POUN SYSTEM WILL BE VOTED ON BY WOMEN

W. A. Officers Will Be Elected Tuesday and Wednesday

All women enrolled in the University will have an opportunity to vote for new officers of Women's association this week, March 19 and 20, at the north end of the Liberal arts building. In order to avoid conflict and difficulties in balloting, each woman's vote will be cast at a specified hour.

Women's association is the largest organization on the campus and holds the Preston Memorial Endowment fund of $15,000. The association plans to reserve a part of the fund for permanent officers and to use the balance for a party for some particular group, not to exceed $250. Each member of a group will have one vote on the project. The officers in charge of the project will be chosen by the nomination committee from the women in good standing who are enrolled for the present academic year.

America and Germany to be Close to Settlement

Aiden W. Borthwick

Mr. Halsey, German social democrat, says that he has conferred with government officials in Berlin and is confident that peace will come within a month. By the end of the month, he says, an agreement may be signed that will bring peace to the world over.

AIDEN W. BORTHWICK

WRESTLING AND BOXING IS ON FIRST TOWN

Preliminaries in Freshmen Boxing

To Be Held Tonight

The freshmen in the freshmen boxing, which was to be held tonight, fought for the gold medals of the light weight class of 112 pounds. Eightights and ten-up, the freshmen will compete in the first round.

The six riders of the freshmen boxing, which was to be held tonight, fought for the gold medals of the light weight class of 112 pounds. Eightights and ten-up, the freshmen will compete in the first round.

Mr. Halsey, German social democrat, says that he has conferred with government officials in Berlin and is confident that peace will come within a month. By the end of the month, he says, an agreement may be signed that will bring peace to the world over.

AIDEN W. BORTHWICK
Sororities will enter floats in IOWA W.A. PARADE

Alpha Tau Beta now holds Cup for 1922 Prize-Winning Float

The society parade will feature burlesque, all-sorority festivities to be given May 3 under the direction of T. M. C. A. and Y. W. C. A., when each minority on the campus will have an opportunity to win the lovely Souvenir Float in a prize contest prepared by the judges. The cup was won last year by Alpha Tau Beta, but it was transferred from year to year in a giving organization.

An effort will be made this year to interest more fraternities in the contest, according to Marjorie Turner All, chairman of committee for the future. Cleverness rather than efforts of decoration will win the Alpha Tau Beta float for the year, which was given temporarily to an old gray mare doing a one-hour show and a mock Queen of May.

Prizes were entered last year and the committee in charge expects even more entries this year.

The winning float of Alpha Tau Beta was described in gay colors with flowers and a huge butterfly. Delta Delta Delta's float looked second best.

In 1921, the winners were Alpha Chi Omega society and Delta Kappa Epsilon fraternity.

ANNOUNCEMENTS

The A. V. meeting Wednesday night at 7:30 of Officers of Phi Delta Kappa will be entertained.

E. W. Lass

Iowa Dames club will meet tonight at 7:30 in liberal arts drawing rooms.

COACH BARRY

ISSUES CALL FOR BASEBALL

Candidates Will Report
At New Armory
Today At
4 P.M.

A general call for varsity baseball candidates was issued by Coach Sam Barry last night. All men, regardless of former baseball experience, will report to Coach Barry at the new armory this afternoon at 4 o'clock in uniform. Candidates can expect uniform at the athletic department office in the men's gymnasium before that time.

Although the weather conditions are not favorable for a satisfactory workout by the entire squad of battery men, infielders, and outfielders, Coach Barry intends to give the men the opportunity to make the most of the practice available before they enter into the grind of the season's work.

It is to be remembered that the first practice of the team will be with the junior basketball in the Armory, of football in the gym, and in the Broad Street gymnasium. The schedule for the first practice will be announced later.

The dozen or more men who are out for baseball will at least rate up with the Iowa nines of the past few years. Most of the men will be as good a team as have been fielded at the present time. The team will be at least as good as the one that was fielded against Minnesota last year.<br><br>

Sophia and Junior Women's Cage Teams Play Close Battle

An interesting game between the senior squad of the women's basketball and the junior basketball women was played yesterday afternoon in which the seniors won one game over the juniors with a score of 10 to 8. The game was slow and the players played the best of six games, more or less play being done.

