a medal holder, has had charge of the team's schedule, and with the help of the earnest and sincere work of the team and Colonel Mumma's material aid he hopes kept the team in its best form during the coming season.

VIOLATION OF LIBRARY REGULATIONS SUBJECT TO SEVERE PENALTIES

Six drastic rules went into effect at the University library Monday. They were as follows: 1. Any user of the library who mutilates a book, paper

or magazine shall for the first offense be fined five times the value of the book, paper, magazine or set mutilated, the minimum fine being \$5.00, or shall be fined the above amount and in addition be deprived of all library privileges for three months.

2. Any user of the library, who removes from the library a book, paper, or magazine without signing and depositing a charge card shall for the first offense be deprived of all library privileges for one year.

3. Any user of the library who signs a name other than his own on a charge card, shall for the first offense be deprived of all library privileges for one year.

4. Any user of the library who is convicted of a second violation of these rules or fails to pay a fine imposed, shall be suspended from the University for one year.

5. Any person who is deprived of library privileges for any of the above offenses and who is proven to have entered the library or to have drawn library books during the period of the penalty shall be suspended from the University for one year.

6. The names of any persons adjudged guilty of any of the above offenses shall be posted on the library bulletin board during the period of penalty.

The library is preparing to do its utmost this year to render efficient and helpful service to all students. In order to simplify library registration, an innovation was introduced as a part of the regular university registration procedure. Each student in the college of liberal arts was given a library registration card. This form was filled out by the student and filed for further reference in the library.

19 RADIO OPERATORS TRY OUT AT PURDUE

(The Purdue Exponent)

In a recent tryout that was held to obtain operators for the Purdue radio station for the coming year, nineteen students reported for trial. Chief operator Modlin, in a statement made to the Exponent yesterday, said that the men who are to serve will be chosen at once and their assignments will be given them at the same time. The announcement will probably be made tomorrow.

ANNOUNCEMENT

University chorus—There will be no chorus rehearsal tonight. First rehearsal next week Thursday, October 6. Everybody who like to sing is invited to join. No tryouts necessary. Philip G. Clapp, director.

Women's glee club—Tryouts Friday at 4 p. m. room 110, school of music. Walter Leon, director.

Men's glee club—Tryouts Thursday at 7 p. m. room 110, school of music. Walter Leon, director.

ways and means whereby the attendance of every student may be assured. This committee will be chosen as follows: Miss Alvida Buck secretary of the Y. M. C. A., and Miss Rachel Siekman of the department of physical education for women will appoint two women from each class of liberal arts college; Mr. Rufus H. Fitzgerald, secretary of the Y. M. C. A., and Prof. Jacob Vander Zee will appoint two men from each class of the liberal arts college; Prof. Donald L. Mc-

Murry of the department of history, two men and two women from the graduate college; Prof. Rollin M. Perkins of the law college, two men from each class in the law college; Prof. Ewen M. McEwen of the college of medicine; two men from each class of the college of medicine; Miss Josephine Creelman of the school of nursing, two women from each class; Prof. Orville E. Schlanbusch of the college of dentistry, two men from each class in the college of dentistry; Prof. Rudolph A. Kuever of the college of pharmacy two students from each class in that college; Prof. Raymond B. Kittredge of the engineering col-

lege, two students from the college of applied science; Prof. Merle P. Gamber of the college of commerce, two students from each class in the college of commerce; Miss Amalie Kraushaar of the psychology department, four women from Currier hall; Prof. Lloyd A. Nagler of the college of engineering, four men from the quadrangle; Miss Catherine T. Wright A4 of Des Moines, two women of the Staff and Circle; Mrs. Marion Schwob, head of the department of physical education for women, two women from the W. A. A.; Prof. Edward C. Mabie of the department of speech, one man and one woman from each literary society; Prof. Fred E. Holmes of the college of engineering, four men from each fraternity; Miss Olive K. Martin of the department of Romance languages, four women from each sorority; and John J. Dondore A4 of Iowa City, to appoint twenty men from the Howling 300.

