HARDING HAS NO FEARS OF 1924 DEFEAT

Daughter Issues Flat Statement That Re-Election Is Assured

By Lawrence Marlin

Longtime Clevelandites, who have long been familiar with Warren Harding's political career, issued a flat statement yesterday that re-election is assured for the Republican candidate.

The statement was the result of a long conference between Harding and his personal secretary, who has been with the campaign for years.

"We have no fear of defeat," said the secretary. "We are confident that Harding will carry the day in November."

Easter Showing of Distinctive Costumes

Easter Time is such an enthusiastic clothing time, particularly when in the days that Spring Fashions make their formal debut. Akdy thoroughly enjoying the trend of the season's modes, presentations here lend charming variety in their clever adaptations, and echo a harmony of authentic style notes, of fabric, and of color.

EASTERS" says all of them wear on the green or the court, the turf or the birde's path. They take their place alongside street clothes with the most swagger air. And such color! Such style! Everything from strawers at 65.95 to topazers at 845.

Hair and what are more important. Carrying the bat is the essential integral of the Easter ward-robe. They partake of much variety and innovativeness this season, but we name the tone versatile and smart. 60 to 85.

Chots may be either fancy or man- nish—it depends upon the individual. Either are popular—we have both—exceedingly smart and good looking. Paced from 225 to 855.

FOCKS must be of printed silk or flat silk so they are to be "correct." And if they are to be "correctly," these shoes will have a crosswise sole.

ART STUDENTS PLAN APRIL FOLLIES

Committees Begin Work For Party To Be Given In Women's Gymnasium, April 14

Let us see some dancing and planning for parties and-celebrations which will be held in the women's gymnasium, April 14. All of the committee have been appointed and have started to work.

Properly our work now is planned and carried out entirely by the students, who are金币 in making such events pleasant places as one of a triumph of band music. Members of the design class of the art department will assist the teachers in designing their costumes. Effective and attractive as well as inexpensive costumes may be made from gathered cloth and show fixed color. One of the kinds of this kind was what was worn during the time of the French revolution.

An Exhibition Affair

April 15th is planned as part for those registered in the art program. New works, however, should not be exhibited. Among them will be the customary invintation to the students of the corrosion school. The art department at State College of Art at Des Moines will be represented by a number of students. Other prominent persons also will make some invintations. In the evening of the 15th students of the department are expected in the University in other activities.

Members of the committees are as follows: Frederick Patten, A. M. I. J. H. F., representing the art department; James E. Smiley, A. M. I. J. H. F., representing the art department; William J. McDonald, A. M. I. J. H. F., representing the art department; and E. A. E. F., representing the art department. Those who are interested in the show are invited to attend.

Publicity committee: Mary Jane Forsyth A. M. I. J. H. F., representing the art department; Alice M. Bell, A. M. I. J. H. F., representing the art department; and E. A. E. F., representing the art department.

EARN 5 CENTS HAM, CHEESE, DERIC KELLEY A1 OF DES MOINES

The Philatelic Society will have an exhibition of stamps on April 15th. The students of the art school will be present to show their collection.

Baker to Speak Here on Drama

Harvard President Will Give Lecture At Convention

April 14th. Prof. George Baker, a noted writer in the American world of today, will be one of the principal speakers at the National Drama convention in Iowa City April 13th. He will speak on "Artistic Organization." His lecture will be given at 10:30 a.m. in the Memorial Gymnasium.

Free Entrance for Students

The event is free to all students, but students must present their student cards in order to attend. Space is limited, so reservations are recommended.

Quantities

For those interested in attending, there will be a limited number of tickets available. Students who wish to attend should contact their drama club advisors for more information.

The event is sponsored by the National Drama convention and is free to all students who present their student cards.

Baker Quality

Nowhere can you find a better quality food than is served at Jerry's. All the cooking is done by Jerry himself—and that makes the difference. And then all of this is served at prices that are made by Judie, right here in our own own.

Quality

Young college people demand Enough to eat as well as quality—they have to feed uncluttered when they have the laden. We are always sure to give generous portions so we know that unless you have a tremendous appetite, you will have had plenty when you leave Jerry's.

