Senate Passes Farm Relief Bill

Hawkeye Matmen Win, Swimmers Lose to Gophers

Nicaragua Women Follow New Joan of Arc in Attack

Sixteen Women Injured as Conservatives Take Town

[By The Associated Press]

MANAGUA, Nicaragua, Feb. 11—A battalion of women formed and led by a 20-year-old girl assisted the conservative forces which recently recaptured the town of Chinandega from the liberal troops, thus restoring communication between Corinto and Managua.

Sixteen of the women are wounded, some seriously, it is said.

The Associated Press correspondent took from the bodies of dead liberal soldiers cartridges bearing the markings "F.C.N.," standing for "Fabrica Naccenal Cartuchas," or National Cartridge factory, which liberal prisoners said was in Mexico. There were no evidences of Mexican soldiers in the liberal ranks.

Smoking Debris in City

Chinandega presented a horrible picture when visited yesterday by a correspondent of the Associated Press who traveled on one of the three troops trains sent to the town by the conservative government.

Twelve squares, chiefly in the business section, were flattened and smoke was still rising from the ruins. Bullet holes were in almost every house and shell fragments were scattered throughout the streets.

Desultory Fire Continues

Dozens of dead were piled here and there. Buzzards hovered overhead, the water supply was still cut off, and that available was unhealthful. Virtually no food and no medicine remained in the town except what was hurried from Managua and Corinto.

A few liberals, barricaded in their homes, kept up a desultory fire and shooting from the outskirts of the town continued at night.

The conservative commander estimated that the conservatives lost 250 men and the liberals 175. The difference was due, he said, to the fact that early in the night the liberals had a heavy preponderance of machine guns. Approximately 400 wounded were taken to hospitals in Corinto, Leon, and Managua.

Decision of Jury Convicts Turner to Life in Prison

Deserter and Objector to War Believes it an Example of American Justice

[By The Associated Press]

PORTLAND, Me., Feb. 11.—Convicted of murder by a jury today Benjamin H. Turner of Mystic, Ia., the conscientious objector to war and a deserter, who came 3,000 miles from Mexico City to kill James B. Hallen, was sentenced to life imprisonment. In an ante room soon afterward, he was heard to remark: "Well, this is another example of American justice."

His counsel was given time to file a bill of exceptions in the event it is decided to appeal to the law court. The jury was out just an hour.

Turner, whose trial began in superior court on Monday, admitted that he killed Hallen at the latter's home at Falmouth Foreside on Sept. 8 last, after having "sentenced" him to death five years ago.

Turner maintained he had a moral right to slay Hallen because Hallen, like a Mexican whom Turner had killed five years ago, had defrauded him out of a few hundred dollars. Hallen, he said, left him for two years in a Mexican prison penniless, almost friendless, and alone.

Greek Men Held Formal Dance at Union Last Night

Alpha Tau Omega, Beta Theta Pi, Delta Tau Delta, Phi Kappa Psi, Sigma Alpha Epsilon, and Sigma Chi entertained at a formal dance at the Iowa Union last night.

Fred Hamm's orchestra furnished the music.

Chaperons were Mr. and Mrs. R. H. Fitzgerald, Capt. and Mrs. Thomas Martin, Mr. and Mrs. William Coast, Mr. and Mrs. Burton Ingwersen, Mr. and Mrs. George Gallup, and Mr. and Mrs. Wilbur Cannon.

The party committee included: William F. Vernon, A3 of Newton, William A. Sunstrom, Cm4 of Oskaloosa; William Larrabee, L2 of Waterloo; Walter I. Hanson, L1 of Davenport; Richard R. Reno, A3 of Des Moines; Frederick C. Stillwell, L2 of Sioux City.

Oldest Iowa Alumnus Gets Message of Congratulation

A message of congratulation on her ninetieth birthday, Feb. 11, was sent to Mrs. Sarah E. Humphrey Bradley of Elida, New Mexico, oldest living graduate of the University of Iowa, by Pres. Walter A. Jessup.

Mrs. Bradley was graduated from the university in its first graduating class, in 1858. The only other member of the class is D. Edson Smith, who is now eighty-eight years old. Mr. Smith is a Californian.

Mrs. C. H. Stephens, another member of the class of '58, died Sept. 12, 1926.

Committee Heads Work to Introduce Appropriation Bill

May Drop $1,200,000 Recommended for New Buildings

[By The Associated Press]

STATE HOUSE, DES MOINES, Feb. 11.—An effort is being made by Representative W. E. G. Saunders and Senator B. M. Stoddard, chairman, respectively of the house and senate appropriation committees, to bring the administration appropriation bill out of committee before the legislative recess which begins about Feb. 26.

Prepared by the state budget director, the bill incorporates a total appropriation of $29,000,000 for all departments, including institutions under the state board of control, and the state board of education. Expenditure of $1,200,000 for new buildings at Iowa University, Iowa State college, and Iowa State Teachers college have been recommended but there is doubt whether the committee will urge acceptance of this item for passage at this session.

Recommended increases in salaries for state officials are likely to be rejected as only two members of the sub committees, investigating such claims are in favor of the increases. These are Representative Clyde Charlton of Polk and Senator Otto F. Lange of Dubuque. The recommendations of the budget director for increases of $500 a year each for the secretary of state; treasurer of state; auditor of state; secretary of agriculture and superintendent of public instruction, making the annual salary for each $4,500. An increase of $100 a year is asked for the governor, together with an added $600 a year for house rent. In addition it is recommended that the governor be given a $2,500 contingent fund for personal expenses.

Senate Approves Year Internship

Supporters of Bill Say University Not Able to Meet Calls

[By The Associated Press]

DES MOINES, Feb. 11.—The state senate today upheld the state board of health in its refusal to license young physicians who have not served one year's internship.

The senate passed a bill making a year's internship a legal requirement. For more than a year the board has attempted to enforce that rule, with opposition coming from various quarters.

The state department of justice recently issued an opinion holding that the board did not possess power to make the rule and the bill was introduced as a means of clarifying the situation.

Cavanaugh Opposes Bill

Senator Cavanaugh of Webster county opposed the measure on the ground that some medical students might specialize in such work that a year's internship would not benefit them in their practice, while Senator Booth said the rule might restrict the numbers of new physicians.

Senator McFarlane of Waterloo supported the bill, declaring he considered a year's experience in a hospital as valuable to a young doctor as his four years of schooling.

Other supporters of the bill pointed out that the State University did not have enough medical graduates last year to meet the calls for interns.

The senate defeated the Ellis bill proposing a closed season on muskrats by a vote of 25 to 14.

Bill to Improve Park Lands

A bill by Senator Baird of Pottawattamie county permits cities to improve park lands with the same fund with which they are purchased.

Classic Poems of Chicago Columnist Entertain Audience

Preston Gets Laughter by Combining Wit and Pedagogy

One Chicago newspaper columnist plus a conference of Iowa Latin teachers meeting at dinner after a day's discussion of the classics proves to make a jovial evening. At least, so Keith Preston of the Chicago Daily News was able to convince the two hundred persons, Latin teachers from over the state, Latin majors, and a variety of faculty members and undergraduates, as he read from his three published volumes of poems at Youde's inn last night.

Despite the assertion that his poems were pedagogical, and theological, Mr. Preston's unexpected turns of wit found something laughter-bringing in each topic, whether a paraphrase of an Ovid poem, a comment on Mrs. Rockefeller's conception of the Chicago zoo, or the amazing tale of the adventures of Shadrach, Meshach, and Abednego in the fiery furnace.

The four-line pedagogical verse called "Sex Simplified" brought chuckles from the teachers of classics:

"First, parents, let the children know
Great oaks from little acorns grow,
Then whisper to the little folks
That little acorns grow from oaks."

Classical Content Reflected

Traces of his classical training at the University of Chicago and his teaching at Northwestern University showed between the lines of the columnist's condensed account of Ulysses' wandering—traces in content, that is, not in the spirit, of the "translation."

Prof. R. C. Flickinger, head of the Latin department here, who was on the faculty of the classical department of Northwestern at the same time that Mr. Preston was connected with that school—"before he had started on the downward path," as Professor Flickinger explained—introduced the speaker and led the singing of Latin songs which preceded the talk.

Today's program ends the two-day conference, which is the ninth such meeting to be held at the university. The sessions today in Old Capitol begin at 8:15 with the registration and examination of the Latin laboratory, with Prof. Charles H. Weller presiding, in the south chamber; at 8:30 in the north chamber the conference will join in the singing of Latin songs, which have proved popular in these meetings.

Potter Opens Discussion

Prof. F. H. Potter's talk at 8:40 on "Training the Student to Read Alone" will begin the morning's series of discussions; others on the program are S. E. Stout, Frank J. Miller, Helen Eddy, Maisy B. Schreiner, Hattie E. Greenhow, Keith Preston, and Prof. R. C. Flickinger, who will give an illustrated talk.

The short afternoon session will be in charge of Helen M. Eddy, when pupils from the university high school will give a demonstration of teaching pupils to read in the Latin word order; Joseph S. Magnunson will preside.

Latin Exhibit Shows Historic Period in Small Productions

"The work shows an amazing amount of interest," commented Prof. Frank J. Miller, of the Latin department, in viewing the exhibit of high school work in the south room of Old Capitol. The exhibit is placed on display in connection with the ninth annual conference of Latin teachers of Iowa.

"The Romans didn't use these," says one of the posters, showing a tomato, a potato, and a "Sunkist" orange. "Latin Up-to-Date" shows the Latin expression for the phonograph, tooth-paste, and dancing.

"Like Bubbles Cicero Always Soared the Highest" is the title of a theme on the life of the orator, written by Janet Ainsworth of the Fort Dodge high school. Oliver H. Smith of Fort Dodge has formed a Roman cuirass from a piece of tin and tacks.

Columns, pillars, and a gateway with posts cut from cakes of soap by pupils of the Iowa City high school, wooden articles, the battering-ram, and Caesar's bridge, have been fashioned of wood by Camilla Sperati's pupils of Waverly. Miss Sperati graduated from the university in 1925.

