

CHINA REPLIES TO SOVIET DEMANDS

Wickersham Urges Change in Dry Law

Commissioner Favors States Handling Problems

NEW LONDON, Conn., July 16 (AP)—George W. Wickersham, head of President Hoover's law enforcement commission, in a letter read today by Gov. Franklin D. Roosevelt of New York at the governor's conference here wrote that if federal and state agencies would cooperate in prohibition enforcement the prohibition laws "might be modified so as to become reasonably enforceable."

Volstead Opposes Plan of Commissioner for Enforcement

ST. PAUL, Minn., July 16 (AP)—Andrew J. Volstead, author of the prohibition enforcement act, in a statement tonight criticized suggestions by George W. Wickersham, head of President Hoover's law enforcement commission, for strengthening the enforcement of the dry law.

HUTCHINSON FLOOD DAMAGE NEAR MILLION

Flood damage at Hutchinson, Kan., neared \$1,000,000 when swollen Cow Creek swept through the city in the worst flood it has known. Picture shows water waist deep in a main business street.

Observers Believe Poincare Winning Ratification Fight

Mellon-Berenger Bill Safely Stowed Away After Victories

PARIS, July 16 (AP)—Friends and foes alike were agreed tonight that Premier Poincare has ratified the Mellon-Berenger debt settlement bill safely stowed away after two victories in the chamber of deputies. Political observers believed he could push the bill through the chamber with unconditional ratification on his own terms Friday.

Nationalists Request Release of Prisoners

Tension Increases as Troops Mass on Both Sides

By The Associated Press Tension in the controversy between Russia and China over the Chinese eastern railway appears steadily increasing as reports of troop movements on both sides of the Siberian Manchurian frontier are becoming more numerous.

Ask Government to Protect Subjects in Russia

NANKING, China, July 16 (AP)—The nationalist government at midnight, just within the three days allotted by soviet Russia replied to the latter's demands in the Chinese eastern railways of Manchuria dispute.

Iowa Initiates Plan for Impartial Grid Ticket Distribution

Development of an equitable plan of ticket distribution for the University of Iowa's two home Western conference football games next fall was announced yesterday by Charles S. Gallier, business manager of athletics.

Betsy Ann Loses Historic Antlers in Packet-boat Race

CINCINNATI, O., July 16 (AP)—"Steamboat Bill, steamin' down the Mississippi," of a generation ago, "tryin' to beat the record of the Robert E. Lee," never ran a closer race than was run today as old time packet boat racing was revived on the Ohio river.

Federal Board Announces First Policy for Farms

WASHINGTON, July 16 (AP)—In its first announcement of policy, the federal farm board declared today that the approach to better prices for the farmer lies through improved organization of marketing facilities.

39 Drown When Transport Sinks

Only One Man Saved When Chilean Ship Goes Down

VALPARAISO, Chile, July 16 (AP)—Only one man of the crew of the Chilean transport Abtao survived the sinking of the vessel off this port today. Thirty-nine others drowned.

Captain Hoyt to Try Flight to Alaska, Return in 3 Days

NEW YORK, July 16 (AP)—Captain Ross G. Hoyt of the army air corps tactics group at Langley Field, Va., announced tonight he planned to take off from Mitchell field Friday, weather permitting, in an attempt to fly to Nome, Alaska, and back within three days.

Senator Bergman Announces Plan to Run for Governor

NEWTON, July 16 (AP)—The first avowed candidate for the Iowa gubernatorial election next year is State Senator A. H. Bergman of Jasper county.

King George Resting Well After Operation

LONDON, July 16 (AP)—King George tonight was again said to be progressing well after the operation he underwent yesterday for drainage of an abscess in his chest.

Argues Against Rigid Application of Law on Contempt

CLEVELAND, O., July 16 (AP)—Freedom of the press and the "American prerogative" of criticizing public officials were vigorously upheld by former Secretary of War Newton D. Baker today in denouncing contempt of court proceedings brought against two executives of the Cleveland Press.

Crash Injures Flyer

LEMARS, July 16 (AP)—Kenneth Parkinson, 20 years old, son of Mr. and Mrs. Fred Parkinson, who made his solo flight three weeks ago after only two and one-half hours of flying, received a broken leg and was bruised badly in an airplane crash here today.

Municipal Court Rebukes Federal Prohibition Agents

OMAHA, July 16 (AP)—Dismissing liquor possession charges against Harry Zimman, Omaha department store executive and former city commissioner, Municipal Judge George Holmes today rebuked federal agents Stanley Reigel and Lawrence Thompson, who made the arrest after a fistfight a week ago.

Train Kills Entire Milwaukee Family

ASHLAND, Wis., July 16 (AP)—Rushing from Milwaukee to the bedside of his father at Swift, Minn., V. O. Mattson, his wife, and their 11-month old daughter, Mary Louise, were killed here early this evening when a Northern Pacific train, en route to Duluth, Minn., plowed into their automobile.

Boys Drowns

MARATHON, July 16 (AP)—Elton Couch, 13 years old, son of Mr. and Mrs. Harry M. Couch, was drowned here today when he fell from a dock into 10 feet of water while fishing. The body was recovered.

Socialist Injured

MILWAUKEE, July 16 (AP)—Victor L. Berger, former socialist congressman from Milwaukee, was seriously injured here today when he was run down by a street car. After a preliminary examination at Emergence hospital, doctors declared that he suffered a possible skull fracture, severe scalp wounds, and probably internal injuries as well as bruises and lacerations.

Boys Drowns

MARATHON, July 16 (AP)—Elton Couch, 13 years old, son of Mr. and Mrs. Harry M. Couch, was drowned here today when he fell from a dock into 10 feet of water while fishing. The body was recovered.

Lawyer Sought on Conspiracy Charge

ST. LOUIS, July 16 (AP)—R. Shad Bennett, reputed wealthy St. Louis attorney and real estate operator, was sought today on an Illinois warrant charging with conspiracy to kill Olin King, bankrupt butcher of West Frankfort, Ill., to collect life insurance Bennett held as security for a debt.

Police Charge Bennett With Attempt to Kill Butcher

ST. LOUIS, July 16 (AP)—R. Shad Bennett, reputed wealthy St. Louis attorney and real estate operator, was sought today on an Illinois warrant charging with conspiracy to kill Olin King, bankrupt butcher of West Frankfort, Ill., to collect life insurance Bennett held as security for a debt.

Coroner of Chicago Blames Refrigeration Gas for 3 Deaths

CHICAGO, July 16 (AP)—Coroner Herman Bunden, after investigating the deaths of three persons in an apartment here, tonight blamed a methyl chloride, a refrigeration gas, for the deaths.

China Desires Peaceful Relations With Russia

MOSCOW, July 16 (AP)—Diplomatic tension over the Chinese eastern railway dispute in Manchuria lessened tonight on receipt of what was considered a conciliatory communique from the Nanking government. This stated that Ambassador Chu Zao Yang would soon return to his post here and indicated the Chinese belief that matters could be thrashed out in conference.

Flyers Make Tests for Refueling Flight

DES MOINES, July 16 (AP)—Ross Arnold and Charles Gatschet in the Greater Des Moines, the airplane in which they intend to try for a record refueling endurance flight, today made refueling tests with Miss Sioux City, the nurse ship, piloted by Jimmy Farwick. Amos Arnold was in charge of the refueling hose.

Dirigible to Make Third Attempt to Visit United States

FRIEDRICHSHAFEN, Germany, July 16 (AP)—Dr. Hugo Eckener today stated definitely that the next flight of the dirigible Graf Zeppelin to the United States has been planned for the first week in August, but that the date has not yet been fixed.

U. S. Steel Recalls Bonds

NEW YORK, July 16 (AP)—United States Steel corporation directors today voted to call for redemption on Nov. 1 the \$133,372,000 outstanding ten 60-year 5 per cent bonds of 1963 at 110 and accrued interest. This will complete the program announced earlier in the year to retire all of steel's funded debt, leaving only the bonds of subsidiary companies.

Anita Stewart to Wed New Yorker

LOS ANGELES, Cal., July 16 (AP)—Anita Stewart, screen actress, and George P. Converse, New York banker, applied for a marriage license today and announced they planned to wed July 24.

"I do hope this marriage will stick," Miss Stewart told reporters. "You know I was just a girl of 18 when I eloped before and got married and didn't have much sense. But I'm so happy now!"

SOCIAL EVENTS

Second Graders of Elementary School to Give Program Today

As entertainers the second graders of the elementary school will attempt to rival women of the physical education department in a public program today.

Instruction to the performers has been given three times a week by the class teaching rhythm to children under the supervision of Mrs. Elizabeth W. Southard.

This program is the second sponsored by the women's physical education department under the supervision of Elizabeth Halsey, head of the department.

A diversified program demonstrating class activities directed by Marjory Camp of the physical education department was presented before 600 persons Monday at the women's gymnasium.

The spectators were divided into two groups, the reds and the blues, since the rooming in which the performances were given were too small to accommodate the entire number at once.

Monday's program included: English class dancing, directed by Winifred Clarke from Manchester, England.

Exhibitions of clogging, and individual and group tumbling, under the supervision of Fortia Wagenet of Berkeley, Cal.

Danish gymnastics in charge of Miss Clarke.

Six minute basketball games and skill performances, arranged by Miss Wagenet.

Followed by diving and swimming from simple to advanced, directed by Mrs. Southard.

Interpretative dancing and music appreciation exercises including fundamentals of rhythmic movement, rhythmic movement to drums, rhythmic movement to songs, and rhythmic movement to piano.

Personals

M. Willard Lampe, director of the school of religion, will leave today for Chicago on business.

Anna Dorothea Cordts, a member of the faculty of the Iowa State Teachers college at Cedar Falls, visited with friends in Iowa City yesterday.

Word has been received of the birth of a baby girl to Dr. and Mrs. P. G. Hirschman of Mason City, July 13.

Mrs. A. H. Ford and children, Ellen, Robert, and Edwin, from Tucson, Ariz., have returned to Iowa City.

Prof. A. H. Ford, formerly head of the department of electrical engineering, left the university last year because of his health.

Mrs. W. H. Bates and daughters, Jean, Bonnie, and Patty, have returned from a visit to Decorah, with Mrs. Bates' sister and family.

Forrest Greathouse, who was buried yesterday at Toledo, Ill., was a boyhood chum of George Van Dyke, 503 N. Dubuque street.

Mrs. A. H. Ford and children, Ellen, Robert, and Edwin, from Tucson, Ariz., have returned to Iowa City.

Ray Harper of Montezuma visited here yesterday. He is a former student of the university.

Mrs. Irving Wilkinson has returned to her home in Chicago.

Charles R. Ayers of Montezuma, visited friends in the city yesterday on his way to his home after visiting in Chicago.

DURAND HEIR AND BRIDE

Jack Durand, foster son of wealthy F. Scott Durand of Lake Forest, Ill., and his bride, the former Genevieve Gerahy of Lake Bluff, Ill.

Young Jack Durand and his pretty, blue-eyed bride, who was Genevieve Gerahy before her marriage last Saturday, agreed that there are two greatest things in life.

One, according to Genevieve, is to marry the man you love. The other responds Jack, is to marry the girl you love.

Such is the joyous philosophy to be found within the walls of the charming stucco house at Lake Bluff, which Jack's foster parents, Mr. and Mrs. F. Scott Durand, presented to him and his bride.

The memory of his trial and conviction for robbery—of which his foster parents always maintained he was innocent—and of his subsequent term in Joliet penitentiary until his parole in May, 1928, have not been permitted to cast their shadow across his present happiness nor his ambitious plans for the future.

