HARDING WANTS
THREE CHANGES
IN WORLD COURT

President in Japan's Indo
Japan's Three Changes
Want Court.

In his trip to Japan, President Harding, in a speech to the Japanese people, has announced that he will make three changes in the World Court, which he regards as the most important of the changes that he will make.

Prof. E. R. W. W. of the University of Iowa, has been appointed to teach in the department of economics at Coe College, Iowa, for the coming year.

Harding, who is a well-known economist, has been associated with the Iowa State College of Agriculture for the past ten years, and has been chief of the department of economics since 1910.

"Japan has been a faithful member of the court," said Harding, "and has been a strong supporter of the court in its efforts to bring about peace in the world. But I believe that the court needs some changes in its organization, and that these changes will be made in the next few years.

The changes that I propose are as follows:

1. The court should be made a permanent body, and its sessions should be held at regular intervals.

2. The court should have the power to make final decisions in cases of international law, and the decisions of the court should be binding on all nations.

3. The court should have the power to make recommendations to the nations, and these recommendations should be given due consideration by the nations.

I believe that these changes will be made, and that the court will be strengthened in its work of bringing about peace in the world."