GAME WAS PLAYED AT AT ROCK ISLAND NOT CHICAGO, SAYS MAYER

Walter Eckersall made one mistake in his article yesterday about the Iowa team of 1900. He said that the game with Northwestern was played at Chicago. As a matter of fact, this game, according to Mr. Max Mayer, Iowa City postmaster, who witnessed it, was played at Rock Island. The rest of his story is approximately correct. He takes for granted that Chicago won the championship in that year despite the fact that Iowa played them a 5 to 5 game. Mr. Mayer stated last night that Casper Whitney, famous player and sport writer, in a review of the season of 1899 in Harpers weekly said that Iowa and Chicago were tied for the championship of the West. Iowa did not lose a game that year, and its only tie game was the one with Chicago.

VARSITY SCORES 3 TOUCHDOWNS AGAINST SCRUBS

Kadesky and Thom Score on Forward Passes; Otte Used at Right End

The varsity had recovered part of its lost fight last night, and it made three touchdowns against the second team in the time that it was making one on Tuesday night. Only twice was the second team able to hold the regulars down, and both times the varsity quickly recovered the ball. Parkin plunged over for the first score on an off-tackle play after steady plowing through the line and one successful pass has carried the ball from the varsity 10-yard line down close to the goal line.

Taking the ball after the touchdown the varsity marched back down the field until it reached the second team's 40-yard line. A fine pass, Parkin to Kadesky, put the ball over for the second counter. The first string backs were then taken out, but the change did not stop the first string's offense. Frank, sub fullback, plowed through the line for gain after gain. Another pass, from Blake to Thom again resulted in a touchdown.

Otte Plays Right End

Engeldinger was back at his old position at right tackle with Otte playing next to him at right end in place of Hancock who has joined the squad of cripples because of a bad "charley horse". Both of these men were going well, and Otte may give Hancock a hard fight for the place at end. He has come up from a guard

on the third string until now he is scrapping for a place on the varsity. He is a born fighter, a hard man to move out, and one of the best tacklers on Iowa field. While fairly light, his speed—he was the leading half miler on the freshmen track team last spring—and his aggressiveness make up for his lack of weight.

Minick was called back to kick on two occasions when the varsity had been held to small gains, and both times he booted the ball far down the field, averaging forty-five to fifty yards on each kick. He will undoubtedly increase the distance of his kicks as the season advances, and Iowa will not have to worry about losing distance on every exchange of punts as he should equal any kicker in the conference.

Cripples are Improving

Nugent, second team end, joined Hancock, and Weissenso on the injured list. Like Hancock he is bothered with muscle bruises. Weissenso, whose shoulder was thrown out of place in the scrimmage Tuesday, will soon be able to report for duty. Hicks was out with a cane and is rapidly getting better, although he will probably be out for several weeks.

ANNOUNCEMENTS

The Lutheran students will hold a mixer at the church parlors Saturday night of this week at 7:30.

Anton Anderson, president.

The Classical club will meet Thursday at 4 p. m. in room 109 L. A.

Pearl Bagenstor, president.

The intelligence examination required of all first-year students in the college of liberal arts will be given on Saturday, September 30, at 8:00 a. m. sharp, as previously announced. Make no other appointments during this forenoon. Be on time, as no one will be admitted after the examination has begun. Bring the registration card on which to secure the signature of the examiner, a supply of sharp pencils, and a wide book or lapboard on which to write.

Places of meeting: liberal arts men—men's gymnasium; liberal arts women—women's gymnasium.

G. F. Kay, Dean of the college of liberal arts.

Real Service Must Be Engineered

Many of the men whose names are writ large in engineering history are design engineers; men like Westinghouse, Lamme, Stanley, Hodgkinson, Tesla, Shallenberger. Their inventions have the quality of usefulness, of reliability, of productibility; which is an involved way, perhaps, of saying that they have the primary requisite of all really great inventions: *Serviceability*.

Engineering history abounds in instances of near-genius that produced no product, and of great developments that never reached completion; and most of these instances are explained by the lack, somewhere in the system, of that ability to give real Service.

Service, in a machine or a system, or wherever you find it, is not there by accident but because it was incorporated by men who understood what was required and knew how to provide it.

