Plan Radical Change in Fight With Booze

Administration Leads in Reorganization of Dry Workers

(By The Associated Press) WASHINGTON, Mar. 5.—An administration program for sweeping reorganization of the government's liquor enforcement activities was taken up today by the house ways and means committee, while wet and dry continued their charges and counter-accusations against each other.

Creation of a separate prohibition bureau in the treasury department, as provided in a bill drafted by Representative Crampton, republican, Mich., was urged before the committee as an "immediate and essential step" toward effective enforcement.

On the floor of the house, misrepresentation was charged by both sides of the controversy. Representative Griffin, democrat, N. Y., urging modification of the Volstead Act and assailing the Anti-Saloon League, said it should be called the "total abstinence league." Representative Stevenson, democrat, S. C., attacked the New York member's appeal for modification on the basis of personal liberty as "high-strung horses" citing Mr. Griffin's vote in favor of the proposed child labor amendment.

Meanwhile, Assistant Secretary Andrews' office sent an order to prohibition administrators throughout the country, announcing organization of a special squad of experts to cope with the industrial alcohol division situation.

"Bootleggers to Pay" The treasury department has gone as far as it can in centralizing its activities until "regularizing" legislation is enacted, Secretary Andrews told the ways and means committee. There can be no hope of efficient administration, he said, so long as the present organization stands. A separate bureau, he predicted, would obtain sufficient revenues in penalties from bootleggers to pay for its expenses in six months.

Federal "Police Work" His present task of coordinating three units engaged in various phases of enforcement work is "too big for one man," he continued, urging bureau staff also for the coast guard and customs services. The prohibition bureau, he said, should have control of border patrols and of the issuance of permits for whiskey withdrawals in order to prevent leakage.

States and local governments must relieve the federal government of much of the "police work," Representative Crampton said, but he thought this should not go so far as to allow lack of responsibility in one section to destroy the effectiveness of the national program.

Jerde, of Hedrick, Will Sing Tonight

Program From WSUI Gives Variety in Selections

This evening at 7:30 over WSUI, Mr. O. J. Jerde, tenor, superintendent of schools at Hedrick, Iowa, will give the entire program with Miss Mildred Smith, accompanist. "Nirvana" . . . Stephen Adams "Rolling Down to Rio" . . . Edward German "O'Heart of Mine" . . . Tod B. Galloway "Dere'll Be No Distinction Dere" . . . Martha Dickson Miss Smith will play "Berceuse" from Jocelyn by Godard. "The Holy City" . . . Stephen Adams "Friend O' Mine" . . . Wilfred Sanderson "Three For Jack" . . . W. H. Squire "The World is Waiting for the Sunrise" . . . Ernest Seltz "Sounds of the Past" by Arthur Bristow will be played by Miss Smith. "The Big Bass Viol" . . . Behannon "Little Mother of Mine" . . . Burleigh "Hard Treasures" . . . Burleigh "The Gypsy Trail" . . . Galloway "On the Road to Mandalay" . . . Speaks "The Little Irish Girl" . . . Lohr "The Trumpeter" . . . Dix Sunday evening familiar hymns will be sung by Mrs. L. G. Lawyer, of the Episcopal Church Choir, with Mrs. Miriam Chase Larimer accompanist.

Boyd Urges Women to Use Influence

Women have not exerted their influence for good in public affairs to the greatest possible degree, is the feeling of W. R. Boyd of Cedar Rapids, chairman of the finance committee of the state board of education. He expressed this idea in a speech given before the D. A. R. chapter of Davenport. The tendency to trust no one is perhaps the greatest defect of modern democracy, and costs in money and lives every year. Mr. Boyd suggested that the cooperation of women, especially in the election of capable, trustworthy men to office, might help to overcome this inherent failing of democracy. Mr. Boyd spoke here at the recent vesper service on the topic, "Our Changing and Unchanging World."

Brookhart-Steck Fray Awaits Act of Sub-Committee

Committee Counts Contested Ballots as Fight Looms

(By The Associated Press) WASHINGTON, March 5.—Decision in the Steck-Brookhart senatorial election contest from Iowa was deferred today by the senate elections sub-committee pending a personal inspection of several thousand contested ballots. This work went forward behind closed doors throughout the day and was far from being completed when adjournment was taken until tomorrow.

Whether the committee can reach a decision at that time is problematical. Friends of Senator Brookhart had expected the sub-committee to reach a conclusion today as all of the evidence taken in the contest and the argument has been in for several weeks. Senators on the committee decided, however, that they should not undertake to formulate a conclusion without an inspection of the ballots.

The official senate recount showed a margin of less than 100 undisputed votes between Dan F. Steck, democratic opponent of the senator and Mr. Brookhart, whose election state authorities certified. However, several thousand contested ballots remained over for interpretation by the committee. This is the task the sub-committee now is engaged upon.

Flashes of Late Wire News

(By Associated Press)

CHICAGO, March 5 (AP)—Steps to reform the use of medical and psychiatric testimony in court procedure, which was assailed here recently in an address by Dr. Adolf Meyer of Johns Hopkins University, former president of the American Psychopathology Association were taken here today. Judge Marcus A. Kavanaugh instructed the medical professors to take a hand in ridding judicial sanity hearings of the stigma sometimes attached to paid partisan testimony.

Award Contracts

LE MARS, Mar. 5 (AP)—Establishing a new record low price, contracts were awarded today to the Bryant Construction company of Waterloo, Iowa, for the paving of sixteen and one half miles of primary road number five from Le Mars to the Woodbury county line. The contract involves the expenditure of \$396,476 and work is to start April 1 and the project is to be completed by November 1.

Episcopal Bishop Approves Act of Resigning Rector

DAVENPORT, Mar. 5 (AP)—The Right Rev. Theodore N. Morrison, Episcopal bishop of Iowa has no criticism to make on the action of the Rev. Herbert Butler in resigning as rector of the Christ Episcopal church in Burlington, to become a member of the Roman Catholic faith. In giving his views on the matter today, the bishop expressed himself as follows:

Faithful Priest "Mr. Butler is a good man and has been a faithful priest. The vestry of Christ church, Burlington, in accepting his resignation passed a resolution expressing their appreciation of his work and their continued interest in him and his family. "I have no criticism to offer on his determination to leave the Episcopal for the Catholic church. In doing so he undoubtedly acted conscientiously. If he has come to the point where he feels he must enter the Roman Catholic church, no one ought to censure him, but rather praise a man who has the courage of his convictions. Personally I wish Mr. Butler a sincere God speed, and success in whatever he undertakes. He leaves the Anglican church with its good will and my blessing.

Shoot One in Robbery

CHICAGO, Mar. 5 (AP)—One robber was shot and captured and two others were shot with a truck load of oriental rugs after holding up the shop of G. Iakendrias today. Iakendrias was placed in a vault after the robbers had loaded their truck and freed himself before they drove away and opened fire on them.

Up to Dept. of Justice

WASHINGTON, Mar. 5 (AP)—Whether an appeal will be taken from the decision in New York to delay releasing the Countess of Cathcart is a question for the department of justice to decide, it was said at the labor department.

2 Cowboys Burn

BLOOMFIELD, Neb., Mar. 5 (AP)—Two pioneer cowboys of the open range—Frank Jones, 82, and John Hart, 72—were burned to death in a fire which destroyed the Knox county chug wagon in which they were sleeping here early today. They were employed as road workers.

