HAGUE DRAFTS NEW PAYMENT PLAN

Zeppelin May Sight Pacific Coast This Afternoon; Liner Should Arrive Early Monday

Winds Enable Craft to Hit 80 Mile Clip

Dirigible About 2,400 Miles Northwest of San Francisco

NEW YORK, Aug. 24 (AP)—Copyrighted dispatches from correspondents aboard the Graf Zeppelin to the New York American and allied Hearst newspapers indicated the dirigible, if favorable winds continued, should sight the Pacific coast at 5 p.m. Sunday, Pacific coast time, 7 p.m. central standard time.

At 3 p.m. Saturday, central time, the zeppelin was 2,135 miles west of Seattle and 2,400 miles northwest of San Francisco.

Winds Favorable

At its present rate of progress, it was said, the ship would reach Los Angeles early Monday. Favorable winds, at the time the dispatches were filed, had pushed the speed of the dirigible up to 80 miles an hour.

TOKYO, Aug. 25 (Sunday)—(AP)—*With a third of the Pacific ocean* behind her, and speeding on to the half way mark on her 5,400 mile flight to Los Angeles, the Graf Zeppelin at midnight Saturday was racing toward America at a speed of nearly 80 miles an hour.

Her position at midnight Saturday Tokyo time (9 a.m. Saturday C. S.T.) was more than 500 miles to the south of the western Aluetian islands and approximately 2,000 miles east of Tokyo.

This was 32 and ½ hours after she left Kasmumigaura naval airfield and indicated a speed of approximately 62 miles an hour as an average for the run.

Pick Up Messages

The Ochiishi government wireless station picked up numerous messages from the zeppelin during yesterday and today.

The Graf announced she was picking up speed again since weather conditions began improving after nightfall last night and was making a speed of 70 miles an hour.

She had met splotchy weather during the run from midnight to midnight. Interspersed with periods of fair weather, were rain, heavy fogs, clouds and head winds which sometimes materially reduced her speed.

Changes Course

The directly eastward course which she followed most of Friday was changed early Saturday to keep fairly closely to the old sailing route of the windjammers from Yokohama to San Francisco. She followed the east northeast course in a general way throughout Saturday with minor deviations to seek more favorable conditions.

The general trend of her course late Saturday was away from the windjammer route toward the steamer lanes of the great circles.

The Graf informed the Ochiishi station she was in communication with American wireless stations from which she had received accounts of the preparations for her reception at Los Angeles. These had greatly increased the eagerness of the passengers to reach the goal of the third stage of the flight around the world.

May Avoid Seattle

The messages from the Graf indicated she might have to omit her flight over Seattle in order to avoid a low pressure area reported off the coast of Canada. She would be obliged in that case to strike the Pacific coast of America further south, probably in the region around San Francisco.

The big dirigible was nearing the 180th parallel of longitude, or "international date line," though none of the messages reported any passengers sitting up to watch the calendar change.

Minnesota Man Will Head Danish Baptist Conference for Year

RACINE, Wis., Aug. 24 (AP)—The Rev. A. W. Warren of Clarks Grove, Minn., was elected president of the Danish Baptist conference of America, meeting here today. Clarks Grove was selected as the meeting place of the next biennial conference.

Other officers elected by the conference included:

Corresponding secretary, the Rev. J. Stregmund, Albert Lea, Minn.; secretary, the Rev. J. P. Peterson, Elkhorn, Ia.; treasurer, the Rev. Jacob Anderson, Humboldt, Ia.

Members of the board of trustees: A. Carlson, Albert Lea, Minn.; Mrs. A. Kjarsgaar, Newell, Ia.; J. F. Nelson, Harlan, Ia.; the Rev. J. D. Vinding, Cedar Falls, Ia., and Andrew Hanson, Clarks Grove, Minn.

To Direct Aviation

Maj. Clarence M. Young of Des Moines, has been appointed assistant secretary of commerce in charge of aeronauties. He succeeds W. P. MacCracken.

Large Crowd Attends Fair

65,000 Persons Attend on Second Day

DES MOINES, Aug. 24 (AP)—The second day of programs at the Iowa state fair was attended by a crowd estimated at 65,000 which thronged the grounds and finally congregated at the track to watch the derby day races. Many soldiers and sailors of the World war took advantage of free admittance offered to them on *legion day*.

The livestock judging contest was won by the Linn county boys' and girls' team with Page county ranking second and Franklin third. Individual honors in judging were won by Evert Neal of Mt. Bernon. Ralph Thompson and A. J. Marken, both of Hampton, ranked second and third respectively. These three with Joe Boeing of Ackley, who ranked fourth, will share in the $550 worth of scholarships offered by Iowa State college.

Black Cap, an Angus calf shown by Alvin Jorgenson of Elkhorn, Shelby county, was judged the winner of the baby beef show. The reserve shampionship was won by Blanchard Pride, a Hereford shown by Hugh Septer of Grant. This is the fourth *consecutive* year that a calf from Shelby county has won the championship.

Marshall county made a clean sweep in the county groups again this year, finally winning the championship on the Angus group.

Naval Pilot Dies in 300 Foot Plane Drop

EUGENE, Ore., Aug. 24 (AP)—J. Demoshock, 32 years old, naval chief aviation pilot stationed at San Diego, Cal., was killed here today when his plane went into a tail spin at a 300 foot altitude and crashed on the Eugene airport.

Demshock with six other naval flyers in individual planes, took off for San Diego, making a perfect run down the field.

AT THE AIRPORT

Forty-one cars were parked at the airport last night when Pilot C. Coppin landed the west bound mail ship at 10:43 o'clock. Ten pounds of airmail arrived and eight were sent out.

A dense fog blanketed Smith field as the night mail arrived. It was difficult to distinguish the landing lights in the far corners of the port. Visibility was better higher in the air.

P. B. Shaw, local aviator, has a personal invitation from the state fair board to pilot his Air-King biplane, "Iowa City Daily Iowan," to the fair. The invitation stated complimentary tickets awaited himself and passengers.

The night 'Frisco mail, enroute to New York city, stopped at the airport at 5:15 p.m.

Dean Williams Reports Three New Professors

School of Engineering Makes Appointments to Faculty

Three new appointments to the faculty of the college of engineering were announced yesterday by Dean C. C. Williams of that college. Fred W. Krotzer of Milwaukee will be assistant professor of electrical engineering, Joseph W. Howe, an alumnus of Iowa, will be assistant professor of mechanics and hydraulics, and Chesley J. Posey of Milwaukee will be an instructor in mechanics and hydraulics and will also teach some work in drawing.

Professor Krotzer succeeds Prof. A. P. Strom, who has left the Iowa faculty to take a position with the Westinghouse Electric Manufacturing company. The new faculty member received his B.S. in electrical engineering at Kansas State Agricultural college in 1911, and has done advanced work at the universities of Michigan and Wisconsin.

Teaches in Milwaukee

For the last seven years he has been professor of electrical engineering at the School of Engineering in Milwaukee. His other teaching experience includes instruction at Vanderbilt university at Nashville, Tenn., Purdue university at Lafayette, Ind., and the Milwaukee Vocational school at Milwaukee. His practical experience has included two years of work with the Westinghouse company.

He is a member of A.I.E.E., S.P.E.E., and A.A.A.S. He and his wife will make their home at 232 S. Summit street.

Professor Howe received his B.S. degree from the University of Iowa in 1924 and his M.S. from Iowa in 1925. He will succeed Prof. D. D. Curtis, who is the new head of the department of mechanics at Clemson college, S.C.

Returns to Alma Mater

The Iowa alumnus has for two years been an instructor of mechanics at the University of Illinois, and has had several years of practical experience in addition to his teaching. He is an associate member of Sigma Xi and a member of Tau Beta Pi. During the last summer he has been a surveyman in the corps of engineers, U.S. army, with his headquarters at Rock Island.

Mr. Prosey has had several years practical and business experience before coming to Iowa as a member of the faculty. At the present time he is with the Worlen-Allen company in Milwaukee.

He received his B.S. degree from the University of Kansas in 1926 and his M.S. from the University of Illinois in 1927. He is a member of the society of American military engineers, and is a junior of the American society of civil engineers.

Pilot Shaw to Carry Passengers All Day From Smith Airport

Those Iowa City persons who like aviation and those who want to take a ride in the clouds to see Iowa City and the university from the air will have their opportunity today. Paul B. Shaw announces that he will carry passengers at the field all day, giving persons rides over any part of the vicinity they desire.

Fred Welch, 19-year-old parachute jumper, will leap from the plane during the afternoon, "with nothing but a piece of cloth to keep him from being dashed to pieces below."

Pilot Shaw will also make several "dead-stick" landings. He will fly the plane high and far from the field and then, with the motor stalled and the propellor stopped, he will glide to the field and make a landing. He will make these to show that a plane does not depend entirely upon its motor, and that motor trouble does not worry a good pilot.

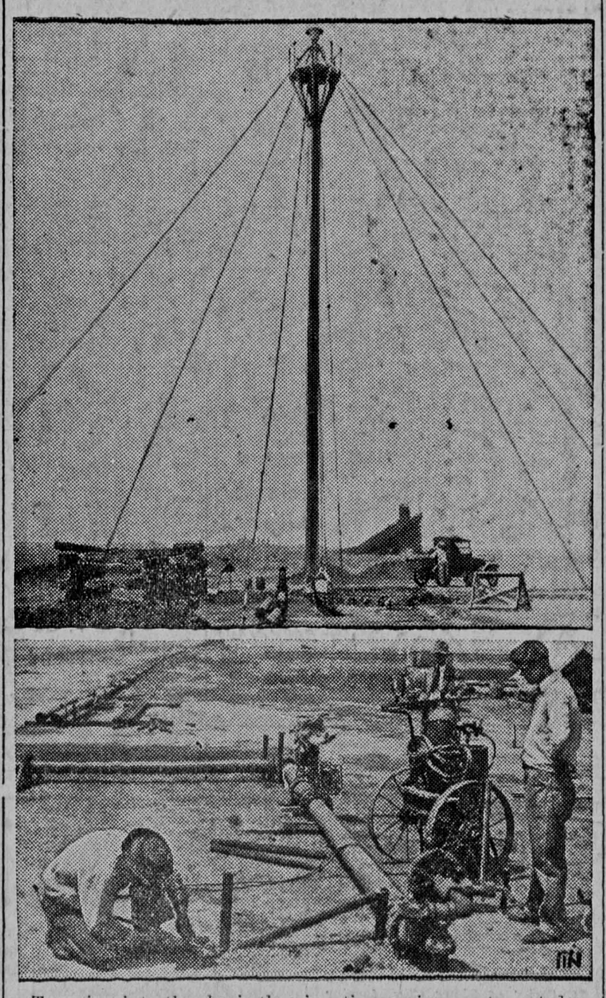
NEW YORK, Aug. 24 (AP)—Dr. Jeremiah Whipple Jenks, 72 years old, research professor of government at New York university and president of the Alexander Hamilton institute, died today.

THE WEATHER

By The Associated Press

IOWA—Partly cloudy Sunday, local thunderstorms by or before night, cooler northwest portion. Monday partly cloudy and cooler.

WHERE "ZEP" WILL REST AT LOS ANGELES



Towering into the sky is the gigantic mooring mast erected recently at Los Angeles to secure the Graf Zeppelin when it arrives from Tokyo. Below, the pipe lines and pumps through which the fuel supply for the motors of the Graf Zeppelin will pass before she starts on the final lap of her world cruise ending at Lakehurst.

Aviators Gather at Cleveland for National Air Races, Show

100,000 Greet Flyers on Initial Day

CLEVELAND, Aug. 24 (AP)—Aviation, the young new giant of industry, opened its 1929 national air races and aeronautical exposition here today with an assemblage of aircraft, pilots, engineers and equipment, the largest in its history.

Thousands of airminded persons from all over the United States and many foreign countries joined with Clevelanders into a crowd of more than 100,000 to watch the parade and ceremonies of the formal opening.

Three cross-country derbies were approaching Cleveland, one for women from Santa Monica, Cal., another for men from Portland, Ore., and a third from Miami. At Dayton, army and navy flyers were resting for their series of stunts at the opening of the races tomorrow.

For the first time in history, national air race spectators will get to see how motorless aircraft performs. Gliders, with pilots sitting out on precarious seats in the open and also in enclosures will be hitched to planes and automobiles to start a series of attempts to approach the record of Robert Kronfield of Germany who soared to an altitude of 6,800 feet and coasted in the air 62 miles.

Aviators will attempt to jump with parachutes to a designated mark, and a team of crack sunt flyers from the Waco Aircraft company, Troy, O., will put their ships through a galaxy of stunts.

Lighter-than-air craft also will have its day with four semi-rigid dirigibles from the Goodyear-Zeppelin company and the Detroit Aircraft corporations new metal clad dirigible soaring overhead.

The exposition, taking up every available inch of the 200,000 square feet of floor space in the Cleveland public auditorium, opened after a spectacular parade depicting, with flower-decked airships, the modern advances in aviation.

15 Aviatrices Land at East St. Louis

EAST ST. LOUIS, Ill., Aug. 24 (AP)—The 15 contestants who made a one-stop flight from Wichita today in the national women's air derby, Santa Monica to Cleveland, landed at Parks airport near here this afternoon, one after being forced down and two others with minor injuries.

May Haizlip of Kansas City, failed to arrive with the group which landed within one hour and 28 minutes after 2:20 p.m. but she repaired a broken gasoline line at Washington, Mo., and with the aid of a farm hand she continued her flight.

Blanche Noyes of Cleveland, the first to arrive here, smashed the landing gear of her plane as she alighted, and the plane of Neva Paris of New York, nosed into an adjacent roadway, stopping with tail up. Neither aviatrix was injured. Their planes will be repaired in time for the take-off for Terre Haute, Ind., at 8 o'clock tomorrow morning.

Official computation of elapsed time to her showed Mrs. Louise M. Thaden retained the lead. The contestants ranked as follows:

Heavy planes:

Mrs. Louise McPhetridge Thaden, Pittsburgh, 16:27:57; Gladys O'Donnell, Long Beach, Cal., 17:14:33; Ruth Nichols, Rye, N. Y., 17:50:37; Amelia Earhart, Boston, 17:57:21; Blanche Noyes, Cleveland, 20:32:22; Ruth Elder, Hollywood, 21:36:06; Neva Paris, Great Neck, L. I., 23:44:22; Mary Von Mack, Detroit, 23:54:22; Opal Kunz, New York, 28:08:30; Vera Dawn Walker, Los Angeles, 29:04:23.

Official computation of elapsed Light planes:

Mrs. Phoebe Omlie, Memphis, 20:23:32; Edith Foltz, Portland, Ore., 22:43:28; Thea Rasche, Germany, 25:15:09; Mrs. Keith Miller, Australia, 31:28:40.

Miss Haizlip's time was not computed, because of her failure to record her arrival at Kansas City, the olny stop on the flight from Wichita today. She was not one of the leaders.

Three Brothers Die From Burns Received When Tank Explodes

DUNDEE, Minn., Aug. 24 (AP)—Sprayed by burning gasoline when a tank exploded during a fire here last night, three brothers died today from their burns, two other men were reported in a critical condition, and a half dozen others were less seriously hurt.

The dead are Raymond Hullerman, 19 years old, Albert, 22 years old, and Frank 27 years old, sons of Mr. and Mrs. Barney Hullerman. The injured are Eugene and Paul Appels, about 16 and 18 years of age respectively.

China Plans to Put Large Fleet of Planes in Army Service

SHANGHAI, Aug. 24 (AP)—Permission from the state department of the United States for the export of military type airplanes, it was learned today, is all that is holding up formation of a military air fleet in nationalist China described as "the most extensive military aviation project yet undertaken in the eastern hemisphere."

It was understood that the commerce department at Washington has been asked to help obtain approval of the state department in view of the fact that $1,250,000 would be spent immediately with American aircraft manufacturers.