Much more is required of the designer than facility in calculation and mastery of theory. He must have first hand and thorough familiarity with manufacturing operations and with commercial and operating conditions. It takes more than mere ingenuity and inventiveness to design apparatus that will be really serviceable and will "stay put."

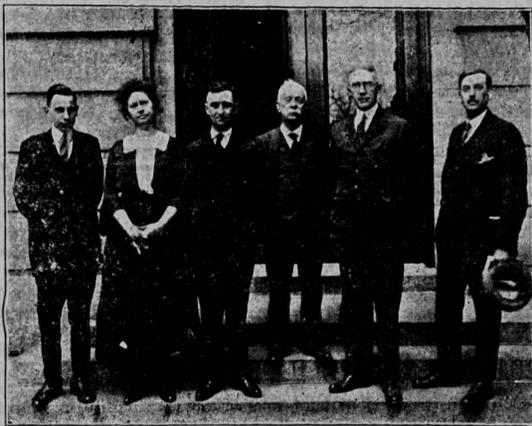

The design engineer, in the Westinghouse plan, is responsible for the performance of the finished product. He cannot possibly have the proper understanding of operation unless he operates and tests, unless he spends time and thought in investigation and study, not in the laboratory or drawing room, but right on the operating job. Here, most of his ideas will develop; and here he will see and prepare for all the different things which the product will later have to encounter. Then when he comes to put his creations on paper, his calculations will be necessary and helpful to check the conclusions which he has reached, and this right use of them requires training and a high degree of understanding. This proper balance of the physical and mathematical conception of things is what constitutes engineering judgement.

It should be thoroughly understood that the primary function of the design engineer is the conception and the production of new or improved apparatus, and familiarity with the practical is essential to the proper discharge of this duty.

It is this view of designing that makes this branch of Westinghouse engineering so important, so effective, and so productive of real developments.

W Westinghouse
WESTINGHOUSE ELECTRIC
ACHIEVEMENT & OPPORTUNITY

HERE IS THE PARTY OF SCIENTISTS FROM UNIVERSITY WHO WENT TO SOUTH SEAS

From left to right: Mr. Waldo Gloek, photographer, Mrs. Stoner, Prof. Dayton Stoner, Prof. C. C. Nutting, Prof. Robert B. Wylie, Prof. A. O. Thomas.

Speaking of bobbed hair, flapper hair cuts and such modern acquisitions of civilization, the genus homo Americanus has a lot to learn in the hairsute line from the inhabitants of the Fiji islands, claims Professor C. C. Nutting, head of the department of zoology, of the University. Professor Nutting

resemble a first class hedge, carefully trimmed and trained. In some cases, generally among the rulers of islands, the hair sticks out straight six or eight inches.

If the hair is to follow the Fijian mode it must, under ordinary circumstances, receive the serious attention of its wearer twice a day. At those times it is washed thoroughly, dried carefully, coconut oil is then rubbed into the hair and scalp after which the Fijian Beau Brummel takes a comb with three or four times on it each one of which is from six to eight inches long and carries his shining locks laboriously until the proper Fijian effect is achieved.

If one achieves the proper effect, and one often does that in Fiji, one is ready to make a serious call on his imperial highness, the ruler of the island, on one's lady fair, or on one's creditor where the proper effect often carries one a long way past the day one's note comes due.

"Strange as it may seem," said Professor Nutting, "the women do not seem to pay as much attention to the hair as do the men."

Sleep on Wooden Pillows
When the Fijian with the Fijian haircut goes to sleep he does not pound his ear on the fluffy, feather stuffed pillow of civilization. The prevailing mode of haircuts does not allow it. Instead a wooden pillow that supports the back of the neck is used. This prevents the spiraling, hedglike locks from being twisted from their desired course.

Unlike many islanders in the South Sea region the Fijians have not adopted European or American modes of dress. Often times they will only wear a breech blout, sometimes a waist and some students will effect a sort of coat. The feet, however, are always bare.

NEW LITERARY CLUB TO DISCOVER TALENT OF FRESHMEN WOMEN

A literary society for freshmen women is the plan of the Women's Forensic council, which held a meeting at 4:30 yesterday afternoon to discuss the formation of such an organization.