With about 41 per cent classed as graduate students, the University of Iowa's first summer term enrollment is 3,827 men and women, according to the final report released Tuesday from the office of Dean Paul C. Facker, director of the summer session.

Now present upon the campus are 2,901 students, while the other 926 are listed as non-campus registrants under projected registration and liberal arts and graduate correspondence.

More than 500 more women than men are enrolled, the report shows, the women outnumbering the men more than two to one in the college of liberal arts.

The college of liberal arts has enrolled 1,784 students, and leads all other units. In second place is the graduate college, with 1,570 men and women while the school of nursing has 238 and the school of music, 112.

Figures for the other units are: medicine, 70; library training, 61; commerce and law, 46 each; engineering, 15; pharmacy, 7; and dentistry, 2.

The first term of six weeks, which began June 10, will close Thursday with the holding of convocation exercises and the award of nearly 200 degrees and certificates. Registration for the second term will proceed Wednesday, Friday and Saturday. Beginning July 22, the second term continues until Aug. 22.

Professor Thomas identifies fragment of Mastodon's skeleton. An ancient bone, extracted from a gravel pit near Mason City, has been identified as a fragment of a mastodon's skeleton by Prof. Abraham O. Thomas, University of Iowa paleontologist.

Weighting about 50 pounds, the bone is three feet long and five inches in diameter. It was well preserved but showed a tendency to crumble when exposed to air.

During the Great Ice age, many thousands of years ago, mastodons, a species of elephant, roamed through Iowa in great herds, Professor Thomas explained. When the glaciers melted, bones of the beasts were scattered throughout the region and buried beneath tons of sand and gravel by the tremendous floods.

Professors' Wives Luncheon Guests. Mrs. H. A. Greene and Mrs. E. F. Lindquist were hostesses to 18 luncheon guests yesterday at Mandarin Inn. The party complimented the wives of out-of-town professors in the college of education.

Marjorie Berfield, Franklin Gregory marry Sunday. Announcement has been received of the marriage of Marjorie Berfield, daughter of Mr. and Mrs. John Berfield of Iowa Falls, and Franklin Gregory of Billings, Mont., son of Mr. F. W. Gregory of Waterloo, which took place last Sunday.

Alerta Still Weds Clarence Maxson. Word has been received of the marriage of Alerta Still, daughter of Mrs. Della M. Still of Des Moines to Clarence J. Maxson of Adel, which took place July 1 at Cleveland, O.

MR. CHRIS YETTER will leave for New York Saturday to buy new Fall and Winter Apparel for women. Mr. Yetter will be pleased to receive special orders for Women's Fur Coats, Cloth Coats or special styles or sizes in Dresses.

Advertisement for Yetter's clothing store, featuring a large image of a woman in a dress and the text 'Yetter's' in a stylized font.

Orchestra Gives Closing Concert

University to Conduct Similar Course Next Year

An appreciative audience of more than 350 persons attended the fifth and final concert of the first all-state high school orchestra in the main lounge of Iowa Union last night.

The all-state orchestra was organized through the efforts of the university school of music, which sponsors the annual state high school music contests.

For six weeks the students have attended 10 hours of orchestra rehearsal weekly under the direction of Director Lockhart.

The private instructors include four musicians from large symphony orchestras, three supervisors of music in public schools, and five university professors of music.

It is planned to conduct a similar course next year for three groups of music, according to Prof. E. H. Wilcox of the university school of music.

Beginning Monday, a chorus of 26 voices will be enrolled in a course of similar nature to the orchestra course, in which the membership will be made up of former contestants in the voice division of the all-state high school music contest.

3,827 Students Enrolled in First Summer Session

With about 41 per cent classed as graduate students, the University of Iowa's first summer term enrollment is 3,827 men and women, according to the final report released Tuesday from the office of Dean Paul C. Facker, director of the summer session.

Now present upon the campus are 2,901 students, while the other 926 are listed as non-campus registrants under projected registration and liberal arts and graduate correspondence.

PERKS UP COAST GUARD

Bernette Fricke, daughter of Capt. O. W. Fricke, commander of Evanston, Ill., coast guard, is back from school in the east and things around the station are getting more shipshape every day.

A Review of "The Whiteheaded Boy"

The whimsical, changeable emotions of the Irish characters in "The Whiteheaded Boy" by Lennox Robertson, were played with an entrancing speed and naturalness which won responsive appreciation from an audience of nearly 600 persons, last night in the natural science auditorium.

Here we have the competition of wit between the Geoghegans and Duffys. Dennis Geoghegan, the "whiteheaded boy" or "mother's baby," is believed to be the smartest of the Geoghegan family and is sent off to Trinity college in Dublin to be a fine doctor.

When Dennis comes in with the element of denouement in his aspect that he and Della are already married, there is a final whirl of excitement, with them all offering money and a ship to Dennis for his future—the "whiteheaded boy" to the last.

Accent is Natural. Even in this climatic scene Mr. Bergfeld played Duffy's burst of emotion, followed by his truce with Aunt Ellen, with a restraint and understanding which left us satisfied with a part unusually well done.

Excellent Interpretation. Here we have scenes of intense excitement resolving the struggle of Dennis' decision and Duffy's clever maneuvering for money from the Geoghegans. Richard De Laubenfels, A. of Burlington, gives us George Geoghegan which well interprets his anxiety over Dennis and the family. He did well a character which was difficult because of the high emotional tension which had to be sustained practically throughout.

Bergfeld Outstanding Actor. Aunt Ellen, the eccentric, independent and brutally frank old maid, was given a delightfully humorous and effective turn by Oza Cunningham, G. of Atlantic. In the proposal scene between her and John Duffy, she played the character very broadly, with a slight burlesque, which won, however, a hearty laugh from her listeners.

Without a doubt the most finished work was presented by M. J. Bergfeld, G. of Forest City, who played the avaricious, scheming but likable old John Duffy. Mr. Bergfeld showed a rare insight into the character—he was illusioning. Every movement, every tonal variation was consistent with the convincing character he created from his first entrance.

The "whiteheaded boy," as interpreted by W. C. Echl, G. of Fort Collins, Colo., brought out Dennis' feeling that he was abused and had gotten the wrong deal from his family all along. There was a touch of pathos in his long speech to the family when he tries to excuse himself for having failed in school again.

A clever and unique little piece of character work was portrayed by Stella Henderson, A. of Lake Mills, who brought an oddness of voice, zeal, and gesture to her interpretation of Hannah, the old servant, which added convincingly to humor to the part.

When Dennis comes in with the element of denouement in his aspect that he and Della are already married, there is a final whirl of excitement, with them all offering money and a ship to Dennis for his future—the "whiteheaded boy" to the last.

Fae Evelyn Ham to Wed Fred Lawson

Announcement of the engagement and approaching marriage of their daughter, Fae Evelyn Ham, to Fred Lawson, son of Mr. and Mrs. William Lawson of Kansas City, has been made by Mr. and Mrs. Walter Ham of Winona, Minn.

Mrs. Ham graduated from the university high school this June and is attending summer school at present as a member of the all-state high school orchestra.

Mr. Lawson graduated from the university this year and is now employed at the Schultz Baking company at Kansas City, where the new home will be made.

Foreign Nations Write Protesting Increase of Tariff

Ambassadors Discuss Probable Effect of Measure

WASHINGTON, July 16 (AP)—Three more communications from foreign governments and commercial interests expressing fear of enactment of various increased duties provided in the house tariff bill were received from the state department today by the senate finance committee.

The committee placed them in the record and proceeded with hearings on the administrative provisions of the measure, listening to further arguments against the levying of tariffs or restrictions on Philippine imports into the United States, not duty-free.

Coming from Spain, Italy and Sweden, the foreign messages received today supplemented complaints and comments from these countries and 21 other nations their central governments. Italy's were made public by the committee last week.

Discuss General Imports. General imports from Italy, iron and steel shipments from Sweden and cork from Spain were taken up in the new memorandum.

The Italian ambassador, in a supplemental note, declared if the duties proposed by the house on Italian goods become law, the direct result would be a falling off of Italian purchases of agricultural products and other raw materials in America.

The Swedish ambassador, in a previous note threatened a breaking off of the modus vivendi commercial relations with the United States in event certain house rates were adopted.

The proposed increased cork duty marked injury to the Spanish exporting business and a reduction in the consumption of this article.

Sweden Objects to Rates. The Swedish iron masters' association, in a memorandum transmitted to the Swedish minister, made an exception to the proposed rates on hollow drill steel, alloy steels, and war rods, declaring they would "undoubtedly cause considerable disturbance in the reciprocal flow of commodities between Sweden and the United States."

Camilo Osias, Philippine senator, Rafael R. Alunan, secretary of agriculture and natural resources of the islands, and Pedro Guevara, the island president commissioner here, strenuously opposed before the committee today any interruption of the existing free-trade relations between the United States and the Philippines.

Discuss Canadian Wheat. Testimony was heard against the new house provision subjecting Canadian wheat milled in bond in the United States for export to countries granting American flour a preferential duty, to a tariff equal to the amount of such preference.

Thousands of bushels of Canadian wheat are imported into this country annually, milled in bond and shipped to Cuba which grants American flour a 20 per cent or 35 cents a barrel cut in her normal tariff.

W. C. Helm, vice president of the Russell-Miller Milling company, with flour mills in Minneapolis, Buffalo and cities in North Dakota and Montana, urged repeal of existing provisions, contending Canadian wheat thus brought into the United States did not displace one bushel of American wheat in the Cuban market.

been made by Mr. and Mrs. Walter Ham of Winona, Minn. The wedding will take place Aug. 16.

Mrs. Ham graduated from the university high school this June and is attending summer school at present as a member of the all-state high school orchestra.

U S TAKES HAND IN STRIKE—Seeking to settle the street railway strike in New Orleans, where 100 have been injured, one fatally, W. H. Rogers has been sent to the scene by the Department of Labor to act as conciliator. Scene above shows strikers running wildly on Canal Street, New Orleans, to attack a street car. *International Newsreel*

PERFECT—Three champs, left to right, Ralph, national junior; Harry Smith, national senior, and Billy Miller, world's high school title holder, go over the bar at San Diego, Cal. And how! *International Newsreel*

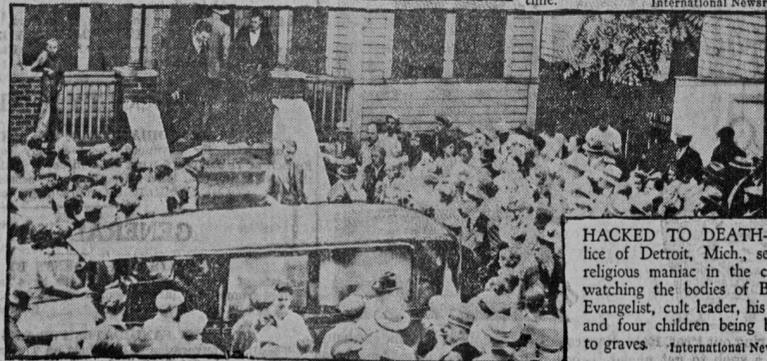

SHE MADE IT—Just imagine pedaling this contraption for the tough miles across the English Channel. Mlle. Pfanner turned the trick once and will try again to beat her first time. *International Newsreel*

SHELL MAKE IT—It looks like tough going for the barkentine "Hilda" being towed through the rough seas enroute for Falmouth, England, but then she's used to big waves and will make the grade. *International Newsreel*

