HAWKEYES TROUNCE CARROLL 46-0

Demos Watch Primary Race Down South

Outcome Will Show Real Meaning of 1928 Revolt

WASHINGTON, Sept. 28 (AP)—Echoes of the Hoover-Smith presidential contest will reverberate through portions of the south in the forthcoming senatorial contests, which are expected to furnish evidence on whether the 1928 revolt within the democratic ranks in that section was merely temporary.

Senators Heflin of Alabama and Simmons, of North Carolina, two of the senators who were foremost in opposition to election of the democratic presidential candidate, Alfred E. Smith, are up for reelection next year. Heflin already has opposition in the primary campaign, with John Bankhead competing for his place. Thus far no opponent to Senator Simmons has entered the field.

In Virginia, Senator Carter Glass, one of the outstanding democratic leaders of the senate and who stamped his state for Smith, is up for re-election there. It appears now that he may be unopposed in the democratic primary for renomination. Whether the anti-Smith democrats and the republicans will unite on a candidate to oppose him as they have in the present gubernatorial race, remains for the future.

Some leaders of the rival parties here now believe that the republicans will nominate one of their own number for the senate, with C. Bascom Sless, national committee man, and Henry W. Anderson of Missouri, most prominently mentioned.

Senator Sheppard, author of the prohibition amendment, comes up for re-election in Texas and is likely to have primary opposition. The name of Governor Dan Moody now bulks large in the discussions of probable candidates.

Three southern democratic senators, all of whom supported Alfred E. Smith, probably will be renominated and re-elected without real opposition. They are Robinson of Arkansas, running mate with Smith; Harrison of Mississippi, and Harris of Georgia. Ransdell of Louisiana also may be without an opponent in the democratic primary, but there is some talk here that Governor Long may throw his hat into the senatorial contest.

Confirmation of Farm Board Expected Soon

WASHINGTON, Sept. 28 (AP)—Confirmation of all members of the federal farm board is looked for by administration leaders unless some unexpected charge of a serious nature is lodged against any of the eight men named by President Hoover.

Opposition on the floor of the senate to Chairman Leage, and possibly to two or three other members of the board, is considered inevitable. There is held to be no sign at present, however, of opposition based on past or present connections which might be construed as rendering any board member unfit to serve.

Administration leaders base their opinion that all will be confirmed upon assurances given them by various senators in what might be considered the opposition groups. A number of prominent democrats and western independent republicans have indicated that while they believe the board will prove inactive, they are not disposed to vote against its confirmation because they regard the difficulties in the farm relief legislation rather than in the men named to carry out its provisions.

Explosion Endangers Lives of 300 Persons in Dubuque Theater

DUBUQUE, Sept. 28 (AP)—An explosion in the projection machine of the Capitol theater here tonight endangered the lives of 300 persons attending the show. The blast sent a cloud of smoke rolling through the house, and only quick action in calming the audience prevented a panic.

The projection room was wrecked by the blast, but Earl Youart, operator of the machine, escaped injury by leaping from the booth.

Five High School Students Die When Train Hits Auto

WESTFIELD, N. J., Sept. 28 (AP)—Three boys and two girls, all of high school age, were killed tonight as their automobile was struck by a Lehigh Valley railroad express train. All lived in Railway and included Angelo Zullo, John Eban Allen, Kenneth Hedeman, Eleanor Bidor, and Virginia Handel.

Debate Conference Announces Subject for New Season

CHICAGO, Sept. 28 (AP)—Members of the Midwest Debate conference, comprising approximately 50 colleges in Wisconsin, Minnesota, Iowa, Michigan, and Illinois, today selected for this season's program the question: "Resolved, That the United States should adopt a policy of naval disarmament."

Miss Anna Lindbom of Western Teachers college, Kalamazoo, Mich., argued that women no longer care to debate on too practical matters, and unsuccessfully urged adoption of the question: "Resolved, That the chain store is detrimental to public welfare."

Plass Heads Medical Men Missouri District Meet Ends With Clinic

Dr. Everett D. Plass, head of obstetrics and gynecology, was elected president of the medical society of the Missouri valley district yesterday. It was announced last night at the close of the forty-second annual meeting of the society. Other officers elected were: Dr. Skinner of Kansas City, Kan., president; Dr. McCarthy of Omaha, Neb., secretary-treasurer; Dr. Ralph H. Major, of Lawrence, Kan., and Dr. A. D. Dunn of Lincoln, Neb., members of the executive council.

With a total registration of 250 persons, the meeting this year was "very successful" according to Dr. Plass. The meeting will be held next year in Des Moines, but no date has been decided upon as yet.

Dr. Fred M. Smith, professor of medicine at the University of Iowa, opened the program at 9 a.m. yesterday with a talk on certain features of asthatic colitis. Dr. Smith's speech concerned pain in the stomach due to diseased gall bladder, diseased appendix and diseased colon. The lecture was illustrated by means of lantern slides of experimental animals and humans.

Dr. H. J. Prentiss, professor of anatomy at the University of Iowa, who was to speak at 10 a.m. on "Anatomical protective mechanisms in the peritoneal cavity," was unable to be present on account of illness.

Dr. Prentiss' time was given to Dr. Donald P. Abbott, professor of medicine at Rush Medical college, who gave a lecture on "The treatment of colitis." In his talk, Dr. Abbott advocated a corrective diet based upon anatomical differences in the individual and the nature of the case.

Dr. Thomas G. Orr, professor of surgery at the University of Kansas, gave a talk at 10:30 a.m. on "The treatment of peritonitis." Dr. Orr showed slides giving the results of his experiments with animals which were afflicted with the infection.

A clinic on general surgery was given by Dr. Charles J. Rowan of Iowa City, following which the conference adjourned.

Rear Admiral to Make Reply

WASHINGTON, Sept. 28 (AP)—Reply will be made on Monday by Rear Admiral J. M. Reeves to the statement before the senate naval investigating committee that as one of the American experts at the unsuccessful Geneva naval limitations conference of 1927, he "frequently expressed the hope it would not succeed."

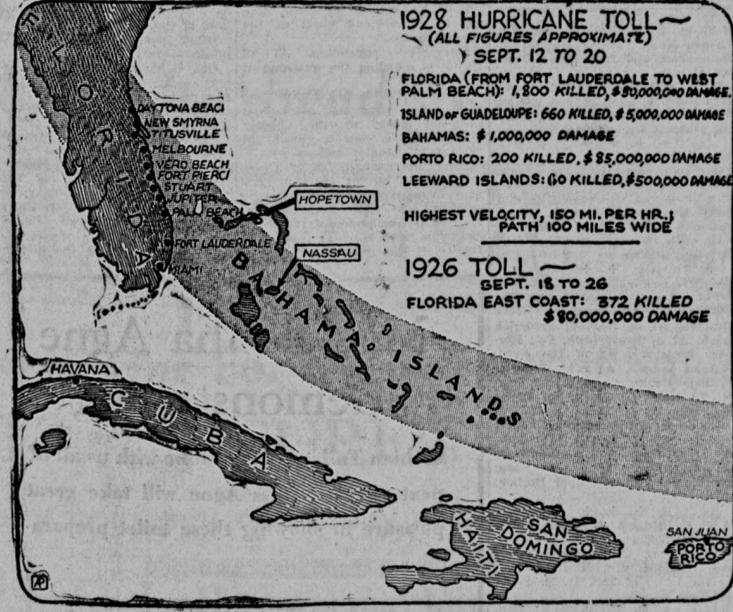

Admiral Reeves called Chairman Shortridge of the committee today by telephone to request the hearing. Drew Pearson, a newspaper man, who reported the Geneva conference, told the committee during its investigation of the activities of William B. Shearer on behalf of shipbuilders at that conference, that he saw Reeves frequently in the company of Shearer in the Swiss city and heard Reeves express the hope of a failure of that parity.

After hearing the naval officer Monday, the committee will turn at last to Shearer to hear his account of what he did at that conference called by President Coolidge in a futile attempt to limit the cruiser construction of America, Great Britain, and Japan. Shearer has sued the shipbuilders for \$250,000, above his \$25,000 salary for services he rendered at the Geneva meeting.

THE WEATHER

IOWA—Mostly cloudy Sunday, probably showers in southern portion, cooler in east and central portions; Monday generally fair.

HURRICANE AGAIN TRAVELING NORTHWESTWARD

The map above shows the path of the hurricane which originated in the Bahama islands and has been threatening the east coast of Florida for several days. The storm again shifted its course last night and is now traveling in a northwesterly direction.

Open Vesper Series Today

C. B. McAfee Will Give First Address

Cleveland B. McAfee, moderator of the general assembly of the Presbyterian church, will give his address, "Consider Thy Ways," at the first university vesper service today at 4 o'clock in the natural science auditorium.

Mr. McAfee is considered one of the most prominent men in the Presbyterian church and according to the Rev. John G. Rhind is one of the finest leaders of the church he has ever had. He is especially pleasing to young audiences, and is always in demand as a speaker. Mr. McAfee holds the professorship of systematic theology at the Presbyterian Theological seminary in Chicago.

He will address a union service tonight at 7:30 o'clock at the Presbyterian church in which all churches in the city are participating. The vesper program follows: "Andante Cantabile" from string quartet, op. 11, Tschalkowsky—University orchestra (strings). Invocation—The Rev. John G. Rhind. Anthem—"Bow Down Thine Ear, O Lord," Arensky—vesper choir. Scripture reading, Hymn. Address, "Consider Thy Ways,"—Cleveland B. McAfee. Seven Fold Amen, Stainer. Benediction.

LINDY MAKES STOP

BARASQUILLA, Columbia, Sept. 28 (AP)—Col. Charles A. Lindbergh, flying from Venezuela and Curacao, landed here at 5:30 p.m. He will continue his flight to Panama at 7 a.m. tomorrow.

Carroll-Iowa Game Pep Song's Debut

"Iowa Fights," the new Iowa pep song, written by Robert Law, '04 of Waterloo, made its debut at the Carroll-Iowa football game yesterday afternoon. After an announcement of the song by Claire Schaap, D4 of Sheldon, cheerleader, the university band played the score twice.

The song, which is expected to become as popular as "On Iowa," also written by Mr. Law, will be formally introduced at the Homecoming game. It is urged that students make an effort to learn the words, which appeared in yesterday's and Friday's Daily Iowan, before Homecoming.

Floods Isolate Georgia Towns

AUGUSTA, Ga., Sept. 28 (AP)—While Augusta was waging a successful fight against the receding Savannah river today, attention was drawn to smaller towns in east Georgia, cut off by flood waters.

Fearful of pollution of its water supply, Waynesboro, Ga., 32 miles southeast of Augusta, sent out a call for typhoid serum today, to which Millen, 20 miles farther south, responded. Waynesboro is on Brier Creek and Millen is on Ogeechee river, both of which are out of their banks.

Millen, the only town in the stricken area which could be reached by wire today, reported that the Ogeechee river, a parallel to the rampaging Savannah, was two feet higher than in 1925, when Dover, a town south of Millen, was flooded. It was impossible to communicate with Dover by phone, train, or highway today.

MacDonald on Way to U. S.

Crowds Cheer When Boat Leaves Dock

ABOARD S. S. BERENGARIA, Sept. 28 (AP)—This vessel tonight was fairly started upon its voyage to New York, bearing Prime Minister Ramsay MacDonald of Great Britain to personal conferences with which he expects to cement the growing understanding between the two nations.

His voyage actually began early today at Southampton where, with his daughter Isabel and members of his official party, he boarded the liner last night. MacDonald drew a storm of cheers from the crowd that thronged the pier-end. A short call was made at Cherbourg for other passengers, and at 4 p.m. the transatlantic voyage was begun.

The MacDonald party was naturally the center of attraction with the whole ship giving itself over to the job of following every movement of the prime minister and his daughter while crossing the channel.

A special boat drill was organized for the MacDonalds, who donned life preservers with the crowd of others at the boat stations and submitted with smiling composure to an epidemic of camera shots.

MacDonald was the idol of the passengers before he started. Before Cherbourg was reached his daughter had captured a similar place for herself by her simplicity and naturalness.

PRISONERS FAST

PHOENIX, Ariz., Sept. 28 (AP)—Twenty-seven federal prisoners in the Maricopa county jail, who last night began a hunger strike after two hours of rioting, accepted food today. All prisoners confined in one cell block threw food offered them through windows into the street. This morning, however, the fare was accepted without a demonstration.

LEGIONNAIRES CONVENE

LOUISVILLE, Ky., Sept. 28 (AP)—The front of the American Legion, many of its members survivors of those hordes that swept down upon the Marne, the Meuse, and the Argonne, swept down upon Louisville today for their national convention, which opens here Monday.

Storm Threat Again Swings Toward Coast

Winds Leave Death in Path of Destruction of Strong Gale

FT. MYERS, Fla., Sept. 28 (AP)—As the tropical disturbance passed westward through the Florida straits late today winds which occasionally reached a maximum of 50 miles an hour and heavy rains were experienced here. At 10 o'clock tonight the barometer reading was 29.30. Telephone communication with points south of here failed tonight after a message from Naples, 40 miles below Ft. Myers, had told of gales there with an unofficial barometer reading of 29.07.

(By the Associated Press) After raking the Bahamas with a destructive three-day lash and buffeting the lower coast of Florida with heavy gales, the tropical storm last night moved rapidly northeastward through the Gulf of Mexico menacing the Florida west coast.

This most unusual storm, which has changed its course three times since hovering more than two days over Nassau, the Bahamas' capital, apparently will continue a northwesterly course for 12 hours, the weather bureau said.

Key West, as well as the eastern mainland of Florida, escaped the flurry of the winds that tore Nassau and caused many deaths and enormous property damage. Streets of Key West were littered with minor debris, but the loss was said not to be great.

Damage Heavy

Heavy damage was experienced in the homestead section south of Miami and in neighboring towns but there was no loss of life and but a few persons were injured slightly. Ft. Lauderdale, 25 miles north of Miami, had the most unusual blow of all. A freak twister from the ocean tore several buildings and hurt 15 persons.

Gales of near hurricane force were indicated for the section of the west coast south of Tampa, while northeast storm warnings were out from the coast from Tampa to Pensacola. That the east coast section tonight might have another spell of wind was seen in weather bureau warnings for southeast storm, Jupiter to Miami and southwest storm in the Key West section.

PALM BEACH, Fla., Sept. 28 (AP)—The Radio Marine corporation, radio station WOE here tonight reported receiving an S O S call from the tanker Garnet Hullings, which reported that it was aground on Sombrero Key.

PALM BEACH, Fla., Sept. 28 (AP)—A second S O S call from the Scandia, another tanker in the vicinity of the distressed Garnet Hullings of Sombrero Key was picked up here tonight by the Radio Marine corporation station WOE. Word of the plight of the Garnet Hullings was transmitted to the United States coast guard base at Ft. Lauderdale before the second S O S call was received. The Scandia is a Danish steamship of 5,604 tons.

LEGIONNAIRES CONVENE

LOUISVILLE, Ky., Sept. 28 (AP)—The front of the American Legion, many of its members survivors of those hordes that swept down upon the Marne, the Meuse, and the Argonne, swept down upon Louisville today for their national convention, which opens here Monday.

Lambert Starts 9 Balloons on Race for Bennett Prize

MAJ. A. B. LAMBERT (Balloon Starter)

ST. LOUIS, Sept. 28 (AP)—Nine balloons carrying the premier balloon pilots of six nations sailed away from this city late today in search of the Gordon Bennett trophy which is awarded annually in this class.

The German bag, "Stadt Essen," piloted by Erich Leimkugel, the other eight took off at intervals of five minutes amidst the cheers of a crowd estimated at 20,000 people and the strains of band music. The general direction taken by the bags was north and the air currents indicated that the race will take an easterly direction before morning.

Status of 12 Hawks Aired

Eligibility of Football Players Hangs Fire

Oran Pape, fleet University of Iowa halfback, escaped the ineligibility axe in time to play against Carroll college today, but a dozen other Hawkeye football players, already in uniform, were barred from competition by action of the athletic board eligibility committee this afternoon.

Completing its work only a short time before the game was called, the committee cleared Pape of charges of professionalism, but ruled 12 other Hawkeyes ineligible for the afternoon's tilt because of scholastic difficulties or failure to complete registration for the fall semester.

Matt Kesh, named with Pape in the Big Ten charges involving a professional game between Galena, Ill., and Burlington, Wis., in 1927, was kept out of the Carroll tilt pending further investigation of his case. Incomplete registration prevented Gus Mastrogany and Seward Leeka, ends, from joining the squad, and scholastic difficulties placed Randall Hickman and Oliver Sanson, sophomore backs, and Earl Eiling, center, on the list.

Others barred from the game were Pete Affra, halfback; Oakley Carlson, Carl Blickman, ends, and James C. Graham, fullback, and William McCulley and Harold Hantelman, linemen.

Hawkeye athletic officials, when news of the list leaked out tonight, expressed the belief that the status of most of the men was due to minor technicalities, and that all but a few would become eligible within a week or two.

Evidence presented to the eligibility committee by E. H. Lauer, athletic director, today showed that Pape had not taken part in the 1927 game, but that he had served as umpire in a game at Galena in 1925. Pape received no pay for his services, however, it was said.

Hoover Discusses U. S. Naval Stand With Hale, Swanson

WASHINGTON, Sept. 28 (AP)—With a call soon going to the five naval powers of the world for a naval limitation conference, President Hoover today discussed with Chairman Hale of the senate naval affairs committee, and Senator Swanson, ranking democrat on that committee, details of the position the United States likely will take at the forthcoming meeting.

This was the first time since negotiations between the president and Prime Minister MacDonald were opened that a democratic leader was officially informed of the situation at the white house. Senator Hale previously had been consulted by Hoover on one occasion.

Both senators declined to comment on the conference except to say that it concerned the parity.

Iowa Gridders Display Power in First Game

Long Dashes to Goal Feature One-Sided Encounter

Impressive in their performance as a powerful scoring juggernaut, Burt Ingwersen's Hawkeyes successfully spanked a stubborn team from Carroll college, Wisconsin, 46 to 0 as some 40 or more Iowa players took part in serving up the first gridiron dish of the football season here yesterday. Only the persistent aerial attack that the Wisconsin Pioneers employed in their vain struggle to penetrate the Iowa defense kept the game from becoming a mere test of the Hawk's offensive strength.

Enough of a varied running attack by the Hawkeyes, interspersed with Reedquists' and Hauge's long dashes to touchdowns, following intercepted passes, a spectacular catch by Pignatelli, a long toss by Pape, and the sparkling runs of Glassgow and Willer, gave a touch of color to an otherwise drab afternoon. The Hawkeyes maintained a steady drive throughout the tilt, puncturing the ponderous Carroll line at will, and covering up a faltering guard against the collegians aerial game with a stiff defense in line plays.

Starts Substitutes Coach Ingwersen started a substitute lineup and oddly enough, substitutes played the major role in yesterday's contest. Although three regulars, Captain Glassgow, Reedquist, and Hagerty, who stepped to the fore as Iowa's fullback threat, when Sansen was declared ineligible, did score four touchdowns between them, it was Pape, Willer, Pignatelli, Benjamin, and Hauge who provided the thrills for the fair sized crowd that witnessed the opening game.

Pape, whose amateur status was cleared of professional taint following investigation by Iowa's eligibility committee of charges made Friday, played a dominant part in the attack of the starting lineup. The blond flash assumed the burden of a triple-threat man as he passed, ran, and kicked, although his punting did not measure up to his performances in the former plays.

Glassgow Shows Form Co-spring with Pape were Captain Glassgow, who scampered through the tackles and ends with better than ordinary success, and Benjamin, dusky understudy at the tackle post, who played a bangup game, getting more than his share of tackles. Carroll's desperate but futile attack was led by Huddleston, fullback, and Goerke, halfback, who figured prominently in his team's aerial game which netted 137 yards out of 17 attempts, eight of which were completed.

(Play by Play on Page 6) The lineup:

IOWA	CARROLL
Healy	LELE..... Hinkley
Benjamin	LT LT..... Ruesch
Higdon	LG LG..... Calver
Story	RC..... West
Fuhrman	RG RG..... Schmidt
Glechrist	RT RT..... (c) Ambrose
Hagerty	RE RE..... Brunnock
Pignatelli	QB QB..... Orlebeke
Hauge	LH LH..... Goerke
Pape	RR RR..... Smith
Hagerty	PB PB..... Huddleston

Officials—Referee, Eckersall (Chicago); umpire, Graham (Michigan); field judge, Kearns (DePaul); head linesman, Taylor (Wichita).

Touchdowns—Hagerty 2, Glassgow, Willer; points after touchdown, from placement; Pape 2, Glassgow 2.

Substitutions—Lowe, Piersce for Glechrist; Roberts for Rogge; Lloyd Jensen for Leo Jensen; Tousey for Hagerty; Westra for Piersce; Willer for Leo Jensen; Nelson for Lloyd Jensen; Hart for Hag; Oram for Roberts; Samuelson for Benjamin; Voltmer for Higdon; Weaver for Pignatelli; Elnio Nelson for Hauge; Carroll; Galley for Ruesch; Kafka for Schmidt; Eberlein for Galley; Krueger for West.

Safety of Air Ace in Doubt

PARIS, Sept. 28 (AP)—Friends of Dieudonne Coste, the French aviation ace, who took off at 8:15 a.m., Friday in an attempt to better the world record for straightaway flight, were without news of him tonight. He last was reported Friday evening when his big Sessuiplane, the Question Mark, flew over Cologne.

It was figured that unless he had met with an accident, he probably will not be heard from until he lands some time tomorrow morning. It was thought that today he was winging his way over the sparsely settled districts of Siberia.

The plane carried fuel for 50 hours. French aviation experts believed that it would cover more than 5,000 miles on that supply.

The Masked Hostess

by Blair Stevenson

CHAPTER I

By BLAIR STEVENSON
One reason for the success of the fashionable law firm of Wilberforce, Horne, Sutton & Van Pruyn was that it wasted no time over the affairs of clients whose fortunes were declining in the world.

Such men and women were invariably turned over to juniors in the office whose business it was to rid the firm of them as tactfully and expeditiously as it could be brought about. The system had never been explained to any of the young men in the firm's employ. It was enough that they all understood it.

When, therefore, Mr. Sloan, one of the most capable young lawyers of the staff, was summoned into the office of Mr. Horne to discuss the situation of Miss Nathalie Van Slack, he sensed at once what would probably be required to do—and that he would dislike doing it with all his heart, for Sloan was a man with ideals.

through their inheritance at a swift and colorful pace. If Miss Nathalie should prove to be one of the unlucky ones it would be his business to impress her skillfully with the fact that the firm was serving her at a loss, to see that she was subjected to inconvenience and delay, and ultimately to conclude her relations with the firm with a bill for services which she could not possibly pay.

"Yes, sir," he said when he entered Horne's room and after Horne had hung up the receiver of the telephone into which he had been speaking.

"Sit down," said Horne. "I have just been talking over the telephone to the butler of Mrs. Pemberton Swayne, the exceedingly rich and stingy aunt of Miss Nathalie Van Slack, the lady herself being no doubt still in bed. It pleases me to add, however, that the cost of telephoning from Southampton, where Mrs. Swayne is staying just now, has undoubtedly spoiled the day for her. Did you go to the Brookville Bank yesterday? And did you also visit the Van Slack property?"