State Education Board to Hear Street Dispute

Council Would Reclaim Linn Street Near Old Hospital

The question of the city reclaiming Linn street between Jefferson street and Iowa avenue from the university may be settled at a meeting of the state board of education in Iowa City Sept. 9.

LeRoy S. Mercer, chairman of the city council committee to investigate the reclamation, stated last night that the committee had met with William H. Bates, university secretary, and Paul C. Packer, dean of the education college, and had decided to present the issue to the state board. Alderman W. L. Bywater and Lou Kaufman are other members of the committee.

Street an Inconvenience

The city council wishes to have Linn street turned back to the city and made a public thoroughfare. The closed street is declared to be an annoyance and makes it necessary for persons to constantly make a two block detour to get around the old hospital building.

The council in 1890 granted the street and old park grounds, comprising Linn to Dubuque streets and Iowa avenue to Jefferson streets, to the university for building. The remainder of the present old hospital block was acquired later.

Contract Null and Void

The council contends that the land was given the university for the hospital and the university has counteracted with proof that the grant stated only for "educational purposes." It is contended by the city that since the old hospital building has stood idle for more than a year the contract is null and void.

The hospital was vacated when the new general hospital on the west side was established and at present it is planned to house the graduate and education college and several departments in the building. Simultaneously with this the city has pointed out that it is not necessary for the departments to have a private drive while for convenience to persons using the street it should be opened.

Pass Ordinance in 1890

The ordinance recording the grant, signed by Mayor C. M. Reno on March 7, 1890 and published by City Clerk W. J. Hotz reads in part:

"Sec. 2 . . . all that part of Linn street between Iowa avenue and Jefferson street is hereby vacated and granted to the state of Iowa for use of the University of Iowa. . .

"Sec. 3 . . . city to retain proprietorship and control of the street . . . until such time as the state of Iowa shall need the same for the erection of suitable buildings thereon, said buildings to be used exclusively by the Iowa university for educational purposes.

"Sec. 4. Should the state after occupying same premises fail to use said property for the purpose herein designated and specified, then the grant herein made may be void and said property to revert to Iowa City for the use of the public."

(Signed) C. M. Reno, Mayor.

DEDICATE POOL

OTTUMWA, Aug. 24 (AP) — The new $50,000 municipal swimming pool will be dedicated here tomorrow. The pool is one of the largest and most modern in equipment in the state, and will be illuminated at night by five lamps on the bottom and by four 1,000 watt candle power flood lights on the surface.

DROWNS IN PIT

MUSCATINE, Aug. 24 (AP)—Howard Lord, 30 years old, of Muscatine, was drowned this evening in a gravel pit near here. The body had not been recovered late tonight.

Fears for Anne's Safety; Lindbergh Interrupts Flights

HICKSVILLE, N. Y., Aug. 24 (AP)—Fear that news photographers in their zeal to obtain action shots of Mrs. Lindbergh at the controls of her plane might actually endanger her life forced Col. Charles A. Lindbergh today to interrupt the training flights he had planned over the Long Island Aviation club's field.

It was not until Colonel Lindbergh had made every effort to avoid the closely followed photographer's plane, that he finally gave up, and, landing, left the field with his wife.

Close friends of the flyer said later that his efforts to elude the photographer were not because of any desire to block pictures but solely because the proximity of the second plane distracted the attention of his pupil.

Observers denied that Colonel Lindbergh had shaken his fist at the photographer after bringing his instruction plane to earth. If there was a gesture, they said, it represented and was intended as nothing more than a wave of surrender—marking his abandonment of the day's tutoring.

Raids Spread in Jerusalem

British Warships and Troops Enroute

JERUSALEM, Aug. 24 (AP)—A state of emergency was proclaimed to exist over all Palestine tonight with clashes between Arabs and Jews spreading from the point of origin in Jerusalem and with a death list of more than 50 already recorded. Word that British warships and troops were enroute to supplement the police forces was received with great joy.

The calm restored in Jerusalem this morning after two days' rioting in the streets was only temporary and at 6 o'clock tonight the disorders were in full blast again. Jewish sources estimated the number of Jewish dead at 30 with 35 others gravely wounded and estimates of the Arab losses much earlier had been 17 killed with others likely to die. The injured numbered more than 200.

The fighting had spread from the "Old City" to the Jewish suburbs of Yemin Moshe, Gdud Saul, Gudu Havoda and Sephardim. The gravest fears were expressed for the safety of Petach Tikwaha, the oldest Jewish colony in Palestine and noted for its rich orange groves.

Jewish leaders appealed to their race to cooperate with the British administration in restoring order. They charged that the Arabs' attack bore every evidence of organized warfare and that the Arabs were well armed, especially with daggers. It was also claimed that communist propaganda had appeared urging Arabs to fight the Jews and expel the English from the country.

Highways Through City Have Detours

Two highways passing through Iowa City show extensive detours, all due to construction and not weather conditions. None of the detours is in Johnson county.

U. S. No. 161 has a 300 foot detour near Butler bridge while a new approach is being put in. Another 15 mile detour is in Linn county and a 30 mile one near Dubuque. South of Iowa City there is a 51 mile detour through sections of Washington, Henry, and Lee counties.

U.S. No. 32 west of here still has an 18 mile detour from the Johnson county line across Iowa county to Marengo. East from Iowa City to Davenport the highway is open.

Forest Fires Threaten City in Montana; Guards on Duty

Kalispell in Path of Raging Flames; Situation in State Grows More Serious

KALISPELL, Mont., Aug. 24 (AP)—With the Kalispell company of the Montana national park guard on duty at Columbia Falls in an attempt to save that city from destruction by a raging forest fire and the mobilization of the remainder of the guard authorized to assist in conbatting the flames, Montana tonight was facing a most serious forest fire situation.

Columbia Falls was reported crowded with refugees from the territory in the vicinity of the flames and that part of the state now threatened. Hundreds of these have camped in the city.

More than 75,000 acres of timber have been destroyed by the fire in the flathead section of the vicinity of Glacier national park and by the great half moon fire in the vicinity of Apgar, Coram and Lakefive. The Lewis resort hotel at the head of Flathead lake in Glacier park, however, will escape destruction, fire fighters today indicated, unless the wind should change.

Mrs. Charles M. Russell, widow of the noted painter, who has a cabin near the lake at Columbia Falls, today refused to leave her home although she sent her 13-year-old son, Jack, her house guests, her string of horses and valuable paintings away from the place.

South of the Flathead river a big area has been burned over from Coram directly east of Nyack, burning out many settlers.

Maj. Evan Kelley, district forester, today characterized the situation in the Flathead country as "nothing short of a catastrophe."

Scattering spot fires before it, the wind last night drove the half moon fire across Desert mountain to the head of the big river drainage.

Major Kelley said, "If the fire gets a fair start in the forest lands, nothing but fall rains or snow will stop it from destroying much choice timber within the reserve."

Conference to Offer Britain Larger Share

Snowden Injects Life Into Reparations Meeting

THE HAGUE, Aug. 24 (AP)—Representatives of France, Italy, Belgium and Japan worked tonight on the draft of a new offer on division of reparations payments which it was hoped would be satisfactory to the British.

The offer being drafted would increase the British share of German annuities between 36,000,000 marks (about $8,575,200) and 38,000,000 marks (about $9,051,600). Chancellor of the Exchequer Philip Snowden has demanded 48,000,000 marks or about $2,832,000 more than the offer now in making.

If the British chancellor is satisfied with the estimated yield of this offer, as he has not been with previous estimates by the other creditors, and has no objection to the sources from which the sum is made up, it was thought he would accept the compromise on that basis.

Snowden Stirs Delegates

By shaking up the almost expiring conference today Snowden so stirred its blood as to give it new life. The chancellor in a letter to Premier Henri Jaspar of Belgium, said he had enough verbal proposals and that the time has come to put on paper whatever the other creditors had to offer and to do it at once.

He asked for a reply this evening but it was readily apparent that the written proposals could scarcely be completed before tomorrow morning.

The British chancellor took occasion in his letter to repudiate any thought that the British were encouraging or abetting a move to induce the Germans to contribute to the offers to Britain by increasing the unconditional portion of the annuities. Snowden had already made clear that he would not accept for Britain sacrifices by the smaller allies and he now revealed determination not to accept further sacrifice by Germany.

Wants Wrong Righted

The British theory is that the other creditor powers obtained in the Young plan undue advantages from which the British suffered. Snowden wants those powers, notably France and Italy, to put things right by abandoning to Britain what he claims they took away in the Paris conference of experts.

An immediate consequence of the intervention by the chancellor was postponed until next week of a meeting of the six powers that organized the conference which had been set for this afternoon.

The chancellor suggested that it was useless for them to meet again until the creditor powers had put on paper what they proposed to offer.

Dr. P.W.O. to Take Vacation

Dr. P.W.O., conductor of Chills and Fever, daily column in The Daily Iowan, left yesterday for a trip through the southwestern part of this country. Chills and Fever will be discontinued during his absence, except for occasional special articles by the Doctor.

Before returning he plans to attend the national convention of daily newspapers at Yellowstone National park, and to visit relatives in Wyoming. Dr. P.W.O. has contracted to conduct his column in The Daily Iowan all next year and will be back again before school starts.

Before coming here the doctor was columnist for a syndicate in the east and did special work on various eastern papers. He will do research work here next year, according to present plans.

His many contributors are invited to keep sending their work to him in care of The Daily Iowan, where it will be forwarded at once for use in his special columns.

Portland Air Derby Flyers Postpone Hop to Bismarck Control

BILLINGS, Mont., Aug. 24 (AP)—The Portland-Cleveland air derby flyers tonight decided to postpone their hop for Bismark, N. D., scheduled for tonight, until tomorrow morning. The flyers were to stay here tonight.

The eight flyers in the derby left Spokane this morning, stopping once enroute, here and at Missoula, Mont.

Tex Rankin of Portland, led the racers into Billings on the hop from Missoula, completing the trip in 1 hour, 58 minutes and 11 seconds. He was followed by T. A. Wells, of Wichita and Speed Holman of Chicago, in the order named.

We Change Slowly

TOMORROW is the anniversary of woman suffrage in the United States. It is interesting to note the change of feeling which has taken place since 1920, when the amendment was passed.

A movement for woman suffrage was under way for many years before it finally came to a point where citizens would bring themselves to vote to give woman a power of voting equal to that of a man. And when the measure was finally passed, skeptical men shook their heads and predicted panics, great upsets in the government, and other catastrophes caused by the entrance of woman into the world of voting.

But everything has been going along much as before. Woman has been helped. She has come out of her hiding more and is living a better life. The entire country benefits.

Sensible women realize they cannot upset the country in one day; nor do they want to. Suffrage might be discussed at great length. In fact, it was at one time. Now it is rarely mentioned.

How long will it be before the eighteenth amendment is as much accepted as is woman suffrage?

Safety Commandments

THIS is the time of year when accidents seem to be everywhere. Auto accidents kill dozens each week. Drownings are numerous and all other kinds of accidents seem to be happening all the time.

And the sad part is that most of them could be averted by a little care. Here are some safety commandments, as stated by W. H. Cameron, managing director of the national safety council:

1. Learn to swim.
2. Drink only from inspected water supply sources.
3. Don't rock the boat.
4. Learn to recognize and avoid poison ivy and other dangerous growths.
5. In climbing trees or mountains be sure of your foothold.
6. Drive motor cars safely and sanely.
7. Watch out for tainted foods.
8. Learn first aid, and always have a kit nearby.
9. Formulate an individual safety code to fit your own vacation.
10. Remember it is better to be safe than sorry.

The vacation motto of the national safety council is, "Have a good time, but don't spoil your vacation by avoidable accidents."

The Art of Mathematics

MANY may agree with the opinion expressed recently by a New York paper that mathematics as a course of study is impractical. A great number of Americans, however, believe this opinion erroneous. That mathematics will continue to be studied by larger groups is prophesy in many recent magazine articles by men who are not professional mathematicians.

There are reasons for this growing interest. Mathematics is the foundation of science, the generator of progress in this "machine age." The average layman knows that physics, chemistry, astronomy, and engineering is based upon this subject, but he little realizes in an increasing degree the physysiologist, the bacteriologist, and the biologist must turn to mathematics for the solution of his problems.

This opinion is expressed by Prof. E. B. Wilson of Harvard, who said: "The college student of inorganic chemistry of 30 years ago who failed to take a good course in calculus has paid heavily for this omission. Today the physiologist, bacteriologist, biologist, and student of public health cannot help but find himself handicapped before middle life if he enters these fields without a college course in calculus."

Nor is the need for mathematics limited to the technical field. General culture requires a knowledge of this subject, as the *Saturday Evening Post* of June 1 says: "The state of affairs has come to such a pass that already the layman who wishes to keep up with modern though is restricted to the use of the most elementary books, for if he goes to the more advanced work, the sources of really sound and substantial information, he at once finds his progress barred by an entanglement of calculus and other branches of mathematics which he either has not studied or completely forgotten."

Further evidence of the growing importance of mathematics is seen in the contribution of large industrial corporations to mathematical research. Not only do they maintain their own laboratories for research in this field, but they foster the growth of pure mathematics, realizing that "pure mathematics of today is the applied mathematics of tomorrow."

James H. Cousins, the Irish poet who spoke to students this week, urged an increased interest in art and creative work as a remedy for an inartistic world. Mathematics is closely allied to art. There is truth in the statement that the "poetry of mathematics, the symmetry, the beauty of form, the crystal-clear truth, the flawless logic, the contact with the infinite, lead its devotees to an exalted spirit comparable with poetry. Like poetry it is age-old; its truths are not dimmed by time; it does not lose in translation; it is universal." Henry Poincare, internationally known mathematician and cousin of the former premier of France, constantly stressed the beauty of mathematics, as well as its value, both practical and cultural.

Perhaps in some future time when man has more time to contemplate and cultivate the beauties of thought, mathematics will come into its own as a fine and valuable art.

For Goodness Sex

THE MARRIAGE of a man named Ernest Virtue recently provoked a clever editorial paragrapher to remark that he hoped the new husband lived up to his name.

For years there has persisted a vague impression that there is a "double standard" for relations between men and women. According to the theory, male indiscretions may be condoned as inevitable, but women are the mothers of the next generation and must retain their virginity.

Rightly such a code might better be termed half a standard. That men may sin and be excused while one offense should mark their sisters as partial outcasts seems inconsistent and a denial of our boasted equality between the sexes. Too lax in its attitude toward lads who sow their wild oats, the world has also been too harsh with women whom experience has also crushed.

Luckily for the well being of our civilization, such a policy does not hold forth in practice sufficiently to begin thinking of it as a custom. To have it exist at all, though, threatens to rot our moral fiber.

Standards are invariably something to live up to. We seldom exceed our accepted ideals of conduct. They should be universal and without such strength-sapping amendments as this so-called double standard. As we think, we do, so there is little pardon for an easy-going deviation from the accepted path of uprightness.

Let morality be put on a common sense basis, with justice behind the treatment of those whose actions go contrary to time established rules for sex conduct. What the world has found wise through centuries of experience should not be set aside to accommodate the weaknesses of a few who do not wish "petty" breaches of the code to lower their standing as "gentlemen."

SECRETS OF KEEPING HEALTHY
By the Health Missionary

THE FLU

The flu might be styled a gigantic cold, having about the same causes, symptoms and same cure. Lowered vitality paves the way for both and determines their severity. The only practical measure then for either prevention or cure is to increase the measure of vitality.

First of all raise the windows and breathe pure cool air every minute day and night, to free the system from its flood of poisons.

Second, open the closed pores by taking a sweat bath; and ease the heart by staying in bed.

Third, eat simple, easily digested, wholesome, laxative foods, with no condiments except a tiny bit of salt. Use milk, fruit, fruit juices, vegetable purees, bran and a moderate amount of toast and the yolks of eggs, never the whites.

Fourth, strenuously avoid the depressing effects of medicines. Regulate both the bowels and fever by frequent cool anemias. Use also cool sponging and cool packs. Change the packs every few minutes until the temperature drops to about 101 degrees. Some fever is needed.