The two forwards, Esther Jahnke of the majors, and Miss Emma Schmidt of the juniors showed consistent play. Some scoring baskets with accurate work. Ruth Morris of the seniors was an outstanding player in the junior game. Ruth had the best individual work in the senior game. She was named for the position because of her high efficiency. Mary Leonard of the seniors played almost every minute against Miss Morris. The game reached the last game of the season basket game.

HAWKEYE BOARD TO BE ELECTED SOON

Four Student Members Will Be Elected—Consideration for Trust Petitions

Asst J. Bruce Ad of the Quads, president of the Quads will be succeeded by the president of the Student Senate. The Student Senate, in turn, will choose the student commissioner of the Hawkeye Board. The election is to take place two weeks after the spring vacation. Miss. Storey's appointment was announced last evening by Will J. Price, LlS of Minnesota the student council president. The election chairman is required to pick his own candidates of those present at the time of the election. The election, Miss. Storey will make the appointment of the student commissioner.

From the candidates who petition to have their names included on the board of trustees ballot, four will be chosen. The four successful candidates will fill the four student commissioner positions on the Hawkeye Board. The election chairman is required to pick his own candidates of the names that were filed. The four successful candidates will fill the four student commissioner positions on the Hawkeye Board. The election chairman is required to pick his own candidates of the names that were filed.

Business Building

The co-operative selling of commodities is fundamental in every business, and selling life insurance affords the merchant the opportunity of satisfying his customers and building a business on the solid foundation of good customer relations. For the life insurance salesman it is not only a business but an opportunity to serve his community and make himself indispensable to the conduct of modern affairs.

The life insurance salesman is not only a business builder but an educator. He is called on to teach, to inform, to show the wisdom of the insurance man who is willing and selling to work, and who has the knowledge and ability to present insurance in such a way that the public understands its value. The public is not interested in what he tells but what he tells to the people who can understand what he is trying to teach.

The residence and position of the Jones Insurance office make it possible for us to do this. The Jones Insurance company is one of the most respected in the state. If you have a need to meet a problem, we will be pleased to help you solve it.

COLEGE UNIVERSITY PHYSICS PROFESSOR ADDRESSES STUDENTS

Experiments to which the time that an atom emits light was newly discussed by Dr. A. A. Dempster, professor of physics at the University of Chicago, in his lecture yesterday afternoon, the physics lecture room. Dr. Dempster showed that the results of these experiments are very difficult to interpret, but that present theory is adequate. In his lecture last night, Dr. Dempster quoted from papers, the newly discovered substances of which some of the chemical elements are composed. This science is one of the two best known investigators in the world on this subject.

An Iowan in the Arctic

By Ralph Middagh

" Discovering strange people, exploring strange countries, and counting the peril of floating in packs to the frozen north all come in a day's work for 'Eskimo' Frederick Stephenson, a graduate of the University of Iowa."

"Let's explore!" is the manner in which the latest edition of "Whit's" War has hailed Mr. Stephenson. Taking his B.A. from this university in 1921, he started upon his long and arduous task of traversing, his first expedition to the north was in 1926, and since that time his life has been practically continuous in that north. At the present time he has accumulated almost 1,000,000 miles of travel in the northern regions, a distance which in terms of land is equal to that between Boston and San Francisco.

His work in the expedition of 1930-1931, Mr. Hugo, the Robert Bourassa, prime minister of Canada said: "His unswerving intellectual power, remarkable faculty of observation, capacity for bearing hazards and privations, scientific patience and balance, and immense physical strength and endurance make him truly remarkable." His companion during several years of exploring was Dr. E. L. Manly, anologist, who lives also as an Eskimo of the University of Iowa and was a classmate of Mr. Stephenson in the college. Dr. Manly says: "I have known him in the University as one of those consistent men who had been honor both through scholarship and athletics. He had been captain of track team; he had worked various sororities and by degrees of Doctor of Philosophy and was now tutor of classics and a scholar and a competitor with rank.

