NUMBER 88

# STRIKE VIOLENCE PAST, SAYS RENO

## British Leader Sees Renewal of Armament Race

### Gives Opinion After Hearing German Plans

#### President of Geneva Parley Expresses Sentiments

NEWCASTLE, England, Sept. 8 (AP)—Arthur Henderson, British labor leader and president of the Geneva arms conference, declared today that if Germany carried out her threat to withdraw from the conference the nations of the world will be plunged again into the same old race for armaments.

Henderson, making his first public pronouncement on the arms issue since the adjournment of the Geneva parley, asserted the results of that meeting were far from what he expected. He spoke before the trades union congress in session here.

**Demands Arms Cut**  
At the conclusion of his speech the congress adopted a resolution demanding drastic arms cuts the world over and expressing regret that the Geneva conference had concluded its first phase without agreement on any effective measures.

The resolution urged that the British government seek the full application of President Hoover's proposals for a blanket cut of approximately one-third in all arms. This was set up as the minimum to be desired.

The resolution was adopted unanimously, although a delegate representing the South Wales Miners union attacked the Hoover scheme with the assertion the president is "the archangel of capitalism."

**Critical Situation**  
Henderson told the congress Germany's demands for arms equality had created a critical situation. Disaster would result, he declared, if Germany left the arms conference in the belief it would be impossible to achieve success there.

### Rush Federal Relief Activity

#### Expect Full Operation of Act Within Fortnight

WASHINGTON, Sept. 8 (AP)—The Reconstruction corporation expects to have the 1932 relief act in full operation within the next fortnight.

The agricultural and self-liquidating loan sections are rapidly approaching completion with those in charge of the latter already examining a large group of proposed prospects to create jobs.

The only thing now holding back the farm section is employment of personnel to handle the agricultural credit corporations being established in 10 western and southern land bank districts. These corporations are to finance farm products of all kinds with special reference at first to putting the livestock industry on a sound basis.

The agricultural credit corporations are regarded by members of the directorate as one of the most important phases of their work. William McCarthy, a director, has devoted most of his time for the last six weeks to organizing these institutions. Ten days ago he secured the services of Ford Hovey, president of the Omaha stock yards and a banker, to organize and operate the regional corporations.

### Rush Medical Aid to Bahamas Island

NASSAU, Bahamas, Sept. 8 (AP)—A government tender left here tonight carrying doctors, nurses and medical supplies to Abaco island of the Bahamas group, which was struck by high winds Monday as a tropical disturbance made its way up the Atlantic.

Communications with Abaco were cut off and government officials here said they feared there may have been loss of life on the island.

WACUCOMA, Sept. 8 (AP)—Attacked by a bull on his farm, Wednesday, Leonard J. Gibbs, 68, farmer, was killed. The bull charged him as he started to tie up the animal after it had broken loose.

### Committees Discuss Beautification Plans for Municipal Airport

Projects for the beautification of the municipal airport were discussed yesterday at a meeting of the airport committees of the Chamber of Commerce and the city council.

According to D. W. Crum, secretary of the Chamber of Commerce, the group considered proposals for turning the river bank east of the airport into a park. This area is occupied at present by sand dredging machinery.

Other schemes for the improvement of the grounds and service at the airport were considered, although no definite plans were made. The committees will hold another joint meeting in the near future, Mr. Crum said.

### Employes to Stage Picnic

#### County Workers Plan Sunday as Date for Affair

Band concerts, diamond ball, horse shoes, cards, races, and baskets of food are expected to attract more than 300 persons to the second annual day picnic of Johnson county employes and their families Sunday.

The picnic, scheduled to start at 10:30 a. m., will be held at the Aaron Kinsinger farm on county road "O," one half mile west of Sharon Center.

**Ball Games to Feature**  
The feature of the day's program will be an elimination series of diamond ball games. At 11 a. m., a team from the road maintenance department, captained by R. E. Beard, will battle the bridge crew, led by Fred Liblin. At the same time Capt. C. W. Lacinia's court house team will match themselves against Capt. Roy Mulford and the shop force.

At 2 p. m., after dinner and a band concert, the winners of the morning tilts will fight it out for the official county championship.

**Will Direct Children's Sports**  
William Nerad and Lucille Bruner will have charge of a program of races and other sports for the children. Those not so athletically inclined will enjoy themselves by participation in the less active diversions.

The committees in charge of arrangements are: J. P. Kinsinger, Dan Dickel, W. H. Glaspey, and Stanley Fountain, grounds; Mrs. J. P. Kinsinger, Mrs. C. W. Lacinia, Mrs. L. M. Maske, and Mrs. Elmer Stimmel, dinner; and William Nerad, C. W. Lacinia, R. E. Beard, Roy Mulford, Fred Liblin, and Lucille Bruner, entertainment.

All county employes have been given invitations to attend the picnic and bring their families. Each family is expected to bring a basket well filled with the staple picnic food. In case of rain, the picnic will be postponed until Sept. 18.

### Johnson County Old Settlers Reunion Gets Crowd of 200 at Park

More than 200 persons attended the annual reunion of the Johnson County Old Settlers association yesterday afternoon at the city park. The principal address was made by District Judge R. G. Popham, who is running on the Republican ticket for re-election in November.

Mrs. Lou Lentz of North Liberty was elected president of the association for the next year. Other officers chosen are: John Wagner of Iowa City, first vice president; George Cotter of Oxford, second vice president; Joseph Walker of Iowa City, secretary; and B. V. Bridenstine of Iowa City, treasurer.

### Creditors Grab All Newton Fair Funds

NEWTON, Sept. 8 (AP)—The Newton county fair was temporarily at a standstill today when an attachment obtained by James R. Rhodes, Newton publisher, for a printing bill was served and all funds at the ticket booth seized.

An avalanche of creditors swooped down on Secretary G. Frank Wilson demanding their money and rodeo performers refused to work until fair managers personally guaranteed a portion of the claims.

### Hitler Plans Nazi, Centrist Party Union

#### May Wreck Present Government With Coalition

BERLIN, Sept. 8 (AP)—While President Von Hindenburg was assuring Chancellor Franz Von Papen today that he would support the chancellor's government through thick and thin, Adolf Hitler, leader of the national socialists, came back to Berlin to take personal charge of negotiations aimed at upsetting that government with a coalition of his Nazis and the Centrist party.

**Visits President**  
The chancellor visited the president, who has just returned to the capital from his east Prussian home, in preparation for Monday's session of the Reichstag, in which only a small group of members support the present government.

Members of the government took heart from a speech made in Munich yesterday by Hitler. The Nazi leader said in his address that he would proceed to reshape the constitution on a legal basis and that he cared nothing for titles or chancellorships so long as leadership was in his hands.

**Receives Officials**  
Although there has been no public announcement that Nazis and the Centrists have agreed on a coalition, the president will receive representatives of the two parties Saturday morning. Newspaper commentators predicted this reception will be a mere formality.

The chancellor already has been equipped with a signed decree dissolving the Reichstag, and he plans to promulgate it before the opposition has a chance to vote non-confidence in him.

### Premier of Greece Quits

#### President Refuses to Accept Resignation of Venizelos

ATHENS, Sept. 8 (AP)—Premier Eleutherios Venizelos, who has been in and out of office numerous times during the last dozen years, weathered another political storm today by surrendering the premiership for a few hours.

