## GRASSFIELD TO CARRY ON WORK OF FALL DRIVES

### Former Union Head will Proceed With Campus Survey Plans This Year

Plans for an immediate continuance of the Iowa Memorial union campaign are well under way, and it is hoped that the half million mark will be passed before Homecoming, according to Prof. Charles H. Weller, the Union advisor.

"It must be understood that Mr. Grassfield's new plans by no means imply any slackening in the effort to carry on the project of the Iowa Memorial union," said Prof. Weller. "On the contrary, the trustees hope to press forward faster than ever, and to complete the campaign for funds within a few months. I feel confident that many who are now students in the University will have the opportunity to occupy the new building.

"Pending action by the executive committee, I have asked Mr. Grassfield to go ahead with the plans which he now has under way. These include a campus survey, for which we are nearly ready. At present a sum of about \$450,000 is subscribed, and we hope to pass the half million mark soon."

"When Mr. Grassfield became director, two years ago, only \$168,000 were subscribed. To have increased this by nearly \$300,000 during so serious a financial epoch is no small feat. When we get over the halfway ridge, the end will be in sight."

## NEW JERSEY WOMEN SUPPORT FREILINGHUYSEN BECAUSE HE STANDS DRY

By Robert J. Bender  
(United News Staff Correspondent)  
New York, Oct. 2.—New Jersey women folks nominated Senator Freilinghuyesen in the recent primaries because he was an avowed dry. They cast their votes in his favor as against George Record, his primary opponent because Record was silent on the liquor issue.

Now these same women have it within their power to return Freilinghuyesen as victor in November or relegate him to the left of these candidates who have seen the last of their seats in Congress.

### Wets Favor Edwards

Wet democrats and wet republicans alike are going to vote for Governor Edwards, the Democratic senatorial nominee. Other republican men will vote in considerable numbers for Edwards because they don't like Freilinghuyesen.

Eliminating the uncertain element of the women's vote, Freilinghuyesen today would seem to be a beaten candidate.

But the women are rallying strongly to the defense of the prohibition law. This law, previous to the primary, resulted in success for Freilinghuyesen. But, both during and since the primary, the reports, have been circulated against the senator that, while his vote and speeches were dry, his cellar and his principles were wet.

The women are out to find out if this is so. Talking with many of them in different sections of the state, the writer found that this one question dominates the minds of the women voters.

### Women Uncertain

They ask, "Is it better to vote for a candidate who professes to be dry but who at heart and in practice is said to be wet, or to vote for a man who religiously abstains from drinking intoxicants, but who believes the prohibition law is an infringement upon the people's rights, and advocates its repeal?"

That, in short is the question, the answer to which by the women of N. J., will determine whether Freilinghuyesen or Edwards gets their vote; and if the women support Edwards or remain away from the polls altogether, Freilinghuyesen chances for reelection are exceedingly slim."

## OLD CAPITOL REPAIRS NOT TO BE COMPLETED UNTIL NEXT SPRING

Mr. J. M. Fisk, superintendent of grounds and buildings, states that the arrangement of the different offices, upon completion of the Old Capitol building, has not yet been decided. Due to unexpected repairs and delay of material the structure will not be ready for entire occupancy before commencement. Unforeseen remodeling on the dome will prevent the use of the building until January 11, at which time it is hoped that a few of the most important offices may resume their former quarters.

## SPONSORS DRAW CHARGES TODAY

### Upperclass Women Will Take Names From Box in Liberal Arts Hall

All upperclass women today draw sponsors for the big sponsor-sponsor party to be given at the women's gymnasium, Thursday evening, at 7:30. A table has been placed in the corridor near the liberal arts drawing room where the names of 550 freshman women may be drawn.

Get your sponsor today. Telephone her tonight. Make your date. Call for her Thursday night and go to the best party of the year, for women only, at the women's gymnasium.

All freshman women who are not assigned sponsors before the party, Elizabeth Ensign A4 of Iowa City, chairman of the committee in charge, said yesterday should come to the gymnasium anyhow and get their sponsor there. Upperclass women, however, are asked to draw sponsors before Thursday in order to facilitate the arrangements.

The entire affair promises to be a true campus sensation. There will be games, dancing, music, and refreshments.

## HELEN PETERSON '21 APPOINTED AS DEAN BURGE'S ASSISTANT

Mrs. Adelaide L. Burge, dean of women, announced yesterday that Miss Helen Peterson will arrive today to take up the duties of social assistant to the dean of women. Miss Peterson, who is to succeed Miss Violet Blakely, is an alumna of the University of Iowa, class of 1921. She has spent the last year at her home in Keokuk where she has done substitute teaching in the city schools. She is a member of Staff and Circle and was affiliated with the Alpha Delta Pi sorority. She was active in literary societies and Y. W. C. A. work. Miss Peterson begins her duties today and will be present at the introductory freshmen lecture for women this afternoon.

## ODD FELLOWS TO HOLD ANNUAL CONVENTION OCTOBER 16 TO 20

The Iowa district of the Independent Order of Odd Fellows will hold their annual convention in Iowa City from October 16 to 20 inclusive. Delegates to the number of 700 are expected to attend, beside numerous visitors.

The biggest event is the parade on Wednesday afternoon. Three hundred dollars in prizes is offered by the local lodge for the best decorated float and the best band. The University band and the Cedar Rapids band have already promised to play, and the Cedar Falls band is expected to be here.

On Tuesday evening in the Men's gymnasium the Decoration of Chivalry will be conferred on a class of about fifty. Following this ceremony will be held the Grand Ball.

## Y. W. C. A. OBTAINS WORK FOR TWENTY WOMEN

The Y. W. C. A. employment bureau has already found employment for twenty girls from a list of seventy-five applicants, states Helen J. Wylie A2 of Iowa City, who is in charge of the bureau. Most of the calls received are for girls desiring to take care of children. Girls who will serve at parties are also in demand. Employment by the day or throughout the year may be secured.

## REPORT JUSTICE OFFICIALS WET

### Charge Illegal Transportation of Condemned Booze for Own Uses

(By United Press)  
Washington, Oct. 2.—Officials of the department of justice have again been charged by the federal grand jury here with removing illegally and appropriating to their own use large quantities of seized liquor. These illegal acts, according to the grand jury report submitted to Chief Justice Stabford of the supreme court of the supreme court of the District of Columbia by Foreman Eugene E. Thompson, were committed particularly between July 29 and Sept. 11, 1920.

"Such conduct on the part of the officers, agents, and employees of the Government," the report concludes, "especially those of a department charged with the administration of justice, is beyond our comprehension and cannot be too severely condemned."

No indictments will be presented, however, because, in the opinion of the grand jury, no evidence was obtained from the twenty-eight witnesses summoned to show that the liquor had been sold for a property or monetary consideration.

The officials are charged with having removed, without legal warrant, liquor seized during the late summer of 1920 from the offices of the department of justice and from certain local warehouses. They are accused of disposing of the liquor to friends.

## NEW GRADE SYSTEM INCLUDES ONLY FOUR MARKS ABOVE FAILURE

Every day, the freshmen of the various colleges of the University are mastering more of the complexities which they come upon, yet there are some who do not yet understand the system used for grading. The present system includes four grade marks above passing.

The first and highest is the mark "A" which is the mark of distinction given for unusually good work. "B" is the mark for superior work, and is clearly above average grades. "C" is the average grade rewarded for work which would be numerically marked from seventy-five to eighty. "D" is the lowest passing mark, and is also given when an imposed condition has been fulfilled. All work below "D" is a failure, and will have to be taken again to gain credit.