THE JUDGE WAS RIGHT—The mean old beach police near Seattle, Wash., said Lucille Larson's sunbath suit was too daring, but Judge John B. Gordon, who knows a thing or two, said it was "all right," and a whole courtroom agreed! *International Newsreel*

HACKED TO DEATH—Police of Detroit, Mich., seek a religious fanatic in the crowd watching the bodies of Benny Evangelist, cult leader, his wife and four children being borne to graves. *International Newsreel*

GOOD ABROAD, TOO—Ralph Snoddy, well-known speedboat racer in America, pulls up to the float winner of the first heat of the Duke of York's International motor boat race on the Thames River near London, England. *International Newsreel*

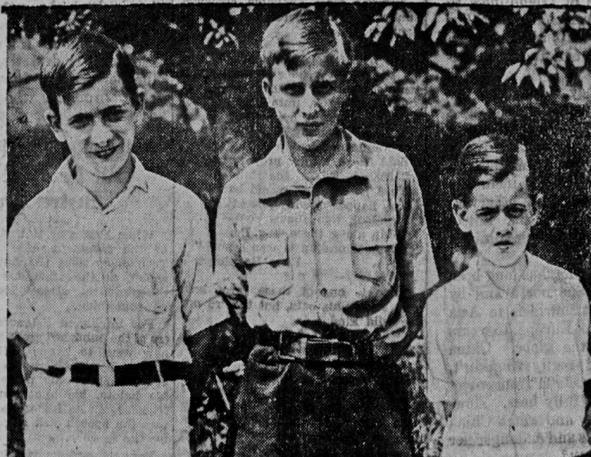

EVEN WHITER—These tiny ringlets are whiter than white, which adorn the head of this 5-month-old colored girl of Cincinnati, one of the few pure Albinos of the race. *International Newsreel*

SHE'S GOT EVERYTHING—As if it isn't enough to be one of the most beautiful women in England, the Princess George Imeritinsky, besides having a title, is regarded as one of Europe's most delightful hostesses. *International Newsreel*

ABANDON FLIGHT—The French ace, Dieudonne Coste (right), with his mechanic Jacques Bellonte, who have abandoned plans for a transatlantic flight after an unsuccessful attempt last week.

NOT IMPORTANT—The story goes that Lawrence Horner, left, Grand Thorburn, center, and Jack Horner, right, were berry picking near Brookside, N. J., when Thomas A. Edison, motoring by, accosted the boys and gave them some pointers on synthetic rubber. The boys returned to their berries, forgetting the important information given them. *International Newsreel*

NARY AN ACCIDENT—Pretty fine record is boasted by the engines which raise and lower the bascules of London Tower Bridge, England. After thirty-five years of service, not once in the five thousand times a year has the machinery failed to respond to the call of custodian. *International Newsreel*

The Daily Iowan's Platform For a Greater Iowa City

1. Make Iowa City the best home city in the state.
2. Put the airport under municipal control as soon as possible.
3. Lessen number of automobile accidents and increase safety for pedestrians.
4. Pave Dubuque and Clinton streets in the business district.

Have Faith in Aviation

IN SPITE of the crash Sunday of the Polish trans-Atlantic flyer in the Azores and the sinking of the "Untin Bowler" Saturday in the Hudson strait, there is reason for optimism in the field of aeronautics.

Only a few days ago the two "tough hoppers," L. W. Mendell and R. B. Reinhart, set a new record for endurance flights with a second hand biplane. They were in the air 246 hours, 43 minutes and 32 seconds. Traveling at an average speed of 85 miles per hour they had covered enough miles to have circled the globe. By employing a used motor and a used plane, these two men have furnished further proof that airplanes have reached a stage where they will stand the most grueling tests.

Granted that there are some crashes, a fair consideration of air casualties will show that most of them are due to uncertain weather in ocean flying or to reckless maneuvers on the part of stunt pilots. Deaths and injuries caused by mechanical defects are becoming more and more unusual.

Indication that air travel is increasing is given in the announcement of a drastic cut in mileage rates by the Roosevelt flying corporation of New York. The price cut applies on all airplane trips from New York to any other city. The cost of travel will now be approximately 25 cents per mile for each passenger. The new rate is a straight price and carries no provision that a passenger shall make a return trip by air.

A few days ago the aeronautics division of the United States chamber of commerce announced that airplanes will now be sold by factories on the installment plan. The factory, after receiving the first payment, takes a mortgage for the balance and delivers the plane. All responsibility for the driving of the machine devolves on the pilot. Naturally all persons who buy must first pass the pilot's examination before they can operate the plane.

In Iowa \$276,550 will be spent this year for improving airports in various cities. Of the 20 or more cities that are planning improvement, Iowa City heads the list. With the \$70,000 that was authorized in the recent election on a bond issue, Smith field is to be enlarged to an area of 190 acres. A new \$7,000 passenger station is to be built, a modern drainage system will be constructed and more lighting facilities are to be installed.

George Eastman, Philanthropist

THE FOUNDER of the Eastman Kodak company has just celebrated his seventy-fifth birthday. He has accumulated great wealth and he has made gifts totaling \$72,000,000.

He is different from some philanthropists, for he hates to see himself boasted. He had already given away millions before the news became generally known in this country. Although he has donated largely to various educational institutions, he has never imposed the condition that his name be attached to the gift or to the university receiving the gift. The Massachusetts Institute of Technology has received approximately \$18,000,000 from Mr. Eastman.

Occasionally we hear severe criticism of an economic system that permits a few men to amass enormous fortunes, while thousands of persons are constantly struggling for the necessities of life.

However, if our present economic system were replaced by the Marxian program of socialism, we would be in much the same condition that Russia is in today. Or if we were practicing another variety of socialism we would be living according to the fascist program as practiced in Italy.

It seems likely that men will always be different in ability and in habits of industry. That being true, the competitive economic theory will always be practiced. And Emerson's line will always have meaning for us: "Though a man live in the heart of the forest, if he but build a better mouse trap than his neighbor, the world will make a beaten path to his door."

It follows, naturally, that a Ford will gain his millions by making a car that is available to every purse, that a Rockefeller will amass

a fortune by distributing gasoline to every hamlet in America, and that an Eastman will become a multi-millionaire by making it possible for everyone to have a kodak.

The Ice Patrol

EVERYONE remembers the tragedy of the Titanic, when a collision with a huge iceberg caused the death of 1,500 persons; but few know that since that time not a single life has been lost from a ship's collision with icebergs on floe ice.

Immediately after the great disaster, 14 maritime nations banded together to establish the Atlantic ice patrol. Each April since then two United States cutters, supported by the patrol, have set out to work in 15-day relays during the danger season to warn shipping of the exact position of floating ice.

Last year alone 644 ships entered the danger zone, and any one of them might have met the Titanic's fate had it not been for the wireless messages sent out by the patrol. The cutters themselves had many narrow escapes.

To persons living inland, safe from any water danger greater than the overflowing of the creek, perhaps this record does not sound especially remarkable. A London paper comments:

"The responsibility of the watchers is great, and strain must be terrific. The Atlantic ice patrol has earned a unique place in the annals of heroism on the high seas."

In this part of the world we are fairly familiar with the "trouble shooters" who on plain and mountain maintain telegraph and telephone service through the worst of floods and blizzards. We admire most heartily the pilots who battle the weather to establish air routes for mail and passenger service. There is a glory in defying and out-fighting the forces of nature. The bigness and loneliness of such struggles rouses a fierce joy that perhaps is a heritage from Saxon ancestors. Certainly the work of the ice patrol combines all the dangers and wild loneliness that might be found in any battle with the elements.

A great deal is being said today about the growing popularity and safety of ocean travel. The vaunted safety of the great liners would not be possible, however, were it not for the nervous vigilance of the men on the two cutters, patrolling the desolate wastes of the northern Atlantic—unsung heroes of the high seas.

Too Much Food

WITH the Chinese dying of starvation in great droves and Americans eating themselves into their graves, Einstein might be baffled to work out the comparative relativity.

The food limit appears to be about as perilous as any other limit. Nature has enacted many laws and set up many prohibitions; but the food limit infractions draw down the heaviest penalties. Because they are subtle and sluggish, they are not the less dangerous and deadly.

When modern prophets protest that the present generation is digging its grave with knives and forks, Americans scorn them and keep right on eating. Nonobservance of the food limit has done away with waist lines. Fashion makes adjustments to sell goods and the world keeps right on filling its stomach. The modern way is to eat and then run it off around the links. Others gormandize the night before and then try to work it off by radio setting-up exercises the next morning. A favored few buy an electric pummeling machine to shake and punch the fatty degeneration off their mistreated bodies.

It is in the hot summer months that the superfluous avoidupois seems the most burdensome. So now, more than any other time, one's food limit should be observed.

Playful Soviet

YOUTHFUL soviet Russia doesn't like the way China is playing ping pong with the Chinese Eastern railway built 30 years ago by czarist Russia and largely with French capital. After Japan annexed the southern and most profitable end of the system following the Japanese-Russia war, in 1920, the soviets, believing that the railway would no longer be valuable to them, renounced their rights in it as a gesture of friendliness to China. It didn't take them long to realize their mistake as it is an essential link between the port of Vladivostok and the Trans-Siberia railway.

Shortly afterwards they began negotiations with China, the result of which was a treaty signed in 1924 whereby control was vested jointly in the Chinese and Russian governments. The most important administrative offices went to Russia, including that of collecting revenues and otherwise neglected the treaty rights of China. Soviet agents successfully preached communistic doctrines until the break came.

Manchuria, a part of China, has long been dominated by Russia in the north and by Japan in the south. Manchuia is to Asia what the Balkans were to Europe 15 years ago, a trouble spot on the globe. China doesn't fear Russia and really shouldn't, since she has the power to claim from soviet Russia that which is rightfully hers. However, will Japan sit idly by and watch China ping pong Russian officials and endanger her own holdings in the railway?

It isn't the saturation point of the automobile that worries the pedestrian so much as the saturation point of the driver.—Browns-ville (Pa.) Telegraph.

One wag remarks that some girls use dumb-bells to get color on their faces and some use color on their faces to get dumb-bells.—Savannah News.

When it comes to drawing the color line, no one seems to go to such extremes as the girl with a lip-stick.—American Lumberman.

By Ripley

Chills and Fever

CORN Y SONG
Rays of bright sunshine slant to the ground;
Bees cease their humming, heat waves abound
Mercury soaring, earth seems a fire;
People seek shade spots, no further aspire.
Speak not to mortal—sure as you're born,
He will adjure thee: "Think of the corn!"

Rain falls in torrents, silvery sheets;
Ditches are rivers for miniature fleets;
Trees shake in anger, hardened and knurled,
And the skies weep unceasing, drowning the world.
Take no enjoyment, someone will mourn
Into your cheerfulness: "Think of the corn!"

White snow drifts slothfully, deepening the hush;
That falls on the autumn at winter's first brush;
A rollicking comrade, an enchanting soft
Carrying spirits to whirl them aloft.
But be not to eager, rather forlorn,
For someone will whisper: "Think of the corn!"

Rain time or sun time, cold waves or warm,
Let none of these gladden, rather alarm;
Whatever the weather, there's always the corn.
Someone to murmur: "Think of the corn!" —Vic d'Azur.

Anticipating Heat
Oranges, lemons, or limeade—all of them are ades to everyone during the hot summer weather. —Tweeter.