Hitherto the selection of members has not been conducted very effectively. A literary society had small opportunity of discovering what freshmen girls could do, and many freshmen who would in all probability have made good members were not asked to join, as there has been no way of displaying their talents. At a freshman lecture last spring, all freshmen women were given questionnaires concerning their interest in literary societies. At least 200 girls with an average grade of C or above, who had desired to belong to literary societies, had been given no chance, many because of lack of any opportunity to acquaint the literary societies with what they were capable of doing along that line of work.

According to new plans, literary competition.

ities will put off pledges of freshmen till their sophomore year. This will still allow for pledging of upperclassmen. A literary society for freshman women will then be organized to which all girls, who are interested, may belong. Upperclass literary society members will attend open door programs given by the freshmen in order to select prospective members for the next year.

Another purpose of organizing a freshman literary society is to cooperate with the English and public speaking departments, and to promote an interest among freshmen in work along the line of debate, dramatic reproduction, and elocution. As soon as plans are completed, an advisory board composed of one member each of the English and public speaking departments, and three members of the Women's forensic council, will be chosen. The plan of organization will be explained to the freshmen women at freshman lectures in order to gain their approval and interest.

Committees will then be selected to finish the work of organization.

The plan of freshmen literary societies has been tried with great success at the Iowa State Teacher's college at Cedar Falls and at Morningside college at Sioux City, and it is hoped that the plan will meet with success and approval here.

*** * * * * FAREWELL, CHAPERON! * * * * * SORORITY HOUSES TO BE * * * * * MOTHERED THESE DAYS * * * * ***

(The Daily Illini)

A new name has appeared in the jargon of campus life. The team "house mother" is to supersede the sorority chaperon with the taking on of the duties of the commissary department.

The plan was proposed by Miss Ruby E. C. Mason, Dean of women, and was adopted by Pan-Hellenic council. It has been accepted at the University of California, University of Wisconsin, Leland Stanford and at many others. The new chaperones will cooperate with the girls in carrying out the new plan.

ARGENTINE POLO TEAM DEFEATED

New York, Sept. 27—The Argentine polo team holder of the American title was eliminated from the Waterbury cup tournament semi-final of the four big American tournaments of the season, when Shelburne's, an American team, defeated them 14 to 5. The match was the semi-final of the Waterbury cup

MORE ABOUT GREEN CAPS

It has been left to the officers of the various campus organizations to see that the green cap ruling is obeyed by their respective members and unless steps are taken at once by those who have this responsibility, the good start made this year by the class of 1926 will come to nothing.

Freshmen are not wholly to blame if they are slow in adopting the custom; wearing a green cap is a rather unpleasant thing. If upperclassmen are lax in enforcing the rule, freshmen will be lax in adopting it. Uncertainty breeds uncertainty. When the men of one group see those of another without their regulation headgear, the natural reaction is to doubt the sincerity of the movement.

Last year a few feeble attempts were made to keep the custom alive. Most of the freshmen wore their caps apparently for not reason except to show their loyalty to their own class. Surely the indifferent attitude of the majority of upperclassmen wasn't responsible for their action. If it is the will of the student body to make the new men wear some distinguishing mark, the ruling ought to be enforced to the letter and if it is not, then let's do away with it.

THOSE EIGHT O'CLOCKS

Eight o'clock classes, so necessary and yet so dreaded, are receiving their customary abuse this year. Big Ben, Baby Ben, and all the alarm clock family seem to be shirking their duties, for practically every one of the 8 o'clock classes is disturbed by students coming in late. And no matter how carefully the door is opened, or how quietly the student tip-toes to his seat, the damage is done, and the class is disturbed.

An alarm clock is a simple mechanism, one that most any student can understand. And setting the alarm for 6:30 or 7 o'clock in the morning takes little time. Of course getting up when the bell rings is another matter. It takes determination and sometimes, when the room is especially cold, and the bed especially inviting, it takes more than determination to start the early-rising habit. But the habit is necessary for 8 o'clockers, and once formed it becomes easier every time it is performed.

The annoyance to the professors, and to the classes, of having students come to their classes late, is easily avoided. Just set the alarm, wind up your determination, and resolve to get there on time and start a good habit tomorrow morning.

