Statesmen Praise Anti-War Pact

World Powers Sign Treaty to End War

Ancient Pomp and Ritual Attend Ceremony at Paris; Program Requires Less Than an Hour; Briand Speaks

PARIS, Aug. 27 (AP)—The Briand-Kellogg pact, by which 15 nations renounce war as an instrument of national policy, was signed here today. Less than ten minutes was required for the affixing of signatures to the instrument which, its sponsors agree, has an immense perspective of world peace. Ancient ritual and intense methods of modern publicity were mingled in the ceremony. Ushers clad in blue and gold trimmed coats, red velvet breeches and white silk stockings, directed the plenipotentiaries to their places and conducted the guests to their seats. A superbly uniformed Swiss guard with a halberd, an inheritance of the court procedure of centuries ago, led the solemn procession of statesmen from the reception room of Aristide Briand, foreign minister of France, to the clock room, where the signing took place. While this colorful proceeding was taking place, forty cameras were clicking, color pictures machines were working and microphones gathered the faintest sounds of the spectacular program and broadcast them throughout Europe to other continents. Start at Three P.M. The plenipotentiaries took their seats at the horseshoe table just as the beautiful clock, which gives its name to the apartment, struck the hour of three. Before this moment came, distinguished persons from many nations were gathering. The scene was very like an afternoon reception, with salutations, introductions and gossip. Premier Poincare had an informal levee, when he entered, all who were seated arose. He particularly took note of Ambassador Von Hoeseck of Germany. He also spoke with each of the few ladies present, talking several minutes with Mrs. Kellogg, wife of the United States secretary of state. Proceeding Bi-Lingual The program proceeded promptly at its fixed hour and was ended in 14 minutes. Briand alone spoke, ordinarily he prefers to make an extemporaneous discourse, but this time he read his speech. An official English translation was also read by an interpreter. The entire proceedings were bi-lingual. Not only the set address of the foreign minister being translated into English but also each phrase that he uttered in reading the treaty and inviting the delegates to sign. As the reading of the pact ended, Beco de Fouquieres, master of ceremonies for the foreign office, and his adjutant, De Cartier, stepped forward and spread the official text bound in green letters, upon a small table placed within the curve of the horseshoe. A red ribbon ran through the wax seals of the signatories which had been affixed to the document in advance. This was carefully straightened by the master of ceremonies. Germany Signs First As Gustav Stresemann, foreign minister of Germany, came forward to affix the first signature to the document, he was handed a huge gold pen presented to Secretary Kellogg by the city of Havre. One by one the various signatories went to the small table, each being given the same writing instrument. Dr. Edward Deneke, foreign minister for Czechoslovakia, was the last to sign. As he finished writing his name, M. Briand arose as a signal that the great international event was over. The Swiss guard headed the retiring procession but he led the signatories into the garden where M. Briand served tea. The statesmen were grateful for the breath of fresh air as the artificial lights used by the movie cameraman, had become tropical. Kellogg Receives Inquiries Herr Stresemann, enaciated and pale from his recent illness, seemed to feel the heat most of all. He looked especially wan under the glare of the reflectors. It is expected that at least a year will elapse before the pact will be completely ratified by those countries whose legislatures must pass on it. Meanwhile it is to be open to adherence by all other civilized nations. The potency of the treaty, it was remarked after the ceremony, was shown by the fact that the original signatures were still wet when Secretary Kellogg began receiving telegrams from countries not represented here today. These messages announced desire of their governments to join the original signatories in the renunciation of armed conflict. No Military Note No military note was presented to mark the civic peace character of the proceedings. Floating flags of all nations adorned the foreign ministry building, but not a single bayonet was in evidence. The authorities stressed the peacefulness of the day and citizens, having business in the neighborhood, passed without interruption by police or soldiers.

Scenes in Times Square Death Trap

In bowels of the earth, at Times square, so-called "crossroads of the world," 19 men, women killed 19 and maimed 160 others. Governor Smith Gives Campaign Talk at Newark

May Announce Route of Speech Tour Next Week

NEW YORK, Aug. 28 (Tuesday) (AP)—Surrounded by a cheering throng that had waited until midnight to greet him, Governor Smith delivered his first campaign speech last night on the steps of City hall at Newark, New Jersey. Forgetting all about his resolutions not to tax his voice with open air addresses, the democratic presidential nominee spoke for several minutes. Then he resumed his automobile trip back to New York from the New Jersey coast, arriving here well after midnight. The governor, who had received almost a continuous ovation as he made his way up to the seashore from Spring Lake where he spent the week-end, was given his greatest send off in Newark. Thousands of men, women and children, shouting themselves hoarse, were massed on the steps around him and in the street below. SPRING LAKE, N. J., Aug. 27 (AP)—Assured by political lieutenant that all's well in New Jersey from the standpoint of his presidential candidacy, Governor Smith turned back today to New York, concerned chiefly over the arrangement of his speech making itinerary. By next week, the democratic nominee believes it will be possible for him to announce where he will strike first and give some inkling as to the states he will invade before election day. Bans Outdoor Speeches One thing is certain—the governor will abstain from open air speeches to conserve his voice. He has expressed that determination and that means that he will make no outdoor rallies and will make no campaign speeches from the rear end of his train, once he sets out on his travels. The nominee also is of the opinion that he should make only a limited number of speeches at strategic centers, utilizing the radio to the utmost to spread his views to the voters of the nation. He is anxious to keep in top form for the last ten days of the campaign which he considers the most important of the pre-election period. To Discuss Itinerary Tentative train schedules and itineraries are being drawn up for Governor Smith at his campaign headquarters in New York, and while he is there tomorrow he is expected to talk over with his managers the routing of his special train. There had been reports that the democratic nominee might go into Maine before the election there early next month, not to campaign, but to spend a brief vacation. The governor, however, spiked them definitely today with the announcement that he had no intention of going into that "barometer state" prior to the voting. WASHINGTON, Aug. 27.—(AP)—Digging into the mass of preliminary work necessary to the opening of headquarters here, Herbert Hoover today gave his attention to the situation confronting him in the eastern states. The republican presidential candidate, after a final visit to his old quarters in the department of commerce to introduce his successor William F. Whiting, to thirty bureau division chiefs, held the first of a series of conferences regarding conditions existing in eastern states. Daniel E. Pomeroy, vice chairman of the New Jersey state committee, and Charles D. Hilles, of New York, national committeeman for that state, lunched with the nominee and brought him the news that those states would be tough knots for the republican to untangle in the coming election. With the nominee and Dr. Hubert Work, chairman of the republican national committee, Mrs. Alvin T. Hert, vice chairman of the national committee, and Mrs. Reginald Baker, another committee member, Pomeroy and Hilles went over plans for the conduct of the campaign in the eastern states. This conference was but one of many the nominee expects to hold within the next several days with personal friends and party leaders who are familiar with the political situation in the eastern states. Having gained first hand knowledge of what he may expect in the states west of the Mississippi, he is beginning an extensive study of the east with a view to working out a comprehensive program for his personal participation in campaign activities. Coach Bresnahan Returns to Iowa City From Europe George T. Bresnahan, University of Iowa track coach, and Leslie "Red" Beers, Olympic wrestler, returned to Iowa City. They landed in New York Wednesday and proceeded directly to Iowa City. Coach Bresnahan was pleased with the work of the University of Iowa athletes. The hurdles were handicapped, he said, by a lack of hurdles to train with. Only seven hurdles had been provided. There are 11 3-foot hurdles in the regulation 400-meter hurdle race. Gordon was handicapped by a bad leg, or he would have done much better in competition, the coach said. Cichel is planning on staying at Oxford a year.