"Yes and no," Sloan answered. "I went to the bank and had a talk with Treadwell Pound, its president. It seems that the Brookville bank is a one-man bank and that Treadwell Pound is the one man. He is of the hard and colorless type and informed me, quite unemotionally, that neither our firm or Miss Van Slack need look to him for concessions or extensions in the foreclosure proceeding the bank has begun. He insists the property will never bring the amount of the bank's mortgage at the foreclosure sale and that the fact that he advised the loan a year ago has hurt his standing with his directors. Just as I felt his bank started to rain, so I did not go over to the property, but instead browsed about the village a while and checked up as much as I could on Pound. His fellow citizens hold him in very poor esteem."

"Does he impress you?" Horne interrupted, "as a man who may at any time have entertained social ambitions?" Sloan shook his head. "Only very generally."

Sloan shook his head. "Anything but that, I should say. He's a man of no presence at all. The ordinary village skinflint type."

"Then I fall utterly to understand," announced Horne, "how he ever allowed Jack Van Slak a loan of \$50,000 on the Firs, granting even that Jack was a genius—which he was—at raising money."

"When you see the place," he went on, "particularly if you know Long Island at all, you'll understand why I say so. It stands on the southerly or wrong side of Hempstead Plain, two miles from any village and at least a mile from any main road; a fashionable section once upon a time, long before the smart set moved 100th to Wheatley Hills. George Van Slak, Nathalie's grandfather, built it for a sporting estate about forty years ago and for nearly 20 years no one has lived in it. The house is uncomfortably big and its architecture obsolete and both house and grounds are very much run down. In a general way you understand about the Van Slacks, don't you?"

Sloan shook his head. "Only very generally." Sloan shook his head. "Anything but that, I should say. He's

(CONTINUED, PAGE 5, COLUMN 2)

Country Club Features Golf

Informal Entertainment Follows Luncheon Scores Given

Fourteen women participated in the Iowa City weekly country club tournament last Friday, under the leadership of Mrs. A. W. Bennett. Mrs. Fred Pownall won the "blind bet" and Mrs. J. L. Records won the approaching contest. Mrs. C. P. Gilmore, a new member of the club, was the guest of Mrs. J. B. Van Horn for the day.

A noon luncheon served at the club house, was followed by an informal program given by club members. Mrs. Henry G. Walker read a humorous article, "Golf and Brainlessness." Mrs. George D. Koser, read a poem by Edgar A. Guest, "The curse of one good round," and Tom Harris, club professional, gave a talk praising the women golfers for their improved play this season, and urging the women to turn in five score cards before next May, in order that handicaps for next season may be made.

Mrs. Harold L. Hands had made the lowest score for golfers, 40 for the nine holes, and par for the women players for next year was set at 40.

Those scoring less than 45 this season are Mrs. Hands, Mrs. Koser, Mrs. Walker, Mrs. Paul M. Moore, Mrs. J. Hubert Scott, and Addie M. Shaff.

Next Friday, Oct. 4, will be the last tournament day of the 1929 season. Reports of officers, and election of officers will take place, with the present executives, Mrs. Walker, Mrs. Koser, and Mrs. Scott, in charge of the day's events.

Fine Arts Group Will Meet Tuesdays

The initial meeting of the fine arts department of the Iowa City Women's club, will be held at the home of Mrs. H. L. Bailey, 312 S. Governor street, on Tuesday evening at 7:30.

The study of women in music, and recent composers will be the work of the year. "Chaminade" is the subject of this meeting. A paper will be given by Mrs. B. Shimek; vocal solos by Mrs. M. P. Kirchner, Mrs. C. A. Hawley, and Mrs. F. B. Olsen; piano solos by Mrs. A. E. Lambert and Mrs. W. S. Smith, and a piano duet by Mrs. W. S. Smith and Mrs. Arthur Smith.

These meetings will continue throughout the year, meeting on the first Tuesday of every month. The chairman is Mrs. Arthur Smith.

Carrier Residents Make Short Visits

Nine residents of Carrier hall have taken advantage of the first week-end of the school year to visit out of town with friends or their parents. Verna Hasenmiller, A1 of Davenport; Clytia Spohrer, A1 of Cedar Rapids; Genevieve Phillips, A1 of Muscatine; Alyce Shawver, A1 of Grimes; Marie Kelly, A1 of Cedar Rapids; Leona Rowe, A1 of Ottumwa, and Martha Gorden, A2 of Ottumwa, have signed out for their respective homes. Margaret Ballou, A2 of De Kalb, Ill., is visiting in Muscatine. Elinor Cherny, A2 of Independence is visiting Lois Taylor in Cedar Rapids.

Mr. and Mrs. LeRoy S. Mercer, 633 S. Summit street left yesterday for Chicago to visit friends there.

Jessups Entertain at Receptions for Faculty Members

Mrs. Jessup will entertain the new women of the university faculty at her home, Thursday afternoon, Oct. 10, from 3 to 5.

President and Mrs. Jessup will receive at the annual faculty reception at the Iowa Union, Wednesday evening, Oct. 23. Invitations for both affairs will be issued soon.

A. F. I. Members Plan Blanket Hop

Members of A. F. I. had luncheon at Iowa Union Friday; Richard Davis, A3 of Iowa City, was in charge of the meeting. Temporary plans for the I Blanket Hop, a university party sponsored by A. F. I., were made, the proceeds of which are used to purchase "I" blankets. The date for the party has not yet been set by the social committee.

Alpha Chi Omega

Dorothy Woodruff of Fort Dodge was a dinner guest at the Alpha Chi Omega house last evening.

Delta Delta Delta

Phyllis Michael and Jerry Snow of Ottumwa, were week-end guests at the Tri Delta house.

Delta Gamma

Dorothy Munger, A1 of Cedar Rapids, Elizabeth Fatherson, G of Clinton, and Beatrice Brock, A4 of Grinnell, are spending the week-end at their homes.

Kappa Alpha Theta

The Kappa Alpha Theta sorority will entertain at dinner today Carol Wendell, A3 of Smithland; Stratton Eller, A3 of Ottumwa; and Robert Gould of Newton, Virginia. A Theta, from the University of Minnesota, and Leone Voelgl of Cedar Rapids are week-end guests at the house. Rae Murrow, A1 of Cedar Rapids, is spending the week-end at her home.

Kappa Kappa Gamma

Week-end guests at the Kappa Kappa Gamma house are Wanell Middleton, '29, who is teaching at Wapello this year, and Nell Ellis, '29, who has a position at Linn Grove.

Sigma Kappa

The Sigma Kappa sorority will have as their dinner guests today Helen Emerson, A4 of Oak Park; Harriet Root, C4 of Oak Park, Ill.; and Evangeline Olson, C4 of Bereford, S. Dak.

Pi Beta Phi

Mildred Ivey of Estherville, Eleanor Glendner of Mason City, Dorothy Greenwell of Cedar Rapids, and Ethel Evans of Williamsburg are week-end guests at the Pi Beta Phi house.

Pi Mu

Elaine Bair of Clinton, former organist at the Pastime theatre, and Helen Larson of Waterloo are being entertained at the Pi Mu house this week-end.

Zeta Tau Alpha

Mildred Borg, C4 of Des Moines; Marion Stokke, A4 of Eagle Grove; Fern Soppe, A4 of Burlington, and Helen Schmidt, A2 of Dysart, went to Cedar Rapids yesterday to attend the wedding of their sorority sister, Jeanette Smith. Anna Marie Boll, A4 of Dysart, Lucille Whittib, A3 of Muscatine, and Mildred Borg, C4 of Des Moines

are spending the week-end at their homes.

Queen's Daughters To Meet Tuesday

The regular meeting of the Queen's Daughters of St. Patrick's church, will be held Tuesday at 3 p.m., in the St. Patrick's school library.

Card Party at K. P. Hall

Tomorrow evening, the Knights of Pythias and Pythian Sisters will sponsor a card party at the K. P. Hall at 7:45, to which all friends are cordially invited. Bridge and euchre will be played, after which refreshments will be served.

Phi Delta Theta

Phi Delta Theta announces the pledging of Milo Reed, A1 of Des Moines.

Phi Beta Pi

Phi Beta Pi, medical fraternity, announces the pledging of Gregory Carey, M1 of Joliet, Ill.

Chi Omega

Dinner guests at the Chi Omega house today will include Barnholm Crawford, associate professor of English, Miss Beulah Crawford, and Mrs. H. B. Loomis and son, Bud, of Bloomington. Mrs. Loomis of Bloomington is a week-end guest at the house.

Theta Phi Alpha

Helen McQue, C3 of Creston, and Florence W. Swoy, C3 of Creston, will be dinner guests at the Theta Phi Alpha house today.

Women's Chorus First Rehearsal

The Women's chorus will hold its first rehearsal for the year tomorrow evening at 7:15 in the women's lounge at Iowa Union. Members attending have been asked to bring their old music to the meeting.

Melrose Club Meets Tuesday

Melrose Avenue Social Hour club will meet Tuesday afternoon at 1:30 at the home of Mrs. Fred Miller, 707 Melrose avenue.

Social Sciences Section to Meet

The first meeting of the season of the department of social sciences of the Iowa City Women's club will be held Friday, Oct. 5, at Youde's Inn.

Fraternity Gives 'Monte Carlo' Party

The Phi Beta Pi fraternity held a formal "Monte Carlo" party last evening to celebrate the opening of their new home. The house was decorated in futuristic style. Heads of the departments of the college of medicine attended the dance. The chaperons for the evening were Dr. and Mrs. C. W. Baldrige, Dr. and Mrs. E. P. Scarlett, and Dr. and Mrs. R. B. Gibson.

Newman Club Mixer Friday

At the Newman club mixer held Friday evening in the gymnasium

Dorothy Lumsden Will Wed Thursday

Mr. and Mrs. John Lumsden and daughter, Dorothy, 530 E. Bloomington street, and R. F. Baschnagel, 424 E. Market street, left for Denver, Col., this morning.

Mr. Baschnagel and Miss Lumsden will be married Oct. 3 at Boulder, Col.

Miss Lumsden is a graduate of St. Mary's school and lived here until recently. Mr. Baschnagel is also a graduate of St. Mary's, and attended the university where he was a member of Beta Psi fraternity. He is associated with Baschnagel and Son's real estate firm.

The home will be made in Iowa City.

of St. Patrick's school, Mr. and Mrs. Thomas Kelly, Msgr. William P. Shanahan, and Rev. Elliot Ross, chaperoned.

There will be an initiation held Wednesday evening at 7:15 p.m. in St. Patrick's gymnasium. All Catholic students are eligible.

Elk's Ladies Give Party Tomorrow

The Elk Ladies will hold an evening bridge at the Iowa City club house Monday evening at 8. Reservations can be made till Monday noon with Mrs. Carl Staeh, or with Mrs. Ray Pohler.

Beta Zeta

Viola Nalbert, '28 of Cedar Rapids, is a week-end guest at the chapter house.

Margaret Clendenning, A1 of Keota, is spending the week-end at her home.

Margarita Williams, a freshman in the university last year, is a week-end guest at the chapter house. She is now a student at Washington Junior college.

Ruth McClanahan, '26 of Cedar Rapids, visited at the chapter house Friday and yesterday before going to her home in Cedar Rapids for the remainder of the week-end. She has a teaching position in Davenport this year.

University Club Installs Officers; Plans Announced

At the regular business meeting of the University club last night, the annual reports of outgoing officers were heard. The new officers installed were: Mrs. Nellie S. Aurner, president; Beulah Crawford, vice president; Geneva Pillars, secretary, and Mrs. A. C. Trowbridge, treasurer.

Plans for the social activities of the University club show a great variety this year. Faculty teas for all staff members will be held at the club rooms. Other teas will feature travel talks and Kensingtons.

A Homecoming "tea and open house, with Mrs. F. C. Ensign in charge and Mrs. Walter A. Jessup as hostess, will be given the evening of Oct. 18.

Other events included on the program are:

Oct. 2, business meeting and dinner; Oct. 5, Prof. William L. Sowers will speak on recent plays in New York and London; Oct. 13, Dr. Arthur Steindler will tell of "Vienna Today"; Oct. 24, Mrs. Mildred B. Paddock will discuss "Studying music in Italy and France."

Oct. 25, Ruth Davis and Tacie Knease will give travel talks; Oct. 29, a "pioneer" party, with University club and Triangle club co-operating. The program for the hiking groups under the direction

of Miss Alma Hovey, will be announced later.

Reservations for all parties this year should be made at the central desk at Iowa Union, and not with individual hostesses.

Phi Delta Chi

Phi Delta Chi, pharmacy fraternity, announces the pledging of: Wayne Carlson, P1 of Sloan; George Buckner, P3 of Dubuque; Harry Bjork, P1 of Duluth, Minn.; Elmer Ericson, P1 of Moline, Ill.; Orville Jern, P1 of Moline, Ill.; Andrew Heland, P1 of Cedar Rapids; Howard Lauer, P1 of Springfield, Ill.; Richard Reinschmidt, P1 of Burlington, and Herbert Peterson, P1 of Burlington.

Alpha Kappa Psi

Alpha Kappa Psi announces the pledging of John Donnelly, C3 of Burlington; Harry Richter, C4 of Garner, and Carl Anderson, C3 of Newell.

Mrs. Liska Entertains Athenian Delphian Club

Mrs. James Liska, 1203 Rochester avenue, will be hostess to the Athenian Delphian club at her home next Friday afternoon, Oct. 4. The afternoon will be spent with the study of the music of Beethoven.

Gamma Phi Betas Hold Open House

Gamma Phi Beta sorority held open house last night introducing their pledges to the social fraternities of the campus. Dancing was the feature of the evening.

This afternoon from 3 to 5 o'clock, the sorority will be hostess to the professional fraternities.

Alpha Kappa Psi

Alpha Kappa Psi announces the pledging of John Donnelly, C3 of Burlington; Harry Richter, C4 of Garner, and Carl Anderson, C3 of Newell.

John B. Freung, former university student, now a linotype operator for the Marengo Pioneer-Republican, attended the Carroll-Iowa football game yesterday.

Miss Bertha Agne Demonstrating

Arabian Toilet Goods will be with us all of next week. Miss Agne will take great pleasure in showing these toilet preparations.

Daily Care of the Skin. Night Treatment. Before retiring at night thoroughly cleanse the face and neck with Arabian Cleansing Cream. It purifies the skin perfectly, eliminating dust, grime, powder, rouge, and any accumulated deteriorating elements of the day, and leaves the skin soft and fresh. Next remove any remaining cream, tone and stimulate the face and throat with a pad of absorbent cotton.

Morning Treatment. Cleansing with Arabian Cleansing Cream which liquefies upon application. It will dissolve the secretions that have accumulated in the pores during the night and leave the skin fresh, and responsive to the following treatment. Now follow with a small amount of Arabian Wrinkle Eradicator molded lightly into the tissues. Remove and apply Arabian Astringent by gently patting to invigorate and stimulate during the day. After this simple effective treatment continue with your selected shades of powder, rouge and lipstick.

Yetter's THE BIG STORE

consider everything that is not proven true? Give our fellow students an even break, in other words the benefit of the doubt.

The average intellect might be improved if forced to draw from its own resources for conversation instead of from hearsay plus imagination. It may pay to advertise, but make the campaign personal. When a name is mentioned disregard the knowing looks, and remember that in some cases ignorance is bliss. A juicy bit of scandal may be enjoyed, but the enjoyment cannot compensate for the unhappiness it causes.

Scandal mongering injures the university as well as the persons involved. The benefit of the doubt injures none.

For Their Countries

OFFICIAL confirmation has been made of the engagement of Princess Ileana of Rumania, to King Boris of Bulgaria.

Back of the betrothal lies, not the comradeship which American boys and girls know, but political schemings and diplomatic negotiations, and such mundane things as the size of the dowry.

Queen Marie, mother of Ileana, may be complimented on the adroitness of her matchmaking which, should the marriage take place, will make her a figure of power in all the Balkan states.

It is in the southern European countries that the greatest part of European unrest and dissatisfaction has always been centered, and the diplomats of the respective states try to strengthen the alliances which will prevent misunderstanding and unfriendliness between countries.

But it seems a pity that human beings must be used as pawns in these alliances. Behind the glitter and pomp of royalty there too often lie tears and heartache.

Keeping Nature Beautiful

THE FAST appearing changes of green leaves to golden browns, yellows, and flaming reds, and the noticeable migration of the last of the song birds towards warmer climes, warns us that Indian summer will soon be over and we will be in the grip of cold, blustery north winds.

Some far-sighted people have already summoned the coal man to their doors, and the sight of the great loads of black, heat-giving materials bring to mind all the things that coal is to do to Iowa City besides heat the homes and the places of business.

The cry of the nation for years has been "be prepared" and yet broadminded, sensible citizens continue to watch the approach of cold weather without making any preparation of all business men to make the companies it. Now is the time to get the cooperation of all business men to make the proper adjustments at their places of business, or the city council to provide for the necessary corrective measures.

Our hearts respond to the beauties of nature at the different seasons of the year; the new green grass and growing flowers in the spring; the song birds and blooming flowers in the summer; the changes of all foliage in the autumn; and the unbroken expanse of drifted snow in the winter, glistening white under the noonday sun or evening moon. But do our hearts respond to the dirty, gray, of a day old snow in Iowa City? No. We are disgusted and sickened by the sordidness of too much soot. So why not keep the things of nature beautiful?

Buddy and His Dog

PENNILESS, hungry, and 1,400 miles from home, Buddy Minahan, 13-year-old son of a Milwaukee attorney, was picked up on the street of Tampa, Fla., by a detective. Buddy hadn't been stealing, he didn't look tough, but he looked very much like a frightened little boy who had lost his way.

Yet when the detective received a telegram in answer to his queries about Buddy, he found out the reason why Buddy was so far away from home. Somebody just hadn't recognized Snoop as his dearest friend.

Snoop was Buddy's dog, a wire-haired terrier whose playfulness and loyalty brought happiness to his owner. But the landlord of the apartment in which Buddy lived, couldn't quite see why dogs should be allowed in the place. He told Buddy to keep "that dog" out of the place. Then Buddy ran away.

Police officers found him near Green Bay, Wis., and took him to his uncle's home but Buddy, frightened a bit, escaped from the house, borrowed a nickle from a boy he knew, and announced his intention of going south.

Searchers traced his movements all during his hitch-hike towards the south but Buddy managed to elude them at every turn when it seemed to him that he would be caught. He didn't want to be caught because if he did, he would lose his fight for a principle—his dog, Snoop's freedom. And, although his capture at Tampa disappointed him, Buddy found that he had won after all. His parents, overjoyed at finding him again, promised to let Snoop sleep on the davenport if so inclined—anything to bring their son back home happy.

There are many boys like Buddy, ho, even if they do not go as far as Buddy did, feel keenly the cruel dismissal that parents or others give to their pleasures. They can't understand why older people do not share their feelings and who can blame a sensitive child for acting as Buddy did?

Paging Tom Thumb

ARE all fairy-tales lies? Joseph Mayott, a World War veteran, who lives in Los Angeles, is shrinking. He already has shrunk a foot and the physicians say that in 50 years, if he lives, he will be able to hide behind a shoe-box. If Mayott should do this he will be no larger than Tom Thumb of Anderson's fairy tales.

OFFICIAL DAILY BULLETIN

The University of Iowa

Bulletins and announcements for the Official Daily Bulletin column must be in the hands of Lois Randall, 101 Journalism building, in writing, by 4 p.m., or 11:30 a.m. on Saturday, to appear in the following morning's Daily Iowan.
Vol. IV, No. 182 September 29, 1929

MIXER FOR JEWISH STUDENTS

Mixer for the Jewish students of the University from 7:30 to 10 p.m. on the River Room, Iowa Union, Sunday, September 29.
HILLEL CLUB.

FRIVOL

All varsity baseball players are requested to report for fall practice daily at 4:15 p.m.
O. H. VOGEL, coach.

SATURDAY CLASSES IN GRAPHIC ARTS

Special Saturday morning classes in graphic and plastic arts are being conducted at the university high school under the direction of Edna Patzig. Instruction will be given in freehand drawing, painting, lettering and design, according to the ability and desires of the individual student. The class meets every Saturday morning between the hours of 9 and 10:30 and is open not only to the pupils of the university schools but to anyone interested in the subject. The tuition of six dollars for the semester may be paid at the office of the university schools.
P. M. BAIL, principal.

PERSONAL TYPEWRITING, COMMERCE 13

Due to error in the schedule of courses, the fee for Personal Typewriting, Commerce 13, was given as \$15 instead of \$10. Those who paid the \$15 are entitled to a refund of \$5. The afternoon sections are still open and students may enroll by paying fee of \$10.
E. G. BLACKSTONE.

IMPORTANT NOTICE

All presidents or heads of fraternities, sororities, clubs, and other university organizations are requested to check the address and telephone number of their respective organizations in the Department of Publications office, Old Capitol immediately. Lisle-Arthur
Miss Edith Allison Lisle of Clarinda, and John Read Arthur of Streator, Ill., were married in Clarinda Sept. 3. Mrs. Arthur graduated from Stephens college in Columbia, Mo., and the University of Iowa, where she was a member of Pi Beta Phi sorority. Mr. Arthur was graduated from Dartmouth college, where he was affiliated with Zeta Psi fraternity.

Mr. and Mrs. F. H. Rhodes, of Esterville, have announced the engagement of their daughter, Lillian, to Floyd L. Mable of New York City. Miss Rhodes is a graduate of the University of Iowa and Ward Belmont school at Nashville, Tenn. She was affiliated with the Kappa Kappa Gamma sorority here. Mr. Mable, a Sigma Pi, is a graduate of the Iowa State college at Ames in civil engineering.

Meese E. Walton, '28 of Des Moines, has taken a place on the staff of the research laboratory of applied chemistry of the Massachusetts Institute of Technology. His research will be on the petroleum industry and he will carry a few hours of graduate work. Last year he was with the White Eagle oil company refinery at Augusta, Kan.

Isobel Quist, '28, formerly of Ft.

Dodge, is now employed in the purchasing department of the Western Electric company of Chicago. Her residence address is 4700 Jackson boulevard.

Walter C. Ruessner of Elgin, who received his doctor of philosophy degree here this summer, has been appointed instructor in the college of education of the University of Wyoming.

"THE MASKED HOSTESS"

by Blair Stevenson

(CONTINUED FROM PAGE 1)

"Then, specifically," Horne explained. "Nathalie's position is this: There are two kinds of Van Slaicks—close handed and open handed, holders and spenders, but with the holders predominating. Her father, 'Happy Jack,' as he was always called, was the fastest spender of them all in every sport, a delightful chap in all great ways, but the kind who would bet on anything on earth and couldn't say no to a friend. His wife died the year after Nathalie was born and for the last five years he and his daughter had lived abroad. He was killed, as you know in a motor crash a few months ago. "A year ago he and his daughter visited this country long enough for him to raise this mortgage that the Brookville bank is foreclosing. The property it covers was the last of his inheritance, and after raising the mortgage he deeded the property to his daughter, who had just come of age. I suppose he had some vague idea it would protect her if The Firsts ever went in-value instead of down the way it has. The same day he opened a bank account in their joint names here in the city. The bank statement shows \$75 still remaining in it. That trifle of money and The Firsts are exactly all she has in the world, for Jack had no property abroad. I'm sorry for her. On the other hand, I do not see of what assistance this firm can be to her. However, I am going to give you charge of her affairs. Possibly something may come up."