In response to a demand by the royalist party that he be removed from office, he presented his resignation to President Zaimis. The president refused to accept it, and thereupon M. Venizelos announced that things would go their normal course until the parliamentary elections Sept. 25.

The attack on the premier was made by P. E. Tsaldaris, royalist leader, who accused him of working with a military group in his pre-election activities.

On Tuesday M. Tsaldaris asked the president to appoint a premier who would insure uninfluenced voting.

M. Venizelos was in Crete at the time and action was held up until his return.

The regular quadrennial election is to be held late this month.

### Rio Grande Continues on Flood Rampage

BROWNSVILLE, Tex., Sept. 8 (AP)—The mighty Rio Grande, named the "Great River of the North" by Spanish explorers, rolled a yellow flood between levees on its lower stretches today and in several places broke through the barriers to inundate thousands of acres of lowlands.

While the territory submerged on the American side of the stream for the most part was uncultivated brush-land and little damage had been caused in the rich "winter garden" area, scores of homes and miles of terrain on the Mexican side had been flooded.

**Gets Nomination Papers**  
DES MOINES, Sept. 8 (AP)—C. Thilo of Slou City, obtained nomination papers from the secretary of state as an independent candidate for state railroad commissioner. He was an unsuccessful candidate for the Democratic nomination for the place in the primaries.

### Universities Receive Word of Awards for Aiding World Peace

INDIANAPOLIS, Sept. 8 (AP)—American Legion national headquarters was informed today in a cablegram from Lisbon, Portugal, that Fidac medals for distinguished service in promoting world peace and understanding have been awarded to Georgetown university, Washington, D. C.; Carleton college, Northfield, Minn.; and the University of Florida, Gainesville, Fla.

The award was made at the thirteenth international congress of the Fidac, interallied veterans' organization composed of World war veterans in 10 allied nations.

### Scouts Plan Active Year

#### New Executive Tells of Program of Activities

The Girl Scout program of events for the coming year, arranged by the executive council, was announced last night by Ruth Frierichs, executive.

Supervised play and inter-troop contests will feature play day, the first event on the calendar. The games will be at the city park on the afternoon of Oct. 8. On Oct. 15 the organization will hold a "white elephant sale," where articles useless to their owners will be sold at bargain rates. The money will go to the Girl Scout community service activity fund.

Following is the complete program for the year:  
Oct. 8—Play day.  
Oct. 15—"White elephant sale."  
Oct. 30 to Nov. 5—Girl Scout week.  
Oct. 31—All troop registrations must be made by this date.  
Nov. 5—Field day.  
Dec. 3—Court of awards.  
Dec. 5—Annual council meeting.  
Jan. 9—Council tea for leaders.  
February—Leader's training course.

Feb. 11—Mother-daughter dinner.  
March 11—Campers' reunion.  
April 22—Court of awards.  
May 13—Observation of Mother's Day.

Within the next two weeks the council members will hold a welcoming tea for Miss Fretche, who recently took the post vacated earlier in the summer by Velora Davis. Mrs. E. D. Plass is in charge of the tea.

### Early Figures on Enrollment Indicate Rise

Predicting the registration of the University of Iowa for this fall is a hazardous affair in which estimates are largely a matter of guess work, believes H. C. Dorcas, university registrar.

However, according to records kept by Mr. Dorcas, the number of students applying for, and receiving, admission cards for entrance to the university this fall compares favorably with the number at the same time last year—three weeks before the opening of the fall semester.

For the last 25 years, Mr. Dorcas has kept records during the summer of the number of students seeking admission to the university, and the figures for this year show that the applicants who have successfully filled the requirements for admission this fall slightly exceed in number those who had applied by the same date last year.

Among the students who have been sent admission cards, there is a considerable increase in the number seeking to take graduate work, Mr. Dorcas said.

### Iowa Physicians Will Finish Special Course

Twenty registered physicians of Iowa will conclude today a four day post graduate course in surgery which has been offered this week by the college of medicine with the cooperation of the extension division.

Today's program will be divided between general surgery courses under the direction of Doctors F. R. Peterson, H. D. Kerr, and G. H. Hansmann, and courses in orthopedic surgery, under the direction of Dr. Kulowski and his staff. Instruction and demonstrations will be given from 8 to 12 a. m., and from 1 to 5 p. m.

### FROM PRIMARY TO PREMIERE

Perhaps to celebrate his victory in the primary as Democratic nominee for United States senator from California, William Gibbs McAdoo and his daughter Eileen attended a movie premiere in Hollywood. Here they are as they arrived at the theater. Left to right are: Jack Warner, film executive, Miss McAdoo, her triumphant father and Dickey Jones.

### Coroner's Jury Gives Verdict of Suicide in Paul Bern Case

#### Reason for Death Still Clouded Over With Mystery

NEW YORK, Sept. 8 (AP)—Henry Uttal, a New York lawyer, as saying that he drew up a will for Paul Bern 12 years ago and that it mentioned a "wife" called "Dorothy."

The paper reported that Uttal said he drew up the will Aug. 3, 1920, and that he had known Bern for 20 years.

"I was always under the impression that Dorothy was his wife," Uttal was quoted as saying.

"I heard somewhere that Mrs. Bern had died in a sanitarium. Bern had not mentioned her for years."

LOS ANGELES, Sept. 8 (AP)—While Jean Harlow of the films remained at home, still ill of grief and shock, a coroner's jury decided today that her husband, Paul Bern, 42, twice her age, killed himself for a reason undetermined.

The only hint of a motive was that the motion picture producer was nervous and run down and may have been a victim of melancholia induced by a physical deficiency.

This theory was expressed by Frank Webb, assistant county autopsy surgeon.

Servants at the Bern home, a wooded canyon estate which Bern deeded to Miss Harlow when they were married only two months ago, testified the couple seemed very devoted. The actress' stepfather, Marino Bello, denied that domestic discord could have figured in the suicide, saying only "love and understanding" existed between Miss Harlow and Bern.

Irving Thalberg, film executive and husband of Norma Shearer, said he knew of nothing in the marital life of the couple that would be a reason for Bern to kill himself.

Thalberg was one of the first notified last Monday morning when John Carmichael, Bern's butler, found him at home dead of a bullet wound in the head, a pistol clutched in one hand, another nearby. The butler had just returned from the Bello home where Miss Harlow had spent the previous evening to join her at dinner there, or to let her come home.

The inquest was largely perfunctory. Police had been contacted from the first that it was suicide.

By order of her physicians, Miss Harlow was not allowed to go to the inquest.

### Dickinson Issues Tariff Warning in Nebraska Address

LINCOLN, Neb., Sept. 8 (AP)—Lowering of the Smoot-Hawley tariff would "spell the doom of the American farmer and laboring man and at the same time bring calamity and bankruptcy to the industrial life of the nation," Senator L. J. Dickinson of Iowa said today at a Republican day celebration at the Nebraska state fair.

"A tariff on cattle is as important to Nebraska, as a tariff on steel products is to Pennsylvania," he said.

Pointing to Europe as probably self-sustaining now, Senator Dickinson said that Canada, the Argentine and other countries would flood this nation with cheap produce if the tariff were lifted, using cheap water rates.

He declared that it would mean "our agricultural population would be reduced to producing only sufficient for their own use or for the immediate local consuming communities."

### Pupils' Dream Comes True as School Burns on First Day of Term

MENDOTA, Minn., Sept. 8 (AP)—That ideal situation (from the pupils' viewpoint) dawned with the rising sun for school children here today.