Judging from available evidence, sunburns won't sore for a while again yet maybe. —

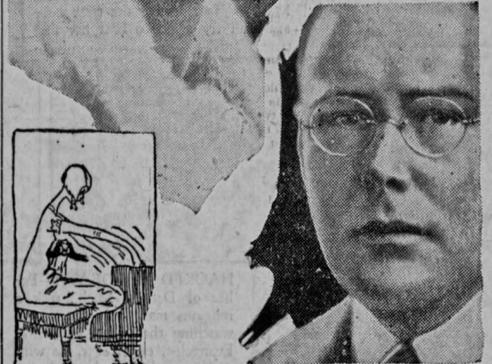

My friend Rope—adequately named because a reader is sometimes tempted to twirl a lass around his knotted (?) neck, untangles another naughty problem herewith: **Properly Done** "I've never kissed a girl—" Said the painfully proper man; "I've never done the things That Emily Post would ban." The flapper quickly turned. Her look was almost cool: "Skip along there, Big Boy, I'm not running a prep school." —Rope Ravelings.

Rope is one of these farm lads who knows his oats, but they're not the wild kind. —

Add Nurse Reputation Accepted dictum has it that in order to teach a mule tricks you must know more than the mule. Of the people who are teaching college boys things, I would say that the girls at Westlawn are the only ones who are not running a big bluff. —Adam Nuisance.

WSUI PROGRAM

The following program will be broadcast from station WSUI today:
9 a.m.—Markets. News. Weather. Daily smile. Radio feature.
11 a.m.—Lecture room hour.
12 noon—Luncheon hour program.
1:30 p.m.—Music appreciation hour.
Mrs. Mildred McCollister.
6 p.m.—Dinner hour program.

Advocate of Snobbery Carries Own Groceries

Bearing out Prof. Robt. Rogers' advice to college graduates about being a snob to get ahead, Edythe Baker, left above, American pianologist, at her press agent's suggestion, adopted a formula of snobbery which made her the toast of London society, and, incidentally, won her a blue-blooded bridegroom. Below is a caricature of Miss Baker depicting her in the days when she was just a vaudeville performer. Below is the Massachusetts Institute of Technology professor who astonished his pupils with his iconoclastic advice.

American Girl Tries Out Principle of Instructor

When Professor Robert E. Rogers of the Massachusetts Institute of Technology shot the advice, "be a snob," at the amazed members of the graduating class of 1929, he started something. For intelligent listeners and readers of the published graduating speech now want to know: What sort of man would publicly defend snobbery? What's his personality like? his habits, his appearance, family, friends? Is he himself a snob? Or was the speech just a genial "ride" for the unwary.

Here the curious ones hit snag, for aside from his considerable scholastic attainments, little had seeped out from "Tech" about the professor. Even men who had studied under him professed ignorance of the fine points so eagerly sought.

Here are two of Professor Rogers' "mists" in conduct for the ambitious native youth who would get there:
1. Be a snob.
2. Found a family that will be successful. The ambitious, aspiring men are always marrying a little higher in the social scale. It is just as easy to marry the boss' daughter as the stenographer.
An interview with the professor disclosed striking facts about his

PEOPLE ARE SAYING

Humane Society Should Work in City Park; Stockingless Fad Not to Stay

(Contributions to this department are welcomed, but we must request that each be kept under 200 words in length. Each contributor must be signed, but the identity of the writer will not be published or otherwise made known if requested. Right of rejecting any contribution is reserved.—The Editor.)

WATER THE ANIMALS

Editor, The Iowan:
Has Iowa City a Humane Society? If so, let them get busy at the city park. I have been out there time and time again and seen the same thing—animals in filthy cages with such

odor that will keep you at a distance. They are without water to drink except that which they wallow around in all day long, let alone running water that they need on these hot days.

I have seen a few parks; but never one in this condition. If Iowa City wants animals in their park, why not take care of them in the way they should be taken care of? I don't know about their feed, but take a look at the Bob cat.

—MRS. A. E. B.
A Transient.

MEN WHO FLY The Air Mail

Rube Wagner Famous for Getting Mail There on Time

"Westbound New York seventeenth arrived Oakland 4:45 p.m.—on time." Behind this entry in the log book at the Boeing air transport base at Oakland airport today is the story of a pilot's determination to get the mail through on time.

The pilot is Reuben L. "Rube" Wagner, veteran of the night run between Chicago and Omaha, who has often visited Iowa City.

In the face of a howling storm he took off in darkness with a heavy cargo of westbound mail. Fifteen minutes later, as he was bucking a heavy gale, the engine started to miss. The fuel pressure had dropped, indicating failure of the gasoline pump system. Rather than land and delay the mail, Wagner worked the "wobble" hand pump—an arduous task even in fair weather—and held the controls with his feet and knees all the way to Omaha, landing the mail on schedule.

Wagner has 5,000 hours in the air, 2,000 of which were flown at night. He began his training at the school of military aeronautics, University of Illinois, during the war and had the army air service training. He started with the air mail service at Omaha, April 23, 1923, flying for the old government transcontinental system. He came to the Boeing air transport pilot staff with about 25 other veterans of the old transcontinental.

No doubt the stockingless fad now in vogue is beginning to cause some worry among the hosiery manufacturers and department stores. It is no doubt also making mothers of the daring young girls gray haired with anxiety over wondering what the modern age is coming to. There is no cause for worry however, because sooner or later the bold damsels will realize that not one pair of legs in 20 was designed or finished for nudity. And the owner of the twentieth pair is usually a wise young woman who knows that her legs are more attractive clothed in sheer silk than an naturals.

A woman's deadliest weapons are beauty and charm, and the lure of hidden or suggested beauty is 10 times more effective than complete revelation. This fact has been pointed out by a cartoon depicting a young artist painting from a nude model, and stepping to the window to watch a pretty girl get on the street car. There is also the danger expressed in the story of Lady Godiva riding down Michigan avenue in Chicago in 1940 and the two men on the sidewalk giving a casual glance on remarking, "Look! There's a horse."

Sooner or later the bold ladies who have taken up this fad will realize that the gaze of admiring members of the opposite sex is directed, not at the shapely limb, but at the mosquito bites and rose bush scratches, and then they'll hustle into stockings as fast as possible.

—H. B. W.
An Interested Onlooker.

Official Daily Bulletin The University of Iowa

Bulletins and announcements for the Official Daily Bulletin column must be in the Summer Session office, room 6, Old Capitol, by 4 o'clock in the afternoon to appear in the following morning's Daily Iowan.

Vol. IV, No. 129 July 17, 1929

WEEKLY CALENDAR WEDNESDAY, JULY 17

- 4:00 p.m. Conference on points of view in psychology, by Prof. F. Aveling, Senate chamber, Old Capitol.
- 7:00 p.m. Public lecture: "The Human Factor in Industry," by Prof. F. Aveling, University of London, England. Chemistry auditorium.
- 7:15-8:15 p.m. Orchestra rehearsal, band room. Professor Kendrick.

THURSDAY, JULY 18

- 6:00 p.m. Graduates' dinner, Iowa Memorial Union.
- 8:15 p.m. University convocation.

FACULTY NOTICES

CANDIDATES FOR ADVANCED DEGREES
Candidates for advanced degrees may take their reading test in French at 11 a.m., or 5 p.m., on Monday. This arrangement will hold throughout the first term of the summer session.

COLBERT SEARLES, department of Romance languages.

GENERAL NOTICES

LISTS OF STUDENTS BY STATES
Lists of students from each state have been compiled and may be secured from the Summer Session office, Old Capitol.

CANDIDATES FOR DEGREES
The July Convocation will be held on Thursday, July 18th at 8:15 p.m. West Approach, Old Capitol. In case of unfavorable weather the exercises will be held in the Lounge, Iowa Memorial Union.

Proceeding the exercises, the Graduates' Dinner will be held in Iowa Memorial Union at 6 p.m.

Candidates are reminded to:
1. Make arrangements for caps and gowns.
2. Secure tickets at the Alumni Office, Northwest Room, Old Capitol for the Graduates' Dinner, before noon, Thursday, July 18th.

3. Report promptly at 7:45 p.m. in academic dress at Iowa Memorial Union for the academic procession.
4. Personally return scrolls together with address cards to the Alumni Office immediately following exercises.

5. Information about Commencement may be secured at the Alumni Office in Old Capitol. F. G. HIGBEE, director of convocations.

REGISTRATION, SECOND TERM OF THE SUMMER SESSION, 1929

I. First Stage
Get registration materials, registrar's office, room 1, university hall, Wednesday, July 17.

Get all necessary counsel from advisers and professors (see schedule of courses, first inside page, for information as to their office hours and locations) and fill all registration coupons and class cards as directed on the first three inside pages of schedule of courses and on coupon at left of coupon 1.

II. Second Stage
On Friday and Saturday, July 19-20:
A. All registrants who have never yet had their photographs taken in connection with their registration in this university go first to room 204, old dentistry building, to sit for photographs. A certificate will be issued indicating that your photograph has been taken.—This to be presented to the fee assessor. No registration may proceed beyond this stage without this certificate.

B. All registrants whose photographs have already been taken in connection with a former registration in this university, together with the students mentioned above (after they sit for their photographs) go to registrar's office (center room A), university hall, to have fees assessed; pay fees at secretary's office, room 2, same building, same floor; cross corridor to room 7 and present all registration materials.—registration coupons, class cards, fee assessor, and all other cards which you may have—to a checking clerk.

Await return of stamped fee card and coupon 1. Leave checkers' room by south door, and building by southeast exit.
N.B.: Please do each of these things as early as possible within the period assigned for it. Respectfully,
W. A. JESSUP. H. C. DORCAS, registrar.

UNIVERSITY LIBRARIES

Library reading rooms in Natural Science Building and Library Annex will close at 5 p.m. Thursday, July 18, and will open July 19 and 20 from 8:15 a.m. to 1:15 p.m. Hours for departmental libraries will be posted on the doors.

Vertical text on the right edge of the page, including "The Q" and "I was detective" and other fragments.

The Green Archer

By Edgar Wallace

THE STORY SO FAR
Valerie Howett, adopted daughter of Senator Howett of Pennsylvania, is searching for her mother, Elaine Held, who, as Valerie suspects is hidden away in Garrettsville, the owner of which, Abe Bellamy, is a Chicago millionaire with a repellent past who now resides in England. Bellamy is revenging himself on the woman for refusing to marry him. The Howetts have leased Lady's Manor, which adjoins the castle grounds. Bellamy identifies Valerie as an infant whom years before he delivered to Howett to rear when the latter was a poor farmer, Sabine Holland, an American reporter working on a London newspaper, is investigating reports that a ghostly archer clad in green, haunts the castle. Bellamy suspects Valerie of being the Green Archer. He has ferocious dogs to guard to castle, but late at night the Green Archer drags the dogs and gains access to Bellamy's bedroom. Featherstone, a Scotland Yard official, who is in love with Valerie, is helping her search for her mother. When next Bellamy enters the secret underground chamber where he has been keeping Valerie's mother, he finds that his prisoner has disappeared. Bellamy and Coldharbour Smith, keeper of a low resort in London, plot against Valerie. She is carried off by a man put on board the steamer Contessa. Featherstone searches the boat, but misses the girl. Coldharbour Smith tells her she must marry him, and the voyage to Rio will serve for the honeymoon. Julius Savini has secretly followed Valerie on board the ship. Smith discovers Savini in Valerie's cabin.