In some classes, marks are given on the average basis. The average student is picked out and his grade determined. Then the other class members are marked proportionally to the grades of the average student.

## GRINNELL FRESHMAN COED DATES LIMITED

Grinnell freshmen girls are to be allowed but one date during the week, excepting Friday and Saturday nights, according to a new ruling started there this year. Each freshman girl must get permission for any date during the week, for any night she wishes, and may secure special permission for special entertainments.

According to the Grinnell Scarlet and Black, the new ruling is a result of an effort to eliminate some of the outside interests that sometimes prevent a student from doing her best work, and it will be following out the idea of the older girls regulating the life of the underclass girls as is done in so many sororities.

Another new ruling provides for quiet hours on Sunday afternoons from 3:30 to 6. Although light restrictions have been entirely removed on Friday and Saturday nights 10:30 blinks will be enforced on all other nights. Attention was also called to the rules of long standing but which of late have been neglected. Picnics must be confined to week days between the hours of 9:30 and 7:30. This applies to all girls. The system of granting three majors or nine minors, which are levied each semester for lock-outs, failure to sign up or maintain study hours, will still be enforced.

## INSTALL NEW LIGHT SYSTEM

### Theater Here First in West to Make Use of Dimmer Plan

The only lighting system of its kind in this part of the country and one that is being used in only a few of the leading New York theaters is to be installed soon for the University theater in the natural science auditorium, Prof. Edward C. Mabie, director of the theater, said yesterday.

The new lights are said to be superior in virtually every way to the ordinary border lights now in common use at the side of stages and in store display windows. Individual dimmers control the light's color and intensity in such a way that a spot light for one scene can become in an instant a flood light for another. It will be possible for the master dimmers in the University theater, one on each side of the two portable switchboards, to regulate the individual dimmers and color effects. No shadows are cast on the audience by these new lights. Six of these lights will be installed at this time, Professor Mabie said, but more can be added at any time without undue expense or difficulty.

Present plans call for these student officers in connection with the University theater this year: Gregory Foley A4 of Rock Rapids, stage manager; Walter J. Dehner A4 of Iowa City, master of lighting; and George O. Hurley LL of Rolfe, head usher.

## ASK FOR VOLUNTEER HOSPITAL WORKERS

Volunteer workers at the Perkins hospital for crippled children who are interested in craft work, grade subjects, story telling, or the playground, are requested to sign bulletins in the Y. W. C. A. club rooms at once. A schedule of hours when girls are needed most at the hospital has been secured so that names and telephone numbers may be filled in now. If it is more convenient volunteers should see Miss Prosser at the hospital or at Carrier hall.

## PELZER TO WRITE HISTORY

Prof. Louis Pelzer of the department of history, plans to write a history of "The Range and Ranch Cattle Business," of the Trans-Missouri West. He has visited the extensive newspaper collections at the State Historical Society at Topeka, Kansas, and other collections located in Chicago, and Omaha. Last spring he spent a week at Cheyenne, Wyoming, where he obtained other extensive newspaper and manuscript materials.

## University Club Meets

The University club held its first dinner of the year last night at 6 p. m. in the club rooms in the Dey building. The following officers were installed for the coming year: Mrs. Clarence Van Epps, president; Mrs. Edward Barto, vice-president; Miss Ruth Gallaher, treasurer; and Miss Helen Williams, secretary.

The new officers acted as hostesses to the eighty members who attended. The University club is the woman's club of the University, its membership being open to faculty members, wives of faculty members, alumnae, and graduate students. A dinner is served in the club rooms to members the last Saturday of every month.

Miss Dorothy Dondore, an instructor in the department of English for the past two years, has gone to New York city to attend Columbia university. Miss Dondore is working on her Ph. D. degree.

## SMOKES NOT FURNISHED BY Y

"Inquiries came to the Y. M. and Y. W. C. A. Saturday in regard to the distribution of smokes outside of the armory Friday night after the All-U party. We desire to state that these smokes were not furnished nor approved by the associations, and thus correct an erroneous impression which seems to be going about the campus." Signed, Roscoe Nash, Pres. Y.M.C.A. Roberta Anderson, Pres. Y.W.C.A.

## NEW COUNCIL IS ASKED TO MEET BY DAILY IOWAN

At the last meeting of the Student council no provision was made for an election committee to supervise the coming fall election. The Daily Iowan is calling a meeting of the New Council for this afternoon at 4 p. m. in room 13 liberal arts building. This meeting is called to arrange for the elections this fall.

## COMMERCIAL CLUB PLANS IDEAL CITY

### Club Opens Campaign to Improve City as Home for University

In what respects does Iowa City fall short of being an ideal city for the home of the University of Iowa?

What constructive suggestions would you make to the people of Iowa City, including the University men and women, if they should get together for the building of as near an ideal University city as possible?

Students and faculty members, and others connected directly or indirectly with the University, are invited to answer the foregoing questions by the campaign executive committee of the Commercial club reorganization campaign. They want any suggestion of a constructive nature that any one may have, whether it is the answer to the questions listed here or not. They may be signed or not, as the writer wishes and should be addressed to the "Survey Committee, Iowa City Commercial club."

The information is desired for the purpose of obtaining suggestions for the future work of the greater Iowa City Commercial club, and for obtaining the viewpoint of University men and women.

Far-sighted citizens of Iowa City are realizing more than ever the tremendous possibilities of the University of Iowa in becoming one of the first few universities of America, not only in enrollment but in its scholastic standing. They realize the great responsibility the city will have in making itself efficient in housing the students and making them contented. They agree with President Walter A. Jessup's statement in his recent letter endorsing the forward movement:

"It is hard to over-estimate the influence of the city of Iowa City as a factor in the development of the University."

## ELI FAN THINKS IOWA IS 'BATES OF WEST'

"Yale varsity squad; can you beat them," is the challenge issued to the Iowa football team and its supporters by a Yale roofer. This defiance runs along the top edge of a picture of this year's Yale squad that was received in a box of electrical supplies that came to Iowa City from an Eastern city.

Not satisfied with the challenge at the top, this strong Yale fan begs the University of Iowa to bring along a team that will at least make the Eli's extend themselves. "Bring along a team that will be able to force these boys to their utmost as no team yet has been able to do," is his message.

## CAMPUS AVERAGES TO BE RELEASED SOON

Fraternity averages, as well as those of various colleges, the quadrangle, Carrier hall, literary societies, and the general averages of the men and women will be announced soon, H. C. Doreas, Registrar, said yesterday. Last week, averages were sent these organizations from the office of the dean of men with instructions to correct all errors and report them immediately. These corrections are now being made and averages will be published the latter part of this week.

Each year the fraternity has to make an average equal to that of the non-fraternity man or go on probation. If it does not make this average it loses the right to pledge men, give parties, or allow freshmen to live in the house until it is again in good standing. Last year several fraternities were put on probation.

## REPORT KING GEORGE II IS HELD PRISONER

### Greeks Split; Charge of Blockade is Denied But Hint at Action

(By United Press)  
Bulletin, Athens, Oct. 2.—Greek destroyers have seized two ships which were said to be transporting Kemal irregulars to Thraee, with an intention to form anti-Greek bands.

Belgrade, Oct. 2.—Greek revolutionists are reported to be holding King George II a virtual prisoner in the royal palace. No one is allowed to enter or leave the palace except the Roumanian minister and that is only allowed because the queen is a Roumanian princess.

