## CONGRESS BACKS HOOVER PROGRAM

### Demands for Cash Lower With Volume

### Federal Reserve Banks Find Debts Less Since 1917

WASHINGTON, Dec. 18 (AP)—Member banks of the federal reserve system entered the Christmas season with a smaller volume of indebtedness to the reserve banks than at any time since 1917.

The federal reserve board made this announcement today in its monthly review and said the system was in an exceptionally strong position to meet the demand.

Less Bank Credit Asked  
It reported a decrease in demand for reserve bank credit had reflected a slack demand for currency due in part to the decrease in payroll disbursements by factories, and to the continued decline in commodity prices.

"When the two sources of reserve bank funds are combined it appears that this year the increase during the autumn was \$96,000,000 as compared with \$232,000,000 on the 7 year average," the report said. "This diminution in the growth is accounted for in part by the decrease in the seasonal demand for currency, which was only half as large this year as on the average for the preceding years, and in smaller part by a decrease of about \$60,000,000 in the growth of member bank reserve balances."

Money Rates Easy  
The board said during November money rates showed a further easing tendency accompanied by a further decrease in demand for credit from the security market. From September 24 to November 26, total loans and investments of member banks increased by \$84,000,000.

### Retired Dean Wins Election as Democrat

NEW HAVEN, Conn., Dec. 18 (AP)—Because he was 63 years old they retired Professor Wilbur L. Cross, dean of the graduate school at Yale university, last June.

That left him with nothing much to do but edit the Yale Review and carry on his work as one of America's foremost literary critics.

So he went out and got himself elected governor of Connecticut. And now he is satisfied that his time will be just nicely filled again.

Believes in Two Parties  
He had no particular desire to be governor. He had never run for office before. But Professor Cross believes in the two party system, and he is a Democrat.

"I thought that even in Connecticut we Democrats ought at least to constitute a strong minority," he said today. "I decided the party needed building up. So I said I'd run if they'd let me make a few changes in the organization. The first thing I did was to fire the state chairman."

The Democrats are going to have that "strong minority" in Connecticut these coming two years. It will consist of Governor Wilbur Lucius Cross, all by himself. He and Gene Tunney, whom he has appointed a major on his staff, will be about the only Democrats in Hartford.

### YESTERDAY In Washington

By The Associated Press  
Senate and house conferees agree on \$45,000,000 drought relief bill. House rejected senate \$50,000,000 drought relief bill and approved \$30,000,000.

### In Spanish Revolt

Alcala Zamora, member of the Spanish cabinet in 1923, was proclaimed "president of the republic" by Madrid rebels. He is under arrest.

### 36 Killed in Spanish War Last 3 Days

### Government Restores Order After Last Rebellion

MADRID, Dec. 18 (AP)—The strong hand of the Spanish government tonight was gradually restoring order throughout the country, torn by civil strife after Monday's abortive revolt.

In Madrid itself it had succeeded completely and the city was going about its affairs as if there had been no such incident as the brief rising at Cuatro Vientos airfield when rebel leaders proclaimed the end of the monarchy and the establishment of a republic.

Cities Are Again Normal  
This was also largely true in the big provincial centers where those general strikes which were proclaimed Tuesday and yesterday had either ended or were petering out.

There was no report of fighting anywhere in Spain during the day. With the return to normal life the country began counting casualties of the disturbances of the last three days and found that 36 persons had died and 42 had been wounded.

Many Troops on Duty  
Although immediate danger from strikes and civil unrest appeared tonight to have ended heavy detachments of troops, including companies of the Spanish foreign legion, were on duty in every point where trouble might be expected to flare up again.

The jails were full of persons arrested in connection with the recent agitations and the government made it plain that any future disturbances would be dealt with rapidly and severely.

### Well Known Writer Dies

### Mrs. M. H. McNeely Struck by Auto in Dubuque

DUBUQUE, Dec. 18 (AP)—Mrs. Marion Hurd McNeely, 53, widely known as a writer of stories for children, died this afternoon a few minutes after being struck by an automobile. Her husband, Lee McNeely, clerk of the United States district court for the northern district of Iowa, saw the accident as he alighted from a bus.

Oran Conlon, son of a building contractor here, was driving the car which struck Mrs. McNeely. She started to cross the street after stepping from another bus near her home. He said slippery streets, caused by a snow which fell all day, made it difficult for him to stop.

An investigation was ordered by the coroner. Mr. McNeely did not at first recognize the woman as his wife. He rushed to her side after seeing her struck down and immediately commanded an automobile to rush her to a hospital. She died within a few minutes.

### Federal Court Hears Appeal on Test Case

### Judge Clark Quashes William Sprague Indictment

NEWARK, N. J., Dec. 18 (AP)—The federal government today appealed to the United States supreme court from Judge William Clark's decision finding the eighteenth amendment invalid.

Philip Forman, the federal district attorney who prosecuted the case of the United States vs. William Sprague and William Howey—the case in which Federal Judge Clark rendered his decision—made the appeal today.

During the proceedings Judge Clark slanted two orders. One, at the request of Sprague's counsel, quashed the indictment against Sprague who was charged with illegal transportation of beer. The other, at the request of the district attorney, provided for the appeal going directly to the supreme court without the usual intermediate stop at the circuit court of appeals.

Forman then attached to the papers filed with the district court clerk, his preliminary assignment of points on which his appeal will be based. The papers then were forwarded to the clerk of the United States supreme court at Washington.

The paper, headed "Assignment of Errors," read: "1.—The court erred in allowing the motion of the defendant in the above case. (Motion for quashing the indictment.)

"2.—The court erred in directing the indictment in the case to be quashed.

"3.—The court erred in ruling the eighteenth amendment to the constitution of the United States is invalid and that the national prohibition act, enacted pursuant thereto is therefore unconstitutional and void."

### Volcano Jars Java; Fifteen Persons Die

BATAVIA, Java, Dec. 18 (AP)—Fifteen persons died today in the sudden and violent eruption of a volcano at Merapi, central Java, which has been active for two weeks.

Many surrounding villages were evacuated as a heavy stream of lava rolled down alarmingly and slowly filled the neighboring valleys.

The eruption was accompanied by loud rumblings, which are increasing, but it was believed that the rain of ashes had subsided.

The victims were engulfed by a lava stream 200 yards wide and 70 feet high which surprised them as they were working near a village five miles from the crater. The fiery wall, containing millions of tons of red hot liquid, advanced so rapidly they were unable to escape after they saw it.

Tonight the volcano presented a terrifying sight. It was covered by a huge black cloud which was stabbed from time to time by vivid flashes of lightning.

As a result of the lava flow a large tract of fertile land was burned to a desert. As it spread the geological observation post was abandoned and the populations of unevacuated villages were warned to prepare to evacuate.

Merapi, a Javan volcano in the Kedu district, was in violent eruption once before, Sept. 14-17, 1849. Eruptions are nothing new to Java, for the island contains within its small area as many as 40 great volcanic mountains, some of them dormant and extinct. The most famous is Papandaya Yang, which erupted with great suddenness and violence in 1772.

### Three Thugs Loot Sheffield National Bank

### First Robbery in Four Weeks Nets \$4,000 in North Iowa

SHEFFIELD, Dec. 18 (AP)—After a lull of more than four weeks, bank bandits again swung into action in Iowa today, looting the First National bank of Sheffield of between \$4,000 and \$5,500.

Three men drove up to the bank at 10 a. m. and, while one remained outside in an auto, the other two went inside, forced the employees of the bank to lie on the floor, and took all available cash.

In the bank were J. G. Wolf, president; K. H. Weltner, vice president, and Melvin Hawke, teller. George M. Stoll, a director, entered the bank during the robbery and was forced to join his fellow officers on the floor.

Wolf Opens Safe  
The bandits took all the money from the cages and then made Mr. Wolf open the safe, where they obtained between \$2,000 and \$3,000. They demanded any liberty bonds or cash that they had overlooked, but were satisfied when Wolf told them they had all the money.

They returned to their car and sped northward on U. S. highway 65 toward Mason City, 20 miles away. Sheriffs of all northern Iowa counties were notified at once and were keeping watch at strategic points along highways for the car, a blue sedan bearing an Illinois license.

First Robbery Since Nov. 19  
The robbery was the first since Nov. 19, when the Mingo Trust and Savings bank was looted by two bandits who later were captured and sentenced to life imprisonment. It brought the total of bank hold-ups to 24 in Iowa this year, with a loss of approximately \$100,000, some of which has been recovered.

Wolf described the bandits as well dressed. They were unmasked. He described the leader of the group as about 30 years old, weighing about 150 pounds and handsome. The other was slender, of medium height and had a small mustache. Both wore overcoats and hats. He was unable to give any description of the bandit who remained in the car.

### Duce Blames Italy's Ills on United States

ROME, Dec. 18 (AP)—The American stock market crash and "money crisis" of the fall of 1929 are principally to blame for Italy's present financial ills, Premier Mussolini told the senate this afternoon.

In a speech marked by biting irony, frankness and characteristic vigor, the duce declared Italy was "nearing port" was perhaps in view of port when the American crisis broke out unexpectedly and exploded like a bomb.

Duce Cuts Salaries  
His placing the blame of the American situation was part of the duce's defense for his drastic cut of 12 per cent in the salaries of all state employees.

"For us poor provincials of old Europe," he said, "the explosion was a great surprise. We remained shaken and confounded like the world at announcement of the death of Napoleon. We had been given to understand that the United States was a country of prosperity, indefinite and absolute, without eclipse, without decadence; and all were rich."

Believes All Americans Rich  
"Everybody played the market. As the shares went up, everybody bought one at twenty, sold it at a hundred and with it bought an automobile, radio or telephone, or made a trip to Europe, paying on the installment plan and perhaps bought a country home in the neighborhood."

The financial situation in the United States affected Italy, Mussolini asserted, that a surplus of 65 million lire has turned into a deficit of approximately 900 million lire.

Bill Asks U. S. Aid on Indian Highways  
WASHINGTON, Dec. 18 (AP)—Federal aid on highways in Indian reservations would be authorized by a bill introduced today by Representative Sinclair, Republican, North Dakota.

### Mayor Says Walks Must Be Shovel

### House Votes to Give Farm Board Funds

WASHINGTON, Dec. 18 (AP)—The house voted to give the federal farm board an additional \$150,000,000 of its revolving fund today and the measure was well on its way through the senate before tonight.

### New French Cabinet Gets Majority Vote

### Get Favor of Chamber of Deputies by Margin of 7

PARIS, Dec. 18 (AP)—Premier Theodore Steeg and his six day old cabinet today won a vote of confidence by a majority of only seven votes in their first appearance before a hostile chamber of deputies.

The vote was 291 against 284, and the oppositionists vowed they would overthrow the new ministry after the new year's recess.

Steeg Forms Ministry  
Steeg's day began in an air of pessimism. After much effort last week he finally formed a ministry to succeed that of Andre Tardieu and immediate attacks and defections began.

Cabinet Wins Left Groups  
But this very thing won the favor of the left groups, which staged a demonstration of enthusiasm such as seldom is seen even in the temperamental French lower house, and brought the necessary although slender victory.

### Auto Strikes Aaron Kipnes Slippery Road Causes Automobile to Skid into Student

Aaron Kipnes, 23 of Chelsea, Mass., suffered leg injuries and bruises about the head and body at 1 p. m. yesterday when he was struck and thrown to the pavement by a sedan driven by J. C. Lewis, president of the Iowa Federation of Labor, of Des Moines.

The accident occurred west of the Iowa avenue bridge, where U. S. highway No. 32 curves north toward university hospital. Mr. Kipnes was on his way to the campus, and was unaware of the approaching machine as he walked across the road.

The slippery surface of the road caused the car to make a wide skid, causing the front end to hit Kipnes. Mr. Lewis rushed Kipnes to the University hospital. X-ray pictures revealed that the fibula bone in the left leg had been broken.

Kipnes inaugurated the instruction of clog dancing in the physical training department of the university last year, and is coaching two regular classes in the course. This year he was made an assistant in the department.

### Great Falls Police Chief Found Guilty of Volstead Violation

GREAT FALLS, Mont., Dec. 18 (AP)—Ray M. Gaunt, chief of police, and five other police officers convicted yesterday of a conspiracy to violate the national prohibition laws and fined in federal court, were suspended by Mayor A. J. Fousek today.

The mayor filed charges against them before the police commission. Hearing was set for next Tuesday night. The mayor's charges in general, assert the officers were convicted of a crime.

### House Votes to Give Farm Board Funds

### Measure Now Before Senate; Committee Gives Approval

WASHINGTON, Dec. 18 (AP)—The house voted to give the federal farm board an additional \$150,000,000 of its revolving fund today and the measure was well on its way through the senate before tonight.

The senate appropriations committee gave approval to the proposal and sent it to the senate floor. Total Now \$400,000,000

This appropriation would swell the total given the board thus far to \$400,000,000 and it plans to ask for the remaining \$100,000,000 of the \$500,000,000 authorized for use in the next fiscal year.

The board has been able, he said, to maintain wheat prices in this country artificially. He said it had not been for the board's grain stabilization efforts the price of wheat would be 25 cents a bushel.

