## MABIE SELECTS CAST FOR FIRST OF FALL PLAYS

### Thirteen Players Will Start University Dramatics on October 26

Prof. Edward C. Mabie, director of the University theatre having held extensive tryouts for the first play of the season yesterday announced the cast of characters for the opening production, "Seven Keys to Baldpate." Included on the cast of characters are all of the University's best players, as this play carries several heavy parts and will need the best of the University's dramatic talent. Gregory Foley A4 of Rock Rapids, president of the University Players, and widely known in campus dramatic circles will play the part of Elighah Quimby, a caretaker of Baldpate Inn. The play is one of George M. Cohan's productions and is based on the novel "Seven Keys to Baldpate" written by Earl der Biggers. This scene of action is Baldpate Inn, a summer resort on the top of the mountain with the action taking place during the winter months. The time is the present. The play will be directed by Professor Mabie.

The cast composed of thirteen members of the University Players is as follows:  
Elighah Quimby, a caretaker of the Baldpate Inn, Gregory Foley A4 of Rock Rapids; Mrs. Quimby, wife of the caretaker, Lucille Hoffman A4 Iowa City; William Hallowell Magee, the novelist, Albert Ward A4 of Clinton; John Bland, the millionaire's right hand man, Loren Bane A4 of Pleasantville; Mary Norton, the newspaper reporter, Opal Stevenson A4 of Shannon City; Mrs. Rhodes, a charming widow, Vivian Gray A3 of Onawa; Peters, the hermit of Baldpate, George Hurley L1 of Rolfe; Myra Thornhill, the blackmailer, Maurine Shaw Au of Des Moines; Lou Max, the mayor's man Friday, Isaac Solzman S2 of Council Bluffs, Jim Crogan, the crooked mayor of Reuton, Arthur Shepherd A2 of Ottumwa; Thomas Hayden, president of the Rand E suburban R. R., Forest A. Roberts; Jiggs Kennedy, chief of police of Asquewan Falls, James Barton; Hal Bentley, the owner of Baldpate Inn, Walter Dehner A4 of Iowa City.

Professor Mabie states that plans for the sale of tickets for this play are already under way. Students desirous of earning admission to the play by selling tickets for the production are asked to communicate with the director.

## BLEACHER RUNWAYS ARE NEARLY FINISHED

"The new stands on Iowa Field and the stairways will be completed before the homecoming game," said Prof. B. J. Lambert, chairman of the board in control of athletics, yesterday. "Everything is ready now except the runways leading up to the seats," he continued, "and these will soon be finished."

The press box that will look down on the field from the top row of seats on the west side is nearly completed. The gates and stairways on the east side need but little more attention. Only the steps into the west bleachers are uncompleted.

Weights acting as counterbalances will soon be placed in position on the steps leading into the east bleachers. The top section of these steps has been designed so that the steps may be raised when there is no game, thus shutting off entrance into the bleachers. During the games these steps will be in position resting on the half way landing. Two sets of stairs lead down toward the south. While the game is in progress the north stairs will be open to those wishing to enter. The south gates are available to those desiring to leave the field.

### PELZER WRITING BOOK

Prof. Louis Pelzer of the history department is preparing to write a history of "The Range and Ranch Cattle Business of the Trans-Missouri West."

## HYLAN WILL SUPPORT DEMOCRATIC TICKET

New York, Oct. 3—After one of the bitterest pre-convention or primary fights in years, peace again prevails among New York democrats. The last flag of truce was run up Tuesday when Mayor Hylan announced his support of the ticket named at Auburn last week, despite the fact that "A1" Smith was nominated for Governor. Hylan was one of the leaders of the Hearst forces. The Mayor had nothing to say about Smith and merely approves some of the planks of the platform in saying he would support the ticket nominated on that platform.

## LEON NAMES NEW GLEE CLUB WOMEN

### Spirited Tryouts Now Over; Consider Formation of Another Club

After an enthusiastic display of competition at tryouts which have been held under the direction of Prof. Walter Leon, of the Music department, and which have lasted from Thursday, September 28, to Monday, October 3, forty-one members have been chosen to represent the Women's Glee Club for this year. Of the tryouts Professor Leon says, "I have had so many requests for places in both the Men's and Women's Glee Clubs that it seems desirable to organize another glee club. No definite steps have been taken to carry out this action, however. The members of Women's Glee Club for this year are as follows:—

- First Sopranos**  
Alice Inghram A4 of Iowa City, Marion Nagler Au of Iowa City, Jeanne Wolfe A3 of Clear Lake, Esther Dyke A1 of Iowa City, Florence Kings A4 of Sanborn, Emilie Hartman A4 of Junction City, Kan., Elspeth Close A1 of Iowa City, Margaret Howell A2 of Iowa City, Edith Buck A3 of Oxford, Helen Hammerstein, Frances Carter Vera Fairall A2 of Iowa City.
- Second Sopranos**  
Lorna Schuppert A4 of Iowa City, Beatrice Gates A4 of Pierre, S. D., Inez Straight A4 of Bedford, Lydia Walker A2 of Des Moines, Mary E. Cresup A4 of Bonaparte, Malinda M. Gies A3 of Iowa City, Etta Stanton A2 of Des Moines, Helen Mackin, Ruth E. Edelstein A3 of Iowa City, Gladys Obrecht A2 of Havelock, Helen Orcutt.
- First Altos**  
Judith Tornell A2 of Pilot Mound, Marion Ansel A2 of Iowa City, Gladys Steele A4 of Sioux City, Lillian King A3 of Waukon, Margaret Moore A4 of Harlan, Louise Wolff, Catherine Wells, Helen Bullock A1 of Anita, Myra Kane A2 of Iowa City, Harriet McKinley.
- Second Altos**  
Martha Althaus A4 of Muscatine, Alma Bunck, Eleanor Chambers A3 of Corwith, Corrine Johnson A2 of Des Moines, Anna Doornink A2 of Sioux Center, Margaret Keiser A2 of Des Moines, Ardith Lawhon, Marion Edmund.

## NEW FORENSIC COUNCIL REPRESENTATIVES ARE ELECTED BY HESPERIA

At the Hesperia business meeting held last night in the Hep-Zet room members of the Forensic Council were elected. Louise Gerald A4 of Oskaloosa, Lois Jackson A3 of Mechanicsville, and Melba Carpenter A3 of Iowa City are to represent Hesperia on the council this year.

"Mr. Pim Passes By," the play to be given by Hesperia will be read at 4 p. m. in the natural science auditorium next Friday. Tryouts for the play will be held next week. The society has taken 150 tickets to sell for the University Players.

October 17, the meeting of the society will be in the form of an open meeting for all upper class women who are interested in literary work.

Whitby literary society will hereafter use the Hep-Zet room after Hesperia programs for their regular meeting.

## CAN YALE STOP HAWKEYE CAPTAIN?

Gordon Locke

## GEORGIA WOMAN NAMED SENATOR

### First Woman to be Sent to Higher House; Sees Women's Victory

Atlanta, Georgia, October 3—Mrs. W. H. Felton, Georgia's "Grand old woman" hailed her appointment as United States senator Tuesday as a "victory for women throughout the world." Mrs. Felton was appointed by Governor Thomas Hardwick to fill the vacancy caused by the death of senator Thomas E. Watson, until the people elect a successor in November. Although she will never occupy a seat in the Senate chamber at Washington, because the new Congress will not meet until December, she ranks as the first woman ever named to the highest legislative office in the country.

Long active in the politics of Georgia, Senator Felton felt her appointment to be a boost for the "chivalry" of her home state.

## EXPECT AMERICA WILL SLICE DEBT

### Movement on Foot to Cut Part of Europe's Debt; Seek Economic Relief

New York, Oct. 3—A vigorous attempt to put bankers of America on record of sealing down the allied debt to the United States is expected during the convention of the American bankers association here this week. It is understood that a resolution urging a reduction of our war bill to Europe has already been drafted by some of the leading bankers of the United States for presentation to the convention at an opportune moment.

Washington Oct. 3—A gigantic non-political undertaking designed to effect economic stability in Europe is in the making among great and financial interests in this country.

The movement has the tacit support of the administration spokesmen. The initial steps are now taking place at the convention at the American bankers association in New York where the views of the nation's leading financiers are being expounded on the question with a view of eventually effecting a definite basis of procedure.