In starting on his long expediti

E. Stephenson lives in a small house near the University at the head of the Experimental Station, now in his second year of work at the University of Iowa. His paper, "The Eskimos of the United States," has been published in an English journal, and is now being read in the United States, Canada, and Great Britain. His work has been widely read in England, and has been favorably reviewed in the United States, Canada, and Great Britain. His paper, "The Eskimos of the United States," has been published in an English journal, and is now being read in the United States, Canada, and Great Britain.

Now Biggs Gets to Class On Time!

At exciting tale of adventure might be written about the hunting expeditions Biggs used to make after the chapter of his old tube of shaving cream. For months Biggs was late to class because he spent valuable minutes hundreds of miles through the bush. But then it dawned on him that he was mining a gold deal in getting within walking distance of Buy-a-tube and see if it isn’t a Williams.

The Easter Season has become a time for giving and sharing with our loved ones. This year, we may want to appear in Oklahoma City's mighty, unsinkable Spirit of America, which has been restored to its former glory. The Easter Season is a special time for the families of those who have served in the armed forces, and we encourage all to remember their sacrifices.

**HARDING MAY DROP COURT PROPOSAL**

President Harding May Oppose Plan To Make Court Speaking Subject

(By United Press) Washington, Dec. 1 (H) - Because of opposition, among powerful Republicans, to President Harding's plan shortly to be dropped, it is proposed to drop the proposal to the international organization of June 30.

He had planned to make this the big feature of his winter speaking tour next season, but these are reports from St. Augustine that the most proposed has lost some support not only from some individuals, the senator of Arizona, Senator H. E. Clark, president of the University of Texas, and from the regular party leaders who said that Harding will be turned in with trying to stir up the league of nations through the back door.

Some even predict that Harding will take up the plan to the House but Harding's supporters probably will never move out of the Senate foreign relations committee. This House will, however, have to witness the House of Representatives, and in the Senate, the committee on the committee on the committee if any attempt is made to stir up the league of nations through the back door.

One reason for the hostility held the greatest, is that from the first Hopkins became secretary of state, a large group of individuals...

**TRACK MEN WILL BE ENTERTAINED**

Athletic Department Will Host At Mixer For All Men Interested In Track

An open mixer for all men interested in track will be given by the athletic department tonight in the men's gym. April 3 at 7 o'clock. There will be a meeting of the Track Club tonight in room 208.

There will be an important discussion meeting of Whitby Library society in June. Hold tonight at 7 o'clock. Are you interested in attending? If so, please be present.

A ball will be played on the program for all men interested in track and who might like to come out for track. All those interested in track are invited to attend this mixer tonight. This mixer will be given.

The Hawks track team is starting a drive for $500 in the bowls of track, flowers, and furniture, Iowa should be able to put out a team to be proud of. It is said, however, that Iowa should be able to put out a team to be proud of. It is said, however, that Iowa should be able to put out a team to be proud of.

Both of Iowa traces in the other major sports, football and basketball, have won championships and Coach Crawford is anxious to make our track meet the best.

In order to have some mean of knowing just how well Iowa students are responding, he plans to have a regular and complete list of entries open on Iowa Field, with the score of each. Figures of every number of non-reporting will be shown in the college.

The lack of men appears a large part of the loss of the ball meet with Illinois. Iowa took just as many first places as Illinois did, but the Hawkeyes did not have anywhere two places on the track field, and finished third in the Hawkeyes' class of third. Their finishing was far higher than third or fourth. This was due no doubt to the men who were able to participate.

The track team big men will make the big issue, the burger, buns, and potatoes, and put the shot.

**OKLAHOMA WOMEN PETITION TO SEE ROBERT SHELDON**

Petition To See Robert Sheldon

Olly Ma, one of our most capable students, is preparing to appear in Oklahoma City's mighty, unsinkable Spirit of America, which has been restored to its former glory. The Oklahoma University Daily News.

When it first leaves town, the spirit of Oklahoma, the world's largest, and America's most patriotic...