Wheat Prices Maintained  
"It is true today," Legge said, "that low as the price is, it is artificially maintained, not only on wheat but other grains."

An enormous quantity of wheat is being fed to livestock because of the short corn crop, he said, and some persons are burning it for fuel.

Legge recommended that the government take over the regulation of agriculture commodities except for the most accurate work done in competition with the peon labor of Argentina and the practically serf laborers of Russia, with their lower standards of living."

Legge recommended that the government take over the regulation of agriculture commodities except for the most accurate work done in competition with the peon labor of Argentina and the practically serf laborers of Russia, with their lower standards of living."

### Here's List of 15 Winners in Iowan Contest

Marie Harriger, 13 E. Court Street, was declared the winner of The Daily Iowan "Pick a Gift" contest last night, winning the \$20 prize offered for the most accurate work done on the three contest pages.

Ivan T. Schultz, 44 Temple road, won \$10 for second place award, Miss Edna E. Kinney, 514 S. Capitol, won \$5 for third place, and Dorothea Starbuck, Burkley Apts., and Mrs. Albert Baumgartner, 1004 Kirkwood Ave., won \$2.50 each for fourth and fifth places, respectively.

The next ranking contestants were awarded prizes of \$1 each. In order of placement, they were: Miss Edith Hornel, 326 N. Dubuque St.; Mrs. J. A. O'Leary, 816 E. College St.; John Vogt, 223 Bloomington St.; Pauline Kiefer, 306 S. Linn St.; Florence Havlik; J. J. Fisher, 329 Beldon Ave.; Mrs. J. F. Cline, 501 Kimball St.; Helen Van Wechel, Eastlawn; M. J. Webster, 316 Myrtle Ave.; Willard Pierce, Okdale.

Checks for the prize winners will be available at The Daily Iowan business office today.

### Sir Doyle's Widow Believes His Spirit Lingers Near Earth

CROWBOROUGH, Sussex, Eng., Dec. 18 (AP)—Her profound conviction that the spirit of Sir Arthur Conan Doyle is deliberately lingering near earth in order to help those still living was expressed by Lady Doyle today.

### Hurt in Crash

Claire Fahy, well known aviator and widow of Herbert Fahy, noted test pilot, was seriously injured when her plane nose dived and crashed at Tonopah, Nev., Monday. She suffered a fractured skull.

The language inserted to permit loans for food in cases of extreme emergency provides that the secretary of agriculture may make loans not only for feed and fertilizer but for other purposes "incidental to crop production."

### Interior Asks Bids on New Boulder Dam

WASHINGTON, Dec. 18 (AP)—The machinery for receiving bids for the dam of the Boulder Canyon project was opened today by the department of interior and it expects to start work about mid-April.

The successful bidder, whose offer will be opened March 4 at Denver, will be awarded the largest single contract ever granted by the government. One bidder will build the \$71,000,000 dam and the \$38,000,000 power system.

Specifications on the dam, power house and generation system, as made public today by Secretary Wilbur, fix a penalty of \$3,000 daily for delay and require the contractor to post a \$5,000,000 bond. A bond of half that size must accompany the bid.

The dam will be the largest in the nation. It will rise 727 feet above the floor of Black Canyon in the Colorado river and will be 1,150 feet long, 45 wide at the top and 650 at the base, requiring 3,400,000 cubic yards of concrete.

The contract will require that power equipment be ready for use in 1925. The dam and other parts will be completed within seven years. Storage of water is expected to start June 15, 1925, when the dam is to be five-sevenths completed.

### Prince Sick at London in York House

LONDON, Dec. 18 (AP)—The Prince of Wales suffered from a slight chill today, necessitating cancelling all his immediate engagements but was reported to be improved tonight.

Sir Stanley Hewitt, physician to the royal family, called at York house to see the prince this evening, and a bulletin was issued saying the patient was "very much better."

Although the Prince's illness was not regarded as serious, he was ordered to stay indoors lest it interfere with his trip to South America which is to begin January 15.

Unusually vigorous, the prince is seldom sick and never had a serious illness. His robust physique is attributed to the large amount of exercise he takes, including long walks, riding and indoor exercise. An extraordinary drain is made on the time and health of the younger members of the royal family at this time of the year by their almost constant attendance on the opening of hospitals and charities.

### Drought Bill Opens Relief Appropriation

### Congress Awaits Final Okay of Conferees on Measure

WASHINGTON, Dec. 18 (AP)—The way was opened tonight for early enactment of the emergency relief program by congress with an agreement by conferees on a compromise \$45,000,000 drought bill.

The compromise will be taken up for final approval tomorrow as other conferees reassemble to consider differences between the senate and the house on the emergency \$15,000,000 employment appropriation.

A decision of the house earlier in the day to pare down the \$60,000,000 senate drought relief bill to \$30,000,000, in accordance with the president's program, was offset by the subsequent conference.

The language inserted to permit loans for food in cases of extreme emergency provides that the secretary of agriculture may make loans not only for feed and fertilizer but for other purposes "incidental to crop production."

### Peace Reigns After Revolts in Guatemala

GUATEMALA CITY, GUATEMALA, Dec. 18 (AP)—Peace has returned to Guatemala tonight after a revolution which installed General Manuel Orellana as the third president of the country and had within a week. The congress indicated in a formal manifesto a belief that the trouble was definitely over.

The statement disclosed that the various ambassadors and other representatives of foreign nations had sat in on congressional conference looking toward re-establishment of peace. The mediation of the diplomatic corps was helpful, the statement says, but the diplomats functioned only as unofficial observers.

The document bore the signatures of the representatives from Mexico, Germany, Italy, Belgium, the United States and several Central American states.

### Music Department to Correspond With Paris L'Association

Mrs. Mildred Blanzius Paddock of the music department has received a letter from Monsieur Robert Brusola, director of L'Association Francaise, Paris, informing her that she has been appointed Correspondante d'Association Francaise d'Expansion et d'Echange Artistiques.

The association is founded by and is under the auspices and the patronage of the Ministere des Affaires Etrangeres et du Ministere de l'Instruction Publique et des Beaux Arts.

Mrs. Paddock will keep the association informed regarding artistic events and conditions in the university and other parts of the state. The association is interested in all matters pertaining to music, plastic arts, and the theater.

### Ex-Soldier Receives Pension

DES MOINES (AP)—A monthly payment of \$57.50 on war risk insurance from Nov. 1, 1918, to Jan. 13, 1930, was awarded John L. Trammell of Marshalltown, a former soldier, in a suit against the federal government. Frank L. Wilson, assistant U. S. district attorney, said he would receive the sum monthly for the rest of his life.

ONLY 5 Shopping Days

Society Plans Mecca Week Dance, Show

Announce Committees to Give Annual March Event
Committees for Mecca week, to be held in March, have been announced by student members of the American society of engineers.

PERSONAL ITEMS

Mr. and Mrs. A. F. McMahan, 516 S. Dodge street, and family will leave by car tomorrow for Wellesley, Mass., where they will spend Christmas with Mr. McMahan's mother and sister.

Students Give Clothes, Books

Destitute Families of Mesaba Range to Have Gifts
A merry Christmas has been made possible for a number of destitute families living in the Mesaba iron range in Minnesota, by the Presbyterian student group of Iowa City.

Students Give Air Program

City High Students Read Poems, Give Play Over WSUI

Christmas program by students of the Iowa City high school featured the children's fireside hour broadcast from WSUI yesterday from 7 to 8 p.m.

Women Tie High Score

Two of Rifle Team Shoot Ninety-Nine in Practice

Highest scores for the week in women's rifle team practice were shot by Dorothy L. Woolery, G. of Des Moines, and Mildred L. Burnham, A3 of Griswold, each having a score of 99 in Thursday evening's practice.

Iowa Invites Rifle Teams

Women's Rifle Squad Challenges Other College Teams

Challenges to 24 colleges and universities have been sent out by the women's rifle team. A reply from Michigan state college was received asking for a challenge in the date from Jan. 24 to some time in February or March.

Scene from the world premiere of Camille, opera written by Hamilton Forrest, Chicago (above, left), former office boy. The piece scored a triumph when it was presented by the Chicago Civic opera company with Mary Garden (inset, left) one of its early patrons in the leading role.

Nurse States Wife Charged Shepard Plot

Miss Brown, Medical Officer, Testify in Poison Case

KANSAS CITY, Kan., Dec. 18 (AP)—Two witnesses testified today in the murder trial of Major Charles A. Shepard that his wife started before her death she had been poisoned.

Schools Chief to Attend All Iowa Dinner

According to Bruce E. Mahan, director of the extension division, Will Ham J. Cooper, United States commissioner of education, and Bess Goody, county assistant commissioner of education, will attend the all-Iowa dinner at the meeting of the superintendents' section of the National Education association Feb. 25.

Chicago Man Makes Fast Travel Decision

NEW YORK, Dec. 18 (AP)—A man of quick decisions is Richard P. Murray, Chicago manufacturer.

Sheriffs Want State Officers

DES MOINES, Dec. 18 (AP)—Support of a state police system was voted today in resolutions adopted by the Iowa Sheriffs' association and the Iowa County Attorneys' association.

Scouts Elect A. B. Sidwell as President

Albert B. Sidwell was elected president of the Iowa City area of the Boy Scouts of America at the annual banquet at the American Legion building last night.

Iowa Groups Vote to Support Organized Police Plan

Both sides centered their evidence around Mrs. Shepard without mention of Miss Grace Brandon, blond stenographer of San Antonio, for the love of whom the 59 year old defendant is charged with having disposed of his wife.

Students Give Carols, Story

Chorus Accompanies Christmas Story Broadcast

A Christmas program, composed of the story of Christ's birth, with carols, was broadcast over WSUI from 12 to 12:30 p.m., yesterday by the Presbyterian student group.

University Extension Division Members Give Annual Party

Members of the university extension division, with their husbands and wives, held their annual Christmas party yesterday at 8 p.m. in the river room of Iowa Union.

Tiny Santas, Tree, Decorate Alpha Xi Delta Party Table

Miniature Santas and a small tree decorated the table at a dinner given last night by members of Alpha Xi Delta sorority for active, pledges, and alumni.

Alpha Kappa Psi Members of Alpha Kappa Psi, Commerce Fraternity, were hosts at a smoker at the chapter house Wednesday evening.

Members of Alpha Kappa Psi, commerce fraternity, were hosts at a smoker at the chapter house Wednesday evening. Guests were commerce and pre-commerce students and faculty members of the college of commerce.

High School Students Give Comedy Play

More than 200 persons attended the presentation of "The Charm School" by the members of University high school last night in the high school auditorium.

Troops Award Badges at Farewell Dinner for McGuire

Albert B. Sidwell was elected president of the Iowa City area of the Boy Scouts of America at the annual banquet at the American Legion building last night.

Coggsall Tells of Engagement at Phi Kappa Sigma Stag

The engagement of Mary Moran of Nevada, to Anderson Eugene Coggsall, A4 of Cambridge, was announced last night at the annual midnight Christmas stag party given by Phi Kappa Sigma fraternity.

Martha Vaughn to be Wed at Denver to Samuel Wanous

Announcement has been made of the marriage next week in Denver of Martha Vaughn, daughter of Mr. and Mrs. F. E. Vaughn, 1016 Iowa avenue, and Samuel Wanous of Los Vegas, N. Mex.

Delta Sigma Pi Fraternity announces the initiation of Walter F. Crowder, instructor in the college of commerce, which took place at the fraternity house Wednesday evening.

Delta Sigma Pi fraternity announces the initiation of Walter F. Crowder, instructor in the college of commerce, which took place at the fraternity house Wednesday evening. Guests at the dinner following the initiation were Prof. and Mrs. Elmer W. Hills, Prof. and Mrs. C. W. Wassam, and Prof. George D. Haskell.

Three Die in Mine

SCRANTON, Pa., Dec. 18 (AP)—Three men were killed today by a fall of a roof in Baker mine of the Glen Alden Coal company. The victims, all residents of this city, were Julius Bosko, 40; George Minich, 38, and Thomas Jones, 45.

Cosmopolitan Club Will Entertain With Christmas Party

The Cosmopolitan club will hold a Christmas party tomorrow at 7:30 p.m. at the home of Prof. James C. Manry, faculty advisor to the club, 568 Melrose court.

Arthur Lentz Host at Dinner Dance

Arthur Lentz, manager of the student employment service, entertained a few friends at dinner and dancing last night on the sun porch of Iowa Union.

Hyperion Club Has Christmas Party

The members of the Hyperion dancing club held their Christmas party last night at Varsity. Decorations and features were carried out in the holiday spirit.

### Conferences, Conventions, Home, Goals of Students Faculty During Vacation

#### Other Interests Draw Professors Away From Campus

National conferences, conventions and meetings and "just plain visiting" will occupy faculty members during vacation. Professors will attend conventions in St. Louis, Detroit, Cleveland, Chicago, Washington, D. C., Toronto, Des Moines, New York and the local conferences. Others will visit in Wisconsin, Kansas, Missouri, New Hampshire, New York, West Virginia, North Carolina, Indiana, New Jersey and various parts of Iowa.

Prof. M. Willard Lampe, director of the school of religion, will represent the university at the conference of church workers in universities and colleges in Chicago, Dec. 21 to Jan. 2.