Sloan understood. Nathalie was not a wanted client. He had never seen her, but the image of a girl graciously and luxuriously nurtured, left suddenly with nothing but \$75 and an encumbered and unseizable country estate was an image that depressed and saddened him. Then he remembered about her well-placed relations. "She can turn to her people, I suppose," he inquired. "Let us hope so," Horne answered, "though I doubt the warmth of her welcome from her aunt, whose butler called up just as you came in. He told me that Miss Van Slaick was arriving this morning by the Mauretania and that Mrs. Swayne desired that some one from this office meet the girl at the pier. Some one is to see her through custom and take her to a hotel, or Mrs. Swayne's guest rooms, according to the butler, are all occupied just now."

Horne stopped his conversation long enough to clear his throat with a long drawn sigh. His thin lips curled in a cynical smile. Sloan stood uncomfortably awaiting the further orders of his employer. Presently Horne continued: "You see, Sloan," he said, "Mrs. Swayne would never have spent

that dollar for a telephone call this morning had she not guessed rather badly, for the Mauretania docked two hours ago and of darsay Miss Van Slaick is already well on her way to Southampton—where she is decidedly not wanted."

The telephone at Horne's elbow rang. A clerk in an outer office spoke to him: "Miss Nathalie Van Slaick to see you, sir," said the voice on the wire.

CHAPTER TWO

John Sloan was not at all susceptible to the charms of young womanhood. But the sheer beauty of Nathalie Van Slaick fairly smote him as she was shown into the room and Horne went forward to meet her.

Nothing that Horne had said had prepared Sloan for the almost clamorous loveliness of her. She was dressed in mourning, which she wore with simplicity but distinction, her plain black hat accentuating the gold of her hair which in its turn was in vivid contrast to her dark lashes and the hint of olive in a skin without a flaw. Her progress across the floor to the chair which Horne held out seemed to Sloan the very perfection of coordinated grace and motion. And she had been only a few minutes in the room when he told himself that she had qualities of heart and character of which her beauty was no more than a reflection and expression, and that he would give her interests, which had been trusted to his care, the last ounce that was in him of professional skill and personal devotion.

Courage was the quality in her which stood out at once and gripped his admiration. She showed it as soon as Horne, while he skillfully created the opportunity he desired, came indirectly to the matter of her dissipated fortunes and embarrassed property. "I am sure," he told her, "it must give you great happiness to resemble your father as much as you do. I am sure, too, it must console you to know how widely he was admired. Some day you must read what the New York newspapers said. 'The greatest sportsman of his generation.' 'An immeasurable loss to polo and race riding.' 'A man whose skill and courage were of the kind which spells genius in the field,' and so forth and so on."

"I shall read them all—read them over and over. And then reread them," said Nathalie.

As she spoke Sloan thought that her voice and accent were the only things about her that were a little disappointing. Both were cultivated but seemed not individual to her, but rather a conventionalized manner of speech echoing the Spence School and the Junior League and the things that they imply. Scores of girls he knew talked as exactly

like her as though they were a race in themselves.

"I have spoken to you of your father somewhat at length," Horne went on "because he was so much a symbol of the two reasons why you are much to be envied. One of them is that you are the daughter of a great sportsman; the other that you are a member of an old and solidly established family. The first, I know, will enable you to bear some news I have for you which might dismay to some extent a girl not bred in your splendid traditions. The second will diminish the importance of the news since with the wealth and importance of your family a girl like you is always secure in the world."

Nathalie smiled and her voice was perfectly steady. "I can always bear bad news, Mr. Horne. I had to bear it when father was killed. News can never be too bad again since that."

"That's the spirit, Miss Van Slaick. Spoken in the true tradition. Do you want me to be direct with you?"

Nathalie nodded. Horne came straight to the point. "Unfortunately—I cannot tell you how sorry I am—your father of recent years fell into a way of realizing on the properties he had inherited and spending the ready cash. He—"

"You mean that there is nothing left? If that is so, please tell me." Her voice was still as steady as before, but in his heart Sloan knew that she was filled with fright and panic.

"Not quite as bad as that," Horne put what reassurance he could into the smile he gave her. "There is your Long Island estate and some money in the bank. Unhappily before, but in his heart Sloan knew that she was filled with fright and panic.

"Not quite as bad as that," Horne put what reassurance he could into the smile he gave her. "There is your Long Island estate and some money in the bank. Unhappily before, but in his heart Sloan knew that she was filled with fright and panic.

he spoke in reply. "I am sorry, but the estate has been losing value. It is located in a region from which fashion has moved away and the shoe is 'too large' to be easily saleable, besides being greatly run down. In addition we have not more than two months to work in, for the bank will sell the place at the end of that time unless we are able to find a buyer who will assume the mortgage and pay us something in excess of it. However, keep up your courage. Mr. Sloan here has the matter in charge and I am sure will hit on an expedient that will help us if one exists."

Sloan's and Nathalie's eyes met for a moment. "Thank you, Mr. Sloan," she said simply. "Then she rose to go."

As she stood up Horne explained about the bank account he father had started in his and her names when he had fifty thousand dollars in his hands and believed that his money troubles were all behind him. "You see there is not a great deal left," said Horne and smiled to carry it off, "but if Mr. Sloan is lucky about The Firsts we may be able to add to it. Or if you wish to withdraw it at once the bank will honor your check. Here is a pocket check book. And now what will your address be if we should need to get in touch with you?"

Nathalie was fully mistress of herself now. In the voice and speech, with its touch of affection, typical of girls of her class, she said that she had taken a room at the Waldorf and sent her baggage there, but would leave by the Cannon Ball Express for Southampton later in the afternoon. "They know me very well at the Waldorf for father and I always stopped there whenever we were in New York and I am very fond of the old place. I telephoned there from the pier this morning and they promised to make me comfortable." She gave her hand to Mr. Horne. "My money in the bank will be convenient to pay my bill with and I can keep my other cash intact. Good-bye."

Horne assured her again that her courage was sure to win and Sloan escorted her out of the office to the elevator in the hall. They stood in silence till a car should stop at their floor. And again while they waited Sloan caught for the second time the flicker of fright in her eyes which told him terror was her companion. So he spoke out plainly: "Miss Van Slaick, if when you reach your hotel you find that you

need money or any other assistance, please telephone me. It is your right as a client of our firm. Be sure and call me personally since I am in charge of your case."

"Thank you—thank you ever so much, Mr. Sloan. But of course I'll have no trouble. A number of my relatives are rather rich, you know—the one I'm going to this afternoon is frightfully rich."

The elevator car received her, and she bowed and she was gone. But just before the car dropped from sight he saw the smile she had accorded him vanish, from her face and dismay assume the place of it. And as plainly as though she had told him so, he divined that the twenty-eight dollars in her bank was her whole available money, and that if her relatives did not protect her she would have nowhere to turn.

At the Waldorf, Nathalie was received with every courtesy and kindness, one of the assistant managers accompanying her to the room she had engaged to see that it lacked nothing she might require. "We are charmed to have you with us," he said, "for the Van Slaicks are a Waldorf family. This is almost the only hotel in New York having tradition. One of them is that no Van Slaick ever stops anywhere else. Your father was greatly admired here; all the old employees remember him with affection. He was of the days when our hotel was the rallying place for all that was brilliant and famous in New York life. Will you please, Miss Van Slaick, call on us while you are here for anything of any sort the hotel may be able to do for you? Is there anything you can think of at this moment?"

"Nothing," replied Nathalie, "except that I would like to know when the next express leaves for Southampton. I am going to my aunt's there this afternoon—to Mrs. Pemberton Swayne's."

To Be Continued Tomorrow.

Iowa News Briefs

WATERLOO, Sept. 27 (AP)—John K. Ewing of Shannon City, state commander of the G. A. R., will speak at the 20th annual reunion war veterans' association here Oct. 2.

DES MOINES, Sept. 27 (AP)—The annual convention of the Iowa Livestock Shippers' association has been set for December 11, 12 and 13 in

Des Moines, Knute Espe, secretary, announces.

M'GREGOR, Sept. 27 (AP)—Construction was started this week on the new \$71,000 public school building. The Tapager company of Albert Lea, Minn., has the contract.

ST. ANSGAR, Sept. 27 (AP)—Investigation of the filling station explosion which killed three persons has been dropped by city and county officials. Cause of the blast and fire has not been determined.

GILMORE CITY, Sept. 27 (AP)—Creditors of the closed First National bank here have received a final dividend of 14 per cent from George E. Saunders, receiver. This makes a total of 54 per cent paid.

DES MOINES, Sept. 27 (AP)—A new teachers agency made its appearance in Iowa this week when the Teachers' Service bureau of Storm Lake filed articles of incorporation with the secretary of state, and obtained a charter.

Football Takes Spotlight as College Gridiron Season Opens Over Country

Coaches View Material by Early Tilts

From Coast to Coast Interest Turns to Fall Sport

From coast to coast, the colleges and universities of the United States found football taking the center of interest yesterday. With warming up games for a large part of the days program, many coaches had a chance to size up the material for the 1929 season. East, west, north, and south, the teams went into the problem of building for the championship races of the various conferences.

Grinnell Beats Penn 13-0 Without Services of Captain Thomas

GRINNELL, Sept. 28 (AP)—Led by Hank Thomas, sophomore quarterback whose long runs kept the play in Penn territory, Grinnell college easily defeated Penn college at football here today, 13 to 0.

Bresnahan Keeps Harriers on Edge by Novelty Races

To the spectators watching the harriers practice on Iowa field, they see something different than what they usually associate with cross-country. Instead of the grind they would expect to see, they find a group of fellows getting some fun out of the practice.

English Women Win Los Angeles, Sept. 28 (AP)

Mrs. Dorothy Shepard-Barron and Mrs. B. C. Covell of England won the Pacific Southwest women's doubles tennis title today, defeating another English team, Mrs. Phoebe Watson and Betty Nuthall, 6-4, 1-6, 6-2.

Howard Jones, former University of Iowa football coach, now at the University of Southern California, has another Hawkeye mentor to aid him, and join him at the Los Angeles institution.

Coaching Just a Hobby With Armstrong, Carroll Mentor

By WILLIAM RUTLEDGE
For most football coaches the job of coaching is serious business, but to Coach Norris Armstrong of Carroll college it is just a hobby. Although the proprietorship of a grid squad furnishes 99.44-100 per cent of the football coaches of the universe with their bread and butter, Mr. Armstrong doesn't care whether his pay check comes from the college or not, for he is a very wealthy young man.

Badgers Overpower Ripon, South Dakota, in Double Header

MADISON, Wis., Sept. 28 (AP)—Using only fundamental plays, the University of Wisconsin football team divided into two squads, opened its season here today by defeating South Dakota State college, Brookings, 21 to 0, and Ripon college, 22 to 0.

Local Juniors Play Muscatine Today

The American Legion junior league baseball team will close the season this afternoon with a game with the Muscatine Cubs at the city park.

INTER HUGGINS MONDAY

CINCINNATI, O., Sept. 28 (AP)—Miller Huggins will be buried in Spring Cove cemetery here beside his father and mother on Monday.

MINTIRE OUT

GRINNELL, Sept. 28 (AP)—Ernie McIntire, veteran quarterback for Grinnell college, suffered a cracked hip in today's contest with the Penn college gridgers, and will be out most of the season, it was announced tonight.

GEORGETOWN IMPRESSIVE

WASHINGTON, Sept. 28 (AP)—Lou Little's Georgetown eleven displayed an impressive defense in its opening game of the season here today against Mt. St. Mary's of Emmitsburg, Md., and his backfield ran up a score of 26 to 0.

Local Scouts Receive Letter From McGuire

Paul R. McGuire, local scout executive, who is attending a conference of scout leaders in Omaha, has sent a letter to the scouts of Iowa City, hoping through the columns of newspapers to make it a personal letter to each boy.

He writes: "We are having a great conference and every subject brings to me a picture of the faces of our scouts and of our mainstays, those men that are making the thing go. We find much to be proud of in our council."

"Of course, we talk of our court of honor procedure, camping, finance, troop committees, and a dozen other subjects, until I wonder how one small head can hold all I'm expected to know."

"But do you know what is the most impressive part to me? It's the men from all over these six states that believe so in this game of scouting that they are hanging their life work and their whole future on it. I wish I could be a personal letter. But then it is a personal letter—and one to the finest bunch of men and the greatest bunch of scouts in the world."

Names Make Queer Story

By ETHEL MILLICE
When viewed from the telephone directory, Iowa City is a queer place. A Prince, a King, two Popes, and a Bishop live here. Among the business men are found only Lawyers, Parsons, Fishers, Masons, Bosses, Bakers, Smiths, Carpenters, and Gardeners.

Prices and High throughout the community and a Bond receives a very low rate. This is because Cash is Short Orr Mable because the men Doolittle about showing their Samples and Wares.

As it is near the Seashore and a Lake Coast, the city's climate is Kuhl. So the House, Porch and Barnes are heated by Boilers where Cole Burns to Ash. In each House a Cooke works every Day at Noon. He Peeles from a Basket, Browns the Ham and Bacon, and gets Waters from the Fountain which Floods the Wells. Assisting the Cooke are the Porters and the Butler who Letts a Mann in the Dohrer when he Knox.

Near the city, a Brook in which Kidds Wade, runs through a Wild Wood where Hunters Hunt with Guns and Cannons for Wolfs, Campbells, Stagers, Foxes, and Crows. In the Fields and Park near by are seen Lambs, Figs, and Hay which is Twogood to Bale, Plants in Bloom, Bushes, Moss, Oakes, and Korn Cobbs.

With a Towne like this, we should Bragg about it Moore.

Mary Zitelman Case Settled by Verdict for City Defendants

A sealed verdict in favor of Iowa City, defendant in the case of Mary Zitelman against the city, was returned by a jury in the district court after six hours of deliberation.

The plaintiff, in her suit, asked damages of \$1,000 for injuries resulting from a fall over a wire fence, on Nov. 3, 1928. When the case was first presented, in the May term of district court, the jury failed to agree and a new trial was ordered.

City Attorney Will J. Hayek defended the city, while Attorney W. J. Murphy represented Mary Zitelman. The jury for the case was impaneled on Monday, Sept. 23.

Book Speaker for Week's Program on Prevention of Fire

As a special speaker for fire prevention week, Oct. 6 to 12, H. I. Jennings, local insurance man, has engaged Stanley Brown of Hartford, Conn., who will speak on "Fire prevention in the homes" from station WWSU. The exact date and time for broadcast have not yet been set.

Bringing Mr. Brown to Iowa City is a part of the activities of several local organizations to spread the fire prevention idea throughout the city. Capt. Rudolph Tersch of the Minneapolis fire department, and F. F. Rogers of this city, are also included in the list of speakers already engaged.

Local Merchants' Fire Loss Adjusted

The final amount made by insurance adjustment on the fire loss which destroyed property on E. College street over a week ago, according to Fire Chief Herman Amish, is \$16,906.71. The Holman restaurant 124 E. Washington street, suffered the principal loss. Mad Hatter's tea room, Reich's cafe, and Anderson's barber shop also suffered some loss.

PERSONAL ITEMS

Dorothy Lehman of Chicago is visiting her parents, Mr. and Mrs. J. J. Lehman, 819 E. College street over the week end. Miss Lehman was graduated from the University of Iowa college of commerce in 1926 and is now employed by the Donnelly Publishing company in Chicago.

Ina T. Tyler, social worker in the extension division of the university, is spending the week end in Kansas City.

Leone Mowbray, A3 of Waterloo, is spending the week-end at her home in Waterloo.

Richard Allen, A2 of Ossian, accompanied by Elizabeth Cornell, A4 of Ossian, motored home for the week-end. They expect to return to the university Sunday.

James G. Bullard of Marshalltown, a former university student, is a week-end guest at the Phi Kappa Sigma house.

Harold W. Eck, C3 of Richland, is spending the week-end at his home in Richland.

Robert H. Boyce, A2 of Creston, is a surgical patient at the university hospital.

Lee L. Huston, A2 of Cedar Rapids is a patient at the university hospital.

Marlin E. Lerch of Davenport, who graduated from the liberal arts college last year arrived Friday night from Chicago and is a guest at the Sigma Alpha Epsilon house over the week-end. Mr. Lerch is employed by the Halsey Stuart company of Chicago.

Roger P. Choate of Clear Lake, who graduated from the college of commerce last year arrived Friday night to spend the week-end at the Sigma Alpha Epsilon house.

Dale McGowan of Clear Lake arrived Friday night and is a guest at the Sigma Alpha Epsilon house. He plans to enter the university this semester.

Charles Bartellett, C3 of Marshalltown, is a patient at the university hospital.

Ray T. Kneuppel of Davenport, a sophomore in the college of liberal arts last year, is spending the week-end at the Sigma Alpha Epsilon house.

Charolette Fenstermacher of Cornell Jacobson of Roselle, N. J., national secretary of the Sigma Phi fraternity, is visiting at the Sigma Phi house for a few days.

Mrs. Lee Maxen and Miss Peters of Tipton were in Iowa City Saturday visiting Virginia Maxen, A1 of Tipton.

Mary Oehring, A1 of Elkader, is spending the week-end with her father in Elkader.

Helen Nicholson, 219 Ronalds street, is teaching at the University of California, at Berkeley this year.

Nelvin Stiber, C3 of Lansing, is spending the week-end at home.

John F. Kehrer of Cedar Rapids is a guest at the Chi Kappa Pi house this week-end.

William Stevenson, A1 of Perry, has returned home for the week-end to be with his parents, Mr. and Mrs. W. S. Stevenson.

Eskil M. Nelson, C4 of Sioux City, is meeting his parents, Dr. and Mrs. Nelson at Burlington today, where they will attend a family reunion.

Byron Arnold, A3 of Moline, Ill., has returned home for the week-end.

Among the students at Currier Hall who are spending the week-end at their homes are Margaret Ballow, A1 of Muscatine; Verna Hasenmiller, A1 of Davenport; Genevieve Phillips, A2 of Muscatine; Leona Rowe, A1 of Ottumwa; Martha Gordon, A2 of Ottumwa; Alyce Shawver, A1 of Grimes; Clyta Srobocka, A1 of Cedar Rapids; Marie Kelly, A1 of Cedar Rapids, and Eleanor Cheeny, A1 of Cedar Rapids.

Martha Graham, A2 of Waterloo, is spending the week-end at the home of her parents in Waterloo.

Dr. Thomas Gardner, director of the bureau of dental hygiene, will be in Jefferson Tuesday to meet with the dentists of Greene county. He will also address the city school superintendents of the county.

Dorothy Argo, A1 of Tipton, and Lucille Patterson, A1 of Tipton,

are spending the week-end with their parents.

Marian House, A1 of Laurel, is spending the week-end at her home in Laurel.

Wallace R. Seig, A1 of Waterloo, left Friday night for Waterloo to meet his mother, Mrs. W. R. Seig, in Waterloo. He will accompany her to the Mayo clinic at Rochester, Minn., where she will undergo an operation for cancer.

Nan Clack and Alma Hartz, nurses on the maternal and infant hygiene staff, left yesterday for Waterloo to attend the Cattle Congress at Waterloo beginning Sept. 30. Miss Hartz will be in charge of an exhibit, and Miss Clack will aid in the baby contest. They will be gone a week.

Janet Thompson, A4 of Des Moines, is visiting her parents, Mr. and Mrs. F. W. Thompson in Des Moines this week-end.

Ethel Evans, who graduated from the university last June is spending the week-end at the Pi Beta Phi house. She is teaching music and art in the public schools at Waukees this year.

Bernice Brand of Fort Dodge is spending the week-end as the guest of Dorothy Burch, A1 of Fort Dodge, and Mary Robertson, A1 of Fort Dodge.

James Corbett of Lone Tree, is a visitor at the Sigma Phi Epsilon house this week-end. Corbett attended the university here last year but has transferred to Iowa State college at Ames this year.

Mr. and Mrs. Robert Henderson of Des Moines, are visiting their son and daughter, John and Mary Anne, here this week-end. Mr. Henderson is head of the state printing department at Des Moines, while his son and daughter are students here.

Sam C. Longstreet of Red Oak, a sophomore here, will leave today for Cedar Rapids, where he will visit his brother, Rex Longstreet. The latter is a student at Coe college.

Janet and Margaret Woods will leave today for Bryn Mawr college near Philadelphia, Pa., after a summer's vacation spent in their home. They are the daughters of Dr. and Mrs. Woods, 621 S. Summit street.

Visitors at the home of Mr. and Mrs. Ira Siders, West side, are Mr. and Mrs. George Simington of Santa Monica, Cal. Mrs. Simington and Mrs. Siders are sisters.

Harold Jacobson of Roselle, N. J., national secretary of the Sigma Phi fraternity, is visiting at the Sigma Phi house for a few days.

K. P. Quinn of Cedar Rapids, is in Iowa City Saturday on business.

Mrs. John Kuhn of Davenport, visited friends in Iowa City Saturday.

Earl Ales, E1, Lee Daniel, E3, Keith Rutenbeck, A1, and Marvin Dalchow, A1, all of Lost Nation, are spending the week-end with their parents.

The following students are spending the week-end at Waterloo: Carl Bruggeman, D1; Wallace Sieg, M1; Joe Cronin, A3; Ed Bickley, A3; all of Waterloo, and John Rouse, L2 of Montour.

Elizabeth Raugh, of Lincoln, Neb., who was a student at the University of Nebraska last year, is a guest at the Gamma Phi Beta house over the week-end. Miss Raugh will leave Monday for Chicago where she will attend the Art Institute next year.

Gwendolyn Patton, A4 of Vinton, and Gerald Inman, A4 of Vinton, left Friday for Cedar Rapids where they planned to meet Miss Patton's parents. The group will motor from Cedar Rapids to Vinton for the week-end.

Irma Seddig, A3 of Davenport, has been visiting the last several days at her home in Davenport.

William J. Holland, 330 S. Capitol street, is visiting with friends in Davenport today.

Oct. 8 Set for National Radio Audition Meet

Mrs. Alexander Ellet, who is in charge of the local competition, announced yesterday that the third national audition contest will be held here Oct. 8 at 8:30 p.m. over station WWSU. Entrants will sing over the radio and will be judged by how well their voices sound on the air.

All residents of Iowa City, including students between the ages of 18 and 25, are eligible to compete in the local contest, the winners of which will go to the sectional contest at Cedar Rapids. A state and a national meet will follow. Paul Ray of Cedar Rapids, is the sectional chairman of this district.

Any persons interested are asked to call Mrs. Ellet at 119 Person avenue.

CRASH HURTS TWO
KNOXVILLE, Sept. 28 (AP)—Madeline Betterton, 15 years old, received probable fatal injuries and Mildred Wilson a badly injured right knee here today when a car driven by Mrs. Henry Whitlach got out of control and crashed into the sidewalk, plowing the two victims against an iron stairway. Miss Betterton was injured about the head and was taken to an Oskaloosa hospital. Miss Wilson is in a local hospital.

Two Building Permits
A permit to build a garage was issued to Otto A. J. Miller, 1304 E. Bloomington in the Pleasant Place addition, at the office of the city inspector. The cost will be \$100. F. J. Sterbe was issued a permit to build a dwelling costing more than \$2,500 in Woods addition.

Coach Suplee Has Son
Mr. and Mrs. Francis Suplee announce the birth of a seven and a half pound boy, at Mercy hospital Sept. 24. Mr. Suplee is the basketball coach at St. Mary's high school. Mrs. Suplee was formerly Katherine Striegel, graduate nurse of Mercy hospital.

Lewis Announces Inspections
Col. Converse R. Lewis, newly appointed inspector of the John B. Snow Boy Scout cabin, announced that he will make weekly inspections of the cabin and grounds besides special inspections after any event takes place there. It is the wish of the Rotary club that the cabin and its expensive equipment be kept in perfect shape.