Europeans Impressed By Attitude of U. S.

French Appreciate Coolidge's Efforts to Give Briand Credit for Initiating Multilateral Treaty Plan

SUPERIOR, Wis., Aug. 27 (AP)—Replying to President Coolidge's message on occasion of the signing of the multilateral treaty for the outlawry of war, President Doumergue of France today thanked the chief executive in the name of the "civilized world" for his efforts in inducing the leading nations of the world to subscribe to the pact. In a telegram addressed to Washington and relayed to the summer white house President Doumergue said: "I very sincerely thank your excellency for your kindly sending me, and through me, the representatives of the nations assembled in Paris, a message which evinces the great importance you so rightly attach to the solemn signing of the general compact renouncing war as an instrument of national policy. The fact that the ceremony is on this day celebrated in Paris comes from a desire which you put in a peculiarly nice form, that of acknowledging the initial part taken by the French government and its minister for foreign affairs in bringing about the great project. "The French nation is thankful for and proud of the honor bestowed upon it in the reception of the foreign plenipotentiaries and cannot forget that thanks are due to the skillful and conciliatory efforts of the president and to the secretary of state of the United States for the manner in which the covenant was received by the leading nations of the world, which benefitted the trait of universality that makes its power and greatness. "I therefore feel sure that I am voicing the sentiments of the original signatories of the treaty as well as those of the still larger number who will adhere anon, when I express to your excellency and your government the thanks of the civilized world. I am, as you are, convinced that the act accomplished on this day responds to the innermost longings of all mankind. "Great Step Forward." Says President Coolidge WASHINGTON, Aug. 27 (AP)—The signing of the Kellogg treaty today in Paris was described by President Coolidge in a message to President Doumergue as a great forward step in the preservation of peaceful relations between the nations. "It gives me great pleasure and satisfaction to extend to you and through you to the representatives of the nations assembled in Paris my cordial congratulations on the successful outcome of the negotiations inaugurated by France and the United States for the treaty renouncing war as an instrument of national policy and pledging the signatories to seek only by peaceful means the settlement of differences which may arise between them," President Coolidge said. "The treaty to be signed in Paris had its inception in the proposals submitted last year by the government of France to the government of the United States. The idea of M. Briand has been made worldwide. I am confident that the simple provisions of this treaty will be accepted by all nations because I am sure there is everywhere a will for peace. It is a great forward step in the preservation of peaceful relations between the nations and therefore, will, I know, prove to be a historic document in the histories of civilization. It has been a privilege to the United States to contribute to the success of this movement. A satisfaction to have been associated with France and other peace loving nations in thus writing into international law one of the deepest aspirations of the human conscience." German Newspapers Stress Cordial Reception at Paris BERLIN, Aug. 27.—(AP)—The Berlin newspapers tonight reprinted long detailed accounts of the ceremony of signing the outlawry of war treaty, stressing the cordial reception given Foreign Minister Stresemann in Paris and speculating on the nature of his conference behind closed doors with Premier Foincare. There was little editorial comment but the Independent Deutsche Allgemeine Zeitung took occasion to praise the attitude of the United States during the treaty negotiations. "As against the cheap doubts and pin pricks of the French press," the newspaper said, "we place on record our acknowledgement of the high minded initiative of the United States. This is not an electioneering maneuver but one inspired by quarters, which honestly imbued by the ideal of international cooperation, have striven for that end and whose effort has now been converted by the Washington government into a real fact." Less solemn is the banner line of the Nachrichten which says: "Today war was outlawed for half an hour."

Predict Foolproof Planes in Future

ST. PAUL, Minn., Aug. 27.—(AP)—Foolproof planes in five years to sell at less than some automobiles do at present was predicted by William B. Stout, president of the Stout Metal Airplane company, before the American Society of Mechanical Engineers at their convention here today. "Airplanes now are as foolproof as automobiles but they have to be made more so because of the greater hazard connected with flying," Mr. Stout said. "You can't make them entirely foolproof; people have accidents with automobiles and they even fall downstairs when walking. But the element of danger will be negligible. B. Russell Shaw, St. Louis, predicted that catapults will be used to get airplanes off the ground quicker and that brakes will slow them down faster so that smaller landing fields can be used.

Police Arrest 19 Traffic Violators

Nineteen traffic violators were picked up in Iowa City over the week-end, making the two days the busiest period that the police department has had for some time. H. Dayitt of Cedar Rapids, pleaded guilty of speeding and intoxication and was fined \$5 and costs on each count before Police Judge Paul Custer yesterday. He faced the charge of driving a vehicle while intoxicated in district court and was fined \$300. The fine was suspended in lieu of Dayitt's desisting from driving for 30 days. Dewitt Brook was picked up for driving past a red light, but failed to appear and forfeited a bond of \$5. Walter Horop also forfeited a \$5 bond for speeding. Follows Firemen; Fined C. F. Mahana was fined \$5 and costs for speeding and following a fire truck. Ralph D. Armond was assessed \$1 and costs for failing to heed a stop light. Mr. A. H. Homstead was fined \$1 and costs for driving through a red light. Arthur Pickering received the same fine on the same count. Raymond Hedges paid a fine of \$1 and costs for operating a vehicle without lights one-half hour after sundown. Emerson Kelly received a fine of \$1 and costs for speeding. L. W. Seven Fail to Appear A. Y. Wyjack pleaded guilty to a charge of driving through a red light and was fined \$1 and costs. L. D. Brownlee was fined the same amount for making a U-turn. Seven persons failed to appear in police court yesterday to face traffic violations. They are David Lotzescher, for driving through a red light. E. A. Baldwin also drove through a red light, as did Ed Doves. Clemert Mulherin was summoned for parking on the left side of the street. Don Richards and Harry Plummer must appear for failing to come to a complete stop for a boulevard. Mrs. Ella Koly was up on a charging of parking a car without tail lights, and was released, as was F. W. Ostowsky, who was up for failure to stop properly.