Dean George F. Kay and Prof. Arthur C. Trowbridge will attend a meeting of the geography and geology section of the American Association for the Advancement of Science at the Case school of applied science at Cleveland. Dean Kay is retiring vice-president of the organization.

Prof. J. J. Runner of the geology department will do research work in New Mexico during vacation.

Prof. Benj. F. Shambaugh, head of the political science department, will attend the meeting of the American Political Science Association in Cleveland, Dec. 29-31.

Dean Chester A. Phillips of the college of commerce will attend the American Economics association convention at Blackstone, Dec. 29-31.

Prof. Earl G. Blackstone of the college of commerce will attend the Iowa State Commercial Teachers' convention in Des Moines.

All the faculty of the college of law will attend the meeting of the Association of American Law Schools at the Stevens hotel in Chicago, Dec. 29-31.

Williams Represents Big Ten

Dean C. Williams of the college of engineering will attend a meeting of the National Collegiate Athletic association in New York Dec. 31 as the delegate of the Western conference, of whose faculty board he is chairman.

Prof. Edward C. Mable, head of the speech department and director of the university theater, Helene Blatner of the speech department and Hunton Selman of the dramatic art department, technical director of the university theater will be among those from Iowa attending the speech conference in Chicago after Christmas.

Prof. Fred J. Lazell of the school of journalism will attend a national meeting of college journalism teachers in Boston and Prof. Charles B. Richter will attend a music conference in St. Louis as representative of the music department.

Station WSUI will operate on regular schedule during vacation. Karl H. Menzer, director of the station, said yesterday.

### U.S.C. Man Kills Self in Los Angeles

LOS ANGELES, Dec. 18 (AP)—Warren C. Bovard, 45, vice president and controller of the University of Southern California, killed himself today, after spending several hours with friends, laughing and joking.

One of the two friends, Louis B. McWhirter, remained overnight at Bovard's home. When his host did not appear for breakfast McWhirter said he went to his room.

Bovard's body, clad in pajamas, was stretched across the bed. His right hand clutched a pistol. A bullet had been fired from his right temple. Physicians said he had been dead for several hours. McWhirter said he heard no shot.

Students, alumni and business and social leaders were stunned by the tragedy. Intimate friends related his health had not been the best.

Bovard, as 17,000 students at Southern California University, was the son of Mr. and Mrs. George Finley Bovard, who survive him. His father is president emeritus of the university.

### Wagner Wanted for \$16,500 Mail Theft Located but Escapes

McCOOK, Neb., Dec. 18 (AP)—Martin Wagner, wanted by U. S. postal authorities in connection with the \$16,500 mail robbery at Melrose Park, a Chicago suburb, March 1, 1929, was located here last night, but fled in a stolen automobile before officers could arrest him.

Wagner, alias Edward Joe Pino, alias Edward Brody, had been working here installing automatic furnace stokers for a McCook concern. Post office Inspector A. H. Roland of Kansas City, traced the man to McCook and came here yesterday.

Wagner, hearing of the officers' arrival, took an automobile owned by Elmer Bradley and hurried from the city. Authorities today had found no trace of him.

Roland said federal authorities wanted Wagner in connection with the theft of a mail sack containing \$16,500 in currency from the depot platform at Melrose Park.

PITTSBURGH, Dec. 18 (AP)—Fifteen years ago J. F. Bickerstaff reported his watch was lost or stolen. Today it was recovered from a pawn shop. Now the police can't find Bickerstaff.

### Christmas Vacation Begins Today; Ends January 6

Homeward bound! Via bus, train, auto and the "open road," thousands of students will leave for home today. With classes suspended for 17 days, the university will officially close for Christmas and New Year's vacation this afternoon at 6 o'clock and will not reopen until Jan. 6 at 8 a.m.

After the student exodus, the campus will be deserted until Dec. 29 when more than 1,000 psychologists, classical linguists and archaeologists arrive for national conferences.

Companies sail last night that they expect trains, buses, and interurbans to leave on time, with no delay in service because of weather conditions or the increase in passengers.

### Fifth Annual National Iowa Fete March 2

The date of March 2 has been selected for the celebration of the fifth annual National Iowa night when alumni of the University of Iowa will commemorate the eighty-fourth anniversary of the institution's founding.

This was announced Thursday by Prof. Frederic G. Higbee, alumni secretary, who will serve as chief executive of the function.

When dozens of alumni organizations in Iowa and some 20 other states rally for the celebration, they will be honoring the act of pioneer legislators.

For, on Feb. 25, 1847, the members of the first general assembly of Iowa approved the document which brought the state university into official existence only two months after Iowa had achieved statehood.

Two Die in Plane Crash

BELLOWS FALLS, Vt., Dec. 18 (AP)—Two men were killed and a third was injured as an airplane crashed into a field beside the Connecticut river near here this afternoon. The dead were: Carlton Wright, Saxons River; Arnold Knowlton, Saxons River.

Moose Give Ball

Bright colored frocks amid the arrayed Christmas decorations featured the charity ball dance at the Moose hall last night. The dance was informal and was the first Moose charity ball ever to be held in Iowa City.

Calves can be taught to eat grain when two weeks old, thus fattening faster, say Washington state college animal husbandry experts.

### Dr. Anderson Speaks on Plant Gums to Chemical Society

Dr. Ernest Anderson, head of the chemistry department at the University of Arizona, talked on "The relation between the plant gums, hemicelluloses, and woods," before the Iowa section of the American Chemical society at 7:30 p. m. Wednesday in the chemistry auditorium.

In his talk Dr. Anderson told how eight years ago, when he was lecturing about plant gums, he found that the book said that there was an acid in them. Accordingly, he set about to investigate, experimenting on the mosquito gum.

"The classes of the uronides of sugar," said Dr. Anderson, "are the plant gums, pectins, having several molecules of these uronides in them; mucilage, specific polysaccharides synthesized by bacteria; and certain of the hemicelluloses. These cer-

tain hemicelluloses have the same structure as the plant gums, containing the uronic acids—glucuronic, galacturonic and manuronic of sugar.

The hemicelluloses are materials dissolved out of plant materials by alkalis, but not by water. Sodium hydroxide is the alkali usually used on woods. There are two kinds of hemicelluloses.

One kind was uronides of the sugar and is probably joined to the celluloses. The other hemicellulose is a polysaccharide hemicellulose."

By the use of numerous slides Dr. Anderson presented and explained specific data about his findings concerning the composition of mosquito gum and also the findings of those working as his assistants.

### Silk Process Film Added to Library

"From Caddox to Spool," a new film to be added soon to the film library of the department of visual instruction of the extension division will be placed in circulation early in January.

The service is free to all Iowa schools and consists of a complete collection of 16 millimeter films. The new film will be contributed by the Corticell Silk company of New York.

### Iowa Sends 14 Delegates to Conference

Fourteen persons from the University of Iowa and Iowa City, 12 of them official delegates, have signified their intention of attending the national student faculty conference at Detroit, Dec. 27-31.

Additions to the list indicated yesterday are Robert E. Rlenow, dean of men; the Rev. Harry D. Henry, Methodist pastor; the Rev. Elmer Dierks, Baptist minister, and William S. McCulley, A3 of Omaha.

Dean Rlenow represents the faculty the two ministers the religious workers council, and Mr. McCulley the student body.

Pritz, Lampe Attend

Signe Pritz of the women's physical education department will attend as one of the representatives at large of the Y.W.C.A. national organization. Prof. M. Willard Lampe, director of the school of religion, is scheduled to share the chairmanship of a discussion group on the place of religion in higher education.

William H. Morgan of campus religious organizations will attend as a member of the school of religion faculty, while Genevieve Chase of the Christian association will represent that group.

Students Represented

Remaining student delegates are Reinhold Strohmaler, A2 of Keokuk; Roland White, G of Marengo; Genevieve Fuller, A3 of Centerville; Harriet James, A2 of Iowa City, and Margarita Williams, A3 of Washington.

About half the group will continue at Detroit study of administrative, educational, social, moral, racial, personnel, or religious problems begun here as members of three committees of students and faculty members engaged in determining the nature of situations here in each of the fields indicated.

Judge Fines Two

Fines of \$1.50 and \$3.50 were issued to Albert Rate and William Chapman respectively in police court yesterday. Rate was charged with parking in front of a theater entrance and Chapman was charged with operating his motor vehicle in a careless manner.

### KNOW YOUR UNIVERSITY

#### Graduate Students Study Respiration With Use of Tentacles, Drum Belt, Kymograph

Swimmers slipping through the water with unlooked for tentacles dangling from mouth and nose are likely to astonish one who visits the field house pool at odd hours during the next two months.

The tentacles are tubes and wires, parts of apparatus devised by T. M. Aycock and Loren Graff, graduate students in physical education, who are doing research work for their master's degree in making a study of respiration in swimming.

If the observed looks further he will see that these wires and tubes lead to a table on the pool edge where they activate rubber fingers scratching on a moving black-smoked drum belt, a record of the gasps, the choking, the steady exhalations, the pauses in breathing which mark the respiratory progress of a swimmer through the pool.

Trained Swimmers

The data is to be gathered mostly from trained swimmers who will use the crawl stroke. Now, a man in swimming the crawl breathes out under water through his nose, and he breathes in by turning his head over his shoulder and gasping the air. Sometimes there is a pause between the act of inhaling and that of exhaling.

The problem of measuring these features was met by developing a technique whereby an electrode, as used to each lip, upper and lower, of

the subject, and a rubber tube is introduced into one nostril.

When the swimmer opens his mouth to inhale, he breaks the electrical connection maintained by the contact of the electrodes, and thus makes a mark on the revolving belt of the kymograph.

When he closes his mouth after getting the air, he makes another mark on the record. When he starts to exhale, he motivates another pointer through the rubber tube in his nostril, and so makes a simultaneous exhalation record above that one made electrically.

Study Breathing

The records thus made automatically offer a means of comparing length of inhalation with length of exhalation, and show at what moment after exhalation the inhalation begins. A chronograph marks the time of all in fifth of a second.

Aycock and Graff expect their work to be of practical value in discovering for coaches the exact breathing technique used by successful swimmers. According to Aycock, very little previous investigation has been made along this line.

It is because of this pioneering aspect of their problem that the men have found it necessary to work since September in perfecting measurement methods suitable to their purpose.

The work is under the supervision of Dr. W. W. Tuttle, assistant professor of physiology.

### Philbrook Speaks to Dental College on Gold Inlay History

Dr. B. F. Philbrook of Sioux City, who was the first man to use the gold inlay as routine practice in dentistry, addressed the faculty and the members of the senior and junior classes of the dental college yesterday morning on the history of the development of the gold inlay.

Dr. Philbrook told of his development of the inlay and his first practical use of it. He read a paper on the subject before the Iowa Dental association in 1897 and he showed his original equipment in his address yesterday.

Shortly after Dr. Philbrook had invented the inlay, a Chicago doctor procured a patent on the same process and endeavored to force all dentists to pay him royalties whenever they used the process. Organized dentistry, feeling that the use of a measure of such importance to human health should not be prevented, contested the case in court.

Testimony Wins Case

Dr. Philbrook presented his original case, proving by the evidence of his original equipment and records, and the paper which he had read in 1897 that he had used this method before the process patent was obtained. The case was won by

the dental profession.

Dr. Philbrook presented his original equipment to the museum of the dental college yesterday.

R. F. Philbrook, dean of the cathedral of the Episcopal church in Davenport, and son of Dr. Philbrook, also spoke at the meeting yesterday, telling how he testified in the trial when he was a boy. Dean Philbrook said:

"My most vivid memory of my father was that he did not consider the monetary reward he might have had, but saw only the benefit that would come to the dental profession."

In introducing Dr. Philbrook, Dr. Ernest A. Rogers, who presided at the meeting, said:

"The entire dental profession holds Dr. Philbrook in the highest esteem because of the sacrifice and generosity that made possible this wonderful advance in dental science."

Apply for License

Yesterday an application was made for a license for the marriage of Emilio Rodriguez, 23, of Iowa City, and Angela Ramirez, 23, of West Liberty.

### Engineering Class Casts Book Ends, Old Capitol Design

Members of the mechanical engineering class are casting souvenir book ends which are replicas of the east entrance of Old Capitol.

Impressions are made from a heavy metal form in a special sand which is tightly packed in a frame, and hot metal is poured in. The book ends are of aluminum with a heavy base to prevent tipping.

### Psychological Association to Meet Dec. 29

Dinner Will Feature Dedication of New Laboratory

A dedicatory dinner to which all of the members of the association and their wives are invited will feature the meeting of the American Psychological Association here Dec. 29 to 31. This dinner is to be held in connection with the opening of the new psychological laboratory.

The place of the psychological laboratory in fundamental relationship, will form the nucleus for the talks which are to follow the dinner. The following is the program: "Systematic psychology," Prof. Howard Crosby Warren of Princeton university; "Other natural sciences," Prof. Walter Richard Miles of Stanford university; "Education," Prof. Charles Hubbard Judd of the University of Chicago; "Psychiatry," Prof. Edward Alexander Bot of the University of Toronto; and "Psycho-Technology," Prof. Robert Sessions Woodworth of Columbia university.