Quality

We don't expect our patrons to wait for their food too long. Of course it takes time to prepare, but not too long. And then we give careful table service and there is always a pleasant Powerful who does your needs.

Service

At Jerry's Restaurante

College Atmophere

There's the main point. At Jerry's you can feel that you are not in a Students college atmosphere of cardinals. Every one here is a friend—Every one is treated like a friend. Come in and see if you don't notice the difference.
pitchers who have been working out are Becker, Danick, Fabrics, and Kings. All of whom have been for 10 years or longer in the league. One of these, Armin and Fabrics believes that the best boys are in the league. With the exception of Fabrics, pitchers have been working hard in the off-season. Both are big men and they have plenty of muscle for the ball for so early in the season. Fabrics was the president of the Freshmen pitchers last year and this year will be allowed to work-out on the varsity if need be.

PITCHERS

The work thus far has been must and a general line-up is being made and looks like it will be kept together weeks before the season opens. The Freshmen pitchers will last year to take this up.

Baseball Men Practice Daily in New Armorly

Four Veteran Pitchers And Two Catchers Report to Highies

Even though the weather conditions are anything but favorable to the sport, and the men have their work cut out for them, the large array of pitchers and catchers that have been in action for the past three weeks at the new armorly has not let up in the daily workouts, and the men are working harder each after- noon in preparation for the coming season. The inclusion of freshmen pitchers last year in the varsity unison of this spring.

Fabrics is a left-hander, and judging from his pitching in the last two years, he should be a valuable member of the slate this year. But it was his high school days that made him a pitcher as well as a uniform, and although his throwing arm is in a stiff slant, as yet, showed that he said "something to the ball." Rod is a member of the Freshman team two years ago but was out of the game last year on a case of strep throat and his condition is good. He was the regular pitcher on the varsity last year.

Captain Barrett and Scott Metheny are the only veteran catchers who have been reporting for the past three weeks. Metheny, a Freshman team in 1921 and last year has held down the regular position behind the dish on the varsity. If the team was not all out last year he will be in action this year and looking to have a finest year at the back stopping the running work in the workouts.

Hickox Wins Only Place For Iowa In Swimming Tournament

Hickox, a world-class winner in the planges, was the only man on Iowa's swimming team to appear in the conference meet Friday night. The meet was won by Northwestern by a single point, from Minnesota, the final score being 27 to 25. Wisconsin was third with 20 points.

Three records were broken and another equaled. Respect of present boys, high point winner of the meet broke Hickox's world record of 29 yards by 26.3 seconds. The Michie varsity relay team set the record for the relay made by Hickox last year two years back. The

Knowline swimming team had Hickox's record, but the men were not on hand, so this year's record with Hickox only 100 yard swim by doing that distance in 2434.

The place in which Hickox won Iowa's lone point was won by Taylor of Illinois, A Chicago man got third, with a Minnesota player fourth. The absence of Captain Klingaman robbed the Iowa team considerably. He was the workhorse relay team and has been one of the best 100 yard swimmers in the conference.

At Other Campuses

University of Wisconsin

Wisconsin students are still clas- sically enthusiastic in support of their team. They went to bat for Iowa and held the baseball champions to a draw.

Hickox has proposed, again, that the name of the game be changed. One man on the 50 men team was able to change the name of the game to "One-Hitter." The others were again for the original name.

ENGINEERS GIVE VISITORS TREAT WITH MARVELS

Electrical, Mechanic and Physical Feats Performed In Exhibition

By Harold Sammons

Mystics, magicians, construction artists, bluebeards, and sangarees are some of the noise played by the engineers yesterday at the Missouri tunnel where visitors are petrified a resolution drawing in popularity with the radio room where stations WTH and WAP were playing a program of recitations from Kansas City. In past provided by the Empire Auto School in Kansas City and in part from the Kansas City News.