Dolls in colorful costume show the manner of dress, and miniature houses depict the type of architecture of almost two-thousand years ago. The philosopher's viewpoint is expressed in a poster "Veni, Vidi, Vici," quoting from Caesar, and the injunction of Socrates, "Know Thyself," in "Nosce Te Ipsum."

Wrestlers Get Decisions; Carter Sets Swim Record

[By The Associated Press]

MINNEAPOLIS, Feb. 11.—The wrestling team of the University of Iowa scored a three point victory over Minnesota here tonight when Yegge won over Gibson, with the score tied. His victory gave the Iowans the deciding count and the Hawkeyes had a 12 to 9 advantage in the scoring column over Minnesota.

Minnesota Defeats Hawk Swimmers

The veteran swimming team of the University of Minnesota had little difficulty in defeating Iowa by a score of 48 to 21 here tonight.

The Gophers had things their own way in seven events when the Maroon and Gold tanksters made easy firsts in each of these.

Merlin Carter

Iowa's only hope was entrusted in Carter, conference champion in the 220 yard breast stroke. This Hawkeye proved the sensation of the meet when he crashed the existing Big Ten record in this event. His time was 2:44 1-5.

The summary:

160 yard relay: Won by Minnesota (Morris, Bennett, Ensign, Lucke.) Time 1:19.

220 yard breast stroke: Won by Carter (Iowa); Goldman (Iowa) second; Purdy (Minnesota) third. Time 2:44 1-5.

40 yard dash won by Moody (Minnesota); Morris (Minnesota) second; McClintock (Iowa) third. Time :19 3-5.

440 yard swim: Won by Lucke, (Minnesota); Steenson (Minnesota) second; Clearman (Iowa) third. Time 5:58 2-5.

150 yard backstroke — Hill (Minnesota) first; King (Iowa) second; Marble (Iowa) third. Time 1:48.

100 yard free style — S. Hill (Minnesota) first; Bennett (Minnesota) second; McClintock (Iowa) third. Time :66.2.

Fancy Diving — Barnacle (Minnesota) first; Keyes (Minnesota) second; Pendengast (Minnesota) third.

300 yard medley relay — won by Minnesota. Hill, backstroke, Purdy, breast stroke: Moody, breast stroke. Time 3:17.

The Gophers won three of the first six bouts while the Hawkeyes took the other three, leaving the heavyweight division to decide the meet.

Summary

115-pound — Pfeffer, Iowa, won decision from Church, Minnesota. Time advantage, 6 minutes.

125 pound — Miller, Minnesota, won decision from Logan, Iowa. Time advantage, 3:25 minutes.

135 pound—Easter, Minnesota, won decision from Montgomery, Iowa. Time advantage, 1:46 minutes.

145 pound—Peterson, Minnesota, won decision from Scott, Iowa. Time advantage, 5 minutes.

158 pound — Beers, Iowa, won decision from Kreuger, Minnesota. Time advantage, 5:26 minutes.

175 pound—Voltmer, Iowa, won decision from Kapplin, Minnesota. Time advantage, 2:32 minutes.

Heavyweight class—Yegge, Iowa, won decision from Gibson, Minnesota. Time advantage, 6:20 minutes.

Villard Addresses Lunch Club Today

Grandson of Powerful Abolitionist Here Lincoln's Day

Oswald Garrison Villard, editor, publicist and author, who is to speak to the Saturday Lunch club this noon, is making an extensive speaking tour of the country. He comes here from Chicago, and includes in his itinerary an address to a similar club in Cedar Rapids following his appearance here.

He maintains an independent stand in politics, and has long been known as a social worker and reformer.

It is singular, if not particularly significant, that the grandson of William Lloyd Garrison, the ardent abolitionist, is to deliver a public address on Lincoln's birthday. His grandfather's fiery spirit was undoubtedly instrumental in influencing the young Lincoln to take his stand upon the most prominent issue of the day.

Selected Students to Discuss Morals

Gilkey to Talk Before Few Young Folks and Teachers

Seventy-five students and faculty members will discuss "Religion and Morals in this Changing World" with The Rev. Charles W. Gilkey, Saturday, Feb. 19. The discussion will take place at a dinner held in the Iowa Union at 6 p.m.

Mr. Gilkey has held student pastorates at Cornell, Chicago, Yale, Purdue, Wellesley, Stanford, Toronto, Harvard, Princeton, and other universities. In his early years, he did YMCA work which carried him into many eastern and Canadian colleges.

He spent two years in study abroad at the universities of Berlin and Marburg, and later at the theological colleges of Edinburgh, Glasgow, and Oxford.

Invitations will be sent to those whom the committee have chosen.

Edison Celebrates Eightieth Birthday by Answering Reporters' Questions

[By The Associated Press]

WEST ORANGE, N. J., Feb. 11.—The eightieth anniversary of his birth was a hard day for Thomas A. Edison. There were honors aplenty, but newspaper men kept him busy for hours with questions on immortality, science, theology, cosmology, and politics.

Henry Ford, who came here to celebrate the day quietly—was interrogated so much about taxes, profits, production, and war, that he admitted his immense wealth was a real impediment at a time such as this.

Edison, however, had the harder time of the two. For two hours he sat at his desk and in a firm, round script characteristic of the telegraph operator, answered the queries, which because of his deafness were submitted in writing.

"Spiritualism is the bunk," the wizard replied to the question of one reporter.

"The word God has no meaning to me. But I do believe that there is a Supreme Intelligence pervading the universe, and at times I believe that when a man dies the swarms of billions of highly organized entities which live in the cells, desert the body, go out into space, keep on and enter another and last cycle."

"How does an idea for an invention occur to you?" Edison was asked.

"By various methods too long to explain," he replied. "The real new thing is like a general idea, a beautiful melody pulled out of space, a fact which is inexplicable."

Science will never realize its dream of producing life, and telepathy is impossible in his opinion.

"Bolshevism is a menace. The Russians mean well, but the ruling people know nothing of the real life of the average man or what he will do under certain conditions. Their actions are all theory and based on what they think he ought to do."

To the oft-repeated question of when he expected to retire, the aged inventor replied:

"A few days before the funeral."

He preferred to be remembered by posterity as the inventor of the phonograph.

Defense Objects to Telegram Evidence at Miller Trial

Brands Durkin as Hostile to Case of Government

[By The Associated Press]

NEW YORK, Feb. 11.—The stormiest session of the Daugherty Miller trial was enacted today in federal court.

The center of the storm was Frederick Wilson, secretary to Thomas W. Miller, as alien property custodian. Wilson took the stand as a government witness, called to explain why he sent two telegrams to Miller in Pittsburgh. One telegram addressed Miller that Wilson was unofficially informed that the claim of the Societe Suisse Pour Valeurs de Metaux for $7,000,000 of of the impounded assets of the American Metal company had been passed. The second telegram advised of official passage.

Counsel for defense objected strenuously to the telegrams as evidence on the ground that they were not shown to have been sent with the knowledge of Miller or Daugherty, seeking to have them admitted as evidence against Miller solely. United States Attorney Buckner tried to bring out through Wilson that he talked with Miller about the Societe Suisse claim. Wilson denied ever having talked with Miller about them.

John Durkin, private secretary to King for six years previous to King's death in May, 1926, a few days after he was mentioned in the present indictment, was also branded a hostile witness by Buckner.

Visibly chagrined by his failure to get from Durkin testimony admitted at the previous trial, which ended in disagreement, Buckney loudly characterized Durkin as "hostile to the government's case."

Railroads Apply to Commission to Increase Control

Chesapeake and Ohio Plan Will Take Over Erie and Pere Marquette Railroads

[By The Associated Press]

WASHINGTON, Feb. 11.—Application for authority to take over control of the Erie and Pere Marquette railroads was placed today before the Interstate Commerce Commission by the Chesapeake and Ohio Railroad.

The three roads constitute all of the Van Sweringen railroad interests with the exception of the Nickle Plate system, and the merger plan given the commission followed closely the scheme outlined at Cleveland, Monday by W. J. Harahan, president of the Chesapeake and Ohio.

The Chesapeake and Ohio directors have purchased or agreed to purchase, the application revealed, 936,000 shares of Erie stock which will cost $36,511,072 and 222,100 shares of Pere Marquette stock valued at $24,236,568. The holdings in large part are to be acquired from the Nickle Plate railroad and from O. P. Van Sweringen.

The total cost to the Chesapeake and Ohio will be $60,747,580. With the transaction, if the commission approves the consolidation, the Chesapeake and Ohio will control 7,900 miles of trunk line railroad in the United States and Canada.

No mention was made of the former Van Sweringen proposal for consolidating the three railroads with the Nickle Plate, although it was declared that two members of the Chesapeake and Ohio directorate who constituted the committee to arrange the new merger, George Cole Scott and John Stewart Bryan of Richmond, were leaders of minority stockholders who opposed the original Nickle Plate merger

Federal Men Capture Old Murder Suspect

ATLANTA, Feb. 11 (AP)— Hugh De Autremont, one of the brothers sought by federal authorities for the past four years in connection with the dynamiting of a mail car near Siskiyou, Oregon, and the murder of a mail clerk and three trainmen, has been captured in Manila, P. I., Grant B. Miller, chief post office inspector announced here today.

Inspector Miller has been here several days in conference with Joe P. Johnston of this division.

A telegram received today advised the chief inspector that De Autremont had admitted his identity. Mr. Miller said the man would be returned to the United States on the transport Thomas sailing from Manila on February 16.

French Offer Ten Posts to American College Graduates

Ten positions known as "postes d'assistant" are offered this year by the French government to American graduates. Cooperating with the French government in this is the Institute of International Education, at New York.

Requirements for the positions are: a good knowledge of French, American citizenship, and a bachelor's degree. Application, together with all credentials, is required to be filed with the Institute by March 15.

An assistant will give instruction in English for two hours a day, and is allowed to attend courses in whatever university is within commuting distance. No salary is paid, but the assistant will receive room, board, light, and heat free. Traveling and incidental expenses must be met by the assistant.

State Board Will Ask for Currier Annex Bids Soon

Plan to Open Addition for Occupancy Next Fall

To take immediate action on the preparation of plans and advertisement for contracts for the proposed addition to Currier hall, dormitory for women, was the decision of the Iowa State Board of Education at the meeting in Des Moines, Wednesday and Thursday of this week.