Stocks Reach Normalcy

NEW YORK, Mar. 5 (AP)—Trading on the New York stock exchange today returned to almost normal conditions. Heavy buying of the railroads shares, particularly the Van Swearingen issues, contrasted with a renewal of liquidation in many industrial shares as prices sought their proper levels after four wild and exciting sessions, the first three of which witnessed a violent general decline and the fourth an almost equally violent recovery.

Farm Relief Sought in Program Revision

Measures Provide for Establishment of Federal Board

(By The Associated Press) WASHINGTON, March 5.—A revised program designed to solve the farm surplus problem was submitted today to the house agriculture committee today by the group of middle western agricultural leaders who came to Washington to advocate the principles of the Dickinson Bill.

The farm leaders' suggestions were made at the request of the committee and were intended to meet strong objections which have been raised in executive and legislative quarters to provisions of the Dickinson bill assessing an equalization fee against producers to provide a fund to offset losses on crop surpluses sold abroad.

Embodiment Dickinson Features "The recommendations embody every essential feature of the Dickinson bill," said George M. Peek, chairman of the committee of twenty-two appointed at the recent Des Moines conference. "They go further to the extent of providing an alternative method of raising the equalization fee for which the Dickinson bill provides."

A different view was expressed, however, by Chester H. Gray, Washington representative of the American Farm Bureau Federation, who with Frank Evans of that organization's marketing council, and Chester Davis of the Illinois Agricultural Association drafted the bill.

The Dickinson bill is now only a memory," said Mr. Gray. "Mr. Dickinson, however, has done valuable service to American agriculture in presenting his bill and in calling attention to the deplorable state of agriculture."

Countess Wins Her Admission Into U.S.

President Jessup Confers With Education Board Head

President Walter A. Jessup was in Davenport early in the week, conferring with George T. Baker, president of the state board of education, according to the Davenport Times. W. R. Boyd, of Cedar Rapids, chairman of the finance committee of the state board of education, also met with Mr. Baker.

Edwards Accepts Physics Position

Iowa Graduate Will Head Department at Miami

Prof. R. L. Edwards, who received the degree of doctor of philosophy at the University of Iowa, is a graduate of Oberlin college and has taken graduate work at the universities of Michigan, Chicago, and Wisconsin. Previous to accepting his position as head of the department of physics at Miami university at Oxford, Ohio.

Professor Edwards received his degree here for research in magnetism. He received his master of arts degree at the University of Iowa, is a graduate of Oberlin college and has taken graduate work at the universities of Michigan, Chicago, and Wisconsin. Previous to accepting his position as head of the department of physics at Miami university, Mr. Edwards is professor of physics at Parke College, Missouri.

Forensic Fraternity Gives Party, Banquet

Phi Delta Gamma, professional forensic fraternity, met last night for a forensic dinner and a program presented by recent initiates. C. Esco Oberman, L1 of Yarmouth, sang several songs, Charles Nutting, A2 of Iowa City, gave a parody on an oration, and the other initiates performed in an interpretation of a literary society meeting.

Doll Co-Ed, Dressed in Height of Fashion, Presented to Pre-School

Miniature baby clothes, pink checkered rompers, a blue checkered apron, a tan draw vol dress for dress up occasions, two teddies, a princess slip, a tan coat-trimmed with brown fur, with cap to match will be the entire wardrobe of a little twenty inch blue-eyed doll that will soon be presented to the children in the pre-school laboratory which is under the direction of Miss Netta Paris. The clothes for the doll were made by the students in the Home Economics club. The doll and the material, with the exception of a few articles were purchased by the child welfare station under the supervision of Miss Paris. The trimmings, such as the fur for the tiny coat, shoes and stockings were donated. That the girls of the club were very practical was demonstrated when, in order to make the white stockings match the tan coat, they were dipped in coffee and the result was the exact color desired. Another example was shown when the girls made the diminutive shoes from a discarded pair of brown suede gloves. These interesting tricks of dress-making were resorted to in order to make the appearance of the doll as attractive as possible. All their skill was used by the girls in making the doll's wardrobe, and yesterday afternoon when the doll was finally dressed in its clothes, preparatory to being presented to the pre-school children it possibly had the best looking clothes in doll-dom.

Big Ten Outcome Puzzles Scribes and Mystic Minds

Iowans Eye Michigan-Ohio Tilt Tonight; Title in Offing

(By LAWRENCE EVANS) Houdini, the master magician, is reported as trying to chase all mystics out of Washington, D. C. Midwestern basket ball spectators want him to legislate some of the seers into coming out to the heart of the great corn belt, where the slight-of-hand boys can guess to their heart's content over the next Big Ten basket ball championship.

Should the divinely inspired advisors to congressmen be forced out this way, it is certain the mystics would be sunk. If fifteen teams could tie for first, seventeen would be selected. Picking a winner is like picking an Iowa beauty, finding the needle in a sorority house, getting into a Sunday night movie or getting out of R. O. T. C., it just can't be done.

Wrog Like a Co-ed One of Washington's mystics foretelling the outcome of next week's struggle would have more perplexities than a popular co-ed picking a date for the Women's Pan-Hellenic, and would probably go wrong just as often. When it was all over he would no doubt feel as dumb as the kappa who thinks pop corn is an old man.

Five teams have a Staff and Circle girls' chance (good) to tie for first place. The possible winners are Purdue, Illinois, Indiana, Michigan and the Who Wah Wah. In fact the Big Ten Weekly risks its name and respectability by predicting that just these five will tie, and will do it by having seven victories and five funks.

Iowans are interested right now in the antics of Ohio, Elmer Mark's school in the fall and "Cookie" Cunningham's in the winter. And Minnesota is in the frosty offing, not to be forgotten.

Ohio and Michigan battle Saturday night in one of the first elimination bouts. Captain Doyle and followers have recently perfected their organization, grasped firmly their slingshot, and taken to picking the leaders off their perches. The little matter of deluging Illinois on the Urbana arena was their last act. With this spirit and the home floor beneath them, Michigan is counted upon to win. Which will mean some surly athletes bouncing things around Col. Mumma's armory Monday night.

The A. F. I. Boys When Iowa and Ohio last met it was a slight for sore eyes, provided you lived in Ohio. The Buckeys were all as "hot" as was Charlie McConnell last Saturday. The victors, like A. F. I., couldn't do anything wrong. The scandalous count was 25 to 21, and Iowa is supposed to be the second best defensive team in the conference. Cunningham paid no more attention to McConnell than North Dubuque street pays to the Phi Psi's. The Ohio center has a bad habit of making half dozen or so baskets a night, and didn't let up much on account of the best guard in the conference.

Detour For "Cookie" The Iowan or none of the Hawkeys want to give away any of Coach Barry's strategy, but we all know who is going to be six steps and a basket ahead of the famous "Cookie" Monday evening. A little revenge mixed in the plot always lives up the play. "Barbet, making his debut against Iowa, brought plenty of trouble. He is even worse now, making four stinkers against Northwestern's Stonewall Jackson defense.

All and all, the local season should close in a dash of action. After Michigan plays our foe, The Iowan will hazard a prediction as to Monday's outcome.

Heavy Chinese Fighting

LONDON, March 5 (AP)—The most severe fighting since the civil war in China began fifteen years ago, is reported by the Daily Mail correspondent to be taking place near Machang, fifty miles south of Tientsin.

It is described by the correspondent, whose dispatch is dated, March 5, Sunday, as a life and death struggle between the rival interests of Marshal Chang Tso-Lin, the Manchurian leader, and General Feng Yu-Hsiang, head of the national police army, for the domination of Peking.