Two-Day Search for Missing Plane Proves Fruitless

PORT TOWNSEND, Wash., Aug. 27.—(AP)—An intensive two-day search of the bays and shore lands of this region for the giant tri-motored monoplane of the British Columbia Airways company, which vanished Saturday with four passengers and two pilots aboard, late today had yielded a host of rumors and reports but not a trace of the missing ship. A report that the plane had been found at Washington Harbor, north-west of here, with seven bodies aboard, sent coast guard vessels on a wild goose chase this afternoon. The report proved untrue. Oil spots were found on the surface of Washington Harbor Saturday night and several persons insisted they heard a plane flying in circles and sputtering through the fog at about 11 a. m., Saturday followed by a crash as if a large body had struck the water.

Raskob Declares 'A' Will Get 309 Electoral Votes

ST. LOUIS, Aug. 27.—(AP)—John J. Raskob, chairman of the democratic national committee, predicted upon his arrival here late today with a group of eastern democratic leaders that Gov. Smith would receive 309 of the 531 electoral votes for president. Naming the states which he thought Smith would carry, Raskob's formal statement, prepared enroute to the national conference by Senator Joseph T. Robinson at Hot Springs, Ark., claimed also for Smith an even chance to carry other states having a total of 37 electors. Raskob who will confer with democratic leaders of eight middlewestern states before proceeding to Hot Springs Wednesday night, claimed so far Governor Smith, the "solid south," including Kentucky, Tennessee, and Oklahoma and New York, New Jersey, Rhode Island, Wisconsin, Arizona, Colorado, Maryland, Massachusetts, Minnesota, Montana, Nebraska, Missouri, New Mexico and Nevada. There seemed little doubt, Raskob said, that Connecticut, Delaware, Indiana, North Dakota, South Dakota and Wyoming should be classified for Smith. These states, however, were set apart in the statement from the list of states which he said "any prudent business man at this time would classify for Smith."

Four Iowans Die in Wind Storms

COUNCIL BLUFFS, Aug. 27 (AP)—Northwestern Iowa late today inventoried the toll left by a series of tornadoes which late today swept four counties and found the reckoning to be four dead, five injured and property loss estimated at a million dollars. The revised death list included J. T. Jervis, 50 years old, Charles Jervis, son of Jervis, Baby Smith 1 year old son of Mr. and Mrs. George Smith all of Elliott, and Kenneth Hlatt, 18 years old, Mount Elna. In heaviest urban property damage was at Elliott and Oakland, Montgomery and Pottawattamie counties, respectively, where many buildings were either damaged or razed. Crops and farm buildings in the vicinity of both places were destroyed. Corn in a wide area was flattened or stripped by hail which accompanied the tornadoes. CHILD SHOULD GET WHAT HE WANTS HIMSELF SELF RELIANCE

By MRS. AGNES LYNE A child should get for himself what he wants—it should never be put into his hands. When others do for him what he should be learning to do for himself, he is being deprived of his education just as much as if he were being kept out of school.

His stubble fingers must be allowed to fumble their way through the intricate buttons and buttonholes, sleeves and rubbers. He ought to wash his face and scrub his own grimy hands with what seem to his mother hopelessly ineffectual motions. He should put away his clothes in bureau drawers which he can reach and hang up his hat and coat on hooks placed low for his special benefit. He should put his toys where they belong when play time is over. He must be left to discover for himself that if he brings a chair and stands on it he can reach that box he couldn't get before. He should hunt for his possessions when he has lost them.

Of course the child does his work imperfectly and wastes a great deal of time. It is a temptation to relieve such awkward hands of their task. Yet immediate possession of the desired box is not half so important for the child as the development of a sense of independence and the feeling that he can shape his environment to suit his own ends. Since the child can learn only by doing, the sooner he is allowed to begin the better.

It is a fact firmly established by child psychologists that only the self-reliant child becomes a self-reliant adult, that the child who grows up, expecting to be waited on at every turn, will all his life think the world owes him a living.

Frank Horack, Jr., 13 of Iowa City and his mother, Mrs. Frank Horack, will leave today for a motor trip through Wisconsin.

Mrs. H. V. Scarborough and daughter, Irma, A2, arrived at their home at Oakdale after spending the last two months in the west. A trip was taken from San Francisco to Los Angeles by boat and some time was spent at Glendale and Hollywood. They visited relatives in Oregon and Washington.

Mrs. Bachimont and her son, Otto, of Davenport, were guests of Dr. and Mrs. C. F. Taylor at Oakdale this week.

Mr. and Mrs. Bud Connel left Oakdale today by motor for Des Moines and various points in Missouri and Kansas.

Mrs. J. Bell of Fort Dodge is the guest of Miss Luell Johnson for a few days at Oakdale.

Airmen to Use Powder Puffs

It has been discovered that the powder puff is as well adapted to the ear as to the nose and that sewn inside the flaps of an aviator's helmet it serves as excellent protection against the noise of the motor. Dorothy Peterson of Chicago demonstrates what are technically called "roar repulsers."

News Message Sent Ashore While Atlantic Cable is Being Laid

ABOARD CABLE STEAMER "DOMINIA", AUG. 27—Five hundred miles out from Bay Roberts, Nf., and more than 800 miles of cable still to lay before reaching the Azores, the Dominia today reached the deepest part of the Atlantic on the route selected for the world's fastest duplex ocean cable.

For one hundred miles of the route the sea floor is 2,500 fathoms below the keel of the ship—nearly three miles. Once this deep valley is passed, however, the chart shows a gradual rise of 2,000 fathoms, then to 1,000 fathoms, and, as the Azores are reached, a precipitous rise to the ocean mountain peak which is Fayal, the cable relay point of the Azores group.