Hamilton Gray of Northwood, is a week-end visitor in Iowa City. Mr. Gray received an M. A. degree in journalism from the university last spring and is now managing editor of the Northwood Anchor.

C. D. Barnhill, E. H. Murray, and L. K. Barnhill, all of Davenport, were business visitors last week in Iowa City.

Lucile Neuman, 704 E. Jefferson, is spending the week-end in the home of her parents, Mr. and Mrs. J. P. Neuman of Tama.

Dr. M. U. Chesire of Marshalltown, is in Iowa City on a business trip. Mrs. Chesire and daughter, Louise, and Helen Grimes of Marshalltown are visiting friends at the Gamma Phi Beta house and in the home of Esther Chesire, 422 N. Clinton street.

Graphic Outlines of History

Lewis Miller, the real founder of Chautauqua, New York, began this movement as more or less of a religious institution. It soon developed into an educational circuit, and did much to create an interest in education among the rural people. Above is a picture of "The Lewis Miller Bell Tower" at Chautauqua. A respectful, professional effort to be of assistance and comfort is the aim of this organization.

New Professor on Philosophy Faculty From Indian School

The philosophy department has added to its staff this semester Prof. J. C. Manry from the University of Allahabad, India, where he was professor of philosophy for more than 14 years. Mr. Manry did his undergraduate work at Harvard, majoring in philosophy, and serving as assistant to the idealist, Josiah Royce.

After receiving his M.A. degree he secured a position in the Allahabad university in India. For one year, beginning in 1921, Professor Manry served as a field representative for Pollan in the student relief work. From Iowa he received his Ph.D. degree in June, 1923, afterwards returning to his position in the Indian university.

During the present semester Manry is offering in the department of philosophy two courses open to graduates and undergraduates, "the religions of the world" and "the history of ethics." The bulk of his time will be devoted to directing graduates and assisting in the institute of character research.

Quad Men Follow Professor's Advice

"Include writing home as one of your extracurricular activities," said Wilber J. Teeters, dean of the college of pharmacy, in his talk on extra-curricular activities, delivered at the meeting of the members of the class of 1933 in the Iowa Union on Friday evening, Sept. 20.

The boys at the quadrangle seem to have followed his advice—at least the letter box there is usually so full every morning that it is a hard task for late comers to stuff their enveloped manuscripts in the box.

The question is, however—whose home are the letters being written to—theirs, or some one else's!

Congratulations

on your new home

Alpha Kappa Kappa

We are indeed proud to have furnished the roofing and copper work on this new home.

Alpha Xi, Sigma Kappa Join List of New Sorority Homes on Iowa Campus

Group Builds of Brick in Colonial Style

Use Two Types of Sleeping, Study Quarters

The new Alpha Xi Delta house at 116 Fairchild street combines dark red brick offset by ivory shutters and trimmings in the simple dignity of Colonial architecture. The house is set back on a terraced lawn with a winding flagstone walk leading up to a tiled terrace. From this terrace a Colonial doorway opens into a vestibule flanked by seats on either side. From the vestibule two steps lead up into the wide hall with a small reception room opening off the hall on each side of the doorway.

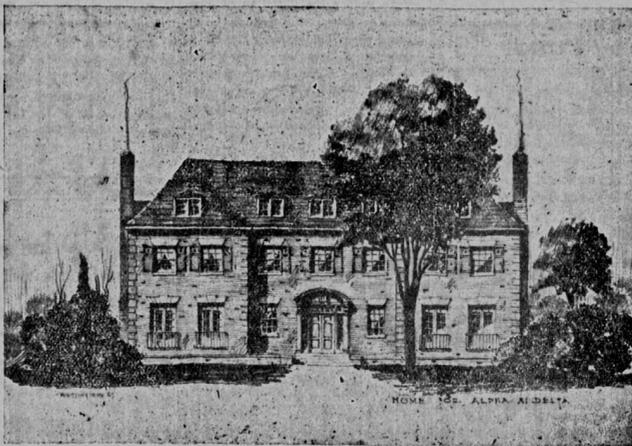

Doorways on both sides of the hall open into two large living rooms which run the length of the house on either side. In each of the living rooms is a fireplace of stone and ivory wood and French doors at the front of each room open on the tiled terrace. At the back of the hall is a small den and on the right at the back of the house a wing containing the chaperon's suite and a guest room is built. When not in use the guest room can be transformed into a sitting room for the chaperon's use.

Accommodates 36
An ivory stairway with mahogany rails goes upward from the hall to the second story bedrooms which are arranged for two persons with single beds and study tables. The third floor rooms are built for study and dressing rooms only and occupants of the third floor will sleep in a large dormitory. The committee feels that this plan combines the advantages of both dormitory and bedroom living quarters. A large lounge on the second floor will be fitted out for the use of the members. The house will accommodate 36 women.

In the basement is the chapter room, furnace room, kitchen, quarters for the cook, trunk room and storage room. The dining room is also on the basement floor.

Use White Woodwork
The house will be furnished throughout with white woodwork and hardwood floors and all the rooms, except the basement, will be papered. There are baths on the two upper floors, and in the quarters of the cook and chaperon. Telephone booths with long mirrors on the front of the doors are built on each floor. The downstairs rooms will be lighted by wall lights of antique brass in keeping with the colonial atmosphere and by chandeliers. The furnishings will be colonial in

WHERE ALPHA XI WILL LIVE AT IOWA

This new home of Alpha Xi Delta will be finished soon as another link welded in the great chain of new fraternity and sorority houses being constructed at the University of Iowa. Finishing touches are now being added and the chapter will soon be at home in the new house.

Sigma Kappa Uses Italian Idea in Home

Archways and Small Nooks Reproduce Foreign Air

The Italian idea has been carried out in furnishings and interior decorating as well as in the architecture of Sigma Kappa sorority's new \$44,000 home on E. Burlington street.

The house, which faces north, is of yellow brick with a roof of red tile. In the central part of the house between the east and west wings, French doors open from the long living room onto a secluded little porch. This in turn opens through three archways onto a large, square platform with a smooth composition floor and a low, flat railing.

At the left side of the platform is the main entrance to the house in the east wing. The entrance is painted white and is flanked by white pillars. A walk curves from the street to the steps of the platform.

Entrance in East Wing
The reception hall is in the northeast corner of the house with the exception of the solarium at the extreme east. This cheerful room has large windows on three sides and is furnished with bright-cushioned wicker furniture.

To the right of the reception hall the large living room, which extends across the front of the house, opens through an arched doorway. At the far end of the room is a tiled fireplace, Italian in style.

Another open door way leads to a smaller lounge room in the southwest corner of the house. A card room next to it is connected with both the lounge and the living room by the archways, which are typically Italian in design.

Hardwood Used
Both the floors and the woodwork of the rooms throughout the house are finished in hard woods, varnished dark. Furnishings and draperies carry out the same general color scheme, while the walls have a smooth plaster finish in cream color. The draperies downstairs are hand-blocked linen curtains, and the light fixtures are in the shape of candles.

In the southeast corner of the main floor are the chaperon's two-room suite and the guest room with a bathroom between. There is a full-length mirror both in the guest room and in the main reception hall.

Both the open stairway to second

SIGMA KAPPA MOVES INTO NEW HOUSE

Italian style architecture features the Sigma Kappa house on Burlington street, finished this summer as another new addition to the great program of building being undertaken and carried out by Iowa fraternity and sorority groups. Together with Alpha Xi Delta the Sigma Kappa house makes up the two sorority houses built this summer. Several other sorority houses have been built recently, the Delta Zeta and Kappa Alpha Theta being the most recent.

floor and the main stairway to the dining room on the floor below open from the reception hall. The dining room's chief feature is its red dining room chairs, Italian in design. In the far corners of the room are wall niches for trophies, and the room is lighted by single candle fixtures around the walls.

Kitchen, breakfast nook, trunk room, maid or furnace boy's room, and ample store rooms take up the remainder of this floor. The furnace is placed in a sub-basement to insure better heating for the rooms on the lower floor. The chapter room is under the solarium.

Will Accomodate 32
With eight double rooms on each of the upper floors, the house has a capacity of 32 persons. On third floor, however, one room has been furnished as an upstairs parlor and cardroom instead of for living quarters. The house has no dormitory, but a small sleeping porch is located on the second floor over the solarium.

Two linen closets are located on each of the upper floors, and there is a telephone booth on each of the four floors. Showers, tubs, and a laundry corner are included in the equipment of the bathrooms upstairs.

In Plain Sight
Co-ed (at dry goods counter): "I'd like a pair of garters, please."
Clerk: "Yes, miss; something like the ones you have on?"—Cornell Widow.

Mansion Built in 1842 Now Sorority Home

Restored Building Once President's Home; Housed Senate

Hoop skirts of early Iowa dames swept down the side stairways, university presidents entertained bearded faculty members in the long living room and the early senate held two of its sessions in the halls of the white brick mansions which houses Theta Phi Alpha this year.

For years a brass door plate proclaimed that the house was built in 1842, which was two years after the cornerstone of Old Capitol was laid in the presence of a small group of pioneers and a remnant of Poweshiek's tribesmen, the Foxes.

J. Berryhill Early Owner
James Buchanan Berryhill was one of the early owners of the place. In 1857 Charles A. Schaffer, president of the university at that time, bought the house, remodeled and improved it, and occupied it until his death in 1898.

President MacLean lived in the house from 1892 until the building of the president's home on President's point.

After the late William G. Raymond, former dean of the engineering college, had made it his home for several years, the old "Berryhill" property was used as a fraternity house.

This summer a construction company bought the house, fireproofed and reconstructed it, and restored the dignity it had in the days when William Howard Taft was a guest there.

Repainted in Green and White
Now green shutters brighten the white brick walls and white lattice work trims the full length front porch. The massive front door, painted green, opens into the old great hallway on whose walls shepherdessees and doves linger in old fashioned gardens.

At the end of the hall rises a walnut stair with an ivory spindle railing, a monument to the architecture of early America. The house's huge entry ways, full length windows, ivory woodwork, and dignified outlines resemble Old Capitol, which was also recently restored.

The long living room is papered with a large gray colonial design.

FRATERNITY FINANCING

Financing of new fraternity and sorority houses has always been important, especially to those who are building and to those who contemplate building. The following article has been written by Russell A. Beeson, accountant with the Iowa Fraternity Advisor system, and deals with the various phases of financing of fraternities. Mr. Beeson made up a budget system which was presented to the national convention of Delta Upsilon in 1928 and which has

design and are being planned by Mrs. Wilber J. Teeters of Iowa City.

The windows are small with ivory shutters and the French windows on the first story are ornamented by iron railings on the outside. The sloping roof is made of vari-colored tiles.

The committee in charge of the building is as follows: Mrs. George Frohwein, Jr., president of the alumna chapter; Maude McBroom, principal of the university elementary school; Olive Torgeson, assistant registrar; Frances Camp, director of the teacher's placement bureau, and Ruth Wilhite, J4 of Emmetsburg, president of the active chapter.

been adopted by the national organization to be established in other chapters.—The Editor.)

By RUSSELL A. BEESON

During the last three years the Iowa campus has watched the growth of some 20 new fraternity buildings, with a total aggregate value of over one million dollars. The money has not been raised by wealthy alumni nor has it been provided by the profits of past years. The greater portion of it has been borrowed. In spite of the fact that people tend to minimize the importance of the college fraternity, these groups spend on the Iowa campus a quarter of a million dollars annually for food, pay salaries of employees of \$120,000, spend \$45,000 a year for social functions, \$30,000 a year for coal, \$20,000 a year for taxes. The total annual expenditure of all fraternities on this campus might be roughly estimated at three quarters of a million dollars. To remove them suddenly from our midst would seriously disrupt, for a time, the local business conditions.

Problem Once Greater
Not many years ago the problem of building a fraternity house was

much greater. The investing public did not believe in the type of security usually placed on the market by the fraternities. They were prejudiced against the so-called college club because of its personnel and past reputation. In late years however, the fraternity has come to represent a sound and reliable investment—for two seasons. They have the distinct advantage of a stronger and larger, due to the increased numbers in our educational institutions, and secondly, the unfailing ability to keep that membership constant year after year. Investment houses have been selling apartment and hotel bonds for many years, yet these institutions have nothing more than the excellence of their service to keep their income constant. The fraternity has a closer and more tenacious hold upon its membership because it means more to belong to such a group than the mere board and room accommodations. This after all is what makes the fraternity bond a safe investment.

Form Corporations
When a fraternal group decides to build, it creates a corporation composed of alumni who will assume all the liabilities and hold title to all the property. Usually, if the fraternity has been in existence for 10 or 15 years, they will be able to call on their alumni for enough money to purchase the lot

Fraternities, Sororities Entertain With Wide Variety of Parties

Dances Hold Prominent Place on Recreational Calendar for Members of Greek Societies

Formal Dinner Dances, Informal Parties, Pledge Dances, Faculty Dinners, Open House Teas, Rushing Parties on List

"On with the dance!" is a frequent cry in fraternity and sorority circles on a university campus. Dancing as well as other social events in the life of a university student looms large on the recreational calendar of a fraternity man or woman.

Most of the fraternities and sororities on the Iowa campus average one dancing party each month, reaching the peak of all their social affairs with a formal dinner dance usually given during the late winter months. In general the parties are given at the chapter houses although groups whose houses are too small to entertain large numbers conveniently often sponsor dancing parties at local inns and hotels.

Usually the informal dancing parties are planned under the direction of a student social chairman who racks his or her brain to budget the allotted finances over items for programs, orchestra, features, and punch.

Theme Parties
Not the least of all the problems of the social chairman is the decoration of the rooms for the party. Various chapters use different plans for decorating; some prefer to have their own art students plan and execute the decorative scheme, while others hire a local firm which makes a specialty of festive trimmings for fraternity parties.

Rare is the party which has no special "theme." There are Halloween parties, hard times parties, masquerade parties, ship parties, Valentine parties, and just before the Christmas holidays Saint Nicholas has a heavy schedule of appearances at fraternity parties where he distributes 10-cent gifts among the guests.

The formal dinner dance is conducted with more dignity and attention to decorative scheme than even the informal parties. Often the dinner is given at a hotel and the group returns to the chapter house to dance.

Favors Banned
Until this year it has been the custom for both fraternities and sororities to present their guests with favors, ranging from cigaret lighters of dubious qualities to heavily embossed silver picture frames, but by action of women's pan-hellenic council last May the practice of giving favors at the sorority formal was abolished. However the fraternities have taken no such action and it is supposed that they will continue the practice. The nature of the

favor is always kept a deep secret until the very evening of the affair with often only the social chairman knowing what the favors are to be.

The first party given by each group in the fall of the year is nearly always a "pledge party" honoring the new pledges of the organizations. In some groups the newly pledged members reciprocate with a party honoring the active members, the expense of which is borne by the pledge chapter.

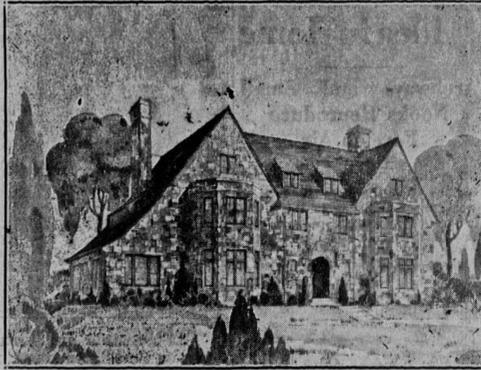

Pledges at "Open House"
While the dancing parties are probably the most important of the events on the fraternity and sorority social calendar there are other social events which cannot be overlooked. On several week nights and Sunday noon at dinner faculty and personal guests of the fraternity or sorority are guests at the chapter house. On Mother's Day and Dad's Day there are nearly always special dinners in the chapter houses followed by short musical programs.

The Greek letter organizations for the women of the campus are hostesses early in the school year at "open house." Then the sorority pledges stand in line, while the pledges to the various fraternities are presented to them.

An idea issued by the active members of the fraternity usually makes attendance at sorority open houses compulsory for the neophytes of their organization. However, refreshments are served so that the young man who is a confirmed woman hater may go away feeling that his afternoon has not been entirely lost. In a number of houses the evening is spent dancing while in others a tour of inspection is conducted throughout the rooms of the house.

In the life of a sorority woman

DELTA ZETA SORORITY HOUSE

The Delta Zeta chapter moved into this new home last year. It is typical of the new type houses being constructed in the big program this year.

much of the social calendar is taken up by teas; there are teas in honor of the pledges, teas in honor of chaperons, teas in honor of national officers, and teas for returning alumnae at Homecoming time. In fact the tea pot in a sorority kitchen never enjoys a very long vacation.

The guest list for such an affair usually includes the presidents and chaperons of all the sororities, the house mothers for fraternities, the dean of women, the wife of the president of the university, the alumnae of the organization, and usually a few especially invited guests who are intimate friends of the person or persons honored. And while the pledges struggle with the tea and the soft sandwiches in the kitchen the guests are entertained with soft music in the living rooms.

A pan-hellenic ruling compels sororities to give all their rushing parties during the formal rushing season within the chapter house. The fraternities follow much the same policy.

Informal Parties at Houses

At the close of the first semester when the pledges begin to turn in their pledge buttons for active badges and proud newly initiated sorority women appear on the campus with gay corsages social events consist of affairs given in honor of the new initiates. A large per cent of sororities and fraternities give formal banquets following the initiation ceremonies and still others give dancing parties at which the new initiates are honor guests.

And then there are many fraternity men and women who declare that the most delightful times

are those affairs in which only the members of their particular fraternity participate. Founder's day banquets, Thanksgiving dinners, the last night dinner before the Christmas recess, and in the sorority house informal spreads, "sings" and "showers" for newly engaged or married members.

And when the last ceremony is said for the seniors graduating from active fraternity life there are left many happy memories of gay parties and get-togethers held during the interim of undergraduate days.

Several years ago one Charles A. Lindbergh was requested to leave the University of Wisconsin because of deficiency in his studies. Now he holds a doctor's degree from the same institution. In the words of the cigarette advertising writer, what a whale of a difference a few years make.

PARTY AT IOWA UNION

Intramural Champs of 1928-29

Intra-mural champions:
Cross country—team: Sigma Phi Epsilon; individual—B. W. Sheridan, Phi Kappa.

Soccer—Phi Beta Delta.
Swimming—Delta Tau Delta.
Basketball—Phi Beta Delta.
Golf—Phi Delta Theta.

Volleyball—Sigma Chi.
Bowling—Sigma Alpha Epsilon.
Baseball—Nu Sigma Nu.
All-fraternity soccer team: Williams, Phi Kappa Sigma, L. E. Taylor, Delta Chi, L. E. Wilcox, Sigma Chi, C. F. Hoegh, Phi Kappa Rho, R. F. Baird, Sigma Chi, R. E. Killian, Beta Theta Pi, R. H. Margolin, Phi Beta Delta, L. F. B. Friedman, Phi Beta Delta, R. F. B. Morphew, Sigma Chi, Goalee.

All-fraternity basketball: Rouse, Beta Psi, and Kading, Sigma Chi, forwards; Williams, Phi Beta Delta, center; Tobin, Delta Sigma Pi, and Steinberg, Phi Beta Delta, guards.

All-intramural basketball team—Guards: Steinberg, Phi Beta Delta; Lentz, section A, Quadrangle; Gripson, Beta Theta Pi; centers: P. P. Phi Kappa Sigma; Williams, Phi Beta Delta; forwards: Penneck, section A, Quadrangle; Tobin, Delta Sigma Pi; Rouse, Beta Psi.

Employment Bureau Aids Needy Students

Those students who find it necessary to work part or all of their way through college, now find it possible to obtain employment through the free service offered by the university employment bureau which is located in Iowa Union north from the main lounge.

Many are getting positions in the various departments of the university as well as in many Iowa City shops and private homes.

According to present plans, the

bureau, under the direction of Theodore M. Rehder, who did part time work during his three years as a student and who was chosen last year as a representative junior, hopes to find work for 1,000 students, giving preference to those who find it imperative to work a great deal.

The work of this bureau, which

is conducted like any modern employment agency, filling the sources of work, together with the names of each employee, the hours he can do odd jobs, and the records of his previous employment, was formerly taken care of by the deans of men and women with the aid of the Y.M.C.A. and Y.W.C.A.

The seventy-second annual convention of Theta Chi passed a resolution that in the future no member of the fraternity should hold for more than three consecutive terms, and that at least two years shall elapse before such member shall again be eligible for office.

BY THE DAM

Phi Epsilon Pi to Occupy New House Jan. 1

Cut Stone Pilasters to Feature Beauty of Home

Built of Georgian English architecture with red brick construction set off by stone pilasters of white Indiana limestone, the Phi Epsilon Pi fraternity house is another addition to the west side section.

The house, still under construction, is scheduled for completion by Jan. 1, 1930. It will house 36 men.

An outstanding feature of the house which adds both to its durability and beauty is the cut stone pilasters. These are placed at regular intervals around the house and serve as supports as well as decorations. The porte cochere will be supported by four white pillars the full height of the house, adding an aristocratic appearance.

The roof will be of the built up type, thus allowing more space to the third story study rooms and the dormitories.

On the first floor of the house will be a large lounge, a library, a card room, a guest room, and a hall. The dining room and chapter room will be located on the underground floor.

The two floors above the main lounge will be used for study rooms. A bath, showers, and lavatories are planned for each of the floors. Two dormitories and one study room will run the entire length of the third floor.

A color scheme of green will be carried throughout the house. Walls will be tinted apple green, and hangings, rugs, and curtains will harmonize. Chairs and davenport are to be of green leather.

Officers of the building corporation, elected by the chapter, include: Sidney Segal, president; Herbert Lieberman, vice-president; Merrill Oransky, secretary and treasurer; Joe Rosenberg, Dr. Julius Schwartz, Abe Myers, and Sam Shulkin.

The Finer Things

(Editorial from the Delta Chi Quarterly)

This is not a fable. It is the true story of a happening.

A group was seated before the fireplace in a fraternity house, discussing the several topics of conversation found in the "average fraternity house"—women, athletics, liquor and campus politics.

"Well, I'll have to go," said one of them. "I'm going to hear some opera tonight. I have an extra ticket. Anybody want to go with me?"

After a pause, one of the freshmen said he would try it, just for fun. Amid the comments and "wise cracks" which so often accompany the man who goes in for "finer things," the boys left the house. An entirely surprised freshman returned that night, thrilled by the performance he had seen, and amazed everyone by saying he was going again the following week.

One week later, the first two and two others went to hear a lecture on current American literature. A dozen of the boys were persuaded to attend a matinee at the opera, and not one of them wished for his money back, something that could be said of scarcely one dance they had attended since the school year began.

And thus the growth went on. No, this is not a fable. If it were a fable, it would be written that all of the men became wholly converted to the ways of the righteous leader and "lived happily ever after."

And since it is not a fable, the truth of the matter is this:

In the remaining months of the school year, more than three-fourths of the men went to at least one concert or opera, and to at least one lecture outside of those required by their teachers for class work.

The "finer things," books, paintings, music, have become "all right" in this fraternity house. They are not something for "women only." The men still enjoy basketball, football, rowing, baseball. They have not forgotten to talk about campus politics. The ladies are not ignored. The men have just introduced several new interests into the topics discussed at the house, and broadened the scope of their lives.

University Credit at Home by Attending WSUI Radio Class

Persons throughout the country may now attend the University of Iowa class at home—via the radio.

Last year two courses were broadcast over station WSUI. These two courses, an English novel course, taught by Prof. Sam B. Sloan, and a lecture course in general astronomy given by Prof. C. C. Wylie, will be repeated this year.

