300 ATHLETES WILL COMPETE IN MEET TODAY

Cedar Rapids hopes to win Annual High School Basketball Tournament Again.

Iowa's 1927 football team and field meet held in conjunction with the Iowa-Northwestern meet started this morning at 3 o'clock with the preliminaries in a number of the track events, and the preliminaries and the finals in field events.

Airing from various towns in Iowa making up the 200 series bids to get into Iowa City late yesterday evening, and this morning all the teams arrived in time for the early preliminaries.

The weather was fairly comfortable in the morning, the temperature being around 45 degrees. The track events were started promptly and the field events, according to the program, were to be run during the afternoon.

HAIL DISCOVERY AS REVOLUTIONARY

Acquired Characterization May Be Introduced, Says Professor Edward Curtiss Frank

London, May 6—Dr. Paul Krauss, the Viennese scientist, who declared that he actually had discovered a method of acquiring acquired characteristics, declared yesterday that he gives to that acquisition of characteristics by the human species, which the theory of Darwin, who had laid the groundwork, does not explain.

Dr. Krauss, who is a leading authority on genetics, said that he had discovered a method of acquiring characteristics which he called "acquired characteristics." He stated that he had discovered a method which would enable him to introduce new characteristics into the human species.

Dr. Krauss said that he had found a way to introduce new characteristics into the human species, which would enable him to create a new species.

He stated that he had discovered a method of acquiring characteristics which he called "acquired characteristics." He stated that he had discovered a method which would enable him to introduce new characteristics into the human species.

Ganz Is Admired By His Orchestra

St. Louis Symphony Orchestra Opens Very Talented Subscription Tour

The presence of the St. Louis Symphony Orchestra, which is to be heard in Iowa City tonight, and Monday evening concerts on Monday, May 1, at the grand commencements, is due to the generosity of the Public Energy Trust. The orchestra is one of the foremost in the country and is composed of the ablest artists.

The concerts feature the works of Mahler, Beethoven, and Dvorak, and a number of the orchestra's members have been chosen for the opening of the orchestra's subscription season at the Grand Opera House of St. Louis. The concerts are expected to be highly successful.

REGISTRARS MEET FOR DISCUSSIONS

Officials of Iowa College Hold Two-Day Sessions Here

College and university registrars from over the state are in session in room 23 of the literary arts building. A two-day convention is under way.

At the opening meeting yesterday the address of welcome was given by Dean George F. Kay of the library college and the response made by Registrar J. B. Sages of

Iowa, from Iowa State college. Talks were given yesterday by the following: Dean E. V. Langdale, Leclerc college; Registrar O. A. Taggart, Luther college; Registrar C. A. Cary, Iowa State teachers college; Registrar Williams W. Evans of Coburg college; Registrar E. W. Korpene of Simpson college at Des Moines; R. A. Filippelli, registrar at Guilford college; duplicates.

Registrar Mary E. Bannone, Guelph college, and Registrar C. E. King of Iowa Wesleyan, who were to speak today, were present at yesterday afternoon's program.

**FIVE SCHOOLS SURVIVE FIRST DAY'S CONTESTS**

**Interscholastic Tennis Tournament on Iowa Courts Today**

TODAY'S PARISHON SEMIFINALS IN DOUBLES

Mitchell and Tabor (Cedar Rapids) vs. Boyle and Lillie (Albia, Iowa City)

Fifteenth Annual Interscholastic Field Events, Interscholastic Track Meet

**Five schools survived yesterday's first day's contests and will compete in tomorrow's semi-finals.**

The Illinois-landers are in the defence of the district meet and if they show the same dash and ability as they did in the Illini meet, they should do well in the semi-finals in all the games.

**Marshall Field Park**

While this meet will doubtfully up the excitement opposite in the Park, and if the Iowa crow crows with a win in this round, it will be sure to show a clean pair of heels to the field on the occasion.

Either "Ching" Drake or "Ble" Marshall will be on the mound and the wins are with the odds in favor of Marshall.

**Increases in Wages Are Noted in Many Sections of Country**

In the woolen and cotton mills of Iowa and Minnesota; farm labor in Iowa and Minnesota; bricklayers and plasterers have received wage increases in Virginia, and the wages of workers have been increased in parts of Michigan and Wisconsin.