The proposal to construct the Currier addition was announced early last month by Pres. Walter A. Jessup. At the meeting of the state board this week plans were made to begin work on the proposed addition so that it will be ready for occupancy by the opening of school next fall.

Plans Begin Immediately

Plans and specifications for the building are to be begun immediately and bids for the building contract will be opened, it was announced by President Jessup, who attended the meeting of the board.

The addition, as planned, will accommodate 100 to 120 women. The new wing is to be built on the west and south sides of the hall, and the architecture will be conformable to that of the old building.

Financed Like Quadrangle

The state legislature will not be asked for an appropriation for the addition, as it is expected to obtain the necessary funds in the same manner as they were raised for the construction of the Quadrangle, men's dormitory.

The planned addition to Currier hall is expected to relieve the crowded conditions there. University officials have stated that more housing room for women here is a definite need. The long waiting list for rooms at Currier has been given as an indication of the need for additional dormitory room for women of the university.

Jury Says Werber Victim of Poison

SARGENT, Neb., Feb. 11 (AP)—James E. Werber, whose death here last Monday caused considerable excitement following a report of the state bacteriologist at Lincoln that the viscera contained a large quantity of poison, came to his death by poison administered by an unknown hand, a coroner's jury found late today.

That Werber died from ptomaine poison or was a suicide has been discredited.

Day in Washington

[By The Associated Press]

Muscle Shoals bids were adversely reported by the house military sub-committee.

President Coolidge's disarmament proposal appeared to have been favorably received abroad.

Speaker Longworth promised to aid in bringing the Boulder Canyon dam bill to vote in the house.

The milk importation bill was sent to the White House.

Authority to control the Erie and Pere Marquette was sought by the Chesapeake and Ohio.

McNary-Haugen Act Clears First Hurdle by 47 to 49

Measure to Go Before House Today for Final Action

[By The Associated Press]

WASHINGTON, Feb. 11.—Reversing itself in less than eight months the senate passed the McNary-Haugen farm relief bill late today, 47 to 49.

This measure will be transmitted to the house tomorrow and efforts will be made there to substitute it for the companion measure pending since last Wednesday. A final house vote is expected Tuesday or Wednesday.

Unless the senate bill, which was loaded down with last minute amendments, is approved by the house without change, the legislation must go to conference and then run the gauntlet of the legislative jam in the last few days of the session.

Favorable action in the house is anticipated by both proponents and opponents, but there is uncertainty as to the attitude of President Coolidge. Should he exercise his veto power, the legislation would be dead for this session, since admittedly neither house could muster the two-thirds majority necessary to pass it over a veto.

"Balance of Power" Sought

The final day of senate consideration was marked by much uncertainty and numerous private conferences both inside and outside of the chamber, with supporters and opponents centering their efforts on doubtful senators who were regarded as holding the balance of power.

Before debate was shut off at 4 p.m. under a previous agreement the galleries were thronged and nearly half the membership of the house was crowded on the senate floor when the voting on amendments got under way. It required nearly an hour and a half to dispose of the flood of amendments many of which were prepared in the last hour of consideration in order to gain strength for the bill.

As the voting began those in charge of the bill plainly showed nervousness over the final outcome, but a few roll calls on amendments removed whatever doubt there had been that the senate would overturn the 45 to 39 vote by which it defeated a similar measure on last June 24.

Nine Senators Switch Votes

On the final ballot, nine senators reversed their positions of last year, with Robinson of Arkansas, the democratic leader, Broussard and Ransdell, Fletcher and Trammell, Sheppard, and Smith of South Carolina, all democrats voting for the bill, and Helfin of Alabama and Overman of North Carolina, both democrats, voting against it.

Twenty-four republicans, twenty-two democrats, and one farmer-labor voted for the bill, while 22 republicans and 17 democrats voted against it.

The roll call follows:

For the Bill

Republicans — Cameron, Capper, Curtis, Deneen, Frazier, Gooding, Gould, Harreld, Howell, Johnson, Jones (Washington), La Follette, McMaster, McNary, Means, Norris, Nye, Oddie, Pine, Robinson of Indiana, Schall, Stanfield, Stewart, and Watson—24.

Democrats—Ashurst, Bratton, Caraway, Copeland, Dill, Ferris, Fletcher, Hawes, Kendrick, McKellar, Mayfield, Neely, Pittman, Ransdell, Robinson of Arkansas, Sheppard, Simmons, Smith, Steck, Trammell, Tyson, and Wheeler—22.

Farmer-labor—Shipstead—1.

Total 47.

Against the Bill

Republicans — Bingham, Borah, Couzens, Dale, Ernst, Fess, Gillett, Goff, Greene, Hale, Keyes, Lenroot, McLean, Metcalf, Pepper, Phipps, Reed of Pennsylvania, Sackett, Shortridge, Warren, Weller, and Willis—22.

Democrats—Bayard, Blease, Bruce, Edwards, George, Gerry, Glass, Harris, Harrison, Heflin, King, Overman, Reed of Missouri, Stephens, Underwood, Walsh of Massachusetts and Walsh of Montana—17.

Pairs were announced as follows:

Broussard, democrat for, with Moses, republican, against; Jones of New Mexico, democrat, for, with Wadsworth, republican, against; Norbeck, republican, for, with Edge, republican, against.

It was announced that Senators Dupont, republican, Delaware, and Swanson, democrat, Virginia, who were absent, would have voted against the bill.

Senator Smoot was absent and was unpaired.

Men's and Women's Glee Clubs Elect Presidents

Caldwell Johnson, A4 of Fort Dodge, has been elected president of the men's glee club, a position held formerly by Harold Ogilvie, Cm3 of Muscatine, who has returned home.

Abraham Lincoln and the Union

THERE are times in the history of governments when the fate of a great nation and the peace and freedom of millions of people rest upon one man. And when the crisis is past that man attains the admiration and reverence of the world.

After being fraught with civil strife for many years, Italy produced Augustus, through whose leadership Rome achieved her golden age. During the Hundred Years' War, France produced a Joan of Arc, whose indomitable courage and enthusiasm relieved Orleans and saved her native land. So when the black clouds of rebellion appeared in our Southern skies, and the nation seemed about to perish, America produced her greatest exponent of equality and union —Abraham Lincoln.

Never has there lived in the White House a greater lover of the Union than Abraham Lincoln. He was a man of the people, a true American who stood ready to sacrifice all in order that the Union and its ideals might endure. He told the South that he intended to enforce the laws of the Union in all states. He promised that there would be no violence nor bloodshed unless such action were forced upon the national authority. But carnage and bloodshed were inevitable and with them came bitterness, hatred and rebellion. With firmness in the right and with inexhaustible patience Lincoln devoted himself to the unfinished task.

The great task is finished. The Union is saved. We who enjoy the blessings which he preserved shall never forget his work. And his life—noble, vigorous, and unselfish —shall remain to all Americans an incentive toward a higher idealism of untold benefit to this nation and to all mankind. May this remind you that today is Abraham Lincoln's birthday.

The McNary-Haugen Bill

THE senate has agreed on the farm relief measure. The bill came before the house yesterday, and opinions vary as to whether President Coolidge will veto the bill.

Drawn up primarily for the benefit of the farmers of the middle west, the measure has been a subject of attack and a campaign issue for the past two years. Now, with passage in view, it has been said that the courts will hold the equalization fee unconstitutional, although grounds for such belief are wanting.

The Chicago *Tribune*, prior to the passage of the bill by the senate and until its passage was evident, has been opposed to the measure. Now it assumes the attitude that the measure meant nothing and was only a trial. It is a trial, to be sure, but it is well worth a trial and it seems likely that the outcome will be favorable.

It has been intimated by several politicians that President Coolidge will veto the measure in its present form should it come to his desk. But he'll not. He will not even hesitate about the matter. The 1928 presidential campaign is too near at hand, and contrary to the beliefs of Nick Butler and a few others, there is little reason to doubt that he will be a candidate for re-election.

Arkansas Downs Evolution

WHAT'S the matter with Arkansas? Is it going back to the hide-bound, tyrannical prejudices of pre-Civil war days? So it appears in the announcement that the legislature has passed an anti-evolution bill, prohibiting the teaching of such doctrine in any of its schools.

This revives for the reading public, memories of the famous "Scopes trial" in Tennessess. Although Mr. Scopes was exonerated from the charges brought against him, the matter has agitated the South. Wrong interpretations have been thrust on the public by unscrupulous politicians.

The situation of condemnation is to be excused on the grounds of ignorance. Arkansas is considered a 'backward' state. It is composed of a few cultured 'whites,' poor 'mountain white trash,' unlearned negroes, and a select class of clever politicians. The very nature of this cosmopolitan population is self-evident of the possibility of the passage of such bill.

The people themselves do not understand the nature of evolution as explained by science. They, in fact, do not think at all—accepting the word of a few 'authorities' as truth. If they do consider the subject at all, they interpret it from the popular, misinformed theory: "that man descended from monkeys." Scientists themselves scorn such doctrine. They accept the findings of biologists and then endeavor to trace the very beginning of man. Biologists have shown that life develops from a single cell. Hence scientists studying man as he now exists, traces the creation of his life, then through research observes the development of man in past ages and then conjectures that man must have developed from a lower level of mentality. There are many views of the genesis of man. Such study is interesting and fascinating. It is harmless, and on the other hand, develops a person mentally to reflect over the subject.

So evolution will be 'taboo' in the school system of Arkansas. No doubt, however, it will be discussed at the corner drug store, and the perverted views distributed freely throughout the state.

Arkansas needs to be awakened. Its legislature had better be concerned with passing a compulsory education bill, providing for proper facilities for giving it to its young. Under the circumstances, Arkansas will be the loser, for its enterprising and knowledge-thirsty young people will leave and attend institutions in other states. Arkansas' only salvation is that they may come back to their mis-guided people and instill the seed of truth in them.