Followers of former Premier Venizelos and the revolutionaries are reported to have split into opposing sections. The Venizelists refuse to serve with the revolutionists declaring that one or the other section must be supreme.

## Britain Denies Blockade

(By United Press)  
London, Oct. 2.—Both the foreign office and the admiralty say they have no knowledge of any blockade at the Dardanelles and the Bosphorus as charged in the latest Soviet note from Moscow.

It is admitted that Admiral Brock, the British naval commander at the straits, may have imposed such a blockade but they seriously doubt this. The United States shipping office here has not heard of any interruption of any of its ships in the Black sea trade. The British foreign office issued the text of the Soviet note which vehemently protests against a blockade at the straits. The Soviet charge that their efforts to rehabilitate their country is being frustrated by the alleged blockade. The Soviet charged that the British commander at the straits had ordered all British warships to fire on any ship disregarding the blockade. This is the third note received from the Soviet government in three weeks. None of the communications has been answered.

## May Blockade Greece

(By United Press)  
Paris, Oct. 2.—The allies may threaten Greece with a naval blockade if she displays an undue reluctance to evacuate Thraee.

This method of enforcing the allied decision is at least being discussed in diplomatic circles in view of the recent revolution in Greece and the avowed determination of the new government to hold Thraee regardless of the edict that it must go back to Turkey. It is generally agreed that the new government will not be inclined to hand over, without a murmur, a thousand square miles of territory which was originally given to Greece by the Allies, and which the allies now say must be given back.

Likewise, it is agreed that the allies can hardly stand by silently and allow the Turks to reoccupy Thraee by force. Neither will the allies be likely to send their own troops in to oust the Greeks.

Diplomatic officials therefore have come to the conclusion that if pressure is necessary a naval blockade would be the most logical course. It would be inexpensive, and would quickly cut off the Greek supplies. Diplomats here believe that a delicate hint of naval action would probably be sufficient to effect the desired evacuation of Thraee. France is confident that a peaceful settlement of the Near East situation is in sight.

## SELL HANDBOOKS AT FRATERNITY HOUSES

University handbooks were sold last night at all fraternity meetings in order that all Greek letter societies might have an opportunity to purchase these books. The handbook committee carried out such a plan in order to further the sale of the books since the committee must sell 1,000 including those already sold if they are to have none left over. Many were sent to freshmen before they came to school.

## Y. W. C. A. HOLDS FIRST MEETING

Year's Plans are Made; Will Hold Party for Sponsors and Sponsors Thursday

At the first full council meeting of the Y. W. C. A. in the liberal arts drawing room, Monday, Miss Alvina Buck, new association secretary at the University of Iowa, was introduced by the president, Miss Buck is here to help make every year a better year for Y. W. C. A. During her office hours, she welcomes all women who care to call.

### Plan Membership Drives

After devotionals led by Salome Fisher, each department reported on prospective plans. The membership committee plans for a membership drive from October 19 to November 1. The drive will close November 1 with the annual membership banquet. It is emphasized that all those who have joined Y. W. C. A. previous to this time, whether at the University or not, are invited to take an active part in association affairs.

During registration days, from September 21 to 23, incoming trains were met by Y. W. C. A. girls in automobiles. Many freshmen and newcomers

## The Junior Miss Doubtless Needs A New Coat

At Least for Best Wear

Last year's coat may do very well for school wear or knock about purposes, but it's hardly good enough to slip on when going out to fill a date, to church, or elsewhere when you want to look your very best. Besides you just simply couldn't stand to wear it over a dainty gown.

Soft faced woollens fashioned in the very latest with blouse back, or tabs trimmed at the end with fringe or fur and a big fur collar that will add smartness as well as warmth on a cold day or night when hurrying home is what we have in mind for you.

They are models that are designed for the Miss that is usually hard to fit with a suitable style. We have been buying just these special styles for years and know what you need.

Let us have the pleasure of showing you the first time you are passing by. Won't take you long to select one. Materials are Gerson, Veldine, Luxuriant, Normandy, etc. Brown, Navy, Sorrento. Prices from \$25.00 to \$59.50

YOU WILL FIND US AT 10 S. DUBUQUE ST.

**Rothschild's**

in the city benefited by this service. More "Cozy's" are scheduled by the social committee. These are informal gatherings held each Sunday in various Iowa City homes so that groups of women may become better acquainted.

### Poster Workers Wanted

Volunteers are solicited by the publicity department for poster work. Those willing to do a share of such work are asked to notify Charlotte Fisk A3 of Iowa City.

Every Wednesday afternoon from 4 to 5 o'clock, informal Y. W. C. A. meetings will be held in the liberal arts drawing room. The meetings, as planned, fall into three parts: devotional program followed by music; a speaker on some subject of campus interest; and a social hour from 4:30 to 5 o'clock when tea will be served.

Roberta Anderson, president of the organization, appointed Catherine Hamilton, Melba Carpenter, and Judith Tornell as a nominating committee for vice-president.

The election will be held at the regular meeting Wednesday when all members may vote.

## FROSH COMMISSION WILL BE SELECTED

Twenty Girls Will be Chosen by the Y. W. C. A. Cabinet for the Commission

Although the plans for freshman commission are not definitely settled as yet, they are rapidly under way. Verne Shaw A2 of Watertown, S. D., president of the commission, said, "Next week a meeting will be called to decide and complete the preparations for selecting a new commission from the freshman girls."

At the beginning of each year twenty girls of the incoming freshman class are chosen as members of the freshman commission. Members of the freshman class are divided into twenty groups with approximately twenty girls in each group. The members of the freshman commission for the preceding year choose two girls from each of these groups. The Y. W. C. A. cabinet then elects twenty members to serve upon the freshman commission from the forty women previously chosen.

The fundamental purpose of the freshman commission is to train and equip University women to serve as members of the Y. W. C. A. cabinet at some future time in their University career. Besides this important function, the members of the commission aid the dean of women in her work and lend aid to the freshman women of the University by holding occasional parties for freshman girls, and by discussing campus problems.

Verne Shaw is president of the commission, Margaret Sayers A2 of Jefferson is vice-president and chairman of the program committee, Lydia Walker A2 of Des Moines A2 of Des Moines is secretary, and Helen Wylie A2 of Iowa City is treasurer.

The other members of the freshman commission are Mary Carson A2 of Iowa City, Eleanor Chambers A2 of Corwith, Vivian Conrad A2 of Burlington, Anna Doornink A2 of Sioux Center, Hortense Finch A2 of Davenport, Wilhelmina Clara Grimm A2 of Iowa City, Maxine Shoemith A2 of Guthrie Center, Ellen A. Shope A2 of Des Moines, Thelma Whimpey A2 of Albia, Judith Tornell A2 of Pilot Mound, Lorraine Luthmer A2 of Sumner, Marion Ansel A2 of Iowa City, Evelyn Byrne A2 of Dubuque, and Marjorie Green A2 of Des Moines.

### AMES STORES ROBBED

Three thousand dollars worth of clothing was stolen from a store at Ames recently. Eight dozen pairs of women's silk hose, all the knitted ties in the store, and two or three traveling bags were included in the loot.

## HARRIER'S BEGIN WORK IN EARNEST

Wisconsin Cancels Meet With Hawkeyes; Leaves Three Contests

Varsity cross country work began in earnest with last evening's practice. A schedule of daily work has been made and placed in the locker room, and is being followed very carefully. The greater part of the squad has recovered from leg soreness which is prevalent during the first of the season, and is now ready for real work.