Anyone may receive credit by enrolling in these courses, getting his lecture material by radio, and studying the assigned material which will be furnished through the extension division.

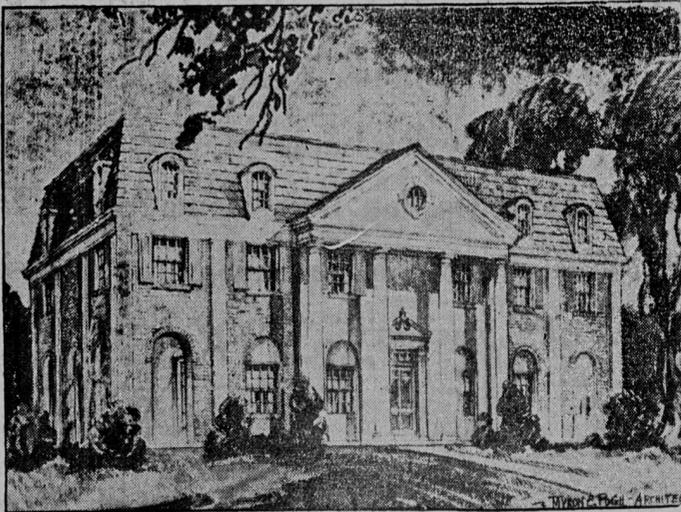

The Spring Party
It was the night of the spring party. . . . Ten couples were dancing to ecstasy to the strains of merry mad music. . . . then . . . came the storm, a furry of wind, lightning, thunder, a torrent of rain . . . and . . . 110 couples were dancing in ecstasy to the strains, etc., etc.
—The Magazine of Sigma Chi

SIGMA PI MEN LIVE IN NEW HOME

This fine new house is the home of the Sigma Pi fraternity section, augmented this summer by the addition of seven new houses which formed the nucleus for the great west side

NEW HOME OF PHI EPSILON PI FRATERNITY

Georgian English architecture has been chosen for the new Phi Epsilon Pi house on Ellis avenue on the west side of the river in the new fraternity section. Red brick construction set off by white stone pilasters of Indiana limestone forms the chief material used. It will be ready for use by January, according to present plans.

Phi Beta Delta Wins 3 Titles

Leads Champions of Intramurals

Although finishing fifth in the final point ranking, Phi Beta Delta was the only fraternity to win three major championships in last year's intramural competition. Phi Beta Delta carried off honors in both the fall and spring golf meets. The winners in the different activities are as follows:

- Cross country—Sigma Phi Epsilon.
- Swimming (Fall meet)—Sigma Nu.
- Golf (Fall and spring)—Phi Delta Theta.
- Soccer—Phi Beta Delta.
- Basketball—Phi Beta Delta.
- Volleyball—Sigma Chi.
- Kittenball—Sigma Pi.
- Tennis (doubles)—Phi Beta Delta.

- Free throw—Delta Chi.
- Physical efficiency—Phi Kappa Rho.
- Baseball—Phi Chi.
- All University Swim—Delta Tau Delta.

In winning the participation trophy for 1928-1929, Delta Tau Delta nosed out Sigma Nu by the narrow margin of five points. Sigma Alpha Epsilon finished third, three points ahead of Phi Gamma Delta. Following is the final standing of all the fraternities:

Fraternity	Points
Delta Tau Delta	549
Sigma Nu	544
Sigma Alpha Epsilon	525
Phi Gamma Delta	522
Phi Beta Delta	498
Sigma Chi	479
Delta Chi	429
Phi Kappa Rho	416
Phi Kappa Psi	402
Kappa Sigma	365

TIMES and STYLE IN CONSTRUCTION are CHANGING

Look at the homes of twenty years ago—they represented the very peak of refinement in construction. They were the pride of their builders . . . That was twenty years ago.

Look at the homes of ten years ago—they, too, represented the highest type of achievement in construction—ten years ago.

Today, look at Iowa's beautiful new homes. Progress in the structural arts has again given its finest in the construction of these homes.

A vital factor in this organization is its constant efforts to seek out the best that is in construction—not only for today but for the future—that the demands of its clients may be fulfilled to the finest degree.

CROWL

CONSTRUCTION CO.

MADISON, WISCONSIN

"Builders of America's Finest Fraternities and College Clubs"

Betas Have Great Hall in New Home

Follow Tudor Gothic Architecture in Construction

Located on a high side, overlooking the Iowa river, the new Beta Theta Pi fraternity is an excellent example of Tudor Gothic architecture in rustic colored stone such as is found in the large manor houses in England.

The outside walls are masonry set in rough courses of random ashlar. The stone is of soft colored Indiana limestone. Two main features of the front facade are the one and two story octagonal bays, as well as a front entrance treatment of carved stone.

At the north end of the building overlooking the river, there is a semi-enclosed terrace with an outside fireplace and stone benches. This terrace is partly inclosed by a rustic stone wall, copied after the Courtyards of England.

Although beautiful in design, the practical side of the home was not overlooked when the plans were drawn. There are four completely finished floors. The basement embodies a dining room, kitchen, servants quarters, and a large storage room. The first floor is given over to the Great Hall, lounge room and two elaborate guest rooms. The second and third floors house the study rooms and suite dormitories.

Beyond all doubt, the greatest feature of the house is the Great hall. This hall is one and one half stories high. The ceiling of the hall is serviced with full-oak beams, which are hand hewed.

A balcony on the main floor opens off the main lounge and looks down into the hall. The walls throughout, are ivory tinted.

The suite plan of dormitories is used in the house. Each of the sleeping quarters is in a separate room and does not open onto the study rooms. Four men sleep in each dormitory and single, one-deck beds are used. The home is steam-heated.

Red leather-upholstered furniture will be used in furnishing the Great hall and lounge room and bronze lighting fixtures, comprise the lighting effects. White oak covers the floors on the first story and in the Great hall. The floors in the study quarters are concrete.

The front of the home will be adorned with two terraces, leading to the front entrance.

BETA HOUSE NEARS COMPLETION

The Beta Theta Pi chapter will live in this house on N. Dubuque street, one of the two additions to the famous fraternity row to be constructed this summer. Landscaping will soon be completed and his home will become another beauty spot in Iowa City.

gar Allen Poe, famous Princeton football man maybe.

Take the word of one who doesn't know anything about it—the dilly grind is terrible.

Everybody knows the way they dig in at the swill trough, as if it were the last supper. The average Iowa farm boy feels right at home on seeing the two-fisted he-man chow consumption.

Bedtime Story Hour

And then there are the sleeping hours, which begin some time after bedtime stories and continue until noon.

If you go to your hay early, the bunch coming in heavy-footed after a heavy day and night will wake you up at intervals of 15 minutes.

If you retire late, you will need no call service in the morning, as tramping feet and Brother Hanson's voice inquiring who in the chapter has abducted his last shirt, serve admirably.

The only real hours for solid sleep are 4:59 to 5:13 a. m., inclusive.

That applies to sororities, too. You've no idea how unearthly shoes sound on these fine scapes. Probably Grinnell authorities wanted their dorm women to get some needed sleep.

As in national affairs, politics on the campus are conducted on the "two-party" system, with Pan-hels corresponding to democrats.

Ex-children (not so very ex, some of them) feel right at home with the influence of the paddle.

Pledges and Promises

Ask any pin wearer about new members. An organization like Mu Alpha Sigma strives to be a help and a source of uplift to deserving

Sigma had located a chapter there, he'd have been among the first asked. You betcha.

And if you think Waite, the football star, didn't need help, you should look on the chapter grade report.

Besides, you can get plenty of dates through the sorority booking system—such as they are. "Blinds" wouldn't be bad if so many weren't dumb, too. And OUR pins go with any color of dress.

Membership cultivates the social graces in one. Contact with such a picked crowd of fellows cannot help—but pledge captains who broadcast this "exclusive" chatter must first hide certain actives upstairs somewhere.

Does it cost more? Not very much, when you consider all the advantages, such as the FREE national magazine in which you read the fascinating news that Jack So-and-so '32 is a reporter on The Daily Iowan or will play "Third Man-in-Waiting" in Wisconsin's production of Hamlet. And you learn how to bang pins gracefully.

SO IF YOU SEE A FRAT MAN IN R. O. T. C. UNIFORM WHO SEEMS TO BE HIGH NOSE, DON'T BLAME HIM. MAYBE BROTHER WARD'S COAT AND HAT WOULD FIT BETTER ON A COW THAN ON BROTHER JONES.

A Careful Selection

Greek to Me

By El Mono

BY EL MONO

In case you can't stand suspense, this column is about fraternities and sororities, including Sigma Nu, Phi Delta Theta, Kappa Alpha Theta, and Pi Beta Phi, which really should be classed as hotels.

I don't belong to a Greek-letter social. I've seen only three houses from the inside—and two of these groups moved shortly after my learning their address, so the editor picked me as the logical person to write about them.

Actually, the less you know of what you're discussing the better you get by with it. Look at the success of Arthur Brisbane and Harold Bell Wright.

Now don't get it into your head that El Mono is prejudiced against fraternities because nobody has asked me to join one. Why, I've known any number—say half a dozen—of likable fellows who belonged to fraternities.

IN FACT, THEY ARE ALL RIGHT IN THEIR PLACE, BUT IOWA CITY'S EXCLUSIVE WEST SIDE SET HAS REFUSED TO ACCEPT ANY MORE AS NEIGHBORS. THINK OF THE EXAMPLE IT SETS BEFORE THE CHILDREN. JUST THINK!

Some Greeks Are Good

Of course, by the law of averages there are two or three decent chaps to a chapter, but they can't hope to make up for the rest of 'em.

About the history and background of the movement for preserving the Greek alphabet. We'll let Prof. Noah Tawl (Mu Alpha Sigma, though the boys aren't so strong about having it known) explain in his own inimitable fashion: "Now, students, listen attentively while I divulge for your benefit the romance of word derivation—doesn't it, to adopt slang parlance, just thrill you?"

"The word fraternity comes from the Latin FRATER, meaning brother. You will remember from your study of Bible that Cain and Abel were brothers. . ."

Just for personal information, we'd like to know if Pat and Mike were brothers, too.

It's a Greek Life

"Brother against brother. . ."—any history of the Civil war.

All you need to start a new frat is a phonograph, one dozen pledge pins and a car—or flivver.

Soup to Nuts

In Evening Dress
Second hand clothes,
Second hand girls,
This frat life will drive me to squirrels.

Rubs on my chin—
Why in creation'd I ever go in?—
from the unpublished works of Ed-

FRATERNITY FINANCING

(CONTINUED FROM PAGE 9)

and make a down payment on the house. There are many ways of doing this, but the most common is to ask all members of the group to sign a note, payable to the building corporation, and the payment of these notes provides the necessary funds to create the original equity.

Another class of men will room at the house and they should pay in addition to the cost of the rooms they occupy the greater part of the general overhead, since they use the chapter house more than any other class of member. The third service which a fraternity renders is club service and here we have the total membership affected, regardless of whether they room, board, or live in town. This class should pay for the chapter activities, social functions, national dues, and all the expenses which are incurred by the fraternity as a unit, and in addition they should pay a small percentage of the general fixed and variable charges which cannot be allocated to one of the classes. In this way every member of the fraternity is contributing to some extent toward the rent, insurance, taxes, furniture, and other costs of maintaining the college home.

Three Classes of Members This figure is actually reached by taking all the known expenses of the fraternity and dividing them among the three classes of members. Having reached the total value of each service, we can divide the number of men into the class in which they fall and determine the equitable charge for each service. Thus in the average chapter of 45 men we will find 35 rooming in the house, 38 boarding at the table, and seven living in town neither boarding nor rooming. It has been found that an equitable charge on this campus is \$30 for board, \$15 for room, and \$8 for dues, or a total bill for a man receiving the three services of \$53. It is well worth this amount to live in one of the beautiful new homes and have the advantages of all modern conveniences, beautiful club rooms, good food, and congenial surroundings.

A prominent contractor who has built some 225 fraternity homes states that at no time in his experience has a fraternity ever defaulted in its payments. It is generally true in the history of fraternity operations that there has never been a piece of fraternity property come into the hands of the bondholders. It has been true that houses on some campuses have been refinanced because the load was too great for a group to carry, but the modern fraternity is taking care of its load by increasing its membership to meet the additional cost, thereby destroying the former select group and substituting a more healthy and cosmopolitan chapter.

This last factor, more than any other, is making the fraternity a sound business institution and will eventually result in the finest of credit relations.

When the alumni have built the house and provided the plan for the active chapter, it is up to each year's group to provide the income needed. Here the problem of active chapter operation enters in. There has been a marked improvement during the last five years in general chapter operations.

Members are beginning to realize that they have an immense financial problem to face, and the most effective improvement has been the institution of the budget. A fraternity renders three distinct types of service. Certain of its members will board at the chapter table and will receive in addition to the food and all costs connected with its preparation certain benefits from the general house. They will therefore be expected to pay an amount, included in the board bill, to take care of the fixed

TILLIE THE TOILER—Among the Missing

Freshmen Helped at Dean of Men's Office

Although the dean of men's office is ostensibly for disciplinary measures, students entering the university for the first time will soon find that it is in reality an advisory bureau. It has already considerably helped the freshmen in registering and during the coming months it will help them in many small problems of every-day college life.

they wish their relation to the college man to be not so much of discipline and regulation as of understanding and sympathetic advice.

Dean Robert E. Rienow and his assistant, Lonzo Jones, say that

Wrestling Candidates to Report Next Week

While there has been no official call for wrestling candidates, Coach "Mike" Howard has about 20 men working out regularly at the field house. Next week real practice will begin with work being stressed on condition and fundamentals.

Chicago Grains

CHICAGO, Sept. 28 (AP)—Cash wheat receipts were about the same with estimated arrivals of 67 cars. Sales reflected the break in the basic future, running from 1/16c lower than yesterday. Shipping demand remained quiet and there was nothing booked to arrive. Deliveries on September contracts were moderate with a total of 215,000 bushels reported. Fresh export developments were lacking according to seaboard advices.

Greek Letter Societies Vie for Honors

Each year at Homecoming, Pi Epsilon Pi, the national pep fraternity, awards two large silver loving cups. One is given to the fraternity or sorority which exhibits the most attractively decorated house, and the other is given to the fraternity or sorority which contributes the most original float to the Homecoming parade.

City Restricts Locations for Group Homes

Limits Fraternities, Sororities to Set Zones

Further restriction upon the location of fraternity and sorority houses was made by action of the city council Aug. 7 when all lots in Bella Vista place and all lots fronting and abutting upon Linn street north of Brown street were closed to Greek letter organizations. Because it was built before the ordinance went into effect, the Phi Kappa Psi house, which is located in this district, is not affected by the ruling.

Only one other district in Iowa City is restricted from fraternity and sorority building by the city council. This includes the territory bounded on the west by the Rocky Shore road, on the south by the Cedar Rapids-Iowa City railway on the north by Koozant avenue, and on the east by a direct line between Ellis and Beldon avenues from Elm street to Park road.

Board Passes Rules
Action on the redistribution of fraternity and sorority districts was taken by the state board of education Feb. 12, 1929. This regulation supplements that made April 25, 1923 in conformity with the rule passed by the inter-fraternity conference restricting fraternities and sororities from building or buying close to one another and the one made April 9, 1924. It places the only restrictions on the clubs which the university gives. All other division lines are set by the city.

The fraternity district allowed by the university includes all ground from Van Buren street on the east to a point near the West Lucas township line on the west side of the Iowa river, and from Kirkwood avenue north to Burlington street on the east side of the river.

The second district allowed for fraternity homes by the university includes the ground between lots on the west side of Ellis avenue from Elm street across the Iowa river as far east as Linn. The non-restricted area extends from the north city limits as far south as Church street.

The district allotted to sororities goes from Kirkwood av. north on Webster street to College street then west on College street to Clinton street, north on Clinton for two blocks to Iowa avenue. From there it extends east on Iowa avenue to Gilbert street, north on Gilbert street to Jefferson and east on Fairchild to Gilbert. From that point it goes north to the city limits.

Neutral Zone
Of the new fraternity homes only the Alpha Kappa Kappa and the Phi Rho Sigma houses are in city restricted districts. They are located in Manville Heights which is not university restricted and they are not affected by the city ruling because they were under construction before the ordinance was passed. The Phi Chi house on Temple road is situated in a district not specified by the university rule as fraternity ground and consequently may in time be in the way of university expansion.

A neutral district of two blocks between sorority and fraternity districts has been marked off by act of the state board of education. Copies of the revised zoning system may be obtained from the office of the alumni secretary in Old Capitol.

Rifle Team to Begin Drills

Aspirants for positions on the varsity rifle team will have a huge task before them to equal the record of their predecessors when the range opens for practice next Monday. Last year's team acquired three major championships. The Big Ten title was the first, followed by the Missouri Valley regional, and finally the national intercollegiate championship.

In 19 matches held throughout last season only two were lost, while in Big Ten competition the team was undefeated. The Hawks finished with five victories against no reverses with Minnesota finishing second and Ohio State third.

Records reveal that the highest score made by the Iowa team was 1,390 tries out of a possible 1,500. Gibney was the high point man for the entire season. Weeber was next in line.

The national intercollegiate telegraphic meet resulted in a victory for Iowa against the 28 best rifle teams in the country. The United States naval academy was second with Virginia Military Institute third. Iowa's winning total was 1,366 points to the navy's 1,347.

W. Keith Weeber will captain the team this season and prospects are promising for another championship combination. The schedule for the present season is not yet completed.

Roscoe Patterson, Missouri; Walter F. George, Georgia; Frederick Stelwer, Oregon; Daniel F. Steck, Iowa; all United State Senators, and O. Max Gardner, governor of North Carolina, are members of Sigma Nu.

Paul Vories McNutt, commander of the American Legion, is a member of the Aeacra fraternity, having been initiated at Harvard in 1914 while he was there attending law school.

CHURCH NOTES

Vesper Services
The first vesper service of the year will be held today at 4 p.m. in the natural science auditorium. The address will be given by the Rev. Cleland B. McAfee, moderator of the Presbyterian church. His title is: "Consider Your Ways" (Haggai 1:7). The chaplain is the Rev. John Gray Rhind.

Presbyterian
The Rev. John Gray Rhind, minister, 9:30 a.m., Bible school with university classes; 10:45 a.m., beginners department of the Sunday school; 10:45 a.m., morning worship. Sermon, "The Courage of the Commonplace"; 4 p.m., University Vespers; 6:30 p.m., Student forum. Miss Genevieve Chase, the new student counsellor, will lead the discussion; 6:30 p.m., Westminster Hi-Club. The meeting will be addressed by Prof. J. C. Manry, associate professor of philosophy in the university; 7:30 p.m., Union service in this church. The Rev. Cleland B. McAfee, moderator of the Presbyterian church, will speak; Thursday at 7:30 p.m., Thursday Evening Forum. "The Religions of Mankind."

First English Lutheran
The Rev. W. S. Dyringer, minister, 9:30 a.m., church school; 10:45 a.m., morning worship and sermon on "A Lawyer's Problem"; 4:30 p.m., the student cabinet; 5:30 p.m., the Luther league luncheon; 6:30 p.m., the Luther league with Paul Johnson as leader; 6:30 p.m., the Intermediate league.

Zion Lutheran
The Rev. A. C. Proehl, pastor, 9 a.m., Sunday school; 10:45 a.m., morning bible class; 9:30 a.m., adult bible class; 10:30 a.m., divine service. The sermon on missions by the Rev. S. Ide of Bellevue; 6 p.m., Luther league luncheon and social hour. 7:30 p.m., Mission service with the Rev. J. Haefner of Muscatine as the speaker.

Baptist
The Rev. E. E. Dierks, minister. Today is family and rally day. Unified instruction and worship service from 9:30 a.m. until 11 a.m.; 9:30 a.m., church school period; 10:30 a.m., church worship period. Sermon, "Where Do We Go From Here?" Anthem, "What of the Night." Sermonette, Junior church and kindergarten for the children. 5:30 p.m., B.Y.P.U. supper and social hour; 6:30 p.m., Herbert Martin of the department of philosophy in the university will address the young people. 7:30 p.m., the Baptist church will dismiss its evening service to hear the Rev. Cleland B. McAfee at the Presbyterian church. 7:30 p.m., Thursday will be the second discussion on "How we got our New Testament."

First Christian
The Rev. Guy H. Findly, minister, 9:30 a.m., bible school; 10:45 a.m., junior congregation, morning worship, and sermon on "Love the Highest"; 6:30 p.m., Fidelity Christian endeavor. Union service at the Presbyterian church.

Church of the Nazarene
The Rev. Lulu B. Carter, pastor. Services are held in the old chemistry building, corner of Dubuque and Iowa avenue. 9:30 a.m., Sunday school; 10:45 a.m., preaching service; 6:30 p.m., N.Y.P.S., 7:30 p.m., preaching. Prayer meeting Thursday 7:30 p.m., at the home of Mrs. Fred Brugg, 927 S. Lucas street.

Episcopal
The Rev. Harry S. Longley, rector, 8 a.m., The Holy Communion; 9:30 a.m., children's church and school of religion; 10:45 a.m., morning service and sermon "When is a person good?"; 6 p.m., Morrison club.

First Church of Christ, Scientist
9:30 a.m., Sunday school; 11 a.m., lesson sermon, subject, "Reality". A reading room at 211 1/2 E. Iowa avenue, is open from 2 to 5 p.m., every afternoon except Sundays and legal holidays. Visitors are welcome. 8 p.m., Wednesday, testimonial meeting.

Methodist
The Rev. W. C. Keeler, minister, the Rev. C. G. Fort, student pastor, 9:30 a.m., Sunday school, university classes will be led by Prof. Bonno Taper, Ruth Gallaher, and Prof. Floyd Nagler. 10:30 a.m., morning worship; 6:30 p.m., the high school leaguers with Sidwell Smith as leader whose subject will be "Finding time to live"; 6:30 p.m., the Epworth League with Mabel Ross as leader. 7:30 p.m., Union services will be held at the Presbyterian church.

St. Mary's
The Rt. Rev. Msgr. A. J. Schulte, pastor, 7 a.m., low mass; 8:30 a.m., children's mass; 10 a.m., high mass; 2:30 p.m., Sunday school; 3 p.m., Vespers.

Unitarian
The Rev. Rupert Holloway, minister and student pastor; 10 a.m., Sunday school under the leadership of Prof. Sherman Woodward; 10:45 a.m., morning service with "Sculptors in granite" as the subject; 6 p.m., Fireside club will have supper, in the Fireside rooms followed by an open discussion with the Rev. Mr. Holloway as leader.

St. Paul's Lutheran Chapel
The Rev. Julius A. Friedlieb, pastor; 9:30 a.m., Sunday school; 10:45 a.m., divine services with text from Matthew 22:34-46, and subject, "The great test question: 'What think ye of Christ' whose son is he?"; 7:30 p.m., Vespers.

Congregational
The Rev. Ira J. Houston, pastor; 9:30 a.m., Sunday school; 9:50 a.m., student class; 10:45 a.m., morning worship with sermon "Our account with life" and Junior sermon, "The life saver"; 4 p.m., vesper service at the natural science auditorium; 6:30 p.m., society of Christian Endeavor; Miss Ruth Jones is leader; 6:30 p.m., Pilgrim society of Christian Endeavor; Edwin Ford in charge; 7:30 p.m., union services at the Presbyterian church.