Sharps and Flats

NO campus would be complete without a few under-baked "philosophers" and "cynics" who are too frequently stricken with a boresome affliction which scientists of phrase term "verbigarbage," and whose symptoms take the form of effesvescense at the mouth.

Verbigarbage is a disease to which not even professors are immune, and Iowa has one or two victims in the teritiary stage. These pedigreed "cynics" delight in taking "clever" cracks at campus institutions—they are led to believe their remarks are clever because the students know that they must appreciate their instructor's offerings of alleged humor.

Why not hold up the mirror to these academic wise-crackers? When their stale remarks become too tiresome, let us at least allow ourselves a few loud yawns with an undertone of unmistakable boos.

Bad manners, in extreme cases, must be countered with bad manners.

Just Sand

THE last storm Davenport had seventeen accident cases were caused by slippery sidewalks. Compare this record with that of Iowa City; throughout last year and so far this year, there has not been a person injured due to a fall on icy streets.

Many persons attribute such a record to happanstance or good luck but in reality it has been the forethought of the administration. After every thaw when the streets are at all slippery the sand man is out with his cart, sprinkling sand on every ice patch.

Two years ago it cost the city more than $1,500 to answer a damage claim when a woman slipped and broke her arm. A little comparison, again, will show the profit in the use of sand. The cost of sand for the streets is a negligible item. The men who do the work are on the regular city payroll. The city is avoiding many damage suits, with heavy costs, for a few dollars. It should be lauded for its economy and common sense.

If the political leaders really wish to get out the vote they will cease trying to pass compulsory voting laws and pass some prohibiting everybody from voting.

If you haven't a head to think with you'll often be left without a leg to stand on.

A lot of people speak kindly of prohibition who won't permit it in their homes.

The place for your ancestors is in the family album.

Rome sits on her seven hills and Mussolini sits on Rome.

Poems That Live

Turbines

Look, these are all
We have for symbols;
And these are bare
Of thought and pain and hope,
Yet heavy with another bloom
Like trees of paradise;
For they lay hold
On soil of time and space
Unwatered by our dream;
And they are near
To motion that fore-ran
Our flesh; and they are solitary, strong;
And from the steel how splendidly
They lift their buds
Of doom transcended and complete.

—MACKNIGHT BLACK, in *The Nation*.

Official Daily Bulletin

The University of Iowa

Bulletins and announcements for the Official Daily Bulletin column must be in the office of the university editor, Prof. Charles H. Weller, room 101 journalism building, by 4 o'clock in the afternoon to appear in the following morning's Daily Iowan.

VOLUME 2, No. 107 FEBRUARY 12, 1927

FACULTY OFFICIAL NOTICES

NEW ART CLASSES

Special Saturday morning classes in graphic and plastic arts are being conducted at the University high school under the direction of Mrs. Mildred Cunningham and Miss Margaret Polders. The class meets every Saturday morning between the hours of 9:00 and 10:30 a. m., and is open to anyone interested in the subject. A small tuition is charged for the semester's work, and arrangements for its payment may be made at the office of the principal of the University high schools, where enrollment for the present semester is now taking place.

L. R. KILZER.

HUMANIST SOCIETY

The Humanist Society wil hold its regular meeting Monday evening, Feb. 14, at the home of Miss Carrie E. Stanley, 5 E. Fairchild street. Prof. Hardin Craig will speak upon "Recent Study in Europe."

HILDA TAYLOR, secretary.

POLITICAL SCIENCE CLUB

The Political Science club will meet at the home of Mr. and Mrs. C. A. Phillips, 721 N. Linn, Monday night, Feb. 14 at 8 o'clock. Mr. Forest R. Black will read a paper on "The Vanishing Bill of Rights."

BRUCE E. MAHAN, secretary.

TO ALL STUDENTS WHO EXPECT TO GRADUATE AT THE CLOSE OF THE SECOND SEMESTER, — JUNE 6, 1927.

Every student who expects to receive a degree, or certificate, at the university convocation to be held June 6, 1927, should make his formal application on a card provided for the purpose, at the registrar's office on or before Saturday, Feb. 26, 1927.

It is of the utmost importance that each student concerned comply with this request immediately, for otherwise it is very likely that a student, who may be in other respects qualified, will not be recommended for graduation at the close of the present semester.

Making application for the degree, or certificate, involves the payment of the graduation fee, $15.00, at the time the application is made,—the payment of this fee is a necessary part of the application. Please call at the registrar's office for the card.

Respectfully,
H. C. DORCAS, registrar.

EVENING GOLF

Faculty, students and townspeople may practice driving and putting in the field house on Monday, Wednesday and Friday evenings from 6:30 to 10 o'clock and on Tuesday and Thursday evening from 8 to 10 o'clock. The usual fees must be paid. Private lessons will be given at these times.

CHARLES KENNETT, coach of golf.

UNIVERSITY LECTURE

Sir Douglas Mawson of Australia, Antarctic explorer, will deliver a lecture, illustrated with moving pictures and stereopticon slides, in the natural science auditorium on Monday evening, Feb. 14, at 8:00 o'clock, under the auspices of the senate board on university lectures.

BENJ. F. SHAMBAUGH, chairman.

UNDERGRADUATE ACTIVITIES

SATURDAY LUNCH CLUB

The Saturday Lunch club will meet Saturday, Feb. 12 at Youde's inn. Mr. Oswald Garrison Villard will speak.

LUCILLE M. MORSCH.

COSMOPOLITAN CLUB

Members are required to attend the club meeting Saturday evening at 8:00 o'clock in the L. A. drawing room. Students from other lands are cordially invited to attend the meeting.

M. S. LARDIZABAL, president.

HESPERIA

Hawkeye picture will be taken at Newberg's, Friday 18, promptly at 12 o'clock. Only paid up members will be in the picture. Those who have not paid their dues, pay them to Clara Clemmer before the picture is taken.

MARGARET SMOKE, president.

ERODELPHIAN

Erodelphian literary society picture will be taken at Newberg's at 12:00 o'clock sharp on Monday.

PERCIE ELLEN VAN ALSTINE.

METHODIST PARTY

The freshman boys and and girls of the Methodist church are asked to remember the valentine party in the church parlors after the game tonight.

MRS. EARL SMITH.

ORCHESTRA TRYOUTS W. A. A. VAUDEVILLE

Orchestra tryouts for W. A. A. vaudeville will be held Tuesday, Feb. 15 at 4 p. m., in the women's gymnasium.

HELEN SPRINGER.

W. A. A. DANCING

Everyone whose name is on the W. A. A. bulletin board for dancing, meet in the women's gymnasium Monday at 4:30 for rehearsal.

HELEN SPRINGER.

HILLEL CLUB

History Studay Circle will meet with Doctor Nasatir, Sunday afternoon at 2 o'clock in room 223 liberal arts.

EDWARD ROBINSON.

CHRISTIAN ENDEAVOR

Members and friends of the Congregational Christian Endeavor are invited to a Valentine party at the church on Saturday evening after the basketball game.

JOHN PALMER.

INTERNATIONAL COUNCIL

Everyone interested is invited to attend the next meeting of the Council which will be held at the home of Prof. Clara M. Daley, 422½ N. Dubuque, Sunday, Feb. 13 at 7:30 o'clock. The subject is "Nicaragua" and several points of view will be presented.

LYMAN C. WHITE, chairman.

AFTERNOON VARSITY

Afternoon Varsity will be held Feb. 12 from 3 to 5.

HELEN SPRINGER.

HOME ECONOMICS CLUB

The members of the Home Economics club will meet at Newberg's Monday, Feb. 14 at 12:30 to have their picture taken for the Hawkeye.

THELMA KLEIN, president.

HAMLIN GARLAND

Tryouts for the Extemporaneous Speaking contest will be held at the regular meeting Feb. 22. Each girl will deliver a two minute speech on one of the following topics: The problem of cheating; the place of a campus humorous magazine; participation of upperclass women in athletics; a co-ed's advice on child training; the university's reputation in the home town; what the ideal man should wear; the curriculum and creative work; the reality of campus culture; and class average as opposed to an absolute grading standard.

BONITA BROWN, president.

GLEE CLUB TRYOUTS

Anyone wishing to try out for the men's or women's glee club see Prof. Walter Leon at his studio on Tuesdays or Thursdays between 1 and 2 o'clock.

J. E. BLISS, business manager.

Y. W. C. A.

All members of the Y.W.C.A. are asked to consult the membership list on the Y.W.C.A. office door for corrections. Anyone who has not yet recorded his membership in the office must do so before Wednesday, Feb. 16, at 4 p. m.

PAMELIA DULANEY, president.

ETA SIGMA PHI

Members of Eta Sigma Phi are requested to meet at Newberg's studio prompaly at 12:15 on Wednesday, Feb. 16, for their Hawkeye picture.

HELEN MURTAGH, president.

People Are Saying:

"I believe we older ones can contribute to the ultimate happiness of those just beginning life by pointing out the results of which the two attitudes toward life—the negative and the positive—will lead them."—E. M. Statler, hotel magnate.