Bankers Wrecked St. Paul Railway; Ex-Governor Says

CHICAGO, March 5 (AP)—Serious charges were made against Kuhn, Loeb, and company, the National City bank, and the directors of the bankrupt Chicago, Milwaukee and St. Paul railroad today in the plea of Nathan L. Miller, former governor of New York, that the bondholders' defense committee be permitted to become a party to the bankruptcy proceedings in the court of federal Judge James H. Wilkerson. Arguments will be continued tomorrow.

Mr. Miller denied that the railroad was bankrupt when Judge Wilkerson was called upon to act upon an involuntary petition March 18 last and asserted that the proceedings were forced by Kuhn, Loeb and company and the National City bank "and the puppets of these bankers, the directors of the St. Paul railroad."

May Disallow Appeal

WASHINGTON, March 5 (AP)—The government's special oil counsel today asked the supreme court of the District of Columbia to disallow the appeal asked for by Albert B. Fall, former secretary of the interior, E. L. Doheny, and Harry F. Sinclair from a decision sustaining the validity of their indictment on a conspiracy charge growing out of the naval oil leases.

Talor Case Brings Up Bad Check Issue

Bandits Get \$80,000 Payroll From Inter. Harvester Company

(By The Associated Press) CHICAGO, Mar. 5.—Firing shotguns and revolvers to cow fifty employees, twelve of them girls, nine bandits held up the offices of the International Harvester company here today and escaped with an \$80,000 payroll. It is the second time in the last few months that the International offices have been held up, about \$40,000 having been taken the first time.

Shoot Out Lights The robbers overpowered two watchmen and entered the office shattering windows and lights with their bullets. The telephone girls were dragged from the switchboards where all connections were severed and all employees were told to stand in a corner or lie on the floor.

Two of the bandits went to the door of a locked room where the pay envelopes were, smashed the glass, entered and took the money. Meanwhile one of the guards who had been overpowered had slipped unnoticed. At a signal from the leader, who was masked, the gang dashed for exits to meet the shouts of a watchman on the second floor. They returned his fire, smashing more windows but hitting no one. The stolen money was covered by insurance.

Oppose Iowan for Trade Commission

Sen. King Slaps Hunt's Stand on Mellon Controversy

(By The Associated Press) WASHINGTON, Mar. 5.—After nearly two hours discussion of the reappointment of Charles W. Hunt of Iowa to the Federal Trade Commission, the senate in executive session today deferred action until a later date.

Hunt Reactionary

The fight against the reappointment was led by Senator King, Democrat, Utah, who charged that Hunt was a reactionary and was not enforcing the law. The appointment was defended by Chairman Cummins of the senate judiciary committee. Another meeting will probably be held tomorrow to get action on the nomination with indications that it will be confirmed when it comes to a vote.

Senator Cummins opened the argument and presented a number of letters and telegrams endorsing Hunt, including one from former President Bradute, of the American Farm Bureau Federation.

Big Business

Most of the time of the executive session, however, was consumed by Senator King, who argued that the appointee was trained in the environment of "big business" and was not qualified to represent the public interest on the commission. He pointed out that Hunt was one of the majority of the commission which voted to withhold from the department of justice evidence furnished the commission by the Aluminum company of America on the ground that it was confidential.

Hunt was appointed in May 1924, to succeed Victor Murdock, who resigned for the term ending September 25, 1925.

Day in Washington

Philippine independence was debated in the house. The senate agreed to vote on Muscle Shoals Monday. Confidence that prosperity will continue was expressed at the White House. A revised farm surplus bill was submitted to the house agriculture committee by a middle west farmers' delegation.

Representative Sabath of Illinois assailed the Better Government Association of Chicago in the house.

A senate sub-committee received charges that money from bootleggers figured in Senator Schall's 1924 Minnesota campaign.

The White House said President Coolidge was opposed to any considerable increase in army and navy aviation appropriations.

The house ways and means committee began consideration of a bill for a separate prohibition bureau in the treasury department.

SORRY! In a story in yesterday's Iowan George S. Carson was mentioned as being president of the Johnson County Savings bank. G. L. Falk is president.

Attorney O'Connor Asks Punishment for Bogus Check Writer

(By RICHARD L. WILSON) Charging that a recently codified law enacted by the Iowa general assembly covering the issuance of bad checks converts the county attorney's office into a collecting house, County Attorney Ed. L. O'Connor yesterday turned a comparatively harmless hearing of a petition of habeas corpus in favor of Charles Talor into a discussion of the evils of negligent check writing.

Charles Talor was picked up a few weeks ago on a charge of cheating by false pretense and imprisoned in the Johnson County jail. His attorney is now attempting to release him from confinement by contending that preliminary hearing showed Talor to be guilty only of issuing spurious checks.

Attorney Charges Fraud

The county attorney, however, argues that Talor wrote checks with deliberate attempt to defraud, that he had committed a felony and that he deserves the full punishment of the law.

"Payment Not Punishment"

During the petitioning O'Connor said that he looked to him as if the law had been inscribed in the Code of Iowa by an assembly of business men to facilitate collection on bad checks. The law reads that the issuance of checks which cannot be paid immediately is a misdemeanor, but that if within three days after notification the check is taken up proceedings to punish for criminal action shall be immediately dropped.

He said that time and again, over the state of Iowa, business men start action against "bogus" check writers which has to be dropped on the payment of the amount due. He believes that cheating by false pretenses is being overlooked when payment is made and that many persons who write checks with intent to defraud are being allowed to slip from beneath the law because they reimburse the receiver of the bad check, and said O'Connor, "One of the first principles of criminal law is that payment for the crime cannot erase the motive of the crime."

Judge R. G. Popham speaking from the bench was not willing to believe that the bad check section in the code was intended to make collection more easy, but that it was so placed to force abstinence from practices of business men who write large checks without previously making arrangements with their bankers. However, he was not willing to believe that the result of the enactment might be the conversion of the county attorney's into a collecting house.

Counsel for the petitioner maintained that the over writing of checks in Talor's case was not a felony, but that it was a misdemeanor and since the checks had been taken up the petitioner was no longer subject to imprisonment.

No Decision by Court

The court made no decision in the matter, preferring to read cases offered in the argument and give the matter more thought. He said, "Over writing of checks with intent to cheat is a serious matter." The nature of the law for the felony is a fine and seven years imprisonment in the state penitentiary.

Re-arrest Woman on Suspicion for Murder

DENVER, Colo., Mar. 5 (AP)—Mrs. Rene Devilleb arrested by Jefferson county authorities Wednesday in connection with an investigation into the death of Mrs. Virgil A. Massie and released yesterday, was re-arrested today. Mrs. Massie died under what officers believe to be a mysterious circumstance at her home in Edgewater, a Denver suburb, on the night of February 1.

The new arrest of Mrs. Devilleb followed a long distance telephone conversation between District Attorney Joel E. Stone, now in Carthage, Ills., and officers here and came at the same time that a hearing of habeas corpus proceedings was started for the release of the dead woman's husband. He also is held in connection with the investigation into Mrs. Massie's death.

65 Per Cent Finish Extension Courses

Sixty-five per cent of the students enrolled for correspondence work at S. U. I. complete their courses, whereas in most colleges only a fourth of those persons who sign for such work complete it, according to Miss Helen Williams, who is director of correspondence study at the university. Eleven hundred persons are taking work through the extension division of the University of Iowa.

Give Holdups 25 Years

SILOUO CITY, March 5 (AP)—Sentences of 25 years in the state penitentiary at Anamosa, were imposed upon Alfred Barnes and George Hobbs, by Judge A. O. Wakefield, following confessions and pleas of guilty by both men to two store holdups last Friday.