If pneumonia develops the best single measure is to breathe the coldest possible air; both to eliminate the poisons and to reduce the fever.

The lining of the entire digestive tract is only a continuation of the outer skin and the two act in unison. In case of colds, flu and fevers both become inactive, and the lungs and kidneys are compelled to do the work of all four in eliminating the increased posion wastes from the body—an almost hopeless task. It is highly important therefore that poisons of every sort be very carefully avoided, bearing in mind that all laxatives and heart medicines are necessarily poisons or they would not act.

Obeying nature is the only proper cure for any ailment.

PARAGRAPHS OF COMMENT ON TOPICS OF THE DAY

Just at this time when they have been kicked out of the Chinese Eastern railway it would seem to us that Russians are suffering from Sinos trouble.

It is said that American visitors in Russia were very much impressed with the fact that the officials there get such small wages. Maybe that is the thing in Russia which makes a brotherly appeal to our college professors.

The federal reserve board has tried to put a curb on speculation in the stock market, but it could do more good if it could find a way to put a curb on political speculation at Washington.

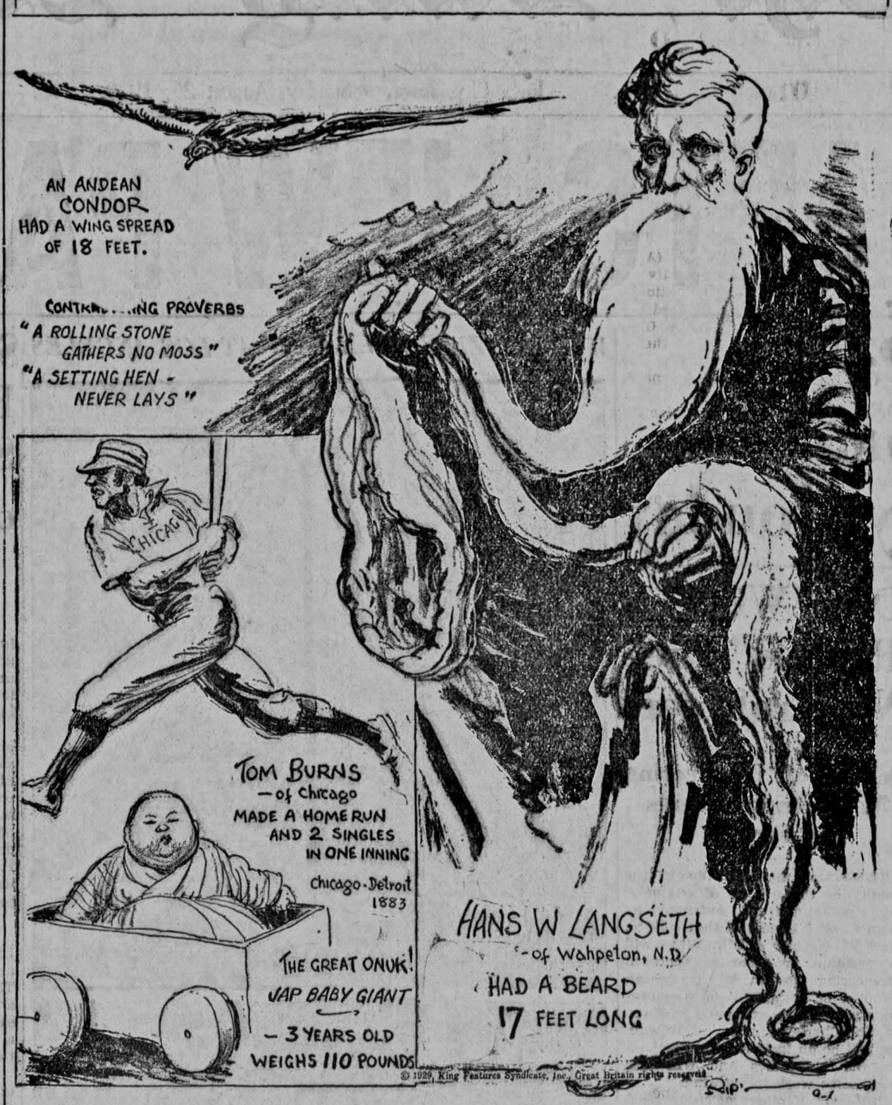
It is said that the larder of the Graf Zeppelin was loaded with sirloin steak and Virginia ham before it left Lakehurst. We can't see why it was in such a hurry to get back home.

A matrimonial expert says that a girl's chances to marry fade after she reaches the age of 25 years. But very few of 'em ever get that old any more.

The fall fashion experts have decided that women's skirts shall extend three inches below the knees. This certainly is going to change the landscape on Main street.

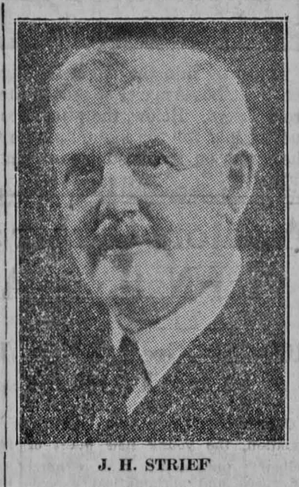
It is said that the up-to-date burglar, when he enters a cigar store, always blindfolds himself so that he can pick out the proper cigarettes.

BELIEVE IT OR NOT (Reg. in U. S. Patent Office) By Ripley



Upon request, sent with stamped, self-addressed envelop, in care of this paper, Mr. Ripley will furnish proof of anything depicted by him in this daily feature.

Former Labor President Seeks State Auditorship



J. H. STRIEF

DES MOINES, Aug. 24 (AP)—J. H. Strief of Sioux City, former president of the Iowa State Labor feedration and ex-chairman and member of the Iowa board of control of state institutions, late today announced his candidacy for the republican nomination as auditor of state.

Mr. Strief was president of the Iowa labor group from 1913 to 1917, later receiving the appointment from Gov. W. L. Harding to membership on the control board. He was reappointed by Gov. Nate Kendall in 1923 but Gov. John Hammill failed to reappoint him this year despite recommendations of hundreds of Iowa citizens.

At national prison association conventions Mr. Strief was recognized as one of the leading workers for prison reform. He was called upon to preside at one national convention and has given numerous addresses to that body.

Mr. Strief is a former newspaper publisher. He learned the printer's trade at Le Mars, and later conducted a weekly newspaper at that place. Subsequently he established and conducted a newspaper at Kingsley which he called the Times. This was during the pioneer days of that town.

Since 1876 Mr. Strief has been a resident of Iowa, but in 1866 he lived for a short time at Dubuque, his parents later moving to Chicago.

After his weekly newspaper venture at Kingsley was disposed of to other owners, Mr. Strief moved to Sioux City where he was connected with the daily newspapers of that city.

LOS ANGELES—What is believed to be the only air-minded parrot in the world is the pet of Mrs. Ulysses Grant McQueen, Los Angeles club woman and founder of the Women's Aeronautical assbciation of California. "Dick," which is the parrot's name, is a perfect gentleman and doesn't know or utter a single word of profanity, Mrs. McQueen said. The smart bird limits his conversation to aeronautics and asks everyone he sees the question, "can you fly?"

WASHINGTON—Passenger service between the nation's capital and New York city was recently inaugurated by the Congressional Air Express. The trip between the two cities is made in one hour and 20 minutes, including the time consumed for motor transportation to and from the landing fields.

EAST MEETS WEST AT FRIEDRICHSHAFEN

Lady Drummond Hay is seen here talking to a Japanese woman who had been refused passage on the Graf Zeppelin on its Friedrichshafen-Tokyo flight, due to lack of accommodations for more passengers.

MEN WHO FLY
The Air Mail

"When an army captain took me for an airplane ride in 1914 I decided aviation would be my business. It was—and how."

Let Arthur Starbuck, son of Prof. Edwin T. Starbuck of the university, narrate his experiences in the pioneer days of Pacific Air transport and you appreciate how different things are now from the olden days.

When Starbuck started flying the air mail for the old Pacific Air Transport company, he chugged over the valleys and mountains with a plane having a 90 horsepower motor. That did not leave much reserve for mountain ranges 12,000 feet high. There were no lights for dusk to dawn efforts so Starbuck and Glover Tyler, another pioneer on the coast line, drove up and down California valleys in a Ford lighting an airway. Then they started flying with the mail over this two-man network.

Today, Starbuck, at the controls of the new type Boeing four-passenger plane with its 420 horsepower "Wasp" motor, hurdles the mountains between Oakland, San Francisco and Medford and says he finds no excitement in it. This is a 335-mile air jaunt past Mt. Shasta and over the Siskiyou Mountains. That is scenery passengers of the Pacific Air transport pay to see, but which Starbuck draws his pay check for looking at. He's thinking of the thrills he had a few years ago.

"Art" is "tall and dark"—looks just like a story book aviator. He has 7,000 hours—875 working days—in the air.

He was recently in Iowa City piloting a new Boeing Cabin plane to the Cleveland Air races.

What Cheer Fiddler Wins Contest After Two Days of Playing

DES MOINES, Aug. 24 (AP)—After two days of constant whacking of the old fiddles under a scorching sun John Witt, 92 years old, Civil war veteran from What Cheer, the oldest in the contest, today was declared the state champion at the Iowa state fair.

The old gray haired veteran was chosen for first place among 125, the largest field of contestants assembled in any Iowa state fair. The other winners were: B. A. Warner, Commerce; A. E. Love, Columbia; L. R. De France, Roger, Neb.; F. I. Adrian, Boone; J. H. Baker, Des Moines; J. A. Filer, Rhodes, and Charles Eagle, Irvington.

Witt has attended the state fair fiddling contests for the last three years, but it is the first time he has placed. He learned to play the fiddle when only 10 years old.

Eddie Held Garners Canadian Amateur Crown in Last Round

JASPER PARK, Alberta, Aug. 24 (AP)—Eddie Held of New York captured the Canadian amateur golf championship today, defeating his fellow townsman, Gardiner White, 3 and 2, in the final round.

Held succeeds C. Ross Somerville, of London, Ont., who won the title last year but was eliminated in the first round of match play in the present tournament. At the same time Held becomes the first player from the United States who ever has succeeded in winning the Canadian amateur crown.

Held, the tournament medalist, led White, a middle aged millionaire, by three up at the end of the first 18 holes and then was content to hold on to his advantage, finally ending the match on the 34th green.

A NEW YORKER AT LARGE

Code Cable Addresses Filed at Central Office in Gotham Save Heavy Tolls

By DEMING SEYMOUR

NEW YORK, Aug. 24—On an upper floor of a Broad street building, down a long corridor, is an office that you would never happen onto unless you were looking for it, and on the door is the legend:

"Central Bureau for Registered Addresses."

Inside are steel files filled with cards. It is the office in which records are kept of every cable address in greater New York.

Every New York business and financial house has cable addresses registered there. Some of them, like the banking house of Jules Bache, have as many as 200. Scores of individuals register code names there, too, so that there are in the files upward of 25,000 names.

SAVING TIME AND MONEY

The idea is merely this:

If European agents of Kidder, Peabody & Company, Wall street house, had to address every cablegram to Kidder, Peabody & Company, 17 Wall street, New York, the tolls would already be mounting into money before the actual message was started. The company registers one word, Vitbroad, and thus saves tolls.

Companies which register several score of addresses do so in order to give each European agent a different name by which to address them. A message that comes addressed Seagull means that the Rumanian agent is cabling. One addressed Billiken is from the company's representative at Moscow. That saves the need of a signature and reduces tolls.

Until the censor commandeered all the cable registries during the war, every cable company kept its own file of addresses. The censor codified the files, and after the war it was more convenient to keep them consolidated, so five cable concerns got together and established the present central bureau.

If a message comes: "Plummet wire thousand," it takes the receiving office but a minute to call the bureau and discover that it is Mrs. Henry Woofniff who is cabling her husband, at 1825 Southern boulevard, the Bronx, to rush her a money order for $1,000.

THWARTING CHEATERS

The registry bureau has to be alert all the time lest unscrupulous patrons devise addresses which have code meanings, and thus evade payment of tolls.

An agent might be instructed, for instance, to wire his principal by the address Gothamward when call money in Persia was going up, and Gothamber when it is going down, and thus tell in the address the burden of what he had to say. That is against the rules.

To curb any such inclination, the bureau refuses to accept cable addresses containing more than 10 letters.

But it insists, too, that cable addresses have more than five letters, which guards against the garbling of addresses and helps the receiving cable office to figure out addresses that may have been scrambled in transmission.

A cable address must be pronounceable; that is, it must be made up of syllables that appear in one of eight European languages. And it cannot be a proper name, like Smith or Hassenpflug, lest the message be delivered to somebody of that name for whom it was not intended.

Good dictionary words make the best addresses—like Rotary or Excelsior. Then if they are garbled it is generally fairly easy to figure out what they ought to be.

IOWA NEWS BRIEFS

By The Associated Press

(By THE ASSOCIATED PRESS)

SHENANDOAH—Grand river flood waters will not halt service between Omaha and St. Louis on the Wabash railroad so much in 1930 as this year, if preliminary plans of the railroad are completed. The track between Brunswick and Stanberry, Mo., is to be raised as much as 30 feet in places. Work will start this fall.

CORNING—Pavement on Iowa No. 34 in Adams county east of Corning was opened to the public this week. Work is now in progress on the road west of here.

HUMBOLDT—The Rev. L. L. Leh, pastor of the First Unitarian church here for four years, has accepted a position as professor of anthropology at the University of Colorado at Boulder. He has spent the summer excavating mounds in Illinois.

CORNING—The chautauqua here this summer was a financial loss, the ticket sale having fallen $800 short of the guarantee, sponsors reported.

AMES—E. O. Slater has resigned as mechanical drawing instructor at Iowa State college to become a member of the Dubuque high school faculty. In the vocational education department he will establish courses for training junior executives and factory foremen.

SHENANDOAH— Representatives of the federal agricultural department and Iowa State college are surveying 150 to 300 acres of rolling land near here for the establishment of a regional erosion control experiment station provided by the last session of congress.

DES MOINES—One of the great sights of the Iowa State fair is the state herd of Holstein cattle exhibited by the veteran showman, Chairman A. M. McColl of the Iowa State Board of Control of State Institutions.

Fights Twister

Mrs. Keith Miller, Australia, had one of the most hair-raising experiences for her flying career in her flight from El Paso on Aug. 21 in the women's air derby. While 1,500 feet up her plane caught in a whirlwind, threw her into a "flop" spin, turned her over twice and tossed her back on her course half a mile. Losing altitude and too close to the ground to use her parachute, she pulled out of the twister a few hundred feet from the ground and continued on her way.

Stockholders of Des Moines Banks Favor Merging Institutions

DES MOINES, Aug. 24 (AP) — Formal ratification of the proposed consolidation of the Iowa National bank, the Des Moines Savings bank and Trust company, and the Des Moines National bank, was voted by stockholders of the institutions at a meeting held here today.

The consolidation will take the name Iowa-Des Moines National bank and Trust company, but will operate in their several quarters until about Jan. 1, when the Des Moines National bank will house the institution.

Capital of the new banking institution will be $2,000,000; surplus $1,000,000 undivided profits $500,000. Louis C. Kurtz, head of the Des Moines National bank, becomes chairman of the board of directors, and Clyde Brenton, president of the Iowa National bank, head of the consolidated enterprise.

Athletic Commission Halts Bout in Chicago

CHICAGO, Aug. 24 (AP)—The Illinois state athletic commission again has halted Promoter Mique Malloy's boxing show, featuring an eight round final bout between Jack McKenna of Toronto, and Cowboy Dula of Oklahoma.

The commission today refused Malloy a permit to hold the show at Logan Square arena for failure to file contracts and post forfeits as required by the rules. Malloy scheduled the show for last week, but was denied a permit for not having filed his application far enough ahead of the date.

OFFICIAL DAILY BULLETIN

The University of Iowa

Bulletins and announcements for the Official Daily Bulletin column must be in the Summer Session office, room 6, Old Capitol, by 4 o'clock in the afternoon to appear in the following morning's Daily Iowan.