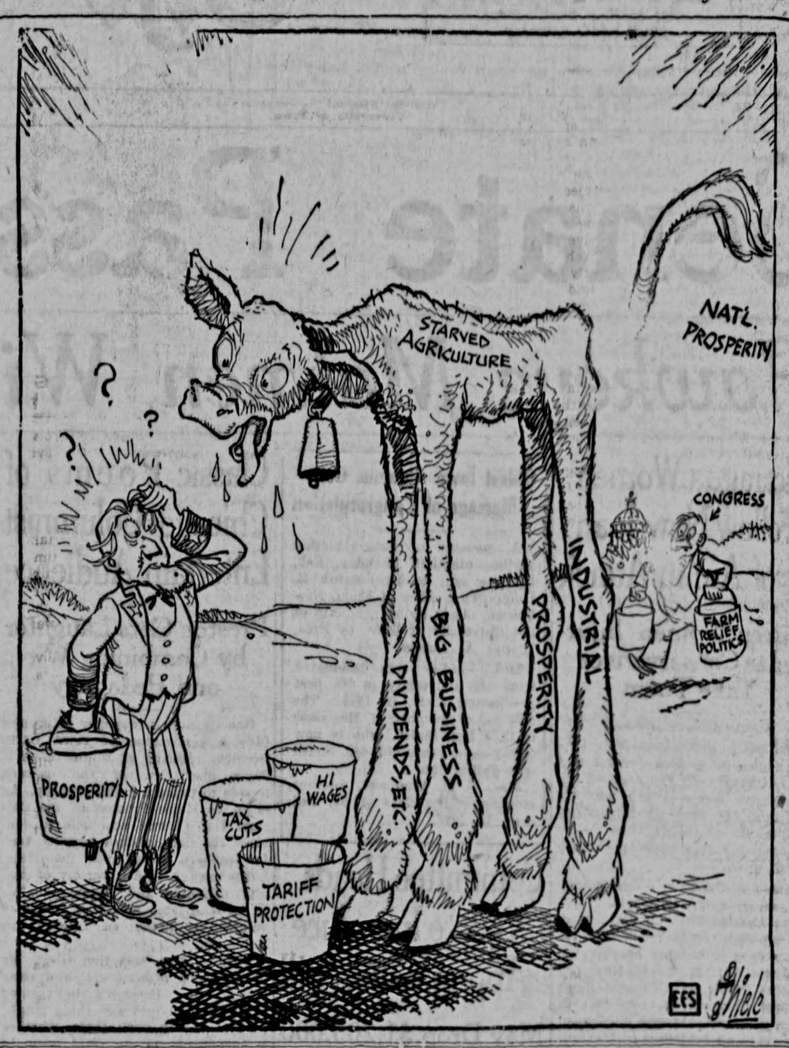
"Perhaps the most valuable assets a boy can have are education and a willingness to begin using it in a humble capacity." — W. W. Atterbury, president Pennsylvania railroad.

* * *

"A group of modern historians take the delight of ghouls in digging up the back yards of personalities who have a place in history and are now gone. No one objects to the preservation of all the evidence which serves to make history accurate, but the proverbial scholar who is also a gentleman ought to find some reluctance in confining the activities to the back yard of a human life while the front yard presents so much more that is important."—Richard Washburn Child, former ambassador to Italy in an article, "Sh—They Say the President—"

APPETITE'S GOOD, BUT—! By Thiele



Who's Who AT IOWA

George L. Van Deusen

An embattled scene of old rivalry tonight at the Field house. Iowa vs. Illinois—Basketball—and George L. Van Deusen, veteran Hawkeye forward is being depended upon by Old Gold fans to help the Hawks to a sweeping victory. "Another one like Ohio," is the war cry.

Just two years ago on Friday, February 27, 1925, this same Van Deusen led the Hawks to a smashing win over their age old rivals, the Illini, 3 - 25. He was a sophomore then and performed at right guard. In this one game alone Van Deusen counted six field goals and three free throws for a total of fifteen points. Not so bad for a man experiencing his first year of competition. Tonight he appears for a last time against Illinois. Luck to him, and may we see the Illini buried beneath an avalanche of field goals.

"I'd rather trim Illinois than any other school in the conference," he told this writer. 'It's just the feeling of old rivalry which we hold toward them. One thing is true about the big ten race however, that is I hope so, Michigan will not finish the season undefeated. They will possibly lose to both Illinois and the rejuvenated Chicago team. If not they are sure to lose to Iowa at any rate."

"Van" as he is popularly called on the Iowa campus, is a rather quiet, hard working fellow, who says little but who thinks and does much. On trips, so this writer is told, he just takes things easy, but no one person is more interested than old "Van."

Tonight Van Deusen and Daugherity, the Illinois captain, are scheduled to engage in a point getting match with the ultimate object of victory over each other. Daugherity is one of the men still remaining on the Illinois squad who watched our "Van" score those fifteen points way back in 1925 and spell the terrible little word "defeat" for the Illini. Van is out to duplicate the feat tonight in his final battle with the boys from Urbana, and to double the fifteen if possible. Again here's luck to him and the Hawks.

Van Deusen was born at Anamosa, Iowa, May 26, 1903. He attended both the Anamosa and Central City, Iowa, high schools, graduating from the latter in the spring of 1922. He entered the University of Iowa in the fall of that same year and won a numeral in basketball. He has been a member of the varsity basketball five for three consecutive seasons. In his sophomore year he played guard but was later shifted to forward where he has performed during the years 1925-27. He is the possessor of two major I's in basketball. Van Deusen is a member of Sigma Pi social fraternity, the Hawkeye club, and of Phi Epsilon Kappa, physical education fraternity. His plans for the future are not definitely settled but he expects to enter some phase of commerce work in preference to coaching. During the past few years he has been an agent for the Real Silk corporation, manufacturers of hosiery.

Fifteen Years Ago

L. A. Packard has been chosen as assistant track coach, for the coming season. He will have full charge of the freshman team, and help Kellogg with the varsity.

Mr. Packard is a student in the medical college and has had considerable track experience, putting in four years of training at Mercersburg academy. His specialty is the pole vault, but he has been outstanding in almost every department of track work.

The medics took an easy game from the laws, in the contest, played off yesterday. The line-up was as follows:

MEDICS		LAWS	
Crumps	R.F.	R.F.	O'Brien
Langworthy	L.F.	L.F.	Mitchell
Hansell	C.	C.	Snyder
Brothers	R.G.	R.G.	Meloy
Maiden	L.G.	L.G.	Johnston

The associated students of applied science will meet this afternoon in the students' room. Important business will be transacted.

Before the varsity game, yesterday, the freshmen played a "curtain-raiser" with the Iowa City high school, and won by an easy victory, gaining a score of 20 over 4.

The lineup was as follows:

FRESHMEN		HIGH SCHOOL	
Stevenson	R.F.	R.F.	Swisher
Breuchner	L.F.	L.F.	Akerman
Beem	C	C.	Hiatt
Parsons	R.G.	R.G.	Munkhoff
Dick	L.G.	L.G.	Breuchner

Wexo danced last evening at Majestic hall.

The Phi Rho Sigs danced, last evening, at Sueppel's auditorium.

Delta Tau Delta gave a dancing party at the chapter house last evening. Capt. and Mrs. M. C. Mumma chaperoned.

The final registration for all the colleges was complete yesterday. Aside from the fact that the work at the registrar's office has drawn out longer than usual, the new plan, introduced by Registrar F. C. Ensign, to have the students consult with their instructors before changing their schedules, has proven a success. Few students, last semester, failed to make their grades.

CHILLS and FEVER

It Pays to Advertise

The shades of night were falling fast,
When through an Alpine village passed
A youth who bore mid snow and ice
A banner with this strange device,
"Use Wiggins' Exce'sior—Safety for Packing purposes."

* * *

The yard foreman saw one of the girls stepping curiously into a car inscribed with the slogan, "Danger, 50,000 volts."

"Stop them, stop them," he shouted earnestly to a nearby workman.

"Oh, thass alright, boss, they're modern flappers and nothin' can shock them."

* * *

WE READ IN AN EXCHANGE THAT THE PRICE OF THE MATERIALS IN A MAN'S BODY IS ONLY NINETY-EIGHT CENTS. WE'RE SURE THESE FIGURES WOULDN'T APPLY TO THE AVERAGE STUDENT; THE IVORY ALONE SHOULD MAKE THEM NET SEVERAL DOLLARS PER HEAD.

* * *

Greeks Agree Not to Join Attack Against Turkey—headline in the Chicago Tribune.

That's all right, but we'll believe them a lot more thoroughly after Thanksgiving.

* * *

The old boys who used to practice how close to the mark they could put their "chaw" have been succeeded by a younger generation who see how many cups of coffee they can drink without getting goggle-eyed.

* * *

"His tone carries conviction," said the criminal, as the judge sentanced him to ten years at hard labor.

* * *

Students in the medical college are understood to have requested to day off as a holiday; they base their plea on the fact that Lincoln once freed the slaves.

* * *

We are disgusted with the way that so many columns try to make married life a joke; many of our wedded friends have informed us with tears in their eyes that it was no joking matter.

Teeters Offered "Million Dollars Cash and a Little Spending Money"

By BUD SCHOTTER

Although he is not a movie star twinkling from the shaded depths of a picture palace, not a satellite whose orbit includes chiefly the one hundred yard limit of a football gridiron, Dean Wilber J. Teeters, head of the college of pharmacy, has received an offer that will net him "one million dollars."

Dean Teeters arrived at his office last week, unprepared for the good fortune that was about to befall him. On his desk an innocent looking letter was lying. Upon opening it, he was surprised to learn that some budding Sherlock Holmes had solved the famous Elrod case.

This genius knew the "Secrets of a man's heart and the effects that cause death." He had made a "life study of the human heart. If Dean Teeters would consent to a personal interview, the writer had a proposition that would make them both tremendous profit.

"Genius" Proved Persistent

Dean Teeters has many duties so he could not find time to answer his correspondent immediately. In a short time another letter arrived. This one informed him that he was making a great mistake by not jumping at the chance that was being offered. The writer was positive that he knew what he was talking about. He had "conquered" his own heart and he was certain that the "Medical world knows nothing of what I have discovered."

The expert continued, "The cord of Elrod's heart was pulled too far Look at the right side of the left-top cell of the heart and find it broke."

Enclosed in the letter was a valentine shaped arrangement that purported to be a man's heart. The diagram illustrated with tragic clearness the catastrophe that had actually happened.

Man of Varied Talents

The letter wound up with the exhortation to hurry up and accept the writer's generous offer, of a partnership. He was having cards printed and he would send one as soon as they were finished.

Three days later another letter arrived. Enclosed was one of the valued cards. The writer had apparently switched to another tangent for he was now qualified as a "business adviser." If family troubles or misunderstandings came within anyone's province, this marvel could adjust them with little difficulty. His "methods" never failed; he had a "flock of Happy Families reunited." The card closed with the promise, "I sure will guarantee results or no charge. Consultation $5.00."

The letter informed Dean Teeters that the writer would be in Iowa City for a personal meeting. It ran in part, "I am enclosing the card although only one side is printed. I have sent to Washington to be copyrighted."