OPEN FIRE

Open Fire! The Daily Iowan editorial staff announces that from now until the end of the academic year it is prepared for all contributor's articles. If you have a communication which you think ought to receive the attention of the student body, the Daily Iowan will lend you its columns. This policy will be continued as long as the privilege is not abused.

The editors of the Iowan do not pretend to be omniscient; every paper makes mistakes in editorials as well as news and the Iowan is no exception. The staff does profess to write them in good faith, however, and if contributor's articles show the same evidence their communications will be printed. The contributor's column is not to be used merely as a place to air one's troubles or to parade one's ability to write. Neither is it to be used to further the aims of publicity seekers.

If you have a justifiable cause to present the Iowan will be glad to publish it, for its policy is to reflect as nearly as possible the opinion of the student body. Make your communications short and pointed. Letters not exceeding 200 words will receive preference. The name of the author must accompany each contribution merely as evidence of good faith and not for publication unless such is desired.

The Iowan, of course, does not endorse necessarily, or assume responsibility for views expressed in this column.

CONTEMPORARY OPINION

THERE GOES THE BRIDE

(Daily Illini)

Comes the announcement from the Registrar that he expects no increase in the enrollment this fall and by scanning the columns of The Daily Illini we see the reason. In two editions of the papers are found 69 announcements of summer weddings and the Society editor and her assistants work all day collecting and chronicling the details of scores of others to be announced in later editions.

The majority of the weddings list graduates in the leading roles but one is amazed at the numbers of undergraduates who have forsaken the halls of learning and labor for little grey homes in the west or cozy kitchenettes for two. Such an avalanche of nuptials would discourage the once popular idea that college women, especially in Mid-Western universities come to college to get an education to enable them to go to work. Human nature defies modern socialistic and communistic tendencies and Cupid still slings a seductive bow although he must have lost some flesh and some of his dimples in his overtime work last summer.

THE GREEK THEATER

(Daily Californian)

People in the East, who aren't sure whether Berkeley is a street, a city, or a mountain know that there is a Greek theater here. People who know little of our courses of study, our student life, or our campus, know that the University of California has a celebrated experiment in the small theater, with interesting activities in all the fine arts grouped around it. Other universities have curricula, student activities and campuses but we alone have the Greek theater.

Consequently to go through the university without knowing the work in the Greek theater and Wheeler hall, is like going to London without seeing the Louvre. Yet very few of us are even aware of the fine work in dramatic presentation being accomplished here. More than love of local color should lead us to patronize the coming series of plays in Wheeler hall. Knowledge and appreciation of the best in drama is a mark of the cultivated person, and enjoyment of the theater gives an added zest to living.

The Sounding Board

Courtesy is on the decline among the student body, according to those who ought to know. But quite the reverse is true among the faculty, we believe.

A professor for whose course we had registered, "regretted exceedingly" that we could not be permitted to continue in it. "Or course," he hastened to add, "it is not that you could not do the work—nothing like that. It is simply that we cannot deviate from our rule of requiring previous work of similar nature." etc., etc. This, we think, is the height of courtesy.

The leading scores among the sororities at the close of rush week were:
Delta Delta Delta 1 Packard
Pi Beta Phi 3 fur coats
Kappa Kappa Gamma..... 1 Cadillac (nearly new)

The perplexing question for us has always been:
How do they ever manage to keep that "day of silence?"

SONG

Long years ago, when I was young,
I bellowed with a lusty lung,
Desiring much the moon that hung
So far above.
(How did I get that way?)

And now that I am fully grown
Another moon I long to own;
Since hope is gone, let it be known—
That moon is love.
(How did I get this way?)

Do you remember your childhood ambition?
We forget whether ours was to become the national amateur golf champion or to marry a certain girl we knew. Anyway, it doesn't greatly matter. Neither of these things, needless to say, has come to pass.

A SENIOR'S TOAST

Here's to you, Old Capitol—
As a freshman I saw you tinkered and repaired.
As a sophomore I saw you enshrined amid scaffolding;
As a junior I saw you propped up and but-tressed;
As a senior I saw you completely overhauled.
Here's to you—long may you endure!

—SEVENTEEN.