## SEE TENSE SITUATION IN MEXICAN AFFAIRS

El Paso, Texas—A tense situation had developed Tuesday night as a result of the continued imprisonment of Claude Smith, chief of the El Paso police detectives and Sam Dreiben the "soldier of fortune" by Mexican authorities in Juarez, following the attempt to kidnap Arizona Phil Alquina an alleged murderer and smuggler across the international border.

## BREAK COMES IN REPUBLICAN PARTY

### Former Iowa Governors Lead Bolt From Candidacy of Brookhart

Des Moines, Iowa, October 3—Two former governors of Iowa Tuesday led a long expected bolt from the candidacy of Col. Smith W. Brookhart victor in the Republican senatorial primaries which is believed to have caused a serious breach in the party's ranks.

More than 200 republican politicians meeting here enthusiastically repudiated the G. O. P. candidate as affiliated "with avowed enemies of our Government" and endorsed Clyde L. Herring, his democratic rival.

Former Governors Warren Garst and B. F. Carroll were among the leaders in the bolt. Carroll presided at the conference which adopted redhot anti-Brookhart resolutions less than twenty-four hours after the Colonel had exoriated participants in the threatened bolt as a "little band of tools and hirelings of the public utilities" in an address at Clinton.

"When republicans find themselves without a republican who is in good faith running for an important office" resolutions adopted at the conference here said, "and they are therefor limited to a choice between a democrat and a spokesman of socialism, they must accept the democrat as an exponent of political and economical judgment, but, as one who stands nevertheless for constitutional government and American institutions.

The regular republican organization, the state central committee however announced that it is supporting Brookhart just as strongly as the rest of the state and congressional ticket. The republican national committee is expected to send speakers here to help Brookhart.

## COUNCIL APPOINTS ELECTION CHAIRMAN

### Gallup Heads Committee to Take Charge of All-University Elections This Fall

At a meeting of the new student council called yesterday afternoon by the Daily Iowan, an election committee to take charge of the all-University elections this fall was appointed with George H. Gallup, Jr., editor of the Daily Iowan, as chairman.

The other members who will serve on the election committee are Roscoe C. Nash A4 of Tipton, president of the Y. M. C. A.; Corinne Weber A4 of Keokuk, president of women's pan-Hellenic council; Edward C. Halbach L2 of Primghar, president of the Newman club; and Margaret S. Altman A4 of Livermore, president of Staff and Circle.

No attempt at permanent organization was made at the meeting yesterday owing to the fact that a large number of the new council are yet to be elected.

"Every means will be employed to put the election upon a fair basis," Gallup states. "In the past, machine politics has been responsible for placing a number of fraternity candidates in office. This year we want to give the non-fraternity men the same chance to be elected to a class office as fraternity men."

The election committee will hold a meeting within the next few days to set a date for the all-University election and to put in motion the necessary machinery for conducting it.

## BLUECOATS STOP HAZERS

Blue coats and brass buttons interrupted a hazing party at Madison last week, when a number of Wisconsin university students were making merry on the streets. The group of pleasure-bent upper-classmen herded about a dozen yearlings about, dressed in the usual hazing fashion at that university, coats turned inside out, and trousers pulled up above the knees. But just then rows of buttons and badges hove into view and the parade became a rout in the general direction of the university campus.

## FORMER KAISER WILL HAVE SIMPLE WEDDING

Berlin, Oct. 3—The wedding of the former Kaiser will be extremely simple in keeping with the unpretentious surroundings of the lonely exile at Doorn, it has been decided. There will be no best man or bridesmaids. Among the guests will be the former Crown Prince, Prince Eitel Frederick, Prince Heinrich, the Ex-Kaiser's brother, Grand Duchess of Hesse, his sister; the Prince and Princess Stolberg-Roffla, brother-in-law and sister of the bride.

## CARAWAY GIVES RULES FOR PEACE

### Senator Outlines Five Tasks for America—To Insure Order in Europe

Washington, Oct. 3—America has five things to do immediately, if the European chaos is to be supplanted by order and prosperity in the opinion of Senator T. H. Caraway of Arkansas. Caraway has just returned from abroad as a delegate to the interparliamentary union convention at Vienna.

- The five tasks are as follows:  
1. To extend immediate recognition Soviet Russia.  
2. To do some "plain straight talking" to Europe.  
3. To see that some international understanding is reached at once with regard to stabilizing foreign exchange and reducing land armaments.  
4. To guard against being misguided to sentiment to be expressed by former Premier Clemenceau of France who expects to lecture here in December.  
5. To keep a sharp eye on the Versailles Treaty which is going to be rewritten soon "either by the pen of statesmen or the sword of the soldier."

These remedies were outlined by Caraway in an interview with the United News Tuesday.

With respect to America's attitude to Russia, Caraway said "it is perfectly foolish to have intercourse with a country for whose nationals we have expressed friendship and so long as America withholds recognition the stability of the world cannot be assured." At the same time, however, Caraway, believed "America ought to tell the nations of Europe, in plain terms first that a sincere effort must be made to pay out what they owe; second that we are tired of this anti-American propaganda abroad."

## HURRY CALL GOES OUT FOR SPONSORS

### 150 Freshman Women Still Lack Partners for Dancing Party Thursday

About 150 names of freshmen women yet remain to be drawn by upperclass women as their sponsors for this year. According to Elizabeth Ensign A4 of Iowa City, chairman of the sponsor system, sponsors responded well yesterday. About 400 of the 550 names were drawn at the table placed just outside the liberal arts drawing room. The table will be placed there again today so that any upperclass women who has not yet drawn a name may do so today.

Each upperclass woman who draws a name also receives the address and telephone number of the freshman woman whose name she has drawn. She then calls up her sponsoree to make a date for the big sponsor-sponsoree party to be held Thursday evening at 7:30 in the women's gymnasium.

The main features of the party will be dancing, games, and refreshments. Special efforts will be made by every upperclass woman to make her sponsoree feel that there is at least one upperclass student in the University who is interested in her and who is willing to assist her in every way possible during the year.

Because of errors in the list of freshman women obtained, there may be some who will not receive calls. These women are asked to come anyway, and sponsors will be assigned to them at the party.

## HOWLING 300 WILL SELECT YELL LEADERS

### Three Men Appointed to Earn Modified "I" for Services During Year

Tonight at 7:15 o'clock in the natural science auditorium the Howling 300 will hold its second meeting of the year, primarily for the purpose of electing cheer leaders for the present season. This will also take the form of a preliminary mass meeting for the Knox game Saturday.

Three varsity cheer-leaders will be chosen by competitive tryouts. Any member of the Howling 300 is eligible for these positions. Each member trying out for the position of cheer-leader will lead the boys in any one of Iowa's yells, and the club will vote on three. Immediately following three freshmen yell leaders will be elected in the same manner. Any freshman members of the club are eligible and all are urged to try out. The three varsity cheer-leaders last year received the modified "I", and accompanied the team on one of the out-of-town trips. Similar privileges will undoubtedly go with the positions this year.

## Mass Meeting Friday

At last week's meeting of the club over 100 new members were taken in and more will be given an opportunity to join tonight. "Get Knox" will be the slogan of tonight's meeting. Plans will be made to hold a mass meeting on Iowa Field Friday afternoon, and details will be worked out to have the Howling 300 meet the Knox team at the station. The visiting team will probably arrive Friday afternoon.

## Send Off for Team

The Howlers have the center section of the west bleachers reserved for the Knox game, and will lead the fans in the exercise of the good old Iowa spirit. Plans for one of the biggest mass meetings of the year next Wednesday, when the Iowa team leaves for New Haven to play Yale, will be discussed. The student body led by the Howling 300 and the band will accompany the team to the train.

## WATERLOO PAPER ONCE FIRED SINCLAIR LEWIS

To the reader who has appreciated Sinclair Lewis' newest novel "Babbitt", or has homely recollections of the far-famed "Main Street", it will be of interest to recount an incident occurring in Iowa, in which this author had a part.

According to Maurice E. Van Metre, a former student at the University and now managing editor of the Iowa City Press-Citizen, about fifteen years ago, when as a boy he was working in the office of the Waterloo Courier, a tall, red-haired young man presented himself and took over the positions of editorial writer and telegraph editor on the Courier. This man was none other than Sinclair Lewis. From the first he did not seem to like the work, and after two months he was asked to resign, Mr. Van Metre said. In the short time he was with the Courier few got to know him personally. About two years ago Sinclair Lewis returned to Waterloo and visited the Courier office, but he was unrecognized until he introduced himself, much to the surprise of those who formerly knew him.