First Unit of Local Telephone Exchange Moved to New Home

The removal of the first unit of the local telephone exchange to its new office at Linn and Burlington streets is heralded by phone company officials as one of the greatest forward steps of the local exchange in its 53 years of service here.

Manager Carl Cone has compiled a history of the telephone company in Iowa City which reveals some interesting data. Jan. 31, 1876, three years after the first telephone patent was issued to Bell, telephone service was established in Iowa City. According to statistics obtained from an old copy of the Iowa City Republican, Messrs. Pryce and Schell placed orders for three telephones at that time. A new exchange was completed in 1881.

Luella DeWolf was the first operator, and the exchange was located over 110 E. Washington street. Oct. 11, 1882, the Iowa Telephone company of Cedar Rapids, successor of the original Hoover company, offered to place telephones in the city hall for two years free of charge. The offer was accepted.

Aug. 6, 1883, the Iowa State Press printed an item in which it was stated that D. H. Ogden, director of the exchange had sold out his stock at a profit of \$30,000. Frank Moffet became the next manager.

A connection through Davenport united Iowa City telephone lines with 95 towns in eastern Iowa and western Illinois. By October a line to Cedar Rapids via Morse and Solon had been established.

The first aerial lead cable in Iowa was erected from the telephone office at Iowa City to an office pole across the street in April, 1885. The cable was placed by A. G. Storrs of Omaha, under the direction of W. A. Leary, general manager of Davenport.

Mr. Moffet was succeeded by F. S. Holmes of Grinnell in 1890. Mrs. Holmes became chief operator. Dec. 17, 1890, the city council first had passed a regulatory ordinance applicable to the use of streets by the telephone company. Franchise rights were unquestioned until March 3, 1893, when another ordinance was passed in favor of the telephone company.

In 1900 J. C. Bonnell succeeded Mr. Holmes. Mr. Bonnell was, in turn, succeeded by C. R. Potter, D. W. Coffey, Henry Louis, Mr. McGram, L. S. Crossard, and Carl Cone, the present manager.

Forty-eight years of telephone development in the Iowa City exchange has seen it grow from an exchange of one of 14 to one of 6,000 connecting each subscriber with all cities in United States, Canada, and Mexico, as well as many cities of the old world.

There are 62 employees in the traffic department handling 35,000 local calls and 750 long distance calls daily. There are 14 employees in the plant department, and three in the business offices. There are 86 miles of aerial cable and nine miles of underground cable in Iowa City at present.

The present office staff is composed of the following: Carl Cone, manager; Edward Wren, wire chief; Hattie Goody, chief operator, and Roswell Pickersstaff, assistant manager. The staff feels that, with its added facilities in the new offices, customers will be even better pleased with the service than they have been in the past.

Rotary Club Stages Semi-Annual Meet for Traveling Cup

To encourage greater participation in javelin throwing, the local Rotary club nine years ago gave a cup to be competed for semi-annually, known as the Rotary club javelin throw traveling cup. The present holder of the cup is Weldon, A3, national A. A. U. junior champion.

Weldon has possession of the cup for the first and the last time, since a previous winner of the cup is no longer eligible to compete for it. Graduate students also are ineligible to compete for the cup as are previous "I" winners in the javelin throw.

This leaves competition for the cup open to freshmen and to candidates for the varsity who have not won a major "I" in the javelin throw. The winner receives the cup and the next five places receive ribbons.

The competition for the cup is not held during the time the triathlon is being run off, but is held Wednesday, October 16 at 4:00. The cup is also competed for early in the spring.

Rockne Faces One of Toughest Grid Cards in Country
Within all probability the toughest schedule in the lands confronts Coach Knute Rockne of Notre Dame with the opening of his schedule of nine stiff games with Indiana on Oct. 15.

The task of journeying down to Bloomington to meet Indiana, east to Baltimore to battle the Navy, north to Madison to engage Wisconsin, east to Pittsburgh to meet Carnegie Tech, down to the southeast to fight it out with Georgia Tech at Atlanta, and then west to Des Moines to battle Drake on successive week-ends would be enough to wear down the sturdiest of coaches. But add to that games with Southern California, Northwestern, and Army on the three following Saturdays a schedule that causes Rockne, who has guided Notre Dame thru many a tough schedule, to hesitate more than an instant.

The 1928 Notre Dame line looks strong enough but the backfield is the big problem that faces the famed South Bend mentor. According to the reports from the Notre Dame camp, Jack Elder championship sprinter, holds the key to the strength of the backfield. If the sprint star comes thru according to expectations the 1929 team will be another powerful aggregation.

Although faced with seven conference tilts and two inter-sectional battles with Notre Dame and Carnegie Tech, the prospects are exceedingly bright for another winning team for Coach Howard Jones of the University of Southern California, former mentor of the University of Iowa.

The 1929 Schedule:
Oct. 5—Oregon State at Los Angeles
Oct. 12—Unl. of Washington at Seattle
Oct. 19—Occidental at Los Angeles
Oct. 26—Stanford at Palo Alto
Nov. 2—California at Los Angeles
Nov. 23—Idaho at Los Angeles
Nov. 16—Notre Dame at Chicago
Nov. 23—Idaho at Los Angeles
Nov. 30—Washington State at Los Angeles
Dec. 14—Carnegie Tech at Los Angeles.

PROFESSOR WYLIE DISCUSSES METEORS
In the October issue of the Scientific American, Prof. C. C. Wylie of the astronomy department has written an article on meteors. Facts which Professor Wylie has gathered concerning the meteor that was visible to residents of Iowa City and the surrounding country on the night of July 25 are presented.

Hawks Reserve Seats in Foreign Stadiums

Orders to reserve to total of 5,750 tickets to the University of Iowa's four Football games on other fields have been made by Charles S. Gallicher, business manager of athletics. Wisconsin will set aside 2,500 tickets for the game with Iowa at Madison, Oct. 26. Some 1,500 Iowans are expected to see the contest at Michigan, Nov. 23, while Purdue will save 1,000 ducats for the affair at Lafayette, Nov. 16. For the Ohio State game at Columbus, Oct. 12, Gallicher has requested 750 tickets.

Charles Evens Hughes is a Delta Upsilon. He paid his graduate dues of \$1.00 by check. The check was auctioned at a fraternity luncheon for \$7.00 and is not to be cashed.

Theta Nu Epsilon, so long an outcast among legitimate fraternities, has announced that its efforts to clean house and operate as an open campus social fraternity have been successful. Recently it has established chapters at Ohio State, Coe, Louisville, and Illinois.

Iowa state is experimenting with a new fraternity plan of scholarship. The authorities demand that each fraternity man must be making normal progress toward graduation, which they define as an average of 80 per cent, to live in the house.

Miss Dorothy Lohr, of Estherville, who graduated from the university this June, is teaching in the city schools at Cleveland, O.

Illini Head Title Parade

Two major titles and two minor championships were won by the University of Illinois, these triumphs enabling the Illini to lead the sports parade in the Western Conference during the 1928-29 season. Their successful season began when they won their second straight football championship and ended when they annexed the outdoor track title. The two minor titles were won in fencing and gymnastics.

Michigan ranked second, sharing the basketball crown with Wisconsin and winning the baseball, wrestling and swimming championships. Wisconsin, in its best season since 1912 when they won four major titles in football, basketball, and track took second places in football and third place in baseball.

Iowa, Minnesota, and Chicago were the only other teams to share in top-flight honors, Iowa winning indoor track, Minnesota in golf, and Chicago in tennis.

PROFESSOR WYLIE DISCUSSES METEORS
In the October issue of the Scientific American, Prof. C. C. Wylie of the astronomy department has written an article on meteors. Facts which Professor Wylie has gathered concerning the meteor that was visible to residents of Iowa City and the surrounding country on the night of July 25 are presented.

Theta Xi

We Congratulate You on your new home

We are indeed pleased to have had the roofing and spouting jobs on this beautiful new fraternity house.

Let us look your job over, and we will gladly furnish estimates.

Greeks Found Two Societies at Iowa in '82

Seventeen Pan-Hellenic Sororities Now Established

The year 1882 witnessed the establishment of the first two sororities on the Iowa campus, Kappa Kappa Gamma and Pi Beta Phi. Kappa was originally founded at Monmouth College in 1870; it now has 56 chapters. Its national magazine is "The Key."

Pi Phi, founded at Monmouth College in 1867, has 75 chapters and publishes "The Arrow."

Delta Gamma, the third oldest sorority on this campus, was established here in 1886 and was first founded at Oxford Institute in 1874. It has 42 chapters and edits "The Anchora."

Other sororities are: Delta Delta Delta, at Boston University in 1888, University of Iowa

in 1904, 73 chapters, and "The Trident" magazine. Phi Omega Pi, University of Nebraska, 1910, University of Iowa, 1910, 19 chapters, and "The Pentagon" magazine.

Alpha Chi Omega, DePauw University in 1885, Iowa in 1911, 51 chapters, and "The Lyre" magazine. Alpha Xi Delta, Lombard College in 1893, this campus in 1911, 45 chapters, and publishes "The Alpha Xi Delta."

Delta Zeta, Miami University in 1902, Iowa campus in 1913, 54 chapters, and publishes "The Lamp." Gamma Phi Beta, established here in 1915, was founded in 1874 at the University of Syracuse. At present it has 35 chapters and its magazine is "The Crescent."

Alpha Delta Pi, Georgia Wesleyan College, 1851, this campus, 1915, 46 chapters, and "The Adelphian" magazine. Chi Omega, founded at the University of Arkansas in 1895, this campus in 1919, 84 chapters, and edits "The Eleusis."

Zeta Tau Alpha, Virginia State Normal in 1898, Iowa campus in 1922, 57 chapters, and "The Themis" magazine. Kappa Delta, founded at Virginia State Normal in 1897, established on this campus in 1923, has 64 chapters, and publishes "The Angella."

Sigma Kappa, founded at Colby College in 1874, was established on this campus in 1924. Its chapters number 45 and its national magazine is "The Triangle."

Phi Mu has 57 chapters. It was founded at Georgia Wesleyan College in 1882, established at the University of Iowa in 1925, and calls its magazine "The Aglaia."

Theta Phi Alpha, University of Michigan in 1912, Iowa campus in 1926, 17 chapters, and "The Compass."

In 1926 Kappa Alpha Theta, founded at DePauw University in 1870, was established on this campus. It has 58 chapters and edits "The Kappa Alpha Theta Quarterly."

No new national sororities have been established on this campus since 1926.

Ensign to Manage Homecoming Plans
Retaining a post which has been his for some years, Prof. Forest C. Ensign of the college of education will serve as general chairman of University of Iowa's homecoming committee.

Professor Ensign will be assisted by a corps of about 100 committee members. The university will elaborate homecoming for the eighteenth time, Oct. 19.

SMALL HARDWARE

IT IS THE SMALL THINGS THAT GO TO COMPLETE ALL MODERN FRATERNITY HOMES

We furnished the finishing hardware for the new Alpha Kappa Kappa house.

Strong Greek Letter Groups Founded Here

Chapters of 22 National Fraternities on Iowa Campus

Life in social fraternities always has appealed to many University of Iowa students and at present many of the strongest Greek letter organizations in the country are represented on the campus.

Beta Theta Pi was the first fraternity to establish a chapter in Iowa City, installing the Alpha Beta chapter in 1866. The national organization was founded in Miami University in 1839.

Other large national fraternities are Phi Beta Kappa, Phi Delta Theta, established in 1848, Iowa Beta established in 1882, with 97 chapters; Alpha Tau Omega founded at Virginia Military Institute in 1865; Delta Beta established in 1915, with 87 chapters; Sigma Nu founded at Virginia Military Institute in 1869; Beta Mu established in 1833, with 94 chapters; Sigma Chi founded at Miami University in 1855; Alpha Eta established in 1882, with 88 chapters; Delta Tau Delta founded at Bethany college in 1850; Omicron established in 1880, with 76 chapters.

Three of the 26 fraternities having houses on the campus, are local organizations. They are Chi Kappa Pi founded in 1921, Chi Delta Psi founded in 1924, and Phi Kappa Phi founded in 1925.

Mortar Board in Charge of Social Events

The activities of Mortar Board, honorary organization of senior women, embrace various situations wherein special service from students is needed.

These women during their senior year are at the services of the dean of women who is privileged to ask for their co-operation in any student project undertaken by the university.

"Mother's Day" and "Dad's Day" are the two outstanding events in which Mortar Board women participate. A feature of Mother's Day is the presentation of a rose to each visiting mother, a ceremony performed by Mortar Board.

The new members are announced at a traditional ceremony at sunset on Presidents Point by the dean of women who presents each woman with a rose as her name is announced.

Kendrie Produces Two Music Books

Announcement is made of two text-books which have recently been written by Prof. Frank E. Kendrie, conductor of the university orchestra.

SHOULD "HELL WEEK" BE ABOLISHED?

By W. K. FELLOWS

Not much longer will it be a common sight for residents of Iowa City to see a lonely fraternity pledge sinking along the road to the cemetery during the wee small hours of the morning in search of the black angel. Black cats can look forward to prowling about at night without falling prey to a freshman neophyte sent out by fraternity actives in quest of a live feline.

This year will not see the complete abolishment of hell week upon the Iowa campus, nor will next year, or even possibly the year after that, but, however, the day of the paddle together with a great amount of horseplay is passing at Iowa. A new type of probation week is at hand.

Dean Rieow Favorable Dean Robert E. Rieow, in an interview, very aptly gives his viewpoint in regard to fraternity probation week on the local campus.

It is interesting to note the attitude of the various fraternity groups as to hell week. Statements issued by the fraternity presidents show a wide difference of opinion, but the general trend is, without a doubt, towards a greatly modified probation period.

Take Out Horse Play Gordon Siefkin, LI of Rolfe, says, "The general attitude of the Sigma Nu house is toward taking the horseplay out of hell week and the substitution in its place of an education, teaching the pledge the traditions and ideals of the fraternity and preparing him for initiation."

Will Modify Probation Herbert Killian, C4 of Cedar Rapids, president of Beta Theta Pi, says, "Since probation is the means of instilling class unity into a fraternity, it is all right if not carried to extremes. However, we modified our hell week last year and will continue that policy again this year."

Hartzell Spence, J4 of Mason City, president of Phi Kappa Psi, declares, "Since probation is the means of instilling class unity into a fraternity, it is all right if not carried to extremes. However, we modified our hell week last year and will continue that policy again this year."

Chaperons for Sororities Play Important Part in Life of Women Students at Iowa

House Mothers for Women's Greek Letter Groups Aid Chapters in Many Ways; Usually Members of Sororities

A great deal has been written about the leaders of the younger generation, the professors and instructors on the Iowa campus. They form an important part of the students' college life. But there is another essential which has seldom received any publicity, and that is essential to every sorority woman's life—the house mother.

Although few of the house mothers are members of the sororities which they chaperon, most of them belong to other sororities and have taken part in various women's clubs for many years.

Mrs. Mae Large, Kappa Kappa Gamma chaperone, is a member of both P. E. O. and D. A. R. Her home was formerly in Sioux City where her late husband was a prominent banker. Her son was a Beta Theta Pi at this university.

Mrs. Vera Marfan of the Alpha Delta Pi house is a Delta Gamma alumna. Her home was formerly in Farmington.

Mrs. Mildred Giffen, chaperon of the Delta Delta Delta sorority calls it, Dodge her home. She is general manager and financial advisor for the women at the Tri Delta house.

Mrs. Maye S. Stump chaperons the women of the Delta Gamma house and advises them financially. The Delta Zeta chaperon is a newcomer to the campus and has been more prominent than any other.

Mrs. Lynne Crabee of Burlington chaperons the local chapter of Gamma Phi Beta. She is a P. E. O. The Kappa Alpha Theta house, Mrs. Roscoe Mitchell of Washington, D. C., belongs to the D. A. R. and to the Society of the Mayflower. Her husband was formerly a political writer of some promi-

Fraternity Building Keeps Step With General Expansion Program

OLD CAPITOL FORMS CENTER FOR GROWING CAMPUS

Here are two views of Old Capitol, one taken from the west at night showing the spotlights playing on the historic old building, and the other from the east. Old Capitol has become the administration building of the university, housing the president's offices, headquarters for the dean of men and dean of women, and the alumni office.

Groups Spend One Million in New Houses

Building This Summer Expands New Center of West Side

Keeping step with the general expansion program which the University of Iowa has been carrying out, 10 fraternities and two sororities have built new houses this summer. The large addition to the fraternal buildings of the campus comes as a concentrated spurt of construction following other new houses of recent years.

More than 1,000,000 dollars have been expended for new fraternity and sorority houses on the Iowa campus during the last three years, until practically every national fraternity is now housed in a new building.

The improvements this year were concentrated mostly on the west side of Iowa river in a site almost equidistant from the new medical building and university hospital, the west, and the older campus buildings east of the river.

This is in keeping with the general trend of the university expansion, which has caused an entirely new west campus to be built up in less than 10 years.

Under a new regulation adopted by the committee on social and housing regulations of the university, all women who are members of sororities are required to live at the house of their respective group. The rule applies in all cases except for those students who are living with their parents.

Sorority Women Must Live in Dorms or Chapter House, Social Committee Declares

Reorganized Tenets Permit Guests at Sororities Until 12:30 a.m.; Chapter Houses Open in Summer Must be Supervised by Chaperon

Under a new regulation adopted by the committee on social and housing regulations of the university, all women who are members of sororities are required to live at the house of their respective group. The rule applies in all cases except for those students who are living with their parents.

Freshman women who have signed up for rooms at one of the dormitories and later become pledges of sororities must live in the dormitory for the remainder of the year, moving to their sorority houses when they return to school the following year.

Formerly women students, whether members of groups or not, were allowed to live at approved rooming houses. The committee felt that these women were not getting the advantages nor sharing equally the responsibilities of group life with those members who lived at houses.

Another new regulation which applies to sorority houses, as well as to rooming houses, is the change in the hour for closing houses to visitors on Friday and Saturday nights. Formerly no visitors were allowed in the houses after 11 p.m. on those days, but women who were attending parties were permitted to stay out until 12:30. Thus a woman student who was not attending a party could entertain a caller only until 11 p.m. The rule was changed so that women, not at an approved party, must be in their houses by 11 p.m. but may entertain callers there until 12:30.

Several regulations regarding housing rules in sorority and fraternity houses have been compiled by the committee. Among them is the ruling that no organization shall permit any person not a registered student to live at the house controlled by the organization unless permission is given by the committee on social organizations and affairs.

This committee is composed of faculty members appointed by President Walter A. Jessup and an advisory committee of students chosen by the student body. The above ruling does not apply during the summer months.

All sororities are required to have house mothers approved by Dean Burge and fraternities are urged to do so. No house shall remain open during the summer months without permission, and if open must be supervised by responsible persons approved by the dean of men or women. If it is not open the house shall not be accessible for use by any members or others excepting by permission from either dean.

Zones have been established defining the approved location of sorority and fraternity houses. Any group planning a change of residence must first consult with the chairman of the committee on social organizations and affairs.

Interfraternity Sports Twin of Rush Week in Popularity

Twin brothers—well might you term interfraternity athletic competition and rush week that. Both are adherent to Iowa fraternal activities. Both share an equal enthusiasm from the brothers out there.

As if to herald that splendid record, the first event, the annual interfraternity cross-country run, saw an increased entry list of 450 fraternity actives and pledges representing a total of 21 organizations. This mark greatly overshadowed the already topheavy record of 325 established the year preceding.

Groups Spend One Million in New Houses

Students' Scholastic Endeavor Rewarded by Honor Societies

Eighteen honor societies on the Iowa campus reward the hard-working student. The 18 societies are divided into 10 different branches of study.

A. F. I. Names Active Junior Men Annually

Senior Honor Society, "All for Iowa," Lists 12

Fourteen years ago, in the late spring of 1915, the men's senior honorary society of the University of Iowa known on the campus as A. F. I., was organized. Scimitar and Fez, the former men's honorary society was discontinued during the preceding year because it had failed to live up to the ideals that should characterize an organization of representative Iowa men.

The founder of the new organization was Ralph Turner of the class of 1916. Turner, with the advice and guidance of Professor Foster, selected four classmates to serve as a nucleus for the new society, and these four men together with Turner chose seven additional members of their class to constitute the charter group of A. F. I. A written constitution was then adopted, an emblem or key chosen, and certain policies with regard to the future conduct of the group established.

Since its beginning, membership in A. F. I. has been looked upon by the University of Iowa as probably the highest honor it could accord to its outstanding men. Every spring 12 juniors are selected to the organization by the 12 outgoing members of the present year. There are no fixed rules determining which 12 men shall be chosen, and probably the changing of standards, the constant fluctuation in the value and number of activities, which the passing of years brings to a campus makes such rulings impracticable.

Tradition, however, has established certain qualifications for membership, based on four general considerations. First and probably the most essential is scholarship. It is the policy of the voters to consider no more than two candidates whose averages are below two point. The other considerations are: extra-curricular activities, moral standards, and popularity.

It is up to the judgment of the voters as to which activities they shall consider most important. It is also a matter of their judgment as to what constitutes high moral standards and popularity, but they are urged to consult with professors and friends of the candidate in order to determine those factors as accurately as possible. The aim is to achieve a well balanced and representative personnel.

100 Nominations Nominations for A. F. I. begin soon after the opening of the second semester each year. To insure against oversight of likely material, every men's organization on the campus is called upon to submit the names and records of every junior whom they think worthy of consideration. Professors and friends of the university are asked to submit names also in order that possible candidates may not be overlooked.

Any man who is to be graduated the following year, from any college or school, professional or otherwise, in the university, is eligible for nomination. The list is not considered complete until it contains at least 100 names.

In planning the system of balloting that follows this nomination period, the charter members took every precaution to prevent two or three men from helping a friend to membership in defiance of the majority.

Duties General A. F. I. has no fixed duties. Its activity as a body is guided solely by tradition. It serves to bring together as often as possible the most active men on the campus, to make them better acquainted with each other and with the problems of the entire student body; it purposes to

classmen would not trade their probation experience for any substitute. However, it is true that many of the more severe practices might be abolished with the result that probation might be made more satisfactory and less fatiguing.

Bayley Webber, A3 of Ottumwa, speaking for Delta Tau Delta, says, "Delta Tau Delta as a national group has done away with probation. We try to encourage our pledges by friendliness rather than by use of the paddle."

To Keep It Mild "Sigma Pi last year had a milder hell week than ever before and the sentiment now is to keep it that way," says Leonard Petersen, A3 of Audubon, their president.

Clar Knox, C4 of Sigourney, president of Delta Sigma Pi, says, "I think a period of probation is needed to test a pledge as to his loyalty, integrity, courage, and those characteristics which belong to a real fraternity man. I do not favor physical punishment."

Melvin L. Baker, A4 of What Cheer, head of Alpha Sigma Phi, declares, "Although we do not carry out a stiff probation, I favor it because it brings out those good or bad qualities in a man."

Sorority Women Must Live in Dorms or Chapter House, Social Committee Declares

Reorganized Tenets Permit Guests at Sororities Until 12:30 a.m.; Chapter Houses Open in Summer Must be Supervised by Chaperon

Under a new regulation adopted by the committee on social and housing regulations of the university, all women who are members of sororities are required to live at the house of their respective group. The rule applies in all cases except for those students who are living with their parents.

Freshman women who have signed up for rooms at one of the dormitories and later become pledges of sororities must live in the dormitory for the remainder of the year, moving to their sorority houses when they return to school the following year.

Formerly women students, whether members of groups or not, were allowed to live at approved rooming houses. The committee felt that these women were not getting the advantages nor sharing equally the responsibilities of group life with those members who lived at houses.

