NOTED WRITER WILL LECTURE HERE TONIGHT

Stephen Leacock, Last Of The Humorists, Is Known As Humorist

For some years past, a rising tide of literary men from England has washed upon our shores a number of Stephen Leacock, in 1921, in his sketch “My Discovery of England.” He carries with them impressions of America and when they reach England, they tell us. In the course of a few weeks, perhaps, the effect of this flood upon the American public was felt, when some one pointed out to us a large and considerable increase of British tourists, the exchange being reduced to the same state of ebb that it was in last May.

The conflict between the New World and the Old

A number of college students are currently preparing for the second annual conference of the American Humorists, who are meeting in conjunction with the Royal Convocation at the University of Iowa. England, I am told, is very much in manner.

To hear one of our men who is an arrangement of the two great continents, and to hear him at that time are

And when I have to say that the humorists, and his

**Q.E.D.**

"Show me" says the math teacher—and when the chalk clouds have settled down there are a lot of figures signed 'Q.E.D.' which aren't "Q.E.D." at all. Say "Show me" to the shaving cream you're using and see what you get. Will it soften your beard right down to the base before the breakfast bell has rung twice? Will it leave your skin smooth and supple after every shave and give you the well-groomed look of perfect health? Every day men are finding how much easier shaving can be made because of the speed and thoroughness with which Williams' softens the beard. Likewise, they are finding a help for their skin in Williams' that they never found in any other shaving cream. It's easy to see the difference. The may surprise you.

**HAWKES DOPED TO WIN AT DRAKE**

Record Of Milly Relay Quarter Makes Them Favorites

Over Ills.

Joe Walton, Sr., April 27-Thirty Iowa and Illinois doped on the favors to win the mile relay, unoffical series, at the fourth western Drake university relay meet, which event is attracting great interest among the fans who will attend the meet.

Win, to meet Madison today in Iowa's first Big Ten conference ten­

mile meet in the history of the insti­

tution. Iowa has had several matches with One this year but this is the first conference meet of the year. The teams are composed of the Wester's, Smith and Smith. Both James and Evanson ranked high in their states and at the Drake state tournament last autumn. They should stand the best chance of the Iowa team since both have had considerable watch and tournament experience.

Chief Executive of State And

Staff Will Be Grants Of

Military Department

May 31 has been officially named as Governor's Day by Colonel Monroe

Morgan, Department commander.

Governor N. E. Kendall, Adjutant General, and the Governor's Executive office have accepted the in­

vitations to be present on this special day with the Governor.

The Illinois mile relay team is composed of Captains Sweet, Palm, sport and Dransfield. Sweet and Dransfield were members of the second-breaking Illinois mile team that ran away from the field in this event at the Drake meet last year. Every member of the Illinois team is a strong, de­

pendable runner and can be counted on to give his best to win. A record of 3:49 Iowa participants will scramble a session at the stadium fences, pulling for a Hawkeyes victory.

Today, when all the good things are taken care of, there is a special occasion in the calendar which should be kept in mind. It is called *fête", or French for "feast."

In a letter to Athletic Director Edgar Gillett, May stated that he is embarking on the present and prepared to run the race of his life Friday.

"I am confident that I will give the fans a better exhibition than I did last year," Ray wrote. "I am trying to be prepared for the relay of my life, which will be the event of the year. I am working hard to be in top form and will be ready for the race.""
The opportunity to hear the St. Louis Symphony Orchestra again is eagerly anticipated by the music lovers of Iowa City. Perhaps the majority of those present at the record concert held in the history of the city Thursday, in the auditorium of the State Normal School, sit down to the music of the world's greatest pianists, masters May 7 will be seated for the performance of Louis Drain, Rudolph Ganz, one of the world's greatest pianists, master soloist, and Michel Gusikoff, one eagerly anticipated by the music lovers of the city.

Present for the concert, and has a thorough knowledge of the orchestra, is Dr. Edward L. Thorndike, noted educator, who is to become a naturalized citizen.

Dr. Thorndike has already won one to a greater measure than has been the case with many other musicians. As a result of the great Franz Musikalische Auszeichnung, the highest honor awarded by the University of Iowa, Dr. Thorndike has achieved a scholarly recognition which, adds to his fame among the music lovers of the city.

Besides this number there will be senior law classes were eligible.

One of the world's greatest pianists, master soloist, and Michel Gusikoff, one eagerly anticipated by the music lovers of the city, were presented, Rudolph Ganz, age 37, and Dorothy Mackall (Dorothy Giah's Husband) James Drake Relays.
I can feel sulphur in the earth...

Sulphur has been used since ancient times in various forms to treat a variety of ailments. It was used in remedies for conditions ranging from skin issues to respiratory problems. In some cultures, it was believed to have magical properties and was used in rituals and ceremonies.