"Who's Who in America" goes further to tell of this author's career. Having an A. B. degree from Yale, he was reporter at various times for the New Haven Journal and Courier, the San Francisco Bulletin, and the Associated Press. He is the author of a drama and seven novels.

## "IOWA KNOX 'EM"

"Iowa Knox 'em has been selected at the engineers' slogan for the Iowa-Knox football game Saturday, and will be posted on the electrical sign on the engineering building today. The senior class of the college of engineering will probably put up their customary sign on top of the physics building also.

## MAKE PLANS FOR HOMECOMING FETE

Homecomers to be Received by Organizations; Game With Minnesota

Definite preparations will be started this week for the annual homecoming of the University, which will be celebrated November 10 and 11. Prof. Forest C. Ensign stated yesterday that within the next few days, President Walter A. Jessup will announce the committee which will work out the plans for homecoming and take charge of the details.

The big attraction of the week-end will be the Iowa-Minnesota gridiron spectacle. Aside from the big game there will be many other things to interest and entertain the returning friends of the University. Various organizations of the city and campus are planning entertainments for the homecomers. The Iowa City commercial club is making arrangements for the annual luncheon to former homecomers and the Triangle Club has set Friday evening, November 10, for its annual reception.

Over 20,000 people were in Iowa City last year for the homecoming event. This year, a bigger crowd is expected on account of the interest attracted because Iowa won the conference football championship last year and because Yale is on the instead of souvenirs.

### PERFECTLY CONVENTIONAL

It's entirely conventional, fellows, to stop between classes in room 117 liberal arts, and buy a bar of candy. Many a new student passing through the corridor looks curiously at the Y. W. C. A. candy table. Girls dare to stop but men? Well, it's quite all right to do.

Lois Keifer in charge of the candy table has a supply of bars to satisfy all demands. From 8 a. m. to 4 p. m., each day, throughout the year, the sale of candy will continue. Volunteer salesladies are still in demand.

## PENNSYLVANIA STATION RECEIVES UNIVERSITY RADIO CONCERTS

Seven students are now enrolled in a three hour course of elementary radio instruction. New and complete sending devices have been installed in room 5, physics building, by means of which concerts, lectures and news are being received and broadcasted daily.

Prof. Arthur H. Ford, head of the electrical engineering department, is in charge of classroom instruction and all general radio work. He announces that for a time there will be more sending than receiving in the station.

He promises several interesting concert numbers later in the week, however, the dates and programs of which will be given out later.

Meanwhile broadcasting is being done nightly and with decided success. Pennsylvania stations have reported hearing University concerts, as have other eastern states.

Broadcasting on week nights is between 8:00 and 8:30 o'clock. On Mondays, concerts by the faculty of the School of Music, will be sent out; Tuesdays and Thursdays, University news; Wednesdays and Fridays, talks by faculty members; Saturdays, football scores and sports news. On Sundays, sermons by local ministers will be broadcasted at 10:45 a. m.

## DATA SHOWS WHY THE STUDENTS QUIT

The great mystery of why students leave college has been solved—perhaps.

Cupid really plays a minor role. The "sore-eye" special contributes only a handful. In a recent address, President Birge of the University of Wisconsin, gave the following study based on statistics made of the students of 1919-20. 1,960 did not return the next year.

### Finds Main Cause

Of the 1,960, there were 337 who came back between February, 1921, and June, 1922. Little more than one fifth of those who returned had unsatisfactory records.

Financial reasons, more than any one cause, account for those who have satisfactory grades leaving school. Of the 800 asked, over 300 left for these reasons. Men and women were affected in about the proportion of their attendance, 210 of the 300 being men, 95 women.

### Ill Health One Cause

Proportionally many more women than men left on account of health nearly one-half of the 187 who left for this reason being women.

Other colleges drew 144 students away from the university during this period, more than one-half of whom being women. Marriage proved too alluring for 52, of whom only five were men, 47 women.

Death claimed 18, an exceptionally large number chiefly due to the second epidemic of influenza.

### Few Have Poor Grades

In the College of Letters and Science the students whose record is so low as to warrant a vote of "probation" leave in much larger numbers than do those whose records are satisfactory. About 30 per cent of the former class leave as compared with 20 per cent of the satisfactory students.

About one-half of all those who left the university were freshmen and of those about one-third had satisfactory records.

## SKINS COYOTES TO EARN MONEY FOR MEMORIAL PLEDGE

Everything from selling garbage cans, skinning coyotes, and directing playgrounds, to cooking in the Exmoor Country club, came in the category of occupations earning their Memorial Union fund for Indiana university last summer.

### Sold Garbage Cans

One enterprising sophomore sold galvanized garbage cans during the warm months.

Another student spent the summer roaming over the plains of Wyoming, scalping coyotes. He estimated that only twenty skins would be required to be equivalent to the first payment of his pledge.

### Caddied for Evans

One man acted as caddy for America's former amateur golf champion, Chick Evans. Many others acted as instructors in summer camps, and about twenty worked for the Union secretary.

## PORTER WRITES BOOK FROM LECTURE MATERIAL

"County and Township Government in the United States" is the title of a new book recently published by Prof. Kirk H. Porter. It is the outgrowth of a course in that subject and contains the substance of his lectures for the last three years. The book is being used as a text in the course by the same name, and taught by Professor Porter. It sets forth in a concise way

the workings of local government and explains the duties of the local officers. The book satisfies a long felt want on that subject. Prof. Porter has also written "A History of Suffrage in the United States" published in 1918.

## TRANSIT OUT NOVEMBER FIRST STATES EDITOR

The first edition of The Transit, an engineering publication, will be out November 1. Numerous changes have been made in this publication. The cover will be heavier and have a new design, the design illustrating some one of the stories in that edition or representing some factor on the campus. There will be special sections which will deal with engineering news, athletics, campus notes, and jokes. Because these departments are new the staff has been increased since last year. This year The Transit will be from twenty-four to twenty-eight pages in size or an increase of from eight to twelve pages over last year.

The Transit is published by the Associated Students of Applied Science. It goes to the alumnae and to students in the engineering college. Kenneth J. Weir 83 of Cedar Rapids, is editor of the magazine.

### "EYES LEFT" FOR WILSON

"Wilson, Woodrow," sharply called out Captain Ackerson of the university R. O. T. C. at a morning drill class yesterday. One hundred Freshmen soldiers executed "eyes left" ex-

pecting to behold the former president in line. They were disappointed as there are two men in the class who bear these surnames and they happen to appear in this order on the roll.

## HEWES FILLS VACANCY

Mr. R. J. Sontag, instructor in the department of history last year, has gone to the University of Pennsylvania to pursue work for his doctorate. Mr. Edwin B. Hewes, of the University of Illinois, fills the vacancy.

These shirts show up well above a vest; you'll wish more of them could show.

The Debutante

The Actress

The Matron Who Keeps Her Charm

## Women Who Care

Now beautify teeth in this way Millions of them—the world over

Careful people, well advised, now use a new teeth-cleaning method — millions of them in every clime, and largely by dental advice.

Beautiful teeth you see everywhere show the results of this method.

It is something you should know. Learn what it means to you and yours. Make this free ten-day test.

### Combats the dingy film

It is film that makes teeth dingy—that viscous film you feel. It clings to teeth, enters crevices and stays. Food stains discolor it, then it forms thin cloudy coats. Tartar is based on film.

The ordinary tooth paste does not end film. So most teeth, in the old days, were more or less discolored.

Film also holds food substance which ferments and forms acid. It holds the acid

in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Thus most tooth troubles are now traced to film. Under old methods, they were constantly increasing. The most careful people rarely escaped.

### Two combatants now

Dental science, after long research, has found two film combatants. One acts to curdle film, one to remove it. Able authorities have amply proved their efficiency. Now leading dentists the world over are urging their daily use.

A new tooth paste has been created, based on modern research. It brings five effects now considered essential. It avoids several old mistakes.

This tooth paste is called Pepsodent. And those two great film combatants are embodied in it.

### Other desired effects

Modern research has found other things essential, and Pepsodent brings those effects.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

It multiplies the alkalinity of the saliva. That is there to neutralize the acids which cause decay.