Vol. IV, No. 162 August 25, 1929

GENERAL NOTICES

ENGLISH LUTHERAN LEAGUE

There will be a Luther League Luncheon at 5:30 p.m. Sunday, August 25. Luther League devotional service will be at 6:30 p.m.

GODFREY SWANBECK,
Vice President.

UNIVERSITY LIBRARIES

Library readings rooms will be open from 8:30 to 12 a.m. and 1:00 to 5:00 p.m. from August 22nd through September 21st. Departmental libraries will be closed during this period, with the exception of Education and Medical libraries. Hours will be posted on the doors.

GRACE WORMER
ACTING DIRECTOR OF LIBRARIES.

Mrs. Seashore Honors Guest

Entertains at Informal Birthday Party

In honor of the birthday of her brother, Charles Holmes of Whiting, Mrs. Carl E. Seashore entertained at an informal birthday dinner Friday evening at her home, 815 N. Linn street. The table was decorated with garden flowers and a birthday cake was a feature of the dinner.

Those included in the courtesy were Mr. and Mrs. Charles Holmes of Whiting, Mr. and Mrs. Chalmer Cozine of Whiting, Mrs. J. Clark of Onawa, Mrs. J. N. Beckwith of New Orleans, La., and Mr. and Mrs. J. J. Cozine of Iowa City.

H. W. Ribble Weds Ruth H. Gifford at Rapids August 24

Announcement has been made of the marriage of Ruth Helen, daughter of Mr. and Mrs. L. W. Gifford of Cedar Rapids, to Harry William Ribble, son of Mr. and Mrs. S. A. Ribble, also of that city. The ceremony took place yesterday morning at the home of the bride's parents.

The bride is a graduate of Coe college, where she was affiliated with Kappa Delta sorority. For the last two years she has been employed as secretary of the Penick and Ford company of Cedar Rapids.

Mr. Ribble is a graduate of the University of Iowa, where he became a member of Sigma Phi Epsilon fraternity. He is now employed by the Allison-Paulson company of Davenport. The couple will make their home at Davenport after Oct. 1.

Mrs. George R. Gay Gives Birthday Party for 5-Year-Old Son

Mrs. George R. Gay entertained at a birthday party yesterday at her home, 506 S. Dodge street, in honor of the fifth birthday of her son, George Lake Gay. The party began at 3 p.m., the small guests playing games during the afternoon hours. At the close a luncheon was served at a table in the yard, and a birthday cake decorated with candles and candles centered the table.

Children included in the courtesy were Donald White, Alba Bales, and Edwin Berry. Mrs. Nettie Lake, grandmother of George, was also present at the party.

University Graduate Weds in Monte Vista

Marian Ellen Edman of Monte Vista, Col., and William Gordon Johnston of Evanston, Ill., were married Aug. 15, at the Presbyterian church at Monte Vista.

Mrs. Johnston received her B. A. and M. A. degrees at the University of Iowa and is a member of Alpha Xi Delta sorority. For the last four years she has been an instructor in harmony at Vassar college, Poughkeepsie, N. Y.

Mr. Johnston is also a graduate of the university. Last year he received his law degree at Yale and is now practising law in Chicago. He is a member of Delta Tau Delta social fraternity, and Phi Beta Kappa, scholastic fraternity.

Kay Family Leaves on Trip Thru West

Dean and Mrs. George F. Kay and family left yesterday for a trip through the west. They will remain in Denver a week where they will visit their daughter Marjorie who is teaching in that city.

After leaving Denver, Dean Kay and his sons, Marshall and Calvin, will attend the Black Hills geological conference.

Fire Destroys Six Blocks in Business District of Spokane

SPOKANE, Wash., Aug. 24 (AP)—Six square blocks of blackened ruins today stood as mute evidence of fire which destroyed the lumber and fuel storage yards of the McGoldrick Lumber company, a sanitarium, an apartment building and 14 frame houses with a total loss of $350,000.

The fire which started at 6 p.m. yesterday was put out early today after firemen had battled most of the night against intense heat and a stiff wind. Starting from an undetermined cause the blaze spread rapidly through the lumber yards.

The lumber company was the heaviest loser. Damage to its yards and stock was estimated at $250,000. The Great Northern railway estimated the damage to its main line at $25,000. A wooden bridge near the lumber yard was destroyed and trains on the road were being routed over other railroads today.

Twelve firemen and one civilian suffered minor injuries. All but five pieces of the city's fire fighting apparatus were used to subdue the flames, and prevent its spreading to industrial property which adjoins the lumber plant.

LEGISLATURES SET RECORD

MADISON, Wis., Aug. 24 (AP)—Wisconsin's legislature today set an all time endurance record for length of sessions. The solons have been working 227 days, or since Jan. 4, 1929, and even the most optimistic refuse to predict when they will finish. Wisconsin has no set limit to the length of sessions.

AWAITS HEARING

SIOUX FALLS, S.D., Aug. 24 (AP)—Henry W. Beck of Superior, Neb., was in jail here today awaiting preliminary hearing next Wednesday on charges involving two local girls. He was unable to furnish $2,000 bond when arraigned and demanded a preliminary hearing.

Wins Argument

Margaret Shotwell, Omaha pianist returning from European tour, won an argument with American customs officials who finally conceded her baggage should be admitted without duty.

PERSONAL ITEMS

Mr. and Mrs. W. O. Coast, 9 E. Fairchild street, will leave tomorrow by motor for a two weeks' vacation at Eagles' Nest lodge at Deer River, Minn.

Mr. and Mrs. Leon Voorhees and son, John, of Oklahoma City, Okla., were guests yesterday at the home of Mr. and Mrs. H. S. Denton, 19 1-2 E. Washington street. Mr. and Mrs. Voorhees are on their way to their home from Chicago and will make a stop at Anita before returning.

Irene Hogan will come from Davenport today to visit her parents, Mr. and Mrs. W. F. Hogan, 342 S. Dodge street.

Donald Durian, 725 E. College street, left yesterday afternoon for his home at Wellman. He plans to leave there today for Lake Okoboji where he will spend a two weeks' vacation. Durian will be a junior in the school of journalism next fall.

Mr. and Mrs. C. Bowen and daughter, Lucille, have been visiting at the home of Dr. and Mrs. George Maresh, 424 S. Summit street. Miss Bowen received her B.A. degree at the university convocation Thursday night. The family returned to their home at Rolfe Friday.

Mrs. J. Hennessey of Emmetsburg, has been visiting with her daughter, Louise, at 424 S. Summit street. Miss Hennessey graduated from the university at Thursday night's convocation and is now visiting with Mrs. George Maresh. Mrs. Hennessey has returned to her home.

Mr. and Mrs. Thomas Dunn and daughter, Elizabeth K., of Rock Island, Ill., motored to Iowa City Friday to visit friends there for the day. Miss Dunn is national secretary of Theta Phi Alpha sorority.

Mr. and Mrs. J. A. Shalla, and daughter, Edna, have returned from a three weeks' vacation in Glacier and Yellowstone national parks.

Mrs. Mary Fisk of Cedar Rapids, spent Friday visiting Katherine Gill, 710 E. Jefferson street. Miss Gill accompanied Mrs. Fisk back to Cedar Rapids and will visit at the Verne Marshall home over the week-end.

Ralph Freyder of the university book store, has been visiting in Des Moines last week.

Mrs. Alice Hampton of Coal Creek, came Friday for a visit at the W. C. Mott home, 1021 E. Burlington street.

Mrs. F. J. Boyle and daughter, Joan, left Friday for Fairfield where they will spend the week with Mr. and Mrs. Melvin Lechty.

Mr. and Mrs. W. C. Mott, 1021 E. Burlington street, and Mrs. Alice Hampton of Cedar Rapids, who has been visiting at the Mott home since Friday, attended the quarterly meeting of the society of friends at Whittier yesterday and today.

Levi Hill, janitor at the journalism building, has been ill the last week with acute indigestion.

Ernest Olsen of Grinnell, is here this week-end visiting friends.

Mrs. Annette Bliss has received word of the birth of a son Friday to Mr. and Mrs. Gordon D. Locke at Cleveland, O. Mrs. Locke was Ione Bliss of Iowa City, and Mr. Locke, now director of athletics at Western university at Cleveland, was a football star at Iowa.

Mr. and Mrs. I. E. Hague have been guests since convocation Thursday at the home of Mrs. Frances Adrian, 631 E. Jefferson street. Mr. Hague received his master's degree here Thursday and will teach in the psychology department of Augustana college at Sioux Falls, S. D., next year.

Robert James, Howard James, and Harriet James, 723 Dearborn street, left yesterday for Des Moines where they will visit at the home of Mr. and Mrs. R. A. Parsons over the week-end.

Mrs. Frances Smith of the dietitian's staff of the university hospital, is visiting friends in Waterloo.

Prof. Edward Bartow, head of the department of chemistry, who has been spending the last few days in Chicago, left yesterday for Douglas, Mich., where he will join his family.

Tilden Selects Chairmen for Women's Club

Names 9 Departmental, 10 Divisions for Biennial Work

DES MOINES, Aug. 24 (AP)—Nine departmental and 10 division chairmen of the Iowa federation of Women's clubs were named for biennial work today by Mrs. Galen Tilden, Ames, president of the organization.

Departmental chairmen named were:

Miss Anna Marguerite Olsen of Des Moines, American home; Mrs. Henry Ness of Ames, art; Mrs. E. F. Bilharz of Audubon, drama; Mrs. R. E. Heywood of Peterson, international relations; Mrs. C. A. Knutson of Clear Lake, legislation; Miss Catherine Brown of Sioux City, literature; Mrs. W. A. Sanford of Cherokee, public welfare; Mrs. W. H. Hathorn of Mason City, music and Miss Blanche Wingate of Des Moines, press and publicity.

Divisional chairmen announced are those of several which work under the general education department. These include Mrs. Harry Vincent of Ft. Dodge, conservation; Mrs. C. P. Bowen of Centerville, motion pictures; Mrs. William Parrott of Cedar Heights, public instruction; Ethel Towne Holmes of Des Moines, education of the deaf and blind; Mrs. C. E. Risser of Des Moines, chautauqua; Miss Florence Harsh of Des Moines, delphian; and Mrs. A. J. Banks of Montour, cooperation with farm bureau. Mrs. M. N. Voldeng of Woodward, public health; Mrs. Frank Griffith of Ft. Dodge, problems in delinquency and Mrs. James Devitt of Oskaloosa, problems of industry.

Dr. Glenn P. Speidel of Detroit, Mich., is spending two weeks' vacation at the home of his parents, Mr. and Mrs. George P. Speidel, 117 S. Summit street. He graduated from the college of medicine of the University of Iowa in 1927.

Helen Neufeld of Davenport, left yesterday morning for her home after a few days' visit here to attend the convocation exercises Thursday night. She is a graduate of the university.

Mary Helen Birka left for her home at Riverside yesterday after graduating from the university at the convocation exercises Thursday night.

The Rev. and Mrs. Guy Findley and three youngest children, have returned from a month's vacation in the southwest. They visited Rev. Findley's mother and brother in Nash, Okla., and Mrs. Findley's family at Hazeltown, Kan. They also stopped in Witchita and Kansas City before returning to Iowa City.

Harold Schotter, '28, of Waterloo, arrived yesterday for a few days' visit here. Schotter has been taking a trip through the west, including Yellowstone park in his visit.

Henry Neuman, who will be a senior in the college of law next fall, was here from Davenport on a business trip yesterday.

Prof. Fred Holmes of the college of engineering, returned to Iowa City recently after spending the summer in an investigation of the rivers in the states of Iowa and Minnesota, for the United States government.

Frank K. Shuttleworth, who was formerly an assistant professor of character education on the University of Iowa faculty, after receiving his Ph.D. degree here, arrived in Iowa City yesterday. Since leaving Iowa a year ago, Mr. Shuttleworth has been associated with the character research station at Yale.

Lola Moeller, 420 N. Linn street, left last night to spend today at the home of Helen Papes of Marion. Both will be seniors in the university this fall.

H. G. Ingham, director of the extension division of the University of Kansas, and his family, will visit today at the home of Dean and Mrs. C. C. Williams, 723 Bayard street. Mrs. Ingham is a sister of Mrs. Williams.

Prof. H. O. Croft, new head of the department of mechanical engineering, moved into his new home at 517 Grant street Friday. Professor Croft comes to Iowa from Stanford university and will succeed Prof. Burton P. Fleming as head of the mechanical engineering department.

Ellen Filean of Perry, who has been principal of the Independence schools, visited in Iowa City yesterday. She is an alumna of the university.

Prof. Elmer W. Hills, 1173 E. Court street, has gone to Grand Beach, Mich., for several weeks. His wife and children were already there.

Dean William E. Cox of the University of Washington, who has been teaching in the college of commerce during the summer session, left yesterday for a short visit in Texas before returning to his work at the University of Washington.

Leyland E. Skelley returned to Iowa City yesterday morning after a few days' visit at his home in Monticello.

Prof. D. D. Curtis, who recently accepted the position of head of the department of mechanics at Clemson college, the A. and M. college of South Carolina, left Iowa City yesterday with his family. They will visit for a short time at Hawkeye before leaving for South Carolina.

Prof. and Mrs. Walter F. Loehwing, 502 Sheridan road, left yesterday for a vacation at Clear Lake.

Dewey Cummins, of Ute, who will be a sophomore in the college of engineering next fall, arrived yesterday after spending a vacation at his home.

Prof. and Mrs. O. K. Patton, Woodlawn apartments, and Mrs. Edward V. Pellock, Burkley apartments, will leave today for the Delta Chi national convention at Estes Park, Col. Professor Patton is national secretary of Delta Chi.

Mrs. W. H. Lucas and daughter, Maude, of Brookville, Pa., are visiting at the William Wishart home, 114 1-2 E. Washington street.

Louis M. Rich, '29, of the Washington Democrat, was a visitor here last night.

Helen Stewart and Inez Coleman returned to Chicago yesterday after a week's visit at the home of Mr. and Mrs. Hal Stewart, 116 S. Dodge street.

Dean Carl E. Seashore will arrive home today from Boulder, Col., where he has been visiting. While there he played golf with Prof. Henry L. Rietz and Prof. C. Thompson who are also in the west this summer.

Dean Seashore will remain here until Friday when he will leave for the International Congress of Psychology which will be held at Yale university for the first time in America. His son, Prof. Robert Seashore, who is a professor of psychology at the University of Oregon, will arrive here Friday and will accompany his father to the congress.

Eulone Ritz, who is employed at the public library, will leave today for Des Moines, where she will visit for a week and attend the state fair.

Mr. and Mrs. Charles Holmes of Whiting, who have been visiting at the home of Mr. Holmes' sister, Mrs. Carl E. Seashore, 815 N. Linn street left yesterday for their home.

TRANSPARENT VELVET

Transparent velvet is among the most popular fabrics this fall. Miss Hazel Cox (left) displays a gown of brown velvet trimmed in imported lace. Miss Phylis Mann (right) is wearing a sport outfit of black velvet with a "Zeppelin" cape. These styles were exhibited at the Ready-To-Wear association convention in Chicago.

Will Wed Director

Associated Press Photo

Mary Eaton, musical comedy star, is engaged to Millard Webb, movie director. They expect to be married Sept. 1.

Brookhart to Question New Federal Board

WASHINGTON, Aug. 24 (AP)—Dissatisfied with conditions in the wheat market, Senator Brookhart, republican, Iowa, announced today he would ask the senate committee to call before it the members of the newly organized farm board when their names are presented next month by President Hoover for confirmation.

"I want to ask the board members some questions," explained Senator Brookhart, who said he was not ready to state his views on confirmation of the board members. "I want to know why they didn't get a wheat stabilization corporation in operation in time to handle this year's crop. That is why the price of wheat in this country is 21 cents a bushel below the Canadian price."