It was to be the first day of classes, ending summer vacation. Village bells pealed, but not for school's opening. They were first bells, and the district school was the building afire.

The structure was destroyed despite efforts of adults. Origin of the flames was not determined but the children didn't mind. Any reason, they said, was good enough when the school burned on the first day of the term.

### Club Spreads Over District

#### Eicher, O'Connor Talk Before Young Democrats

Displaying prolific tendencies, the Young Democrats club of Johnson county, organized little more than a month ago, showed signs last night of blossoming out into all of the 11 counties of the first congressional district.

At a meeting in the court house at which Edward C. Eicher, candidate for congress, and Edward A. O'Connor, nominee for attorney general, spoke, a plan was presented for a district convention of the new club to be held in Iowa City the first week in October.

**Clubs Formed**  
Ray Baxter, first district committeeman of the new group, said clubs are already being formed in Burlington, Danville, West Liberty, Tipton, and Williamsburg and towns in the remainder of the 11 counties have given the plan enthusiastic support. He said the movement is expected to spread throughout the state.

Mr. O'Connor took a few minutes at the beginning of the program to clarify previous statements as to the conduct of the state banking department and the attorney general's office. He cited the statute and records of receiverships to prove that the laws stipulating the types of investments open to state banks have not been enforced by the attorney general. He also said the banking department has encouraged the purchase of bonds which state banks are specifically prohibited by law from buying.

**Fraises Movement**  
Mr. Eicher praised the Young Democrats movement and stressed the necessity for the young people of the country to become informed in matters of government and politics. He said many persons vote as a matter of habit rather than of conviction.

The new movement, he pointed out, will actually be a political school where the major differences between the two parties will be pointed out and the dominant problems of modern government will be discussed.

Mr. Eicher will return to Iowa City for the convention of the district organization when it meets in October.

### Local Legion Man Will Manage State Safety Organization

William R. Hart has been appointed highway safety director of the Iowa department of the American Legion by W. Earl Hall of Mason City, state commander, according to word received yesterday from the Iowa Legionnaire.

As director, Mr. Hart will be in charge throughout the state of the Legion's highway safety campaign, which was begun last year. He will succeed Mr. Hall, who held the position last year.

Mr. Hart is a former commander of the Roy L. Chopek post of the American Legion in Iowa City.

### Pleads Guilty to Slaying

GLENWOOD, Sept. 8 (AP)—Fred Cozad, Malvern, pleaded guilty late today to second degree murder for slaying his son-in-law, Gale Vandershule on July 20, and was sentenced to 12 years in the state penitentiary at Fort Madison. Cozad shot and killed Vandershule while a crowd looked on. Vandershule had refused a reconciliation with Cozad's daughter whom he had married several months before, later separating from her.

### WEATHER

IOWA: Unsettled Friday, possibly showers in extreme west portion, warmer in east and central portions; unsettled and cooler Saturday, probably showers in east and central portions.

## State Heads to Confer on Farm Relief

### "Public Awakened" Claims Leader of Holiday Group

STOUX CITY, Sept. 8 (AP)—Assurances of Farmers Holiday leaders that violence was ended in their battle for higher prices came today as midwestern governors or their representatives gathered here for a conference tomorrow to work out a program of agricultural relief.

Governor Warren E. Green of South Dakota, who called the conference, arrived here today with Attorney General M. Q. Sharpe to lay final plans for tomorrow's meeting.

**Clearing House**  
In a statement issued upon his arrival, Governor Green said the conference would serve as a clearing house for ideas of the various executives as well as numerous farm leaders expected to attend.

Milo Reno of Des Moines, president of the National Farm Holiday association, will not be present. He was in Oklahoma today attending an organization meeting of the association in that state.

Reno, in a speech at Oklahoma City, declared that disturbances incidental to early strike activities about Slou City, Council Bluffs and Des Moines "are over now."

**Claims Success**  
He said that already the Holiday idea has been successful in that "the main part of its purpose has been accomplished."

"The public conscience has been awakened to the condition of the farmers of the nation," Reno said. Referring to the disturbances he said "it is natural that in any movement like this there will be some occurrences that do not have the sanction of the leaders."

Outlining future plans of the Holiday association, he said that farm prices would be established on the basis of cost of production determined "by scientific, mathematical methods."

**To Demand Cost**  
"And when we decide on that cost," he continued, "that is what we are going to demand that the farmer be paid. And we are going to get it."

Simultaneously with Reno's prediction that there would be no further disturbances came assurances to Governor Floyd B. Olson of Minnesota by Holiday leaders in that state, that no violence or picketing of roads would be attempted.

Olson said the leaders told him that, if the strike is called in Minnesota, "it will be an endeavor to keep products off markets through persuasion and not through violence."

**Picketing Ends**  
E. M. Samson, of Valley, Neb., representing Holiday adherents who had been picketing roads leading into Omaha, announced that the picketing was ended permanently as far as the Holiday organization is concerned. A seven-day truce in picketing activities there was to end officially tonight.

"I don't think the boys will rush out on the highways again," Samson said. "At least they won't do it at the request of our organization and with our consent."

**Farmers Meet**  
Nebraska Holiday sympathizers were called to meet here Thursday at Fremont. Reno was expected to attend.

The Wisconsin Farm Bureau federation announced an outright stand against the Wisconsin Holiday association by advising all farmers to refrain from taking any part in the movement. Its announcement declared that the movement "cannot bring about a general increase in prices for farm products when so many consumers cannot buy at present price levels."

Governor Dan Turner of Iowa, George F. Shafer of North Dakota and Floyd B. Olson of Minnesota were expected tonight. Alvin C. Reis, Madison, Wis., attorney and former counsel for that state's department of agriculture and markets, and T. S. Allen of Lincoln, Neb., brother-in-law of Governor Charles Bryan, were to represent their respective states.

**En Route to Meeting**  
Representatives of Governors White of Ohio and Murray of Oklahoma were said to be en route here. Illinois, Montana, Wyoming, Kansas and Texas also were expected to send representatives, although no definite word has been received from the governors. The Missouri and Idaho governors were the only two who definitely rejected Green's invitation.

## Hop On—It's Free

THE WILD HORSE of the Merry Go Round has kicked another rider. Drew Pearson, Washington correspondent for the Baltimore Sun, was given the gate the other day for his part in the authorship of "More Merry Go Round," recent sequel to the curtain raising "Washington Merry Go Round."

It will be remembered that Robert H. Allen, former head of the Washington bureau of the Christian Science Monitor, lost his job when his paper learned that he was one of the authors of the first book.

Pearson claims that his dismissal came as the result of his chapter on the war department, in which he took the mask off of "Playboy" Patrick J. Hurley and revealed that gentleman as not quite the awe inspiring personage some may have imagined him to be.

Hurley, Pearson says, became decidedly indignant when he learned of the chapter about himself and threatened the correspondent with his job.

It is possible that neither Pearson nor Allen will be in need of the support of their papers henceforth, judging from the phenomenal sale of their books. To them it is probably a genuinely humorous matter all around.

For a great share of the public their dismissal simply adds more weight to their contention that persons in high places are not above stooping to pettiness and that even great newspapers will sometimes let justice go by the board in the interest of expediency.