Thus Pepsodent gives manifold power to Nature's great tooth-protecting agents. It polishes the teeth so film less easily adheres. Old-time tooth pastes, based on soap and chalk, brought just opposite effects.

In these ways, Pepsodent is bringing a new dental era. Already it has brought to millions whiter, cleaner, safer teeth. The peoples of fifty nations are being taught to use it. And their children will get life-long benefits which your childhood missed.

Why Men's Teeth Glisten everywhere today

The film on teeth of men who smoke becomes especially discolored. But note how men's teeth glisten nowadays—men who remove the film. Note how men and women, when they smile, are showing pretty teeth. Those are Pepsodent effects, now attained by millions, largely through dental advice. They do not come by scouring teeth in any harmful way, but by scientific film removal.

The New-Day Dentifrice

Now advised by leading dentists the world over

### FRATERNITY PLEDGES

Chi Kappa Pi announces the pledging of Theodore Reimers, A1 of Ogdon, and the initiation of Merald E. Hoag, A2 of Waterloo.

Delta Chi announces the pledging of A. E. Dickson A1 of Cedar Rapids.

Xi Psi Phi announces the pledging of T. A. Gardner D1 of Ottumwa, A. C. Keele D1 of Dysart, and C. B. Schazk D1 of Harlan.

### Beta Theta Pi Dance

The Beta Theta Pi fraternity will give an informal dance at the fraternity house, 804 North Dubuque street, Saturday evening, October 7.

### Philosophical Club

The Philosophical club met last night at the home of Prof. George T. W. Patrick, 704 N. Dubuque street. Dean Carl E. Seashore read a paper on "Vocational Guidance." Membership in the club is open to faculty members and graduate students interested in the field of philosophy.

### Chi Omega Open House

The Chi Omega sorority will entertain at open house Sunday, October 8, from 4 to 6 o'clock.

### Alpha Delta Pi Open House

Alpha Delta Pi will entertain at open house next Sunday afternoon from 3 to 5 o'clock.

### McAlvin-Snyder

Miss Helen Marr McAlvin A '20 of Waterloo was married to Mr. Earl Snyder of Fulton, Ill. on September

30 in Waterloo. Mrs. Snyder was a member of Delta Zeta sorority in the University, and was also a member of Phi Delta Kappa, honorary educational, and of Phi Beta Kappa, honorary scholastic, fraternities. Mr. Snyder was graduated from the University of Illinois where he was a member of Alpha Tau Omega fraternity. Mr. and Mrs. Snyder will live in Fulton, Ill., where the former is engaged in the lumber business.

### W. A. A. ENTERTAINS ALL UNIVERSITY WOMEN AT GYMNASIUM TONIGHT

A W. A. A. party for all University women interested in athletics will be held at the women's gymnasium at 7:30 this evening. Gladys Taggart A4 of Spencer, president of W. A. A., announces that a program has been arranged for the evening.

Solo dances will be given by Marjory Barfoot A4 of Decorah and Helen Stearns A4 of Des Moines. Pauline Spencer A4 of Des Moines will appear in a special athletic stunt. The members of the board of the Women's athletic association will be introduced and talks will be given by the leaders of all the fall sports. Announcements will be made relative to the hiking plans for this fall and information regarding membership in W. A. A. will be given for the benefit of freshman women.

Social dancing will form a part of the evening's entertainment, after which refreshments will be served. Dorothy Brooks A4 of North English is in charge of the program.

## JUNIOR PROM HEAD SUBMITS REPORT

Receipts Total \$690.75; Expenses \$668.84; Balance of \$21.91 Goes on Loan Fund

In accordance with the promise made last year by John Dondore A4 of Iowa City, when he was junior class president, that a statement of expenses and receipts of the junior prom, April 21, 1922, would be published, LeRoy S. Barber A4 of Marion, junior prom chairman, with the approval of Dean Robert E. Rienow, gave out the statement yesterday.

The total receipts were \$690.75 and the total expenditures were \$668.84. This left a balance of \$20.91, which was turned into the student loan fund. There were 232 tickets sold to the prom. \$110.75 was collected from spectators in the balcony. The programs cost \$125.00; decorations, \$255.00; and music \$122.00. The thirsty dancers consumed \$36.00 worth of punch.

The following statement of the receipts and expenses of the prom is the first one which has been published for any University formal.

Expenses	
Programs	\$125.00
Armory fee	10.00
Tickets and Checks	6.75
Piano	8.00
Taxis	28.00
Hawkeye	20.00
Junior officers & prom pictures	7.50

### Y. W. C. A. INVITES ALL WOMEN TO TEA TODAY

Y. W. C. A. invites all University women to attend the first meeting of the association, Wednesday, from 4 to 5 o'clock, in the liberal arts drawing room. Dean Burgo will welcome new women at that time. From 4:30 to 5 o'clock tea will be served informally. During this time the women will have the opportunity of becoming better acquainted. Association members will ballot on the names presented through nomination for vice-president.

### W. A. A. GIVES SCHEDULE OF YEAR'S ACTIVITIES

The W. A. A. has scheduled seven board meetings, five meetings of the association, and four parties for the year. The Christmas party will be an old English country festival, which will feature the dances and customs of the early days. The most important part of the plans for the Christmas festivity is the requirement that each one who attends must wear a colonial costume.

The schedule of the W. A. A. activities for the year is as follows: October 4, fall party; October 11, board meeting; October 18, association meeting and initiation; November 1, board

meeting; November 15, association meeting; November 20, board meeting; December 6, Christmas party.

January 3, board meeting; January 17, association meeting; February 7, board meeting; February 21, association meeting and Washington birthday party; March 7, board meeting; March 21, meeting and Saint Patrick's party; April 4, board meeting.

### STUDENT VOLUNTEERS HOLD FIRST MEETING

Student volunteers, a group of students who intend to go into mission fields, held their first meeting this week. Officers elected for this year are: Earl E. Clark A3 of Waukeon president, Marguerite I. Horning M2 of McGregor vice president, Theodore M. Barber M2 of Minneapolis, Minn., treasurer, and Arthur A. Payne A3 of Argentina, S. A. secretary.

"The purpose of the organization is to furnish a means of inspiration and encouragement to students who intend to go to foreign fields as missionaries. It endeavors to arouse an interest in missions among the students on the campus and make friends with the foreign students," said Marguerite Horning.

Student Volunteers is a national organization. The chapter here has twenty members and meets weekly. One of its members, Laura Singer '18 of Sheldon, is now in Concepcion, Chile. Lucile Colony '21 of North Liberty is going to India November 1.

## FROSH 'YALE' 11 WILL MIX WITH VARSITY TODAY

### Parkin Expected Back in Uniform Today; Scrub Defense Shattered

Last night's football practice was featured by one of the hardest scrimmages of the early season, when Coach Jones sent his varsity squad against the scrubs in a forty-minute tilt. The varsity backs tore through the seconds' line almost at will, and had little trouble in putting over three touchdowns before time was called.

The freshmen spent their practice period perfecting Yale plays, the strength of which will be exhibited when the yearlings mix with the varsity tonight.

#### Locke Makes Long Gains

The Iowa team, which was expected early in the season to be weak in kicking, has taken quite a change of

late, as Shuttleworth has not only shown himself to be a first rate drop-kicker, but it looks as if Minick would keep the Iowa machine on even terms with its opponents on exchanges of punts. In last night's scrimmage he sent the defending quarterback back several times with his long, twisting kicks. Minick spent several minutes before the scrimmage practicing height and distance, but his kicks went even better in the regular play.

Captain Locke was back at his regular position at full and smashed through the scrubs for several long gains. He looks like the same Locke that tore last year's Illinois line to shreds, and if his knee does not give him a great deal of trouble, he should be even better this year than last. "Gord" retired early in the scrimmage and was replaced by Fischer, who starred on the yearling squad last year. Rich, who piloted the varsity against the scrubs in the absence of Lee Parkin, has still lots to learn about the job, but looked much better on the pass formations. He got away several nice flips to Kadesky on trick plays, and much of the ground was gained by way of the aerial route. Parkin witnessed the play in civilian clothes but is expected to be out in uniform tonight. He is having a little trouble with infections in both arms, but it is hoped he will be seen in action in Saturday's game.

#### Heldt Shines on Defense

What few time the seconds obtained possession of the pigskin they could do little towards advancing it down the field. Blake, who called signals for the scrubs, flipped a pass to Otto for a twenty-five yard gain, but after this play the varsity line tightened and the first team soon took possession of the ball. Heldt and Minick looked especially good on the defense last night, while Kadesky also made some pretty tackles.