**Wages Ever High?**

Increases in wages are noted in twenty three cities while in twelve one-eighth states the unemployed were experienced two years ago has completely died out according to figures and statistics recently gathered from labor leaders, industrial organizers and employment exchanges throughout the country.

Increases in wages have meant a rise in the cost of living in many states over the country and conditions point to a general advance in the upward direction.

**In the singles division**

Two excellent pairs in the doubles. Northwest; carpenters in Kentucky, and McCluskey of Cou t des Moines were snarled up yesterday. West and East Fortune" will have a chance to come on to the winners, and a general increase among school wanderers in Chicago, and a 1 1/2 per cent. increase is noted in the workers and cotton mills of New England. The reports also show a great advance in workers in Michigan and on to the building trades, and in the Northwest, carpenters in Kentucky, farm labor in Iowa and Minnesota, bricklayers and plasterers in Madison and plasterers also show.

Four thousand Betheltonians, men, women and children, are expected to attend the first day's opening of the Fifteenth Annual Interscholastic Track Meet and Interscholastic Field Meet.

5000 entrants are expected to compete in the fifteen events entered in the meet. The meet will be on the same line as the Illinois track and field meet held a few days ago, and the results of the fifty events will be published in the Daily Iowan.

ROAD AND BRIDGE MODELS EXHIBITED

Highway Education Board Brings Twelve Miniatures Here For Display

A set of eleven models of roads and bridges, prepared by the bureau of public roads, are on exhibit now in the library of the engineering college. Both exhibits are made and under the supervision of professor B. F. Platt of the department of agriculture, who has arranged a launch for the two exhibitions on the lake, which are the property of the bureau of public roads.

The models, though made as small and light as possible, are valuable trainees to every engineer. They are so constructed that one half inch on the models represents a foot of actual road or bridge. The road models are designed to show various methods of constructing the road from the completed subgrade in the center. For instance, the mud-cord road model shows at one end the original sand used, in the adjoining section the raising of the road on the wing, and at the next section shows the finished road shaped to the proper curve.

The materials used in the "Tudor" road model are made as nearly as possible to the same materials that are put into roads. Each model of the clay road shows the old and the new, and half of each is reclaimed by a bridge that is built up to the river.

The students are now active in the preparation of the last exhibit, which consists of twenty gallons of sand-clay mixture. Every ingredient must be accurately measured and mixed to the proper consistency before it is consumed by the ants, their eggs, the crabs and the dance handle a 350 loaf experiment.

Scientists' Trip To West Indies Shows In Moving Pictures

The nation picture films taken by the Harvard-Antigua expedition in 1918 were shown at the Garden theater yesterday evening. This privilege was obtained through the courtesy of Mr. H. L. Dib, of the department of agriculture, who arranged the showing.

The unusual variety of these pictures was due to the work of the photographer, Mr. E. H. Dib, who is now making a continuing record of the educational activities of the commission to accommodate more than 2,000 pupils. He declares.

"The teacher in the small red school house with buildings, sweeping and other janitorial work had no room for him to stand and his hair blew, when she assembled her English class.

"With the present school, pupils are not individuals—they are students. They learn and go on as individuals on the teachers' records.

Under the system of our school, pupils are not individuals—they are students. They learn and go on as individuals on the teachers' records."

Lockstep Methods Of Education Are Being Criticized

By Mabel Blazier

Chicago, May 4 (United Press)—"Lockstep" methods of education are under fire from Chicago high school teachers.

Schools are large, several with as many as 1,000 pupils, that it is impossible for teachers to obtain perfect knowledge of their students.

"As a result," Miss Mabel Blazier, "I see a crushing of individuality. People have become nothing but evils in a gigantic system."

Miss Blazier is an instructor at the Nichols High School and leader in the teachers' fight for the following programs:

1. No high school should be built to accommodate more than 2,500 pupils.

2. No additions should be built to schools now having over 2,000 pupils.

3. Male teachers academic professors and not clerical heads of faculties.

4. Eliminate teachers clerical work which would warrant a certified agent.

"The evening, drawing in hallways and class rooms and claiming of fates of all days lives the system and the heart of both teacher and pupil," Miss Blazier said.