Senator Brookhart sought to attend the meeting of the board in Chicago when it assembled there last month to organize a wheat corporation but was excluded.

Otherwise, there has been little sign of opposition in the senate to the Hoover farm board membership. Senator Caraway, of Arkansas, one of the leaders for the democrats in the farm relief fight, has taken the view that the legislation is that asked by Hoover, and he should be permitted to name his own board.

KID TEAM PLAYS TODAY

The Iowa City junior league team, American legion district champions, play another junior legion team in Cedar Rapids this afternoon. The game with the Firefighters, as the Rapids team is known, is scheduled for 3 o'clock at Daniels park.

TURNER REFUELS

ALBUQUERQUE, N. M., Aug. 24 (AP)—Capt. Roscoe Turner attempting to establish a new record time for a New York-Los Angeles flight, stopped here at 5:45 p.m. (M.S.T.) refueled and at 6 o'clock this afternoon left for Los Angeles. His previous refueling was at Tulsa, Okla.

Typical Girl?

Miss Edna Peters of Miami, Fla., who was acclaimed "The typical American girl" after a nation-wide contest is not what she is supposed to be according to George Bernard Shaw. There are so many types, nationalities and racial strains in the United States that there is no such thing as a typical American," says the great Shaw. Touching on his meeting with Miss Edna Peters recently, the author said in an interview his only complaint was that Miss Peters was not a "typical American" at all.

Stimson May Head Nation's Parley Party

Secretary Regarded as America's Delegate to Conference

WASHINGTON, Aug. 24 (AP)—Secretary Stimson is expected by well informed circles here to head the American delegation to the naval parley which is being tentatively discussed by Ambassador Dawes and Prime Minister MacDonald.

While there has been no decision on the date or location of a disarmament conference, officials in both the state and navy departments have considered the personnel of the American delegation. Reports from London have stated that the conference likely will be held there, either late this year or early next year.

Since Prime Minister MacDonald has been conducting the discussions in London on behalf of the British he is considered here to be the most likely one to head the British delegation at such a conference.

Stimson Surveys Situation

Secretary Stimson has been dealing intimately with the situation and has been in constant touch with Mr. Hoover and American naval experts. Officials here tonight pointed out that Mr. Stimson would be prepared to enter a conference thoroughly acquainted with both the American and British desires and viewpoints. To assist him there would be Ambassador Dawes and Hugh S. Gibson, American ambassador to Belgium, and head of the American delegation to the league of nations preparatory disarmament commission, who is particularly well informed on the view points of other nations.

Rear Admiral Hilary P. Jones, who retired sometime ago as chairman of the general board, is viewed by naval experts as a possible choice to assist the American delegation with the technical angles of the situation.

Cotton Drafts Instruction

Joseph P. Cotton, undersecretary of state, has dealt more intimately with the whole problem than any other person in the Washington government. Instructions to Ambassador Dawes are drafted by Mr. Cotton after consultation with the president, Secretary Stimson and the naval experts. Officials expressed some doubt, however, whether the president, in the event a conference is held abroad would desire both his secretary of state and undersecretary to be absent at the same time.

Charles Evans Hughes, while secretary of state, headed the American delegation to the disarmament conference of 1921 and was assisted by a large staff in both state and navy departments. In this instance, however, the conference was held in Washington and it was not necessary for any of the leading members of the government to be absent for any period.

Rejuvenated Battleships Will be Unfit for Service in 1934

13 of Nation's 18 Capital Ships Come Under Pre-War Type; Some 20 Years Old

WASHINGTON, Aug. 24 (AP)—Although Uncle Sam has been rejuvenating his pre-war battleships since the 1922 Washington arms conference, they will begin to drop from the line in 1934 as unfit for further naval service.

Of the nation's 18 capital ships, 13 are of the so-called pre-war type, the oldest of which are passing the 201 year mark considered the life of a warship.

Modernization of the old vessels was undertaken by the navy under the conditions of the 1922 arms treaty. This was done in an effort to make them less vulnerable from submarines and aircraft, lessons learned from naval engagements in the World war.

The replacement program was set out under the 1922 treaty, is to get underway in 1931, with two new battleships to replace the old Florida, Utah and Wyoming in 1934.

However, as the end of the 10 year arms treaty approaches and negotiations between England and the United States for further naval limitations are progressing, there is considered by naval authorities the possibility that the 18 warships, already approaching obsolescense, may be called upon for further service.

Under the 1922 treaty improvements to battleships are limited to 3,000 tons each. Because of the necessity to construct protected decks to resist aircraft attacks and to add blisters on the hulls to assure adequate protection against submarine torpedoes, the naval constructors were unable to increase the speed or the maneuverability of the old ships.

They have added, new masts to the eight ships completed, however, thereby improving the fire control for the big guns, and they have brought about some increase in the range of the big rifles.

The battleships Utah and Florida, began in 1908, which were the first to undergo modernization, were returned to the line in 1926. The Arkansas and Wyoming, laid in 1909, the New York and Texas, begun in 1911, were modernized in 1927 and 1928, respectively. The Oklahoma and Nevada, begun in 1912, this month, took to sea again to take their places in the line in September.

The Pennsylvania, which is scheduled to replace the Texas as flagship of the United States fleet, and the Arizona, begun in 1913, are now in navy yards undergoing modernization. The New Mexico and Mississippi, 14-year-old ships, are to be modernized next year if congress provides the funds. It has not been decided definitely whether the Idaho or the New Mexico type, will be modernized because she was begun in 1915 but not completed until 1919.

The youngest of the battleships are the Colorado and West Virginia, both being completed in 1923. The Tennessee, California and Maryland were begun during the war but not finished until 1921.

If the replacement program is carried out, the United States will have 15 new battleships in 1942, instead of 18 as at present.

LOS ANGELES—Armed with fishing tackle, a party of prominent Los Angeles men, including Chief of Police James Davis, and William R. Woods, Jr., prohibition administrator for southern California, recently made an airplane fishing expedition in the vicinity of Bishop, Cal.

WASHINGTON, D.C.—Plans are being made to establish two new air mail lines connecting up New York city and Dallas, Tex., via St. Louis and Tulsa, Okla., says a statement by the interdepartmental committee on airways.

Ankeny Woman Wins Dairy Butter Prize at State Fair, Score 93½

DES MOINES, Aug. 24 (AP)—Mrs. A. C. Adamson of Ankeny won first prize today in the dairy butter division of the state fair exhibits with a score of 93 1-2. Second place went to Mrs. Will Keeling of Des Moines.

All winners of prizes for cheese were from Wisconsin. R. G. Clark, chief of the state dairy and food department, said Iowa farmers find it more profitable to sell their cream for butter fat than for cheese.

Burton A. Brown, of Des Moines, a heavy winner in the dairy section, won first place in the beeswax demonstration. Mrs. Gerald Gay of Beacon was second.

Brown also won the $60 sweepstakes prize with W. W. Delahoyde of Dawson second.

Also Passenger Flying by experienced, licensed pilot in government approved and licensed plane.

Wheat Export Demand Halts; Prices Lower

Lower Freight Rates in Southern Hemisphere Lessens Trade

CHICAGO, Aug. 24 (AP) — Dashing of hopes that a sustained outlet for the big stock of United States wheat on hand gave wheat values a decided setback today. Instead of witnessing a fresh out-burst of European buying of domestic wheat today, wheat traders here had to face news that ocean freight rates for southern hemisphere wheat had been cut. Simultaneously, export demand for wheat from North America came to a complete halt, with the movement of spring wheat away from the farms increasing both north and south of the Canadian line.

Chicago closing quotations on wheat were unsettled, 1 1-4c to 2c a bushel lower than yesterday's finish. Corn closed 5-8c to 1 5-8c up, oats 3-8c to 5-8c off, and provisions unchanged to 17c down.

Reports from Washington intimating that no immediate new action by the federal farm board would be taken relative to pressure of domestic wheat terminal markets did a good deal to hasten wheat prices downward, especially in the late dealings. There were also estimates current that the world's wheat stock in second hands had increased 18,890,000 during July compared with 16,987,000 bushels decrease for that month last year.

Corn made a spirited advance to $1.00 a bushel for Chicago December delivery, with crop damage complaints pouring in from corn territory all the way between Oklahoma and South Dakota inclusive. Reports of injury by drought and excessive heat were added by South Dakota advices today that recent frost had caused and extreme loss of 50 per cent in many corn fields. There were also Nebraska and Kansas dispatches saying farmers had started a month ahead of time cutting corn for silos, the crop outlook being so poor. On the other hand, the weekly weather forecast pointed to a general shower period ahead. Oats were influenced largely by the action of wheat.

Unfavorable crop news again stimulated free buying of corn, the new crop months being strong. At the same time there was free selling of the September, narrowing the premium materially. Receipts of corn in Chicago today were 172 cars compared with 87 cars a week ago and 104 cars at this time last year. The market for September was heavy as a liberal run is expected next month, while the cash demand at present is slow. Weather map showed but little rain except for showers in the Ohio valley.

In provisions a good part of the trade consisted of letting go of September deliveries and taking deferred futures in exchange.

Convertibles Hold Interest in Waning Bond Market List

NEW YORK, Aug. 24 (AP)—The convertible issues were the bright spots today in an otherwise dull listed bond market. Record highs for all time were established by America Telephone convertible 4½'s and International Telephone convertible 4½'s, the former getting up to 219¾ and holding 1½ points of their 4 point rise. The latter soared to 218 and closed at 215½ for a net gain of 8½.

The general trend in the market was upward, but the non speculative issues were inactive and held around their yesterday's prices. The rails were generally higher. Atchison convertible 4½'s rose 1½. Central of Georgia 5's, Mobile division, mounted 3 points to a new high at 101. The Seaboard adjustment 5's and adjustment 5's certificates both climbed new peaks on gains of 3½ and 2⅞, respectively. Hudson and Manhattan adjustment 5's advanced a point on a fair demand.

Completion of Transcontinental Oil's capital readjustment plan was marked by a rise of 1½ points by the company's 6½'s. Fisk Rubber 8's again sold at a new low, dipping 1½ points to 88.

The United States government and foreign lists were quiet.

Sues for $100,000

Claiming that responsibility for the loss of her husband's love is directly traceable to Miss Betty Beal, said to be a niece of Secretary of Treasurer Mellon, Mrs. Grace Meade Biltz of Los Angeles, has filed suit in the superior court of California for $100,000 damages.

BLUE BLOOD AND RED

By Robert Terry Shannon

What has gone before:

Eddie Regan has been persuaded to join a gang of which the "Big Guy" is the leader. Bernice Veressi, "gang girl," is in love with Eddie, but he becomes disgusted and breaks away. Boarding a freight train, he goes to Virginia, where he meets Marian Thorndike. She and Eddie help Penfield Paradine, a southern aristocrat, who has been stricken with paralysis, and Eddie finds shelter under Paradine's roof. Penfield takes a turn for the worse, and Marian comes to inquire for him. Uncle Tobe, the Negro servant, tells Eddie that Marian isn't engaged, but has no time for strange Yankees. Paradine dies and leaves Eddie all his possessions.

Now go on with the story:

CHAPTER X

Penfield Paradine was buried in the churchyard of an old brick church, where his ancestors had worshipped for three hundred years. A small group of the country gentry came to the funeral; there was a group of black faces in the gallery of the church. Whether or not Marian's father still clung to the old animosity against the dead man, Eddie did not know.

Marian came with her mother, but someone said her father was laid up at home with an attack of rheumatism. When it was all over Eddie rode home in a ramshackle buggy that was part of his inheritance. He knew how to drive automobiles, but horses were a mystery to him, and Tobe took charge of the reins.

It was a grotesque trick life had played him—this juggling from New York gangland to land ownership in Virginia—and he was correspondingly dazed. None of it seemed real, but the facts were undeniable. Perhaps he might have comprehended that Fate had taken a hand in the switch of his fortunes had it not been that the golden glow of Marian Thorndike's personality had spread through all his senses.

A stirring stimulation bubbled like an unquenchable fountain in his breast and triumphed over the gloom of Penfield Paradine's death. The necessary duties incident to the funeral, Eddie performed with a kind of mechanical aloofness. Upon the advice of old Judge Jones he paid the needed expenses with notes dated a year ahead. He was a big property owner now—and with none to dispute the meager inheritance, he commanded an easy bit of limited credit.

"How much did Mr. Paradine pay you?" he asked the old Negro.

"He never paid me any wages exactly, suh. I just sorta lived on the place an' took pot luck. Dar wasn't much cash money wid us nohow."

"It's funny," Eddie speculated, "that Mr. Paradine didn't leave you something, Tobe. You took care of him for many long years."

The old Negro seemed to have little sense of money or property value.

"Ah reckon Marse Penfield allowed you'd take keer of ol' Tobe dey same as everything else around the place. Atta way is customary, suh. Ah sorta goes wid the house and the land."

Eddie's viewpoint on life had been so readjusted that the arrangement seemed not unusual or unnatural. Everything appeared to fit, in accordance with some established design.

"That's all right with me, Tobe—if it is with you. If you want to stay on the job just let things ride as they always were before."

A sadness was on Tobe. "Ah reckon dar ain't nothing else to do," he said. "If I was to leave this old place Ah wouldn't know which way to turn."

"Yes, and I wouldn't know how to feed one of the chickens unless you stick around and show me," Eddie said with friendliness. "You stick around and I'll give you a good break."

But now he was hungry for a sight of the girl whose strange spell had illuminated his whole life and made him satisfied—nay, eager—to settle down amid the dusty relics of and extinct family. With the passing of Penfield Paradine he knew it was useless to wait and expect her daily calls that had been the central, radiant fact of his existence.

It was possible, of course, for him to see her—but he could not steel himself to call upon her at her home. Surrounding her, he felt was an iron bound custom—etiquette—and he was afraid that he might be guilty of some unforgivable breach of tradition. Maybe, because he had inherited the Paradine place her folks might hate him as they had the previous owner.

There was another factor—she, herself, had not shown anything more than casual interest in him during her visits. Her thoughts had all been for the sick man, and the scant attention paid Eddie was distant and purely courteous.

What he did not and could not know was that she had found him a bizarre and interesting figure that had come on her horizon—that she had told herself secretly that Eddie Regan, should she be privileged to know him better, would probably prove ten times as interesting as any man of her acquaintance. But his thoughts were locked securely in his own mind and no one suspected them.

There were a dozen, a hundred, things to be investigated and done around the farm. Eddie spent long hours with Tobe trying to get an idea of farming. There were rusty implements in a shed and a horse to drag them through the field. Fruit and eggs and surplus garden products could be loaded on the spring wagon and Tobe driving it could dispose of them in small amounts at the county seat. Chickens too, were a source.

A slight profit in the fall, the Negro explained, was a habit to cut and saw firewood which brought three dollars a load in town. The farm itself, however, supplied much more of a living—chickens, eggs, milk, butter, fruit and vegetables. A small patch of corn was enough grain to produce meal; it was ground by hand.

This, Eddie never knew before—the fact that raw material was close at hand. Food, he imagined, originated in factories and he was stirred in a boyish elation at each new discovery.

Once more he counted his money to find that he had enough for immediate necessities. Tobe advised him to sell a few implements which they had no need for and the sale, to a second hand dealer in town, netted fifty dollars for the bankroll.

But while he was famished for the sight of Marian he dared not go near her neighborhood in the day. A few miles separated them. She lived down the road past the front of his place. Once more his eyes were hungry to see her. He slipped out of the house and tramped the whole distance.

Like a thief he crept into the yard of her home and slipped from tree to tree till he neared the spreading frame house that was the Thorndike homestead. It was after 10 o'clock. Save for a light on an upstairs window, he caught not a glimpse of her, but there was a perfect satisfaction in knowing that once more the distance between them was slight. A species of shame came over him for this prying around her home and he hurried away, but there were bubbles in the blood that sang through his veins.

But all this was too difficult to translate into cold fact. At once he could tell from the way she spoke her superior education and he burned to rid himself of his own deficiences in that respect.