CHAPTER XLVIII (Continued)

Before the leveled Browning Julius dropped his hands.
"Let us have a little talk, Julius," said Smith. "And first of all put that sword on the table."
There was nothing to do but obey.
"What's the great idea?" demanded Smith. "Who sent you here?"
"Julius Savini," he said, "with quick inspirations, and he had one now."
"The old man," he said nonchalantly. "He got a bit worried about the girl, and he told me to come aboard and see you. He wants you to let her go back."
Smith's lips curled in an ugly smile.
"What's the idea, Julius?" he said, briefly.
"What's the idea, Julius?" he said, briefly. "You're a man of quick inspirations, aren't you?"
"I couldn't find your cabin. At least, I thought this was your cabin and dropped in because I didn't want the sailors to see me. I'd hardly got in before somebody closed the skylight."
Smith nodded.
"They shut it because I told them," he said. "But I never thought I'd trapped such a bird as you! So Bellamy wants me to take her ashore, does he? And has Bellamy made arrangements for getting me out of trouble over this affair? You're lying, Julius."
He looked at the man keenly. "Your clothes are all covered with dust, and what are you doing with that sword? I'm going to hold you and find out from the old man what your game is. You'd do anything for money, Savini? Then, as an idea struck him, 'Did Featherstone put you aboard?' He slapped his thigh. 'That's it. You're a stool pigeon, are you? Well, isn't that surprising?'
He whistled shrilly, and a dark-skinned sailor came clattering down the companionway, and to him Smith spoke in a low voice. He went away and came back with a pair of wrist handcuffs.
"I do a bit of police work myself sometimes," said Coldharbour Smith. "Put 'em out, Julius!"
Julius Savini obeyed, and the Irons clicked about his wrist. He was then rushed into the dark fore-cabin.
"Sit down with your back to the bulkhead," Smith commanded, and when this was done he strapped the Eurasian's feet together. "If the old man says you are telling the truth, I'm going to apologize to you, Julius," he said pleasantly. "In the meantime you'll stay there, and I'll decide what I'll do with you when we're at sea."
He slammed the door tight and turned the iron catch, which held it, and Julius Savini grinned to himself, for the handcuffs were just a size too large, and he had freed his wrists before the sound of Coldharbour Smith's footsteps died away in the distance.

CHAPTER XLIX

THE QUESTIONING OF LACY.
It was late in the afternoon when a detective, who was apparently killing time in the Commercial row, saw a lady face.
"Lacy, if I'm not mistaken," he said, and caught his man scientifically.
"What's wrong, Johnson?" asked the prisoner innocently. "I don't remember that the police have got anything on me."
"You'll take a little walk with me," said the detective, and Lacy, who did not know what was in store for him, or he would have fought, meekly accompanied his captor to the nearest police station, protesting his ignorance of any reason why the police should behave in this strange, and to him, inexplicable manner.
Captain Featherstone interviewed him in the cell, but did not disclose the charge on which he had been arrested. To Jim this was one of the most critical moments of his life, for he had decided upon an act which he knew might bring him into disgrace and lead to the abandonment of the career he had mapped out for himself. But there was nothing in life that could balance against Valerie Howett's safety. He would gladly surrender his own life if by so doing he could restore the girl to her father.
"Jim lived in St. James street, in the most fashionable part of London, and on a Saturday night it is one of the quietest streets in London, for all the stream of road traffic which passes ceaselessly up and down."
"I'll take this man to Scotland Yard to interrogate him. No, I shan't want your assistance, Johnson, thank you. You will be noted to the commissioner for your arrest."
To Mr. Lacy's surprise he was taken out of the cell and placed in a comfortable motor car, with Jim at the wheel.
"You may for the moment regard yourself as not being under arrest," said Jim.
"Where am I going?"
"You're coming to my flat," was the surprising reply.
"What am I being held for, captain?" asked Lacy curiously.
"I'll tell you that in due course," was the short reply, and Lacy gave himself over to the mental discussion of all sorts of interesting possibilities.
The car stopped before a shuttered shop, above which Jim's flat was situated. There were no other tenants; the shop keeper lived in one of the suburbs.
Angus, the valet, met the pair on the landing.
"Give Mr. Lacy a drink," said Jim, "then take the car to the garage, and don't come back."
He himself went to his room, and took off his coat, vest and collar, and when he came back Angus had fulfilled his duties and was waiting.
"Take the car, and don't come back tonight," said Jim, again, and Mr. Lacy, with a glass of whisky and soda in his hand, wondered, and for the first time was a little nervous.
"Finished, Lacy?" said Jim, when the door had closed on his valet. "Now will you step into my study?"
It was not so much a study as a gymnasium, a large room, bare of carpet. Attached to a beam in the ceiling were two stout cords, terminating in rings, and there was a bunch ball attachment at the farther end of the room. Jim closed the door and locked it and motioned the man to a seat.
"I don't know what you're rolling up your sleeves for, captain," said the alarmed Lacy.
"I'll tell you later," said Jim. "Where is Miss Valerie Howett?"
"Miss who, sir?"
"He had hardly uttered the words before a first light iron caught him under the jaw and sent him with a crash against the wall. He got up slowly, whimpering.
"What did you do that for? You hit me again and by—"
"Where is Valerie Howett?" asked Jim in the same even tone.
"I don't know," said Lacy defiantly.
"This time he was prepared, and tried to parry, but they cut under his guard, those two lightning blows, and he fell with a crash.
"Get up," said Jim curtly.
"I'm not going to get up," said the man, nursing his bruised face. "I'll report you for this, Featherstone, I'll have that coat off your back."
"Get up," said Jim, "and don't harp on any illusions that you won't be hurt while you're sitting. Get up!"
"I'll see you in h— first," snarled the elder man, and leapt as Jim Featherstone's boot drove at him.
"I'll have you for this, My—! I'll settle you for this, Featherstone, I'll be before the commissioner on Monday morning."
"If you're alive," said Jim. There was a look in his eye which gave the phrase a special significance. "I'm telling you this"—his finger jerked out to the man—"that unless you tell me what I want to know I'm going to tie you down on that floor, and I'm going to burn you until you tell."
"That's torture!" shrieked the man. "You can't torture me. You wouldn't dare—it is against the law!"
"Bellamy once told me that he believed in torture," said Jim slowly, "and I thought he was a brute. But I'll not leave the flesh on your bones if you don't tell me where Valerie Howett is."
The man stared at him awhile, then, with a scream, springing for the door, Jim's arm shot him back again.
Fear gave Lacy courage, and he leapt at his captor. Jim stepped aside and brought him to the ground with

a short swing to the body. There he lay gasping.
"Tell me where Valerie Howett is, and I will give you a thousand pounds."
"I wouldn't do it for a million," blubbered Lacy. "She's where you won't get her, you swine! Smith's got her, and—"
He was jerked instantly to his feet and smacked against the wall as though he were a wicker figure.
"Is life sweet to you, Lacy?" Jim's voice was low and vibrant. "Are there no friends, no women you want to meet again, no place you ever wish to see?"
"I'll die before I tell you," gasped Lacy.
"You will die after you tell me," said Jim Featherstone, and jerked him to the ground.
With one pull he tore vest and shirt from the man. It was the brutality of it, the horrible threat of it, that broke the prisoner's resolution.
"I'll tell, I'll tell!" he screamed. "She's on the Contessa."
"You're a liar, she isn't."
"I'll swear to you she is, captain. We were on the ship when you came there last night, in the chain locker. She tried to scream, but Smith had his hand on her mouth. I can prove it. I heard you saying, as you walked by, that she wasn't there."
"Get up," said Jim. He pointed to a stool. "Now sit down. When were you on the Contessa last?"
"I left last night. I never could stand those little ships—they make me ill."
"And the lady was there then?"
"Yes, sir."
"Where is she? In what part of the ship?"
"Coldharbour had it all fixed up for her. The Contessa's been running rum to America. She practically belongs to Smith. It was his idea that the fires shouldn't be lit, and that she should stay in the pool for a day or two until the affair had blown over."
Jim unlocked the door and went back to the sitting room.
"Finish your whisky," he said.
"You're not going to charge me, are you, captain—not after the past—my've given me is true. I'll not charge you," Jim replied. "Drink up your whisky. I shall hold you tonight. If your statement is accurate, you shall go free within two hours. If it's not, I shall bring you back here, and we will have a heart to heart talk."
Lacy said nothing.
On their way to Scotland Yard, Mr. Lacy nursing his injuries, Jim asked, "Did you see Julius Savini?"
"Julius?" said the other contemptuously. "He's not in this business at all."
"I have an idea that he's very much in it," said Jim.

FATE DEALS DOUBLE BLOW IN AIR RACE

How tragedy ended the friendly race of two planes from Paris to New York is shown on the above map. The solid line is the flight of Majors Leon Idzikowski and Casimir Kubala, Polish flyers, which ended at Graciosa, Azores islands, where Idzikowski was killed in a forced landing and his companion injured. The dotted line traces the course of the French flyers Bellonte and Costes, who foresaw approaching disaster and flew back to Le Bourget field, Paris.

Wheat Quotations Show Decrease in Market Price

CHICAGO, July 16 (AP)—Enormous profit-taking sales pulled wheat values down time and again today and in the end smothered the buying side for at least the moment. Extraordinary power to rally was shown by the market, however, and at one stage new top price records for the season were attained. Estimates of wheat crop losses in Canada were increasingly severe, the 1929 probable yield of the prairie provinces being unofficially put as low today as 271,000,000 bushel against 510,000,000 bushel last year. Chicago closing quotations on wheat were unsettled at 1c to 1 1/2c under yesterday's finish. Corn closed 1/2c to 3/4c down, oats 1/2c to 1 1/2c off, and provisions varying from a 1/2c decline to a rise of 20c.
Incentive for immediate profit-taking on a big scale was found in the fact that in some cases today wheat was commanding 14c a bushel more here than at this time a year ago. Besides, the Liverpool market today practically failed to reflect yesterday's advances in price on this side of the Atlantic. Messages from Liverpool said belief prevailed there that returns in the market were too fast, and that the top quotations had more than discounted the amount of known crop damage, especially as big supplies are actually available in North America, and were shown to be increasing rapidly at present in the United States.
On the other hand, special attention was given by many traders to Canadian dispatches from leading Chicago crop experts, one of whom telegraphed from Winnipeg after a 2,000-mile auto trip through Alberta and Saskatchewan that rain now can only maintain the present status of the Canadian crop, that recovery is out of the question, and that the last three days the widening of the area of complete loss has been staggering. He said that on top of long continued drought excessive heat had caught the crop while the grain was in bloom. It was largely on the strength of this news and on word from other crop authorities reducing crop estimates that price rallies today were chiefly based.
Corn and oats sympathized with wheat price setbacks. Besides, corn crop reports were favorable.
Provisions were easy, influenced by selling on the part of packers. Without the help of a rising wheat market, corn showed a weaker tone and after a strong opening, sold off sharply, losing a good share of the gains yesterday. The cash market was steady relatively, and

Bulls Send Prices to New High Peak on Stock Market

NEW YORK, July 16 (AP)—The bull party succeeded in sending prices climbing again on the stock market today, despite continuance of a 12 per cent rate for call loans, and considerable profit-taking in the rails. The market appeared to have recovered considerably from the uneasiness caused by the unexpected mid-month money pinch, and the day's operations piled up total sales of more than 4,500,000 shares.
More than three dozen issues were once more sent to new high prices, and the Associated Press index of 20 leading utility stocks rose 5.77 points to a record level. Bullish attentions quickly returned to the utilities, when the rails began to slip in realizing.
With call loans at 12 per cent, higher than at any time during June, and time money 1 of one per cent higher this week at 7 1/2 per cent, comfortable money conditions are still far from realization. In a few weeks the credit demands of the crop moving season will be felt, and unless the federal reserve acts to relieve the situation, no real money season is in prospect.
Business news, however, was favorable. Steel production was reported to have been stepped up sharply, an extraordinary development for this time of year. Otis Steel first to report second quarter earnings, gave its net for the period as \$1,630,218, or \$1.75 a share, a gain of nearly 80 per cent over the like period of last year. Auburn Auto showed net of \$8.05 a share in the quarter ended May 31, as compared to \$3.23 in the preceding quarter.
Auburn Auto was hurled up 38 points to 40 1/2, the highest yet, but closed at 39 1/2. Allis Chalmers rose more than 13 points to a peak price at 28 1/2, on reports that it will be split up this fall. Air Reduction, American Bank Note, California Packing, Commercial Solvents, Fleischmann and Hershey Chocolate were other issues rising sharply to record levels. American Locomotive and General Railway Signal sold at record prices.
In the utilities, Western Union, Standard Gas, Consolidated Gas, Public Service of New Jersey, North American, Louisville Gas and Detroit Edison were bid up 4 to 12 points to record territory.
American telephone fell back about 4 points, and closed more than 2 lower. American and Foreign Power, Burroughs Adding Machine, Otis Elevator, Youngstown Sheet and Tube, and Radio lost 2 to 6 points. Motors were quiet, and Coopers again were inclined to sag.
Foreign exchanges were steady, with Sterling Cables holding at \$4.85-1.16.