The men ran through a mile last night, changing the pace every lap, and finishing off with an easy quarter. On next Saturday, immediately after the Knox game, the squad will run a mile against time. From now on the work will be more strenuous in preparation for the coming meets.

Wisconsin has cancelled her meet with the Hawkeye team because her schedule was too heavy. This leaves three meets to be run off: Cornell, there, Nov. 4; Minnesota, here, Nov. 11; and the Conference meet at Lafayette, Ind., Nov. 25.

Three new names appeared on the Varsity weight sheet last evening. They are: H. C. Munson, a Varsity track man last spring, F. W. DeKlotz, and L. H. Hervey.

The freshmen are responding in great numbers for the workouts preceding the first freshman fall track meet. Twenty-five men reported in suits to Coach Geo. T. Bresnahan at 5 p. m. last evening following freshman lectures. Not only track men, but future pole vaulters, high jumpers, broad jumpers, and shot and discus men were working out. This year's fall squad of first year men is the largest, by far, of any of those of preceding year.

## JUNIORS TO SUBMIT HAWKEYE PICTURES

October 14 Set as First Day for Annual Photographs

Saturday October 14, has been set as the first day for the juniors to have their pictures taken for the 1924 Hawkeye, according to Stephan Wollman A3 of Council Bluffs, editor in chief. "If the members of the junior class would be prompt in turning in their pictures, it would greatly speed up the work of publishing the books," Wollman stated yesterday. Therefore he urges that everyone take special pains to turn in their photograph as soon as possible.

Due to the congested conditions in office room, caused by the repair work on Old Capitol, the Hawkeye office has not yet been assigned. However it is expected that a temporary office will be set up within the next few days.

Attention is called to the fact that all sophomores desiring to try out for the positions of business manager and editor in chief of the 1925 book should report to the present business manager, Booker Smith A3 of Fairfield. Stenographers, especially, will be in demand.

The Hawkeye staff has not been appointed. The places on this staff will be assigned sometime during the month of November.

### MATRICES HOLD FIRST MEETING

The Matrice club held its first meeting of the year yesterday at 4 p. m. in the liberal arts building. All the old members were present and seventeen new girls reported.

The Matrice club was organized last year for the purpose of helping the girls taking journalism to write stories for the Iowan and also to help them with outside work for other papers. This club keeps the beginning girls interested in journalism so that they may become members of Theta Sigma Phi, journalistic sorority, providing their grades are up to the standard required for that sorority.

The regular meeting will be held the first Monday of every month. A special meeting for old members only will be held next Monday.

### BOOK EXCHANGE IS NOW OPEN

Primarily for freshmen are books reported for sale at the Y. M. C. A. book exchange on the corner of Iowa avenue and Clinton street. However upper classmen will find many that they need also.

These books mainly in stock are histories, English classics and text books, French grammars and readers, chemistries, geologies, and math books, although others may be found.

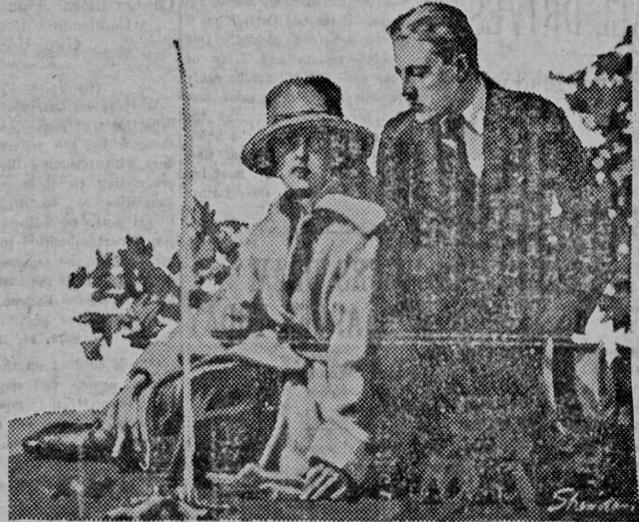

The prices are very reasonable and many of the books are unobtainable at the bookstore.

### STILL HOPE TO GET YALE GAME REPORTS

Telegraphic play by play reports of the Yale-Iowa football game will probably be received in Iowa City, although final arrangements have not yet been made. If the weather permits, these reports will be read on Iowa Field in conjunction with the freshman track meet. In case of bad weather, they will be received at the new armory. Admission will be fifty cents for those not possessing "I" books. Holders of athletic year books are admitted on one of the tickets in their books.

MEDICS and DENTS!  
FOUNTAIN PEN FLASH LIGHTS  
Just arrived. Also a fresh stock of batteries  
**LILLY ELECTRIC CO.**

Theta Xi fraternity announces the following pledges: Wilbur Anderson of Clinton, Ralph Fryder of Iowa City, Charles Martindale of Clinton and Frederick Homer of DeWitt.

## LITERARY SOCIETIES

### Athena

Athena will meet tonight at 7:30 in Close hall. Irene Boughton A4 of Sioux City, president, asks all old members to be sure to attend, as there will be an important business meeting to discuss plans for the coming year, and also a program.

### Erodelphian

Erodelphian will meet tonight at 7:15 p. m. in Close hall. All old members are asked to be present by M. Francis Smith A4 of Montezuma, president.

### Hesperia

Margaret S. Altman A4 of Livermore, president, announces an important meeting of all the old members of Hesperia tonight at 7:30 in Close hall.

## PERSONALS

Miss Florence Fisher M.A.'22 of Rock Rapids is teaching in the department of social sciences at the State Teachers college at Cedar Falls this year. Miss Fisher graduated from the University in 1921 and did social service work last year while she was working for her master's degree. She was a member of Gamma Phi Beta sorority.

Miss Florence Thompson A'24 of Grand Junction, and Charles B. Sweeney B.A.'22 of Sutherland are teaching in the public schools of Baton N. M. Miss Florence is mathematics instructor and Mr. Sweeney has charge of the physical education. Mr. Sweeney was prominent in athletics at the University, having won the intercollegiate championship of the middle west in wrestling last year.

Dr. H. C. Ailand of Newton, who graduated from the college of dentistry last June, has bought the practice of Dr. J. B. Hathorn in the Iowa building in Des Moines where he is practicing.

J. Elliot Davis of Marion and Douglas F. Boynton B.A. '22 of Cedar Rapids were week-end visitors at the Sigma Alpha Epsilon fraternity house.

Miss Malvina McKenna B.A.'22 of Cedar Rapids is teaching English in the high school at Van Horne. Miss McKenna was a member of Delta Zeta sorority.

C. J. Albrecht, a former Iowa student, accompanied by his wife and daughter, visited a day and a half the latter part of the week with Prof. Homer R. Dill, director of the invertebrate museum. Mr. Albrecht, who graduated from the University about 1915, is now curator of the zoological exhibits in the state museum at the University of Washington at Seattle. While a student here he specialized in museum work, and was an undergraduate assistant to Professor Dill.

In 1911 he accompanied Professor Dill to Laysan Island on the famous Laysan Island expedition. Previous to his visit here last week, Mr. Albrecht visited at Waverly, his former home. On his return trip to Seattle, he will stop over at Denver to visit a former classmate and Iowa student, Alfred Bailey, who is now in the Colorado museum of natural history at Denver.

Attorney and Mrs. Harvey H. Hindt of Rock Rapids, are spending a few days in Iowa City, visiting with friends, having just returned from an automobile trip through Minnesota and Wisconsin. Mrs. Hindt was formerly Miss Charlotte Wichman B.A.'22 of Garner. She is a member of Alpha Delta Pi sorority. Mr. Hindt was graduated from the college of law last June, and is a member of the Acacia and Phi Delta Phi fraternities. Mr. and Mrs. Hindt will live in Rock Rapids, where the former practices law.