There will be an exhibit of researches in progress. A description of the laboratory will be published showing outside views of the building and floor plans. A portrait of G. T. W. Patrick, founder of the laboratory in 1888 will appear on the program.

Canadian Gold Reserve Greater

OTTAWA, Dec. 18 (AP)—The total gold reserve of the Dominion government at the end of November was \$14,617,150, the department of finance reported today. This compares with \$107,196,000 for the previous month.

### Iowa Schools to Get Film Lesson List

Visual Training Group Tells Teachers of Art Exhibit

Folders listing new films, and letters telling of the lantern slides and the art exhibit to be put on circuit during the second semester will be sent by the department of visual instruction of the extension division to superintendents of Iowa public and parochial schools, Jan. 2.

Schools will again be able to use extension division films and accompanying lesson plans which include preparation, recitation, and follow-up material. Subjects are presented in single reels of approximately 400 feet on safety non-inflammable stock. The complete lesson, including the showing of the film and the teacher's review, can be given in the ordinary lesson period of 40 minutes or less. Projectors are maintained by the department for rental purposes.

Each semester the department puts on circuit approximately 45 different sets of lantern slides which may be used by Iowa schools free of charge. Circuits are established for those who desire to use one or more of the sets each week.

An exhibit of drawing, paintings, and designs made by the students of the department of graphic and plastic arts will also be loaned to the schools by means of the circuit plan.

extension division films and accompanying lesson plans which include preparation, recitation, and follow-up material. Subjects are presented in single reels of approximately 400 feet on safety non-inflammable stock. The complete lesson, including the showing of the film and the teacher's review, can be given in the ordinary lesson period of 40 minutes or less. Projectors are maintained by the department for rental purposes.

## Handling Iowa's Indigent Sick

THERE should be little doubt, after the Iowa State Medical society meeting at Des Moines Wednesday, as to three points concerning the handling of indigent sick in this state. One is that a majority among Iowa doctors—about 75 per cent—favors the present Perkins Haskell-Klaus law.

Another is that the situation is statewide, involving the interests of patients, private doctors, and the state hospitals maintained in connection with the University of Iowa. To best serve these varied interests the medical society has had three members investigating the entire situation for the last 18 months.

The third point which should be clear concerning the committee's report and its acceptance at Des Moines is that it sought to clarify factors involved and launched no attack on any of the three groups concerned. No recommendations were made, yet the first complete analysis of the care of indigent sick in Iowa should be valuable to the state legislature which convenes next month.

One major flaw in the status quo of the system as pointed out by the committee is that there are 225 empty beds and 1,934 waiting list patients. This is rightly said by them to be "uneconomical," since the overhead of the institution remains nearly what it would be at capacity operation. To utilize the hospital's entire facilities would be to reduce the cost per patient just as is done by quantity production in industries where interest, depreciation, and other forms of overhead go on regardless of output.

That this unfortunately inadequate utilization of university hospital facilities exists is not news. Dean Henry S. Houghton and Administrator Robert E. Neff have often called attention to the fact. They are anxious to extend their services to as many patients as possible and to supply the college of medicine with the necessary clinical material.

That State Budget Director Oscar Anderson in his estimates to the next general assembly recommended an increase of \$100,000 in annual appropriation for this purpose signifies some state government cognizance of the desirability for using hospital beds which now are vacant. Operation at two-thirds capacity, as at present, is necessary if the hospitals are to live within the \$1,000,000 annual appropriation made for the current biennium.

The other major flaw in the existing system noted by the committee is inadequate coordination between state and county authorities, another point which may logically be a concern of the state legislature. This, too, has been the feeling of the local hospital and medical administration.

When, for example, a district court judge—who is a state officer—commits a patient to university hospitals for treatment, neither he nor the hospital has any official channel for cooperation with the county's board of supervisors, which may or may not accept the patient on its indigent list when he is returned home on his way to recovery.

Conversely, the county supervisors might well be consulted in the commitment of indigent patients for state care. It is conceivable that if this were done it might further reduce the possibility of help being given to persons who do not really need it. Certainly a statewide health service like this should be a matter of intimate cooperation between county and state.

How to obtain continuity in handling indigent sick and how to restrict undeserving cases is not, of course, the problem of the service institution at this end of the process, important though such factors may be to its operation. Solution of this matter, like that of the empty beds, is something to be worked out by the state legislature and officials of the state and county governments.

## For a County Health Unit

TONIGHT Iowa City's councilmen will consider the establishment of a county health unit. Their decision is a matter for conjecture.

Mayor J. J. Carroll expressed himself yesterday as favoring caution because "I feel that economies should be effected to lower taxes instead of increasing them." That was in his capacity as mayor. Speaking for the Visiting Nurse association as its president, he said that "the members are not opposed in any way to measures which will safeguard the health of the community provided there is no additional burden placed upon the public's shoulders."

What Mayor Carroll doubtless means is

that during a period when the nation as a whole is only beginning to recover from a depression projects of this sort should be entered only if they will not overburden a community during a time of uphill economics.

The present state of the city's finances is unquestionably a factor in discussing whether or not the city can at present afford such a venture. Whether its government so desires must be conditioned by ability to carry the "burden."

Of course, in the long run or probably even at present, such an enterprise is far from being a burden. Federal and state sources will contribute \$7,600 toward the proposed health unit if it is voted by the city. University hospital and medical service is readily reorganizable. The plan would mean a thorough reorganization of county health work and an extension of activity now being carried on under a less inclusive system.

A county health unit rightly organized can only be an asset of tremendous value to Iowa city and Johnson county. The question ultimately is not whether the county and city can afford it, but how long they can afford to be without it.

## Vacation Eve

(A Comedy in One Act)

PLACE: Reserve library, third table from back, west side.

Time: 8 p.m., Tuesday, Dec. 16.

Characters: Student A; Student B; and Student C.

(Three women students enter library, books under arm and after a short discussion, obviously in disagreement as to where they should sit, seat themselves at table, third from back on west side.)

(Take off coats, Student A and Student B sitting on one side of the table and Student C sitting on other side. Much giggling and whispering during the proceedings.)

Student A—(in whisper) I can hardly wait 'till Friday.

Student B—I can't either. Just think only three more days—Wednesday, Thursday, Friday, (counts them on fingers).

(Student C sniffs and opens books and starts to study.)

Student B—You don't act a bit excited. I don't see how you can concentrate on your old books. Aren't you the least anxious for school to be out?

Student C—Oh yes, (indifferently). But what's the use of thinking about it 'till the time comes? Besides it isn't anything but going home. (Plunging into books). And you youngsters pipe down too. I have an exam in French tomorrow and I have to do some tall concentrating.

(All silent for a few seconds, Students B and C studying, Student A drawing pictures and writing names on notebook paper.)

Student A—I can't decide whether I should get something for Jim or not. If I were sure that he was going to give me something...

Student B—I have all my shopping done except getting something for my brother. I don't know what to get.

Student A—I am going to try to address all of my Christmas cards before I go home. Don't you get a big kick out of wrapping presents and addressing cards?

Student C—Ahem! (clears throat ominously.)

Student B—(Looking across table). Aw shucks! Christmas only comes once a year. Can't we get a bit excited?

Student A—Anyway it is one of the most exciting times of the whole year and the nicest. You said so yourself last year.

(At mention of Christmas, C's face softens somewhat.)

Student B—Remember that little girl you found last year who didn't have any mittens and you bought her some?

Student C—Oh sure, that was fun! (Thoughtfully.)

Student A—Say, remember going home on the train last year?

Student C—(Starts to smile broadly). Do it! That certainly was a roughhouse.

More fun. I never saw so many students feeling so happy.

Student B—Was it?

Student C—(Meditates a few minutes smiling to herself, and then looks up at friends). Shucks, now you have me started. Hang the old French test. Come on, let's go Christmas shopping.

(Curtain)

## We'll Fix Him

(From the Cedar Rapids Gazette)

"Dr. Einstein's theory of relativity is one thing—and I don't think much of it—but his pacifism is another. He is a propagandist against the best interests of the country."

So there! If Dr. Einstein has any desire to know what Dr. A. D. Houghton, Los Angeles windjammer, thinks of him, there it is in black and white. In addition to that, the Los Angeles doctor thinks the German physicist should be prevented from landing in California and sojourning there, where his insidious propaganda might undermine the patriotism of the rising generation. He believes that Dr. Einstein is a pacifist traveling in the guise of a mathematician.

For our part, we cannot resist complimenting Herr Einstein on the perfection of his disguise. One would never suspect he was anything but a dyed-in-the-wool mathematician so dexterously does he manipulate figures, formulas and equations. Take that theory of relativity, for instance. Who, except possibly Dr. Houghton, would ever think it was merely a colossal fraud designed before the eyes of an innocent public to divert attention from a sinister plot to make pacifists of us all?

Thank heaven we have been warned in time! Einstein will do none of his deceitful thinking in this country. Not if Dr. Houghton can do anything to stop it. Einstein has underestimated the power of the people against whom he plots. He failed to consider the fact that in this country we can prohibit people from thinking, if necessary.

# OFFICIAL DAILY BULLETIN

The University of Iowa  
Bulletin notices must be delivered, in writing, to the editor of The Daily Iowan by 4 p.m., to appear in the following morning's paper. For reasons of accuracy notices will not be accepted by telephone.  
Vol. IV, No. 110 December 19, 1930

## University Calendar

(All students and faculty members shall schedule events involving the use of university buildings at the president's office in Old Capitol as far in advance of the dates as possible. No other dates are included in this official calendar, which takes the place in most cases of ordinary bulletin notices.)

Tuesday, December 23  
6:15 p.m. Danish Christmas supper, University club  
Saturday, December 27  
6:00 p.m. Business dinner, University club  
Monday, December 29  
4:00 p.m. Tea, University club

December 29-31  
Conference of:  
American Philological association  
Archaeological Institute of America  
American Psychological association  
Classical conference

## Examination Schedule First Semester, 1930-1931

Saturday, January 24, 8:00 A.M. to Saturday Noon, January 31, 1931  
The regular program of class work will be suspended, and the following semester-examination program substituted for it. Classes will meet for examination in the rooms in which they have been regularly meeting (except classes in French 1 and 3, and speech 1, as shown at number below). The Program Committee directs the attention of both students and instructors and professors to the regulation that there is to be no deviation in the case of any examination, from this schedule—except as authorized by the Committee, on the student's written petition filed in ample time, supported by the recommendation of the department concerned—to provide relief from an excessive number of examinations within a single day. Deviations for the purpose of going through earlier will not be permitted.

Classes (except in freshman English, first and second year French, and speech), (N.B. below), whose first meetings occur:  
Monday at 8, meet for examination Thursday, January 29, 10-12  
Monday at 9, meet for examination Thursday, January 29, 8-10  
Monday at 10, meet for examination Monday, January 26, 8-10  
Monday at 11, meet for examination Tuesday, January 27, 10-12  
Monday at 1, meet for examination Friday, January 30, 8-10  
Monday at 2, meet for examination Saturday, January 31, 8-10  
Monday at 3, meet for examination Saturday, January 31, 10-12  
Tuesday at 8, meet for examination Friday, January 30, 10-12  
Tuesday at 9, meet for examination Tuesday, January 27, 8-10  
Tuesday at 10, meet for examination Saturday, January 24, 8-10  
Tuesday at 11, meet for examination Monday, January 26, 2-4  
Tuesday at 1, meet for examination Wednesday, January 28, 8-10  
Tuesday at 2, meet for examination Thursday, January 29, 2-4  
Tuesday at 3, meet for examination Saturday, January 24, 10-12

The first meeting of the class means the first lecture or recitation period in courses having both lectures and recitations, and laboratory periods; or, in the case of courses involving only laboratory periods, the first lecture-hour of the first weekly meeting. For example, chemistry 1B meets for lectures 2-4 at 11. The first meeting is, consequently, Tuesday at 11; and the class will meet for examination Monday, January 26, 2-4, according to the foregoing table. Again physics 125 meets twice each week, T, F, for a three-hour laboratory exercise, 1-4. The period for examination is, therefore, Wednesday, January 28, 8-10.

N.B. All section of freshman English will meet simultaneously in the rooms designated below, Saturday, January 24, 2-4 P.M.