Boston Braves Trim League Leading Pittsburgh Outfit 4 to 1

Bob Smith Holds Pirates to Four Hits to Win Tilt Double, Triple Blows Feature Game for Beantowners

BOSTON, July 16 (AP)—Bob Smith held the league leading Pirates to four hits and the Braves defeated Pittsburgh, 4 to 1, here today. All the Braves' runs came with none out in the first, the result of walks to Richburg and Maranville, Sisler's double, Harper's infield single and Bell's triple.

Max Scorns Phil

NEW YORK (AP)—Phil Scott, British heavyweight, stumbled into more publicity than a whole staff of press agents could have stirred up when Max Schmeling refused to go through with a bout with Scott which Arthur Buelow, the German's deposed manager, signed for.

NEW YORK (AP)—Phil Scott, British heavyweight, stumbled into more publicity than a whole staff of press agents could have stirred up when Max Schmeling refused to go through with a bout with Scott which Arthur Buelow, the German's deposed manager, signed for.

Buelow, who has been removed in favor of Joe Jacobs, signed Max to fight Phil for Humbert Pugazy in Brooklyn in August. But the Germany Dempsey refuses to honor anything that Buelow had anything to do with. For this Max has been suspended by the New York state boxing commission.

While talk about this was at its peak a British promoter offered Jack Sharkey the equivalent of \$300,000 to fight Phil in London.

Germany Waits for Tennis Play
BERLIN, July 16 (AP)—With Germany meeting the United States here this week-end for the right to battle France in the Davis Cup challenge round, the eager attention of all Germany is focussed upon two young stars whose might has carried the fatherland to new heights in the tennis world.

Klein's Homers Win for Phillies

PHILADELPHIA, July 16 (AP)—Two home runs by Chuck Klein helped Philadelphia defeat Chicago today, 6 to 5, and end the long losing streak.

Two-Mile Parade Closes Reunion of Rainbow Division

BALTIMORE, July 16 (AP)—Veterans of the 42nd (Rainbow) Division, that outfit of American expeditionary forces which shattered the last desperate German drive against the allied lines along the Champagne front, tonight were scattering to the 26 states whence they came to attend the annual reunion. This marks the eleventh anniversary of that drive, with no place to meet next year.

Violinists to Give Noon Program From Station WSUI Today

Two violinists, Beulah Gordon, Mu. of Centerville and Robert Eaker, of Iowa City, accompanied by Edna Rahlf, Mu. of Iowa City, will give the following program over station WSUI Wednesday noon, July 17.

Trío in A minor, first movement—Arnold Mendelssohn
Ballet music from "Orpheus" Gluck
Adagio from concerto No. 9—Farewell to Cucullain—Kreisler
Miss Gordon
"The Loreley," old German. Silcher
Miss Gordon and Mr. Eaker

Johnson Stops Giants 5-0 in Tilt Pitcher Plays Stellar Role; Gets 5 Hits, Clouts Homer

NEW YORK, July 16 (AP)—The Cardinals hit Fred Fitzsimmons hard here today and up to their ears in the fourth game of the series with the Giants by winning the fourth game, 5 to 0. Sylvester Johnson gave McGraw's men just seven hits, and scattered them intelligently. Johnson also hit a home run against the roof of the left field stand with Wilson on base to score the first runs of the game.

IS LOUGHRAN "HOT"

MEMBER THE TIME LAMASKI KNOCKED HIM DOWN TWICE ALL HE GOT UP AND WON!

TOMMY LOUGHRAN. THE LIGHT HEAVYWEIGHT CHAMPION WHO HAS BEEN MIXIN' A LITTLE WITH A FEW HEAVYWEIGHTS...

SOME OF THE BOYS FIGURE THE WEIGHT WILL BE GOOD ENOUGH TO TAKE HIM...

By QUIN HALL
Is James J. Braddock, of Jersey, good enough to defeat Champion Tommy Loughran, of Philadelphia, at the light-heavyweight limit?

This is the question which is both exciting the fight fans today, and what will take from him in the way of a battle with Leo Lopuski, the Aberdeen Assassin smared him off the canvas, but Tommy shook the cobwebs out of his brain in the first rest period and came back to give Lopuski one of the sweetest boxing lessons ever staged in a ring and a Loughran has been conditioning at the old Paulino camp in Hoesick Falls, N. Y., the spot which is getting the reputation of being the most ideal training site in the world.

American Track Stars Leave for Germany

NEW YORK, July 16 (AP)—Five of the party of American track and field stars, who will invade Europe this summer, left on the President Roosevelt for Germany. Led by Erik K. Jellstrom of Georgetown, hurdler and organizer of the trip, they include Fred Sturdy of Yale, national pole vault champion; Leo Sexton, Georgetown all-around star; Dick Rockaway of Ohio State, world's record-breaker in the low hurdles; and Leo Leonard of the Boston A. A. national one-mile champion.

Three Indian Errors Give Athletics 6 Runs; Mackmen Win 7-5

Play Off Ninth Inning Tie; A's Use 3 Twirlers

Cleveland Hits Bob Grove From Box in Fifth

CLEVELAND, July 16 (AP)—Three Indian errors gave the Athletics six runs and allowed the Mackmen to win their third game in four starts, 7 to 5, here today, in ten innings.

The Indians batted Bob Grove from the box in the fifth and Jack Quinn got credit for his second victory of the series. A fumble by Tavenner when a double play would have been easy, gave the Mackmen their winning runs in the tenth.

Favorites Run True to Form in Trans-Mississippi Tourney

DENVER, Col., July 16 (AP)—Favorites ran true to form today as the surviving field of 16 entered the second round of play for the women's trans-Mississippi golf championship.

The first round of match play left Marion Turpie, of New Orleans, for three successive years the trans-Mississippi medalist and Mrs. O. S. Hill, the defending champion from Kansas City, as favorites for the final four-hole match Saturday.

In tomorrow's round, Miss Turpie opposes Mrs. T. S. Harrison of Denver, Mrs. Hill plays Mrs. C. N. Johnson of the Omaha Fields club in tomorrow's second round. The Louisiana star had little difficulty in putting out Mrs. L. M. Van Meter, former Colorado champion, 5 and 3, while Mrs. Hill was disposing of Mrs. George Jenkinson, Jr., of Denver, 5 and 4.

Ruth Replegh, of the Oklahoma state champion who is rated as a strong contender, won her way through the first round by eliminating Mrs. J. Q. Kendrick of Kansas City, 3 and 2.

Golfers Complete Third Round of Tournament Play

With only a few defaults and many matches played and fought out, the July golf tournament at the Iowa City Country club completed its third round in all four flights. Classes A and B and their consolation flights are now in the semi-final round.

Marc Stewart won his way into the semi-finals in class A by a defeat over Burt Ingwersen, 7-6. Marc, a university golfer, was the victim of an upset in the June tournament when he lost to Coach Ingwersen. Stewart is scheduled to meet Kenneth Dunlop for possession of the upper bracket in the final round. Dunlop won over J. L. Kadzihn, 2-1. In the lower bracket Fred McChesney will fight it out with Don McClain for the final round honors. McChesney defeated James Burns, 1 up, and McClain won by default from Vern Bales.

Steve Smith Takes Only Minute to Win Featherweight Bout

CHICAGO, July 16 (AP)—Steve Smith, Bridgeport, Conn., featherweight, required about one minute of the first round of an eight round final bout, in which to knock out Frankie Garcia, Stockton, Cal., tonight at the Logan Square arena.

A right to the jaw sent Garcia down for a count of two after 50 seconds of fighting, and a left hook to the face finished him.

Al Crisp, California, and Harry Forbes, Columbus, O., featherweights, fought eight rounds to a draw in the semi-final and John Erickson, Swedish heavyweight, stopped Roy Townsend, New York, in the third round of another eight rounder.

Bobby Hynds, welterweight from Decatur, Ill., scored a technical knockout over Jack Landman of Omaha, in the final round of a four round preliminary.

Iowa Men Invent New Radio Circuit

KNOXVILLE, July 16 (AP)—Three local men—Ray Smith, Glenn Fee and Vernon Sell—have made application for a patent covering a radio circuit made to operate on the 22-volt direct-current farm lighting systems found on many farms of the middlewest.

Experiments have been going on for several months, continuous tests 24 hours having proved satisfactory. No batteries are needed with the equipment.

An eastern radio manufacturer at present is building the sets, but the men plan to start manufacturing here in the near future.

W. C. T. U. Holds Forum

SIoux CENTER, July 16 (AP)—A forum will be held here tomorrow under the auspices of the Sioux county W. C. T. U. Mrs. Jeanette Mann of Boston, Mass., will be leader of the all-day session, and Ed Campbell, eleventh district congressman, will be the principal speaker.

Algona Dedicates Pool

ALGONA, July 16 (AP)—Kossuth county's diamond jubilee ended today with the dedication of a \$25,000 municipal swimming pool here. The new Ambrose A. Call state park near here was also dedicated as part of the three day celebration of the seventy-fifth anniversary of the founding of Algona by Ambrose and Asa C. Call.

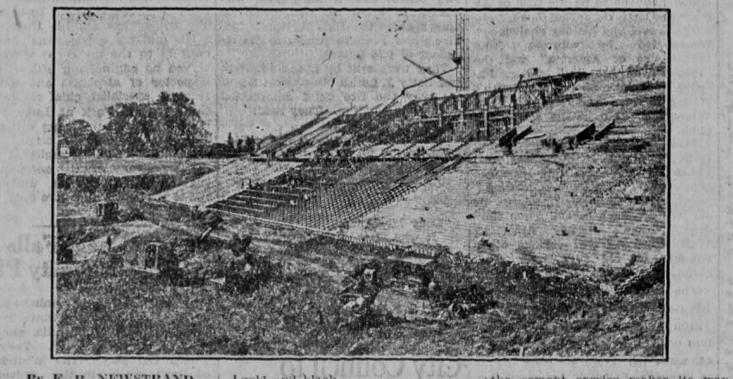

Sullivan K. C.'s Divodi

ST. PAUL, July 16 (AP)—My Sullivan, St. Paul welterweight, knocked out Andy Divodi, New York, in the third round here tonight. A short left hook followed by a right hook sent Divodi to the canvas after one minute and 44 seconds of fighting in the third round.