Miss Sara Hamilton B.A.'21 of Fort Madison is teaching Latin and English in the high school at Danville.

### Honor Mrs. Hindt

Alpha Delta Pi sorority entertained at the chapter house last night in honor of Mrs. Charlotte Wichman Hindt B.A.'22, who is spending the week-end here. Mr. and Mrs. Hindt are on the way to their new home in Rock Rapids.

### Pi Phi Open House

Pi Beta Phi sorority will entertain at open house next Sunday afternoon, honoring their fourteen pledges.

### Xi Psi Phi

Xi Psi Phi, dental fraternity, on Saturday night at the chapter house, 325 last night at the chapterhouse, 325 N. Clinton. Dr. and Mrs. I. B. Smith and Dr. Mrs. H. J. Pierce chaperoned.

## WOMEN'S SOCIETY NOW UNDER WAY

Will Enable Freshman Women to Show Their Talent in Literary Work

Last year before the University closed, the Forensic council passed favorably upon the formation of an all-freshman women's literary society. A committee was appointed by the president to make plans during the summer. A report was given by the chairman of this committee, Pearl V. Davies A4 of Plymouth, before the Forensic council at their first meeting this year and was accepted.

The society will be run by the freshman women, but will be sponsored by the Forensic council, aided by a faculty representative from the department of speech and one from the department of English. These will be announced later. The society is to enable freshman girls desirous and capable of doing literary work to acquaint the literary societies with their abilities. Only freshman women can be active members and they cannot be pledged during their freshman year to any of the other six literary societies. This, however, has nothing to do with the pledging of upper classwomen, which may be done as heretofore.

There will be a detailed talk given before the freshman girls at freshman lectures in order that they may understand fully what is being done.

### GENEVA CLUB TO MEET WEDNESDAY AFTERNOON

All girls who attended the Y. W. C. A. summer conference at Geneva and those who are already members of the Geneva club will meet in the Y. W. C. A. club rooms Wednesday, following the regular association meeting, to picnic at Saunder's hill. Each Geneva club girl may invite a guest, according to Margaret B. Stephenson A4 of Cedar Falls, who is in charge of arrangements. A charge of twenty-five cents will be levied on each girl. Those who expect to attend the affair should sign up with the chairman before Tuesday evening. Any girls who have attended Geneva conferences as representatives from other schools are especially welcome.

## OCTOBER PALIMPSEST WILL TELL ALL ABOUT THE PALACES OF IOWA

The second issue of the Palimpsest will be out about the middle of October with Prof. J. E. Briggs as the new editor. This issue will be the second under his management, the September number appearing several weeks ago.

Prof. John C. Parish, the editor last year, is now teaching in the southern branch of the California University. Palaces of Iowa will be the subject dealt with in the October Palimpsest. Not many people know that Iowa can boast of once having palaces, the largest of which covered several blocks. The most famous group was the Corn Palaces of Sioux City, covered entirely with the yellow grain.

The first one was built in 1887, and then rebuilt for four consecutive years. In 1891 the Palace was visited by President Cleveland, a group of South American statesmen, and many other people from all over the United States. Because of the fame and publicity Sioux City received, Creston imitated her with several Bluegrass Palaces, and Ottumwa followed with a Coal Palace.

Prof. J. E. Briggs will write on the Corn Palaces, Bruce E. Mahan, graduate student, on the Blue Grass Palaces, and Carl B. Kriener on the Coal Palace. The November issue will concern athletics. When Iowa was Western Conference champion in 1900, will be told about in detail. How many know that Sioux City won the world series in 1891 against Chicago. The Palimpsest will contain a full account. A third article will be on "Pop" Anson, the famous baseball character of the Mid-west.

Bruce E. Mahan lived one day with the Trappist branch of the Cistercian Order of Monks, in their monastery twenty miles south of Dubuque. He tells all about their customs and manners of living in the September Palimpsest.

## COAL SUPPLY AMPLE TO KEEP UNIVERSITY WARM DURING WINTER

There is not much need to worry about the coal supply running short this winter from the way the situation appears at present. To date about seventy car loads have been stored and coal is being shipped in at the rate of approximately twenty-five car loads a week.

It is impossible to estimate very accurately how much coal it will take to heat all the University buildings for the year but twenty thousand tons were used last year according to official figures.

### THE DAILY IOWAN PLATFORM FOR A GREATER UNIVERSITY OF IOWA

1. Curtailment by the social committee of all inactive organizations.
2. Maintenance of Iowa traditions and customs.
3. A strong student council.
4. Recognition of the cultural as well as practical background of education.
5. Broader democracy and greater unity of the student body.
6. The University of Iowa above all fraternities, sororities and other groups.
7. A change in student attitude which will make an honor system possible.
8. Every student and alumnus a member of the Memorial Union.

### THE STUDENT'S CHECKBOOK

Classroom work, now in its second week, has become a settled routine in the average student's life. Professors have taken on their various personalities in the eyes of the verdant seekers after wisdom; no longer are they merely the ones who instruct. The liberal arts groups are arranging their class tickets and the senior laws have started carrying their canes. The engineers are figuring a new slogan for "Knocking Knox." Rushing week is history but the Greek letter organizations have their ears to the ground for good men, so-called. Mr. Jones has about completed the task of polishing the Hawkeyes for their invasion of the East. Meanwhile, the numbers in the student's checkbook rise as the balance mark goes down the scale.

Time flies, but not nearly so fast as the stubs in one's checkbook grow. The stubs are material evidence of the high cost of an education. If one remembers the grade school admonition of the twenty-four golden hours, lost yesterday somewhere between sunrise and sunset with no reward offered, he can apply it to the amazing manner in which a check account loses its punch. "No Funds" written across a student's check is as the golden hours of yesterday.

From September until June many things happen; many accomplishments are achieved; many checks are written. For each check there should be a gain, not necessarily material, but something by which the student can feel he has value received for the stub he holds. Action counts as time flies. Now, before the check stubs increase, is the time to do something. To wait for the campus to seek you for its various activities is to commit folly with the checkbook; you must go to the various activities and present yourself. Your stubs will admit you at their gates if you are really here for a college education.

### THE OPEN DOOR POLICY

Somewhat in contrast to the idea of forming an "aristocracy of brains" advanced by Ernest M. Hopkins, president of Dartmouth, and Walter Dill Scott, president of Northwestern, comes the plea for an "open door policy" by Jasiah H. Penniman, acting provost of the University of Pennsylvania.

The question of limiting enrollment has been a point of contention in college and university circles for the past few years owing to the increasing number of students and the corresponding lack of physical accommodations for them. Apparently the "open door policy" and the "aristocracy of brains" are diametrically opposed. Yet both aim at the same thing—they only differ in method. One would eliminate students before they enter; the other after they have had a chance to prove themselves. Provost Penniman and those who champion the "open door policy" seem to do so more from the standpoint of the people and the nation rather than the university.

"If a college or university, and more especially a university, is really worthy of the name," Provost Penniman is quoted as saying, "it exists to preserve, to disseminate and to increase human

knowledge. All else is incidental, though important, and its student body must consist of those through whom it can best perform those three functions.

"No American institution, unless private and restricted, has the right to adopt a method of selecting candidates that in any way violates the principles laid down in the Declaration of Independence or the rights of American citizens as guaranteed by the Constitution.