In The World Of Society

Alpha Chi Omega
Mrs. Welby of Nevada is the guest of her daughter Mildred, at the Alpha Chi Omega house.

Delta Gamma
Delta Gamma announces the initiation of Ruth Robinson, A3 of Hampton, Harriet Cammack, A2 of Oskaloosa, Lorraine Schafer, A3 of LaPorte, Ind., Marguerite Mullen, A2 of Fond du Lac, A2 of Newton, Louise Simmons, A2 of Iowa City, Gladys Evans, graduate of Anamosa, and Helen Butler, A2 of Council Bluffs.

Gamma Phi Beta
Mrs. W. R. Fields of Tipton is visiting her daughter Evelyn over the week-end.

Visit Here
Robert Hayes '21, of Minneapolis and Margaret Hayes Stout '22, of Pittsburgh, have returned to their home on Church street, during the illness of their father, Judge Samuel Hayes, one time professor in the college of law here.

Acacia
Dale Ellwood, an Acacia alumnus, who is practicing law at Cresco, Iowa, was visiting in Iowa City a few days this week.
Sam Ryerson is spending the week-end at his home in Rock Island.

Delta Gamma
Delta Gamma announces the pledging of Jeanette Eldor, A2 of Marshalltown.

Chi Omega
Lydia Walker of Lone Tree and Josephine Pinkham of Trar are week-end guests at the Chi Omega house.

Among those who will spend the week-end at their homes are Margaret and Louise Polders at West Liberty, and Pauline Shepherd of Muscatine.

Maxine MacElrath and Phoebe Williams will attend the Chi Omega formal at Coe college, Cedar Rapids.

Theta Xi
Theta Xi will entertain at a dance at the chapter house tonight. The chaperons will be Mr. and Mrs. W. E. Schwab and Mr. and Mrs. O. H. Ford.

Phi Kappa Rho
The Phi Kappa Rho fraternity is giving a dance at the chapter house tonight in honor of the new-

ly initiated members. The chaperons are: Dr. and Mrs. N. O. Taylor, Mr. and Mrs. G. E. Potter, Mr. and Mrs. R. J. Bartlett, and Mr. and Mrs. C. W. Clearman.

Phi Delta Chi
Charles Scott, P2 of Fort Madison, has just returned from a two day trip to Chicago.

Alpha Xi Delta
Mrs. Evans of Ottumwa is visiting her daughter Constance at the Alpha Xi Delta house.

Delta Gamma
Harriet Cammack, A2 of Oskaloosa, has gone to her home for the week-end.

Blue Goose
Chaperons at Blue Goose last night were Mr. and Mrs. Ivan Klingaman, Mr. and Mrs. R. D. Bowman will chaperon tonight.

Gamma Eta Gamma
Gamma Eta Gamma will entertain at a dance at the chapter house Saturday evening. Mr. and Mrs. Percy Bordwell will chaperon. The Harmony Six from Kansas City will furnish the music.
Mr. H. W. Munsell from Tipton will be a guest at the house.

Out-of-town guests this week-end are D. Christandson of McCallsburg and R. MacFadden of Huxley.

Alpha Chi Sigma
Alpha Chi Sigma announces the initiation of: Thomas G. Herbert, G of Plawuemie, La., Raymond H. Jebens, S2 of Davenport, Samuel D. Beach, A3 of Lehigh, Iowa, Roger Mulline, G of Cedar Falls, James A. Taylor, S2 of Davenport, and Claire W. Turman, A2 of Crawfordville, Iowa.

Sumptuousness is the word that expresses the evening garb of today. Milady is jeweled and glittering from her head to her dainty feet. Sports clothes, by way of contrast, are usually very simple but none the less smart.

To illustrate the point, pictured above (left) is a lovely evening wrap which is worn over a French blue gown with two long stemmed roses pinned to the shoulder. The wrap is brocaded velvet collared and cuffed with platinum gray fur.

Silver evening slippers with decorative ankle straps of linked rhinestones are worn with this costume

which was recently worn by Miss Elsie Lawson, one of the younger of the motion picture actresses.

Contrasted with this rich costume are the sports frocks (center and right) seen at the Miami races recently. Both are white and have simple turnover collars and long, tight fitting sleeves on the jumpers, and both the skirts are pleated.

The dress in the center of the picture has a unique hand-painted design on the bottom of the jumper and the collar, sleeves, bottom of jumper and skirt are bordered with contrasting color.

The hem of the jumper on the right is trimmed with appliques of red leather in checked design and has chic little pockets and a string tie. Smart little felt hats are worn with the suits.

Another new model, which is the very latest in sportswear in Paris, originated with Patou and shows a form-fitting jumper of rose silk jersey, very finely woven, worn with a crepe de chine skirt of the same color, with its front breadth finely pleated in intricate and fancy pleatings. The jersey top features two patch pockets and Eton collar of the material, with tie of crepe de chine matching the skirt.

Formal Attire Contrasts With Sport Wear

Sumptuousness is the word that expresses the evening garb of today. Milady is jeweled and glittering from her head to her dainty feet. Sports clothes, by way of contrast, are usually very simple but none the less smart.

To illustrate the point, pictured above (left) is a lovely evening wrap which is worn over a French blue gown with two long stemmed roses pinned to the shoulder. The wrap is brocaded velvet collared and cuffed with platinum gray fur.

Silver evening slippers with decorative ankle straps of linked rhinestones are worn with this costume

which was recently worn by Miss Elsie Lawson, one of the younger of the motion picture actresses.

Women's Athletics

By KATHRYN MEYERS

Swimming tryouts for the class teams to compete in the W. A. A. class tournament held late in the month, were held partially Thursday night and will be given again next Tuesday afternoon.

The W. A. A. meet for individual winners will be on March 23 and in connection with it a telegraphic meet with several other colleges will be held. Although plans are at present still of a tentative nature, Wisconsin University and Smith college will probably be the contenders.

Several good swimmers as well as basketball players will be unable to compete in this season's sports because of ineligibility. A "C" average is necessary for competition in W. A. A. sports, so that the girls who wear the "I" sweaters may be looked on as scholars as well as athletes, sportswomen who have maintained high scholastic standing throughout their college career.

Women Athletic Stars

As Helen Willis continues to win tennis matches abroad, Elizabeth Ryan, an American star of slightly lesser fame is also keeping in practice in Florida where she defeated Mrs. Edward Raymond of New York 6-2, 6-2 Thursday. Just a reminder that America has not only William Tilden II, and Helen Willis, but also a host of players of more than ordinary ability with a racket. United States is a nation of athletes surpassing the games and skill of all athletes of history because we add to our lists the names of many "sportswomen."

Fencing Prominent

Men's fencing days are over. Duels are a thing of the past, but fencing continues to live, because of the thrill of the sport, matching of both brain and brawn, individual against individual. There are no teammates to depend upon or to blame, you rely on yourself. Women of the east and west are enjoying fencing now. In the east it has been participated in for years, and in California it is also popular. It remains for the middlewest to come last, just as tennis players are discovered in California or Forest Hills, so is fencing found.

National meets are held at New York each year with clubs from New York, Philadelphia and Washington excelling. Mr. Leonard Terrone,

Irving's Beat Philos in Lit Society Debate

Irving Institute won a unanimous decision over the Philomathian literary society last night as their sophomore teams debated on the question, "This house condemns the policy of treating farm problems by federal legislation." The Irving team will debate Zetaganthian for the sophomore intersociety championship on March 12.