## Silly Selfishness

INCREASING realization that the United States suffers now to a large extent because it is impossible for even the world's most prosperous nation not to feel the hardships of other countries strikes one more blow at the all too prevalent doctrine of selfishness. Short of eventual disaster, the outcome promises to be at least a brand of selfishness that is more "enlightened."

The 1931 moratorium is an example of recognition by national governments that they cannot afford to press their claims too far against a debtor nation unable to pay—because, as they saw all too clearly, the ruin of Germany would mean also their ruin to an extent far greater than the worldwide depression which gave so keen a sense of interdependence.

How long it will take the world to learn this lesson completely is another matter. It appears that now no nation can long continue to profit at the expense of other nations. This means that maintaining the U. S. standard of living far in excess of that in other nations by means of the tariff is self-destructive; continued expansion of exporting industry in this country demands a rising standard of living abroad to provide a market for more and more surplus manufactures.

This goes all down the line. No state can shut itself up and buy only home grown products; each depends on the other. Industry must give labor a greater share in what it produces or else cut down an important buying power. Unemployment is a cause as well as a symptom of hard times.

## Bandwagon Voters

JUST WHY it is hard to tell, but political parties seem to emphasize as one big item in their appeal to voters the probability of victory.

This was true in the congressional convention of this district for the Democratic party, where November triumph for every candidate on the ticket was predicted.

This has been true in the repeated assurances of Mark Sullivan that his friend Herbert Hoover and the Republican party would win once more.

And it is true a little more subtly in the frequent assertion that it all depends on the market.

The implication which is part of all these—that the U. S. voter likes to pick the winner—is anything but flattering to the status of citizenship.

While the existence of hard times tends to prove that something is wrong and a trend toward improvement tends to prove that it isn't entirely the fault of the party in power, the notion that the average voter bases his decision on whether he has a full stomach and how things look on the first Monday after the first Tuesday in November doesn't do credit to him.

## A Happiness Serum

A LONG CHANCE saved a man's life in California within the last few days, and left him, an attempted suicide, with a new interest in life and a new will to live. Cuthbert Rievely, San Francisco graduate from the University of California's college of medicine, is now working out a clinical re-

port on himself instead of being buried.

Rievely took potassium cyanide, probably the deadliest poison known to science as far as its effect on the human body. He told a friend who was with him what he had done, and the friend rushed him to a hospital, unconscious. Dr. J. C. Geiger, incidentally a professor of medicine under whom Rievely had studied 10 years ago, had been seeking an antidote for cyanide poisoning, and he immediately put into use a hypodermic of the solution he had used in experiment, methylene blue.

Rievely regained consciousness and within a few hours was out of danger.

The despondency that had caused Rievely to seek his own life was forgotten in his interest in the medical discovery. With the aid of Dr. Geiger he set to work the following day to write a clinical report on his case.

Dr. Geiger has no doubt made a wonderful discovery. But he could make a still more wonderful discovery if he would turn out a serum or solution from his test tubes that would guard against the cause of despondent suicide. Perhaps such an effort escapes the field of science and enters that of psychology, but at any rate, it would be a service to mankind which would be fittingly assumed as a life work.

Steamship companies are reported to be considering higher fares this year, which is a reminder that there is still time to go abroad this year. —Boston Transcript

Secretary Adams holds that the Marine band is required to play wherever Mr. Hoover may be. But wouldn't that be rather disturbing to the Rapidan trout? —San Francisco Examiner

## TODAY'S TOPICS

By FRANK JAFFE

Remember "way back when you read about "Tom Sawyer Abroad" and how Huckleberry Finn declared up and down that the runaway balloon had not crossed Illinois into Indiana yet because the country below was still green, like Illinois on the map, and anybody who had been to school knew that Indiana was pink?

If so, you'll appreciate the comments of "The Nation" this week on Hendrik Van Loon's new graphic geography.

"Whatever the reason," says "The Nation," "ask any man you know, except perhaps an Iowan, to 'bound' Iowa. There is only one chance in 10 that he can do it right off, and very likely he will not be able to do it at all. There is, of course, no rational reason why he should be able to 'bound' Iowa, since the idea is quite irrelevant to his experience."

That for you, Father Mississippi and Mother Missouri! While not everybody in Iowa likes to admit that it doesn't matter whether a resident of Hackensack, N. J., can't bound this state exactly, it remains true that there is slight excuse for anybody in Chicago to refer, as one Chicagoan did last week, to the farm holiday as "out west in Iowa."

The chief trouble is that geography has been taught as an assortment of absolute facts with too little regard for the meaning of those facts to the experience of school children or even of adults in their communities.

An illuminating stunt would be for a geography class to inquire of local merchants where the goods sold in their city were manufactured, where the materials grown, how shipped from one point to another. Any notion of the tremendous cooperation involved in providing a cup of coffee for breakfast—not only from Brazil but from other coffee producing areas whose products are useful in blending—would help educate a generation of better world citizens.

That countries produce certain goods, have certain populations, are dotted with such-and-such cities and drained by this or that river cannot be nearly so important as that they are inhabited by human beings who have a life with its own peculiar charm.

There isn't room in any geography book or time in any geography class to put across all the facts about all the world. In selecting the most significant facts and in making them meaningful to the student there must be a choice that will not attempt to substitute child memories for reference books and a presentation that will give bare statistics the flesh and blood of living reality.

It will mean much more to the student of U. S. geography now if he is blessed with a teacher alert enough to make Albany and Oklahoma City not just names to be memorized in a list of state capitals but the headquarters of two colorful governors in the day's news. It will mean much more to the Iowa student of South American geography if he knows that coffee planters in Brazil are up against some of the same problems that confront corn farmers up here. It will elicit a name on the map in a child's memory if he can be told why world conferences are so often held at places like Geneva and Lausanne and a little of what those towns are like. Comment on vacation trips of any lucky students would add interest to places heretofore little more than names on the map.

The progress which has been made in the direction of humanizing geography is only a beginning, but it is enough of one to warrant the enthusiasm of "The Nation" that "geography is being given a chance to develop its possibilities as an art after the dullness it has enjoyed as a science. The children, at least, will be grateful."

## Book Bits

(From Carl Schurz: Reformer, by Claude M. Fuess)  
His father's financial difficulties obliged the boy to practice such systematic economy that he had no opportunity for self-indulgence. This, however, he always regarded as an advantage, for it left him unhabituated by luxurious living. In his autobiography, he said:

"Education can render young people no better service than to teach them how to make their pleasures independent of money. This is far easier than we commonly suppose. It requires only that we learn to appreciate the various good things which cost nothing and some of which are offered by almost every environment."

## Registration Plans Listed

### Students of University Prepare to Enroll Next Week

With indications pointing to no decrease in enrollment from last year, registration at the University high school will begin next Wednesday and will continue during the remainder of the week.

Regular class instruction is scheduled to begin Monday, Sept. 19, and it is expected to have the enrollment completed before that time.

The registration schedule follows: seventh and eighth grades, 8:30 to 12 a. m. Wednesday; ninth grade, 1 to 5 p. m. Wednesday; tenth and eleventh grades, 8:30 to 12 a. m. Thursday; and twelfth grade, 1 to 5 p. m. Thursday.

Examinations for seventh, eighth, and ninth grade registrants will be held from 8 to 12 a. m. Friday. Registrants for the tenth, eleventh, and twelfth grades will take their examinations from 1:30 to 4:30 Friday.

The University high school offers a complete program of instruction from grade seven through grade 12, making it possible for a pupil to plan a unified program through the six grades.