Among Penfield Paradine's books he found a set of books written by Edward Gibbon, "The History of the Decline and Fall of the Roman Empire." Each night for a week he read steadily feeling, somehow, that he was drawing closer to her by delving into the lives of Caesars. His run of high school education came slowly back to life and he found that he was taking general interest in the books.

Now and then he thought of Bernice Veressi and still only as an unfavorable contrast of Marian Thorndike. Never again would he see her and never again would he be back associating with the old mob in gangland. He had come to rest in the quietest possible surroundings.

Yet hope was denied him. Nothing on earth mattered, for everything else was beyond him, above him—as a pale star that hung out in the night over the dark, whispering woodlands. To reach her he would have to achieve the impossible and the thought of that accomplishment drove the blood painfully from his heart with sheer human discouragement.

Still, simultaneously, in some other remote recess of his being a light of hope burned and would not be extinguished.

Eddie turned to the work about the farm, but he soon realized that he could not learn in a day the secret of making neglected land yield up its hidden wealth.

The planting season was past, but Tobe taught him to drive a cultivator that threw up fresh earth around the roots of the growing corn. With the old Negro he went into the woods and their axes rang as they felled stunted trees here and there. This, Eddie learned, really conserved the other timber, which grew better after the thinning-out process. He pulled at one end of a crosscut saw and Tobe pulled the other; the fallen trees were cut into cord lengths and stacked to dry, preparatory for the winter demand for firewood.

Never in his life had he felt so well physically. Old Tobe was astonished at his energy to tackle dozens of tasks that were habitually neglected by neighboring farmers, black and white. A rail fence needed repairing; he tore off the shingles of a collapsed feed barn and nailed them onto the roof of the old dwelling, so that the beating rains would no longer pour through.

And always was Marian Thorndike was uppermost in his mind. His back muscles ached from labor, the palms of his hands grew calloused; he would be asleep the minute his head touched the pillow.

If he dreamed of her it was a sweet blur of impressions with fringed golden softness that touched his slumber. But he held her fast in his spirit during his waking hours; she was everywhere about him, in the song of the birds, the clean outdoor odors, the whisperings of the trees.

The hard work he was doing had the curious effect of keeping him from being impatient. It was a real world he was living in, and toil, he found, developed faith. In ways that he neither attempted nor succeeded in understanding he was drawing himself closer to the realization of an ideal.

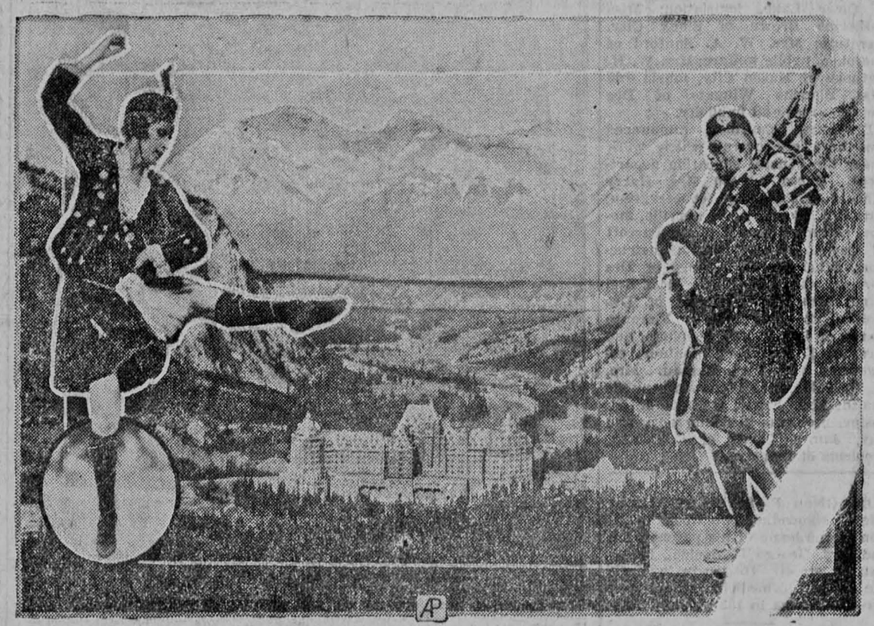
No man, he kept telling himself, could strive so unremittingly without making progress.

After dinner he would read in the books of Penfield Paradine, trying to glean something to enrich his mind. Too, he acquired the habit of changing before dinner from his work clothes to clean linen and a freshly pressed suit.

He dined alone with Tobe serving him. But he did not work the old Negro too hard, as he spared him from outdoor work a large part of the afternoons.

(TO BE CONTINUED)

SCOTS TO PIPE AND FROLIC ON MILE-HIGH PLAIN



A bit of the Scotch highlands will be represented in the Canadian Highland festival at Banff, Rocky mountain resort, Aug. 30. Left is a lassie dancing; the piper on the right is Robert Allan of Calgary.

BANFF, Alberta, Aug. 23 (AP)—Skirling pipes echoing through the mountains and flashing multi-colored kilts will cast an authentic Scottish spell over this mountain city Aug. 30.

Then the clan will gather to revel for three days in all the things dear to the heart of every Scot.

The occasion is the third annual highland festival, conceived by John Murray Gibbon, Montreal Scot and novelist, and popularly known as "the man who makes all Canada sing."

In song and dance, sports and reminiscences, western Canada, predominantly Scottish, will give vent to its expression of love for auld Scotia.

The running track and the greensward for field events is a mile high, with the white capped mountains for a background.

The Canadian amateur track championships will attract Percy Williams, Olympic sprint champion.

The Highland athletic program will include 17 events open only to Canadians, while 15 events of the dominion track and field section may be entered by athletes of the United States with international permits vouching for their amateur status.

The high pitched call of the bagpipe will be heard almost continuously, as there will be 12 distinct events for bagpipe devotees. The Highland fling and other Scotch dances will have 16 events. Concerts of Scotch music will be given during the events. The ballad opera, "Flora and Prince Charlie," will be presented by Canadian artists.

MARKETS AT A GLANCE

Stocks—Strong; American Telephone reaches 300 for first time.

Bonds—Strong; International Telephone 4½'s again at new peak.

Curb—Irregular; National investors reaches new top at 230.

Foreign exchanges—Irregular; sterling steady.

Cotton—Higher; dry weather western belt.

Sugar and Coffee—Holiday.

CHICAGO

Wheat—Easy; fine harvesting weather.

Corn—Firm; bullish Nebraska and Kansas advices.

Cattle—Steady.

Hogs—Steady to higher.

Favorites of Stock Market Slip Slightly

Concentrated Campaign by Bulls Continues Unrelentingly

NEW YORK, Aug. 24 (AP)—The concentrated bull campaign in selected stocks was pushed forward with unremitting vigor in today's two hour session of the stock market but several of the recent favorites appeared to tire, and sold off moderately.

Week-end profit-taking was for the most part readily absorbed, however, and the general list closed fairly firm. Trading was in good volume, the day's turnover exceeding 2,100,000 shares. Operations for the advance again centered in the communications, steel and chemical shares.

Call money held at 7 per cent.

In the communications group, American Telephone 5½ points to touch the 300 mark for the first time, and International Telephone continued its upward climb, rising more than 6 points to another new high for the present stock at 145.

In the steels, U. S. Steel reached a new peak at 260½ in a narrow gain, but slipped back and closed with a net loss of 1½ points, while some of the so-called independents leapt forward. Republic mounted more than 8 points to another new peak on optimistic estimates of the earnings prospect of its new welded pipe process. Inland and Youngstown also reached record levels with wide gains.

Allied Chemical, floating supply of which has been reduced by further acquisitions by the Solvay interests, sold up 10 points then slipped back 3. U. S. Industrial Alcohol got into the 200 class for the first time with an extreme gain of more than 8 points. United Carbon mounted 6 points.

U. S. Freight was a strong point rising about 8 points to a new peak. In the utilities, Consolidated Gas and Stone and Webster were well bought, and Southern California Edison and Pacific Gas and Electric again surged forward to new record levels on merger prospects.

Westinghouse Electric, a high flyer in the last few sessions, was slightly depressed by profit taking, and Dupont, Columbian Carbon, Radio, and Continental Can lost 2 points or more in realizing. Some of the rails were under pressure, Chesapeake and Ohio losing 3 and Pere Marquette 6 points.

Foreign exchanges were quiet, sterling holding at $4.84 13-16.

Edna Willy, local school teacher, attended the state fair in Des Moines Friday.

GRAIN NOTES

CHICAGO, Aug. 24 (AP)—Disposition to sell wheat on all bulges is keeping supporters of the market busy. The general run of buying is not heavy, and many Chicago traders are bearishly inclined. Spreading operations are the main factor, with buying of September and selling of December at the widest difference of the season, mostly 9 @ 9 1-4c. At this rate, it was said, there are not likely to be heavy deliveries on September contracts, as it pays too well to carry the grain.

J. F. Jackson of Pynchon and company, says: "A great many people in the grain trade are imbued with the idea that grain is apt to emulate the stock market by advancing in spite of the distressed cash situation. We doubt it very much. Stocks are a known quantity in the amount of shares issued, but grain is an unknown quantity. There is either an over estimation or an under estimation of the crops. Grain is easily advanced during a crop growing period when damage is reported. But it is not so easy to maintain advances after the crop is secured and the terminal points have large stocks. That is the condition at present in grain, especially wheat."

Expectations are that on Monday there will be another big increase in the visible supply of wheat for the week, although not as large as the 131,355,000 increase the previous week.

In two weeks there has been an accumulation of 30,000,000 bushels as against 12,000,000 bushels last year. A year ago the visible increase for the week was 5,075,000 bushels.

Chicago Grains

CHICAGO, Aug. 24 (AP)—Cash wheat market closed 1c easier to 1c better. Trading basis unchanged to ½c higher, demand fairly good and offerings were somewhat smaller. Shipping sales 2,000 bushel. Country offerings to arrive small, warehouse receipts were cancelled for the shipment of 38,610 bushel. Seaboard reported export business in all positions small.

Corn trade was fairly active and prices irregular as compared with previous sales and yesterday's close. Basis practically unchanged. Shipping sales 30,000 bushel and booked to arrive 45,000 bushel. Cancellations 3,309 bushel.

Oats ruled ½@1c easier. Basis unchanged to ½c lower. Shipping sales 57,000 bushel. Booked to arrive 20,000 bushel.

Missouri's income from poultry is valued above Colorado's mining output.

Statistics on Nebraska's $471,000,000 crops cost $21,000 yearly to compile.

Missouri has the largest lead mines and limestone deposits in the world.

Michigan Pro Hangs Up 273 to Win Event

Horton Smith Winds Up in Second Place, 8 Strokes Behind

OZAUKEE COUNTRY CLUB, MILWAUKEE, Aug. 24 (AP)—Tommy Armour, the fighting Scot whose professional shingle hangs from the Tam O'Shanter club of Orchard Lake, Mich., romped away with the western open golf championship today with 273 strokes, the lowest 72 hole medal score in the tournament's 29 years of play.

Horton Smith, the blonde wizard from Joplin, Mo., was runner up, eight strokes to the rear; Willard Hutchison, youthful assistant pro from Glencoe, Ill., was third with 283, while Gene Sarazen, the temperamental Italian from Flushing, L. I., landed fourth with one stroke more.

Kirkwood Finishes High

Other leaders were Joe Kirkwood, transient trick shot artist, and Frank Walsh of Appleton, Wis., open champion, 285; Jock Hutchison, of Chicago, "Wild Bull" Mehlhorn, of New York, and the veteran Harry Hampton of Chicago, each of whom turned in 286 totals.

One of the greatest manipulators of iron golf has ever known, Armour topped the brilliant field from start to finish. All told he was seven under par for his four rounds and his total eclipsed the western open record, established by Arthur Smith of Columbus, O., on the Cincinnati golf club course, 24 years ago, by five healthy swats.

Best Round 65

He was not only brilliant but steady. Only 9 times did he require more than par for a hole and these mistakes he more than rectified by bagging 16 birdies. His best round was 65, five under par which won him the tournament medal. His subsequent scores were 71-69 and a 68 today.

Putting ruined Smith's hopes of catching Armour today. His drives were spectacular and his pitches fair but his putting touch was lost when a mediocre stroke on the carpet would have given him birdies and at least par, forcing him to take a pair of 71's today, which was good golf but hardly his type on such a course as Ozaukee. Only once did the "Joplin Ghost" get started during the tournament and that was during the qualifying test when he scored a 66 to be second to Armour for the medal. On his second round he got a 73, his worst score of the week.

Gene Becomes Angry

Willard Hutchison, the only dark-horse to land well up among the leaders shot four steady rounds—69-72-71-71, while Sarazen lost what was a good opportunity to overtake Smith by losing his temper on the putting green.

Yesterday Gene became angered when he missed a 10 foot putt and was so enraged that he took three more before the pellet dropped. Today he did the same thing on the par three, ninth hole, where he got a five when steadiness would have given him a four anyway.

Pirates Drop Double Header to New York Giants, 14-8, 7-6

NEW YORK, Aug. 24 (AP)—The Giants defeated the Pirates in both ends of a double header today by 14 to 8 and 7 to 6. Despite the heavy clouting, Fred Fitzsimmons and Carl Hubbell both finished their games. The nightcap was decided in the ninth when Ed Roush hit into the right field seats for a home run.

The Pirates threatened in the ninth round of the second game, but Lloyd Waner was called out at third on a close play. Donie Bush was ordered from the field for protesting the decision.

In the second game, Burleigh Grimes made his first start since his injury at the polo grounds five weeks ago. The defeat was his third of the season against 16 victories.

First game:

Score by innings:		R	H	E
Pittsburgh	003 110 201—	8	12	4
New York	301 206 20*—	14	16	1

Batteries—Kremer, Fussell, Hill and Hemsley; Fitzsimmons and Hogan.

Second game:

Score by innings:		R	H	E
Pittsburgh	020 211 000—	6	13	2
New York	020 220 001—	7	10	2

Batteries—Grimes and Hargreaves; Hubbell and O'Farrell.

Washington Senators Continue to Win by Beating Tigers, 9-6

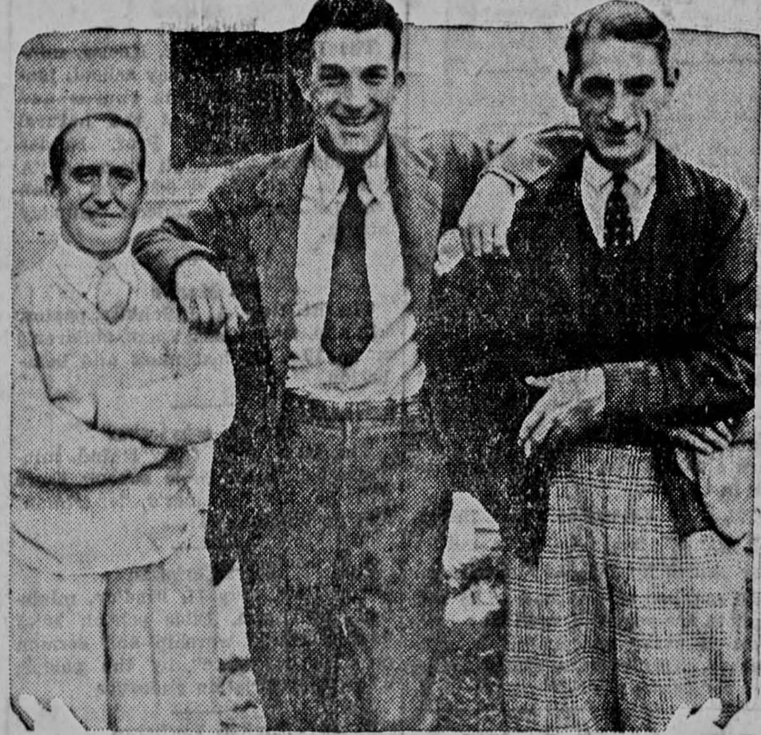
DETROIT, Aug. 24 (AP)—Washington made it three in a row over Detroit today by slugging out a 9 to 6 victory. Fred Marberry relieved Thomas in the seventh inning with the score 6 to 4 in Thomas' favor, two runners on base and one out. Marberry walked the first two batsmen to face him, forcing in a run, but his team mates saved him with a double play.