Offers Free Publicity

He again reassured Dean Teeters of the undoubted success of their venture by stating that he had sent "2 families home that afternoon, happily reunited." He closed by remarking that if Dean Teeters would like a little publicity in a few of the metropolitan papers, he could fix it as he was well acquainted with a newspaper man.

A telegram and a 'phone call followed each other to the college pharmacy, and in spite of Dean Teeters' protestations, the informant said that he intended to be there the next day. True to his word, he arrived on time. It was then that he made his promise of a million dollars in profit.

Reads Heart in Eyes

Dramatically he told that he had learned about men's hearts. He explained that his father was head of a state prison and under his father's tutelage, he had spent a number of years in the penitentiary, studying the heart. He had been called to Chicago, Washington and New York for important conferences. With intense pathos, he acted out the way he had helped one woman. He told of receiving "$1,000 for telling a resident of New York to get on a boat and leave the country."

"The secret of a man's heart is in his eye," he shouted, "He can't hide it from me."

The lecturer wound up by repeating his offer, saying that by combining his marvelous insight into human nature with Dean Teeters' pharmaceutical knowledge, they couldn't help making a fortune.

At lastest reports Dean Teeters is still the active head of the college of pharmacy.

The Understanding Heart

By PETER B. KYNE

THE ACTION SO FAR

Garland, a young ranger, is transferred to the San Dimas National Forest Reserve. Chief Ranger Casey welcomes him and tell him to beware of the charms of Monica Dale, who acts as lookout on Bogus Peak. Garland is notified by telephone the next morning that Robert Lee Mason, an escaped convict, is being hunted with bloodhounds. Monica is a friend of Mason's so Casey does not phone her. Mason appears at Monica's gate in a state of collapse. She hides him and feeds him, and riding out shoots the two bloodhounds who are trailing him. She pretends to the sheriff she killed the dogs because she thought they were chasing deer. He and his men ride up to the lookout station and Monica treats them to moonshine. After they leave the thought of having killed the dogs brings tears to her eyes. The new ranger appears and introduces himself as Anthony Garland. He talks to her freely, not knowing Mason is inside.

NOW GO ON WITH THE STORY

Chapter 6

Garland quoted softly, with fine declamatory effect:

"Who hath desired the sea?—the immense and contemptuous surges
The shudder, the stumble, the swerve ere the star-stabbing bowsprit emerges.
The orderly cloud of the Trades and the ridged, roaring sapphire thereunder—
Unheralded cliff-haunting flaws and the head-sail's low, volleying thunder?
His Sea in no wonder the same—his Sea and the same through each wonder.
His Sea that his being fulfills?
So and no otherwise—so and no otherwise hillmen desire their Hills."

"Who wrote that?" Monica demanded crisply. Her slumbrous brown eyes appraised him with alert yet lazy interest.

"Rudyard Kipling."

"Silly of me. I should have known it. Well, hillmen may desire their hills, but somebody else can have the space I occupy on Bogus Lookout. And somebody shall have it, the minute I can escape."

"'Who goes to the hills goes to his mother,' " the ranger quoted. "What's wrong with Bogus Lookout? The view is unparalleled, your cabin is neat and stanch, you have an abundance of good spring water, there's a nice little meadow down yonder for your horse and cow, wood is handy, abundant and without cost to you. With a radio or a good phonograph to entertain me and with good books, I could live a long and happy life on Bogus.'

"I have all those things, Mr. Garland. Nevertheless when a girl twenty-one years old catches herself talking to herself a dozen times a day, isn't it high time to leave Bogus? I'm the loneliest girl in the world," she added, with sudden passionate vehemence.

He had sufficient tact to make no reply to this. A less delicate nature would have inspired him to remind her gaily that hereafter he would endeavor to alleviate her lonliness. She had left herself open to just such a banal masculine remark, and she had realized it the moment the words left her tongue; wherefore his silence not only relieved her of the necessity for defensive tactics, but afforded her a vague comfort. He nodded sagely. He understood. Monica liked him for that.

"What was that you recited about the surges?" she demanded.

" 'The immense and contemptuous surges,' " he replied soberly.

"I wonder if life is like that—immense and contemptuous?" she murmured, more to herself than to him.

"Indeed it is," he told her sagely. "Most worldlings would welcome the peace and security of Bogus Lookout."

"Peace and security are always to be desired," Monica admitted, "but I've had so much of both I'm not appreciative. My soul beats against these everlasting hills like a wild bird in a cage. You see," she added parenthetically, "I've never been out of the hills. The world is a great mystery to me, and I long to explore it."

"But surely you have been away to school?" The ranger's face was incredulous.

"Graduate of the little old red school-house over at Siskiyou Center."

"But your grammar—your choice of words—your freedom from the slovenly mountain accent——"

"One learns grammar and how to coose words even in Siskiyou Center," Monica reminded him quite seriously. "We had the same teacher for ten years, and she was very efficient—a university graduate. There used to be a rumor that she had been disappointed in love and moved up into this country to hide herself; but my own opinion is that she was prim and unimaginative and thrifty and didn't care where she lived and labored, provided she could save a competence for her spinsterhood. I suppose there are such curious human beings as feminine hillibillies."

"Undoubtedly," he replied, and with sly deviltry.

"I mean by instinct, not by force of circumstances." Monica flared back at him. "I'm a female hillibilly but I haven't the soul of one, and I'm in rebellion against my state."

"I think you must have a very superior mother, Miss Dale."

"I don't remember her. My father was a placer miner. He could not have been any other kind of a miner because he was uneducated and knew nothing of geology or mineralogy."

"Well, then, you've been a reader of good books."

"I have, and some of them haven't been such easy reading, either, although I stuck it out and finished them all. I buy ten dollars' worth of second-hand books every month from a bookstore in Sacremento. The proprietor selects for me the books he thinks I ought to have. He sends them to me by parcel-post. I told him I wanted to know something, to educate myself, and I put the task up to him by mail. Saw his advertisement in the Sacramento Bee."

"You're an extraordinary girl——quite extraordinary."

" 'Needs must when the devil drives,' " she quoted. "If I didn't read, my heart would break with the lonliness. And yet I resent that fog because it interferes with my appointed task, which is to sweep the San Dimas with my telescope for twenty miles north, west and south, and report any forest fires I may discover."

"I suppose your father works his placer."

"Not any more. He died two years ago."

"And you live all alone on Bogus? And I, five miles distant, your nearest neighbor?"

She nodded somberly. "That's why I want to go down into the world and be immense and contemptuous, too," she explained.

He apraised her—more minutely than he had at first, and with mounting interest. She was about five feet, five inches tall and weighed perhaps a hundred and thirty pounds—all curves, at any rate, and no angles. She had an erect carriage; her shoulders were wide and her bosom full; her waist flat and graceful, gently curving hips leading to slim ankles and a beautiful foot shod with Indian moccasins combined to give her a figure almost Junoesque when she stood erect.

Her hands were, like her feet, small and delicate, and they were tanned very brown; her face, too, was tanned, the flesh of her bare brown forearms firm and healthy-looking, and the skin on her full, rather powerful neck, which seemed almost a pedestal for her head, was of that rich, fine, creamy texture inseparable from women with very auburn hair and brown eyes.

The ranger decided that she was not a beautiful girl in the sense that most people define beauty. Her head was alost too large for a girl, but then (Garland decided) highly intelligent women require large heads to hold their brains, otherwise they wouldn't be intelligent.

Her hair, parted plainly in the middle and tied in a psyche knot at the nape of her adorable neck, would, of course, always be the envy of other women. Very dark auburn it was, with golden lights in it. Her brow was medium high but wide, and her large, alert, sparkling eyes were set far apart.

Her eyebrows were very thick and golden brown. Later in life she would probably have them plucked to a thin line and spoil their natural beauty. Garland reflected.

The dark brown eyeslashes were long and curving and very thick, too; her nose was thin and almost high, the nose of a thinker and a thoroughbred; her mouth a trifle large, but saved from a charge of spoiling that patrician countenance by the occassional flash of strong, even, well-kept white teeth and the curve of lips that, even in repose, gave to Monica's face an expression of ineffable sweetness that always transcends mere physical beauty. Lip-stick, rouge and powder-puff had never violated the rich, creamy cheeks with their faint healthy glow.

A consciousness of being in the presence of an unusual woman enveloped Anthony Garland. He was not a comman man nor a dull man, and Monica's obvious intelligence, her quiet dignity, her poise, so palpably natural, the impelling force of a unique personality stimulated his interest in her mightily. She titillated his alert sensitiveness to the undemonstratively beautiful.

Alluring yet childishly passionless, she impressed him as one distinctly virginal; he admired her courage and self-reliance in dewelling alone on Bogus; he thrilled to her wistful yearning to improve her mind and her economic condition.

But principally she aroused in him that quality which is man's most priceless heritage, if women only knew it—an infinite capacity for pity and an eagerness for the display of chivalry—both characteristic of men in whom other masculine qualities may be all too unlovely.

Of course she must be the lonliest girl in the world. Only twenty-one! She would never be lovlier than she was now, in her maidenly naturalness and simplicity, and arrayed in that cheap blue chambray wash dress. A verse from Gray's Elegy came to his mind:

Full many a gem of purest ray serene,
The dark, unfathoned caves of ocean bear.
Full many a flower is born to blush unseen.
And waste its sweetness on the desert air.

His long, inquiring and wholly impersonal appraisal of her became just a little embarrassing, and to distract his attention she essayed an apology for entertaining him in her front yard. 'Not that my cabin isn't clean and orderly," she was assuring him with that blunt directness he found so charming, "but——"

Pups Have Strange Maw

KINGSTON, N. C.—On the farm of Mrs. A. T. Edwards, near here, a white Wyandotte hen is mothering seven rat terrier pups and making a good job of it. "The mother dog, a gentle beast, made them a home close by the hen's nest," says the owner.

Iowa-Illinois Take Floor Tonight

Both Stand High in Big Ten; Title Hopes May Fade

Illini Defeated Hawks at Urbana; Iowa Doped to Win

Eyes of all followers of Big Ten basket ball will be focused on Iowa City tonight when the fast Illinois quintet clashes with the Old Gold basketeers in the field house. This will be the only Western conference game tonight in which both teams have a standing above .500 in the conference race.