After the varsity left the field, the seconds and thirds battled for a short period with the seconds having considerably the better of the argument. This week will no doubt be a hard one as far as scrimmage is concerned, for the Yale game is now but a short way off, and any faults that occur in the working of the machine must be cleared up in the remaining practices before the team entrains for the east. Wayland Hicks, this year's basketball captain, who has been on the retired list with a bad knee, was back in uniform last night, but did not take a very strenuous workout, as it will probably be several days before his leg will be in first class condition.

### BARRY IS EXPECTED HERE BY SATURDAY

Coach Sam Barry is expected to arrive in Iowa City either Friday or Saturday to take up his place as basketball and baseball coach. He will probably start twice-a-week basketball practice soon after he arrives.

Many of the other conference universities have already begun working out their basketball players. Coach Ruby has a large number of men working at Illinois, and Coach Meanwell is drilling freshmen as the football squad has most of his old varsity basketball players.

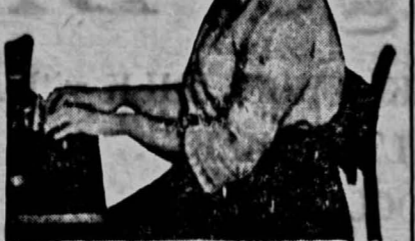

### WRESTLING PROSPECTS LOOK FAIRLY BRIGHT

Mike Howard, last year's wrestling coach, will arrive in Iowa City the end of this month ready to resume his duties November 1.

Although several good men were lost by graduation, prospects for a winning mat team this year are bright. Of last year's team Pfeffer, 115-pound class; James, 158; Vana, 135; and Heldt, heavyweight; are back in the University. Thom and Roberts, the two best freshman wrestlers last year, should strengthen the squad considerably.

## YANKS-GIANTS OPEN WORLDS SERIES TODAY

### Both Teams Participate in Final Workouts; Bush and Nehf on Mound

New York, Oct. 3.—Probable lineups for both teams who will clash in the opening game of the world's series were released tonight together with other facts concerning the contest to be waged at the polo grounds tomorrow afternoon.

The probable pitching selection is: Yankees: Joe Bush, won 26 and lost 7 games.

Giants: Art Nehf, left hander who won 18 and lost 13 games. Capacity of polo grounds 38,000.

The series: four out of seven games. Umpires: Clem and McCormick, representing National league, and Owens and Hildebrandt representing American league.

Players participate in receipts of first four games.

Yankee pitchers available: Bush, Shawkey, Jones, Hoyt, and Mayx. Giant pitchers available: Nehf, Jess Barnes, Virgil Barnes, Jonnard, Ryan, Scott, Carman Hill, Hugh McQuillan.

Probable lineups are: Yankees; Witt cf, Dugan 3b, Ruth rf, Pipp 1b, Meusel lf, Shang c, Ward 2b, Scott ss, Bush p.

Giants: Bancroft ss, Groh 3b, Frisch 2b, Meusel lf, Young rf, Kelly 1b, Stangel cf, Smith c, Nehf, p.

Batting averages of the teams listed are Yanks .304, Giants .312.

New York, Oct. 3.—With all final arrangements completed the New York Giants and Yankees stood ready tonight to clash in the opening game of the world's series here tomorrow.

The Giants and Yanks both took workouts at the polo grounds in the morning and Babe Ruth laid down his book on the care and feeding of babies to spin two Babe Ruth specials into the right field stand. The Yank pitchers were shooed into the Bullpen and driven through limbering exercises in preparation for such work or bench warming as they seem best fitted to accomplish on the morrow's afternoon. Hugh McQuillan of the Giants picked from the Braves late in the season got his bay window in front of a line drive from Bill Cunningham's bludgeon during the Giants workout and was severally stoye-in about the middle. He had to be helped off the mat and the trainers are not sure they can smooth out the dent in time to make him effective in the series.

John Scott the man with the resurrected arm is being mentioned as the Giants first pitcher in the series but the more Scott is mentioned the more certain it appears that Artie Nehf, the left hander will work.

Huggins is expected to start right in with his strongest man, Joe Bush, winner of twenty-six games and loser of only seven in the regular season. But both Huggins and McGraw will hold out their actual selections until about 50 minutes before the game begins when the word will circulate through the press box. This secrecy comes under the classification of strategy and is said to win games.

### HARRIERS TEST OUT NEW TRACK

Display Good Early Season Form; Cornell Agrees on Race Date

The varsity cross country squad last night began roadwork over the new course which has just been mapped out in the city park. The course is three miles in length. The men covered the entire distance, jogging and walking at intervals.

Coach Bresnahan was pleased with the way the men covered the course, particularly in regard to the manner in which they kept together.

This practice of keeping together while in a cross country race is the main thing in winning the meet, according to Bresnahan. "Although, up to the present, the pace of the squad has been rather slow, I am glad to see that the men are running in a bunch," said the coach yesterday.

Definite word has been received from S. W. Finger, director of athletics of Cornell college, setting the date for the Cornell-Iowa cross country meet on November 4. Two extra men will compete in this meet making eight men on each team. Mr. Finger has consented to permit that number to run for each squad.

Up to the present the number of men reporting for the team has been twenty-three. This number is not as large as is necessary to insure a winning team. Wisconsin has thirty-seven men trying for places on the Badger team.

The fall track work for both varsity and freshmen has been progressing very well. Additional men from the varsity track squad have volunteered to assist in the instruction of the frosh candidates. Meder, varsity pole vaulter, was helping Monday evening in the coaching of the first year vaulters.

F. A. Klindt who was the best bet of the freshman high jumpers last spring is expected to give assistance to the candidates of this year's yearling high jumpers.

Captain E. C. Wilson, Karl Keppler, H. C. Morrow, G. B. Noll, and F. M. Wellslager prospective candidates for the one mile relay team took a snappy practice in passing the baton Monday evening after working with the instruction of the freshmen.

Coach Bresnahan has issued a call for all varsity and freshman weight men to report on the weight field behind the Old Capitol.

### RIETZ TO LECTURE ON STATISTICAL METHODS

Prof. Henry L. Rietz, head of the mathematics department and retiring president of Sigma Xi, will give a public lecture Wednesday, October 11, in the liberal arts auditorium at 7:30 p. m. The subject of his address will be, "Answers to the Call for Better Statistical Methods." The lecture is to be given under the auspices of the Sigma Xi fraternity.

### NET STARS MEET TO OPEN SEASON

Professor Vander Zee Named to Coach Iowa's Tennis Team; Outlook Good

Tennis stars of the university met at the men's gymnasium yesterday at 4:10 p. m. to discuss plans for the autumn season. Eleven men reported in response to a call issued by Director of Physical Education Ernest G. Schroeder, but several more are expected out later. Of the eleven reporting last night ten are eligible for the varsity team. These are: Ted Swenson, Hector Janse, Lawrence Brierly, Stanton Marquoid, J. M. Dorsey, H. R. Searles, Glenn J. McLaughlin, G. Marshal Kay, Karl F. Jasper, and Robert W. Cooper.

With such men reporting as Swenson, Janse, and Dorsey, the outlook is particularly bright for a successful season next spring. Swenson was on the winning side in the Northwest doubles at Fort Dodge, and also won in the singles here last year. Janse and Swenson won doubles at the

state meet. Dorsey and Gillis won the summer session doubles here this summer. H. R. Searles took honors at the state meet two years ago.

Elimination matches will be held this week to determine who will represent Iowa at the intercollegiate matches which will be held this fall. It is hoped that two matches can be arranged with Cornell and two with Coe. These will be more or less practice affairs, however, preparatory to conference matches that will be held in the spring.

Prof. Jacob Vander Zee, who will coach both the freshman and varsity teams, talked to the men last evening about training rules and methods. "There will be no game play," he said. Each man will be instructed in the elements of the game and will be given constant practice in their application. A training schedule will be made out every day and posted on the bulletin board at the south end of the gymnasium.

Two courts will be available during evening hours, probably from 4 o'clock to 6 o'clock. Men who are scheduled for tryouts or practice periods will be given preference on the courts at all times. It is hoped that several

freshmen will come out as Coach Vander Zee hopes to build up a strong team for next year.