CONTRIBUTORS' COLUMN

A communication received recently by Dr. F. H. Battey, custodian at the chemistry building, from a friend in London, follows in part:

"I spend several days of the week in Germany, and the remaining in London. On Tuesday I go by aeroplane to Paris, on Thursday I fly to Mainz, by train to Cologne, and on Saturdays I am back in England.

"Life in London is much the same as in pre-war days, though living, of course, is much dearer. The only main difference is the number of beggars one meets everywhere; a good many of them perfect gentlemen. This is the outcome of unemployment. Some 200,000 men in London alone are without a job and no matter how they try cannot get a berth.

"In Germany everybody works and does well. The reparation question was and will be a hard nut to crack. I can say, and have every reason to believe I am right, that the Germans will never pay unless we force them; and remember that her industries are tremendously extending their works, the government spending lavishly on untime-ly public works and subsidizing heavily ship and aero building. On the other hand, there is France, Italy and Belgium suffering the after effects of war to an extent no American knows.

"France, for instance, has spent \$5,000,000,000 on reconstruction work, the amount the Germans should have paid; and could you believe that still 2,000,000 people in the northern departments live in barrack and dugouts.

"The allies are far too lenient towards Germany, and whilst we sweat the Teutons are enriching the Fatherland. Truly the allies are fools, but some of them would be better in the asylum. . . . Somehow the whole world suffers for the ex-Kaiser though he deserves the greatest torture human mind could invent."

AFTERNOON DANCES TO BEGIN SATURDAY

Youths will dance with those girls with whom they have been seeking an introduction ever since they arrived in Iowa City, and University women will spend a delightfully inexpensive afternoon next Saturday when Varsity hall will open for the first of their series of afternoon dances.

The Women's association under the leadership of Catherine Wright A4 of Des Moines, takes charge of the Saturday afternoon dances and uses the proceeds from them in order to finance the various functions of the organization. The membership of the Women's association is composed of all women

who registered in the University but the organization is ruled by a governing body. The association promotes all activities on the campus and is working especially on the plan of self government.

Three University women act as hostesses and introduce the men and women. Varsity orchestra will furnish the music for dancing.

1500 FROSH AT CORNELL

(Cornell Daily Sun)

Between 1400 and 1500 freshmen were registered in the University yesterday and the day preceding, forming one of the largest classes yet to enter. It is not probable that late arrivals will be in such profusion that they will effect the total in any degree.

Announcement

We, the undersigned, have agreed to make the price to party calls at \$1.00 per couple per round trip.

NOTE to students to dances.

Come In and Get Acquainted

Officers and directors of the First National Bank are always glad to meet the students of the Iowa University.

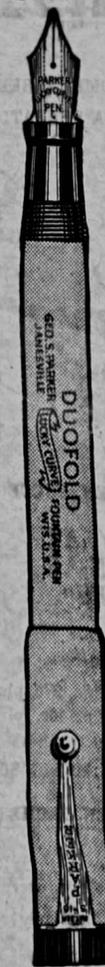

Come in any time. Talk over your problems with us and let us be of service to you whenever you have financial problems to solve.

First National Bank

Iowa City, Iowa

The "Press-Button" Filler is concealed inside the barrel where it can't catch on clothing or spill ink.

What other pen dare you lend to your roommate?

What Other Point Serves 25 Years?

THERE'S a pardonable dislike to lending the ordinary fountain pen, lest the other fellow's way of writing foul the point, or turn it. Not so with the new Parker Duofold. This lacquer-red classic holds its original point regardless. For this is real native Iridium, set in extra thick gold—as smooth as a polished jewel bearing. And we guarantee it for wear and mechanical perfection 25 years!

And when you consider that the student averages four fountain pens a year, you can see that the Duofold at \$7 is the most economical pen you can buy. One Duofold will do all your four years' college work and still be good for your life's career when you graduate.

When first you lay eyes on the black-tipped, lacquer-red Duofold, you'll recognize something handsomer than gold. Its big, balanced barrel and super-smooth point will thrill your hand with "writing urge!" You'll not be surprised that 62 men in 100 picked the Duofold first from a tray of assorted pens.