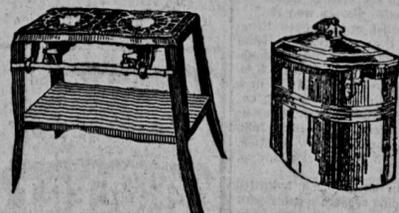

Since leaving Bay Roberts, on Aug. 23, the Dominia has been making an average speed of seven and one-half knots. Mile after mile the cable rolls overboard as the ship is kept on the exact course charted by the Dominia on her westbound trip before beginning the cable laying task.

As deep water is reached, the strain on the cable registers an increase on the dynamometer, and the brakes on the great paying-out drums are eased off to pay out cable faster. This allowance is made for changes in the contour of the sea floor, for the cable must lie safely cushioned in the soft ooze of the bottom. Should it become suspended between two submarine peaks, it would in time chafe through the insulation, and communication would be interrupted.

Engineers of the Western Union telegraph company aboard the Dominia state that the schedule fixed by the Dominia is being adhered to with almost clock-like exactness. If the present rate of speed is continued without interruption, the Dominia will land the short end of the cable at Horta on Sept. 3, and communicate.

Odd Fellows Give Picnic Tomorrow

Supper, Musical Play, Dance to Furnish Amusement

Featuring athletic contests for boys and girls, and a baseball game for the grownups, Eureka Lodge, No. 44, I. O. O. F. will hold its annual family picnic at the city park tomorrow afternoon. The celebration will start at 1:30.

A picnic supper will be served at 6 p.m. with free coffee and lemonade provided. A musical comedy "Marrying Marian" and a dance in the city park pavilion will furnish amusement after the supper.

Six committees have been chosen to take charge of the affair. The general committee consists of S. D. Whiting, Albert Husa, Jr., H. L. Ruppert, Alfred Oathout and William Neral. The ground committee is made up of John Riegler, William Burger, John Roessler, Luther Brown, Frank Nesvach, John F. Frenzen, George Sizer, Hilton Wroes, E. G. Douglas, Ed Soucek, McPherson Davis, and George Reese. Albert Husa, Jr., H. L. Ruppert, Alfred Oathout and William Neral compose the dance committee while the athletic committee is made up by Alfred Oathout and William Neral.

To Give Play The registration committee is composed of Annabelle Kanak, Mabel Fitzgarrald, Margaret Orr and Elizabeth Naylor. Henry Ruppert has been appointed to look after the baseball game.

The cast of characters for the musical comedy, "Marrying Marian," of which S. D. Whiting is director, follows: Simpson, a bogus butler, Carl S. Krizek; Prudence McWhiffle teacher, Violet Reese; Marion Stanton, student, Louis Arn; Ruth Ripley, student, Clara Shukar; Dr. Henry Bohunkus, president female seminary, Anton Soucek; Mrs. Henry Bohunkus the better half, Anna Kadlec; Charles S. Smith, bogus professor, Alan Rarick; Cicero Socrates

All messages sent from ship to shore must pass through the entire length of the cable coiled in the ship's tanks, as well as through that part already resting in the ocean, and the vessel is steaming at about eight knots while the message is being sent.

MRS. WEAVER TELLS HOW TO USE YOUR SUNDAY LEFTOVERS

By LOUISE BENNETT WEAVER Using Sunday Leftovers

Wash the butter from such cooked vegetables as carrots, beans or peas and chill them and combine with diced celery or cucumbers, seasonings and salad dressing. This mixture may be served in lettuce leaves as salad for luncheon and dinner.

Gravy may be combined with bread and used as a filling for baked meat, green peppers, tomatoes or added to chopped meat and potatoes.

Hot potatoes may be reheated in double boiler and softened with small amount of milk. They may be shaped into cakes and browned or placed on top of creamed mixtures and browned in the oven.

Fruit gelatin may be served in lettuce leaves and topped with salad dressing or it may be used as a filling between two layers of cake.

Sponge cake may be toasted and served with fresh fruit as peaches, oranges, or bananas.

Fruit cocktail may be added to fruit gelatin mixture and served as dessert for the children's lunch.

DINNER MENU Sliced Roast Beef Potato Salad Creamed Cabbage Bread Raspberry Jam Watermelon Coffee

POTATO SALAD, SERVING SIX (Made from leftover boiled potatoes.) 2 cups diced cooked potatoes. 1 cup diced cucumbers. 1/4 cup chopped sweet pickles. 2 tablespoons finely chopped onions. 1 teaspoon salt. 1/4 teaspoon paprika. 1/4 teaspoon celery salt. 2 hard cooked eggs, diced. 2/3 cup salad dressing. Mix and chill the ingredients. Serve

in a bowl, lined with lettuce leaves. Boil enough potatoes for two meals. When they are done, remove half. Store in the ice box for the next day. They may be added to creamed sauce, browned, or used in salad at a future meal.

CREAMED CABBAGE (Serving six) 6 cups shredded or chopped cabbage. 2 quarts water. 2 teaspoon salt.

Mix and boil the ingredients rapidly for 10 minutes. Drain and add to the white sauce. Cabbage should be cooked only until it is tender, never until it changes color, as then volatile oils are brought out, which render it indigestible. Cabbage contains much water, so it should not be added to cream sauces until just ready to be served.

CREAM SAUCE 3 tablespoons butter. 1/3 cup flour. 2 1/2 cups milk. 1/4 teaspoon paprika.

Melt the butter and add the flour. Blend well and add the milk and cook, stirring frequently, until a creamy sauce forms. Add the cabbage and cook for one minute. Pour into a serving dish and sprinkle with the paprika. Serve at once.

Daily Reminder—Hang out in the sun and air, furs and woolen garments. The moths are very active at this season.

Insert a silver fork for testing of jelly. When the jelly does not run out from the times, it is done. Remove the pan of jelly from the stove during the test.

# A HUSBAND AT HER HEELS

By Mildred Barbour

Celia closed the door, turned the key in the lock. . . .