"To shut the door in the face of the eager, aspiring, earnest youth who has set his heart on coming to college, and who is of good character and who has qualified academically, by telling him that 'we are sorry that we have no room for you' is a serious thing," said Provost Penniman.

"He may or may not be able to go to some other institution. This year and this institution may be for various reasons the only chance of his life.

"What is to become of the boys and girls who are prepared for college, who wish to enter, and who are refused admission? And what is to happen to the country if we fail to educate adequately young men and women who may become embittered by their failure to be received and who may, with a little help from others who are dissatisfied, come to regard colleges and universities, which ought to be and originally were, the most democratic places imaginable, as places of aristocratic privilege?"

### YOU OUGHT TO KNOW

Old Capitol, the administration building of the University, and center of student activities, was Iowa's first seat of state government. The corner stone of this excellent example of classical revival style of architecture was laid July 4, 1840.

Rising in the midst of a pioneer, the classic lines of the Old Capitol must have looked strange by comparison with the early homes of the first settlers. It was fifteen years, however, before the building approached a stage of completion.

Standing in the way of construction were difficulties in getting good building stone, money shortages and other exigencies of pioneer life. The territory first provided \$20,000 with which to erect a state capitol but before it had been completed, according to the more or less imperfect records of the time, about \$112,000 had been expended.

The fifth legislative assembly of the Territory of Iowa met in the Old Capitol in December, 1842, when it consisted of nothing more than bare wall and a roof. In due time the interior was finished, a portico and cupola added. Three state constitutions and the code of 1851 were drafted in the building before the seat of government was transferred to Des Moines in 1857. Iowa had been admitted to the Union as a state in 1846.

The transfer of the state capitol from Iowa City to Des Moines was made for the same reason that it had been previously moved from Burlington to Iowa City—to get more nearly in the center of the westward-moving population. Simultaneously with this move came the determination of the General Assembly to make the building which was already known as the "Old Capitol" the center for a state university.

### The Sounding Board

#### THE MODERN POET SINGS

Oh, I don't know a sonnet  
From a tripping triolet;  
To write with rhyme or reason  
Was never my best bet.

But still my lovely poems  
Are always quite the rage,  
And critics often call me  
The wonder of the age.

How do I write my poems?  
My method is a peach:  
I join together, hit or miss,  
The various parts of speech.

**HISTORICAL FACTS YOU MAY NOT KNOW**  
The newspaper column, as a device for helping fill up the editorial page, was used by the ancient Egyptians as early as the year 4000 B. C. Some of the jests that made Ramese II caekle are still favorites with column conductors.

About this time of year pictures of the "home town girl" are enshrined on chiffoniers, flanked on one side by Limpid hair oil and on the other by Lava shaving lotion.

The frame building now in process of construction south of the hall of engineering will house the president's office, we are told, "until the completion of the repairs of Old Capitol." Then they'd better make it of something more substantial than wood.

## Togs for the Campus And Dress Occasions

Will Be Exhibited

**Englert Theatre**  
This Evening at 8 o'clock

Other entertaining features—Harp renditions by Florence Deaton, and

**MAY McAVOY**  
in "The Top of New York"

THE PICTURE WILL START AT 6:45

The 45-minute Promenade will follow immediately

Those who arrive at the Theatre at 6:45 may see the picture and the promenade and have ample time to get home before 10 o'clock.

Don't fail to see the 45th minute promenade. It starts at 8 o'clock sharp.

THE FIRST THING YOU NEED TO START YOUR COURSE

## The 25-Year Parker

The Classic of pens, with Super-smooth point and Over-size ink barrel

Handsome Than Gold!

FIRST choice, by count, of 62 men in 100, Parker's lacquer-red Duofold has become the All-American Pen in the leading universities and colleges.

Its point is guaranteed for wear and mechanical perfection 25 years! Hence here is not only the handsomest, handiest pen to use—it's the most economical to buy!

Its Over-size ink capacity makes it a long-distance writer—just what every student and educator needs for study, classroom and lecture.

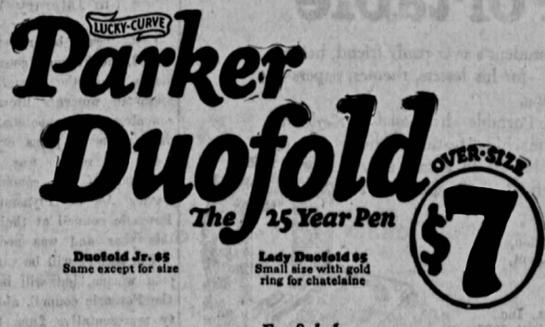

Hands crave the balanced swing of the Duofold's big, black-tipped barrel; its native Iridium point—like a smooth jewel bearing—fills you with an urge to write!

Step up, today, to our pen counter and try it—try it alongside any other pen at any price. There's not another like this 25-year pen. It's the crowning achievement of Geo. S. Parker, noted as inventor of the leakproof "Lucky Curve."

Lady Duofold and Duofold Jr.—the famous \$7 Duofold in a smaller size, \$5.

Press the button and Duofold drinks its fill—a double ration, too. No pumping—no filler projection to catch on the clothing and spill ink.

Duofold Jr. \$5 Same except for size

Mr. Schroe prepared to coach struct in physical placed in secondary This year, acco building are more 800 new lockers w week, to meet pr men should have lo els to the exte been received res The building is the department of

## PRACTICE SLOW; REGULARS BACK IN OLD PLACES

### Kadesky, Despite Small Stature, Grabs Ball From Taller Opponents

Last night's practice witnessed the usual light Monday night workout, and a slight feeling of disappointment was prevalent in the large crowd of impatient fans who witnessed the drill. This was due mainly to the listless play and lack of the usual amount of pepper and drive that the first and second squads have been showing in the past week. Part of this seeming lack of enthusiasm on the part of the players may be accounted for in the absence of regular quarterback Parkin from the lineup.

#### Rich Leads Varsity

Rich led the varsity through a half-hour's signal drill to open the practice, and after the men had warmed up the first and second squads alternated in working forward passes on the third string. Rich, who did the flinging for the varsity, and Blake, who tended to the passing for the seconds, were both more or less erratic, and as a consequence many of the passes were either blocked or intercepted by the third team.

#### Plays Work Nicely

Several of the plays worked very neatly, however, with Kadesky showing up well on the receiving end. Kadesky does not seem to let his lack of height handicap him in the least, as he was seen to pull a couple of flips directly out of a taller opponent's hands. None of the teams played hard in the scrimmage, and no charging or tackling was engaged in by either side.

Nugent, who has been on the hospital list with a bad Charlie horse, was out in uniform again, and was shifted from his usual wing position to half, where he worked with the scrubs. Hancock, who has been out with a bad side, and Captain Locke, who has been bothered with his knee, were both back in their regular places on the varsity. Duhm and Hicks were unable to report in suit as yet, but watched the practice back of the team. Parkin, varsity quarterback, who was taken to the hospital yesterday with blood poisoning in his arm, is considerably better today and was also on the field in civies. If no further complications set in he will no doubt be able to start the game next Saturday.

#### Knox is Defeated

Knox was defeated by Iowa Wesleyan Saturday to the tune of two touchdowns, which goes to show that the Illinois college is not as strong as it has been in former years. The Iowa team should have little trouble in running up a huge score on their lesser opponents, and will no doubt work many of the forward pass formations which were shown in last night's practice.

### CLASSES IN PHYSICAL EDUCATION FOR MEN STARTED YESTERDAY

Classes in physical training for men started yesterday morning at 9:00 a. m. Although there are now eight freshman and three sophomores sections scheduled, the large enrollment may cause additional classes to be formed, Ernest G. Schroeder, Director announced today.