TILLIE THE TOILER—

Men, Machines, Horses Erect New Stadium; Concrete Nearly Poured

By E. R. NEWSTRAND

The whirring of motors, the clattering of horses hoofs upon a bed of crushed rock, the pounding of hammers, the clanking and grating of steel, the spluttering fall of mortar, the shouting of workmen all combine in denoting the physical, mechanical, mental, and horse power which each day is contributing towards the completion of Iowa's new massive stadium.

Into the bowels of the earth has been dug the huge hole constituting the stadium bowl, thirty feet below grade level.

Crossing the excavation at regular intervals of space have been dug ditches, tiled, and filled with crushed rock. There are 27 of these, with two running lengthwise across the field.

Limestone, Turf

Placed over the complete field is a bed of crushed rock at least a foot in depth. On top of this is being laid a layer of black loam soil. Upon this soil green grass will grow in the near future. There will clatter the feet of future wearers of old gold and black.

Out of the earth itself protrudes the huge wall of nature's own contributed substances. Sturdy brick walls are in the stages of formation. Men are now laying the brick, completing the frame work and filling of cement forms.

More than 250 men are employed in its construction. Many of these are students, easily distinguished, brown as Indian, stripped from the waist up.

Seats are now being laid on the west end; concrete is being filled in on the east end. When finished the row up on rows of seats will hold a capacity crowd of 42,184 persons.

Time to Restle

On each side of the stadium are 73 rows, each 420 feet in length. By applying a few mathematical calculations these rows if spread out end to end would reach a distance of more than 12 miles. Walking from row to row would thus make a good hike for anyone enjoying the sport.

Only a few more days of cement filling remain. Throughout the day had to send home with a bad knee. "But to offset some of these misfortunes, Alexander, who has been sick for a month, is back with us now. He looks great and is ready to go. He will pitch in Boston, our next stop."

Billy Southworth Cheerful Despite Slump in His Cardinal Moundmen

By BRIAN BELL

Associated Press Sports Writer

NEW YORK, July 16 (AP)—Two months ago Billy Southworth, young manager of the St. Louis Cardinals, was in New York in high spirits. The Cardinals were up among the leaders, his veteran pitchers were clicking with almost monotonous regularity, and there did not seem to be a cloud in the baseball sky.

Today Billy the Kid again is in New York, fighting desperately to keep the National league champions out of the second division. To the credit of the freshman manager he did not lose his high spirits when his team began to skid and he is as cheerful as a manager could be after seeing his team win only a bare half dozen of its last 30 games.

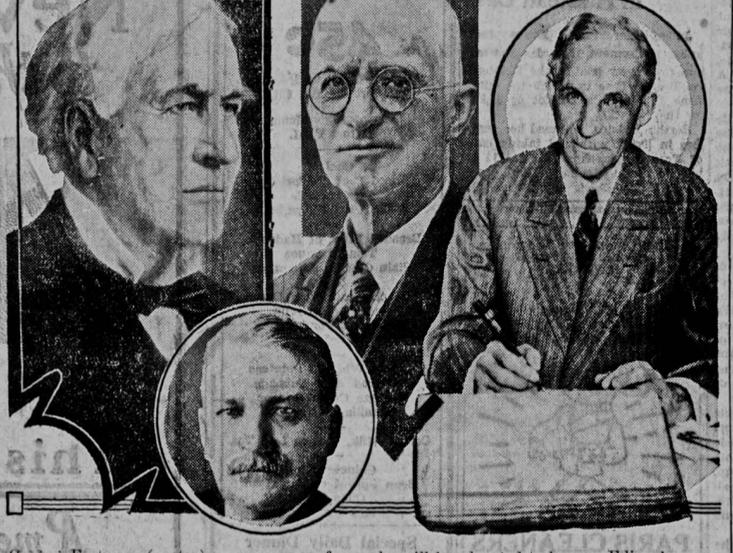

"What happened?" he was asked, "poor pitching?"

"Yes, the pitching has been bad," was the reply, "but we have had other troubles, too. The collapse of the pitching was infectious. Weakness in pitching communicates itself to the outfield and the players fail to come up with balls during a pitching slump that they would eat alive when the pitchers are going good."

"When a pitcher is eternally in the hole, the fellows behind him feel uncertain and then, too, they hate to see him humiliated."

"We have had our share of the bad breaks. Frisch, who by the way is not suffering from a charley horse but a pulled tendon, is missed at second base, and Hafey, another of the main cogs, got hit on the elbow, about the worst place he could have found with which to stop a ball. Selph, an infielder, we finally

THEY COMPILE EDISON SCHOLARSHIP TEST

George Eastman (center), camera manufacturer; Henry Ford (right), and Samuel Stratton (below) will help Thomas A. Edison compile the questionnaire to be used in selecting the youth who will be educated to become Edison's successor in invention. Boys from all of the states have been entered in the scholarship contest.

Woman Driver to Pilot Fastest Boat

COWES, Isle of Wight, July 16 (AP)—What is claimed as the fastest motorboat ever built has been launched here for Betty Carstairs, famous woman driver who expects to pilot the craft in international races at Detroit and elsewhere this year.

The boat is fitted with three airplane engines, similar in design to those used by Major Segrave's Golden Arrow, holder of the automobile speed record of 231 miles an hour, and by the winning Schneider cup seaplane. They are said to develop 3,000 horsepower.

3 Davenport Players Sold to Montreal Club

DAVENPORT, July 16 (AP)—Three members of the Davenport club of the Mississippi Valley league were sold by Manager Ed Reickoff to the Montreal club in the International league. They are Fred White and Orville Jorgens, right handed pitchers, and Tony Berka, third baseman. The cash price is reported to be in the neighborhood of \$6,000.

Berka is a Milwaukee semi-pro product and one of the leading hitters. The rest will report to Montreal in September.

Mercury Reaches 100

BISMARCK, N.D., July 16 (AP)—The highest temperature of the year was recorded here today when the mercury reached 100. Minot also had a new season's record with 98.1-2.

Grant Permit for Bus

TOPEKA, Kan., July 16 (AP)—The public service commission today granted application of the Missouri Pacific Transportation company, a subsidiary of the Missouri Pacific Railway company, to operate a bus line through Kansas between Kansas City and Omaha.

Tommy's Bogey Man

If Tommy Loughran, world's light heavyweight champion, sees this fighting attitude of Jimmy Braddock, above, of Jersey City, in his dreams, how can he get any sleep? This is Jimmy's best fighting pose. He'll spring his action when he gets into the ring with Tommy for the title at the Yankee stadium in New York. Meantime he's working hard in his training camp at Saratoga Lake, N.Y.

Reickoff Takes Medalist Honors

Bob Reickoff, a member of the university golf team, won the low medalist honors out of 83 entries of the tri-state golf tournament which opened Monday, July 14, at Sheldon. Reickoff's score was 74.

Other good scores made were: Strens 77, Lang 78, Thomas 78, Wenig 79, Rehrock 80, Joslyn 82, and Clarke 82.

Sheldon was the winner of the four man team play. C. H. Whitehead captured the veteran's trophy with a score of 96.

Emmett Pare Still Undefeated in Play in Western Title Go

CHICAGO, July 16 (AP)—With Emmett Pare of Chicago, defending title holder, maintaining his terrific pace, seeded stars, with one exception, survived the second day's singles play in the western tennis championships at Skokie country club today.

Pare faced through his third round match with Richard Cagney of Chicago, winning by 6-0, 6-0.

Hugh McArthur, Los Angeles, holder of the Pacific coast inter-scholastic championship, and one of the seeded players, fell before Jack Hirtz of Chicago, 6-2, 6-2.

Keith Gledhill, Santa Barbara, Cal., second seeded entrant, also came through his third round test, downing Frank Murphy, Winnfield, Kan., 4-3, 6-1. Four seeded players were forced to go three sets to advance. Ellsworth Vines, Pasadena, Cal., downed Joe Thelen, Milwaukee veteran, 8-6, 1-6, 8-6; Leroy Wier, Chicago, defeated Frank O'Connell, Chicago, former Big Ten champion, 3-6, 8-6, 6-0; Eugene McCaffrey of New York, defeated A. M. Dahlquist, 6-2, 5-7, 6-2, and Cliff Sutter, New Orleans, bested William Schofield, Chicago, 6-4, 4-6, 6-2.

Hesson Confesses Part in Robbery

Tells Local Police of Hold-up in East on June 26

Just before leaving for Hagerstown, Md., in the custody of two officers sent here for him, Paul R. Hesson, 22 years old, who had previously declared his innocence to a bank robbery charge, confessed to his part in the crime.

He admitted to police that he and C. E. Riggs, already in custody and confessed at Hagerstown, robbed the Maugensville branch of the Hagerstown bank and trust company of \$82 on June 26. He further declared that he held Cashier F. A. Stuffer at the point of a gun while Riggs slugged him with a rubber mallet.

Hesson told police that he and his companion were novices at robbery and that they lost their nerve the first time they attempted the robbery. Later they returned and "pulled the job" but the cashier regained consciousness and noted the license number of Hesson's car as they disappeared.

He stated he fled the east at once, leaving a wife and child, and came west seeking work. He arrived in Iowa City July 4 and obtained work as a laborer on a west side construction job. He was captured by Chief of Police C. F. Benda, Saturday and although the chief was unarmed Hesson accompanied him to the station, all the time pleading innocence of actual part in the affair. He said companions took his car and may have used it in the robbery.

He was taken back east yesterday morning by Officers Roger Boone and John Gouff who were sent here for him.

News About Town

Lion Club Meets
The Iowa City Lions club will meet this noon at the Jefferson hotel for their regular weekly luncheon. Mr. and Mrs. Paul Olson will entertain club members with a short program.

Receives 10 Days in Jail
Smith Redd, Negro, was fined \$20 and costs in Police Judge Charles L. Zager's court yesterday on a charge of intoxication. When he was unable to pay the fine he was given 10 days in the county jail.

One Building Permit
A building permit was issued in the office of the city building inspector yesterday to Joe L. Connon for the construction of a \$9,750 dwelling and garage in Manville heights. The contractor was not named.

New Grocery Store
The Piggy-Wiggy serve-yourself store will open in the remodeled building at 109 E. College street Saturday. Edward Rebal, 531 Rundell street, formerly of Cedar Rapids will manage the latest addition to the chain of more than 3,000 Piggy-Wiggy stores.

McIntire Man Dies
Charles A. Short, 60 years old, of McIntire, died Monday evening at a local hospital. The body will remain at the Schneider funeral home, pending word from the family.

Rural Conference Anticipates Crowd

Leaders From Various States Attend Four Day Session

AMES, July 16 (AP)—Meeting for the first time west of the Mississippi river, the American Country Life association conference, which opens here tomorrow, is expected to attract about 1,700 persons. The group includes 30 leaders from all parts of the country with approximately 1,500 persons from Iowa and nearby states who will attend various of the meetings during the four day session.

Many of the country's outstanding leaders in adult education, farm organization, health and social welfare, and other related fields appear on the program. The conference is divided into ten sections with intensive work assigned to each. State and national leaders will preside over the meetings of the various sections.

Frank O. Lowden, former governor of Illinois and prominent candidate for the republican presidential nomination last summer, as president of the association, will head the conference. He will deliver the principal address on the opening day and will have a part in the program on the other days.

Bell Appeals Case to District Court

The case of Mrs. James Taylor, vs. Edwin "Whitey" Bell for disturbing the peace was appealed to district court from police court yesterday when Bell was found guilty by Judge Charles L. Zager.

Mrs. Taylor and her husband alleged that Bell called her improper names at her place of residence. Bell in turned introduced his wife and two children as proof that the testimony of Mrs. Taylor was incorrect. The witnesses however failed to convince Judge Zager and he declared Bell guilty and was prepared to fine him.