## CONCERNING THE ACTION AND CHARACTERS

CELIA DREW, was being obliged, after the death of her father, to go to work. She is the secretary of BENJAMIN HARRINGTON, and is engaged to his son, TOM. The Harringtons disapprove of the match, but Celia does not know this. She has recently rejected a proposal of marriage from HORACE VAIL, one of Harrington's business associates, and incurred his ill will, as a result. THE HARRINGTONS, to be rid of Celia, concoct a plot, with Vail's help, whereby Tom finds her locked in her office at midnight. LARRYCROSS, a dissipated young chap, who is hopelessly in love with her. Without waiting for explanations, Tom rushes off. The next day Celia finds herself jobless and the object of gossip. Her sole defender is GWEN BURNS, who is rich and socially prominent. Larry, aghast at what he has done, urges Celia to marry him. She refuses and returns Tom's ring when the day passes without word from him. MRS. DREW goes to pieces at the shock of hearing that Celia's engagement is broken and that Tom has left town. VAIL again proposed to her. SHE IS UNABLE to obtain another position, and Gwen urges her to go to New York. SIE finally goes. AFTER many difficulties, she finds a post as secretary to a rich, eccentric invalid, RICHARD FALCONER, who is writing his memoirs. IN HIS HOME she meets his attorney, JAMES ANNESLEY. A PLEASANT friendship springs up between Celia and Annesley, whom Falconer looks upon as a son. His nearest kin, RICHARD FALCONER, the second, is a scoundrel, and the old man has disinherited him. FALCONER sends for Celia one evening when his death is only a matter of hours. HE MARRIED HER on his death bed and leaves her his fortune. CELIA plans a trip abroad, but is called home by her mother's illness. MISS PAGE, Mrs. Drew's companion, tells everyone of the brilliant marriage Celia has made, and the girl's stock booms socially. To make her mother, who has been brought almost to death's door by worry, happy and content, Celia conceals the fact of Falconer's death. Mrs. Drew pictures her daughter as married to a rich young man, and Celia says nothing to dispell the idea. ONE DAY Celia meets Tom Harrington on the street. SHE REALIZES that he still loves her and that she cares for him. Mrs. Drew, as she convalesces, urges Celia to have her husband down for a few days. SO INSISTENT is her demand that Celia decides to ask Annesley to visit her for a day, posing as her husband. She goes to New York to explain the situation to him and finds he is out of town. ARRIVING HOME, she is told that her "husband" is there. IN HER MOTHER'S ROOM she finds a dark, handsome young chap whom her mother addresses as Richard. HE IS RICHARD FALCONER, 2nd. Having arrived in Celia's absence, he has been hailed as her husband by Mrs. Drew, and he accepts the situation, for reasons of his own. HE TELLS CELIA that his revolutionary activities in Central America have made it advisable for him to lie low and that she must permit him to stay in her home, ostensibly as her husband. WHEN SHE REFUSES, he threatens to tell her mother everything, and she is forced to agree.

CHAPTER XXXIX.

THE GAME OF CAT AND MOUSE

Leaving Falconer in the living room, leisurely reading a magazine, Celia mounted the stairs slowly.

Miss Page called to her: "Your mother is having her broth, Mrs. Falconer, before settling down for the night. She wants to see you for a moment."

The invalid looked up eagerly when Celia entered the room.

"Darling, I'm so happy tonight to have both my children under my

## Chicago Grains Firmer

### Poor Crop Reports From Europe Stop Ripple of Selling

CHICAGO, Aug. 27 (AP)—Grains moved onto firmer ground on the Chicago market today as foreign news came into check a ripple of selling.

Indifferent buying in wheat at the start eased prices off a fraction, but the enthusiasm of sellers waned as the session progressed. A firm market at Winnipeg set prices at the day's close on the Liverpool board and adverse crop reports in Europe were factors inducing confidence in buyers and all deliveries of the session. Few showers were reported from Canadian harvest districts, but unsettled weather was predicted in two provinces and on the northern border of the states, with a possibility of local frost. Local traders paid considerable attention also to the counsel of the acting secretary of agriculture advising farmers to hold such wheat as they were able to store. Wheat closed firm at 1 1/2 to 1 3/4 Sept. 1, 1 1/2 to 1 1/4 and March 1 1/4.

Heavy buying for September delivery featured the corn market. Corn opened strong but met a wave of selling at mid session which was checked by the rapid rise of September at the end to a point 2 1/2 to 2 3/4 above Saturday's finish. Country offerings continued light, and indications of showers in the domestic corn belt were attended by unfavorable European crop forecasts although cables reported heavy arrivals of Argentine corn. Corn closed strong, 73 to 74 Sept. 1, 73 to 74 Dec. 73 to 74 and March 74 to 75.

After opening easy, oats rallied in sympathy with corn and closed 1/2 higher, with Sept. at 35.

"Provisions" were irregular, pressure from local commission houses sending lard down while ribs advanced a fraction. Lard was 7c lower to 5c higher, ribs unchanged to 5c higher and bellies unchanged.

Charles Levine (above) and Bert Acosta, who, despatches from Berlin, Germany, assert, will fly the Atlantic from Crofton, England, to Roosevelt field, L. I. Their plane, a Junkers monoplane of the Bremen type, has been christened "The Queen of the Air."

## Corn in Southwest Beyond Danger of Frost; Needs Rain

CHICAGO, Aug. 27 (AP)—Corn in Kansas and Missouri is well along and is beginning to dent in parts of Kansas, said the weekly crop report of the Santa Fe railroad today.

In parts of the southwest, the report said, rain would be beneficial, but the bulk of the crop is well along and beyond frost injury.

"Farmers are holding back their wheat owing to low prices," the railway bulletin declared. "Storage room is larger than in any other year. Fall plowing is making good progress with the ground in good condition."

## Lowden Leads List of Graduates

Many famous men have graduated at Iowa, but Frank O. Lowden, '85 of Oregon, Ill., champion of the farmer, and twice prominently mentioned for the republican nomination for president, tops the list.

Lowden was valedictorian of the class of '85, an honor which he again attained at Union college of law in Chicago in 1887. He has received the honorary L.D. degree from these eight colleges and universities: Iowa in 1918; Knox, '18; Northwestern, '19; Chicago, '21; Colorado, '22; Lafayette, '23; William and Mary, '23; and was granted D.C.L. by Syracuse university in 1924.

Lowden received his baptism in public life in 1900 when he was a delegate to the republican national convention, an office he again filled in 1904. He was on the national committee from 1904 to 1912, and served on the executive committee of campaigns of 1904 and 1908.

On Nov. 6, 1906, Lowden was elected to the fifty-ninth congress from the thirteenth Illinois district to fill the vacancy caused by the death of R. R. Hitt, and served in that capacity until 1911.

From 1917 to 1921 he served as governor of Illinois, and was Wood's leading opponent for the nomination for president in the early days of republican convention in 1920. He was the farmer's candidate at the 1928 republican convention, and has most recently come into the public eye by approving Hoover's acceptance speech.

Markets at a Glance

NEW YORK

Stocks—Irrregular; food shares scale new peaks.