#### Must Take Swimming

Before regular classwork begins, all men are required to swim two lengths of the pool, using any stroke they choose. Those who pass the test will take the regular work in gymnastics required of all first and second year men. Those failing, will be assigned to classes in swimming until they can pass the test. Coach David Armbruster will instruct the swimming classes.

Sophomores with a year's physical training to their credit may enroll for any number of special classes, as: boxing, wrestling, Indian clubs, heavy apparatus, or may go out for varsity athletics or tennis. But all enrolled students including those out for football, must report this week for the first class for which they registered.

#### Start Courses

Three new courses, gymnastic technique, theory of coaching athletic teams, and theory and practice in playgrounds have been added to the curriculum this year. Mr. Schroeder says that men prepared to coach athletic teams or instruct in physical education are easily placed in secondary schools.

This year, accommodations in the building are more complete than ever. 800 new lockers will be installed next week, to meet present demands. All men should have lockers by now. Towels to the extent of 250 dozen have been received recently.

The building is used exclusively by the department of physical education

and athletics. During a greater part of the day, however, it is available to all students caring to use it.

### MARGARITA MCGOVNEY ELECTED PRESIDENT OF SWIMMING CLUB

Margarita McGovney A2 of Iowa City was elected president of the Seals club, honorary woman's swimming organization, at a meeting held last night. Miss McGovney last year placed in every meet held.

The Seals club announces that it will hold tryouts beginning Wednesday, October 11, from 4 to 5 p. m., and continuing for a week thereafter. Girls must sign up at the women's gymnasium immediately if they wish to try out. The requirements are as follows: three simple dives, swimming sixty feet in eighteen seconds, long distance plunge of twenty-five feet, and three standard strokes in good form or she may become a Seal for excellence in any one branch if approved by the judging committee. The Seals will be present at the tryouts.

"Every girl who can swim is urged to try out," said Beatrice McGarvey, head of the judging committee, who will be assisted by Almeda Cutting A4 of Decorah and Pauline Spencer A4 of Des Moines.

### 1300 RESERVATIONS MADE FOR KNOX GAME; CHANGE SEATING SYSTEM

To date about 1300 reservations have been made for the Knox game, and if anyone has not yet made reservations they can be secured any afternoon from 1 to 6 at Whetstones.

"There will be plenty of ushers to take care of the crowd," Coach Bresnahan said. Candidates for usher jobs will meet Thursday October 5 at 4:15 p. m. at the west grandstand, where they will be provided with charts of the Iowa Field and given instructions as to their duties. The seats will all be reserved.

The grandstand has been enlarged during the summer and a different seating system will be used. The L on the reserved ticket means the lower twenty rows and U means the seats above the twenty row line.

### ANNOUNCES PERSONNEL OF ORCHESTRA; WILL REHEARSE AT SEVEN

Prof. Frank E. Kendrie announces that the personnel of the University orchestra, including those who passed the tryouts is as follows: violins, Adolph Herzberg, Helen Roberts, H. F. Larsen, J. W. Scott, S. H. Borbov, Robert Barkley, Margaret Smith, A. E. Burton, Alma Buuck, Finch Wagner, Oscar H. Hoth, Ernest Friberg, Lydia Pless, Franklin Clark, Edward Hartman, Rudolph Fautz, G. Leo Gohmann, Ellen Jones, M. T. Camp, R. T. Russell, Anna Gray, Bertha H. Rahto, E. G. Linder, Fern Wilson, W. C. Pickard, Willard Marble,

Prof. R. P. Baker, viola, Walter Potter, cello, E. L. Horst, viola. Chester Leese, Inst., bass. F. L. Whaley, bass. Bruce Potter, bass Laura Potter, flute. C. A. Butler, oboe, W. F. Brant, oboe. Leone Dimond, clarinet. J. F. Silha, clarinet. H. Bolender, horn. R. F. Miller, bassoon. W. I. LaMont, B flat saxophone. Maurice T. Iverson, B flat saxophone. B. M. Carson, trumpet. Paul L. Rainer, trombone. C. L. Leedham, tympani. Richard Russel, piano.

Rehearsals will be held in the band room which is in the small brick building back of Old Capitol. The string section only will rehearse on Tuesday evenings. Full orchestra rehearsal will be on Thursday evenings. Both rehearsals begin promptly at seven o'clock. There will be a string rehearsal tonight, and a full orchestra rehearsal on Thursday evening of this week.

### YEARLINGS COACHED ON VARSITY PLAYS

Coach Aubrey Devine is losing no time in instructing his yearlings in using the varsity style of play. Last night he lined up five teams and sent them through some of the more simple plays. The frosh showed unusual ability in learning them and went through the plays in good shape. They will be drilled thoroughly in line bucks and off tackle plays before being given the more complicated plays.

The freshmen aspirants spent the early part of the evening in running down punts. Everyone took part in this work even centers and guards, who usually are somewhat slower than the wing men. A number of good punters were uncovered and demonstrated that they could boot the oval to good advantage. They were, however, just a trifle slow in getting off their kicks. Under Devine's personal instruction they improved rapidly. For a few days practically the same program as was carried out last night will be the schedule.

## 700 FRESHMEN HEAR RIENOW

### John J. Dondore Leads Yells and Explains "The Iowa Fight"

Seven hundred freshmen met in the natural science building for the first real freshman lecture of the year yesterday. Robert Rienow, dean of men, addressed them. After announcing that hereafter freshman lectures would begin at 4:15 on Monday afternoons and close at 4:55, he introduced John J. Dondore A4 of Iowa City, representative of the Howling 300.

"You can't know the University of Iowa without knowing her yells," said Dondore, and then he demonstrated and led the men in the Who-wa-wa. "The Howling 300 is an organization whose purpose is to promote college spirit. We have our own section reserved in the bleachers at Iowa Field for football games. Last week we had our first organization meeting and next Wednesday we intend to have another at 7:50 in the natural science auditorium. Last year our aim was to have between 250 and 300 members; this year we will have to extend our organization so that we may have between 350 and 400 members. Our membership fee is one dollar. Last year we used this money to send a representative to away from home games to place Iowa banners on the football field. When Ohio State played football at California we sent her a telegram of seven hundred words wishing her success in defending the mid-west's reputation. Last year we received one from her congratulating us on our conference championship after she had been put out of the race by a fluke in the Illinois game." He then led them in the old Iowa yells.

Dean Rienow then addressed the freshmen in an informal lecture.

## AMES FRESHMEN BUY CAPS BY NEW SYSTEM THIS FALL

(Iowa State Student)

Freshman caps are being sold by the Cardinal Guild and delivered by Ames merchants under a new plan recently perfected, and in operation for the first time today.

All freshmen are being sold the caps in registration line. Any man who misses the table in the line can get outfitted by applying to one of the committee members or by reporting to the Y. M. C. A.

Today a double ticket is being sold by the Guild, half for the fall and half for the winter cap. The ticket costs \$2 and buys both caps. Upon presenting the pasteboard at certain specified clothing stores, the part pertaining to fall is torn off and endorsed by the merchant, showing he has deliv-

ered the cap. The freshman's signature is already on the ticket, making it possible for the Guild committee to check up and determine who, if any, are not getting their caps.

The merchants will keep the "winter half" of the ticket, giving the freshman a receipt for it, and when the Guild decides the fall cap is taboo, letters will be sent the first year men asking them to report for their winter headgear.