### LABORATORY FUND GETS GOOD START

\$10,000 is Needed for Upkeep at Lakeside as Memorial to Macbride

The raising of a \$10,000 fund for the upkeep of the Iowa Lakeside laboratory is progressing satisfactorily, although the campaign was started only last August. The committee in charge of this work were appointed last June at the alumni association business meeting, the members being: Mrs. F. A. Stromsten, Arthur Cox, Mrs. Preston Coast, Dr. Ferdinand J. Smith, and Fred Pownell. Some very generous gifts have been received in reply to the letters sent out by the committee, the contributions ranging from \$500 down to \$25.

**Founded by Macbride**  
The laboratory, which is situated on the west shore of West Lake Okoboji, was founded by President Emeritus Thomas H. Macbride, aided by alumni of this university, in the interests of those wishing to study plant and animal life in midst of such abundant material. The alumni association owns the laboratory which is officially open from the middle of June to the latter of August, but is accessible to students at any time providing that they have made the proper arrangements. Laboratory equipment and books are lent annually by the University as they are needed, but all other expenses of upkeep and general improvements are to be paid from the interest of this fund. Until a year ago all this expense was taken care of by Doctor Macbride personally. Last year a fund of \$725 was raised

by friends to pay for immediate repairs.

**Prominent Men There**  
"A very interesting and pleasant summer was spent this year," said Prof. Frank A. Stromsten, acting director. There were about twenty investigators and research students, each working on his own problem. The laboratory is open only to graduates, although there were a few students there as assistants. Professor Larrabee of Yankton college had a student assistant, as did Professor Kelley of Cornell and Professor Stromsten of this University. Some of the prominent men who worked there this last summer are Prof. Gilbert M. Smith of Wisconsin, Doctor Kuntz and Doctor Thomas, both of St. Louis university. Professor Gilbert was studying the algae, a microscopic plant floating on top of the water.

### MEN SINGERS TRY OUT

Continued tryouts for places on the men's glee club were held in the Johnson building last night at the club's regular Tuesday evening meeting. Prof. Walter Leon, director, said that competition for places in the club is much stronger than that displayed last year. Additional enthusiasm might be expected, however, with the prospects of a trip to Chicago open for the best men.

### EELS BEGIN YEAR

Members of the Eel club, honorary swimming organization for men, will hold their opening meeting of the year at the Pagoda tea shop tomorrow at 6:00 p. m. Following the dinner a business meeting will be held. At this meeting discussion of plans for the ensuing year, particularly in regard to the staging of the annual Eel Seal Revue.

## THE DAILY IOWAN PLATFORM FOR A GREATER UNIVERSITY OF IOWA

1. Curtailment by the social committee of all inactive organizations.
2. Maintenance of Iowa traditions and customs.
3. A strong student council.
4. Recognition of the cultural as well as practical background of education.
5. Broader democracy and greater unity of the student body.
6. The University of Iowa above all fraternities, sororities and other groups.
7. A change in student attitude which will make an honor system possible.
8. Every student and alumnus a member of the Memorial Union.

## RUSHING RUSHING

Now that a number of new students on the campus have been duly inducted into various Greek letter societies and have had an opportunity to see whether or not they made a mistake it might be pertinent to inquire into that system by which they were selected and the advantages, if any, which they can reasonably expect from membership. As to the system, as far as the University of Iowa is concerned, there is none, unless one would call by that term the present plan of rushing which is everything the name implies.

An infamous practice started by one or two campus organizations last spring of pledging men during the summer months and even before they were graduated from high school compelled other groups who were competitors to do likewise. The result, obviously, was that men pledged certain societies who are foreign to the character of these groups and who by four years association will be moulded to them to their own detriment or advantage depending upon the standard of the group. On the other hand, fraternities have chosen men upon whom their future depends, with scarcely any knowledge of their merits.

Under the present system a man chooses a fraternity solely upon appearances. He doesn't know the majority of its men, nor does he know its rating upon the campus. He puts on a pledge pin, thinking that he has joined the "best national" and then takes a chance upon the character of the men with whom he is compelled to associate.

The interfraternity council last spring, by an ill-advised ruling, helps to perpetuate this evil, by placing at a disadvantage the man who attempts to rectify a mistake he has made in pledging a certain group. The ruling forbids him to be pledged by another group for a period of one year. And rather than be on the outside for this length of time and with the prospect of not being taken then, he "sticks it out."

There is a remedy for this situation—postponement of the rushing season for one semester. This will give the freshman an opportunity to decide whether or not he wants to join a Greek letter society and the one which will best suit his purpose. This plan has worked successfully in larger fraternity worlds than Iowa.

## DEPRESSING REALISM

Modern education persuades many of the youth of the land that life at best is a dreary business—holding nothing for the cultivated mind but a bleak prospect of endless boredom. And more than one college graduate has regretted that he has the advantage of an education. As a member of the elite he thinks that the world expects him to seek out only the so-called higher things of life and to be dissatisfied with what the "Booboisie" enjoy. In this artificial role he travels alone along the byways of life, afraid to step down on the broad expanse traveled by the common people.

Perhaps Pollyanna went a trifle too far in her prattle about happiness. Perhaps even Mr. Long-

fellow's "Psalms of Life" bubbles a little too effusively in its optimistic cadence. Still, one need not lag superfluous on the stage after he has finished his college course. It is still healthful, if no longer natural, for man to indulge in the illusions of hope, and enthusiasm is still an agreeable and comforting companion in the journey between the cradle and the grave.

This may not be the best of all possible worlds. Whatever is is not always right, by a far shot. But by a liberal indulgence in hope and unlimited use of enthusiasm some of our ancestors succeeded in making the present more agreeable for those of us now living, and there seems no reason why that good work should not be carried on for the benefit of succeeding generations.

## CONTEMPORARY OPINION (Daily Californian) MISCONCEPTIONS

Misconceptions of college life seem to be the rule rather than the exception among those on the outside. One of the most common of these is the plea that the University is a "rich man's school," a place where the more fortunate may gain four years of pleasure and incidentally a slight amount of education at the state's expense.

Such misconceptions are the outgrowth of chance judgments formed hastily by those who look only for the superficial things in college life. A river is judged, not by the occasional ripples or the foam upon its surface but by its depth and the strength of the current beneath. College with its never ending stream of life is comparable in many ways to a river with its waters flowing steadily by to join the greater expanse which lies beyond the outlet.

Like a river it has its ripples and its foam as well as the stronger currents and depths which are the marks by which the real nature of its flow is judged. Among the ripples of college life are those foam covered bits of scandal and stories of indolence or lack of purpose so prone to catch the public eye.

Food for thought is contained in student employment-figures. They may well be taken as one indication of the stronger currents which determine the flow of this human stream. These figures show that seventy per cent of the men of the University of California are wage earners during some part of the college year. Twenty-five per cent are wholly self-supporting.

Surely such figures in themselves indicate that college men have in them sterner stuff than the far too popular misconceptions of the day would grant them.

## The Sounding Board

Great men and women, says Isadora Duncan, are never really appreciated before they reach a ripe age. She herself, she thinks, will not be thoroughly understood for some time to come.

Possibly not. "To be great," said Emerson, "is to be misunderstood." But to be misunderstood is not necessarily to be great.

Words are curious things. Many of them possess charm or power by virtue of their meaning, but some stick in the back of one's head through the potency of their sound alone. Having once heard them, who forget such words as Tegucigalpa, Senegambia, Orinoco, Andalusia, or Pottawattamie?

## PESSIMISTIC QUOTATION FOR TODAY

"Students don't go to school to learn; they go to school because they are lazy."

Our idea of a thrilling, pulse-quickening assignment is to cover the museums for the Daily Iowan.

## ENGINEERS RUN AFOUL LOCAL HESPERIDES

(No apologies to Jackie)

Pledges of the Triangle fraternity who were sent on a desperate and perilous mission one night recently were arrested and thrown in the bastille, charged with pilfering apples. "Older men" secured their release, but when they were again apprehended the following night on a similar charge, they were fined the customary amount "and costs."

Thus the youthful miscreants were taught what it is hoped will be an enduring lesson—not to attempt to emulate Hercules while either of the Iowa City police force is on duty.

Great is the suspense while the authorities are making the official registration count. Concern is manifested as to whether this year's enrollment is larger than last year's. If the enumerators would only wait until the Shriners' convention visits the University this week, the result could never be in doubt.