## Jury Returns Bills Against Oil Company

COUNCIL BLUFFS, Sept. 8 (AP)—Eleven true bills were brought against the Mona Motor Oil company and its officers by the Pottawattamie county grand jury today in connection with alleged evasions of gasoline taxes.

Those indicted were E. L. Walters and H. A. Searle, Jr., each on one count of conspiracy to defraud the state gasoline tax money, and the oil company, H. A. Searle, Sr., former president; F. H. Searle of Toledo, Ohio, former vice president; E. D. Judd, a former employee; H. A. Searle, Jr., former superintendent; and Walters, former traffic manager, each named on 10 counts of making incomplete and false reports of gasoline tax collections to the state of Iowa.

The charges arose principally out of alleged billing of gasoline into Iowa as lubricating oil, then selling it as gasoline and failing to turn the money over to the state.

The grand jury reported it had fully investigated all cases of picketing in connection with the Farmers' Holiday movement in the county, but had been unable to fix a definite amount of guilt sufficient to warrant any prosecutions.

## Speech Department to Continue Course in Radio Broadcasting

First of its kind in an American university when it was added to the schedule two years ago, the course in radio broadcasting will be continued by the department of speech during the coming year.

It will be in charge of Prof. Henry C. Harshbarger, who also handled the work in 1931-2 after Prof. A. Dale Riley, first instructor in the course, left the university.

Voice diction, broadcasting of plays, and general problems of announcing will be taught to more than a dozen students.

## Expect Deluge of Petitions as Filing Deadline Arrives

With a record number of cases already on file in the office of Clerk of Court Walter J. Barrow, the usual last day deluge of petitions is expected to be filed by attorneys before 5 o'clock this afternoon, the deadline for the filing of cases for the September term of court.

The last day of service for the new court term was yesterday and Sheriff Don McComas' office was rushed by the task of completing the service on cases already filed.

The September term of court commences Sept. 19 and 55 jurors chosen from the petit jury list have been ordered to report Sept. 21.

## Dean Bryan Leaves for Eastern Meeting

Dean Alvin W. Bryan of the college of dentistry left yesterday morning for Buffalo, N. Y., to attend a meeting of the American Academy of Periodontology, at which he will present a paper on "Etymology of periclasia."

He will also attend a meeting of the National Board of Dental Examiners, of which he is a member, and a meeting of the American Dental association.

## Law Library Files Supreme Court Cases

All of the abstracts and arguments of cases decided by the Iowa supreme court for the last 64 years, with the exception of those between 1892 and 1898, now are filed in the University of Iowa's law library.

The material includes the valuable collection of cases presented by the son and daughter of Judge Joseph R. Beck, who was a supreme court justice for 24 years.

## Plan Work on River Project

### Upper Mississippi Cities Band to Hasten Development

MINNEAPOLIS, Sept. 8 (AP)—Early construction of a nine foot channel in the upper Mississippi river was set as the goal today by 150 representatives of upper river cities who banded together in the formation of a new organization to hasten the development.

Coming from cities in Illinois, Iowa, Wisconsin and Minnesota, they organized the Upper Mississippi Waterways association with Charles C. Webber of Minneapolis, head of the Upper Mississippi Barge Line company, as president.

Support of leaders throughout the upper valley will be sought to obtain federal legislation and appropriations to speed up construction which is now being carried on under a long-period development plan.

The organization will cooperate with the Mississippi Valley association, general organization seeking inland waterway development and intends to aid groups seeking betterment of navigation systems in the Ohio, Missouri and lower Mississippi rivers.

Senator Henrik Shipstead of Minnesota, who has proposed the issuance of \$500,000,000 in bonds to finance upper channel construction, told the new organization that the river offers the possibilities of cheap transportation which would result in savings easily justifying the initial cost.

## Committeeman on Cost Reduction Lists New Spending Plan

DES MOINES, Sept. 8 (AP)—Disbursement by appropriation of all state moneys paid into the state treasury was recommended today by Ed R. Brown, secretary of the state committee on reduction of public expenditures.

Brown said such a proposal would be made to the legislature. It would embrace fees, tuitions and other money received by the state institutions.

Under the suggested legislation, Brown added, no money could be expended by the officers of any subdivision of the state government without an appropriation for a specific purpose.

## Assessment Board Issues Tax Proposal

DES MOINES, Sept. 8 (AP)—A state tax levy for general revenue purposes of eight mills was fixed today by the state board of assessment and review. The taxes will be collected during 1933.

The levy for retirement of the soldiers bonus was set at one mill. In both cases the levy is the same as that set last year, but the board expected a reduction in revenue because of shrinkage of the tax base.

## Red Cross Receives Requests for Cloth

WASHINGTON, Sept. 8 (AP)—The Red Cross today reported cotton cloth requests had been received from 912 chapters, asking for a total of 14,016,586 yards of gingham, muslin, prints, shirting and other cotton materials to be made into clothing for the needy.

The free cloth was ordered shipped today to 90 more cities and towns in 34 states, including: Beatrice and Columbus, Neb.; Waukon and Sac City, Ia.

## Knighted

Rolph Rasmussen, cobbler of Kenosha, Wis., and for 25 years treasurer of the National Danish Brotherhood of America, has just been knighted by the king of Denmark in the Order of Daneborg, highest ranking order outside the royal family. He is shown wearing his decoration.

## BEHIND THE SCENES - IN HOLLYWOOD -

By HARRISON CARROLL

HOLLYWOOD, Cal.—As Norma Shearer prepares to go to New York with Irving Thalberg, they're saying her next picture will be "The Education of a Princess."  
When Metro-Goldwyn-Mayer bought the book, Joan Crawford was mentioned for the leading role. But that was a long time ago. Now, the studio needs a story for Norma and they think she will fit into these colorful memoirs of the Grand Duchess Marie of Russia.  
It is tacitly understood that Robert Sherwood will have a hand in writing the screen play of the book, so Norma may consult with him in New York. At any rate, his departure for the coast is said to have been postponed for a few days.  
"The Education of a Princess" will be the second M-G-M picture written around the old regime in Russia. The first, of course, is "Rasputin," starring the Barrymores.  
Though he shaved the every edge of death in his recent illness, Wilson Mizner treats the experience with characteristic lightness. He films: "I went out on a cloud, saw my first wife and came right back."  
After a year and a half at Warners, Kubec Glasmon has bought up his contract and will enter the free-lance writing field. The Chicago author, along with John Bright, wrote many of the Warner successes for the last two years. You'll recall "The Public Enemy," "Smart Money," "Taxi," "Union Depot" and "The Crowd Roars." Several weeks ago, Bright left Warners, breaking up the team. He is scheduled to report at Paramount in the near future. Glasmon plans a short vacation before he does any more scripts.  
Like Richard Arlen and Gary Cooper, Paramount plans to build up Randolph Scott through a series of western pictures.  
The handsome Virginian recently finished "Heritage of the Desert" and will be starred directly in another Zane Grey story, "Wild Horse Mesa."  
Henry Hathaway will direct again.  
BOULEVARD TOPICS  
Now here's a situation with real possibilities. Lupe Velez and George Raft are the latest couple in the Hollywood Spotlight. Irene Dunne sang five songs in the foreign version of Universal's "Back Street." Incidentally, R-K-O is looking for a picture with music for this actress' next vehicle. That health institute favored by so many of the male stars is opening a branch for women in Beverly Hills. Emmett Flynn, for years under contract to Fox but lately missing from the film colony, is back in town. He was collecting greetings yesterday at the Brown Derby. George A. Breakston, youthful radio performer well known to eastern fans, is in Hollywood and will appear in "Lawyer Man" at Warners. Many of the stars are interested in the new 1 millimeter film now being put out for the amateur motion picture photographer. One foot of this film contains four times as many frames as the old 16 millimeter type and 16 times as many as the regulation film for the large camera. With 400 feet of it, the amateur photographer will have an hour's entertainment.