Bonds—Dull; rails heavy.

Foreign exchanges—Mixed; sterling and franc at year's previous lows.

## High Call Money Checks Resumption of Rise in Bonds

NEW YORK, Aug. 27 (AP)—High call money rates checked the resumption of the upward price movement in today's stock market. Despite sharp opening breaks in a few issues, the general market swung upward at the opening under the stimulus of aggressive pool operations. More than a score issues were quickly lifted 1 to nearly 6 points to new high records, with gains of a point or two scattered throughout the list.

Call money advanced at 7 per cent but banks started to call \$40,000,000 in loans, sending the rate to 7 1/2 per cent and finally to 8 per cent, who had brought stocks for a turn in the brisk rally last week which carried the average of 20 leading industrials, compiled by the Associated Press, to a new high for all time on Saturday, were quick to take profits on the first sign of weakness.

The heavy calling of loans reflected the anti-weekly strengthening of reserves, and increasing month end requirements. Further withdrawals are expected later in the week as the banks prepare for the labor day currency demands. These are now estimated at between \$50,000,000 and \$75,000,000 above ordinary requirements. Predictions of a 10 per cent call money rate this week are being made in some bank-invested circles.

Today's reaction was widely regarded as a natural sign of a weakened speculative position. Ranged behind minus signs at the close were such recent leaders as U. S. Steel Common, General Motors, Chrysler, American Can, Montgomery Ward, Radio, National Cash Register, American Smelting, Packard, Curtiss and Wright, the anti-weekly strengthening from fractions to nearly five points.

A few shares showed consistent strength, among them Commercial Investment Trust, Davison Chemical, Electric Auto Life, Loewisesles Biscuit and Otis Elevator, all of which touched new high levels for the year.

Time money and commercial paper rates held firm.

Foreign exchange trading was quiet with price changes nominal. Sterling cables ruled around \$4.85 1/2.

## Favorites Advance in Tennis Tourney

BROOKLINE, Mass., Aug. 27 (AP)—The eight seeded pairs in the national doubles tennis championship tournament advanced to the second round here today on the courts at the Longwood Cricket club, all but one without great opposition.

The exception, Jean Borotra and Rene de Buselet of the French team, survived only after they had exhibited for almost three hours what was probably the brightest play which will be seen during the tourney.

After quickly dropping the first two sets, 4-6, 4-6, to Edward Higgs, and I. C. Collins of England, Borotra and de Buselet saved the match by taking the third set, 6-3.

The fourth set went 22 games before the French players won 12-10.

Henri Cochet and Jacques Brugnon of the French Davis Cup team and winners of the Wimbledon doubles championship, toyed with Kenneth Appel and Ted Burwell in a three set match which went 6-2, 6-2, 7-5. The other French pair, Bousous and Landry, were eliminated by John Van Ryan and Whitcomb Allison, seeded second in the American group, 4-6, 2-6, 3-6.

Van Ryan and Allison indicated that they would cooperate nobly with George M. Lott, Jr., and John Hennessey, the top seeded American pair, in the attempt to keep the championship, which is undefeated because Big Bill Tilden and Francis T. Hunter were forced to withdraw from the tournament.

Lott and Hennessey disposed of H. H. Hyde and Amos Wilder, both from Hartford, Conn., 6-3, 6-2, 6-1.

Cotton—Quiet; awaiting crop developments.

Sugar—Easy; European selling.

Coffee—Declined.

CHICAGO

Wheat—Firm; rains North Dakota.

Corn—Higher; storm damage Iowa.

Cattle—Steady to strong.

Hogs—Higher.

## VICTIM OF NEW JERSEY BABY HATER

A pitiful sight is Tony Jerma, 7, whose face is pitted with buckshot wounds from mysteriously fired gun while he was sitting on stoop of his home in Mahwah, N. J., eating cake with his sister, Nora 3. He's shown in Suffern, N. Y., hospital, with Chief of Police Raymond F. Daton, who is holding a neighbor as suspect.

## Miss Wills Wins Fifth Tennis Title

### Defeats Helen Jacobs in Championship Match

FOREST HILLS, N. Y., Aug. 27 (AP)—It was Helen Wills' day on the turf in this famous tennis battle ground this afternoon. In one of the most impressive triumphs of her remarkable career, the tennis queen from Berkeley romped away with her fifth national women's championship in singles and her fourth in doubles.

In neither final round battle was Miss Wills extended in the slightest and both matches were won in straight sets. Queen Helen took the court first in defense of her singles crown and displayed the brave challenge of her doughty fellow Californian, Helen Jacobs, of Santa Barbara, winning 6-2, 6-1. Then paired with Mrs. Hazel Hotchkins Wightman, veteran ex-champion from Boston, Miss Wills figured in another speedy victory at the expense of Miss Edith Cross, of San Francisco, and Mrs. Lawrence A. Harper of Los Angeles, 6-2, 6-2.

By her singles victory Miss Wills achieved the unprecedented feat of winning the championships of France, England and the United States in a single season and in straight sets.

If the day had another heroine besides Miss Wills it was Mrs. Wightman, who at the age of 42 carried her full share of the burden in the doubles play. It was the second national championship for the Wills-Wightman combination as they scored in 1924 when Miss Wills also made a clean sweep of both titles. Winning today they succeeded as champions the English team of Mrs. Kathleen McKane Godfree and Miss Emyr-tudor Harvey who did not come to defend their laurels.

## Iowa Varsity Tackle Weds at Albert Lea

ALBERT LEA, Minn., Aug. 27 (AP)—"Bob" Jessen, tackle on the University of Iowa football team, was married here Saturday night to Miss Stella Wangen of this city, it became known today. Jessen formerly played football at the Austin high school.

Ernest "Bob" Jessen, A4 of Albert Lea, Minn., has been a regular guard on Coach Burton A. Ingwersen's football team for the last two years. He has been noted especially for his star playing in the Minnesota games. In both contests against the Gophers, Jessen, even though playing on a losing team, has been the star line man of the game.

He will return this fall to start his third year as a member of the varsity squad. Jessen is a member of Sigma Nu social fraternity.

## Garnet C. Wins Largest Purse in State Fair Races

DES MOINES, Aug. 27 (AP)—Garnet C., chestnut gelding from the William Van Vleet stable of Trinidad, Colo., captured the largest purse on the state fair racing card here today when he paced home first in two of the three heats in the 2:13 pace. The fastest heat went in 2:11 1/4.