The result will practically decide the fate of either Iowa or Illinois in the end-of-the-season standing.

Headed by Captain Daugherity, runnerup in individual scoring among Big Ten cagemen, the Illini hope to repeat their victory of Jan. 21 without the necessity of an overtime period. At the game played at Urbana, the Hawks were defeated 40-33.

Olson, Sophomore, Eligible

Beside a group of conference stars on the starting string Coach Ruby of the Illini has much good material in reserve. Olson, eligible since the new semester, jumped above thirty of the lower strata of point-getters in his first contest. Although used as a reserve against Minnesota, the sophomore flash placed six field goals through the hoop. Captain Daugherity, Stewart, Dorn, Olson, Howe, and Bunn are some of the forwards that Coach Ruby can use against the Iowans tonight. Olson also plays center.

Reports from the Illinois camp say that Coach Ruby is stressing his offense in the daily drills, although the defeat of Ohio State by the Hawks a week ago made him seriously consider the point-getting ability of the Iowans and give his squad a share of defensive practice.

Barry Foresees Fight

The Iowan victory last Saturday raised the hopes of the Hawk fans, who saw a possibility of the Barrymen repeating their championship feat of last year, after a similarly erratic early season showing.

Coach Barry, however, is the least optimistic along this line. He realizes the Hawks will have a hard fight in tonight's tilt, regardless of the somewhat mythical home-floor advantage. He has been varying his offensive plays somewhat in preparation for the Illini, and a few more difficult optians are being tried. He hopes to get his defense even tighter than that used against Ohio State.

The Hawk mentor expects to rely chiefly on his first string, although the work of Lawson, guard, and Harrison, forward, of the reserves has shown considerable improvement. Phillips, reserve forward, may also get a chance to show his wares tonight.

Dope Favors Hawks

Outside advance dope gives the Hawks a slight advantage over the visitors. The computations of Myron T. Bone, in the Big Ten Weekly, list the strength of the two teams as follows:

Illinois

Illinois offensive average	30.33
Iowa defensive average	28.80
Total	59.13
Less visitor's handicap	4.00
Net total	55.13
Average	27.56

Iowa

Iowa offensive average	30.40
Illinois defensive average	25.00
Home floor advantage	4.00
Total	59.40
Average	29.70

This gives the Hawks the edge, 30-28. However, the home floor advantage has been shown to be almost entirely mythical by this season's contests. The Illini now stand one position nearer to the lead of the conference race than do the Barrymen.

Probable Lineups

IOWA		ILLINOIS
Twogood	rf	Daugherity (c)
Van Deusen	lf	Dorn
Wilcox	c	Lindsay
Hogan (c)	lg	McKay
McConnell	rg	Reynolds

Officials: Referee, J. J. Schommer (Chicago); umpire, F. H. Young (Illinois Wesleyan).

St. Ambrose Beats Out Iowa Wesleyan as Defense Weakens

MOUNT PLEASANT, Feb. 11 (AP)—Iowa Wesleyan's defense cracked momentarily in the last part of the first half here tonight and St. Ambrose won the game 41 to 32. The visitors scored 14 points while Wesleyan was unable to tally in that part of the first half. Sandberg and O'Connor, captains of Wesleyan and St. Ambrose respectively, were tied for high point honors with 14.

Grinnell Conference Ends

GRINNELL, Feb. 11 (AP) — The five day session of the annual fellowship conference of Congregational ministers closed today with the last Gates memorial lecture by Bishop Francis J. McConnell of the Methodist Episcopal church, Pittsburgh.

Baby Dies at Hospital

Thomas Bernard Plotz, eight-months-old son of Mr. and Mrs. Rudolph Plotz of Norway, Iowa, died at a local hospital Thursday afternoon. Burial will be made at Norway Sunday.

Hold Tryouts for Gym Team Today

Judge Candidates by Point System; Meet Illinois Feb. 19

Tryouts for the Iowa gym team will be held this afternoon at 3 o'clock, it was announced last night by Coach A. Baumgartner.

Men competing for places on the team, which is to meet Illinois Saturday, Feb. 19, at Urbana, will be judged according to the point system used in all conference meets. This system requires that three judges examine each exercise, and grade the contestant out of a possible thirty points; ten each for difficulty, form, and combination. Ninety points mark a perfect exercise.

System Used Last Year

The method of pre-contest tryouts was instituted here last year for the first time, and is used because it gives the new men an opportunity to test themselves under direct observation, and also because it affords the coaches a better means of picking a team.

The team is under the difficulty of appearing in its first meet with several totally inexperienced men. Captain Noe, M2 of Amana, still has three of his last years teammates on his roster, and it is conceded that they have shown considerable improvement.

Veterans Show Improvement

It is believed that the horizontal bar, parallel bars, and indian clubs will annex the majority of points falling to the Iowa gymnasts. John Fuller, M2 of Keokuk, who placed third in the conference last year with his club swinging, is making a strong bid for the first honors, and K. Peterson, A3 of Dolliver, a member of last year's team, is making a splendid showing on the precarious high bar.

Illinois' strength is not known, but they have practically the same team which Iowa defeated last year.

Willie Hoppe Leads Cochrane 583 to 558 for Balk Line Title

BOSTON, Feb. 11 (AP)—Willie Hoppe forged ahead of Welker Cochran tonight in the seventh inning of the second bloc of their 1500 point match for the world's 18.2 balk line billiard championship now held by Hoppe.

Starting the night's play 166 points behind Cochran as a result of the first night's play, the champion cut down the handicap to 129 in the first six innings and in the seventh set out on the highest run of the match, 154.

It brought the totals to: Hoppe 583; Cochran 558.

Kelleher, Glasgow Lead Teammates in 38 to 19 Victory

Carroll, Former Hyde Park Player, Stars for Visitors

A continued basket barrage gave the St. Patrick's cagers a 38 to 19 victory over Illinois Military academy of Aledo, Ill., at the south side gym last night. The Irish showed a complete reversal of form from their last two exhibitions and the consistent basket shooting of KeHeher and Glasgow left the Cadets far in the wake early in the game.

Kelleher was in his old time dribbling form and waded through the soldier lads for many shots from the foul line. Glasgow was always under the basket to take it from the back board, besides finding the hoop from all angles of the floor on long tries.

Carroll Visitors' Ace

Carroll, former Hyde Park, Chicago, prep player, was easily the ace of the visitors. Playing his first game with the Cadets, he led them in an uphill battle with six baskets and a free throw. His baskets all came as the result of shots from the middle of the floor, which was as far as the Aledo team was able to advance the ball. The Green and White defense kept its goal out of danger during the entire game and only Carroll's spectacular work left the Illinois boys in the running.

Glasgow Shines

The Irish captain, Glasgow, led his mates in the scoring with seven baskets and five free throws. Kelleher was not far behind with five counters from the field and as many more from the foul line. His good work on the floor enabled Glasgow to get free and this was the combination that went through the Cadet defense for close shots.

The game was slow during the first half with numerous fouls being called on each side. It ended 21-12 in favor of the Irish and they continued to gain during the second half, when the play speeded up. The Illinois team resorted to long range tactics during the final frames, but they were not able to keep ahead of the Green and White combination.

Ames Grapplers Blank Nebraska

LINCOLN, Feb. 11 (AP)—Iowa State wrestlers blanked Nebraska in a dual wrestling meet here today, winning a decision in all seven matches. The final score was 21 to 0, favoring Coach Otopalik's grapplers.

Hall, Billiard Artist, Defeats Kieckhefer, 50-46

CHICAGO, Feb. 11 (AP) — Allen Hall, young St. Louis billiard star, tonight gave Augie Kieckhefer of Chicago, former three cushion champion, his first defeat in the national three cushion tournament for the title, 50 to 46 in 62 innings.

Campus Cowboys — By Dow Walling

Locals Drop Game 29 to 18; Unable to Show Usual Form

U. Hi Forwards Fail to Make Close-in Shots Count

MOUNT VERNON, Feb. 11 (Special)—The Mount Vernon high school basket ball quintet defeated the University high team of Iowa City here tonight, 29 to 18.

The game was very ragged and loosely played on the part of both teams. Mount Vernon led their opponents 19 to 14 at the half. Iowa City was unable to break through the defense of the Mount Vernon team and missed numerous close-in shots.

The Lineup

MT. VERNON		IOWA CITY
Frick	RF	Jones
Garner	LF	Dennis
R. Dee	C	Blackmere
Fordyce	RG	Rose
Caster	LG	Jognson

The Panama Canal Zone soon will have a distinctive series of postage stamps. Heretofore United States stamps and post cards surcharged with the words "Canal Zone" have been used.

Grinnell Invades Little Hawk Nest for Return Game

Locals in Trim for Battle; Expect to Repeat Early Season's Performance

Iowa City high eased off last night with a short scrimmage and signal practice in preparation for their game with Grinnell, here, today at 4 o'clock. Coach Souchek feels that his basketeers are in good shape and should repeat their victory of two weeks ago when they trounced Grinnell 28 to 17.

Idema, Red and White forward, seems to have hit his old stride again and is once more locating the hoop with considerable frequency. McGuire has also been showing up nicely the past week in scrimmages.

With the loss of Rinehardt, the Malteasers have a chance to win over the locals, although Norris is filling the gap in the Little Hawk's lineup in first class shape. University high lost to the Red and White while Rinehardt was on the squad but turned the tables after his ineligibility.

Grinnell copped both games last year by the scores of 19-16 at Grinnell and 19-18 at Iowa City. The locals are determined to be fair and keep both victories at home this season.

Coach Souchek's team has won twelve games of the eighteen played since 1916 and have amassed a total of 402 points to Grinnell's 323.

The probable lineup for this afternoon's game will be Sheley and Norris, guards; McGuire, center; and Ketelson and Idema, forwards.

State Teachers Lose to Parsons

CEDAR FALLS, Feb. 11 (AP)—Parsons college defeated State Teachers here tonight 26 to 17 on the basket ball court. The Tutors were behind all the way. Hughes was high scorer for the losers, accounting for 11 of his team's points. Miller made eight for the Wild Cats. The score at the half was 14 to 6. Seventeen fouls were called by referee Burt Ingwersen.