# University Students Wed in Methodist Church Ceremony

## Ellis, Bladow Nuptials Performed Yesterday Afternoon

Elmer L. Bladow of Council Bluffs and Marie Ellis of Storm Lake were united in marriage yesterday afternoon at the Methodist church, the Rev. Charles G. Fort of Vinton conducting the ceremony.

The bride is the daughter of Mr. and Mrs. Homer B. Ellis, and Mr. Bladow is the son of Mr. and Mrs. H. H. Bladow of Council Bluffs.

Miss Ellis was attired in white ivory satin, princess style, white kid slippers and pearls; she carried a bouquet of cream roses. Her maid of honor, Marguerite Bladow, the bridegroom's sister, wore a gown of pale green satin and carried a bouquet of cream roses. Her Anderson, one of the bridesmaids, was attired in pale pink chiffon, her bouquet being also of pink roses. Olive Wall, also attending the bride, wore pale green chiffon, and carried pink roses.

Helen Swisher, flower girl, was attired in a white silk crepe dress. The parents of bride and bridegroom were guests at the wedding from out of town. A guest list of 45 was served at dinner following the ceremony.

Ushers were Gordon Thatcher of Iowa City and Veeder J. Shankland of Ann Arbor, Mich., both fraternity brothers of the bridegroom.

As a professional, Loehngren's "Bridal March" was played by Mrs. Maud Whedon Smith on the organ. Selections from "Faust," the hymn, "O Perfect Love," and the recessional, Mendelssohn's "Wedding March" were also played during the ceremony. Frank Swisher of Iowa City was soloist.

A four course dinner served at Youde's inn following the ceremony was attended by 45 guests.

The bride will be a sophomore in the college of liberal arts this fall, while Mr. Bladow will be a senior. He is a member of Pi Kappa Alpha social fraternity. The bride is a member of the university women's rifle team and Kappa Phi, Methodist student women's organization. After Sept. 15 the couple will be at home at 910 S. Dodge street. They will spend a short honeymoon at Winona, Minn.

DES MOINES, Sept. 8 (AP)—Carl J. Stephens, assistant attorney general, in an opinion held that county road and maintenance levy funds cannot be transferred by boards of supervisors for direct poor relief.

## PERSONALS

Sam T. Morrison, 515 N. Dubuque street, Isaac B. Lee, 115 S. Governor street, and F. W. Hohman, 530 N. Dubuque street, leave this morning for Des Moines where they will attend the state convention of insurance agents, which will be in session today and tomorrow.

Viola Nelson, 1145 E. College street and Irene Estabrook of Oxford, left yesterday for Akron, Ohio, to resume their positions as teachers.

Mrs. Jeanette Furlong, chaperon of Theta Phi Alpha sorority, visited friends in Iowa City yesterday.

Frieda Epstein of Memphis, Tenn., formerly of Iowa City, has arrived in Iowa City to attend the University of Iowa. Miss Epstein will reside with her uncle and aunt, Mr. and Mrs. Ben Whitebook, 12 E. Prentiss street.

The Rev. W. P. Lemon has returned from a three week's vacation spent partly at Three Lakes, Wis., and partly in Chicago, Ill. He will preach the sermon this Sunday at the Presbyterian church.

Catherine Frances Calnan of Clinton was a visitor at the extension division yesterday.

Mrs. and Mrs. Charles W. Gallaher and their daughter, all of Boston, Mass., are visiting Mrs. D. J. Gallaher and Ruth Gallaher, both of 720 N. Van Buren street. They will be in Iowa City for two or three weeks.

Mrs. Frank L. Mott and daughter, Mildred, returned yesterday by automobile from Chicago. Professor Mott, director of the school of journalism, plans to spend another week in the city.

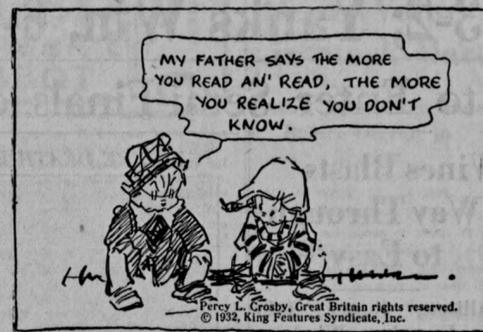

## Plan Series of Weekly Card Parties

Plans for a series of card parties are being made by Loyal Order of Moose Women. The parties, which will start next Thursday, will be held each Thursday at 8 p.m. at the Moose hall, and will be followed by a dance. Prizes will be awarded at each party, with a grand prize at the close of the series.

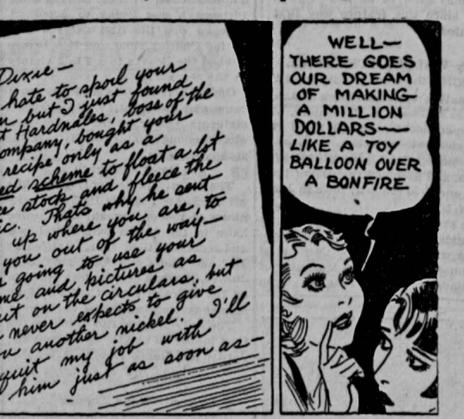

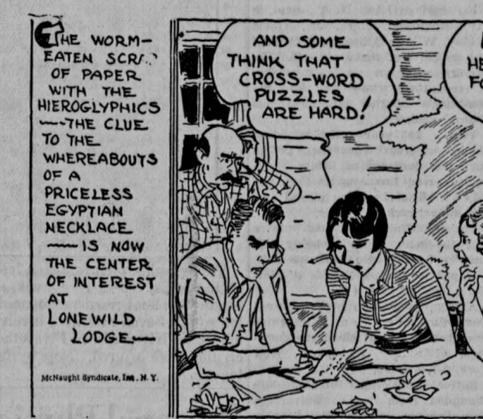

## Robbers Obtain \$100

DAVENPORT (AP)—The drug store of Hugo H. Lage was robbed Tuesday night for the fifth time in five years. Two men forced Lage to open the safe. They obtained \$100.

## SKIPPY—A Tax on Learning

## DIXIE DUGAN—A Dream Vanishes

## Ladies Present "Sideshow"

Bearded ladies, midget women, and fat ladies made their appearance at the "sideshow" presented before members of Rebekah lodge last night following their meeting at the Odd Fellow hall. Refreshments were served after a program.

1,495 Already Enrolled CEDAR FALLS, Sept. 8 (AP)—Iowa State Teachers college officials announced that 1,495 students already have enrolled for the fall term. Enrollment at the end of the first two days of registration in 1931 was 1,975.

The 16 southern states have a land area of 945,000 square miles or 604,857,000 acres.