### LITTLE HAWKEYES BEAT MARENGO 23-0

Marengo high school's football team was no match for the Iowa City high team in the game played yesterday morning on Iowa Field and the little Hawkeyes won by a score of 23 to 0. Marengo was unable to advance the ball, making only one first down.

What Is It?

(That's the Secret)

## Real Service Must Be Engineered

Many of the men whose names are writ large in engineering history are design engineers; men like Westinghouse, Lamme, Stanley, Hodgkinson, Tesla, Shallenberger. Their inventions have the quality of usefulness, of reliability, of productability; which is an involved way, perhaps, of saying that they have the primary requisite of all really great inventions: *Serviceability*.

Engineering history abounds in instances of near-genius that produced no product, and of great developments that never reached completion; and most of these instances are explained by the lack, somewhere in the system, of that ability to give real Service.

Service, in a machine or a system, or wherever you find it, is not there by accident but because it was incorporated by men who understood what was required and knew how to provide it.

Much more is required of the designer than facility in calculation and mastery of theory. He must have first hand and thorough familiarity with manufacturing operations and with commercial and operating conditions. It takes more than mere ingenuity and inventiveness to design apparatus that will be really serviceable and will "stay put."

The design engineer, in the Westinghouse plant, is responsible for the performance of the finished product. He cannot possibly have the proper understanding of operation unless he operates and tests, unless he spends time and thought in investigation and study, not in the laboratory or drawing room, but right on the operating job. Here, most of his ideas will develop; and here he will see and prepare for all the different things which the product will later have to encounter. Then when he comes to put his creations on paper, his calculations will be necessary and helpful to check the conclusions which he has reached, and this right use of them requires training and a high degree of understanding. This proper balance of the physical and mathematical conception of things is what constitutes engineering judgement.

It should be thoroughly understood that the primary function of the design engineer is the conception and the production of new or improved apparatus, and familiarity with the practical is essential to the proper discharge of this duty.

It is this view of designing that makes this branch of Westinghouse engineering so important, so effective, and so productive of real developments.

# BOTH PARTIES MUST GIVE IN AT CONFERENCE

## Conciliatory Feeling to Determine Actions at Nudania Meeting

(By United Press)  
London, Oct. 2.—The attitude adopted by the Allied powers and the Turks at the Nudania armistice conference Tuesday probably will determine whether they are to settle the Near East crisis peaceably or again plunge into a dangerous period of armed certainty which might lead to bloodshed.

**Depends on Feeling**  
The prospects of immediate peace will depend largely on the amount of conciliatory feeling displayed by the opposing sides at the armistice conference. If all parties show a disposition to give ground, the chances of war will be remote and a general peace conference will be called within two weeks or so at which a permanent Near East peace settlement can be worked out. On the other hand, if an uncompromising attitude is adopted, and the armistice conference breaks up in a disagreement, it would be difficult to prevent fighting especially in view of the military preparations which the Turks and the British have made on the Asiatic side of the Dardanelles.

It is realized that serious differences must be reconciled at Nudania before an agreement can be reached. In the first place certain Anglo-French divergencies regarding the preliminary peace settlement must be adopted. In the second place some of Kemal's demands may not harmonize with the British position and these differences will have to be overcome.

**May Lay Down Boundary**  
The conference may attempt to lay down a line in Thrace behind which the Greeks must retire and then arrange a boundary zone which the Turks will agree to respect.

Kemalist officials have protested to the Allied commissioners at Constantinople regarding alleged Greek atrocities in Thrace. Advises received here indicate that there is some justification in the charges in as much as it is reliable reported from Bulgaria that Turk refugees are fleeing across the frontier. It is also reported that the Greeks are burning villages in Thrace.

### PAJAMA CLAD FROSH BRAVE NIGHT WINDS IN ANNUAL CONTESTS

(The Daily Northwestern)  
The annual inter-fraternity pajama race was run on Sheridan Road Monday night. The event took place about eleven o'clock and was hotly contested among five fraternities. Beta, Sigma Nu, Delta Tau Delta, D. U., and Sigma Alpha Epsilon took part. The Sig Alphas garnered a shivering victory.

The pajama race has become a sort of annual custom on the north campus as this is the fifth year it has been contested.

The affair Monday evening was the crowning success of the whole five years the race has been run. Bill Johnson acted as starter while Max Hayford was head judge. Delta Upsilon got off to a fine start leaving the other men at the post. This lead was cut down by the failure of the D. U. runner to pass the baton successfully. Higley, a six footer, running for Sig Alpha made up the ground he lost at the start and gave the baton to Martin who immediately proceeded to lose ground. D. U. and Delta Tau were making a strong fight to wrest the lead from Sig Alpha while Beta and Sigma Nu were battling for last place. Sigma Alpha Epsilon claims the undisputed pajama championship relay team of the world, in view of the fact that they have had the victorious team each of the five years the race has been run.

### ILLINOIS SORORITY PLEDGES CHICKEN POX

The sororities at Illinois pledge some strange pledges, if they habitually take both chickens and chicken pox. The following article is taken from The Daily Illini.

Rushing was at its zenith; pledge pins were in their places; all was set for the eight pledges! Nine arrived!!

The ceremony for the eight women pledged to Alpha Gamma Delta was completed, when the ninth one appeared in the form of chicken pox. Mildred June Goetz '24 brought the pledge, but neither she nor the pledge remained in the house long, for Dr. H. E. Lindsey and Dr. J. Howard Beard, Urbana and university health officers, respectively, forced them to make a hurried departure to the university hospital.

### GRADUATES OF PURDUE FOLLOW COLLEGE WORK

A recent investigation conducted by Purdue university shows that most of the graduates follow the same sort of work for which their college education prepares them. Data was compiled on 65 per cent of the graduates of the class of 1921.

The following results were tabulated from questionnaires sent out to the employers and in most cases the graduates were rated "above average." Manufacturing, 35.7 per cent; power and public utility, 20.5 per cent; government and state service, 14.3 per cent; teaching (mostly technical), 14.3 per cent; sales (mostly engineering), 5.3 per cent; R. R. work, 3.6 per cent; general, 3.6 per cent; building, 2.7 per cent.

### ANNOUNCEMENTS

Y. W. C. A. candy table will again be open for business at room 117 L. A. All students are requested to patronize it.

L. V. Kifer, Candy Chairman.

The Social Science club will meet this evening at 7 p. m. in room 226 liberal arts building.

Vernon G. Sorrel, Pres.

Iowa Dames club will meet in the L. A. drawing room Tuesday 7:30.

Whitely literary meeting Tuesday, Oct. 3. See bulletin board.

All Congregational students are invited to a wiener roast at the City Park Saturday afternoon, October 7. Meet at the Conference House, 128 North Clinton street, at 4:45.

Hesperia literary society will meet Tuesday evening at 7:30 o'clock in the Hep-Zet rooms at Close Hall. All old members are expected to be present. Margaret Altman, president.

All men who are candidates for the varsity tennis team are requested to meet at the men's gymnasium at 4:10 p. m. sharp, today.

Has it Fireplace? Piano? Good neighbors? IS IT LIKE HOME? If Not Call Black 1838

It is not unusual to hear of clothes "Tailored to Measure by Born" that have served the wearer satisfactorily for six, eight or even ten years.

Surely this is evidence of careful selection of woolsens and other materials; unusual skill and care in the tailoring.

And because Born Tailoring sells in so great a volume, this generous quality may be had at a price frequently lower than you are asked to pay for clothes of little merit.

It will pay you to see our new offerings of all wool cloths before buying.