"With the present school, pupils are not individuals—they are students. They learn and go on as individuals on the teachers' records.

The University of Engineering

Of all the things that go to make the successful engineer, none is more important, nor more in step with the spirit of the profession, than a studium attitude. One man says about another—"he is always willing to learn." "he doesn't think he knows it all"—and he intends to pay a high compliment when he says it.

The great engineers are always at school, always learning, always seeking for more knowledge. They begin with this desire for fuller understanding, and keep it up to the end.

Any engineering operation, over and above the primary purpose for which it is carried out, is an active and post-graduate class in engineering also. No Westpholnert, or any other great business, is, of its very nature, a University where theory and practice combine to make big, broader and more practical engineers.

The courses in this University are not limited to prescribed subjects nor terms—the subjects are almost infinite, and the semesters are endless. Men with the weight of years on their shoulders work and learn side-by-side with those whose day has just dawned.

This post-graduate school fits men for almost anything. Education is the way in which they learn and make them continually fitting. Out of this continuing fitness have grown the courses and the requirements which comprise the work of this institution has grown. It is, perhaps, one of the great educational institu-
MONTICELLO IS WINNER OF HIGH SCHOOL DEBATE
Oskaloosa Takes First Place in Speaking Contest Here Yesterday

Monticello, supporting the negative side of the question, won the interscholastic debate and the oratory speech contest here yesterday afternoon. Oskaloosa, represented by James Devitt, carried off first honors in the oratorical speaking contest and just before the debate Devitt's subject was "Prohibition," the subject being assigned by lot just prior to the contest. Roy Blagney of Oskaloosa was named second place in the oratorical speaking contest, an honor conferred annually under the auspices of the Patriotic league of the extension division of this university. Blagney's subject was "Our Next President." The other speaker was Lyde Shaler of Ft. Dodge, representing the Northwestern division.

Winners in Oratory Contest

The oratorical contest was won by Devitt and the oratorical speaking contest by Blagney. Each of the orators will receive silver plaques awarded the winning school Hickerson and Esther Fullr of Mt.

ORGANIZE RADIO LEAGUE IN CITY

Wireless Enthusiasts Combine for Purpose of Mutual Help

Through the approval of the Constitution and Bylaws of the Iowa City Radio League at its last general meeting yesterday the league was organized. The purpose of the league is to advance radio activity, particularly in this city, and to afford help and protection to its members.

The league here is in other cities was brought into existence partly because of the belief that the government cannot properly appropriate the multitude of taxpayers and broadcasting stations and bring about the necessary elimination of wave length duplication.

The next meeting of the league will be held May 7 at 7:30 p.m. in the basement of the Iowa City public library. Anyone interested is invited to attend.

DEBS DECLINES INVITATION TO VISIT RUSSIA

Gives Ill Health as Reason for Not Accepting at This Time

(By United News)

Maurice, May 4— Eugene V. Debs, leader of the Socialist party in the United States, has declined an invitation to visit Russia because he has not fully recovered his health.

In a letter received by M. Kalinov, president of Soviet Russia and Madame Kalmov, wife of the present of the Moscow Soviet, Debs expressed his regret that he could not accept the invitation extended to him by the central commission for the cultivation of the Russian and Soviet cultures in the spheres of science, agriculture and art, in matters of defense of the ideas of the social revolution. He stated that he felt himself too weak to leave the United States for some time, and while he is not able to visit Russia on account of being still in a convalescent state as regards to his health and engagements, he already made up his mind to plan a trip to Russia at a later day. In the meantime you may rest assured that I shall ever continue to render the starting children of Socialist Russia all possible and encouragement every effort you and the members of your own party may be able to do in that direction by the friends of Soviet Russia.

The invitation which Debs declined was forwarded to him through the New York headquarters of the friends of Soviet Russia.

Knitted Clothing to Take a Big Jump in Price by Next Fall

By United News

Chicago, May 4,—With each of authorities moving, the prices of them, particularly stockings, are on the way up to next fall's small price peak.