## Win Firsts at Card Party

Mrs. Joe Graham won first prize in bridge and Mrs. J. W. Cooper in euchre at the card party given yesterday afternoon by members of Circle No. 1, Altar and Rosary society of St. Patrick's church yesterday afternoon. Bridge and euchre were played at eight tables. Mrs. John O'Leary was in charge.

## Make This Model at Home

### The Iowan's Daily Pattern

### Sleeves Long and Short

### Pattern 2396

### STEP-BY-STEP INSTRUCTION DIAGRAMS GIVEN WITH THIS PATTERN

By ANNE ADAMS

You'll find scalloped details this season applied in the most captivating ways. For instance, the skirt and bodice seamings of this frock are new and smart as are the elbow sleeves with their scalloped edges. Long sleeves are included, too. For the smartest effect satin or the new crepe silks are best.

Pattern 2396 may be ordered only in sizes 34 to 44. Size 34 requires 3 yards 39 inch fabric. Illustrated step-by-step sewing instructions included with this pattern.

Send fifteen cents (15c) in coins or stamps (coins preferred), for each pattern. Write plainly your name, address and style number. Be sure to state size wanted.

The fall and winter edition of the Anne Adams pattern catalog is ready! Charming, flattering models—32 pages of the newest and best house, street and formal frocks—cleverly designed styles for large figures—and beautiful, practical models for juniors and kiddies. Lovely lingerie patterns, and suggestions for gifts that can be easily and inexpensively made, are also included. Send for the new catalog. Price of catalog, fifteen cents. Catalog and pattern together, twenty-five cents. Address all mail orders to The Daily Iowan Pattern Department, 243 W. 17th street, New York city.

4 for .....\$1.00  
Good quality. Will give good service.

# Cubs Split With Braves, 4-1, 3-2; Yanks Win, 6-4, Then Tie Second

## Increase Lead by Half Game as Bucs Lose

### Root Wins Opener as Cubs Rally; Homer Beats Tinning

BOSTON, Sept. 8 (AP)—The pace-making Chicago Cubs added a half game to their lead today by dividing a doubleheader with the Braves while Pittsburgh was losing to Brooklyn. Chicago won the first game 4 to 1 behind Charley Root and Bob Brown pitched the Braves to a 3 to 2 victory in the second.

One big inning decided the first game and one swat, Wally Berger's sixteenth homer of the season, was almost enough to give the Braves the second decision.

**Rally in Eighth**  
The Cubs collected only three hits off Ed Brandt in the first seven innings of the opener but they broke loose in the eighth with five blows and scored all their runs. Triples by Hartnett and Cuyler and singles by Jurgis, Herman and English furnished the Chicago runs, Cuyler's three bagger driving in the last two.

The only Boston run came in the first inning on singles by Maranville, Jordan and Randy Moore. After that Root held the Braves to three safeties.

**Brown Beats Tinning**  
Brown pitched another six hit game in the nightcap to get the better of a duel with Bud Tinning, who granted eight. Berger's homer followed Randy Moore's single in the fourth and gave Boston a lead that the Cubs never quite overcame. Doubles by Spohrer and Maranville in the seventh brought the other tally.

Two walks and J. Moore's single gave the Cubs a run in the sixth and hits by Herman and English and Stephenson's fly brought another in the eighth.

Score by innings: R. H. E.  
Chicago.....000 000 040—4 9 1  
Boston.....100 000 000—1 6 1  
Batteries: Root and Hartnett, Hemley; Brandt and Spohrer.

Second Game  
Chicago.....000 001 010—2 6 1  
Boston.....000 200 100—3 8 0  
Batteries: Tinning and Hartnett; Brown and Spohrer.

## Phils Whitewash Cards by 3 to 0

PHILADELPHIA, Sept. 8 (AP)—The Phillies defeated St. Louis 3 to 0 today, the three runs being scored in the first inning when Hurst, with two men on base, pounded out his 23rd home run of the season.

Score by innings: R. H. E.  
St. Louis.....000 000 000—0 3 1  
Philadelphia.....300 000 000—3 6 0  
Batteries: Carleton and J. Wilson; Bengt and V. Davis.

ed for their record breaking performances and they performed true to predictions every time they started. The 1923 team, composed of Morrow, Noll, Brookins and Wilson, hung up a mark of 3:16 9-10, which is an American intercollegiate record. The Iowa relay teams have won 27 out of 41 relay races since Breshnan was placed in charge of this branch of activity at the Hawkeye school.

In dual meets Iowa has been successful, out of doors especially. Because of poor training facilities, Iowa's indoor teams had not equaled its outdoor squads. Still, Breshnan has done remarkably well and his teams have made a creditable indoor showing.

**Builds Quarter Mile Track**  
Since going to Iowa, Breshnan has been responsible for the building of an excellent quarter mile track with a 220 yard straightaway. The field and track are so nearly perfect that two outdoor Western conference championship meets have been held in Iowa City.

Breshnan's keen knowledge of the sport and his facility to impart information to his proteges should result in Iowa being represented by strong teams for years to come. George likes his work and enters into it with enthusiasm and determination, essential assets to any coach in any line of athletic endeavor.

**His Men Win 14 Titles**  
Across a span of six years, Coach Breshnan has been molding champions and near champions. During this time, nine Hawkeye athletes have won 14 titles in individual track events; four have elevated themselves to the heights in a field event and four relay quartets have sent their anchor men across the finish lines as winners. Such a record has been established only in championship games of the Western conference.

Charles R. Brookins is probably the most noted athlete developed by the Iowa coach. The man who captained the Hawkeye team of 1924 was three times Western conference low hurdle champion, once a 50 yard dash title holder, twice the best over the low barriers at the National Collegiate A. A. championships, and on two occasions won the low hurdles in the National A. A. U. title games against the best performers in the country.

Big Ten titles in the 220 yard dash were won by Eric Wilson in 1921 and 1923. He was twice the national collegiate title holder. Chan Coulter won the Big Ten 440 yard title in 1924 and Harold Phelps won the two mile indoor championship the same year.

The quartet of Brookins, Wilson, Coulter, and Phelps wore the shield of America in the Olympic Games held in Paris in 1924. Harry Morrow, John Hancock, P. Boyles, R. G. Dabner, and F. J. Cuhel were other athletes to gain fame under the direction of Breshnan.

**Won Team Title in 1926**  
Although Iowa athletes had won individual Western conference titles, it remained for Breshnan's 1925 team to win its first Big Ten team championship. This occurred late last winter when the Hawkeyes won the indoor title at the Northwestern university gymnasium with a total of 24 1-3 points. It was a great triumph for Breshnan and his team.

## Cochet Downs Shields to Enter Semi-Finals of National

### CONGRATS FROM A GOOD LOSER

Showing the sportsmanship for which he is justly renowned, Kaye Don (left), British speedboat racer, is shown as he congratulated Gar Wood, his American conqueror, after the latter had won the second and final heat in the contest for the Harmsworth trophy, on Lake St. Clair, Mich. Lower photo shows Don's boat, Miss England III, leading Wood's Miss America X on the first lap of the second heat. But as in the first stanza, Don's engines failed and Wood coasted to an easy victory.

## Grove Bows Before Brown in Mound Duel as Indians Take Series Opener, 2 to 1

CLEVELAND, Sept. 8 (AP)—Lefty Grove, seeking his 23rd victory of the season, was outpitched by Clint Brown today and Cleveland won the series opener from Philadelphia, 2 to 1.