The victorious negative was supported by Edward Hagerman, A2 of Muscatine, George Anderson, A2 of Hawarden, and George Strathmann, A2 of Davenport. The Philos taking the affirmative side of the question were: Ephraim Baron, A2 of Sioux City, Harold Swift, A2 of North English, and Joseph Music, A2 of Ankeny.

The debate was judged by Earl M. Winslow, associate in commerce, Harry T. Wood, G of Iowa City, and Forrest R. Black associate professor in the political science department.

Music Study Club Gave Rachmaninoff Program Yesterday

An exclusively Rachmaninoff program was given yesterday by the Music Study Club at the home of Miss Agnes Flanagan. After the reading of a paper on the life of the famous Russian composer, piano, violin, and vocal solos were heard.

- The program was as follows:
- Paper on Rachmaninoff . . . Mrs. L. C. Robbins
 - Prelude in C Sharp . . . Miss Mary Moon
 - Dances Pzgames . . . Mrs. W. P. Mueller
 - Silence of Night . . . Miss Esther Dyke
 - Melody in E Major, and Fragments . . . Miss Ethel Taylor
 - Lilacs . . . Mrs. Lawyer Polchinnelle
 - By a New Made Grave, and Ebb and Flood . . . Mrs. I. A. Nagler
 - The Isle . . . Mr. Edmondson
 - Prelude in G Minor . . . Mrs. Ristine
 - Before My Window . . . Mrs. Albright

Spring Predicts Masculine Styles for Milady; May Wear Suspenders

If the predicted spring fashions are generally adopted, the ladies can hereafter do their shopping in men's clothing stores since the difference in their apparel will be so negligible. The masculine note in new spring suits for women is so pronounced that we no longer need any woman's frock shops. If some fashion artist will decree that trousers shall be worn universally by both sexes, the slight existing differences will be entirely removed.

Besides minor details of trimming and cut which make the new spring suits masculine in appearance there is a further detail, the introduction of the waistcoat, which completes the resemblance. The waistcoat is patterned directly after the man's, vest even to the watch pocket on one side. To give the square-shouldered effect the suits are padded across the shoulders.

With the boyish tailor suit, ladies must wear regulation men's shirts since frilled blouses would be incongruous. These blouses are generally made of heavy wash satin or crepe. They may have either the plain turnover collar like those worn by men, or they may have a high collar buttoning up close around the neck and finished off with a stock. Bright-colored neckties, such as the college boys are wearing, complete these severe costumes.

An even more extreme style has started in the east. Women have adopted the old-fashioned, "backwoods" suspenders which their

Sullivan To Juggle Tunes for Varsity

Varsity this afternoon at varsity hall will be chaperoned by Mrs. T. Dell Kelley, 416 South Summit street. The number of students attending during the past three weeks has been encouraging, according to Wilhelmina Grimm, A4 of Iowa City, chairman of the committee of the Woman's Association in charge of the afternoon dances.

There will be dancing from three until five, with Chuck Sullivan's five piece orchestra furnishing the music.

The student hostesses will be, Dorothy Young, A3 of North Liberty, Marian Ketelson, A1 of Iowa City, Dorothy Wilson, A3 of Greene, Cornelia Van Oosterhout, A3 of Orange City, Harriet Kaisersatt, A1 of Fairbairn, Minn. and Constance Herndon, A1 of Iowa City.

The latest thing in purses is made of aeroplane linen in square envelope shapes with water-color landscapes painted on them.

Is it not possible that women will, in time, give way to wallets as they accustom themselves to masculine accessories?

Unusual Dress Event

FROCKS for every springtime occasion are here for this special selling beginning today — tailored styles for daytime wear to the more elaborate frocks for afternoon and informal evening affairs. Many versions of the two-piece mode are represented and a great variety of one-piece frocks—often with the flare cleverly introduced in unusual new ways. It is very satisfying to note that the prices are very special so that two or more of these frocks may be chosen within a moderate expenditure.

Two-piece Frocks of Crepe de Chine, Lovely Afternoon Frocks of Georgette Crepe, Smart Tailored Frocks of Printed Crepe —

\$16

High or rolling collars, unusual pockets, skirts cut in unusual ways are fashion features that set these frocks apart as really distinctive and individual. In navy blue, black, Hunter's green, bois de rose, blue, dove grey and beige. Excellent values at this moderate price.

Pedestrians Peppered With Rolling Soot; Makeups, Dispositions, Ruined

No One Untouched by Gentle Rain of Smoky Dirt

Soot, the all prevalent medium of Iowa City, rolls morning after morning from tall chimney tops, sweeps in drifts along the walks, and invades the tightest compartments, from parlors with doors and windows religiously closed to sealed tubes in the chemical laboratory.

It is no respecter of persons or places; the dean of a college on his way to his office is as liberally sprinkled as the dirtiest news boy on the corner by Racine's.

Co-eds who start for eight o'clocks hopeful for their fresh make-up, arrive at the class room speckled as the proverbial egg. They dabble at the spots with powder puffs and then try to cover the resulting streaks with powder.

White But Briefly

Men unfold large handkerchiefs, white for a few fleeting moments, and search for soot on each other's faces. The person learned in the art carefully examines his own nose and the visible half of his cheek by straining his eyes down his cheeks.

Articles on display in shop windows are peppered with black particles. "Bargain basement" garments, marked down to half price have been changed from fresh pastel tints to dirty gray. Nestling among the yellow stamens of artificial flowers in show cases frequently those appear that are black.

Turn to Dark Shades

Open boxes of stationery on display in book store windows, white when they leave the window dresser's hand, gradually turn to darker shades as the days pass by.

On the streets the soot falls in a steady downpour and students rush by, their eyes on the sky, dodging the flakes and blowing or waving away with a book the largest ones that come near. Whirlwinds of it swirl around the heads of blond pumps and settle in circles behind the corners of buildings, only to be carried away by another gust of wind.

Even Enters Cafeterias

In the cafeterias it falls less conspicuously, sinking in a fine mist over the tables. At first it looks on the food like pepper and seasoning, but appearing on pies and meat roast alike, it betrays that surmise and is-soot. Particles flutter away from the unfolded napkins, sink in the coffee, float on the gravy, and

Bootleggers Thrive on Capitals No Man's Land

WASHINGTON, March 5 (AP)—A no man's land within ten miles of the capital, where illicit liquor stills "can operate in safety" was described to a house subcommittee today by Representative Moore, democrat.

The forty-six acre tract lies along the Potomac and was created by pumping soil from the river in 1910. It is claimed by Virginia and the District of Columbia. Mr. Moore urged approval of the bill to cede it to Virginia.

"I offer to take members of the committee there tomorrow," he said, "to help speed action to remove this tract's attraction as a refuge to law evaders."

dissoive in the butter.

If, as physiologists say, the linings of the lungs and bronchial tubes are dyed by dust and dirt in the air, the lungs of the citizens of Iowa City must be the deepest black. The skins of students, who come here after a summer vacation, comparatively white, are known to have been darkened several shades during the winter season, in spite of liberal use of cold cream and soap. Powder and cosmetics left in open boxes on bureaus, receiving an equal quota of soot, change with the tint of the skin, and both match.

Pages Not Readable

Old Indian primers in sealed glass cases in the natural science museum are so covered with a deposit of soot that it is impossible to read the words on their pages. Brilliant colorings on the plumage of birds is dimmed and obscured, and even the sheen of mounted fish is dulled.