Sections: A, E, M, M UH 309B X, Z UH 223  
B, F UH 210 A, A, D D LA 308  
C, H UH 207 CC UH 209  
D, I UH 101A EE, FF UH 213  
G LA 310 G, I, H UH 308  
L, R UH 38 H, H, O O LA 219  
K, Y LA 4 K, K, R R UH 34  
L, S S UH 202 LL LA B15  
M, T UH 101B O, A, O, B UH 301  
O, S UH 216 O, I, O, I D UH 306  
V, B B LA 209

N.B. All sections of French 1 and 01; and all sections of Spanish 51; will meet simultaneously in the rooms specified below Wednesday, Jan. 28, 2-4:

French 1: Sections: A, P LA 225  
B, D LA 309  
C LA 118  
E LA 16  
F LA 204  
G LA 4  
L LA 224  
M, O LA 213  
Spanish 51: Sections: A, B LA 105  
C LA 115  
D LA 15  
E LA 119  
F LA 17  
G LA 118  
H LA 7

N.B. All sections of French 3 and 03 will meet simultaneously in the rooms specified below Monday, Jan. 26, 10-12:

French 3: Sections: A, B LA 4  
C LA 224  
D, E LA 203  
F LA 204  
G LA 213  
H LA 225  
K, L LA 309

N.B. All sections of speech 1 will meet simultaneously in the buildings and rooms specified below Friday, Jan. 30, 2-4:

1. Liberal Arts Auditorium: A, B  
2. Geology Lecture Room: C, E  
3. Chemistry Auditorium: D, H  
4. Natural Science Auditorium: F, J, K, L, M

5. Old Chemistry Auditorium: N, O, Z

"Odd" classes, whose first or only weekly meetings occur on Wednesdays, Thursdays, Fridays, or Saturdays; or which meet "as arranged"; will be assigned for examination at either one or another of the following three periods, as announced to each such class by the instructor in charge of the class:

Monday, January 26-10-12  
Wednesday, January 28-10-12  
Tuesday, January 27-2-4

It should be borne in mind that there is possibility of announcing two or more "odd" classes for any one or more of these three periods available for "odd" classes. Therefore, in connection with any such announcement it would doubtless be well for the instructor making the announcement to ascertain whether any member of his class is already under appointment for examination in some other class for the proposed period. To be sure, it is possible to have examinations in more than one class at any of these times—**if no student is a member of more than one of these classes.**

According to one clause in the formal faculty action providing for a special semester examination program, "The instructor may use the examination period as he sees fit, provided he holds the class for the full period. He may have an oral or a written examination, or both, or neither. He may continue regular work or he may use the time for review, or for any phase of his work which may seem to him desirable at this time."

PROGRAM COMMITTEE  
H. C. DORCAS, secretary.

## Employment Bureau

All students staying in Iowa City during Christmas vacation who wish to work should register now at the employment service desk. In making application, state kind of work wanted.  
ARTHUR G. LENTZ.

## Hawkeye Pictures

Those juniors who have not made reservations for their picture in the junior section of the Hawkeye or have not had the picture taken at the photographers should do so within the next few days.  
ROBERT MILLIGAN, editor.

## Orchestra

Tryouts for Orchestral organization, will be held Jan. 14 and 21. There will be practice every Wednesday at 7:15 p.m., in the women's gymnasium for all those interested.

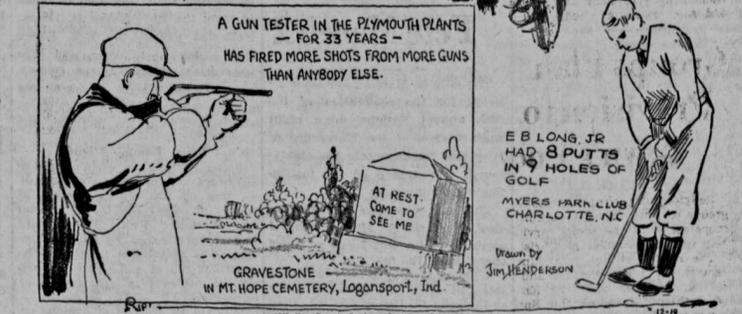

## Holiday Recess Library Hours—Dec. 19 to Jan. 5

University libraries will be open daily from 8:30 to 12 a.m., and 1 to 5 p.m., except on Christmas day and New Year's day. They will close at 6 p.m., Dec. 19. The undergraduate study hall will be closed from 6 p.m., Dec. 18. Schedule of hours for the departmental libraries will be posted on the doors. It is requested that books falling due during the recess be either re-

## BELIEVE IT OR NOT

## Explanation of Yesterday's Cartoon

The porcelain tower of Bangkok; the most notable work of architecture in Siam have some religious significance, and are marked by elaborate detail in ornament and design. When a vessel carrying fine porcelain from England was wrecked in the Gulf of Siam, some of the cargo was salvaged and Siamese craftsmen used the pottery to construct the remarkable porcelain tower. This structure is but one of the interesting and novel bits of architecture within the Siamese Royal Palace Grounds in Bangkok.

## Clyde Schooler joined the army at 14

Mr. Schooler, whose home is 132 Lorenz Ave., Akron, Ohio, was born Dec. 27, 1900. He joined the army June 23, 1915, when he was thought to be 21 years of age, and was then sent to the Mexican border. Subsequently he served on five battle fronts in France, and was discharged April 3, 1919, having just passed his eighteenth birthday with four years in the service.

## Tomorrow: "A Sweet Town in Indiana"

It is economically sound for the military department to add this new luxury when last year it took \$200,000 to graduate 182 advanced men in the state of Iowa? In this day of depression it would be better psychology for the military department to give free ice cream and cake at its classes—I believe it would not cost as much. It seems to me that the soft hearted Arab is the faculty and the tent is the academic school. Is the Arab going to leave the camel grow up within the tent until he has to sleep in the corners? The students who take advanced military are said to be patriotic. Is it patriotism to see one's government lavishly spend money on fancy uniforms when they must retain the old ones also? Do the advanced military students want these new uniforms or are they wearing them under military discipline? If any advanced military student, in a letter to the editor, will correct me in my point of view I will be glad to hear from him. —Walter J. McGrath

## Letter to the Editor

To The Editor of The Daily Iowan: Not very long ago, when I was a little boy, I read a story about a kind hearted Arab who took a little camel into his tent to shelter it. The camel grew and grew, and as he grew he thought that the tent was really his, and soon the kind hearted Arab had to sleep outside the tent. This week when I saw one of the new uniforms issued to advance military students, this story again came to my mind. The military camel (?) seems to insist upon growing. But he seems to be more in the form of an Octopus (or is it called devil fish) with its tentacles of gold medals, girls' rifle teams, military balls, honorary societies, military track meet, girl colonel, Armistice day parade, and pretty uniforms. Is it a coincidence that there are just eight tentacles? Is the military department bringing the art of camouflage nearer to home by adopting this new uniform?

turned or renewed before individuals leave Iowa City for the holiday period. MILTON E. LORY, director of libraries.

## CHILLS AND FEVER

Some people seem to think that a columnist knows something about everything, when in fact he knows almost nothing about anything so must do a lot of talking to cover up his ignorance. For instance some poor trusting soul writes in thusly: Chills & Fever Lmtd—My eyes are weak from sewing. My back is bent from washing. My hands are rough from dishes. I can spare very little time for my five children. My husband insists that I have lost all of my attractiveness and have become a drudge. Perhaps you can suggest some good exercises and beauty helps that will aid me in improving my appearance. —Tired mother.

Now there is a situation which even a columnist has a hard time wisecracking out of. However we cannot go back on a reader in distress, so here goes.

Madam— You do not need exercises of beauty helps. What you need is a divorce.

## TOO BAD OLD MAN

### Rotary Club Backs County Health Plan

#### Dean Houghton Speaks to Group on Value of Project

The Rotary club added further impetus to the movement for the county health unit plan by unanimously approving a resolution favoring the adoption of the plan. The resolution was framed by the community service committee.

Dean Henry S. Houghton of the college of medicine spoke for the plan to the 30 members attending the weekly meeting at the Hotel Jefferson.

"It will coordinate with economy and efficiency all welfare agencies of the county," he said. He asserted the plan does not imply an increase in taxation. "It is not, as it is whispered about, an insidious move on the part of the university to throttle and control the town."

Prof. Edwin Ford Piper of the English department gave several readings. He was introduced by Bruce E. Mahan of the extension division, who is chairman of the program committee.

Guests were Albert B. Sidwell, Glenn Fordyce, Prof. J. H. Scott, and A. C. Fuller of Cedar Falls.

### Groups Plan Provision for Town's Poor

Religious organizations and other groups of Iowa City are planning to cooperate with the social service to help the poor families on Christmas.

The Baptist church is making arrangements to give clothing and food to four families, while the Knights of Pythias lodge and the Spanish American War Veteran's auxiliary are each providing for one family. The University club is filling several baskets.

The Kappa Beta sorority of the Christian church is giving a party next week for 36 children between the ages of five and eight years, and the social service is arranging a Christmas party to be given next week.

### "Food Matinee" for Benefit of City Poor Given at Pastime

Arrangements have been made for a special "food matinee" to be given tomorrow morning for the benefit of the poor. The show, for children only, will be given at the Pastime theater with the admission price of food packaged in unbreakable containers.

The picture will be Loretta Young in "The Truth About Youth" and will start promptly at 9:30 a. m. Those who arranged for this show with the cooperation of Albert Dunkel, are: Ruth Bames, Katherine Luxford, Robert Cheybeck, Arthur Matthes, Billy Sholtz, and Max Memler.

Following the show the food will be taken to social service headquarters. From there it will be distributed to the poor.

### Police Seek Kelley

Police are seeking Dan Kelley, 65, of Williamsburg, who has been missing from home since yesterday. His description gives him as five feet and eight inches tall, gray hair, weight about 200 pounds and that he was wearing a brown overcoat and blue overalls at the time of disappearance.

### Council to Meet

The city council will hold an adjourned meeting tonight at the city hall at 7:30.

### Legion Carnival

The American Legion Christmas carnival will be held again tonight in the Legion community building, beginning at 7:30.

## Hams - Hams

Sugar Cured and Hickory Smoked in Our Own Plant

20c Per Pound

Half or Whole

Hams make an ideal Christmas Gift. We will wrap them for presents or for mailing without charge.

## W. A. Gay & Co.

120 South Dubuque St. Phone 61

### Warranty Deeds for Property Transfer Recorded in Court

Warranty deeds recording the transfers of two pieces of property were filed at the court house yesterday.

F. A. Knepp and his wife Naomi Knepp sold to J. A. Knepp property at Sharon Center described as part of the southwest quarter of the southeast quarter of section 9, township 78 north, range 7 west, fifth post meridian. The house and store building located on the property were included in the deal.

Mr. and Mrs. George Lovelinsky sold to Sam Reynolds the south half of the southeast quarter of section 7, and the northwest quarter of the northeast quarter of section 18, township 78 north, range 6 west, fifth post meridian.

### Farm Bureau Meets; Hearst to Give Talk

Closing an all day program, Charles E. Hearst, president of the Iowa Farm Bureau federation, is scheduled to speak on taxation, and the Iowa Marketing association, in the afternoon meeting of the annual Johnson County farm bureau gathering at the American Legion building here tomorrow.

A banquet at noon in the American Legion dining room is a feature of the programs: M. F. Sullivan, the county president, will be the toastmaster; music will be furnished by a male quartette and the Cosgrove trio. A humorous talk will be given by William Daily. Recognition will be given to membership workers, and Glen Hope will present "Membership facts."

The farm bureau meeting will be opened at 10 a. m., by President Sullivan, and a number of reports will be heard.

At 11:30 a. m., the annual business meeting will hear the nominating committee report given by Dewey Swanson. They will elect the county officer, and hear the resolution committee report.

The afternoon program will begin at 1:30. After community singing, a talk, "Results and plans for the future," will be given by S. L. Duncan. A play, "Getting rid of father," will be presented by the East Lucas by a selection from the male quartette and talk by Mr. Hearst.

### Banquet Held at Noon With M. F. Sullivan Presiding

Closing an all day program, Charles E. Hearst, president of the Iowa Farm Bureau federation, is scheduled to speak on taxation, and the Iowa Marketing association, in the afternoon meeting of the annual Johnson County farm bureau gathering at the American Legion building here tomorrow.

### Margaret Merritt Asks Will Change

Asking that the will now in effect in the settlement of the estate of the late Catherine Boylan be set aside, and another bearing a later date be admitted to probate in its stead, Margaret Merritt has filed a petition with the county clerk in which she lists Joseph Boylan, Joseph W. Grim, and Anna Boylan as defendants. She asks judgment for the costs of action.

Catherine Boylan died Dec. 14, 1928. A will was admitted to probate Dec. 28, 1928 in the settlement of the estate. The second will now in question was filed Oct. 22, 1930.

The Gadsden, Ala., curb market last year disposed of farm products worth \$137,450.

### I.O.O.F. Lodges Hold Installation Jan. 7

Eureka lodge 44 of the I.O.O.F. Carnation Rebekah lodge 376, and Iowa City Rebekah lodge 416 will hold a joint installation here Jan. 7. Pinocchio players of Eureka lodge 44 and the I.O.O.F. lodge at Oxford will meet in a playoff of a tournament at Oxford tonight.

Nebraska's first agricultural substation, now a year old, is on a self-sustaining basis.

### Millers Flay Export Wheat Cut Scheme

#### Plan Proposes Limit to Domestic Use; No Exports

CHICAGO, Dec. 18 (AP)—The modern miller says: "The relations between farmers and millers are inseparably tied up in the underlying fact that the farmer grows the wheat and the miller grinds it. Millers have contributed to farm betterment through distribution of seed wheat crop improvement and the cultivation of friendly relations, and in developing an export flour trade that for 50 years has provided an outlet abroad for 60,000,000 to 100,000,000 bushels of the wheat the farmer has produced. This trade with any kind of tactful assistance or fostering can easily be maintained. Millers sympathize with relief. If a vote of the farmers were taken, we are confident that it would be overwhelmingly in favor of retaining this trade. The millers have gone along with the farmers, and were sympathetic in any sound measures for farm relief. They have been right on that basis until it gradually developed that the farm board policy was aiming at the destruction of millers trade to the extent of 12,000,000 barrels of flour per year.