Another new regulation which applies to sorority houses, as well as to rooming houses, is the change in the hour for closing houses to visitors on Friday and Saturday nights. Delta Chi Field Secretary Discusses Faults, Substitutes for "Hell Week"

East Leads in Stand Against Rough Hazing

Paddling, Roughhouse Gradually Banned by Chapters

By ALBERT S. TOUSLEY
(Editor, The Delta Chi Quarterly; Field Secretary of Delta Chi Fraternity.)

The corner saloon, the five cent street car fare, and the polite young lady who said "Thank you" when you gave her your seat in a train or held a door open for her—all of these have disappeared.

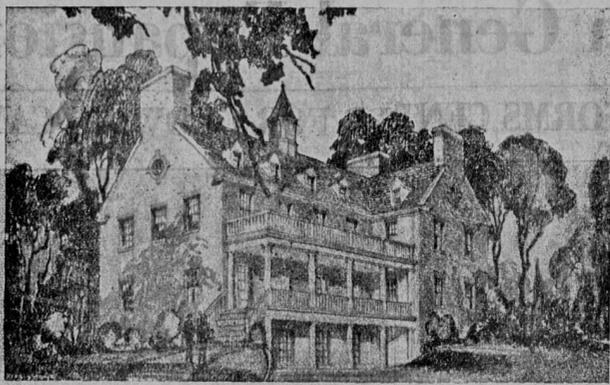

Some of the developments in this ever-changing world are pleasant to observe, some of them we consider an infringement of our personal liberty, and others we sigh over as being just "too bad."

In the fraternity world two of the greatest movements ever to come into being—the alumni finance control plan of chapter financing and the tutorial advisor program—sprang out of the middle west, and have spread through the country. The alumni finance control plan, has been adopted by chapters at the University of Iowa and at many other mid-western schools. Gradually it is taking root all over the country. The plan provides that a chapter shall operate on a budget, under a sliding scale which shall provide for a house bill based upon the number of persons in the chapter, on a strictly cash basis, under the supervision of an alumni board. The tutorial advisor is a faculty member, preferably not a member of the fraternity to which he is advisor, who lives in the chapter house and tutors the members of the chapter, helps the freshman especially to learn to study, and generally tends to "pipe down" and "brush up" those who need older guidance and advice. He is not in any way a policeman or a spy but an older counselor and guide.

Roughhouse Initiation
But we must give to the east the credit for taking the first stand against rough-house initiations, and making the first progress toward the abolition of that most most condemned and outworn of all college traditions—Hell Week.

Although at first there was no legislation on the part of a number of eastern institutions, the practice of walloping a pledge with a board in order to make a good fraternity brother of him began to make headway immediately after the World war. Probably the returning war

DELTA SIGS TO LIVE HERE

This is Brandywine hall at 108 River street, the new home of Delta Sigma Pi, in the heart of the new fraternity district on the west side, about equidistant from the older buildings on the east campus, and the new medical buildings, hospital, and other new buildings on the newer campus. It is typical of early colonial architecture as found in the state of Virginia. The outside walls are of a colonial red brick laid up in a Flemish bond.

veterans who saw action in the front line trenches realized that brutality was useless, that it failed to produce desired results, and that there were better ways of improving the world than by physical force.

Gradually the idea took hold. Older men who had been through the mill, and a few of whom always had opposed the practice of lambasting a pledge in one portion of his anatomy in the hope of being able to instill love, fear, brains, humility, or whatever was desired, these men joined the cause.

Within a few years enough of the alumni were in favor of abolishing Hell Week to make it possible for a few staunch souls among the undergraduates to brave the wrath of their classmates and come out flatfooted for abolition of the vicious practice.

A generation ago a man who advocated such a "sissy" program would have been tarred and feathered by the general run of Greek letter men in the institution, or he would have been expelled from his own fraternity, probably "for conduct unbecoming to a gentleman."

No Consideration
In Germany, even today, no "true man" refuses to take part in the duels which are so popular among college students. In our more civilized United States we are even less sporting—for one person has no weapon and the game is to see how much he can take from a number of his brothers-to-be without cringing, fainting, becoming ill, or displaying the least show of hatred or

bitterness.
That he loses sleep, invariably decreases in efficiency during hell week and for a period after initiation, and at times even becomes ill, is of little importance to the men of the chapter. The glorious thing in that he endures physical torture and helps provide kindling for the house by presenting himself to his chapter for instructions in "How to Be a Man" so often that many barrels are used up or that hickory paddles are split by the invigorating contacts.

The time is ripe for the abolition of Hell Week, and with it the senseless practice of useless paddling. The movement for the abolition of Hell Week is gaining. In most of our Eastern institutions already, hazing and paddling is looked down upon as barbaric, symbolic of another period in college life, "collegiate" in its worst sense, and above all things, unnecessary and unfraternal. Probably not one institution in the East has rules specifically covering the matter. Of course, there are provisions made by the institutions all over the country that rough house initiation must be confined to the premises of the fraternity. Beyond that there is little regulation.

Two Abolish Hell Week
Nevertheless paddling and rough housing are passe, they just aren't done. In many parts of the land, and in Canada. During the past year two of our great Middle Western institutions abolished all rough-house

initiation—the University of Nebraska and the University of Indiana. Action in both cases came from the Interfraternity council. Texas also had rough initiation abolished, following the accidental electrocution of a neophyte there.

This summer, two national fraternities unanimously voted to abolish Hell Week and all rough-house practices in connection with initiation. On Aug. 29 the Delta Chi fraternity, meeting in Colorado, voted out this antiquated college practice, and the next day, meeting in the East, with no word from Delta Chi, the Delta Tau Delta fraternity took the same step.

Without a doubt these two national fraternities, influencing as they will, nearly 30,000 undergraduates and alumni of their own orders, have officially started a snowball rolling—one that will gain in size and momentum with surprising speed.

The Interfraternity conference, which meets every year in New York city, and which has no power to legislate, but has a tremendous influence through its right to suggest, has been opposed to Hell Week for many years. Probably never a year since its inception in 1909 has there failed to be a mention of some kind against hazing.

Resolution Adopted
At the meeting of the Interfrat-

Delta Sigma Pi Considers Lot When Building

Commerce Fraternity House Faces Campus

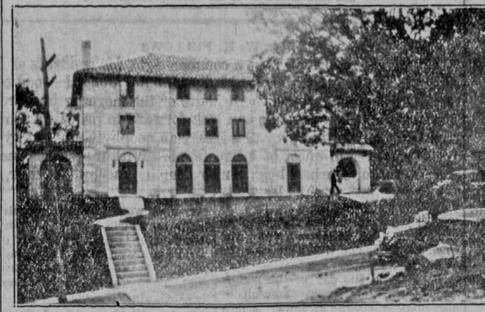

In selecting the type of architecture best suited to the needs of Epsilon chapter of Delta Sigma Pi, International commerce fraternity, the following considerations were kept uppermost in mind: it must be a type especially adapted to the lot which had been chosen as the site; it must be especially appropriate for a man's home; it must have long been recognized as good architecture.

As a result the new Delta Sigma Pi fraternity house is patterned after the early American inns, particularly Brandywine hall, where George Washington is said to have spent a winter. This type of structure is known as Pennsylvania Dutch Colonial.

View Over River
The house presents an imposing appearance when viewed from River street, the main east-west thoroughfare of Manville heights. The distinctive red brick stands out prominently, as does the long, five-columned, two-story porch. The porch, parallel to the living room, is made of heavy wood and is painted white. The upper porch gives opportunity to capitalize the river view to the east and main campus to the south east, while the lower porch provides a sheltered place to loaf after meals. The characteristic cupola of this type of house provides an interesting sight. The top of the cupola is covered with dull copper, forming a pleasing contrast with the slate roof. The symmetry of the various parts of the building, the well balanced chimneys, and the 24 pane windows are other points of interest as viewed from the exterior.

Dining Room in Basement
The basement or ground floor contains the dining room, kitchen with serving room, vegetable store-room, supplies room, rooms for cook and maid, trunk storage, furnace and coal rooms, and the chapter room. The large dining room is one of the beauty spots of the house. Four double French doors facing the east open out onto the lower porch, and because of the peculiar contour of the hill in this direction, the room is enabled to be unusually well-lighted. A fireplace is at the south end of the room, flanked on either side by Dutch ovens. The lighting fixtures carry out effectively the colonial idea in

ALPHA SIGS MOVE INTO NEW HOME

This photograph shows the new home of Alpha Sigma Phi on River street in the new fraternity section which was increased in size this summer by the construction of seven new houses. A colored title roof is the feature of this house. The lawn has been neatly terraced and sodded and is a fine addition to the campus.

Registration Totals 150,000 in 74 Years

More than 150,000 students have enrolled at the University of Iowa since it was first founded 74 years ago. Though the number of men and women attending the university has steadily increased each fall, the yearly average totals more than 2,940. The records for the year 1928-29 showed 9,655.

that they resemble kerosene lamp globes.
On the second floor are the living room, card room, library, large hall, and the house mother's room. The library contains shelves of books and niches filled with numerous scholastic and athletic trophies. The card room is unique in that it is roughly finished and paneled from the floor to the ceiling. The rooms on this floor are so arranged that the combine floor space provides adequate room for dancing.

The two upper floors are devoted wholly to student rooms and dormitories. Twenty men are accommodated on the third floor while 18 are living on the top story.

The Stickley furniture selected is appropriate to the period represented by the exterior of the building. Each piece of this furniture is a replica of some piece used in colonial days. The furniture is substantial and comfortable.

Virtually the entire credit for the planning and supervision of the building of the house must go to the Delta Sigma Pi faculty members, namely: Professors E. W. Hills, W. J. Burney, G. D. Haskell, and Dean C. A. Phillips.

Alpha Sigma Phi Home on Italian Plan

Brick, Limestone Used for New House on West Side

As one approaches fraternity hill, River street, one of the first new houses is that of Alpha Sigma Phi fraternity, built to conform with the Italian villa Brenta. The multi-colored roof of red, blue, and yellow, sets the house off to great advantage.

It is 56 feet by 72 feet and is three stories high. It is built of buff colored brick and Bedford limestone. The wrought iron grills and balconies together with the Italian arches on either end of the house bring out the style of the house which it represents.

There are two entrances and three subsidiary doors on the front. The two main doors are trimmed with cut stone. The three smaller doors are trimmed with red and blue mosaic to harmonize with the color of the roof.

The entire first floor is finished with buff textured plaster and walnut woodwork. Electrical fixtures are of wrought iron and bronze with flame bulbs augmented by bridge lamps and torchieres furnish the light for the first floor.

The lounge with the fraternity crest over the huge fireplace is furnished with red and green upholstered furniture and heavy red drapes hung from wrought iron fixtures and offers a cozy place to spend the few spare moments.
Cueux cmfwyp

The living room is furnished in dark colored plush and walnut chairs and davenport. Walnut hutch cabinets and tables also occupy their position in the room. When these two rooms are cleared for parties and other social functions there is a floor space of more than 250 square feet.

Upon entering the dining room one gets the impression of entering a hunting lodge. The dining room with its walnut finished furniture is built to accommodate 46. The chapter room as well as the kitchen which has every modern convenience that a cook can enjoy is also in the basement. The cook's and maid's quarters, the furnace room, and the trunk storage are also on this floor.

The second and third floors are devoted to study rooms and dormitories. Each of these rooms will accommodate two members and are large enough for three. There are 17 of these study rooms. The dormitory system is used and is located on the third floor. Some of the features of the dorm are aisle lights that are kept lighted all night, but are so arranged so not to bother those asleep.

Total costs of the 12 new fraternity and sorority houses being constructed this year vary, often depending upon the kind of furnishings, special features, and detailed work in landscaping. Building permits totaling more than \$575,000 have been issued for the new homes, but the total costs of all the houses would more closely approach the \$750,000 mark, contracting officials estimate.
The building permits include only the exterior of the homes, excluding the expensive furniture, fixtures, and equipment installed in many of the houses. Work on many of the buildings was not started before May, yet all but one of the 12 are at present occupied.
Amounts for exterior costs of the individual houses as recorded by City Inspector C. A. Kutcher are:
Theta Xi, \$60,000; Delta Chi, \$50,000; Alpha Sigma Phi, \$50,000; Alpha Xi Delta, \$50,000; Delta Upsilon, \$40,000.
Sigma Kappa, \$45,000; Alpha Kappa Kappa, \$45,000; Sigma Phi Epsilon, \$40,000; Beta Theta Pi, \$45,000; Phi Kappa Sigma, \$50,000; Phi Epsilon Pi, \$50,000.

No Stronger Than The STEEL—

Berger Joists were used in the new homes of:
Alpha Sigma Phi, Delta Upsilon, Delta Chi, Phi Kappa Sigma, Sigma Phi Epsilon, Beta Theta Pi, Delta Sigma Pi

No Building Is Stronger Than The Steel Used In Its Construction.
Only The Highest Quality Steel JOISTS Were Furnished By This Company In Its Part Of The Construction Of Iowa's New Fraternities.

Chicago - Illinois

Sig Ep House Built on Bluff Above River

Medieval Castle Looks Down Over Iowa River Valley

A medieval castle-looking down on the Iowa river valley from a high bluff is the Sigma Phi Epsilon house on N. Dubuque street, which will be ready for occupancy soon. Two grey limestone turrets bespeak the security and comfort to be found within.

A heavy oak door opens beneath one of the turrets to the main floor. A small reception room leads through a hall to two guest rooms with adjoining bath, and gives access also to the first two living rooms or lounges. These two rooms are connected by two arched double doorways. A double fireplace centered in the partition between the two rooms is equally accessible to each.

Rough-hewn beams support the ceiling of the main floor. There are two large chandeliers in each of the living rooms, and also several side brackets. Over the fireplace is a white seal of the university.

Many windows have been created in the house to take advantage of the scenic location. Windows on the west side of the house look out on the concrete porch which surmounts the hill. Trees on the lot have been left in place as much as possible to add to the beauty of the landscape. At the east end of the second room, an open stairway leads to the dining room. Chief interest in this room lies in the wide view of the river and N. Dubuque street gained from its windows. Built at intervals on the walls of the room are plaques and gargoyles.

The dining room leads to a spacious chapter room and on the east to the pantry and kitchen. A stairway to the second basement in which is located the heating equipment, is located here. Two rooms for cook's quarters and a store room comprise the remainder of the main basement, besides a back stair to the main floor. The two upper floors are divided into 16 study rooms. Two dormitories are located on the top floor. There is a bathroom on each of these floors.

You Just Know They're "Fowler" Fixtures

All kinds of lighting fixtures, but beauty and style in every one.

These homes have been equipped with Fowler fixtures throughout:

- Theta Xi
- Pi Beta Phi
- Phi Gamma Delta
- Gamma Phi Beta
- Phi Rho Sigma
- Sigma Chi
- Sigma Alpha Epsilon

SIGMA PHI EPSILON BUILDS NEW HOME

This is the new home of Sigma Phi Epsilon, which will be completed soon as another addition to the famous fraternity row of N. Dubuque street. It is of white limestone and makes an imposing home for the Sig Eps at Iowa.

Greek Societies Send Members to Conventions

Representatives of Local Chapters Make Reports

Many of the fraternities and sororities on the campus who sent representatives to their respective national conventions this summer, are beginning the year with new enthusiasm. Many reports have been brought back from the different conventions of the new and higher goals set by the different organizations.

Those representing the University of Iowa chapters are as follows: Wilbur Ellis, G of Aberdeen, S. D., represented Acadia at Ithaca, N. Y.; E. W. Murphy, C4 of Guthrie Center, was representative for Alpha Kappa Psi at Denver, Col.; Dan Goodykantz, L3 of Boone, represented Alpha Tau Omega at Los Angeles, Cal.

Howard L. Kellogg, C3 of Charles City, represented Delta Chi at Estes Park, Col.; Albert V. Haas, L2 of Chariton; Harry B. Nelson, L2 of Dayton; Chester C. Schoeneman, C4 of Hawarden; Harold A. Ely, A3 of Des Moines, and Floyd Bussig, A2 of Hawarden, represented the Delta Tau Delta fraternity at Indianapolis, Ind.

Philip S. Wills, C4 of Cedar Rapids, and Warren D. Graves, A4 of Glidden, were representatives to the Delta Upsilon convention at West Baden Spring hotel at West Baden, Ind.; E. Kenneth Hagerman, L3 of Muscatine, and Leslie L. Abbott, L3 of Clinton, represented Gamma Eta

Gamma at the convention at the Radisson Inn at Minneapolis, Minn.

Leonard M. Folkers, M2 of Allison, represented Kappa Sigma at Los Angeles, Cal.; Joe C. Alter, A3 of Davenport; S. T. Bernson, A3 of Newark, N. J., and Maurice Seldman represented the Phi Beta Delta fraternity at Denver, Col.; Charles W. Card, L2 of Burlington, and Thomas Joyce of Keokuk, were representatives from Phi Delta Theta to their convention in Nashville, Tenn.

Wesley Benesh of Cedar Rapids represented Phi Delta Chi at the convention at Louisville, Ky.; Edwin W. Baron, L3 of Sioux City, represented Phi Epsilon Pi at Atlantic City, Ga.; John Falvey, '29 of Albia, and Harry C. Hazen, C3 of Cincinnati, O., represented Phi Kappa at the convention at Cincinnati, O.

Ralph C. Ankeny, C4 of Marshall, Ill., and George T. Bresnahan attended the Phi Kappa Sigma convention in Baltimore, Md.; Robert Bell, M3 of Lone Tree, represented Phi Rho Sigma at Indianapolis, Ind.; Marlin E. Lerch of Davenport represented Sigma Alpha Epsilon at the convention in Miami, Fla.; Erwin F. Stepanek, A2 of Cedar Rapids, represented Sigma Chi at the national convention at Portland, Ore.

Doyle A. Plunkitt, C4 of Frankfort, Ind., was the representative for Phi Gamma Delta at the national convention at Swanton, Mass.

Representatives of the different sororities on Iowa campus who attended national conventions have all returned to Iowa City enthusiastic over new plans and ideas.

The delegates from the different chapters were Betty Paisley, A4 of Farmington, representing Alpha Delta Pi at Blowing Rock, N. C.; Kathleen King, A4 of Boone, representing Delta Zeta at Minneapolis; Anne Bradford, A3 of Davenport,

representing Gamma Phi Beta at Kansas City; Marion Paschal, A3 of Bedford, representing Kappa Alpha Theta at Evanston; Pearl Richards, A3 of Winterset, representing Kappa Delta at Biloxi, Miss.; Lois Thornburg, J4 of Des Moines, representing Pi Beta Phi at Pasadena, Cal.; and Louise Hallenbeck, A4 of Cedar Rapids, representing Phi Mu at Chatham, Cape Cod.

Medics Build New Home on River Street

Handball Court Planned for Storage Room in Basement

Located on the top of a high hill and situated in a quiet, demure section of Iowa City, seven blocks from the university hospital, is the new Alpha Kappa Kappa medical fraternity at 933 River street.

Although the men have moved into the two upper floors, the main floor and the basement are not quite completed. From the west end of the house the Iowa river can be seen and the front of the house looks down upon River street.

The front door opens into the great hall or lounge. At the north end of the hall is a built-in fireplace with varnished oak seats under French windows. The walls on the main floor have a semi-jazz finish and are tinted with ivory.

Full-Oak Beams Directly off the hall is a library. All of the ceilings on the first and basement floors are serviced with oak beams. The beams overhead leak of the old English architecture which is being copied throughout the house. The basement embodies a dining room, the

NEW HOME OF ALPHA KAPPA KAPPA

Members of Alpha Kappa Kappa, medical fraternity, are moving into this new home now. It is ideally located for study, being in a quiet section of the city. It is seven blocks from the new university hospital and medical buildings.

chapter room, a maid's room, a kitchen and a pantry.

The men are also making plans for a handball court in the basement. Part of the storage room will be cleared and another partition made to complete the four-walled court.

Several distinctive features make the house outstanding. A buzzer system, which few fraternities on the campus have, is being installed. Each man will have a ring, and the buzzers will be installed in the phone booths of all

of the floors. This saves shouting for a man who is wanted on the telephone or at the house and thus tends to eliminate much confusion and disturbance.

Use Suite Plan Another feature is the delivery room, opening from the south-side door. This will be used for mail, laundry bags, and as a room for clothes coming and going to the cleaners.

The study rooms, located on second and third, are arranged so as to conserve space and to eliminate

Fraternities Hold Series of Debates for Second Year

The second interfraternity debate series, sponsored by the university debate department, was won last year by Phi Gamma Delta with Howard Schumcher, A3 of Sterling, Ill., and John Morse, A3 of Estherville, composing the team.

Through the elimination method the 18 teams which originally entered the tourney were reduced to Phi Gam and Sigma Alpha Epsilon in the finals.

Debating against the Sig Alph team made up of Laurence M. Jones, A4 of Clear Lake, and Floyd Rebeckly of Clinton, the Phi Gams won the decision on the negative side of the question. Resolved that no man at the University of Iowa shall be eligible for pledging until he shall have made 14 hours of credit.

The suite plan is used throughout. Men from two study rooms share a dormitory. Two men will occupy each study room. Hardwood oak floors are being used in the rooms. This arrangement of dormitories makes a double wall between the rooms.

Members of the building corporation include: Dr. J. D. Boyd, president, Dr. Glenn Blome, treasurer, Dr. Glenn Harrison, I. J. Schultz, C. M. Schmidt and Dr. B. J. Lambert, supervising engineer.

A Monument of Strength--

The Indiana Limestone

Used in the construction of the Delta Chi, Beta Theta Pi, and Sigma Phi Epsilon homes is in itself, a monument to these organizations and the strength of the ideals for which they stand.

I congratulate you, Iowa, on the completion of these beautiful new homes.

William Ingalls

Cut Stone Contractor
BEDFORD, INDIANA

New Theta Xi Home to Open at Early Date

House Will Overlook Iowa River From Greek Row

Overlooking the Iowa river and facing Templin road is the new Theta Xi house which is rapidly nearing completion and will be entirely finished within the next week.

The style of architecture after which the new home is planned is of a French chateau character. The entire house is faced with tan brick and has white stone ornamentations to set off the color of the outside.

Over the front door of the house, carved on white limestone, is the Theta Xi crest and on either side are the Greek letters of the fraternity. The front porch is large enough for just the entrance and to the back of the structure a large lounge porch has been built to carry out the chateau effect.

The feature of the house is its arrangement of study suites, consisting of a study room and bed room for two persons. The house can accommodate 35 men and on each of the two upper stories of the house it is divided into these study suites. On both floors showers and lavatories are placed.

On the ground floor there is a huge lounge room off from which is a music room that resembles an orchestra pit and will be used as such when dancing parties are being held in the house. The floor also has quarters for a house mother, guest room, president's room and the steward's room.

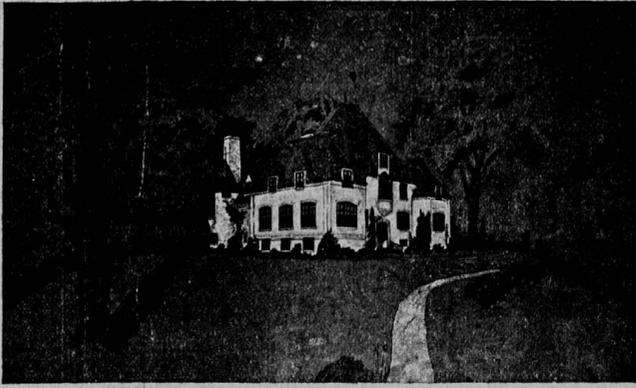

In the basement the dining room, chapter room, maid's quarters, heating system and kitchen are located. The dining room has a large fire-place and will be painted in a light tan color.