Vic Sorrell and George Uhle pitched for Detroit. Sorrell was driven out in the seventh after the Senators had collected 11 hits. Sam Rice stole home after getting a triple in the eighth. Harry Rice got a homer in the sixth with two on.

Score by innings:		R	H	E
Washington	010 020 321—	9	14	3
Detroit	000 004 101—	6	10	1

Batteries—Thomas, Marberry and Tate; Sorrell, Uhle and Shea.

ARMOUR WINS WESTERN OPEN



Tommy Armour, who yesterday won the Western open golf championship at Milwaukee, (right) is shown with Bobby Cruickshank, New York, another entry in the tourney, and Al Simmons, of Connie Mack's boys, who just watched.

Cubs Rally in Ninth to Win

Chicago Sweeps Series With Philadelphia

PHILADELPHIA, Aug. 24 (AP)—The Cubs defeated the Phillies by 9 to 6 here today as their parting shot at the east for the season of 1929. A four run assault upon Koupal and Willoughby in the ninth prevented the home team from registering a 6 to 5 victory. The Cubs won 31 and lost only 13 in their tours along the Atlantic seaboard this season.

The Cubs gained one and one half games as the Pirates lost twice to the Giants. The Bruin margin now is 12½ games.

Frank O'Doul helped the Phillies gain a lead by smashing out his twenty-sixth home run and a double.

Red Sox Take First From Indians; Lose Second of Doublet

CLEVELAND, Aug. 24 (AP)—Big Ed Morris, hurling in the first game for Boston, and Ken Holloway, tossing for Cleveland in the second game, had their own way with the batters today, and Boston won the open 5 to 2 and Cleveland the after piece 6 to 2.

Holloway allowed the Red Sox only five scattered hits for seven innings of the second game and then eased up.

First game:

Cleveland	001 130 10*—	6	12	0

Batteries—M. Gaston and Berry; Holloway and L. Sewell.

JONES, EVANS PAIR

LOS ANGELES, Aug. 24 (AP)—Bobby Jones, national amateur champion, making his first public appearance in the west in a golf match, paired with Chick Evans of Chicago to defeat George Von Elm, of the Tam O'Shanter club, Detroit, and Jack Neville of Delmonte, Cal., 6 and 5, in an 18 hole exhibition today.

Browns Shut Out Yankees

Crowder Yields 2 Hits to Win 4-0 Game

ST. LOUIS, Aug. 24 (AP)—Alvin Crowder pitched two-hit ball against the Yankees today to defeat the champions by 4 to 0 and send them through their twenty-ninth successive scoreless inning. Roy Sherid, hard luck pitcher of the Hugmen, again pitched a complete game, but got nothing but a defeat for his pains.

Gene Robertson got both of the hits made off Crowder, a double in the first and a single in the ninth. Crowder gave only one pass and the Browns furnished him errorless support.

Babe Ruth and Lou Gehrig, each at bat three times, failed to drive the ball out of the infield.

Athletics End Losing Streak With 5-2 Win

Leaders Pound Faber to Score 5-2 Victory Over Pale Hose

CHICAGO, Aug. 20 (AP)—The losing streak of the Athletics was halted at four here today when Rube Walberg held the White Sox to seven well-scattered hits as the Athletics pounded the veteran Red Faber for enough hits to win by 5 to 2. Grady Adkins pitched the last inning for the Sox. It was Walberg's seventheenth victory of the season.

Al Simmons returned to the game after a lay-off and got three hits. Gordon Cochrane also hit safely three times.

The Macks increased their lead to 13 games as the Yankees lost their third straight shutout in St. Louis.

"IMP" WINS RACE

RED BANK, N. J., Aug. 24 (AP)—Cutting through the rough waters of Shrewsbury river at nearly 50 miles an hour, the Imp, owned and driven by Richard F. Hoyt of New York, today whipped a field of America's fastest speed boats to win the twenty-seventh Gold Cup classic—

SUDDEN ECLIPSES

Eclipses often come to sport stars without any of that prophetical precision such as foretells the dimming of their astronomical counterparts. A dazzling links luminary, seemingly secure as a star of the first magnitude, is dimmed suddenly in a big tournament or two; a tennis sensation, after a few extraordinary seasons, lapses into all but utter mediocrity in the space of a few weeks; and so on through the many divisions of athletics—eclipses dim, or entirely extinguish, sportdom's sidereal celebrities with thrilling frequency.

Fortunately many such eclipses are but temporary. Myriad admirers of the justly popular Johnny Farrell sincerely hope that his golfing eclipse, which started with the American Open last June, will be brief. Another army is pulling for Jess Sweetser to come back during the National Amateur Golf Championship in California next month. Farrell's eclipse is blamed on "too much golf" since winning the U.S. title in 1928. Sweetser's came soon after he won the British Amateur crown in 1926, and it was due solely to illness.

Among the most poignant of historic sporting eclipses was that of "Red" McLoughlin, the Comet of the Courts. His was a strenuous style of play. He was "burnt out" after a couple of seasons, dropping from top ranking to mediocrity. But what a whirling wow that "Comet" was in his halcyon days.

Like most athletes who become "burnt out," McLoughlin's eclipse was permanent. The great stars fight hard against that fate. Dempsey tried to come out of his Tunney eclipse against Sharkey, and all but emerged during those 14 seconds at Chicago! But the years were pinning Dempsey's legs. Father Time eclipses us all in the long run and turns out light after light—the stars of course, included.

Tilden Wins Casino Meet

Lott Extends Veteran in Hard Match

NEWPORT, R. I., Aug. 24 (AP)—Playing before a hostile crowd, Big Bill Tilden displayed enough of his great fighting spirit to overcome George M. Lott, Jr., of Chicago, in a long five set tennis match here today in the final of the 13th Newport Casino invitation tournament. This victory gave the old master permanent possession of the Culhman trophy as he won his first two legs in 1926 and 1927. The scores were 6-2, 3-6, 6-4, 5-7, 6-3.

The doubles final was won by Lott and Johnny Doeg of Santa Monica, Cal., who defeated Fritz Mercur of Bethlehem, Pa., and his brilliant partner, J. Gilbert Hall of Orange, N. J., 6-4, 7-9, 4-6, 11-9, 6-2.

Tilden made a furious start against Lott, winning the first four games, three by love. The young Davis cup player started on a court which contained a large slippery area and he was worried by the unsafe footing. After slipping several times he changed to spiked shoes and when these failed to keep him upright, he removed them and played in his socks until the sun dried the court.

The veteran's famous "cannonball" service became erratic in the second set and Lott broke through his service twice. Several times during this set Tilden was displeased by unfavorable decisions made by linesmen and he delayed the play to chide with them.

Before the final set started the referee called on the crowd, overwhelmingly for Lott, to refrain from applause. Tilden served a love in the first game and Lott held the second. During this game many of the crowd disregarded the referee's request and applauded Lott. Tilden turned and glared at the stands for almost a minute. This gesture of displeasure so annoyed a few of the spectators that they hissed the former world's champion when he next found fault with a linesman's decision.

Hall played a remarkable steady game during the afternoon doubles match maintaining his services on each of his performances. Mercur was broken six times during the 64 games, Doeg four times, and Lott once.

Cincinnati Divides Twin Encounter With Dodgers, 5-2, 8-0

BROOKLYN, Aug. 24 (AP)—Cincinnati divided its last two games in the east here today, triumphing over Dazzy Vance in the first game by 5 to 2, but falling a victim to the shutout pitching of Ray Moss by 8 to 0 in the second. The even split gave Brooklyn the series, two victories to one.

Jackie May held the Dodgers to four hits in the first game, while infield errors weighed heavily against Vance. Bissonette's home run with one on in the first inning of the second contest started Ash on the way to defeat.

Wills Captures National Title

Watson Forces Helen to Extend Self to Win

FOREST HILLS, N. Y., Aug. 24 (AP)—In the hardest final round battle she has had since the English star, Kitty McKane, forced her to an extra set in 1925, Helen Wills won the national women's tennis championship for the sixth time before a gallery of 6,000 at west side stadium this afternoon. Once again the stubborn challenge came from the hard driving racquet of an English player and it was only after 40 minutes of hotly fought and thrilling tennis that the queen of the courts overcame the gallant Mrs. Phoebe Watson of England's Wightman Cup team by scores of 6-4, 6-2.

With this final victory went undisputed singles supremacy over the feminine players of the world for the third time in as many years as the Berkeley, Cal., tennis marvel previously this season has won open championships of England and France.

Mrs. Watson's sterling tennis and sportsmanship gained their reward in the all-English final for the national women's double championships, as she and Mrs. Peggy Saunders Mitchell, the British title holders, came from behind to beat out their compatroits, Mrs. Phyllis Covell and Mrs. Dorothy Shepherd Barron, 2-6, 6-3, 6-4.

Earlier in the day Mrs. Watson and Mrs. Michell had won their way into the final by defeating the Anglo-American combination of Betty Nuthall and Helen Jacobs, 9-11, 6-3, 6-4.

So surprising a battle did Mrs. Watson put up in the singles final that the stadium rang with applause and outright cheers. Her every winning shot was hailed with excited acclaim while those of Miss Wills were met with polite handclapping.

BIG SIX
By The Associated Press

Al Simmons returned to action yesterday, and monopolized the Big Six spotlight with three hits in four times at bat in Chicago in an afternoon generally marked by light hitting. Simmons lifted his average four points. Babe Herman got two hits in the double header at Brooklyn, but Hornsby and Foxx had to be satisfied with one apiece and Babe Ruth again wore the horse collar. Klein remained out of the game.

The standing:

	G.	AB.	R.	H.	Pct.
Herman, Robins	114	447	85	182	.406
Foxx, A's	122	431	105	163	.378
Simmons, A's	115	474	93	175	.369
Hornsby, Cubs	119	465	116	167	.359
Klein, Phillies	113	462	92	164	.355
Ruth, Yankees	98	357	90	124	.347

OAKLAND—Interior decorators are now at work on a 37-room Oakland municipal airport inn, the "first exclusive airport hotel to be erected at any United States airport."

Robins Divide Twin Bill With Cincinnati by Winning 2nd Tilt

BROOKLYN, Aug. 24 (AP)—Brooklyn divided a double header with Cincinnati here today, winning the second game by 8 to 0 after the Reds had run off with the first decision by 5 to 2. Ray Moss allowed just six scattered hits in the nightcap. The Cincinnati players rushed for a train to get home in time for a double header against the Cubs tomorrow.

First game:

Score by innings:		R	H	E
Cincinnati	100 103 000—	5	9	0
Brooklyn	100 001 000—	2	4	3

Batteries—Mays and Sukeforth; Vance and Deberry.

Second game:

Score by innings:		R	H	E
Cincinnati	000 000 000—	0	6	1
Brooklyn	300 002 30x—	8	8	0

Batteries—Ash and Gooch; Moss and Deberry.

Johnson Gives Four Hits as Cards Win From Braves, 3 to 1

BOSTON, Aug. 24 (AP)—St. Louis gave Sylvester Johnson a well earned 3 to 1 victory over the Braves here today. Johnson held the tribesmen to four hits and Boston's only run came in the first on Welsh's double, Maranville's single and Richbourg's sacrifice fly.

Seibold held the visitors to one hit until the seventh when Orsatti, Bottomley and Hafey singled. Two runs came in the ninth on doubles by Orsatti and Frisch and Bottomley's triple.

Sore by innings:		R	H	E
St. Louis	000 000 102—	3	7	1
Boston	100 000 000—	1	4	0

Batteries—Johnson and Wilson; Seibold, Cantwell and Leggett.

KARL EITEL WINS

CHICAGO, Aug. 24 (AP)—Karl Eitel, owned by J. J. Coughlin, today won the $10,000 Ft. Dearborn handicap for three year olds and up at Hawthorne running the mile and a furlong in 1:49 2-5. Montanaro, owned by H. Deatherage, was second and the Audley farm stable's Eastern Stockings third.

Locals, West Branch Clash at City Park

Fast Match Promised; Rumors of Clubs "Loading" Up

Two teams, made up for a large part of local men, will do battle in what should be one of the season's best baseball games on the city park diamond, this afternoon at 2:45 o'clock. The Iowa City Independents, with two new faces in the lineup, will meet West Branch, one of the fastest small town clubs in these parts.

"Cap" Waller, local club manager, has put through his deal with "Foxy" Kelleher and "Red" Malone, a fast pair of Iowa City boys, and these two will hold down shortstop and third base positions. "Ike" Schoen will probably start for Iowa City with Trypkosh, late of the 'Sippi Valley league, in reserve.

"Boney" Clark, local lad and former university flinger, will start tossing the old apple for West Branch. He has one of the most impressive sandlot records in the vicinity, including wins over Cedar Rapids semi-pro clubs and is also backed by a high strikeout record.

Catcher Brown of West Branch is also from Iowa City. He suffered an injured finger in a game last Sunday but probably will be in the lineup. It was stated last night that "Billy" Branch, coach of the state prison team from Anamosa, might be behind the bat for the Branchers.

No other "loadups" from other cities were given last night by either club but vague whisperings said "Boss" Albin of West Branch was going to spend 100 long green to get some hitters.

Probable lineups:

IOWA CITY	WEST BRANCH

Holmes to Act as Manager of House Service

Professor Will Oversee Housing Conditions for Students

The appointment of Prof. Fred Holmes of the college of engineering as manager of housing service for university students was announced yesterday from the office of Pres. Walter A. Jessup. Professor Holmes' appointment was recommended by the university housing committee, which has recently been made one of the senate board committees.

Professor Holmes will have oversight of the general housing conditions for students, including sorority and fraternity houses and university dormitories as well as the rooms in town. He will continue to give part time instruction in the department of mechanics and hydraulics.

Aid in Obtaining Rooms

The purpose of the new service bureau will be to enable students to obtain satisfactory rooms with a minimum of time and trouble. Both before and during registration, every service will be offered students who have not yet selected rooms.

Professor Holmes will establish a permanent office at Iowa Union, where lists of the approved rooms will be available. During registration, upperclassmen on the reception committee will be asked to keep cars available at the Union, and will take new students to inspect rooms which have been suggested to them.

The dean of men and the dean of women, through whose offices this work has been handled during previous years, will continue to cooperate with Professor Holmes and the housing committee.

The large office opening from the northeast corner of the main lounge of Iowa Union has been divided into two rooms. Professor Holmes will use the room at the right for his office, while Theodore M. Rehder, manager of the student employment service, will use the second office.

Offices in Union

At the present time Professor Holmes is making his headquarters at the office of the dean of men while the changes are being completed on the offices at the Union. Beginning tomorrow morning, Professor Holmes or his secretary will be at the dean of men's office from 8 a.m. to 12 m., and from 1 to 5 p.m.

Professor Holmes is already listing approved rooms, both for graduate and undergraduate students, and inspections of the rooms available are being made. Those who wish to rent rooms to students are asked to telephone the dean's office, and the rooms will be inspected as soon as possible.

Many rooms have already been reserved for students who have stopped in Iowa City to choose rooms or who have written asking that rooms be obtained for them.

Fort Dodge Company Submits Proposal to Reduce Light Rates

FT. DODGE, Aug. 24 (AP)—The Ft. Dodge Gas and Electric company today made an offer to the city council to reduce the local light rates so that consumers would save $25,000 a year, effective Sept. 1. The council reserved decision until next week.

The proposed reduction is the second of the year. A cut was made in January which was estimated to have saved consumers $28,000 this year.

The meeting was marked by a clash between Mark Anderson, general manager of the gas company, and City Clerk C. W. Wakeman, who accused the company of overcharging the city for street lighting and not dealing openly with the public in rate matters.