In the representation of the Louisiana swamp, where no fire has ever been built, snakes squirm on their stomachs through soot covered marshes. The buffaloes in the buffalo group paw at sooty snow with sootier hoofs. And by far the greatest deposits of soot are in the basin of a primitive corn grinder, woven from reeds like a basket, that, undisturbed by hands, has stood uncovered for many years in the museum.

Threat to Boycott War Toys Clashes With Manufacturers

NEW YORK, Mar. 5 (AP)—Threats to boycott war toys, made by a delegation of the women's international league for peace and freedom, led to a clash today between the group and a committee of the toy manufacturers convention.

Mrs. John Jay White, spokesman for the women's group, said her organization believed that the use of tin soldiers, swords, guns and war games instilled a militaristic spirit in children. She said the league believed it fair to warn the manufacturers in advance of its attitude.

Clarence Kinne of the Pratt Mfg. Co., chairman of the toy fair, rejoined that "as long as we can sell war toys we are going to do it."

"Wanderer" Comes to Garden Starting Next Sunday

The story of the first prodigal son, suggested from the Biblical story, has been made a "super" picture by Paramount, titled "The Wanderer." The film will start an Iowa City showing at the Garden theatre Sunday. The picture has but lately been taken off the road and started on a popular price tour of the country.

The settings of the picture are stupendous. The scenes which show the destruction of the city by fire, wind, and an earthquake are considered by officials of the Paramount organization to be even superior to the technical effects obtained in "The Ten Commandments."

The cinema has an "all-star" cast including Greta Nissen, Ernest Torrence, William Collier, Wallace Beery, Kathryn Williams, and Tyrone Power.

Lutheran Women Meet Secretary at Tea Saturday

Mary E. Markley, national secretary for Lutheran women students, will be on the campus this weekend. Miss Markley has been holding similar interviews at universities all over the country.

A tea will be given for her Saturday afternoon from 3 to 5 in the liberal arts drawing room, to which all university women are invited. Arrangements for personal interviews can be made with Edna Weststrom by telephoning 1573. Miss Markley will discuss future work in the religious field.

Dental Clinic Will Examine Teeth of University Children

A dental examination of all university school children, beginning with the pre-school, will be started in the dental clinic of the school Monday morning at nine o'clock, under the supervision of Dr. H. C. Drain of the college of dentistry.

At the time of the examination no corrective dental work will be done by those in charge, but wherever such work is necessary the parents of the child will be notified so that the work may be done by a dentist of their own choice. Any parent that may wish to be present at this examination may do so by notifying the authorities and they will be told at what time their child will be examined.

It is estimated that about two weeks will be necessary to complete this examination.

Bavarian Catholic Church Borrows 5 Million in U. S.

NEW YORK, March 4 (AP)—Arrangements were completed by New York bankers today for a \$5,000,000 loan to the Roman Catholic church of Bavaria, representing the first long term public borrowing by a religious organization through Wall Street channels. An offering of twenty years bonds is planned at an early date.

Business of Sticking to Guns

Miss Grace Stockman, Washington beauty, aiming the famous dueling pistols of President Andrew Jackson, which are now being exhibited in the National Museum.

Fascinating Books and Paintings Lure Students to Ranney Library

In the hurry of undergraduate activities, a small room on the third floor of the liberal arts building remains unheeded and unmarked. A venturesome student passing through its modest door would experience a surprise; a book-lover or a connoisseur in odd pieces of art, would be gladdened by the sight that would meet his eye.

Paintings, Curios

Hung about the walls of the dusty little room are oil and water paintings of landscapes, and portraits of sixteenth century dignitaries in laced coats and powdered wigs. Bound books of rich brown and black leather fill low glass bookcases. Collections of curious old coins, Babylonian inscriptions and bits of Japanese ceramics are on display in glass trays. Distributed about the room, are plaster casts of famous pieces of sculpturing, Venus, Diana, Hermes, Athena, head of Jupiter, Pericles, and the like.

Mrs. Ranney's Gift

The books and curios assembled in this unpretentious room constitute the Ranney Memorial library donated to the university by Mrs. Mark Ranney in memory of her husband a lecturer in the college of medicine here. The gift, which was made in 1907, consists of Mr. Ranney's personal library, additional volumes and artistic odds and ends purchased by Mrs. Ranney since the death of her husband, and a sum of money given for the purpose of augmenting the collection from time to time. Mrs.

Library Opens Daily

The paintings include copies of Van Dyke, Rembrandt, Rubens and Turner. A character study of Lord Bolingbroke painted by Van Dyke attracts special attention.

The plaster cast statuary is composed of thirty pieces, most of which are copies of old classical subjects. The library is open from 3 to 5 o'clock daily, and Alma M. Kroll of Mapleton is in charge.

Cosmopolitan Club Opens Ranks for Members Saturday

New members will pledge devotion to the aims of the Cosmopolitan club at a candle service initiation next Saturday evening in the liberal arts drawing room, at 7:30.

The newly elected officers of the club are, Gladys E. McLaughlin, A4 of Independence, who will become secretary in place of Alleen Carpenter, A2 of Iowa City, who resigned; and Ethel H. McNeely, A2 of Russell, who will take the office of treasurer in place of Ruth Primmer of Lucas who was graduated in January and is leaving for home.

The program for the meeting will consist of an address by Prof. Forest C. Ensign of the education department, and a few musical numbers. Golda Jane Brown, N3 of Iowa Falls, will preside as toastmistress.

Methodists to Give Spring Party for Students Saturday

A spring party will be given in the parlors of the Methodist Church, Saturday evening from 8 to 10:30 o'clock for students and all others who care to attend. Birds, blossoms, songs, games, music and jollity will suggest the airiness of spring.

A short program including the following numbers will be presented: a musical entitled "The Span of Life," a comic pantomime "The Supreme Sacrifice," a cornet solo by Charles D. Luke; and "Estudiantina" by the Kappa Phi double quartet.

The party will be concluded by a grand march, refreshments, and the Virginia reel.

Measles Outfit

"The students are a 'measly bunch,'" said Dr. J. E. Moser, secretary of the health board at the University of Indiana. "German French, three-day, false—they are all a mild illness, and they are a non-quarantinable disease. The campus and town are 'alive' with them and it would be a large job to try to quarantine the victims," Dr. Moser said.

Knights to Teach at Northwestern

Prof. Frank H. Knight, of the department of economics, will teach in the summer session at Northwestern university this year.

Waited 44 Years for Johns Hopkins Degree

Denied her degree for 44 years because John Hopkins University "did not grant degrees to women," Mrs. Christine Ladd-Franklin (wife of Dr. Fabian Franklin) has just received the long deferred honor.

Mrs. Franklin completed the work which merited a Ph. D. at Johns Hopkins university after having been permitted to attend as being a "person of exceptional ability." She was a Vassar graduate of '69. She completed her studies with distinction, demonstrating a form of rebuttal in argument called antilogism which has been described as "the crowning achievement in a field (logic) worked over since the days of Aristotle." But her sex barred her from receiving the degree.

Electricity Invades Samoa

APIA, Samoa, Mar. 5 (AP)—Samoa's first hydro-electric project has been completed and electricity now is lighting homes and schools in Upou.

Iowa Fights! and Iowa Wins!

In the photogravure section of next Sunday's Des Moines Sunday Register will appear a remarkable action picture taken at the Iowa-Chicago basketball game.

As the photo is reproduced in photogravure, it is unusually clear and shows Captain McConnell ready to put the ball into "home territory."