"We find the Farmers National Grain corporation seeking friendly relations between millers and co-operatives in trade relations based on grinding 60,000,000 bushels less wheat in order that the experiment of growing wheat only for domestic use may be given a trial. We ask if this is not like the butcher who puts the lamb before he cuts its throat?"

Export Sales 500,000 Bushels

North American export wheat sales today in all positions were estimated at 500,000 to 700,000 bushels all Canadian. There was a better export inquiry in the market for rye but no actual business was confirmed.

July wheat in Chicago finished 1c lower as compared with prices prevailing when Liverpool closed today. Open interest in grain futures on the Chicago board of trade: wheat—Tuesday 155,549,000 bushels, Wednesday 155,520,000, week ago 156,268,000. Corn Wednesday 54,250,000, Tuesday 55,302,000, week ago 55,840,000.

### G.O.P. Group Talks of Iowa Districts Loss

Redistricting of the state of Iowa was considered by representatives of the Republican party of the second district as they convened in Davenport yesterday.

Due to the fact that Iowa is to lose two congressional representatives as a result of a decrease in population, the state legislation will redistrict the state reducing the number of congressional districts to nine. The plans for redistricting formulated at the Davenport meeting will be presented to the state legislature at its next session.

Johnson county is being represented at the Republican meeting at Davenport by Kenneth M. Dunlop, Dr. John Voss, and Senator George M. Clearman of Oxford.

Meetings will also be held in other congressional districts of Iowa to formulate plans for redistricting the state.

### Fire Chief Warns Fraternity, Sorority Houses of Danger

All fraternities and sororities are advised by Fire Chief Herman J. Amish to leave a competent meeting in their houses during the holiday recess. In the past, several fires have occurred in houses during the vacation period which could have been prevented if someone had been there to extinguish them or call the fire department before they got underway.

If some of the houses should be vacated, the water should be shut off and the pipes drained. Chief Amish stated that they have had several calls to turn off the water where the pipes have burst.

### Chicago Grain

CHICAGO, Dec. 18 (AP)—Cash wheat trade was moderate today, with the trading basis on all winter and spring grades holding firm and prices about unchanged. Milling demand was good, with sales of 70,000,000 bushels making a total of about 400,000 bushels this month; deliveries 19,000 bushels; cancellations 1,000 bushels; estimated receipts 32 cars, export business in all positions estimated at 500,000 bushels.

Shipping sales totaled 55,000 bushels; estimated receipts 160 cars; country offerings light; booked to arrive 6,000 bushels; sales to go to store 50,000 bushels; deliveries 442,000 bushels.

Demand for cash oats was good with prices 1-1/2c higher and the trading basis firm. Receipts were estimated at 24 cars; shipping sales 82,000 bushels; cancellations 10,000 bushels; deliveries 5,000 bushels; country offerings small.

### Amish Blames Avoidable Dangers for Yule Blazes

Fire Chief Herman J. Amish in a statement yesterday said, "Every year Christmas fires turn the celebration into a time of distress and mourning for some people. Avoidable fire dangers and carelessness are principally to blame.

Chief Amish urges every citizen of Iowa City to cooperate to the utmost in safeguarding life and property during this holiday season when unusual fire hazards abound. Some of the precautions most necessary at this time are:

Inflammable decorations should not be draped from, or attached to electric or gas fixtures.

The Christmas tree should be securely anchored to a heavy, solid base and set away from heating and lighting fixtures.

Avoid all inflammable tree decorations and do not use lighted candles. If electric lights are used on the tree be sure all connections are properly insulated.

Do not allow children to meddle with tree lights or with connections on electric toys. Keep matches and volatile fluids out of the reach of children and do not give them toys requiring alcohol, naphtha, or gasoline to operate. Keep a fire extinguisher or pail of water ready for instant use.

Keep the fireplace well screened. Do not allow all the electric lights in the house to be turned on for a long period of time. Disconnect the power on all lighted decorations when leaving the house or retiring at night.

### Repair Work to Start Soon at Post Office

"Construction of the \$125,000 addition to the post office here will start as soon as approval of building materials is received from officials in Washington, D. C.," said O. Halverson, construction superintendent for the Henry B. Ryan company of Chicago, yesterday.

A. B. Rider, government construction engineer, arrived here Tuesday to supervise the work. He will remain here until the building is completed.

The roof of the old postal quarters is being removed and erection of a second story will be started soon. The new addition will also be two stories high.

### Iowa City High to Give "Perfect Gift"

"The Perfect Gift," a Christmas play, along with a Christmas reading and music will make up the program of the Christmas assembly to be presented at the Iowa City high school today at 8:40 a. m.

Cast of the play is Robert Hedges, Hagar; Thelma Jhoenk, Rubanah; Robert Barrick, Elkannah; Margaret Cutler, Jarath; Patricia Trachsel, Leah; Joan Jhoenk, Joel; Ruth Aurner, Madonna; Woodrow Fousek, Ralph Houser; and Sidwell Smith, shepherds.

"The Angels and the Shepherds," a reading, will be given by Mary Snyder, and a mixed chorus will furnish Christmas carols.

### Lighted Christmas Trees Send Good Cheer at Hospitals

The Christmas spirit in evidence at the university hospitals this year, has spread for miles around—in fact, as far as the lighted towers of the general hospital can be seen. Two shapely, electrically lighted Christmas trees, one on either side of the tower send forth Christmas cheer for a great distance.

Two Christmas trees at the entrance of Westlawn, children's, psychopathic, and general hospitals were electrically lighted yesterday. This completed the holiday decorations at the hospitals.

### Commercial Group Adds Six Directors

Six new directors of the chamber of commerce were named Wednesday when the general election returns were announced by David W. Crum, secretary.

They are: Forrest B. Olsen, Henry G. Walker, Edward A. Chappell, Jay J. McNamara, William L. Davis, and Chester A. Phillips. These men with six others will compose the 1931 board.

All of the elected directors have been in chamber of commerce work. Mr. McNamara is the new president of the merchants' bureau, a position which Mr. Davis held last year. Mr. Phillips was president of the chamber of commerce for two years. The other three men have served on the board of directors.

A total of 175 votes were cast.

### Local Group Entertains at Dinner, Ritual for High Officials

Royal Arch Masons from Cedar Rapids, Washington, Muscatine, and West Liberty have been invited to attend the York Rite Festival this evening in the Masonic Temple at 6 o'clock.

Among those who are expected to attend are Charles H. Haney, most excellent grand high priest, Hampton; Harry M. Bradley, right excellent scribe, Brooklyn, and Harry B. Sherman, grand custodian, Ft. Dodge.

Reservations for the dinner, which will be held in the dining room at 6 o'clock, should be made with W. M. Ball. Following the dinner the ritualistic work will be exemplified for a class of 10 candidates in the main reception room.

Dr. O. B. Limoneth, high priest will be in charge of the ritual work of the most excellent master degree. A chorus of 10 male voices will accompany the work. L. B. Mercer will be leader of the choir and music.

### Repair Work to Start Soon at Post Office

"Construction of the \$125,000 addition to the post office here will start as soon as approval of building materials is received from officials in Washington, D. C.," said O. Halverson, construction superintendent for the Henry B. Ryan company of Chicago, yesterday.

A. B. Rider, government construction engineer, arrived here Tuesday to supervise the work. He will remain here until the building is completed.

The roof of the old postal quarters is being removed and erection of a second story will be started soon. The new addition will also be two stories high.

### Lighted Christmas Trees Send Good Cheer at Hospitals

The Christmas spirit in evidence at the university hospitals this year, has spread for miles around—in fact, as far as the lighted towers of the general hospital can be seen. Two shapely, electrically lighted Christmas trees, one on either side of the tower send forth Christmas cheer for a great distance.

Two Christmas trees at the entrance of Westlawn, children's, psychopathic, and general hospitals were electrically lighted yesterday. This completed the holiday decorations at the hospitals.

# Red and White Cagers Invade Dubuque in First Road Trip of Season

## Little Hawks Workout for Dubuque Tilt

Coch Wells to Take Nine on Trip to River City

A long drill in dribbling and basket shooting was handed the Iowa City high school cagers last night by Coach George Wells in the last practice session before the coming game at Dubuque tonight.

The Little Hawks will leave this afternoon for the river city. The trip is to be made in automobiles. Nine men are being taken on the squad.

**Hawlets Improve**  
Following the fundamental drill the Little Hawk coach sent his charges through a scrimmage session that proved fast. The Hawlets have improved much over their showing against Grant high of Cedar Rapids a week ago and the City high center expects them to furnish the river city outfit some keen competition.

Defense has been stressed chiefly this week with special work being done on the passing game. The Wellmen have improved their passing and in practice there have been few wild passes the last few days.

The nine men making the trip are: Cleatus Stimmel, Capt. Eldred Vestermarck, Bud Wright, Ken Barwick, Wesley Walters, Bob Barwick, Johnny Van der Zee, Lorne "Ike" Isensee, and Theodore Miller.

Coach Wells announced last night that he would probably start Wright and Ken Barwick at the forwards; Stimmel at center; and Vestermarck and Walters, guards. This combination gives the Little Hawks size and basket shooting ability.

Substitutions will be made from time to time during the game, however, in order to give some of the others a chance to season a bit and to show their wares.

It is the second game of the Mississippi Valley conference season for both outfits and since both dropped their first starts, this contest may prove to be a fast session.

## Quad Sidelines

By "MEL"

West Side hoopers take a lay-off with the coming of the Christmas recess, and will resume hostilities Friday evening Jan. 9, 1931.

The second night of play saw the section C heavyweight quintet, one of the favorites to cop the divisional title, upset by the A five. The latter played a totally different game from their opening encounter.

Ernest Nelson, forward, played a brilliant game, and was ably assisted by Kennedy and Kendall.

Section D heaves strode through the B team, finding little opposition. Clarence Petersen, D forward and tournament high scorer, again was the big gun in the D win. The D's appear to have the inside track in the race for the heavy cup.

As expected, the C lightweight came through with their second win, but only after a tough battle with the A five. The margin of victory was one point. Section D lightweight now have the doubtful honor of not scoring a field goal in two games. They were shutout by the B cagers in the last game.

Standing of the teams:

Lightweight Division				
	G.	W.	L.	Pct.
B	2	2	0	1.000
C	2	1	1	.500
A	2	1	1	.500
D	2	0	2	.000

Heavyweight Division

	G.	W.	L.	Pct.
D	2	2	0	1.000
C	2	1	1	.500
A	2	1	1	.500
B	2	0	2	.000

## Cloggers Complete Elementary Steps; Practice Time Tap

The elementary clogging classes in the men's physical education division have advanced faster than was expected, according to Aaron Kipnes, who is directing the three elementary classes and the one advanced class.

All of the elementary works have been completed, and the work this week has dealt mostly with the entrance steps, the pull-ups, and the scissors. More advanced work will be taken up after the holidays.

Two more men have registered in the advanced class. The section has room for a few more men who

## Sportively Speaking

By Bill Rutledge

The showing of our Hawkeye basketball team in the two of the four games preliminary to the Big Ten race haven't discouraged Rolle Williams, the cage chieftain, in the least. Instead of pacing the floor and bemoaning the tough luck that let victory slip through Iowa's fingers in the Bradley encounter, Rolle is optimistic.

He has implicit faith in the sophomore squad that it will acquire the confidence and steadiness to stand the gaff of a terrific conference campaign.

While the rest of are entertaining Santa Claus and ushering in the New Year, the Old Gold basketballers will be practicing and playing two exhibition games in an effort to obtain polish and finesse.

**Tuesday Iowa plays the Creighton Bluejays at Omaha.** January 5 the Hawkeyes engage the Drake Bulldogs at Des Moines. The Old Gold makes its first appearance in Big Ten basketball in two seasons Jan. 10, when Iowa opens the conference season here with Minnesota.

The Gophers have had a long time less on ninth place in the conference cage standings and it appears that the team will not expire this season. The only game Minnesota has played was Saturday when the Gophers turned back Grinnell, 25 to 10.

Iowa fans have seen things both surprising and disappointing in the basketball team.

They have been surprised in the remarkable improvement the squad showed in the Bradley game after its ragged demonstration against St. Louis. They have been delighted with the guarding of Marshall Riegest, pleased with the all around ability (clashed by Al Rogers and the promise shown by Jack Kotlow.

They have been disappointed in "Red" Barger. The husky Muscatine center has the ability but is shaky and unsteady. Otherwise it would be impossible to keep him out of the lineup.

Dispatches from New York city indicate that the heavyweight prize fight situation will be further befuddled by another Schmeling-Sharkey fight. Despite the blurry and acrimonious outcome of the last bout, in which Sharkey won the championship for Max by fouling him, the Garden corporation seems determined to impose another scrap between the two upon the gullible fight public.

Young Sharkey is about the best heavyweight in the United States. But not being under the Garden's supervision, he is regarded by the cauliflower leaders as sort of a non-uniform fighter.