"Limousine foot," the latest in modern ailments, is caused by too much riding in automobiles—insufficient exercise of the feet.

That's one disease that we personally are not worrying about contracting.

—SEVENTEEN.

## CONTRIBUTORS' COLUMN

Editors note—All communications addressed to the editor and not exceeding 200 words will be published in this column. Articles must be signed, not for publication necessarily, but as evidence of good faith.

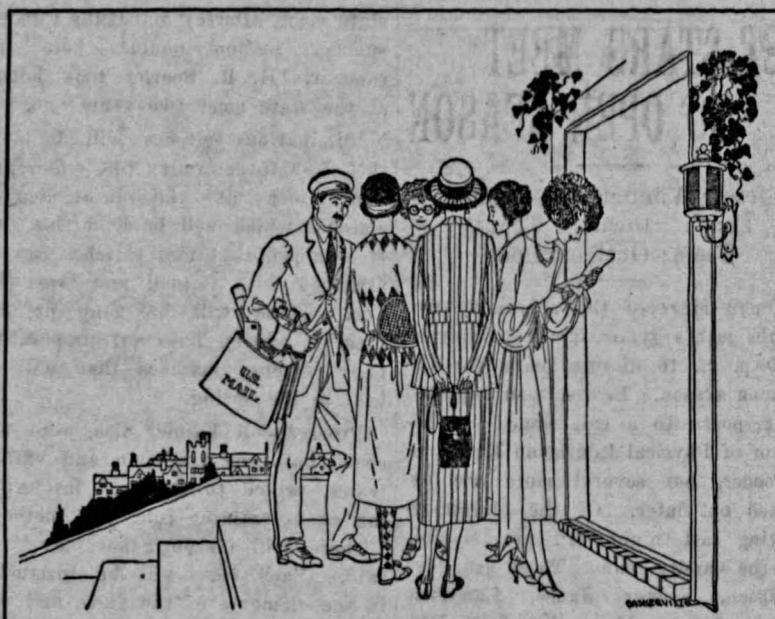

## WAKE UP MEDICS

What is the matter? Are medics ashamed of their University, or do they think that loyalty to Old Gold is beneath their dignity? We have no Medic's Day, there is but a poor showing at most of the pep meetings, there is a lack of unity or interest as a body which only breeds selfishness amongst us. Let's go! Make 1922-23 a different year for our college of medicine. Our college is looked upon with respect not only in this country but in England so we have nothing to be ashamed of on that score. Some medic students when asked to turn out for a gathering such as Fall Convocation turn up their noses and with a superior air tell you they have no time for that stuff, they must study! Why not have some punch in our college to let others know the dissection period has not spread its death spell on the college. Turn out and for goodness sake don't think we are the hardest worked in the University, because we are not. Take time to show your college colors. If you have time to stand on the sidewalk while your mates march down to the field surely you can't say study is keeping you away.

A Medic.

## WOMEN TO PLAY HOCKEY

One hundred and thirty women have reported for hockey practice at the University of Illinois. Only a few freshmen women have come out for practice so far, according to the Daily Illini.

# KODAK

The mail carrier's whistle brings the crowd together in a happy, expectant mood—a natural, unposed Kodak story-telling picture for your scrap book.

Everyday pictures like this—easy to make—are a constant enjoyment now and priceless later on.

Drop in at our Kodak counter and just look around—you'll find the Kodak you want. Inexpensive too.

## The Dolly Henderson College Shop

IS NOW OPEN!

New Location---24½ So. Clinton St.  
Over Prince's Flower Shop

A new shop equipped with the new things as conceived by New York—style features new and different.

The shop which supplied so many of the students last year will be more comprehensive and more complete in its merchandise assortments this season.

Among the new things, designed especially for the University Girl, are

Sweaters, Neckwear, Hosiery,  
Undergarments, Jewelry, Leather  
Goods, Handkerchiefs, Blouses

A complete stock of Toilet Articles at prices especially attractive will also make it profitable for you to make selections here.

For individual styles in the above mentioned articles, shop here. Prices are reasonable.

Margaret Brown Long

Is Manager of the new Dolly Henderson College Shop

### LOCAL STORES TO HOLD OPEN HOUSE

Window Displays to be Veiled Until Opening Hour Bids Populaee Welcome

Zip! Bang! everybody out for the community opening tomorrow evening from 7:30 to 9:00 at which time all gaily colored windows, hitherto kept dark, will be unmasked and the entire populace will be free to roam through the portals of Iowa City's stores. Numbers will be given at every store to each person entering and the lucky ones will be rewarded with merchandise displayed in the window.

This extensive campaign will be carried out by the merchants of Iowa City in order to bring to the attention of the trading population of this city and surrounding territory the many advantages to be had by trading at home and to boost Iowa City and its retail interests.

All stores will decorate their windows prior to 7:30 but will keep the windows covered until the psychological moment when the windows will be unveiled, lights turned on, and doors opened for public inspection. The articles to be given away will be displayed in the windows with the selected numbers attached to the articles.

The tickets, of which there are two, bearing the selected numbers will be delivered to each merchant participating, tomorrow. This number will correspond with a similar number printed on a hand bill to be given to the public instead of souvenirs.

During the evening the University Band will play and parade past the stores participating. Music for each individual store will be furnished by a number of student orchestras.

### SINGER THINKS COEDS ARE TOO FASTIDIOUS

"I find the college girl of today a bit too fastidious in her tastes," said Mme. Tillish, a famous dramatic singer, who recently appeared at Cornell college. Mme. Tillish is a native of Norway, and has spent most of her life among the picturesque mountains, glens, and fjords of that country.

"The girl from the typical American college spends more for the social part of her education; that part involving dresses, silk hose, and satin pumps, than for any other phase of her training." This, she said, leads the girl to expect too much of life after school days are over.

"Why," said the singer, "I can remember when we had two dresses, one for good, and one other."

### LOVE, YOUTH, A'S, MOST DESIRED BY MICHIGAN STUDENTS

Love. Perpetual Youth. An A in a course.

These were some of the most cherished desires indicated by a large percentage of four hundred students taking a beginning course in economics at Michigan university recently.

All Want Love and Money They all wanted love. They all wanted friends. They all wanted success. And money! Few of the bids for wealth fell below the million mark, while many would have made Rockefeller marvel.

Motor cars, airplanes, free passes on all railroads, happiness hereafter, a good dog, tailor-made clothes, phonographs, palaces, yachts, an unbeatable poker system, and the proverbial loaf of bread and jug of wine of Omar Khayyam were among the things coveted.

One Aspires Henry's Fame One student wanted to be Henry Ford. Another said he simply wanted freedom from all effort. No one was found who expressed a desire to be president.

A current report among the classes was that one male student had expressed the desire for Apollo-like features but this could not be verified.

### DANCING TURKEY HELPS STUDENT RAKE IN DIMES

With the reopening of universities and colleges many strange tales have been told about how students earned money during the summer months. The prize for the best job, must, however, be awarded to a Wisconsin university student, who ran a concession at county fairs in that state.

The boy had what he called the "dancing turkey—a live turkey—the only one in the world that could dance to phonograph music." He coined money, and is said to have enough to complete his scholastic career. The method was simple.

A polished steel plate in a hope arena served as a stage. The turkey would be placed in the ring when the music started. A mild flame under the ring protected from the prying eyes of spectators by a drape served to heat the plate just enough to make the turkey dance.

The scheme worked fine. Crowds would watch the "wonder bird" dance

and would then tell others. A dime admission reaped a huge profit.

The upkeep of the event was small. The turkeys after a few days in the ring would become used to the heat and would refuse to dance. Then the student would trade his trained turkey to some unsuspecting butcher for another turkey. Butchers were always glad to get trained turkeys, but soon found their mistake when they tried to make them dance.

Next summer the student plans to establish a string of similar shows and have one in each state.

### MAKE OVER MEN'S GYM FOR NEW BALL COURTS

According to a statement given out by Ernest G. Schroeder, director of physical education for men yesterday afternoon, the old locker room in the men's gymnasium is to be remodeled and built over into some new hand-ball courts, if the cost does not exceed the funds available for this purpose. The new courts will not have as high ceilings as the two old courts have, but this will in no way reduce their practicability. If anything, this limitation will make them faster and more and more popular with the players.

It has not yet been determined how many courts can be carved out of the space available, but, as soon as all the lockers have been moved downstairs to the capacious new locker-room, plans will be started.