In addition there is a picture of Iowa and Illinois fencers snapped at a tri-sport meet held recently.

See these photos in Next Sunday's

Des Moines Sunday Register

Bresnahan's Cindermen Compete in Inter-Class Meet Today

Frosh and Sophs Battle Upperclasses

Games This Afternoon Will Condition Men for Conference Championships

With no Big Ten competition scheduled for the varsity track team this week-end, Coach George T. Bresnahan has arranged an inter-class meet to condition his men for the coming conference meet. The freshman-sophomore team will again match strides with their recent victors, the junior-senior aggregation. To stimulate the athletes to do their best, ribbons will be awarded to the first four to finish in each event.

The meet will be the final home appearance of the 1926 team indoors and will start at 3 o'clock. All the events of a regular Big Ten meet will be offered to the spectators.

Three Mile Teams

Coach Bresnahan has selected three one mile relay teams who will all receive a chance to show their ability this afternoon. The Grusonik, White, Wagner, and Milner combination has made some fast turns about the track in the last practices and should give the outfit which won this event at the Illinois relay last Saturday some good competition.

It may be possible that John Everingham, who has been out all season with a torn ligament will be able to participate in today's encounter. If he is unable to perform, Don Smith should easily capture the broad jump for the younger team.

Roberts vs. Cuhel

Two duels will be watched with interest in the meet today, that of Lapp and Mau in the shot put, and of Roberts and Cuhel in the quarter mile dash. Mau has been close upon the heels of his rival all season, but Lapp's efforts during the past week have bested his marks.

Davenport Wins From I. C. 28 to 20

Winners Get Seventeen Points in Second Quarter

MUSCATINE, Iowa, March 5 (Special)—Davenport eliminated Iowa City high school in the district tournament here today 28 to 20.

The river city team displayed a smooth working offense, and a defense that held the red and white five to seven field goals. Iowa City led at the quarter 5 to 3, completely outplaying their heavier opponents.

The second quarter found Davenport at her best, counting seven points, due to spectacular play, and some bad passing by McGuire, Iowa City center. The third quarter ended 24 to 10, with Iowa City fighting hard to win.

For Iowa City the work of Burger and Idema was outstanding, while Shely and Lorack played a bang up defensive game. Math and Toffenelli were the bright lights for Davenport.

The summary—

Iowa City (20)	Davenport (28)
Idema lf 3 0	Diosier rf 2 0
Curry lf 0 0	Toffenelli lf 3 1
Burger rf 2 2	Math c 5 0
Judy rf 0 0	McClellan lf 0 1
McGuire c 1 0	Mastrogary 2 2
Burger c 1 3	Mayer rg 0 0
Shely rg 1 3	Mohr lg 0 0
Lorack lg 0 1	

Athletes to Get "I" Blankets Monday Night

A. E. T., honorary sixteen for men, will present sixteen "I" blankets to the members of the "I" men in football, and to the four major sports captains between halves at the Iowa-Ohio State basketball game Monday night.

The four captains to be honored are Harold Griffen, football; Eddie Flynn, baseball; Charles McConnell, basketball; and Raymond Dauber, track.

St. Pat's Beat St. Ambrose 16 to 12

Locals Play Muscatine Preps in Semi-final Game

DAVENPORT, Iowa, March 5 (Special)—St. Patrick's of Iowa City today won their way to the semi-finals in the Central States tournament here when they defeated the powerful St. Ambrose five 16 to 12.

St. Pat's will play the Muscatine Preps today in the semi-final round, the winner to meet Spalding Institute in the finals.

The half ended with the Iowa City quiet in the lead 5 to 4, while the advantage was increased at the three-quarter mark two points, St. Pat's leading 9 to 7.

Hawk Cagers in Last Drill Before Ohio Tilt Monday

Barry Leaves for Ann Arbor to Scout Buckeyes

Coach Sam Barry's cagers scamped through their final workout of the week last night, and now stand in readiness for the invasion of Ohio State on Monday night.

The practice was short, lasting only about an hour. Floor plays, out of bounds, and tip off formations were all given some attention. Two squads worked alternately so that no time was wasted and every man was given practice on the things that Coach Barry places his hopes upon to carry the Hawks to another Big Ten victory. Throughout the practice pep and ginger was shown by everyone on the squad, and if last night's workout is a forerunner of what will happen Monday, it is certain that the Iowans will be on their toes from the start to finish.

Today will be a day of rest for the cage men as there will be no practice. Coach Barry feels that a day's lay-off will put additional drive in his boys and make them more than anxious to square their former defeat from Coach Olsen's Ohioans.

Track Men Get Baton Practice

Watch Five Unknowns Showing Up Well in Practice

Eaton practice is the menu given Coach Bresnahan's track men this week. Five men have been receiving most of the coach's attention in the workouts so far this week. Grusonik, White, Folwell, Joy and Miller have been working together and have made creditable times in their trials.

Folwell performed on the mile relay team which ran against the Illinois team here in February, and has turned in the best time among the reserves but is being closely pushed.

Among the field men, the main event of the week is the rise of V. W. Lapp among the ranks of the shot putters. Lapp has been training consistently and his efforts under the direction of Coach T. E. Martin are beginning to show results.

Lapp has been tossing the weight well over the 40 foot mark, but has been relegated to the bench because of the presence of Captain Dauber and E. W. Nelson. Should he continue to improve at his present rate of improvement, it is likely that he will add points to Iowa's total in the coming indoor conference meet held at Evanston on March 13.

Badger Swimmers Will Attempt to Drown Hawkeyes

Teams Well Matched; Expect Records to Fall

Hawkeye swimmers will close the dual season tonight with Coach Joe Stienauer's Wisconsin pool aces, a tank clash that will not only be the most closely contested match of the entire Iowa schedule but it is also expected that a flock of university records will crack as a result of the keen competition. The two teams are evenly matched in every event on the swimming program.

Hersherberger hailed as star. Captain Hersherberger of the Badger tankmen is hailed as the individual star of the visiting swimmers. Last year this sprint man grabbed second places in the 40 and 100 yard swims at the conference clashes. He has been handed defeats in his events in three meets this year. Captain Johnny McClintock will be

Galaxy of Stars in Chicago Meet

Hoff, Osborne, Kuck and Hubbard Will Try for New Marks

CHICAGO, Mar. 5 (AP)—The national A. A. U. indoor track and field championships will be held at the Chicago Riding club tomorrow night, with athletes holding world and American records in competition. The meet will be under the joint auspices of the Illinois A. C. and the Chicago Athletic Association.

The Illinois A. C. holds the present indoor championship and indications are that the tri-color club will retain its laurels, with the C. A. A. as a contender.

Between 150 and 200 athletes will compete in the championship events. Among the prominent record holders is Charley Hoff, Norway, holder of the world's marks in the pole vault, indoor and outdoor.

John Kuck of the Kansas State Teachers College, Emporia, Kans., holder of the world's record (indoor) in the shot put at 50 feet 6 3/4 inches, will attempt to crack this mark if possible.

Other noted athletes in the competition will be De Hart Hubbard, Loren Murchison, of the I. A. C., Willie Ritola in the distance events;

Muscatine Takes U High 31 to 19

Engeseth's Cagers Lose Semi-final Contest

MUSCATINE, Iowa, March 5 (Special)—Muscatine trampled on University high school here today, winning 31 to 19, and will meet Davenport in the finals for the sectional crown.

After holding their opponents to a 4 to 4 tie in the first quarter, coach Engeseth's men weakened, and were behind at the half 10 to 5.