You'll see many Parker Pens at college this year. Come in and pick out the point that suits your hand—extra fine, fine, medium, coarse or stub. Then take the Duofold on 30 days' trial. Money back if you are not delighted.

HOWLERS TO HOLD MEETING TONIGHT

Railroad Official Will Explain Yale Fare Difficulties

The first big pep meeting of the year will be held at the natural science auditorium at 7:20 p. m. to-night. The Howling 300 has called a mass meeting for the purpose of reorganization of membership, and all the old members of this organization now in the University will be here while all new men wishing to join should be there.

Qualifications for membership are as follows: men must be enrolled in the University; they must be good, loyal, Iowa fans; have a good, strong voice and be able to yell. Freshmen are urgently requested to come out and learn how to give the old Who-wa-wa.

The following officers will head the club for this year: Charles Marshall, president, Melvin Winters, vice-president, Millard Miller, secretary, Joe Herbert, treasurer.

As usual, the Howling 300 will have a section of the bleachers on the west side of the field for all football games. Every member is entitled to sit in this section. The functions of the "300" are: hold mass-meetings, meet all opposing teams, and support the Old Gold at all times. Plans are under way to send the band on some football trip, probably Ohio State. All prospective members of the band are requested to be at the meeting to-night.

In order to get some new yells the Howling 300 is going to have a contest and give two good prizes for the best yells submitted. The winner of the first prize will receive an "I" book which is good for all athletic contests and the second prize will receive a year's subscription to the Daily Iowan. Anybody wishing to try out for cheerleader should join to-night for only members can fill this position. The tryouts will be held early next week at a time and place to be announced later.

All those interested in the railroad rates to the Yale game October 14 should try hard to get to the meeting to-night because an official of the railroad will be on hand to explain everything concerning the trip.

TRYOUTS FOR NEW ORCHESTRA BEGIN

University Students get one Hour of Credit for Work in Orchestra

Tryouts for all sections of the University orchestra will be held in room 5, Johnson County bank building, this afternoon, from four to six o'clock and on Thursday afternoon, September 28, from five to six o'clock. Prof. Frank E. Kendrie of the school of music will conduct the tryouts. Work in the orchestra will give one hour's credit as a part of the liberal arts course.

The orchestra plans to give a concert at the end of this semester. Next spring it will present an oratorio in conjunction with the University chorus. Fifteen or twenty members of the University orchestra will be chosen to constitute the University Theater orchestra. This group will play for the eight plays given each year by the dramatic association.

Rehearsals for the University orchestra will be held twice a week: Tuesday evening from seven to eight o'clock, and Thursday evening, from seven to eight-thirty.

Last year there were fifty-five members in the University orchestra. They appeared on five programs in addition

to giving, with the University chorus, the "Messiah" at Christmas and "The Seven Last Words of Christ" at Easter. Professor Kendrie says that indications point to a better orchestra this year than last. A large percentage of the former players are back and some exceptionally good new material has already presented itself.

ACKERSON ADDED TO MILITARY STAFF; HAS ENVIABLE WAR RECORD

Capt. Martin Ackerson, infantry, U. S. A. has taken up his duties as instructor in the military department here. Captain Ackerson has had a brilliant record in the army.

He enlisted in the Wisconsin National Guard in 1904, and was commissioned captain in the National guard in 1918 and captain in the regular army in 1920. He has seen service in the camps in America and on the Mexican border. He served overseas from February 1915 to May 1919 in France in Alsace and with the Army of Occupation, and took part in the heaviest fighting. For service rendered near Soissons he was decorated with the Croix de Guerre by the French government. He was also cited for bravery in the Oise-Ainse and Argonne offensives. Captain Ackerson has also written the history of his regiment.

During the summer Captain Ackerson served as range officer at Camp Knox, Louisville, Ky., being an expert rifleman both in the regular army and the national guard. The captain praised the armory and the equipment at Iowa, saying it was much better than the equipment at the University of Indiana where he visited on his trip to Iowa.

He was pleased with the large space and the possibilities of the extensive drill grounds. He will serve in charge of the infantry freshmen.