The race carried a purse estimated at \$1,050, and Garnet C., with Van Vleet handling the reins, won the first and third heats to clinch first money. Direct Lou, another chestnut gelding owned by W. B. Taylor of Topeka, won the second heat and took third in the final heat to capture second money.

The 2:30 trot, carrying a purse of \$920, went to Kid McKyle, a brown horse owned by E. K. Burtis of Kearney, Neb.

Cythera, the Great, here representing the Allen Brothers stables of Indianapolis, was the winner of the first heat in 2:14 3/4. The Indianapolis mare, driven by Shively, made a game bid for the second heat but it could not beat off the challenge of Kid McKyle, the latter, with Burtis handling the reins, won the heat in 2:13 1/4 and they shaved another second off its time in winning the third heat.

The three year old trot was a two way battle between Mr. Kilo, a bay stallion owned by W. B. Taylor of Topeka, Kan., and Midday, a bay gelding owned by Ben Morgan of Toledo. Mr. Kilo won the initial heat in 2:18 1/4.

Morgan kept his colt trotting all the way in the second and third heats, each of which he won. Midday stepped the second mile in 2:14 1/4, clipping four full seconds off the mark for the opening heat.

"Deceitful Pearl," the fleet runner that won the state fair derby here Saturday, won again in the feature running race yesterday. Ralph Baltimore again rode the winner, covering the mile in 1 minute, 45 seconds.

The Heart of a Bank

Where the heart fails to perform the functions for which it is designed, disorder, disease, and ultimately death results to the individual. What is true of an individual is no less true of a Bank. The vital feature of a Bank, the healthy condition of which is essential to the safety of its depositors, is the security afforded by its loans. The loans made by this Bank are what are known as "gilt edge." We do not seek to make great gains, but are solely solicitous as to the safety of our loans. The greatest safety—not the greatest profit—is the principle of our Bank.

# Yanks Take Both Ends of Double Bill From Tigers, 4-3, 5-2

## Victories Place New York Four Ahead of Macks

### Zachary Allows Only 7 Hits in First N. Y. Start

NEW YORK, Aug. 27.—(AP)—The Yankees won both games of a double header from Detroit today, Piggras outpitching Carroll to take second 5 to 2 after New York had won the first 4 to 3.

Tom Zachary, recently acquired from Washington, pitched the first game for the Yanks, giving only seven hits. The two victories put the Yankees four games in front of the idle Athletics.

## Respects Japanese Billiardists

## WELKER FEELS HE SHOULD DEVELOP MORE TALENT

WELKER COCHRAN, former world's 13-2 balkline champion, has a great deal of respect for the ability of Japanese billiard players.

Cochran, who returned recently from a trip to Japan, met some of the outstanding players over there during the course of his journey and, while he won six of the seven matches he had scheduled, he still is willing to doff his derby to the progress being made by the little fellows across the Pacific.

The American's tour was managed by Koji Yamada, a headliner in balkline here ten years ago. Everywhere he went Cochran was given a marvelous reception and was showered with invitations to banquets and social gatherings.

Over there Cochran found the youngsters are taking up the game as soon as they can lift a cue and it is not uncommon to see students of 15 and 16 playing a better game than our average players. They know the technique and history of the game and are well acquainted with the records made by players in the United States.

This situation, according to the former title holder, amounts to a threat to our supremacy unless we can arouse an interest in the game among younger players and develop youngsters who can handle a cue as well as the younger Japanese now are doing.

Cochran played his matches in large arenas and the galleries contained many women and members of the nobility who are intensely interested in the sport. He played before good houses, the smallest crowd numbering 1,400 persons.

K. Sasaka, the present champion of Japan, was the only player to win from Cochran, and the American blames his defeat, not on his poor playing, but on the superior form exhibited by his opponent. Within 115 points of the game Welker missed his last shot and Sasaka ran out with an unfinished run of 169, playing, as Cochran says, like another Jack Schaefer.

Cochran also met Kamekichi Suzuki and Tadao Kamekichi—both well known by billiard enthusiasts here—and Yamada. These three players were rated highly by Welker before his arrival in Japan and he looked for trouble from any one of the trio, but his only reverse was at the hands of Sasaka, and Sasaka, according to the American, holds the promise of being one of the greatest players in the game.

Eight years ago balkline was not being played in Japan, but it was introduced by Yamada, who also is largely responsible for creating its popularity.

The Japanese billiard fans proved to be autograph fans as well and during his early matches Cochran tried to oblige, but the crowds increased to such an extent that he feared the extra use of his hand would cause damage to his grip and stroke and as a result he had to decline further signatures for the balance of the trip.

It is interesting to note the healthy interest being shown in billiards by the Japanese, but, as Cochran says,

## Iowa City Loses to Solon Pirates in Opener 5 to 2

### Trypkosh Holds Local Ball Club to Five Hits

Giving Trypkosh, Solon hurler, a substantial lead, Solon defeated Iowa City Independents 5 to 2 in the first of a three game series to decide the championship of south-eastern Iowa.

The Pirates clambered on Lemon, Iowa City hurler, for two runs in the opening frame, and added three in the next, to put the game on ice.

Trypkosh turned in one of the best pitching performances witnessed on the local diamond this season. He allowed but five hits, all singles, struck out seven men, and did not allow a base on balls.

Solon Scores in First  
Lemon did not become effective until after the third inning. He touched for nine hits, one of them a double by Ballard and gave two bases on balls.

Ballard socked out a double in the opening inning to start the fireworks. Meyers was intentionally passed, but Randall the next man up, singled to center, scoring Ballard. Scott bounced to Lemon, who fumbled and allowed Meyers to score.

In the last half of the inning, Iowa City scored one run. Henry singled, and scored on Crawford's no-base blow. This was the only inning in which the Independents were able to get more than one hit.

Locals Score in Seventh  
Lemon put himself into a hole in the second frame by issuing a pass to Pauba. H. Trypkosh sacrificed him to second. He scored on M. Trypkosh's single. Ballard's base slow sent the latter scoring home with the second score of the inning. Meyers flied out, but Randall made his second hit, a single, bringing in Ballard.

The local crew of baseball players scored their second and last run in the seventh inning. Trypkosh dropped a fast one on Al Crawford's toe. Ballard's wild throw enabled him to score second. Koser grounded to Fiala, who threw the ball ten feet over the third baseman's head and Crawford dashed home with the second run.

Randall, Solon left fielder, collected four singles in five trips to the plate. The game was played in one hour and 34 minutes, the fastest played game this season.