BOWLING

The Athens press bowling team continued their winning streak of the last few weeks, by defeating the Iowan advertising quintet, two out of three games last night. In the other games in the Mohawk league, Student Publications, Inc., swamped DeMolays in all three games, and the Barber's defeated the Bankers two out of three games in the closest match of the evening.

Larsen of the Barbers was high man for individual game total with 485, with Hageboeck of the Iowan closely pressing with 480. The Barbers also had high team score for the three games with a total of 2158 pins.

There are no league games scheduled for tonight but the following teams will roll Monday night, Daily Iowan vs. K. C.; Ford Motor vs. Densmores, and Slavatas vs. Bremers.

The evening's scores:

Suspend Graham, Rosenberg a Year for Bad Contract

New York Commission Also Gives Managers and Matchmaker Term on Shelf

[By The Associated Press]

NEW YORK, Feb. 11.—Meting out suspensions of one year each to Charley (Phil) Rosenberg, former bantam weight champion, and Bushey Graham, Utica, N. Y., the New York state athletic commission today struck a telling blow against secret boxing agreements in violation of its rules.

After flooring the two fighters, the board landed on their managers and Jess McMahon, Madison Square Garden match maker, who signed the boxers for a championship bout last week. An indefinite suspension was given McMahon, while licenses of Harry Segal, pilot of Rosenberg, and William J. Parr, manager of Graham, were revoked.

This action climaxed a hearing in which terms of the private agreement between the managers were disclosed. They stipulated that Rosenberg was to receive a sum equivalent to 45 per cent of the gate receipts, instead of the 37 1-2 per cent fixed by the commission, provided that Graham should fail to lift the title. In the event that Graham won the championship the secret pact called for Rosenberg to receive the entire purse of the fighters, 50 per cent of the gate receipts.

Rosenberg failed to reduce to 118 pounds and the commission declared his title forfeited. Parr held that Rosenberg's failure to make the class limit nullified their private contract.

David Lloyd George is a hole-in one golfer, having accomplished the feat on the golf course at Nice.

Grinnell Dedicates New Swimming Pool

GRINNELL, Feb. 11 (AP)—Grinnell college's recently completed swimming pool was dedicated to Father Neptune today in a pageant in which seventy Grinnell and Iowa State college swimmers participated, under the direction of C. E. Daubert, Iowa State college, and T. B. Turner, Grinnell.

Council Committee Asks Lower Water Rates

Will Ask for Four Per Cent Discount

To Meet With Company's Manager in Order to Reach Definite Conclusion; Hart Suggests Cut in Rates

A four per cent discount on all water accounts which are paid by the twelfth of each month will be recommended by the water committee of the city council as a means of reducing the present water rates in Iowa City.

The committee, consisting of Aldermen Ruth Gallaher, Bill Hayek, and G. A. Kenderdine, met in the city hall last night to examine the annual report of the water company. After a thorough studying of the report the committee moved to meet again the first of next week with George J. Keller, secretary and general manager of the Iowa City Water company, in order to reach some conclusion as to the reduction of rates.

The Present Rate per 100 Feet

The present rate per 100 cubic feet is twenty-nine cents for the first 300 cubic feet. The average number of cubic feet for each consumer each month is 250, according to Mr. Kenderdine. This ,plus the service charge, is an average monthly water bill of approximately $1.50 per consumer. This rate carries the provision of a two per cent discount if the bill is paid by the twelfth of the month.

City Attorney W. R. Hart, acting as legal advisor of the committee, suggested that they cut the rate from twenty-nine cents for the first 300 cubic feet to twenty-eight cents. Though this would appear a paltry reduction, Mr. Hart explained that it would help the little consumer, reducing his bill by about fifteen cents a month. Mr. Hart said that to be worth anything to the people of Iowa City it would be necessary to cut this portion of the bills rather than the upper portion.

Figures Show Surplus

According to Alderman Kenderdine the Water company's figures show a clear surplus of more than $5,000.00 which it is desirous of keeping toward its improvement of the plant. Mr. Kenderdine cited the water condition in Marshalltown where the water supply is municipally owned. He said that their rate is twenty-seven cents per 100 cubic feet per quarter. Mr. Kenderdine, who has been in favor of municipal ownership of the water supply, was foremost in advocating a reduction worth while to the people of Iowa City.

Company to Raise Rates

The Water company has shown a willingness to do away with the service charge, which is now seventy-five cents per month, but states that it will be necessary to raise the rate in so doing. If this should be done the company has suggested a minimum charge of $1.00 a month. The committee at last night's meeting did not favor this idea for the reason that they did not believe it would have much advantage over the present situation.

The report of the Water company for the year ending Dec. 31, 1926, as read by the committee last night is as follows: gross earnings, $126,398.38; operating expenses and taxes, $63,014.95; net income before depreciation, $63,383.43; provision for depreciation, $15,669.74.

Report of Company

Net earnings after depreciation, $47,713.69; deductions from gross income for interest on funded debt, amortization of debt, discount and expense, and miscellaneous interest deductions, $30,340.86; net income before federal tax, $17,372.83. The total assets of the company as reported amount to $957,353.65. The credits of the company are $195,736.12, debits, $18,286.03, and surplus as per balance sheet $177,450.09.

Wallen Denies All Charges of Cruelty

Plaintiff's Husband First Witness for Defense

Attorneys for Mrs. Iva Wallen, in the Wallen divorce suit being heard before Judge R. G. Popham of the district court, rested their case yesterday afternoon. The defense immediately placed their first witness, Allen Wallen, defendant, on the stand.

The testimony for the plaintiff, begun Thursday and continued yesterday forenoon, involved charges of cruelty and non-support. Mrs. Wallen occupied the stand in her own behalf again yesterday afternoon, after testifying throughout the day Thursday.

Mr. Wallen, in his testimony yesterday, denied the charges of cruelty made by Mrs. Wallen. He will continue his testimony today.

The divorce is being sought by Mrs. Wallen who asks $25 per week alimony and the custody of their two small sons, age 6 and 3. Mr. Wallen has filed a counter-divorce petition and is also seeking custody of the children.

Send Helm Body to Waterloo

Mrs. Jane Helm, 60, of Waterloo, died at a local hospital Thursday afternoon. The body was sent from the McGovern funeral home last night for burial in Waterloo.

Auto Owners Have Three Days to Get Licenses

Three days of grace remain to automobile owners who have not as yet obtained their license numbers for 1927. H. A. Stearns, state inspector, has arrived in Iowa City and announces that he will start a drive on delinquent drivers next Tuesday, Feb. 15.

Under section 5085 of the state motor vehicle law a driver is subject to arrest and prosecution for a misdemeanor if he operates a motor vehicle minus the necessary plates. Inspector Stearns has just completed campaigns at Clinton and Dubuque.

In addition to looking after delinquent licenses the inspector will be at the court house next week to grant licenses for chauffeurs.

Opstad Discusses Expenditures for Public Schools

I. A. Opstad, superintendent of city schools, spoke to the Parent Teacher's association at Lincoln school yesterday afternoon on the subject of how the public schools spend the money apportioned them. He said that about sixty-four per cent of the income is spent on salaries of instructors, supervisors, and principals. The cost of the school system for the past year was given as about $203,000.

It was decided at the meeting that the men will take charge of the next community picnic supper which is to be held some time this month.

Merchants Approve New Lighting System

College Street Merchants Voice Merits of Well-Illuminated Business District; All Cite Substantial Gains in Profits

By GRACE CURTIS

Signers of the property owner's petitions for better lights in the business district are making a sound financial investment, in the opinion of merchants in the 100 block on College street who devised a scheme for better lighting and carried it out nearly a year ago, and who are unanimous in their assertion that better lighting pays. The increased efficiency of the lighting system has brought a great many people to the block who were not there before and has resulted in almost every case in a substantial increase of business, they say. The cost of the increase, about $1,000 during the year, has been aportioned among them.

Henry Louis, who owns the Louis drug store, says that he believes there are five people on the block, since the added string of lights were put up, to one before. "It has undoubtedly paid," he said.

"Lights Draw People"

William W. Morrison, proprietor of the Morrison's Pharmacy says, "Where there are more people, you'll do more business and lights draw people just as they draw bugs."

Every merchant interviewed yesterday feels that the proposed plan for lighting the city would pay. William E. Smith says that he would "be in favor of any reasonable system of better lighting. It has certainly paid." C. A. Bowman thinks that the city can ill afford to be without better lights. Such a system as the one proposed by the Chamber of Commerce committee will, in his estimation, bring larger crowds down town as well as increase the prestige of the city in neighboring districts. He believes that the 100 per cent cooperation of the College street merchants in getting better lights has increased their business twenty per cent.

Everyone Satisfied

When Thomas McLachlan, grocer, was asked if the added lights have paid, he replied, "Of course, they have paid. If they hadn't we'd have turned them out." Then he added smiling, "I'm sure that nobody wants to go back to the dark."

John W. Sueppel, manager of Sueppel's clothing company, says that the lights have paid. J. C. Penney answered, "Yes, we've had a nice increase of business since the lights were put up. They attract people. The city should be lit up."

Ralph H. White says that every month with the more efficient lights has shown an increase in business. He believes that everyone of the merchants on the block have had the same experience.

All of these men expressed approval for the plan which the Chamber of Commerce is promoting. L. C. Krueger, who owns the Krueger shoe store attributes a weekly increase in his own business to the better lighting system, at least in part and is highly in favor of the proposed plan. He thinks that there is no doubt that the system will be installed. "I believe that ninety-nine per cent of the merchants in the city are in favor of it," he said.

Fifty Percent Must Petition

The system which is under consideration was presented at a meeting of tax payers last Wednesday evening. It will require the signatures of fifty per cent of the owners to a petition before the city council can vote it in. The new lights would be paid for by a special assessment to be levied on the abutting property. The petitioning of fifty per cent make this assessment possible.

The maintenance of the lights is to be paid by the tenants in the buildings who will be asked to sign contracts with the Iowa Light and Power company.

The plan entails no added expense to the city. A dozen owners have already signed the petition.
