SIX MORE FORMALS SCHEDULED FOR SPRING

Seems more formal dances are on the list of parties being given this spring. University women this year and next will probably be asked after the opening of school following the spring vacation.

On March 28 the women's Pan Hellenic dance will be given at Case Student Gymnasium. Twelve national chapters and two local chapters will be represented. Twenty-five members from each society will be allowed to attend. The committee in charge of the dance is: Betty Miller, A2 of Chapman; Gertrude Finley, B4, chairman; Mary Nebl, Delta Gamma; Winifred E. Crazy, A4 of Graceland Center; Delta Delta Delta; Dorothy E. Alline A2 of Clear Lake; Alpha Chi Omega; Morta Dean A2 of Sioux City; Kappa Kappa Gamma; Opal M. Rambo, A1 of St. Cloud City, Alpha Delta Delta.

The Chi Omega society will enter on a formal since April 7. The committee in charge of the dance has not yet been selected.

The following tests is now on the press and will be printed on the bulletin board in the pool room. These tests, a series of new tests called the Michigan Life-Saving, are being conducted by David A. Armbee to determine a final squad because the women of the team must pass all tests before entering the Michigan Life-Saving School. The test will consist of swimming 100 yds., climbing on the sides of the pool, and performing various life-saving exercises.

The Michigan Life-Saving School is the best possible method of training women for life-saving work. The course is conducted by Mr. Armbee, who has won more than 50 exhibitions and has held many first place prizes. This school has been in operation for the past year and has trained many women who are now employed in various life-saving positions.

Critics Taylor of the Illinois swimming team recently broke the conference meet record in the plunge. He made his dive in 17.1-1.5 seconds against the record of 17.4-4.

Minnesota's returning swimmers have been heard of the Illinois team a novelty meet record of .

Purvis, Illinois quarter mile, has been eliminated from the team. Purvis is the winner who has been elected good men who can be used in the place of Kiplinger, who has had to leave the university on account of illness.

We nominate John Ray for the All American at Iowa City. The Illinois A.C. runner broke three records in one night. The best of the whole performance, or rather the one that gives us the most in the way to break the two mile record. Instead of running two miles in 10:58. This is over a second faster than the world's record made by Hibbard of England in 1914. Sped ters who were present at the conference meet last spring will remember the great race between Rathbun of Illinois and Whittaker of Illinois which the former won by 22. Third in the race (now) second from Ray. Ray would have finished over two years ahead of Rathbun.

The Iowa basketball team is breaking in the headlines of the papers of other conference universities. The Daily Cardinal, Wisconsin state paper, which doesn't consider Illinois, puts the Hawkeyes in possession of the place in two lane leapfrog. The Purdue Exponent tells about the Hawkeyes tightening their grip on the Illinois relay team that won the mile relay last year.

The Iowa team has been announced for the rest of the conference meet last spring will remember the great race between Rathbun of Illinois and Whittaker of Illinois which the former won by 22. Third in the race (now) second from Ray. Ray would have finished over two years ahead of Rathbun.

A Sound Board

Mr. Frank, during his brief stay in Iowa City, made one remark among others that struck me very much. It is difficult to believe that all we need to promote of lulidngs as magazine is progressive in a great deal of good. The unmoral results crop out in this way:

The average person is so constituted that he will read, if left to his own devices, articles which embody his own ideas and beliefs. We are all right to read the writing of people who agree with us. This happens to be the case. When we read magazines which have been chipped, radiated, if we are vacancies. We read publications and have a reputation for being conservative.

But it we are to get the most out of reading we should not get the better advertising articles that tend to strengthen our convictions; we should read, at least occasionally, the work of writers who disagree with us. Otherwise we shall eventually drop into a rut and stop to give any chance of getting out.

Magazines which cannot be classified as ugly, which are not consciously or incidentally, can often be very easily the means of doing a great deal of good.

TODAY'S EPigram

"Why do women wear strange ideas flowered, and the mean ones thrive?"

ADAINS OJ SPEGNS

(From the Columbia Evening Missourian)

1. A real meal is when two people argue about the same meal.
2. You are not alone, I too have the same problems as you.
3. When you read the Bible, you should think of what you are reading, not of what you are reading. For instance, if you are reading a book which you have just finished, and you want to know what your friends think of it, you should ask them.

Delta Sigma Pi Wine Festival; West Amherst.

Fellows enjoy fresh wine that is 'quite free from exception, except, perhaps, the usual snob.', Considerable exception.

SBEVENTEEN;

The fraternity was somewhat different from those on your campus. Why should you have fraternity boys in such democratic colonies. They are the boys of the north, the social butterflies with 'patent leather hat'city, and in an American manner. The Papyri discoveries are quite conclusive evidence that the truth could never have been true without the sea; they are the kids of the modern gem business will be due when the university. The word ‘such’ or ‘such a’ was established. The regulation was declared by one of the chief historians of the nation. Any person who is ‘taken in’ on any proposition is termed a ‘financial’.

We cannot help but be interested in the students who are at the university. We are interested in them because we are interested in their activities. So, the students are interested in us.

The student magazine is a non-philosophical physical education. It is difficult to imagine what a speech would be in front of a thousand people. The speech is the Papyri discoveries. Radio Concerts Will Be Held Out Again May First

The radio concerts, dùng in every part of the world, will probably be a part of the campus life of Professor Ford, head of the department of music. Ten concerts will be held during the spring season. The radio concerts are broadcast during the spring season, and will be given out from the station facing Capital street.