While Schmeling and Sharkey have been sleeping like the hare in Aesop's fable, Stribling has been prodding along like the turtle. He has shoved Otto Von Porat, Phainting Phil Scott, and Tuffy Griffiths out of the title picture. The Georgian can't be overlooked in titular considerations.

The New York commission regards itself as the overseer of the heavyweight championship. It has demanded that Schmeling answer Sharkey's challenge in 15 days or he suspended.

The National Boxing Commission threatens to recognize Strib as the champ, due to Schmeling's failure to defend his crown six months after winning it. From the Chicago stadium comes the story that Stribling and Schmeling will fight it out in Soldier's field.

have completed one year's tapping. The class is open to all university men with one year of clogging experience, and may be taken either as an elective or as a requirement in physical education.

In addition to the forward time steps, and the draw back with the time tap, a special comedy step has also been taught the advanced class this week.

## Knute Rockne Registers at Mayo Clinic

Coach Rests Following Strenuous Year at Notre Dame

ROCHESTER, Minn., Dec. 18 (AP)—Worn by the strenuous football season, Knute Rockne, famous coach at Notre Dame, was registered at the Mayo clinic here again tonight for a physical inventory.

Although Rockne said he feared a recurrence of an old leg ailment which laid him low last spring, his physician, Dr. C. J. Barborika, said a preliminary examination revealed the coach may be suffering from a fatigued physical condition. Further examinations will be made later, but Dr. Barborika said he expected to find nothing organically wrong.

"Mr. Rockne looks fine," the physician said, "except that he is tired from strain and from making three or four speeches every day. His condition is just what is expected of anyone who has gone through such a strenuous season."

Dr. Barborika said it would be at least three days before he could announce anything definite on the coach's condition. Meanwhile, Rockne will rest.

Frank Leahy, first string tackle of the Notre Dame Ramblers, accompanied his coach to the clinic. Leahy injured his knee early in the season and has been out of the game since. He will undergo an examination to determine whether surgical attention is needed.

## Ernie Schaaf Tackles Max Baer Tonight

NEW YORK, Dec. 18 (AP)—A couple of heavyweights from the sophomore class, Max Baer of San Francisco and Ernie Schaaf of Boston, will grab the spotlight in the Madison Square Garden tomorrow night to display what brand of power and ability, if any, lurks in the youngsters of the division.

Baer, a 200 pound puncher with a record of 24 knockouts in 27 matches, is new to eastern rings, and Schaaf, a former sailor with more experience, has never appeared before in the Garden. Schaaf is a protégé of Jack Sharkey, however, and holds two decisions over Tommy Loughran. Sharkey is scheduled to second him tomorrow night.

**Yearling Baseballers Hold Brisk Workout**  
Instruction on fundamental plays, pepper games, and infield workouts kept the freshman baseball candidates busy during a hard practice session yesterday. Four different infield combinations went on the field, house diamond and were sent through a snappy practice.

**Famous Jockey Dies**  
NEW YORK, Dec. 18 (AP)—Clarence Kummer, whose heels booted the great Man O'War home and drove some of America's finest thoroughbreds to victory less than a decade ago, died of pneumonia today at his home in Jamaica, Queens. He was 31 years old.

As part of a "city beautiful" plan the council of Lorain, O., has bought 5,000 lilac plants, expecting to later increase the number to 100,000.

Walton Parish church, Liverpool, England, is celebrating its thousandth anniversary.

Five hundred head of elk were designated as the maximum number to be killed in 1930 by hunters out of the northern herd of 10,600 in Yellowstone canyon, Montana.

Shipments of dairy products from Duluth, Minn., to lower lake ports have increased 700 per cent in the last decade.

Tea had been taxed in England for 300 years until the duty was abolished in the budget last year.

## Strikes and Spares

A. Tauber and Jones are leading the individual scoring of Dec's Recreation league with an average of 187 pins per game. A. Tauber has an advantage over Jones because he has bowled 33 games while Jones only bowled 12 games. Following are the individual averages of the league:

	G.	Pins	Ave.
A. Tauber	33	6194	187
Jones	12	2245	187
Novotny	33	6110	185

## Matmen to Practice During Yule Recess

University of Iowa grapplers will not be able to partake of all the holiday festivities if Coach Mike Howard's last minute instructions are heeded.

"Just a two or three mile jog every morning and workouts on the mat whenever possible will be all the work you men need to do during vacation," Coach Howard advised the squad yesterday.

Most of the varsity candidates will return to school several days early in order that they may be in the pink when they take on Nebraska here Jan. 10. This season will find the Hawkeye matmen facing six strong teams, four of them Western conference foes.

## Alumni Congregate at Creighton Game

Some 300 University of Iowa alumni from Omaha, Council Bluffs, and vicinity will congregated next Tuesday to watch the Hawkeye basketball team play Creighton university at Omaha.

Carl G. Seashore, university alumnus who is now an Omaha resident, is in charge of the alumni rally. An Iowa athletic team has not appeared in the Nebraska city for more than six years.

England's customs and excise revenue decreased approximately \$24,000,000 during the year ending March 31, last.

Walton Parish church, Liverpool, England, is celebrating its thousandth anniversary.

Five hundred head of elk were designated as the maximum number to be killed in 1930 by hunters out of the northern herd of 10,600 in Yellowstone canyon, Montana.

Shipments of dairy products from Duluth, Minn., to lower lake ports have increased 700 per cent in the last decade.

Tea had been taxed in England for 300 years until the duty was abolished in the budget last year.

## Fesler, Ohio Star, Slated All-American

Collier Choice Lists Carideo, Ticknor, on Team

NEW YORK, Dec. 18 (AP)—Collier's Weekly today made public its all-America football selections for 1930. The first team selections follow:

Ends—Dalrymple, Tulane, and Fesler, Ohio State.

Tackles—Sington, Alabama, and Rhea, Nebraska.

Guards—Koch, Baylor, and Beckett, California.

Center—Ticknor, Harvard.

Quarterback—Carideo, Notre Dame.

Halfbacks—Pinkert, Southern California, and Dodd, Tennessee.

Fullback—Macaluso, Colgate.

The magazine through its "selection committee," named two additional players as utility men. They are Mel Hish, Washington State's center, as utility lineman, and Orville Mohler, Southern California, utility back.

"Ticknor and Carideo," the committee set forth, "are the only names of this year's list who also appeared on the all-American last year. Ticknor last year had the highest percentage rating of any man on the team and this year he is tied with Fesler for the same honor, receiving a percentage of 92.5. The other players were rated as follows: Hein 91.7, Carideo 91.4, Sington and Dodd, 90.8, all others 90."

## Parlor City Quintet Test for St. Pat's

University of Iowa grapplers will not be able to partake of all the holiday festivities if Coach Mike Howard's last minute instructions are heeded.

Just a two or three mile jog every morning and workouts on the mat whenever possible will be all the work you men need to do during vacation," Coach Howard advised the squad yesterday.

Most of the varsity candidates will return to school several days early in order that they may be in the pink when they take on Nebraska here Jan. 10. This season will find the Hawkeye matmen facing six strong teams, four of them Western conference foes.

## Alumni Congregate at Creighton Game

## Intramuralites

By ED

Fraternity basketball artists took to the field house courts Wednesday night in the final games before Christmas vacation. Delta Tau Delta, winner of the tournament for two years, was given its first setback by Delta Upsilon, 9 to 8, after three extra periods were necessary in order to settle the verdict. The game was wild and rough from the start, both teams playing erratic ball. The closing run found the two teams knotted at six counters apiece. The first extra stanza was scoreless although D. U. had a golden opportunity to clinch the contest with a gift shot as the period ended but missed the bucket.

Both teams came through with long field goals in the second additional period and the score was again tied at eight all. In the final period both teams threw wild at the hoop in the hopes of a stray shot finding its wayward way and with 30 seconds of play remaining Dikeman of D. U. was fouled and made good his attempt to bring home the bacon for the winners.

**Sig Pis Lose**  
In a wild contest, Phi Kappa Sigma nosed out Sigma Pi by a football score of 7 to 6. Schach was outstanding for the Phi Kappa Sig with five points while Laws of Sig Pi played a nice game.

Delta Sigma Pi, led by Davidson and Davis, walked over Theta Xi and kept its slate clean in section two by a 21 to 6 total. Davidson was high point man for the winners with nine points and Butler and J. Fryberger were best for Theta Xi.

Phi Gamma Delta and Chi Kappa Pi staged a hot duel and after a game full of real thrills the Phi Gams crawled out ahead in an extra period of play. The final count was 17 to 15. Kearney of Phi Gam and Kehrer of Chi Kappa Pi were head and shoulders over the rest of the battlers. Kearney registered 14 counters for the winners while Kehrer hit the hoop for 12 tallies besides playing a heady floor game. Gallup and Wendell also stood out for the winners.

**Sig Nus Get Forfeit**  
Sigma Nu continued their drive for section three honors when they walked off with a forfeit over Aecia after the latter quintet failed to appear for the game. This default puts the Sigma Nu aggregation three games won on the winning side of the column.

Professional league teams took to the floor in numbers, three good games being played. Phi Chi scored a win over Alpha Kappa Psi, 14 to 9, in a game that was close from start to finish. Damitz and Lohrer were shining lights for the winners while Eeckhardt and Holmes were best for A. K. Psi.

**Engineers Get Going**  
Cleaman and Aschenbrenner led Theta Tau to a win over Alpha Chi Sigma by a score of 37 to 13. Cleaman garnered 16 tallies for the winners while Seegers played a nice floor game for the losers.

Phi Epsilon Kappa walked all over Phi Delta Chi and won easily, 17 to 2. Mitchell and Rath stood out for the athletic fraternity while Boeke was best for Phi Delta Chi. Phi Delta Phi and Delta Sigma Delta failed to appear for their scheduled game.

## "Lucky Pocket Piece Helps Win Games," Says Athletic Star

PHILADELPHIA, Dec. 18 (AP)—It was not alone the right arm of George Earnshaw that helped to win the American league pennant and the world's baseball championship for the Philadelphia Athletics last season, but a lucky pocket piece was an important factor, the pitching ace said today.

**Describes Charm**  
Earnshaw was the guest speaker at the weekly luncheon of the Poor Richard club. He told the members the luck charm was a bronze medal about the size of a half dollar with the likeness of Benjamin Franklin on one side and "The Poor Richard club wishes you good luck" inscribed on the other.

George was given this medal last spring and a few days afterward he won an easy ball game and decided to carry it with him in all ball games.

**Helps in Series**  
A few days before the world's series began, Earnshaw said, he lost the medal and it was not found until the second day of the series. "I carried it in the game and won and I have had it with me ever since," said George.

"It's not hard to compile a record as a winning pitcher," said George, "when you have a great pitcher like Lefty Grove hanging around and waiting to finish up a game in case you weaken."

## English Slugger No Match for Carnera; Referee Stops Bout

LONDON, Dec. 17 (AP)—Primo Carnera, Italian man-mountain, brushed aside the puny efforts of Reggie Meen, English heavyweight, in less than two rounds at Albert Hall tonight. The referee stopped the unequal struggle after Meen had been floored twice in the second round.

Meen, a curly haired, pink checked youth of 203 pounds from some shoe factory in the north of England, was game enough and received a great ovation for his efforts in the first round when he held the 268-pound Venetian on fairly even terms. But it was a contest between a mountain and a mouse and Meen never really had a chance.

Carnera settled down to business in the second round and floored his man twice and the bit crowd yelled for the referee to halt the carnage.

Much interest is being shown in the work, and Coach Schroeder is well pleased with the advancement made by the class.

The bat-fish, native to the semitropical waters of the Gulf of Mexico, appears to walk, hopping along on its tail.

Much interest is being shown in the work, and Coach Schroeder is well pleased with the advancement made by the class.

The bat-fish, native to the semitropical waters of the Gulf of Mexico, appears to walk, hopping along on its tail.

## STEPPING INTO A MODERN WORLD

## Charting tomorrow's telephone needs

Looking ahead — laying a firm foundation for tomorrow's telephone service — has long been a keystone policy of the Bell System.

To illustrate: business starts creeping into a residential district — a sign that greatly increased telephone facilities will be required. Through intensive studies, commercial engineers forecast the needs

of five or more years hence with scientific accuracy. Additional exchanges, cable ducts, equipment of all kinds are planned and built. When the call comes the telephone company is ready.

So long as the nation continues to change and grow, the plotting of its future telephone needs will never grow dull. *The opportunity is there!*

## BELL SYSTEM

Remember! The Last Night! Better Be There!

## Charting tomorrow's telephone needs

Looking ahead — laying a firm foundation for tomorrow's telephone service — has long been a keystone policy of the Bell System.

To illustrate: business starts creeping into a residential district — a sign that greatly increased telephone facilities will be required. Through intensive studies, commercial engineers forecast the needs of five or more years hence with scientific accuracy. Additional exchanges, cable ducts, equipment of all kinds are planned and built. When the call comes the telephone company is ready.