The interior of the house will be decorated to correspond with the French style of architecture. The walls in the lounge room are paneled and to the north end of the room is a fire-place. The furnishings will likewise blend in with the interior structure.

The house is the result of careful planning by one of the Theta Xi alumni, who drew up the plans so as to get the best possible conditions for the men living within, and also to have something that is durable and comfortable.

The members of the building association are Walter Schwab of Iowa City, L. J. Nesbit of Mt. Pleasant, Charles Aldrich of Decorah, Alvin G. Keyes of Cedar Rapids, Francis Tomasek of Williamsburg and Sidney Price of Decorah. The latter two are chapter representatives.

THETA XI MEN TO LIVE HERE

This drawing shows a view of the new Theta Xi fraternity house, a new addition to the west side fraternity group. The house was finished and ready for the chapter to occupy this fall when school opened. It has been planned and constructed by alumni of the fraternity.

East Leads in Stand Against Rough Hazing

(CONTINUED, PAGE 4, COLUMN 3)

nity conference at Thanksgiving time last year, by far the most interesting discussion on the two-day program was that by undergraduates on the topic, "Resolved that rough-house initiation should be abolished." The sentiment at that time was overwhelmingly against paddling and all rough initiation. And that sentiment is growing.

Following is a resolution adopted by the Interfraternity conference in 1920, stating a position from which the conference has not stepped down at any time; it reads in part:

"Therefore, be it Resolved: That it is the sense of this conference, that this conference condemn these practices of rough-house initiations, whether fake initiations or part of the real initiations, whether preceding or made a part of the ceremonies, incident to initiation, at any time in any form.

"We consider these practices as silly and dangerous, as opposed to the dignity and ideals of college traditions, and injurious to their good name, and we recommend that all fraternities take steps to eliminate any such practice from their own organization, if the same be indulged in."

Surely, after reading this resolution, there can be no doubt in the minds of anyone what the leading

educators, the prominent students of fraternities, and practically all of the national fraternity officers and delegates, think about Hell Week.

There are so many reasons for the abolition of Hell Week and rough-house practices that it is impossible to hold a really good debate on the subject. There is not one single, solitary reason or excuse that may be advanced for this barbaric practice that cannot be knocked down by two reasons for not continuing it.

"Younger Brothers" Beating a pledge with a paddle until he is so severely bruised that medical aid is necessary (though the percentage of such cases may be small), forcing him to go without sleep and thus causing loss of school work, for no sleepless person can study or listen to class discussions intelligently, requiring him to undergo physical strains that no wise athletic director would permit of his well-trained huskies, demanding that he consume solids or liquids that violently react upon one's system—Can it possibly be that in Twentieth Century America we actually believe that such things are necessary to bring up to our own high standard and position, those poor, guileless freshmen who trust themselves to our fraternities—sold on the idea and ideal that they are to be our younger brothers?

How many times has the argument been used—"We went through it, and it made men of us, and they're going through it, too." Logically, how we must pity the non-fraternity man, the man who attends institutions where there are no fraternities, the man who is, perhaps, because of some physical handicap, unable to go through this

moulding process. These others, of course, cannot possibly be men, because they haven't experienced the same tempering and firing that have made us such superior individuals. And yet, it does seem, as we read through the pages of history, that there have been men who were actually successful in all lines of work—who were not paddled or beaten or bulldozed for a week or longer, by their brothers-to-be.

Work Is Substitute Is it true that personality never enters into the paddling of pledges, or the assignment of tests of courage or strength? Is it true that a man never paddles some pledge he may not care to have in the organization, but who, for one reason or another, he permits to be initiated? Is it true that there is never any pettiness, meanness, vindictiveness, in the laying on of the "board"? No one who knows anything about fraternities in general will pretend to believe "yes."

But if we are seeking to abolish Hell Week, and the old rough-house, parts of which, all must admit, were good fun, what is to take the place of the paddling and other forms of brutality?

Work! And lots of it! Then more work! The author of this article has been in more than 100 fraternities during the past two years. He has never seen a fraternity house too clean, too well kept. He has never seen everything in order. He has never found the yard in a condition that would cause an ejaculation of inspired pleasure. He has seen in only a very few such things as gardens, flower boxes, flower plots, pets, really good landscaping.

Study Rooms Improved He has seen in still fewer instances houses that were complete,

alumni records entirely up to date, magazines belonging to alumni not laying around the house, book cases in good shape, study rooms honestly homelike and genuinely attractive. In too many fraternity houses in this country, above the first floor there is the appearance of a regiment camping out, whether it be in October, February, or June. This usually is because no one has taken time to create a fraternity home, but all have been content with study rooms.

A very little work would remedy any and all of these things—and many others. Yet the upperclassmen for decades have preferred to send their pledges on exhausting hikes. Rather than turning the energies of the neophytes to good use, the older men have sought to waste them, and always so that when the time for initiation came, these freshmen, weary, bleary-eyed, dog-tired, might more fully appreciate the beauties of the ritual and the solemn ceremonies of the organization into which they were to be—if they could stand up long enough—initiated.

There is no need in letting up on

the work at all. There is always plenty to do in every fraternity house, and it is not beneath the dignity of any younger brother or brother-to-be to do his share. There is every reason for keeping the entertainment side of the probationary week. The neophytes ought to be made to sing all manner of songs, old and original. They ought to have to deliver addresses—whether groups moved shortly after learning the upperclassmen listen to them is up to the upperclassmen.

Taught Many Things They ought to have to learn national fraternity and chapter history, university history and traditions, facts about famous alumni of their national and local organizations. They ought to know something about every active and pledge, so that they are really familiar with the members of the organization into which they are to be taken. They ought to pass tests on general information and general intelligence, for too many of our college students know of nothing that is going on beyond their campus walls or domain.

They should be taught obedience

and all of the important points expected of a well-mannered person. There are many of our fraternity men—as well as sorority women—who often fail to show, or are not interested in, good manners. They ought to do all that they can do in the way of work or entertainment of the upperclassmen—so long as those things do not interfere with their studies. Although we often hate to admit it, our chief purpose in attending an institution of higher learning is to expose ourselves to an education—in the hope that we will catch at least a mild case.

The author of this article is one of those who, not very long ago "took it" as a freshman and "gave it" as an upperclassman. He hated it when he "took it" and stood it chiefly because, if Tom Brown could stand it, he could. He "gave it," he knows he did, always to punish some recalcitrant pledge, never because he enjoyed it, or because the others did. And to the men he paddled, he remembers no great reform that ever took place in any one of them because they were vigorously beaten upon "the seat of learning."

initiation has been sounded. The band wagon has begun its parade. There will be those who throw rocks at the band wagon for years—and all the more credit to those who climb aboard early. College administrators themselves will make a grave mistake if they attempt to legislate. A similar error was made with regard to another great "moral experiment," when fair progress was being made by other agencies. The fraternities themselves, and the interfraternity councils of the various campuses of the country, one by one at first, and then more, will see the light and follow it, gladly, of their own accord. They will realize that a new day has dawned in the Greek-letter world, and that along with the new virtues of adequate and sound financing, and wise and creditable scholarship, these early decades of the Twentieth Century will be notable in the fraternity world for the abolition of that archaic, stone-age practice—Hell Week and rough-house initiation.

Women's Pan-Hellenic Council Adopts Set of Sorority Rushing Regulations

All Members, Alumnae Must Obey Rulings

Rushing Captain Plans Activities of Chapter

Through the administration of the women's pan-hellenic council a definite set of rushing rules and penalties have been adopted by the sororities on this campus. These rules are binding on alumnae, active and non-active members, pledges, and rushees.

Rushing procedure at each chapter house is in charge of a rushing captain whose duties include the sending of date slips, filing of returned slips, and general supervision of the rushing parties.

General information is given all rushees at a meeting held at 8 a. m. of the Monday on which rushing opens. At that time the dean of women and the president of pan-hellenic council explain the rushing rules, and answer any questions that may be asked.

Preference Bidding
No rushing may be done at any place other than the chapter house. During the hours of 12-1 p. m. and 5-7 p. m. no sorority woman shall be seen with a rushee except at a preferred party. Rushing ends at 10 p. m. each day.

Other regulations provide that no rushee shall spend a night at a chapter house, that no dates with men shall be arranged for a rushee, and that no favors may be given except at the preferred party.

The preference system of bidding is used and no oral bidding is to be made. Invitations are issued Thursday following the last day of rushing. Sororities hand in a list of the girls whom they wish to bid to the lawyer chosen at the regular pan-hellenic meeting.

Rules on Invitations
The lawyer sends notifications to the rushees who have received bids Thursday at 5 p. m. asking for their preference list. The rushees then hand in their list to the lawyer at the office of the dean of women not later than 9 a. m. Friday.

This year a new practice was inaugurated which provided that no sorority receive its list of pledges until all rushees had first received their letters telling of their bid.

Rules providing for rushing during the summer forbid the mailing of invitations or rushing dates before Aug. 15. No acceptances are made by the rushees before Sept. 1.

Six Parties Given
There is no rushing in Iowa City or its vicinity for two weeks preceding formal rushing and for five days preceding and during the period of formal rushing no sorority girl may meet a rushee at any time.

Spring rushing of Iowa girls is limited to the last semester of their senior year in high school. Regulations for parties provide that rushing expenses shall not exceed \$150 and an itemized account of these shall be handed in to pan-hellenic council at the close of the rushing season.

Each sorority is allowed to give six parties one of which is a preferred party. Further parties take the form of teas and the refreshments are limited to one course of three items.

Penalties for Infractions
Penalties for infraction of the rules are selected by pan-hellenic council according to the seriousness of the offence, from the following group: curtailment of social privileges of the group by prohibiting teas, receptions, parties, dance dinners, or open house, for one or two semesters.

Further curtailment of social privileges by forbidding members and pledges to attend fraternity parties. Restriction of all social privileges for all members and pledges by requiring them to be in the house at a certain early hour, the house to be closed to any men callers after that hour; or by taking away the privilege of giving a preferred party at the next rushing season.

Ensign Plans Full Program

Celebration of the University of Iowa's eighteenth annual Homecoming Oct. 18 and 19 will be accomplished with a program of 12 events, according to announcement of Prof. Forest C. Ensign, chairman of the general committee.

The program, beginning Friday morning and lasting until Saturday evening, is the largest ever scheduled for the affair.

For the edification of the thousands of alumni and other visitors, the committee has planned a diversified schedule of social, intellectual, and athletic events.

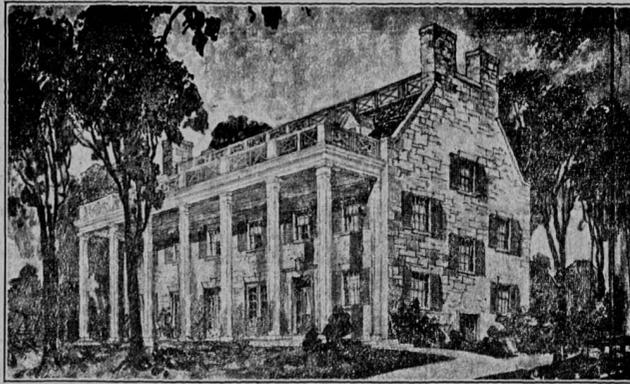

An alumni golf tournament, to be held Friday morning, is the first major event of the festivities. That evening, a mass meeting, with its theme "Beat Illinois," will have speakers chosen from the faculty, alumni, and student bodies.

Immediately after the mass meeting, the all-university party will begin, and the Triangle and University clubs will entertain at their annual receptions.

Among the events of Saturday morning are an open golf tournament, demonstration of athletics and military activities, Illinois-Iowa cross country run, demonstration of women's hockey and archery, lectures by three noted professors, and a band concert.

Feature of the day is the Western conference football game with the University of Illinois, before which the new \$500,000 stadium will be dedicated.

CAPTAIN'S WALK FEATURES D. U. HOUSE

A captain's walk, reaching the entire length of the house between the chimneys on either end is a feature of the new Delta Upsilon house, known as Jefferson Hall, a new addition to the fraternity section west of Iowa river. Wall plugs and other conveniences have been provided for holding parties here, where an excellent view of the entire campus is afforded.

Wanted: Regulars Not Birthday Suit

What should he do Emily Post was silent on the question. A member of the wrestling team after a workout Wednesday evening returned to his locker to find his clothes gone. A diligent search of the locker room failed to disclose them. He inquired at the check room, but in vain. He asked at the equipment room.

"What kind of clothes do you want? Hey, here's a person wanting some street clothes."

"Tell him we don't have any." The night watchman arrived on the scene without any extra clothes, but with an idea. A few minutes later a figure clad in a pair of wrestling trunks, sweat shirt, and thin shoes was seen making envious time down past the Quadrangle towards home.

Shall Hell Week Be Abolished?

(CONTINUED FROM PAGE 1)

"Our hell week this year will be modified in accordance with the suggestions made at interfraternity council. Our national organization stands as being in favor of the complete abolition of hell week," says Ralph Ankeny, C4 of Marseilles, Ill., president of Phi Kappa Sigma.

Alfred Pabst, L3 of Albia, speaking for Delta Chi, says, "We have out our hell week to less than half its former length. Paddling has been abolished almost completely and our pledge tasks during hell week made entirely constructive."

Leo Hoegh, A4 of Elk Horn, states, "Last year at interfraternity council Phi Kappa Rho expressed themselves

as being opposed to hell week. Our attitude has not changed since then."

Abolish the Paddle
Donald Grim, L2 of Zeaaring, declares, "Chi Delta Psi abolished the paddle last year. We now have a very light probation based entirely on the point system."

"I am in favor of a modified probation period lasting only two or three days. Those parts of probation which are injurious to the health should be abolished, but let us keep those parts which are conducive to fun and congeniality."

From the above statements it may be seen that it will be the aim of the great majority of Iowa fraternities to take the hell out of hell week. The Daily Iowan believes in this trend and will look forward to that time when the pledges will be led into the fraternity, with all of its benefits, by courteous and friendly treatment, rather than driven in with the paddle.

Jefferson Hall D. U. Addition to Greek Row

Southern Colonial Type Architecture Used in Structure

The early American architecture of Virginia and the Carolinas form the basis for Jefferson Hall, the new home of Delta Upsilon, recently built on Ellis avenue in the west side fraternity district.

The house is constructed of Indiana white limestone and is three stories high. A porch 12 feet wide and two stories high covers the entire length of the house. From this porch, rise seven square pillars in keeping with the architectural style of the house. Four doors open from the porch into the main lounge.

A unique feature of the home is a "captain's walk" across the top of the house. This is reached by a stairway from the inside.

Two large living rooms, a card room, and a guest room occupy the entire first floor of the building. These rooms are decorated in keeping with the exterior architecture of the house, the wood work being in white enamel, and the walls done in ivory panels. Furnishings in the rooms also are of the same style.

Across the entire north end of the main lounge is an "Inglewood" with a large fireplace and trophy case. The floor of the nook is entirely tiled.

The dining room covers the entire north half of the basement, and has the same general decoration. A chapter room, opening off of the dining room, may be thrown together with it for formal dinners. Another large fireplace is in the dining room. The kitchen, maid's quarters, furnace room, and trunk room also are in the basement.

Both the second and third floors of the house are taken up with study rooms and dormitories. Each floor contains nine study rooms, occupied by two men. Telephone booths, lavatories and showers are

Houses Must Pass Fire Regulations

In accordance with national fire prevention week, all fraternity and sorority houses, as well as business buildings and factories will be inspected by fire officials.

According to Fire Chief Herman Amish, inspection of the houses will begin Monday although national fire prevention week is Oct. 6 to 12.

Chief Amish asserts that with 39 to 40 persons living in each sorority and fraternity house, it is imperative that they should have sufficient fire protection with all possible hazards removed.

Written orders will be brought to bear upon any house which fails to observe protective recommendations.

provided on each floor. Dr. John A. Walters, '24, of Cedar Rapids, was chairman of the committee which supervised the building of the house. Other members of the committee include: Verne T. Bonnett, of Des Moines; Arthur Harris, of Mason City; Dr. Carl T. Ostrom, of Ankeny; Dr. Forrest A. Barnes, of Cherokee; and Louis F. Carroll, of New York City.

break down petty rivalries among small factions and to work for a more unified student body. Each year it lends its assistance to such enterprises as the Blanket Hop, Dad's day program, etc., but its participation in these things is entirely a matter of its own choosing.

A cardinal policy of the organization is the refusal to incur indebtedness. Banquets, dinners, etc., are "dutch treat" affairs.

"All For Iowa," are the words the three letters of the name represent. These letters appear on the face of the key, which is patterned after the Phi Beta Kappa key to a large extent. A picture of Old Capitol appears on the face of the key. On the back of the key are usually engraved the letters S. U. I., the year of the class, and the member's name.

12 Sororities Enter Series of Debates

Upholding the negative side of the question: "Resolved that there shall be no sorority pledging until the sophomore year" the Theta Phi Alpha team won the final debate from Chi Omega in the inter-sorority debate series and was awarded a silver loving cup at a banquet given by Delta Sigma Rho. Twelve sororities competed in the tournament.

The winning team, which previously had annexed victories from Pi Beta Phi and Phi Omega Pi, was made up of Helen Foley, J4 of Delmar, and Margaret M. Anderson, ex-30 of Cedar Rapids. Members of the Chi Omega team were Velma Greenfield, A4 of Iowa City, and Ethel Waterson, A4 of Elgin, Ill.

Phi Kappa Sig Builds \$70,000 Colonial Home

Interior Arrangements Replica of Those in Virginia Manor

James River Hall is the name given the new \$70,000 Phi Kappa Sigma house recently completed at River and Ellis streets in the new west side fraternity addition. It is patterned after the original James River colonial home in Virginia.

The house is colonial style throughout with two end porches and a front porch, the roofs of which are supported by two story pillars. It is 110 feet in length and 36 feet wide.

Has Three Sections
Brick is used in the exterior construction except the front porch background, which is of white plastering, enabling a novel silhouette lighting effect with the pillars at night. The house is three stories high and is arranged in three sections with a basement under the central wing.

The main entrance leads into a reception hall furnished with colonial worm-bored walnut chairs and wall desk. The walls are of cream semi-jazz plastered finished, woodwork is cream color with the exception of the unpolished open stairway and fixtures are hammered brass postern lights.

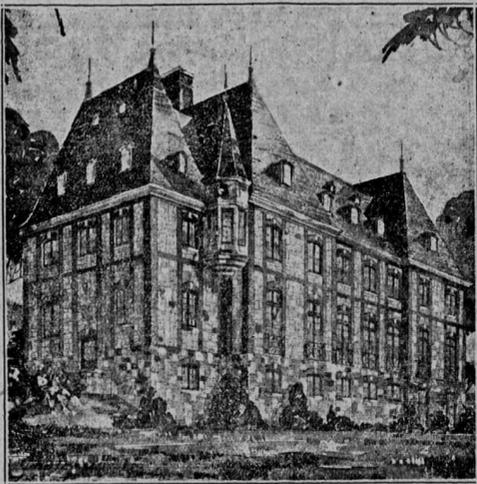

The east wing includes living room and music nook and is finished similar to the reception hall with the addition of hammered brass candelabra fixtures and multi-blended velour chairs and worm-bored chestnut tables and fire bench. Davenport is of brown leather.

Duplicate Manor Wall
The entire west wall of the living room is plain unpolished chestnut, an exact duplication of the original James River hall mantel-side. The fire place is open and centrally situated in the wall. Dutch ovens flank the grates and a colonial cal-dron will hang over the fire. A copy of a sailing ship, similar to the one in the original manor, is placed above the fire place.

A card room juts off the living room and quarters for the house-mother and chapter officers are in the central portion of the home. The dining room carries the same decorative scheme as the other downstairs rooms with the addition of crested wallskin hangings. The kitchen is in the rear of the house, connected to the dining hall by a serving room.

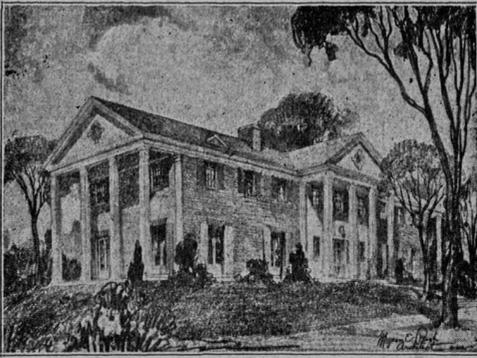

Open House for Parties
French windows open onto terraces from all downstairs rooms. The entire house may be opened for dancing at party times and a built-

THE CHATEAU AT 309 TEMPLIN

The architecture of this new home of Delta Chi is of the French Provincial type. The outside walls are set in soft colored limestone with red brick trim, as used in the "Manoir of Vasouy" near Hanfleure, France.

PHI KAPPA SIGMAS HOME

in boudoir has been arranged for the convenience of women guests.

Landscape by Spring

Green shutters will be added to windows of the house and landscaping with midget pines and terraces will be completed next spring. A rock driveway enters the property from the rear.

The house was constructed by the Phi Kappa Sigma building fund cor-

poration. Members are: faculty, George T. Bresnahan and Prof. A. C. Trowbridge; active chapter, Ralph C. Ankeny, C4 of Marseilles, Ill., and H. Stanley Woodring, J3 of Iowa City; alumni, Otto C. Bauch of Des Moines, Dr. Darrell Marker of Providence, R. A. B. Jensen of Cedar Falls, Ray Yarcho of Des Moines, P. F. Smith of Independence, and Edward Kelly of Emmetsburg.

Delta Chis Use French Manor Style

Window Placing, Peaked Roof Follow French Architecture

Rising four stories above the bluff west of the river, its white stone and red brick mingling colorfully with the forested hills, the new Delta Chi house stands forth as one of the first examples of French architecture in the state.

In design it is done in the formal French manor style following the large chateaus of southern France.

It goes back to the simplest type of French manor house with an almost monastic avoidance of ornaments, its chief charm lying in the peaked roof, the proportions of which are one of France's outstanding contributions to the architecture of the world.

Window Placing Unique

Penetration or window placing is another detail most characteristic of French architecture. The windows of the new Delta Chi house are placed in horizontal strips, one above the other, typical of the French manor, and bonded with even brick quoins running through from floor to floor. This is after the manner of the Fontainebleau.

On the right of the entrance hall an adjoining corridor leads to the drawing room. Straight ahead is the lounge from which the salon and library are revealed through rounded arched doorways. The rugs, drapes, and upholstered furniture are in contrasting colors of mulberry and taupe and the cherry maple chairs and tables are of the early American design.

Walls Cream-Colored

The walls are cream color with a blue glaze. The electric fixtures follow out the French design characteristic throughout the entire structure. Each of the three main rooms has three French doors opening onto small balconies enclosed with iron gratings.

The Greek letters, Delta Chi, form the crest of the large stone faced formal fireplace in the salon. The blaze from the brick fireplace reflects from the built-in trophy and book shelves of the library. Walnut study tables and chiffoniers furnish the 19 study rooms on the second and third floors.

The dining room, kitchen, chapter room, cook's and boiler room are located in the basement. The kitchen is equipped with a modern hotel gas range, electric refrigerator, and other modern appliances. Wash rooms with showers are located on the second and third floors, with the dormitory occupying one half of the top floor. The advisor's room and office are on the main floor.