Thursday the two teams met again, this time at Riverside, and on Sunday the independents meet the Cedar Rapids Athletics here.

## Jones Breaks Par on Chicago Links in Practice Round

CHICAGO, Aug. 27 (AP)—The Chicago Golf Club course, where the Walker Cup matches will be played Thursday and Friday, evidently were made to order for Bobby Jones as he shot two more remarkable rounds of 67 and 68 during practice today.

His 36-31-67, which was carded on his morning round, shattered the record of 68 which he established yesterday and was four under par. Then to prove neither of the first two record-breaking rounds were "luck" the golfing attorney from Atlanta clicked off his 68 this afternoon.

Members of the British and American Walker Cup teams also practiced over the championship course today, but none could match Bobby's genius.

Jones, who is captain of the American team, started his remarkable morning round with a birdie four on the first hole, 454 yards long. Birds dropped at the fourth and fifth, he got even par on the seventh and ninth, and went one over perfect figures on the second, third and eighth. Giving him even par 36 for his outward journey. Coming in, Bobby bagged birdies on the eleventh, sixteenth, seventeenth and eighteenth, while he got par on the others, finishing with a 31 or four under par, and he came within two inches of getting an eagle on the seventeenth. His drive was unusually long even for Bobby, and his second, a spoon shot, stopped just two inches from the pin and he had to be content with a birdie three.

## Beers Returns From Olympics

Leele B. Beers, University of Iowa member of the American Olympic wrestling team, returned yesterday bearing trophies of his trip to Holland and Switzerland and tales of the mat contests on the continent.

The 158-pound wrestler is the first of the four Hawkeye members of the Yankee force to return to Iowa City. George Baird, 1,600-meter relay runner, went to his home in Mason City; Edward Gordon, broad jumper, is in Gary, Ind., while Frank Cuhel, 400-meter hurdler, remained in England for a year's study at Oxford university.

Beers, chosen by an alternate, was injured on shipboard enroute to Holland, and lost his chance to compete in the Olympiad if he displayed better form than Lloyd Appleton, Cornell athlete just prior to the games.

The torn muscles in his shoulder were not strong when he wrestled in Switzerland after the Olympic games, and he was defeated.

Rolling falls and incompetent officiating were the bug-bears of the Americans, Beers said. American wrestlers were beaten in the final seconds of several matches, when shoulders touched the mat for an instant on a roll. Officials were inclined to be influenced by the opinion of the spectators in awarding decisions in close matches.

Beers, as a member of the American team which wrestled in Switzerland, received a watch from that country. He also has a gold watch charm indicative of his Olympic team membership, and an official certificate, both presented by the American Olympic committee. A medal from the city of New York, struck off in honor of the team's homecoming, will arrive soon, he was informed.

According to the Hawkeye star, he will probably accept a high school coaching position for 1928-29.

## Cardinals Whip Chicago Cubs, 11-3

CHICAGO, Aug. 27.—(AP)—The Cardinals strengthened their hold on first place in the National League race today by swamping the third place Cubs 11 to 3. Four St. Louis runs came after two were out in the ninth inning. Rhem pitched for the Cards while the Cubs had scored a run in the sixth then Johnson relieved him and finished the game. Blake and Root were on the mound for Chicago. Score:

## RADIO MESSAGES RENEW HOPE FOR ROCKFORD FLYERS

## He'll Brave Antarctic Peril

## MACHINE GUNS TO OPEN FIRE IN RUM WAR

Messages from the Rockford fliers, Bert Hassell (inset) and Parker Cramer, saying that they were stranded on an island 100 miles north of Newfoundland, have been picked up in Toledo, O., and Chicago by amateur radio operators. Though there is some doubt as to the authenticity of the messages, hope for the fliers' safety has been revived. At the receiver, awaiting further word from the missing airmen, are Dr. Charles E. Seeleth, Arthur Bates, and E. H. Conklin, all of Chicago.

A new and exclusive photo of Commander Richard E. Byrd, who heads two-year scientific expedition into the Antarctic regions. He is shown in the fur clothing which he will wear almost continuously for two years.

This is the day of big drama! Here, at Chicago, a U. S. coast guard speedboat going into action against imaginary rum smugglers in preparation for the real battles to come. The rum racket is reported to have been progressing most favorably of late; hence the newly installed machine guns for Lake Michigan chasers.

## Hissed by Courtroom Crowd

## Kitchen Campaigner

Edward Gill (left) and Arthur Franklyn, prohibition agents in "Hard-Boiled", Golding's squad, who have been bound over to the grand jury after being charged with shooting and blackjacking Merle Adams, salesman, during a recent Chicago raid. Police were forced to throw a guard around the agents when courtroom crowd hissed and threatened them.

Mrs. Thomas G. Winter, Minneapolis, Minn., club woman, who will direct the republican "kitchen campaign." It will be Mrs. Winter's job to line up housewives and their daughters in support of Herbert C. Hoover.

## Opens Chute After 3,400 Foot Dive

## Fair Egyptian Envoy

After plunging through space for 13 1/2 seconds Jack Cope, veteran daredevil, pulled the rip cord of his parachute and checked the terrific speed with which he had fallen 3,400 feet. He had stepped through the cabin door of his plane 10,000 feet above Ashburne field, Chicago.

Mme. Mahmoud Samy Pasha, wife of the envoy extraordinary to the United States, who herself is an ambassador of sorts. She represents her newly-franchised countrywomen before the bar of American womanhood.

## Hoover Boosts Flying

Herbert Hoover, Jr., who is associated with the Guggenheim Foundation for Aeronautics, paid a recent visit to Chicago on a survey to collect data regarding the economic phase of aviation. At republican headquarters he met with Roy West, party leader, and explained his work. He said he would return to California "in time to vote in November."

## HIS FISH DAYS ARE OVER

Buster, Winnetka, Ill., collie-shepherd dog, has promised, in his own dog-like way, never to annoy, disturb or annihilate any more goldfish not belonging to him. He was recently formally arrested for stealing and eating 23 goldfish which he discovered in a neighbor's pond, was imprisoned and held until his master, Julius F. Friedlander, gave bail for his release. Buster is reminiscing at the scene of his crime.

## President Coolidge Goes Picnicking

After a day of cruising among the Apostle islands in Lake Superior, President Coolidge and party recently landed on Devil's island and cooked a picnic dinner. The president is seen with the cook, who prepared fried fish and coffee to the satisfaction of all present.