So long as the nation continues to change and grow, the plotting of its future telephone needs will never grow dull. *The opportunity is there!*

## Money for Nothing

By P. G. Wodehouse

**Synopsis of Preceding Instalments**  
Lester Carmody, who values money above tradition, wants to sell certain family heirlooms, but is prevented by law from doing so. Dolly and "Soapy" Molloy, crooks who pose as rich Americans, suggest a fake burglary to do the trick. He agrees, and they engage Chimp Twist, a crook who poses as a health expert, to carry out the details. He does the job, but is seen by the butler, who tells John Carroll, Carmody's nephew. John, knowing nothing of the plot, goes to Twist's sanatorium to question Twist, and Dolly goes, too. She not only has John drugged and locked up, but also gives knock-out drops to Twist. Then she phones "Soapy" to seize the loot, which is supposed to be concealed in Carmody's house, and meet her in London. "Soapy" encounters one obstacle. Carmody, suspecting his motive, has hidden the loot. "Soapy" accidentally learns that it is in the luggage office of a nearby railway station, and that the claim ticket is on John's person. He dashes for Twist's sanatorium, where both John and Twist are recovering from their knock-out drops. John's imprisonment has already caused him to miss an engagement with Patricia Weyern who has just begun to look favorably upon his suit.

### Twenty-Seventh Instalment

The dawn of what promised to be an eventful day broke grayly over Healthward Ho. By 7 o'clock, however, the sun had forced its way through the mists and at eight precisely one of its rays, stealing in at an angle, fell upon Sergeant-Major Flannery, lovely in sleep. He opened his eyes, and, realizing that another morning had arrived with all its manifold tasks, heaved himself out of bed and began his simple toilet. This completed, he made his way to the kitchen, where a fragrant smell of bacon and coffee announced that breakfast awaited him.

His companions in the feast, Rosa, the maid, and Mrs. Evans, the cook, greeted him with the respectful warmth due to a man of his position. However unpopular Mr. Flannery might be with the patients of Healthward Ho, he was always sure of a hearty welcome below stairs. Rosa worshipped his mustache, and Mrs. Evans found his conversation entertaining.

Today, however, though the mustache was present in all its pristine glory, the conversation was lacking. "A penny for your thoughts, Mr. Flannery," said Mrs. Evans, piqued. The sergeant-major started. It came to him that he had been remiss. "I was thinking ma'am," he said, "of a pork and bean, of what I may call the sadness of life."

"Life is sad," agreed Mr. Evans. "That veritable case upstairs," proceeded Mr. Flannery. "Now there's something that makes your heart bleed. That young fellow, no doubt, started life with everything pointing to a happy and prosperous career. Good home, good education, everything. And, just because he's allowed himself to fall into bad habits, there he is under lock and key, so to speak."

"Can he get out?" asked Rosa. Mr. Flannery raised his eyebrows. "No, he cannot get out. And, if he did, you wouldn't have nothing to fear, not with me around."

"I'm sure it's comfort, feeling that you are around, Mr. Flannery," said Mrs. Evans. "Almost the very words the young fellow's sister said to me when she left him here," rumbled Mr. Flannery. "She said to me, 'sergeant-major,' she said, 'it's such a relief to feel that there's someone like you 'ere, sergeant-major,' she said. 'I'm sure you're wonderful in any kind of an emergency, sergeant-major,' she said. 'He sighed. 'It's thinking of 'er that brings home the sadness of it all to a man, if you understand me. What I mean, here's that beautiful young creature racked with anxiety, as the saying is, on account of this worthless brother of hers...'"

And, at the end of it all, Sergeant-Major Flannery left the table short one egg and a slice of bacon of his normal allowance. At this moment one of the bells above the dresser jangled noisily. "That's Him," said Mrs. Evans. "Go and see what He wants." She usually referred to the proprietor of Healthward Ho by means of a pronoun with a capital letter, disapproving, though she recognized its aptness, of her assistant's preference for the sobriquet of Old Monkey Brand. "If it's His breakfast tell Him He'll be ready in a minute."

Rosa departed. "It's not His breakfast," she announced, returning. "It's the Case upstairs's breakfast. Old Monkey Brand wants to have a look at it before it's took him."

"Don't call Him Old Monkey Brand." He's to have some bacon and eggs and toast and a potter coffee," said Rosa. "And old Lord Twist wants to have a look at it before it's took him."

fall to have upon the patients, if they saw him. He knocked out his pipe and peered cautiously through the branches. Then he perceived that he need have no alarm. It was only Rosa. She was standing with her back to him holding a laden tray. "Mr. Flannery-ee!" called Rosa, and scanned the horizon. It was not often that Sergeant-Major Flannery permitted himself any action that might be called arch or roguish, but his meditations in the shrubbery, added to the mellowing influence of tobacco, had left him in an unusually light hearted mood. The sun was shining, the little birds were singing, and Mr. Flannery felt young and gay. Putting his pipe in his pocket, accordingly, he crept through the shrubbery until he was immediately behind the girl and then, in a tender whisper, uttered the single word: "Boo!"

All great men have their limitations. We recognize the inevitability of this and do not hold it against them. One states, therefore, not in any spirit of reproach but simply as a fact of historical interest, that tender whispering was one of the things that Sergeant-Major Flannery did not do well. Between intention and performance there was, when Mr. Flannery set out to whisper tenderly, a great gulf. The actual sound he now uttered was not unlike that which might proceed from the fog-horn of an Atlantic liner or a toastmaster having a fit in a boiler shop, and, bursting forth as it did within a few inches of her ear, without any warning what soever, it had on Rosa an extraordinary effect. From trivial causes great events may spring. Rosa sprang about three feet. A sharp squeal escaped her and she dropped the tray.

Sergeant-Major Flannery recognized at once that he had done the wrong thing. By allowing himself to be, for the moment, a disembodied voice, he had made a mess of things. Among the things he had made a mess of were a pot of coffee, a pitcher of milk, a bowl of sugar, a dish of butter, vessels containing salt, mustard, and pepper, a rack of toast, and a plateful of eggs and bacon. All these objects now littered the turf before him, and, emerging from the shrubbery, he surveyed them ruefully.

"Oo-er!" he said. "Oddly enough, relief rather than annoyance seemed to be the emotion dominating his companion. If ever there was an occasion when a girl might excusably have said some of the things girls are so good at saying nowadays, this was surely it. But Rosa merely glanced at the sergeant-major and then, with a look of respect, she said: 'I thought you was the Case upstairs!'" she gasped. "When I heard that ghostly sound right in my ear, I thought it was him got out."

"You're all right, my girl," said Mr. Flannery. "I'm 'ere." "There, there!" said the sergeant-major. In spite of the feeling that he was behaving a little prematurely, he slipped a massive arm around the girl's waist. He also kissed her. He had not intended to commit himself quite so definitely as this, but it seemed now the only thing to do. Rosa became calmer. "I dropped the tray," she said. "Yes," said Mr. Flannery, who was quick at noticing things. "I'll better go and tell him."

"Tell Mr. Twist?" "Well, I'd better, hadn't I?" Mr. Flannery demurred. To tell Mr. Twist involved explanations, and explanations, if they were to be convincing, must necessarily reveal him, Mr. Flannery, in a light none too dignified. It might be that, having learned the facts, Mr. Twist would decide to dispense with the services of an assistant who, even from the best motives, hid in shrubberies and said "Boo!" to the maids.

"You listen to me, my girl," he advised. "Mr. Twist is a busy gentleman that has many responsibilities and much to occupy him. He don't want to be bothered with no stories of dropped trays. All you just do is run back to the kitchen and tell Mrs. Evans to cook the Case some more breakfast. The coffee-pot's broke, but the cup ain't broke and the plate ain't broke and the mustard-pepper-salt thing ain't broke. I'll pick 'em up, and you take 'em back on the tray and don't say nothing to nobody. While you're gone, I'll be burying what's left of them eggs."

"But Mr. Twist put something special in the coffee?" "When I took him in the tray just now, he said, 'Is that the Case Upstairs's breakfast?' and I said, 'Yes, it was, and Old Monkey Brand put a tablet of something in the coffee-pot. I thought it might be some medicine he had to keep him from breaking out and murdering all of us.'" Mr. Flannery smiled indulgently. "That Case Upstairs don't need nothing of that sort, not when I'm around," he said. "Doctor Twist's 'ke all these civilians. He gets unduly nervous. He don't understand that there's no need or necessity or occasion whatsoever for these what I may call sedatives when I'm pick 'em up, and you take 'em back on the tray and don't say nothing to nobody. While you're gone, I'll be burying what's left of them eggs."

"But Mr. Twist put something special in the coffee?" "When I took him in the tray just now, he said, 'Is that the Case Upstairs's breakfast?' and I said, 'Yes, it was, and Old Monkey Brand put a tablet of something in the coffee-pot. I thought it might be some medicine he had to keep him from breaking out and murdering all of us.'" Mr. Flannery smiled indulgently. "That Case Upstairs don't need nothing of that sort, not when I'm around," he said. "Doctor Twist's 'ke all these civilians. He gets unduly nervous. He don't understand that there's no need or necessity or occasion whatsoever for these what I may call sedatives when I'm pick 'em up, and you take 'em back on the tray and don't say nothing to nobody. While you're gone, I'll be burying what's left of them eggs."

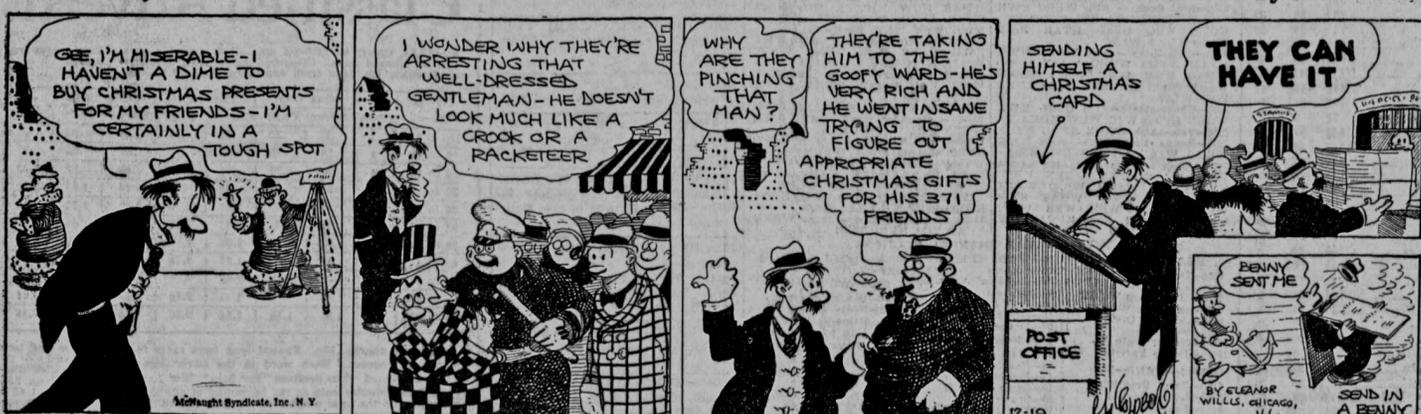

Silence reigned in the kitchen, broken only by the sizzling of bacon. "Here you are," said Mrs. Evans at length. "Get me one of them trays and the pepper and salt and mustard and be careful you don't drop it." "Drop it? Why should I drop it?" "Well, don't." Out in the garden, hidden from the gaze of any who might spy him and set him to work, Sergeant-Major Flannery lolled in the shrubbery, savoring that best smoke of the day, the after-breakfast pipe. He heard footsteps on the gravel path that skirted the shrubbery, and became alert and vigilant. He was not supposed to smoke in the grounds at Healthward Ho because of the maddening effect the spectacle could not

## DIXIE DUGAN—Bring on the Tin Dinner Pail Again

By J. P. McEvoy and J. H. Striebel

"Oh, Flannery," said Twist. "Sir?" "The—er—the violent case. Has 'e had breakfast?" "He was eatin' it quite 'early when I left him not five minutes ago, sir." Chimp paused. "Did he drink his coffee?" he asked carelessly. "Yes, sir," replied Sergeant-Major Flannery in a smart and respectful manner. "Oh! I see. Thank you." "Thank you, sir," said Sergeant-Major Flannery. John, having eaten his breakfast, returned to the bed and lay down. A man who wishes to think can generally do so better in a horizontal position. So John lay on the bed and stared at the ceiling, pondering. He certainly had sufficient material for thought to keep him occupied almost definitely. The more he meditated upon his present situation the less was he able to understand it. That Twist, wishing to get away with the spoils of Ridge Hall, should have imprisoned him in this room returned to the bed and lay down. He certainly had sufficient material for thought to keep him occupied almost definitely. The more he meditated upon his present situation the less was he able to understand it. That Twist, wishing to get away with the spoils of Ridge Hall, should have imprisoned him in this room returned to the bed and lay down. A man who wishes to think can generally do so better in a horizontal position. So John lay on the bed and stared at the ceiling, pondering. He certainly had sufficient material for thought to keep him occupied almost definitely. The more he meditated upon his present situation the less was he able to understand it. That Twist, wishing to get away with the spoils of Ridge Hall, should have imprisoned him in this room returned to the bed and lay down. A man who wishes to think can generally do so better in a horizontal position. So John lay on the bed and stared at the ceiling, pondering. He certainly had sufficient material for thought to keep him occupied almost definitely. The more he meditated upon his present situation the less was he able to understand it.