## "Patricia Petite" Bazaar

Dedicated to Outer Apparel for High School and College Girls

The School Frocks, Street Frocks and Party Frocks created this season for the Youthful Parisienne while extremely simple in line, derive their charm and smartness from varieties of trimmings and contrasts of color, defined by master interpretations, ever clinging to a definite standard of marked individuality. And the same can be said of the Coats, to the extent of striving to attain heights never before explored by youthful fashions. Hence Killian's have taken nothing for granted—and in presenting the new and altogether alluring Coats and Dresses of the moment, the "Patricia Petite" Bazaar chalks an achievement that emphasizes its important mission in very definite terms.

### Students, Here is a Chance to Compete

For the Six Best Essays on "Patricia Petite"

We have stressed the importance of the "Patricia Petite" Bazaar to such an extent, so far as our own efforts are concerned, that we now want to be perfectly sure that its measure of service will be all that High School and College Girls have so ardently desired—and so we announce an essay contest that will be open to all Junior and Senior High School and College Girls. In preparing your thesis you will be altogether at liberty to write along any line of thought pertaining to or defining the "Patricia Petite" Bazaar, but it will be required that you recognize and weave into your paper a definite recognition of these three elements in their relation to the merchandise:

## BEAUTY, YOUTH and GRACE

The first prize will be \$25.00, the second prize will be \$15.00 and the third prize will be \$10.00. There will be two sets of each of these prizes—one set going to High School Girls, the other set to be awarded College Girls. Any High School or College Girl may participate.

DO NOT ALLOW YOUR THESIS TO EXCEED 350 WORDS

Observe these regulations: Write only on one side of your paper. Use pen and ink. Head your paper with your name and address, the name of your School or College, and the Class in which you are this season. Do not mail your essay before October 6 nor later than midnight of October 13. Impartial judges—not employees of The Killian Company—will award the prizes.

You need not buy any merchandise in the "Patricia Petite" Bazaar, but you ought to visit the Bazaar, on the second floor, before writing your thesis. Miss Ruth Howard, who is in charge of the Bazaar, will be delighted to assist you with her personal attention, if desired.

### TO FILL VACANCIES IN UNION COUNCIL

Campaign of Education for Memorial Union Will be Put on at Homecoming

What promises to become one of the most enthusiastic movements in behalf of the Iowa Memorial Union will be launched within a week, according to H. H. Matt, chairman of the Union council. At a recent meeting of the council members, definite plans were made to complete the council for this year and an outline for the work of the Union council for this year was presented by Director Ralph G. Grassfield.

Because the Union council, organized last year, was composed mostly of members of the senior class of the several colleges, it is necessary that the vacancies be filled. Just what method will be chosen to get the new members of the council has not been definitely decided, but it is assured the student body that a thoroughly representative Union council will be secured. Within the next week, Director Grassfield announced, this will have been accomplished, then the year's program will be adopted.

Among the activities under consideration is that of staging a campaign in behalf of the Iowa Memorial union homecoming week. This effort will be in the nature of a follow-up of the very successful campaign of last spring. Homecoming week will be the best time, according to the Union council, providing the work is all completed on Friday before homecoming. This will allow all of the enthusiasm generated to be carried over homecoming day, thus demonstrating to the thousands of returning alumni and friends that the student body is determined that the drive for funds for the Union building shall be completed by this year.

Alumni in Chicago, Des Moines, Omaha, Davenport, and Ottumwa are among the larger centers now making plans for an enthusiastic drive for the Union sometime this fall. Director Grassfield returned from Chicago the latter part of last week. He reported that the alumni have made good progress leading to a big campaign among the 500 alumni there early this fall. Des Moines alumni, said Director Grassfield will be ready for a drive shortly after homecoming.

### INTER-FRATERNITY COUNCIL TO MEET

Meeting Tonight to Discuss Ruling Relating to Garde Averages

The Inter-Fraternity Council has its first meeting of the year at the Phi Kappa Psi house this evening.

The meeting, according to Will J. Price, L2 of Des Moines, Phi Delta Theta, President of the Inter-Fraternity Council, will consider the amendment of the organization's agreement to the end of strengthening the penalties attached to infractions of the agreement. The enforcement of the ruling made two years ago which provided that each fraternity must keep its house scholarship average above the University men's average of 74, one year of probation being permitted, is to be discussed. It is not yet clear whether all the fraternities have maintained the required average. The existing inter-Fraternity Conference agreement was adopted last winter. It may be amended by a four-fifths vote of the Council; and, if in the succeeding month one fifth of the member houses do not protest, it is considered formally enacted.

The officers and members of the Inter-Fraternity Council for 1922-23 were elected last spring. Will J. Price L2 of Des Moines, Phi Delta Theta, will preside over the Council.

The president of the council is automatically a member of the student council. The other officers are Vice-President, Raymond C. Peterson A4 of Council Bluffs, Phi Kappa Psi; Secretary, Don D. Holdoegal, L2 of Rockwell City, Sigma Phi Epsilon; and Treasurer, Dwight G. Rider, L3 of Waterloo, Phi Gamma Delta. The members of the executive board are Pres. Price, Sec. Holdoegal, Elmer K. Bekman, L3 of Alton, Kappa Sigma, Raymon E. Hoyne, L2 of Clarinda, Kappa Beta Psi and faculty representatives Robert E. Rienow, Dean of Men, Prof. George W. Stewart of the Department of Physics, and Prof. Rollin Perkins of the college of law.

The other fraternity representatives on the council are F. Arthur White, A4 of Rolfe, Delta Chi; Walter F. Bergendorf, Au of Rock Island, Ill., Delta Chi; Myles J. Kildee L2 of Waterloo, Phi Kappa; Norris J. Heikel A4 of Winthrop, Phi Kappa Sigma; Henry J. Luetjen L2 of Boone, Psi Omega; Wendell W. Forbes A4 of Jefferson; Sigma Alpha Epsilon; Homer M. Roth A3 of Ottumwa, Sigma Chi; John J. Dondore A4 of Iowa City; Sigma Nu; V. P. Fisher S2 of Lomax, Ill., Theta Xi; Archie Urdangen S3 of Muscatine; Phi Epsilon Pi; Lehan T. Ryan L3 of Winthrop, Delta Theta Phi; and Hal A. McCann S3 of West Liberty, Acacia.

The representatives from the Delta Sigma Delta, Chi Kappa Pi, Delta Kappa Gamma, and the Phi Alpha Delta houses have not yet been named.

### WOMEN'S WORK IS OUTLINED TUESDAY

Various Activities Explained to Freshmen Women by Campus Leaders

The various activities and organizations for women were explained to freshmen girls yesterday afternoon at the second freshman lecture of the year. Short talks were given by officers of every large organization on the campus.

Mrs. Adelaide L. Burgo, acting dean of women, named the assistants in her office and introduced Miss Helen Peterson, new social assistant to the dean, who succeeds Miss Violet Blakely.

Margaret S. Altman A4 of Livermore, president of Staff and Circle, introduced the twelve members. "The University is yours," Miss Altman told the freshmen. "All the old girls are willing to help you."

#### Y. W. Heads Speak

Miss Alvida J. Buck, new secretary of the Y. W. C. A., spoke, and E. Roberta Anderson, president of the Y. W. C. A. explained the aims and purposes of the organization.

Catherine T. Wright A4 of Des Moines, president of the women's association welcomed all the freshmen girls

as members of W. A. "The purpose of W. A. is to make for a bigger, better, and broader spirit in the University," she said.

#### New Literary Society Explained

Lois W. Sensor A3 of Independence, president of the women's forensic council, asked all freshmen to cooperate in the work of organizing the freshman literary society. Under the old system many girls who could have made good literary society members were not invited to join, since the literary societies had no way of knowing what the freshmen could do. According to the new plan, the freshman literary society will have programs which literary society members will attend, and pick out promising girls.

Glady's Taggart A4 of Spencer, president of the women's athletic association, invited all freshmen to the big W. A. A. party to be held tonight at the women's gymnasium. She also explained the point system used by W. A. A.

All girls who can swim were urged to try out for Seals club by the new president, Margarita McGovney A2 of Iowa City.

Mrs. Burgo explained the social regulations to the girls.

Elizabeth Ensign A4 of Iowa City, sponsor system chairman, explained the sponsor system and invited all freshmen to attend the sponsor-sponsor party at the women's gymnasium on Thursday evening.