Willie Plant in the mile walk; Harold Osborne, in the running high jump and Paul Harrington of Notre Dame, holder of the intercollegiate pole vault record.

Captain Guthrie of Ohio State will compete in the 70 yard high barriers. He will be pitted against Morgan Taylor of the I. A. C., holder of the 400 meter hurdle record and Olympic star.

Jury Allots \$400 to C. G. Sample in Damages Suit

Lawyers Renew Pleas in Redfield Versus Blakely Case

Reading of a sealed verdict arrived at by the jury in the Goodwin-Sample case yesterday in district court revealed a distinct reversal in judgment asked for when \$400 damages was awarded C. G. and Pearl Sample, defendants.

W. L. Goodwin was trying to recover \$240 in rents which was deducted from the amount the lease called for by the Samples who felt it was the amount due them because Goodwin had not made certain improvements agreed to in the lease. When the action was brought against them they in turn filed a counter charge for \$1,000 damages. In all they will receive \$640 damages, counting the \$240 they refused to pay Goodwin.

J. R. Milner and Charles E. Hughes of Belle Plaine were pleading the case of Redfield vs. Blakely in district court yesterday. Redfield is asking for a refund of money paid for interest on account. The case has been hanging fire since last Spring.

Committee Plans Community Chest Tag Day March 27

A Community Chest tag day Saturday, March 27, to close a soliciting campaign lasting a day and a half is the program announced by the committee recently appointed by President Harry Breen of the Chamber of Commerce to make plans for the Community Chest. The same plan was used two years ago and proved successful.

Sub-committees to assist in the campaign will be appointed at once by Col. Morton C. Mumma, general chairman.

The budgets of the organizations supported by the Community Chest will be submitted to the Budget committee next Monday and a financial statement will be available early in the week.

Auditors Complete Court House Work

Books and records of county officers have now been completely audited by the state department and M. Davidson and A. S. Lawrence from the state auditor's office have closed their business at the court house.

State examiner reports are not for publication until they have gone through the state auditor's office and if any irregularities have occurred in court house books they will not be known until the auditor of Johnson county receives notification from the state auditor. The process usually takes from two weeks to a month.

C. of C. Receives Material for Fire Prevention Drive

Questionnaires, Posters, Photos, Films, Will Aid Inspectors

In preparation for the fire inspection of Iowa City to be conducted March 17th and 18th by the Iowa State Fire Prevention association, the local Chamber of Commerce has received from the Western Actuarial bureau, information and material for carrying out the publicity of the campaign.

The material includes window posters, fire prevention films, window display photos, campaign stickers, and 3000 questionnaires to be sent to each home in the city. The home inspection blanks will be distributed to pupils in the various schools and the questions are such as to determine the conditions for fire prevention in the home.

An interest is being taken in the campaign to prevent fires by all the residents and merchants in Iowa City who realize that fire insurance is only financial protection and also that prevention is better than adjustment. The merchants part in the campaign will be to display in their windows fire prevention photos and information.

The inspection itself will be conducted with the aid of forty or more trained and experienced fire insurance men.

Bush Addresses W.C.T.U. Members on Locarno Pact

Stephen H. Bush, head of the department of Romance languages of the university, addressed the members of the W. C. T. U. Thursday afternoon at the public library.

Professor Bush spoke on the Locarno agreement, and gave a general survey of the European situation. He said that the Locarno Pact was the most perfect that had yet been drawn up, but that there were still flaws to be found in it.

A report was made on the membership of the club which has been increased by ten over last year's enrollment, making the union large enough to be put on the national honor roll.

It was decided that each member should, before the next meeting, get one honorary member into the organization.

Mrs. B. E. Manville presided at the meeting. The ladies of the Congregation church served a lunch before the meeting adjourned.

Council Passes West Side Sewer Project

Mayor Withholds Decision Until Advised Majority Favors Plan

The west side trunk line sewer improvement was passed at a meeting of the city council last night by a vote of five to one. Alderman McGuan casting the dissenting vote.

As provided in the statute, if a majority of the property owners to be assessed for the improvement had petitioned for the improvement, it would then require only a majority of the entire council to pass the sewer resolution, otherwise three-fourths, or six votes.

Declares Motion "Not Passed"
Alderman Anderson was out of the city. Mayor J. J. Carroll declared the motion "not passed", stating that he did not wish to involve the city in any litigation and was not fully advised as to whether a majority of the property owners had signed the petition. The city engineer, when requested for an opinion, was unable to state definitely whether there were sufficient signers. Immediately upon announcement of the ruling of the mayor, Alderman Randall appealed from the decision of the chair and his appeal was upheld by the same vote as on the resolution.

Two Weeks to Sign
The mayor has fourteen days in which to sign or veto the resolution, but it may become effective without his signature if, within that time, he does not call a special meeting of the council and veto the resolution.

The mayor stated that he would sign the resolution if he could be convinced that a majority of the property owners had asked for the sewer.

Work Begins April 15
The trunk line sewer will serve property owners along Dill street, Black Springs Addition, Black Addition, Chautauqua Heights, Suburban Heights, Loos street, Park road, and Rockysore drive. The bids for this sewer will be opened on March 26 at the city hall. The work will begin on April 15 and will be completed by July 1.

Refer Dodge Parry
Dr. J. P. Mullin's petition for a reduction of \$200 on his assessment on the sewer was granted because of the unfavorable condition of the topography of the property which amounted to five lots.

Refer Dodge Parry
The matter relative to the Dodge street paving was referred to the ordinance committee and the city solicitor to determine whether or not there was any provision in the statute that requires the street railway to remove their tracks if it would not be able to pay their assessments on the paving. This matter has been bothering the council for some time and until there has been some action taken on this subject the paving would be delayed unless the city wished to assume the burden of the railway's assessments.

Want Sanitary Sewer
Residents on Governor street between Market and Brown streets petitioned the council for the construction of a sanitary sewer. This petition was referred to the streets and alleys committee and the city engineer.

Accept Schmidt's Resignation
The resignation of Paul W. Schmidt, as police and fire commissioner, was accepted and placed on file. The clerk was instructed to send a letter of thanks to Mr. Schmidt for his work as commissioner.

Arrest Couple at Midnight
Officer Rudolph Konvalinka arrested a couple at the city parks last night at midnight. They were brought to the police station where they were charged with disturbing the peace by being disorderly.

New Apartment Building Involved by Housing Laws

Permit Issued But Action Deferred Until April

A permit to build a \$40,000 apartment house at the corner of Summit and Burlington streets was issued Thursday to Dr. Frank C. Titzel of Jamestown, N. D., and O. H. Carpenter, local architect. Mr. Carpenter states that the ruling under which the permit was issued was made by the city board of adjustment when only three of the members were present and that the matter will come before the full board for final decision in April.

The contention came from a disagreement as to the distance the building should be set back from the street. The board ruled that a building on a corner lot should be set back from both streets as if it faced on both. This requires a setback of 23 feet from Summit street and of 15 feet, 3 inches from Burlington.

Mr. Carpenter states that the zoning ordinance specifically states that a builder on a corner lot may choose one street for his front and build near the other street as if it were merely the side of a lot located in the interior of a block.

Jessup Thanks Clark

Fire Chief J. J. Clark received a letter from President Walter A. Jessup, yesterday, thanking him for the work done in putting out the fire Sunday in the university workshop west of the men's gym.

Sparks Cause Fire

Sparks from the chimney at the home of James Bradley, 525 Iowa avenue, caused a small fire yesterday. There was little damage done.