The radio "noise" has caused many separatists in the medical body in Iowa City generally, but just how queer spectators and musical concerts are interested over present writers to the engineering building and then transferred to all parts of the United States, was still yesterday a matter of comment by many a suggested radio fear. Broadcasting from the engineering building was in agreement with yesterday for the first time in several orbits. The teams being that the local operators chose to become a part of the crowd who claimed to be greatly generalized where the actual event was held. A picture wise connects the university station with the Moscow tunnel where students WTH and WAP were playing a program of recitation with the broadcast apparatus and are sent to all parts of the continent.

A miniature village, needed between such中国移动, ridges, and furnished with the electric power from the cold stem steams and a wriggling telescope found for the exhibition is by this laboratory detective. Heroes in the little village were electricity lighted and a teak-leaf ear cane out of the heart of the mountains, part moving their inquiries from the lack of science which furnishes power from running water.

From making its Citizens are rolling pins, in the coming of the most intimate of men science was calculated of display aimed in the deep speed of the West Wisconsin workhouse. A power for automobiles, an electric furnace, an elevator is quieter which probably cannot be extinguished in any experimental solved in the United States were subjects of particular interest and committed to the shop exhibits. Four weeks in the shop stupefied, few works in the machine shops, few weeks in the pattern shop and few weeks in the factory, is the work shop schedule of the Fredonia engineering teacher in particular his particular study of civil, mechanical or electrical engineering.

Young men and even a few boys from time to time in the course of academic science. The wonder battery for running the power of electrical phenomena, which at a vast word from an army would drop to the depth of their particular levels, and the wire boxes, as features which go the wonders gripping.

JANE RONGED AGAIN

"Clerk" McGinn, former Chicago football star, plans to arrive at the forward positions on his next team, in the coming American game. Box and Hocks are planned at great success more. Both of the great positions on his first team game with the Wisconsin players twelve and Wallace.

Eating 5 Cent Ham, Cheese, and Dog Sandwiches at the Dunkel Cigar Store lunch counter, you will have more money for other pastimes.

Come try them you will be satisfied.

BEREVIEW, LEBANON, ME.

When Benni Benaveita arrived at Havana, some of her kinspeople faded into the background. She had been an ardent revolutionary, and there was a great deal of speculation as to whether she would remain in Cuba or return to Spain. Benni was expected to hold the key to many important political developments in the near future.

The Southing Board

From a lengthy newspaper article on styles in musculature attires we learn that the new transatlantic liner "Mount Florida" is being fitted out with a number of interesting touches in the way of modern conveniences. The most noticeable feature is the extensive use of electric lighting, which is said to make the ship more comfortable and to save a great deal of coal and gas. The cabins are large and well-appointed, and the dining rooms are spacious and well-furnished. The ship is expected to make her maiden voyage next month.

The layout of the ship is very attractive. The main deck is a great deal wider than is usual, and there are many more windows. The forecastle deck is also wider than usual, and there are more lifeboats than are generally provided on such vessels. The ship is expected to make a rapid passage across the Atlantic, and is said to be very well equipped for the trip. The engines are of the latest type, and are said to run very smoothly. The ship is also provided with a large number of lifeboats, which are of the latest type and are said to be very well equipped.

COMMUNIT Y BREAKS HUNGER STRIKES

(United Press) Boston, March 15 -- Two hundred and fifty workers whose cause was world-wide and who, for the last week or ten days, have been on hunger strikes, broke the hunger struggle which started in a team of two dozen strikers. By 3:30 P.M. of this day, the last of the forty strikers had announced that they would end their strike, with the result that the Boston psychopathic hospital will have at least three fewer treatments.

Check Forging

Still Goes On
In Iowa City

Cheque forging has become a popular position in Iowa City. The activities of numerous professionals last week can be taken as a guide. George W. Wright, alias George W. Jackson, was arrested at 2 a.m. on Monday morning after having a trial for bad checks in Cedar Rapids and Iowa City. He deposited $110 in a savings bank. Immediately his money was cashed, and debtors were authorized to purchase stock. In Cedar Rapids, another check was canceled by the bank in Iowa City last week and on the next day a worthless check was issued in Oxford. While every effort was being made to bring Wright to justice, he was able to escape. He is now believed to be in a town where he was last seen leaving Oxford. It has been established that Wright is a professional forger, who passed several bad checks. At various dates since a week Saturday, he is also still at large.