New York Aviatrix Ill With Typhoid

FT. WORTH, Tex., Aug. 24 (AP)—Mrs. Margaret Perry, New York aviatrix, who withdrew from the women's air derby here due to illness, faces several weeks in the hospital, *physicians* said tonight. She is ill with typhoid fever.

Although she had been running a temperature since the start of the race, Mrs. Perry doggedly refused to give up the race until she reached Abilene. There she was too ill to continue into Ft. Worth for the control stop Thursday night.

Yetter's Department Store Redecorating

Yetter's department store is undergoing a complete re-painting and redecorating.

Both the first and second floors will be repainted and re-decorated. A new steel ceiling is now being placed on the first floor.

Western League Sells Pitchers to Millers

DES MOINES, Aug. 24 (AP)—Two Western league clubs have sold three pitchers to Minneapolis of the American association, E. L. Keyser of Des Moines, who acted as agent for the Millers, announced today.

Dick Morgan and Leonard Holmes were sold by Topeka and the Des Moines club sold Lester Ferguson. Morgan and Ferguson, right handers, will join Minneapolis at Kansas City Sunday while Holmes, a southpaw, will report before the Western league season closes September fifteenth.

NEWS ABOUT TOWN

Council May Hear Petitions

Paving petitions and routine business matters will come before the city council, meeting in an adjourned session, Monday night at the city hall providing a quorum of members are present. Several councilmen are now out of town.

Son Born to Bunkers

An eight and one half pound boy, Harry S. Jr., was born to Mr. and Mrs. Harry S. Bunker, 232 S. Summit street, last night. Mr. Bunker is manager of the Student Publications, Inc.

Hear Bus Application

Hearing on an application of the Greyhound bus lines to maintain local service between Iowa City and West Liberty and through service from Grinnell to Des Moines will be given at the Jefferson hotel Sept. 17. The state railway commissioners will consider the application.

Highways Chief Speaks

The new chief of the state highway commission for this section of the state will speak at the Kiwanis club meeting Tuesday at the Reo Ball inn, according to Clifford Palmer, club secretary.

Federal Board Members Will Meet Monday

WASHINGTON, Aug. 24 (AP)—Five members of the federal farm board left for Chicago today to attend a meeting Monday at which organization plans for the farmers national grain corporation will be discussed.

Spurred by the present overcrowding of wheat at terminals, the board is anxious to have the corporation set up as soon as possible so that it may endeavor to market wheat and coarse grains in a more orderly fashion. While hopeful that the corporation's activities would aid this year's crop, board officials today expressed the belief that the maximum effect would not be felt until next season.

The fact that the board was not organized until after the wheat harvest had begun prevented the earlier formation of the national marketing organization which board officials said they believed would have resulted in greater benefits to this season's crop.

Board officials asserted, however, that the present aggravating conditions would not cause them to turn from their plan for a long time solution of the problem to make hurried loans or engage in stabilization operations.

King George Settled in Favorite House

SANDRINGHAM, England, Aug. 24 (AP)—King George was safely and comfortably settled in Sandringham house tonight ready to lead the life he loves so well, that of a country gentleman.

He was still under the care of a nurse who had attended him at Buckingham palace but other members of the medical staff remained in London. The medical needs of his majesty henceforth will be supervised by Dr. Frederick J. Williams, surgeon apothecary to his majesty's household at Sandringham since 1924.

Looking moderately well and walking with the aid of a stick his majesty appeared in the gardens soon after his arrival this afternoon, accompanied by Queen Mary, several attendants and his favorite terrier.

Seven Bandits Loot Chicago Tailor Shop

CHICAGO, Aug. 24 (AP)—Seven bandits took charge of a manufacturing tailor's establishment this afternoon for an hour and looted the place of 200 bolts of wool suitings and 40 suits of clothes, valued at $50,000. Samuels, Weiner and Burke are the proprietors of the shop.

Seven employees of the firm and four customers were herded together, bound and gagged and tossed in a pile on the floor where the bandits trussed them in one bunch. A truck was used to carry off the loot, the machine apparently making two trips from the establishment.

In addition to the stock stolen, one of the proprietors, Hymen Burke, was robbed of $200 in cash and a diamond ring which he valued at $1,500.

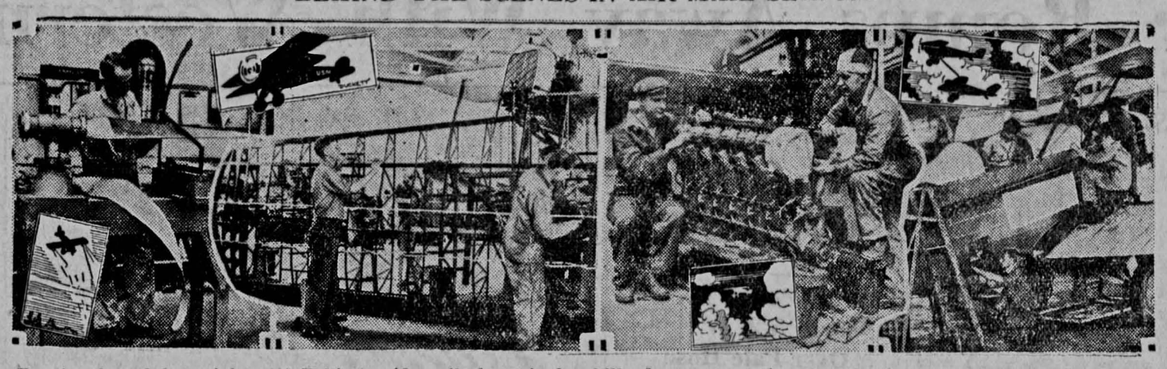
BEHIND THE SCENES IN AIR MAIL SERVICE



Reading from left to right: (1) Behind swift mail planes is the skill of expert repair men who keep the huge ships in perfect shape. "Slim" Dunham is shown repairing a prop. (2) In these shops at the municipal airport in Chicago wings are being made ready for perilous flights. (3) Tender care of the motors insures that air mail goes through, night and day, rain or shine. (4) These skilled mechanics are shown here making a careful inspection of every detail of the ship's structure. These inspections are made at regular intervals.

CHICAGO, Aug. 24—The great mail planes, thundering out of the murky twilight to land upon the tarmac of the municipal airport or droning away to meet the dawn on the west coast run, carried over 191,000 pounds of Uncle Sam's mail last month to all parts of the country.

The casual observer at the airport sees only scurrying groups of men cramming half a ton of mail into the flight, while two highly trained men maw of a plane waiting in the glare of a searchlight. The crowd sees only the slim, cool-eyed pilot whose hands lift the plane roaring into the night; they never see 'the men behind the plane."

In the large hangar that houses the repair and maintenance departments are completely equipped machine and carpentry shops and laboratories sufficient to manufacture a man in his job. Observation and weather are required to instruct a mail pilot mail plane complete from tail-skid to "prop."

A large proportion of the 125 workmen employed by the repair department are from the famous Luft-Hansa Aircraft works in Germany. Each man is a specialist.

Government statistics show that five skilled workmen are required to keep a single plane groomed and in stations and corps of expert engineers also are employed to keep the mail in the air.

"We cannot trust to luk in the air mail game," said C. C. Hamilton. "Our planes fly 365 days of the year in all manner of weather. The best of pilots are required, men who have flown in every conceivable kind of weather. Our present safety rating is 99 per cent perfect."

Veteran Fisherman Tells Why Fish Are Migrating

What makes the fish swim continually upstream and come to the surface and suck air for minutes at a time? This question has been asked by scores of local people the last few days who have noticed hundreds of buffalo fish in the Iowa river performing in such a manner.

Edward Demory, 77 years old, for half century a fisherman along the Iowa and Cedar rivers, offered the following explanation, which he declares is "straight," when interviewed on the matter last night.

"Buffalo fish live on the sediment in the water, pumping water through their gills and extracting the sediment. When the river becomes the least bit stagnated it is impossible for the fish to secure sufficient food or air down below so they must come to the surface and pump air along with the water and sediment.

"The buffalo swim upstream as they pump because the water flows into their gills. If the stagnation, common to this time of year, continues the fish will so turn over on their back and die."

Mr. Demory remembers five years ago when the university raised the old board dam on Burlington street. The dam was in place prior to the present concrete one and stagnated the water with a green scum as far as the City park. At that time he declares thousands of buffalo died as the pollution continued on upstream. Dead fish weighing as high as 10 or more pounds were snagged from the river.

The upstream trend of the hundreds of air-sucking fish has been a source of wonderment to many persons. Daily numerous cars and knots of persons have lined the Iowa avenue bridge watching the unusual migration.

DIES FROM BURNS

HARLAN, Aug. 24 (AP) — John Thielen, 25 years old, implement dealer at Defiance, north of here, died in a hospital here today as result of burns received when his store was destroyed by fire Friday night. He was burned in an attempt to save his books from the fire. A widow and one child survive.

COMPLETE OFFICE ROOMS

Partitions have been completed on the third floor of the hydraulics laboratory to form a group of offices which will be used next year by Prof. D. L. Yarnell of the department of hydraulic engineering and by several graduate assistants in the college of engineering, whose offices were formerly in the engineering building.

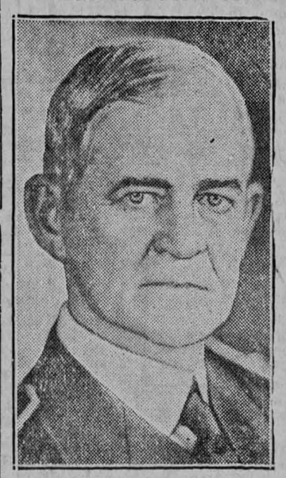
Admiral Retires



Rear Admiral Henry A. Wiley, former commander in chief of the United States fleet, retires Sept. 30 after 44 years in navy.

Students of Other States Must Have Iowa Car Licenses

Students at the university this fall will have to have their cars registered in Iowa regardless of what state they're from, according to announcement made by Police Chief C. F. Benda. The chief pointed to a section of the Iowa motor vehicle law which must be enforced this year.

The section provides, "Non-resident cars shall be registered within 10 days after entering the state, with the county treasurer or department who will issue the certificate of registration for the period of exemption." Prior to this year outstate students have operated their cars on the licenses from other states with immunity.

Upon registration the student will be issued a visitor's certificate and granted exemption coinciding with the time an Iowan is permitted exemption in the state in question. After that time an Iowa license must be obtained.

Louisa County Girls Win Judging Contest

DES MOINES, Aug. 24 (AP)—Veda Gipple and Lucille Oak of Louisa county, this afternoon captured the title of Iowa grand champion judging team among 4-H club girls at the Iowa state fair.

Vide Gipple also won the honor of having the highest individual judging score of the members of the 38 teams competing.

The judging teams competed in four classes, the high teams in each class competing for the final grand championship honor. The winning team will be given a free trip to the eighth annual 4-H club congress in Chicago in December.

M'Donald Has Much Work on Return Home

LONDON, Aug. 24 (AP) —Prime Minister Ramsay MacDonald found many cares of state awaiting his attention when he arrived here tonight by air from Lossiemouth, Scotland. He said that he considered the situation at the reparations conference at the Hague "too vague" for him to make any comment.

He did, however, immediately summon his cabinet to a meeting tomorrow to consider what action was necessary in view of the serious religious riots in Jerusalem. He consulted several leaders of the government tonight who reported to him that British troops and warships were already on the way to Palestine.

The premier disclaimed any special significance for his hasty return from vacation. "As for going to the United States," he said, "I am as much in the dark about that as you are for the time being. It will depend on many things, including the Hague conference and parliamentary business."

A new 500-h.p. air cooled motor is now under production by the Salmson Motor company of Paris, France.

Church Notices

Union Services

The Rev. Harry S. Longley of the Episcopal church will speak at the union services tonight at 8 o'clock at the English Lutheran church.

Methodist

The Rev. Wilfred C. Keeler, minister. 9:30 a.m., Sunday school, junior department at the church and senior department at the natural science auditorium; Prof. Nagler will address the adult class on "A visit to Palestine;" 6:30 p.m., high school league, subject: Sunday movies.

St. Mary's

The Rt. Rev. A. J. Schulte, pastor. 6:30 a.m. first mass; 8 a.m. children's mass; 10 a.m. last mass and benediction.

First Presbyterian

The Rev. John Gray Rhind, minister. 9:30 a.m. Bible school; there will be no beginner's department and no church.

INVESTIGATE DEATH

RED OAK, Aug. 24 (AP)—Sheriff J. A. Baker and County Attorney F. E. Billings are investigating the death early today of Ethel Bruce, 23 years old, in a hospital here following complications developing from an alleged criminal operation performed ten days ago. Miss Bruce is said to have confessed to the operation two hours before she died.

ITALIANS TEST PLANES

ROME, Aug. 24 (AP)—Tests of the remaining Italian racing airplanes continued today although the government has not yet made definite announcement of whether Italy will participate in the Schneider cup races in England on Sept. 6 and 7 in view of England's refusal to postpone the event.

Expect Stormy War on Tariff

Democrats Reveal Plan to Broaden Attack

WASHINGTON, Aug. 24 (AP) — Increasing signs of a spirited contest in the senate over the party old issues of tariff were apparent at the capitol today as democrats revealed plans to broaden the attack to be made against the bill as revised by republican members of the finance committee.

The minority disclosed it intended to direct its drive against not only many proposed higher levies but also against scores of existing rates which it regards as unduly high and in need of revision downward.

Thorough Revision

Amendments will be prepared on virtually every industrial item in the measure. Details of these and other phases of the democratic program will be worked out next week at daily meetings of the eight democrats on the finance committee.

From high republican councils there was issued a warning that should a filibuster develop, endangering passage of the proposed legislation at the special session or early in the regular session, a move would be made to defer action on the tariff for another year.

Under no circumstances, it was said, would the republicans countenance any effort to postpone action far into the regular session beginning in December or until the time of the spring primary campaign for the next congressional elections.

Move Not Surprising

Attributing this warning to Senator Watson of Indiana, the republican leader, Senator Harrison, democrat, Mississippi, said the move was not surprising.

"This administration and those who have brought forth this tariff inquity," he said, "are beginning to feel the aroused indignation of the American people.

"They have returned step by step and are now only looking for some excuse to extricate themselves from the position they have taken."

MERCED, Cal.—A 1,000-acre rice field near this city was sown from an airplane recently. The airplane, piloted by Franklin Galison, flew 200 feet above the shallow water covering the entire acreage and sewed five sacks of rice a minute. The rice was scattered 35 feet on each side of the airplane by the blast of the propeller. The seed was dropped from a specially constructed sower in the cockpit.

WASHINGTON—The longest air mail route in the world, linking Miami, Fla., with Santiago, Chili, a distance of 5,774 miles, was inaugurated July 16, according to Second Assistant Postmaster General W. Irving Glover.

PROTECT YOUR PROPERTY AGAINST AIRCRAFT

Since man has taken to wings, there has been a steadily increasing demand for adequate coverage against property damage caused by aircraft.

To meet this demand this Agency offers a new and broader form which has been extended to cover not only all direct loss or damage caused by collision of aircraft but also against similar loss or damage caused by autos or trucks.

It also bridges the gap between the old aircraft damage form and the regular fire policy by covering against loss by fire resulting directly from a collision, which would not be covered under the regular fire policy due to the application of the "falling wall clause."

This contract sells for 50c per $1,000 per year, or $1.25 for three years. The cost to protect a $6,000 dwelling would be $3.00 per year or $7.50 for three years.

It isn't hard to imagine what would happen if a big plane got out of control and crashed on your roof, or if the motor got loose and dropped.

ECONOMY AND LOW PRICE MAKE WHIPPET YOUR WISEST MOTORING INVESTMENT

Though the higher compression engine of the new Superior Whippet Four develops more than 20% added horsepower, with faster speed and pick-up, there is no increase in the consumption of gasoline and oil. And the new Superior Whippet Six is even more economical than its predecessor. Its increase in compression ratio assures more value from gas used, and more miles per gallon.

Then consider the low prices of both the Four and the Six, and you appreciate that owning and operating a Whippet are remarkably easy on your pocketbook.