COLORADO OPPOSES GOAL-KICK RULE

Rocky Mountain Conference is Not in Favor of the Big Ten Method

(Rocky Mountain Collegian) It is unlikely that the new method of kicking goal after touchdown will be used in the Rocky Mountain conference. The officials and coaches of the conference have recommended to the faculty conference that the rule be declared inactive in this conference and it was declared yesterday that this recommendation will be acted upon favorably at the conference meeting October 4.

Many of the coaches at the meeting Saturday agreed with Coach Murphy that the rule was not a step forward in the game and that it should be dropped. It rules that the goal after touchdown shall be made from scrimmage with both teams in action instead of the old method of a free kick.

Murphy's contention is that it will cause continual wrangling over the offside decisions of the officials because both teams will be under strain to prevent that one point and the tendency will be toward being offside. One point and perhaps the game may depend upon the decision of the officials of an offside play, a situation that places too much importance on the judgment of one man.

It will defeat the purpose of the play when it was first made to give the players of both sides a breathing spell between scores. And it will present an anticlimax after the touchdown and will add nothing to the game from the standpoint of the spectator but just one more scrimmage play.

OFFICIAL BOUNCER COMPLIMENTS ALL STUDENTS ON ORDER

Students of the University, collectively and individually, received a compliment in the way of a remark on the campus yesterday, to the effect that greater respect is being shown for the rules of campus conduct this year than in the past.

The remark was made by Mr. George Thomas, who has a right to speak on the subject. He is the official bouncer of the University campus and it behooves all freshmen to be able to recognize him by sight.

It is law at Iowa that no one shall sit in the windows of the buildings and it is also law that no one shall walk on the grass. George's motto is that no student shall leave the straight and narrow path.

When the University ended last spring signs were pasted in every window. In order to protect the grass, wire fences were built at every corner and every intersection of the walks. Practically the whole campus resembled a maze of barbed wire entanglements.

Returning students this fall were pleased to note that the window signs had been worn away by the passing months and the window cleaners; and also that the unsightly fences had been replaced by neat signs admonishing the passing public to use the walks.

Mr. Thomas requests that every student co-operate in helping him keep the campus beautiful.

Would You Like To Convince Someone That Iowa Is the Best University in the World?

THE DAILY IOWAN IS ONE UNIVERSITY ACTIVITY THAT CAN STAND COMPARISON AT ANY TIME WITH THE CORRESPONDING ACTIVITY AT ANY COLLEGE OR UNIVERSITY ANYWHERE.

COME DOWN TO THE IOWAN OFFICE, 14 LIBERAL ARTS BUILDING, AND SEE WHAT SORT OF NEWSPAPERS THE OTHER BIG UNIVERSITIES IN THE COUNTRY PUT OUT. COMPARE THE QUALITY OF THE WORK. THE IOWAN, UNLIKE SOME OF ITS COMPETITORS, EXCEPT FOR ITS WIRE NEWS AND THE MECHANICAL WORK DONE BY THE PRINTERS, IS THE SOLE WORK OF UNIVERSITY UNDERGRADUATES. THEY WRITE AND EDIT THE NEWS.

THE IOWAN'S HOMECOMING NUMBER WITH ITS ROTOGRAVURE SUPPLEMENT HAS BEEN UNIQUE AMONG COLLEGE PAPERS FOR TWO YEARS. MORE THAN 7,000 OF THIS NUMBER WERE SOLD LAST YEAR.

IF YOU HAVE A SWEETHEART WHO KNOWS SOMEONE AT SOME OTHER UNIVERSITY---

IF YOU ARE AFRAID A HIGH SCHOOL FRIEND WILL HEAR THE CALL OF SOME OTHER INSTITUTION---

IF YOU KNOW ANYONE WHO OUGHT TO REALIZE THAT THE UNIVERSITY OF IOWA TAKES NO ONE'S DUST---

IF YOU WANT TO MAKE ANOTHER IOWA BOOSTER---

GIVE US THE NAMES AND ADDRESSES AND \$3.50 FOR EACH SUBSCRIPTION, AND THE IOWAN WILL BE SENT OUT DAILY UNTIL JUNE ANYWHERE IN THE WORLD. IOWA CITY PRICES ARE STILL \$3 FOR 200 EIGHT-PAGE ISSUES DELIVERED.