William F. Murphy, attorney for Bell, appealed the case to the district court. Appeal bond was set at \$25 and will be signed this morning. Will J. Hayek, city attorney, prosecuted the case.

Robert Price Dies After Long Illness

Robert Price, 57 years old, of North Liberty, died at his home early Tuesday, after an illness of four months. The deceased was born near North Liberty and had lived in that community all his life. He had been for years engaged in the blacksmith and hardware business.

He is survived by his wife, Mrs. Anna Price and two children, Mrs. Ida Roberts of Davenport and William Price of Cedar Rapids. He leaves one brother, two sisters, and three grandchildren.

The body is at the Schneider funeral home pending funeral arrangements.

Rabbit Causes Man to Suffer Accident

Ernest Briggs, 52 years old, of Horton, suffered a broken back yesterday and is now in the children's hospital in a serious condition. Briggs was driving a team of horses through a hayfield when they shied at a rabbit, bolted, and threw him under the hayrake.

The extent of the injury will be known today after the x-ray pictures are examined. Mr. Briggs is confined to the children's hospital instead of the university hospital as at first reported, his case coming under its jurisdiction since it is a serious bone injury.

County Clerk Files 4 Birth Certificates

Four births were filed with the county clerk yesterday. They were: Louise Lyle, born June 20, to Mr. and Mrs. Louis Lord, R.F.D. 7; Mabel Jane, born July 12, to Mr. and Mrs. Howard Goodman of Oquawka, Ill.; Jeanne Estella, born July 12, to Mr. and Mrs. Ray Hood of Davenport; and June Elizabeth, born June 28, to Mr. and Mrs. William Reinhardt of McGregor.

200 FLEE BEFORE MOB WHEN NEGRO SLAYS OFFICER

Fleeing before a mob which gathered when a Negro killed a policeman, the entire Negro population, about 200, left North Platte, Neb., by train, auto and on foot. Picture shows mob swarming about the house in which the Negro defied officers for several hours before killing himself. Inset shows Ed Green, slain policeman.

Associated Press Photo

Libraries Use Modern Advertising to Inform Public About Old Books

Posters on Exhibition at School Show Modern Trend

An exhibit arranged for the benefit of approximately 25 university elementary school first grade pupils, who wished to know all that could be known about fire fighting apparatus, Fire Chief Herman Amish is the recipient of two letters.

They were sent by Susan Showers and Betty J. Smith in appreciation of the way the fire chief entertained them at the station. They read:

"Dear Mr. Amish,
We liked to come. Thank you very much for letting us come to the fire apartment. It was fun to see you come down the poles.
Lovingly,
Susan."

"Dear Mr. Amish,
It was very nice of you to let us come to the fire department. It was very interesting also. It must be hard work to put out fires.
Sincerely Betty June."

Girls Write Note of Appreciation to Fire Chief Amish

This gives to the exhibit the title, "Shades of our ancestors," which happens to be the title of Alice van Carrick's recent book.

The travel and history shelves are represented by volumes from "Chronicles of America" and the "Pageant of America" series, Farris' "Historical Shrines," Smith's "Colonial Days and Ways," and Wharton's "Life in the Early Republic."

From the fine arts shelves are Hershey's "Homes of our ancestors," Eberlein's "Manors and historic homes of the Hudson valley," Northard's "Historic Doorways of Old Salem," Earle's "Old Time Gardens," Allen's "Early American Wall Painting," and various other volumes on old furniture, silver, china, pewter, glass, and quilts.

The natural science shelves contributed Brearley's "Time Telling Through the Ages," with its chapters on American clocks and watches, while the social sciences appear in "Two Centuries of American Costume" and Sabine's "Notes on Dialects and Dialecting." To strike a different note, Carl Sandburg's collection, "The American Songbag" is included.

States Flood Iowa City Chamber of Commerce With Vacation Literature

Are you taking an auto trip or planning a vacation? If you are the local chamber of commerce may be able to help you. It has about 12,000 pieces of literature from all the states of the union.

Recently one oil company sent the local office 2,500 maps from 14 different states of the union. Booklets showing the hotel accommodations, roads, garages, camps, parks and all the information needed on a trip may be had by calling at the office in the American legion community building.

Booklets on Paris
The United States department of interior publishes booklets dealing with all the national parks. Included in these booklets are the history of the parks, maps showing the position of important places of interest, and any other information that the public must know in order to enjoy the park.

Many inquiries are made at the chamber of commerce office for material dealing with Canada, the roads, and the hotels. European travelers are few in number, evidently, as there are very few requests for materials dealing with foreign countries.

Miss Sutton states that if persons will call her and let her have their problems a few days before they intend to leave she can map out the most enjoyable route.

Fiber Plants on Exhibit in Botany Department, Part of State Herbarium

By VERNON GIBSON
Sixty-two different fiber plants, all of them used on a large scale in the economic world, form an exhibit which is a part of the state herbarium in the botany department.

Although generally unknown, fibers from such plants as the banana, the pineapple, and the cocconut have commercial value. From coir—the fibrous material of the cocconut—heavy marine ropes are made, resistant to salt and water. A smooth, firm rope is made from the bark of the basswood tree.

Reeds of the papyrus, the aquatic plant from which ancient Egyptians made their manuscripts, are in the exhibit. A specimen of the black spruce may also be seen. The wood from this tree, according to Prof. Walter F. Loehwing, furnishes paper pulp par excellence. For a tree it has a fiber that is exceptionally long and tough.

It is admitted as a matter of course that the cotton crop is of great economic importance. "The crop also has definite political significance," pointed out Professor Loehwing, "because 70 per cent of the crop is exported to England where it is made into cloth. Some of this cloth we buy back, and, of course, pay a tariff on it."

The wide range of useful products derived from cotton is little realized by many persons. From the seeds are obtained cosmetics, salad oil, cooking oil, oleomargarine, soap, and washing powder. Other products from cotton seeds are candles, linoleum, oil cloth, roofing tar, and artificial leather.

From the linters or hulls of the seeds, stuffing material is derived for cushions and mattresses. Rope and twine are made from the low-

Lue Rohret Files Plea for New Trial in Halstead Case

Judge Harold D. Evans took under advisement yesterday the motion for a new trial in the Halstead vs. Rohret case in which the jury, June 11, found a verdict of \$7,500 for the plaintiff.

Bertha Halstead claimed her services in living with and taking care of Francis Dickelman from 1911 to his death in January, 1927 were worth \$7,500. She is suing Lue Rohret, executor of the estate of Francis Dickelman. She claims that there was an oral contract that he returned her care of the deceased had in return for 100 acres of land which was never given to her.

At the time the verdict was given the judge allowed 10 days during which exceptions and motions for a new trial could be filed. On hearing the motion for a new trial yesterday, Judge Harold D. Evans took the matter under advisement. The attorneys for the claimant are F. F. Messer and A. E. Maine, and the counsels for the defense are W. M. Davis and J. M. Otto.

Purdue Professor to Teach at Ames

Bevan to Take Charge of Aeronautical Engineering

AMES, July 15 (AP)—Major William A. Bevan of Purdue university, whose appointment as professor of mechanical engineering in charge of aeronautical engineering at Iowa State college was approved by the state board of education last week, will take up his duties in the department in September.

According to plans announced by President E. M. Hughes, the work in aeronautical engineering at the college will be, expanded further under Prof. Bevan's direction from the basic work which was established two years ago.

"The instructional work will be expanded with the view of offering students in mechanical engineering a strong option in aeronautical engineering in their junior and senior years" President Hughes said. "The students who follow such a course will be qualified with the government as junior aeronautical engineers."

Major Bevan is a graduate of Iowa State college in the class of 1904 and subsequently taught chemistry and physics before going to Oregon state college in 1912. He also has obtained degrees in aeronautical and mechanical engineering from the Massachusetts Institute of Technology and Purdue University.

His military service was confined entirely to the air corps where he served as engineering officer, pilot, inspector of airplanes and motors, research specialist, chief engineer of the 10th Air Park at Luke Field, Hawaii, and commanding officer of the 84th Division air corps. He was an observer and assistant pilot in trans-continental aeronautical engineering at Purdue university and is at present on active duty with the air corps reserve.

Old Gray Mare Is in Court Now

ASHEVILLE, N.C., July 16 (AP)—The old gray mare is in for it now. Asheville police have brought in a riderless horse in whose saddle bags were several gallons of liquor. Some doubt exists in official circles as to whether the equine beast can be charged with violating federal prohibition laws. If so, the question arises and is baffling the best sleuth in the district, shall the horse be brought into court of the court moved to the stable?

Mother of Three to Receive M. A. in Child Welfare

Mrs. Chester A. Smith, the mother of three young children, will receive her M. A. degree from the child welfare department this week. Mrs. Smith has completed her thesis and her written and oral examinations in the spare time found after caring for her three children.

Betty Jean, 6 years old, is a pupil in the first grade of the university elementary school, and her sister, Bonnie Marguerite, 3 years of age, is a pupil in the pre-school group two. Craig Arthur, 16 months old, is the youngest of the family.

Mrs. Smith holds a degree of bachelor of arts from the University of South Dakota. She also studied expression and dramatic production in the academy of speech arts in Boston.

The greater part of the work for her advanced degree was done in experiments with 24 year old children in the pre-school laboratories of the child welfare research station of the university. Her minor was completed in the speech department. Mrs. Smith, after receiving her degree, will accompany her husband with the three children to Tucson, Ariz., where Mr. Smith will teach in the college of law in the University of Arizona. Mr. Smith has been teaching in the college of law here for the last two years on a temporary professorship.

8 From Cedar Falls See University Play

Six students, accompanied by two instructors from Iowa State Teachers college at Cedar Falls, motored to Iowa City yesterday. They attended the play, "The Whitehead Boy," given in the university theater last night.

The instructors were Hazel Strayer and Winifred Tuttle, of the interpretative speech department of the college. The students were Helen Swedberg, Ruth Marinin, Irene Freeman, Nyra Gaskell, Stanley Wood, and Ralph Childs.

They are all students in the public speaking department of the college, and expected to return to Cedar Falls last evening.

City Council to Consider Paving of Clinton Street

Resolutions dealing with the paving of Clinton street in the business district are expected to occupy the city council, meeting in adjourned session, tonight at 8 o'clock in the city hall.

The proposed paving program would include Clinton street from Jefferson street south to College street, a distance of three blocks. Other paving projects may also be introduced.

According to Leo Kohl, third ward alderman, who will introduce the paving proposal, the council wishes to hurry the paving before the opening of the fall term of school, Sept. 23.

Clinton street serves as the main thoroughfare for the campus, being directly opposite Old Capitol, and in addition carries a large percentage of the city's heavy traffic. It is at present paved with brick and is extremely rough and uneven in many places.

LAND TRANSFERS

Four deeds were filed with the county recorder yesterday. They were, a corporation deed, from \$16 N. Dubuque street, corporation (Amor H. Sargent, president, and Marvin H. Dey, secretary) to Ralph S. Crowl, the southwest corner of Outlot 19 in Iowa City.

The warranty deeds were: G. T. W. Patrick and wife to Ralph S. Crowl, lot 5 and west 20 feet of lot 6, all in block 73 in Iowa City; Ralph S. Crowl and wife to Dubuque and Brown streets realty corporation, south 85 feet of lot 5, and south 85 feet of west 20 feet of lot 6, all in block 73, Iowa City; and Ralph S. Crowl and wife to Dubuque and Ronalds street corporation, the south 85 feet of lot 5, and south 85 feet of west 20 feet of lot 6 all in block 73, Iowa City.