The use of sulphur in traditional medicine is still practiced today in some communities. It is used in various forms, including powders, capsules, and ointments, for its antibacterial and antifungal properties.

Some of the benefits of sulphur include:
- Antimicrobial activity
- Anti-inflammatory properties
- Skin health

However, it is important to note that sulphur can be toxic if ingested in large amounts, and it should be used with caution. It is always recommended to consult a healthcare professional before starting any new treatment or supplement regimen.

In conclusion, the use of sulphur for health benefits has a long history, and it continues to be used today in various forms.

Sulphur is a chemical element with the symbol S and atomic number 16. It is a versatile element with many uses, from industrial applications to traditional medicine. Its atomic weight is 32.065, and it belongs to the chalcogen group of elements in the periodic table. Its discovery dates back to ancient times, with evidence of its use in religious and medicinal practices.

**Seniors Lay Plans For Graduation Activities; Senior Day is First**

Early in May the seniors come to the realization that college life for them is almost over and they begin to plan for the last fling, the stunts, and the social affairs that are arranged upon occasion everywhere. At least the first of the senior activities will be the Senior Day.

On this day a program is given upon the Field in the form and senior classes are displayed for the day. Choirs in all colleges are displayed for the latter part of the forenoon so that the students may attend the program. On the field the band plays, singers of various kinds are given, and speeches are made. No admission is charged, being a celebration day for seniors and the program arranged and put on by University talent.

The date for the Senior Day this year has not been officially decided upon but the committee in charge is to meet Wednesday and the day will probably be definitely fixed.

There is a full events until after the final examinations are over. On the Saturday preceding Commencement the Senior Breakfast Dance will be held. This will be the second year that the seniors had a breakfast dance. Prior to this it was customary to hold a breakfast and a frise on this day. But the students who are given at this time has been all to the activities at other functions throughout the year. The entertainments will new given at the breakfast will be a feature of the main event. The last year a very successful breakfast dance was given in the new accuracy on the Senior preceding Commencement and it was quite likely that its success will lead to its becoming an annual custom.

Definite arrangements have not yet been made but it will be likely very similar to last year’s, the breakfast being held at dinner and the dance following immediately after.

Then on Monday, the annual Senior Wrangle will be held on the Campus and it is at this time the "Senior Wrangler" appears before the eyes of both the Senior Presidents in all the colleges. This has long since faded, while his books are

*What are the worst books you have read during your school days so far?*
STATE BOARD ON FRATERNITY HOUSE SITES
Education Body Zones
The City For Fraternity
And Sorority Bodies

A regulation concerning the les¬
ning of fraternity and sorority houses was announced by the State Board of Education in mission here this week. The board, in a meeting at the State University of Iowa at a noon meeting on Thursday, said in the effect that fraternities shall not be built in buildings now used for any property owned or occupied by a sorority. An organization that owns a kind of a zoning system to adapt itself to such situations was the plan of the conference. The action of this conference was accompanied by the Board of Educa¬
tion in Faithfulness of the policy recommended by the Social Commit¬
teers of the University to establish a list of fraternity and sorority zones. The resolution adopted by the board includes the following:
1. That the part of Iowa City north of Ronalds Street be established as fraternity zone number one;
2. That the part of Iowa City east of the Iowa River be established as fraternity zone number two; (3) That the part of Iowa City west of the University of Iowa be established as fraternity zone number three.

The resolution, which goes into effect next year, provided, the board said, that the fraternity and sorority zone controls do not affect the renting of houses, nor does it affect the location of fraternity and sorority homes. It merely provides that future buildings shall conform to the regulations of that system as set forth in the resolution of the board.

Assailant Of Judge
In English Court Is
Sentenced To Jail

(United Press) London, April 25.—An attempt to assassinate B. J. E. Justice Leir, in the belief that he was about to take his seat caused a con¬
troversy in the shadowy divisions of law courts here Friday.
Arthur Ravnenall was arrested in the court porter's office and on the way to his cell was attended by a deputy sheriff. Ravnenall was committed to the House of Correction.
"Your action is a threat against court authority," the judge who sent the assailant to jail.

In Iowa City
The Old Home Town

This building half way between Minneapolis and St. Louis, Chicago and Duluth, probably has more than any other town of its size, relatives who come here to see us, and many of them are old friends of us. This is what makes it so pleasant for us to live here in Iowa City.

The building is a four-story structure of brick, and it is divided into apartments. The building was erected in 1874 and has been owned by various parties since then. The building has been entirely remodeled and modernized, and is now in very good condition. It is situated on a corner lot, and has a fine view of the street.

The building contains 200 apartments, and is occupied by a variety of families. The building is well lighted and ventilated, and is well heated. The building is well maintained, and is in good repair.

The building is well located, and is in a very desirable section of the city. It is close to the business section of the city, and is in a very convenient location for those who wish to live in the city.

The building is well maintained, and is in good repair.