Score by innings: R. H. E.  
Philadelphia.....000 001 000—1 4 2  
Cleveland.....100 000 010—2 8 1  
Batteries—Grove and Cochrane; Brown and Sewell.

## Weaver Chalks Up 20th Win of Season

ST. LOUIS, Sept. 8 (AP)—Monte Weaver, pitching his first year in the majors, recorded his 20th victory today in Washington's 3 to 1 triumph over the St. Louis Browns.

Weaver allowed four safeties and the Browns' only run was unearned.

Carl Reynolds, Senator outfielder, had a perfect batting record, with a triple, a double and two singles.

Walter Stewart pitched eight innings for the Browns, Sam Gray relieving him.

Score by innings: R. H. E.  
Washington.....000 102 000—3 8 1  
St. Louis.....010 000 000—1 4 1  
Batteries—Weaver and Spencer; Stewart, Gray and Ferrell.

## Lyons Leads Mates to 4 to 3 Victory

CHICAGO, Sept. 8 (AP)—Ted Lyons pitched and batted the White Sox to a 4 to 3 victory over the Boston Red Sox in a 10 inning battle today. Lyons yielded but six

scattered hits over the long route, singled in the tenth, moved up on Funk's sacrifice and scored on Hayes' groundout past Alexander.

Score by innings: R. H. E.  
Boston.....000 100 020 0—3 6 1  
Chicago.....000 010 200 1—4 12 2  
Batteries—Rhodes, Kline and Tate; Lyons and Grube.

## Vines Blasts Way Through to Easy Win

### Allison, Sutter Join Favorites; Wind Bothers

FOREST HILLS, N. Y., Sept. 8 (AP)—Ellsworth Vines, Jr., Henri Cochet, Wilmer Allison and Clifford Sutter—three of the world's ranking players and a collegian—today battered their windy way into the semi-finals of the national tennis championships.

Vines, 20 year old defending champion from Pasadena, turned back the challenge of Lester Stoefen, towering Los Angeles star, 6-3, 7-5, 6-4. The champion played daring, almost reckless tennis.

Cochet, France's tennis master and the man Vines probably will have to beat if he retains his title, whipped past Frank Shields of New York, 4-6, 6-3, 6-4, 6-0.

Allison, near hero of the recent Davis Cup festivities at Paris, came from behind to cut short the comeback of Sidney Wood, Jr., New York, 5-7, 6-3, 6-2, 6-4.

Sutter, national intercollegiate champion from Tulane university, New Orleans, crushed the veteran George Lott, Jr., Chicago, 10-8, 6-0, 6-0.

## Walt Nugnis, Sprint Star, to Seek Berth on Hawkeye Eleven

The speed of a quarter miler, combined with the ruggedness of a football halfback, will be brought to the gridiron of the University of Iowa this fall by Walter Nugnis, Hawkeye sprinter and relay racer.

Nugnis, the only major letter track man who will seek a backfield berth on Ossie Solen's new team, compiled a great record as a football player at Gary, Ind., during his high school days, but was not eligible for intercollegiate play at Iowa last fall.

Solidly built, with strong driving legs, Nugnis weighs 165 pounds and is close to six feet tall. He was busy with track last spring and could not practice football so will don a Hawkeye grid uniform for the first time next Thursday.

## Grace Finally Kicks One as Pirates Lose

BROOKLYN, Sept. 8 (AP)—The Pittsburgh Pirates wailed before Brooklyn's furious attack today and the Dodgers took the final game of their series, 12 to 2.

The Dodgers won the series 2-1 and the season's games, 12-10.

Frank O'Doul led Brooklyn's attack with four hits, two of them homers, in four times up. His last blow was his 20th of the season.

The game saw the end of a record breaking string of errorless chances for Earl Grace, Pirate catcher. He made a wild throw to third in the fifth inning after having accepted 44 consecutive chances without a misplay. The old mark was 43, made by Ray Hayworth of Detroit in a spring which ended Aug. 29. His last previous error was made Aug. 29, 1931.

Score by innings: R. H. E.  
Pittsburgh.....000 010 001—2 8 3  
Brooklyn.....102 052 117—12 17 4  
Batteries—Chagnon, Spencer, Brame and Grace, Finney; Clark and Lopez.

"Mr. Oklahoma" and "Miss Indian Territory" will go through a symbolic wedding ceremony at the silver anniversary fete of Oklahoma this fall.

## WHERE DEATH WON AUTO RACE

This graphic picture, taken less than 30 seconds after the crash at Readville, Mass., race track, shows how the scorching heat of blazing gas kept rescuers from aiding a driver trapped in the flaming pyre. Seven cars were involved in the crash, but miraculously only one driver died. Five other drivers, two policemen and a civilian were injured. Note bystanders backing away from the intense heat.

## Personal Physician of Babe Finds Slight Symptoms of Appendicitis; Orders Rest

(Associated Press Sports Writer) NEW YORK, Sept. 8 (AP)—Frightened and in considerable pain, Babe Ruth came hurrying home from the west today to find that there is something wrong with his appendix but probably nothing severe enough to require an immediate operation.

Visions of another trip to the hospitals he has tenanted frequently through the last half dozen years, and the blasting of the goal of his baseball dreams, participation in his tenth world series, haunted baseball's greatest slugger as he groaned his way east on an express train today.

His fears were allayed, but not entirely dissipated by Dr. Edward A. King, Ruth's personal physician, as soon as the Yankee club doctor could make an examination of his famous patient at the Babe's home this afternoon.

Ruth has "slight symptoms of appendicitis," Dr. King said after a two-hour examination. While he said that he did not think an operation would be necessary, he ordered absolute rest and quiet for the ball player for 24 hours, after which a more conclusive examination can be made.

Temperature About Normal  
The Babe's temperature was only a shade above normal at 99.5 degrees. His pulse registered 80 and respiration was normal.

Orders Complete Rest

## New Yorkers Take Opener in Fourteenth

### Byrd Hits Two Homers; Darkness Halts Nightcap

DETROIT, Sept. 8 (AP)—In the most hair-raising pair of games seen at Navin field this season, the New York Yankees took a 14-inning curtain raiser from the Tigers, 6 to 4, today, and then the teams battled to a 7 to 7 deadlock in a slam-bang nightcap that was called at the end of the seventh inning because of darkness.

A home run by Earl Webb, Tiger rightfielder, tied up the first game at 4 to 4 in the ninth inning. Then George Uhle, who had relieved Elton Hogssett in the seventh, pitched four scoreless innings, while George Pipgras also was holding the Tigers without a run.

**Byrd Worthy Substitute**  
In the 14th Gehrig singled, Lazzeri sacrificed and Dickey singled, scoring Gehrig. Dickey advanced on a passed ball and scored on Crossett's single.

Babe Ruth's illness brought Sam Byrd into the game and he proved a worthy substitute in that first game, hitting two home runs and three singles to drive in the first four Yankee runs.

The second game was just as much a thriller. The Yankees found Whitlow Wyatt no particular puzzle and scored four runs in the first four innings.

**Potshots**  
by EUGENE THORNE

The following article by the late Walter Eckersall, one of the best informed sports writers the world has known, appeared in the Chicago Tribune in December, 1926. Just how well Coach George Breshnan fulfilled Eckersall's predictions is evidenced by nationally and internationally famous athletes he has turned out since this feature was first printed.

By WALTER ECKERSALL

AMONG the most promising of a nation's younger track and field coaches is George T. Breshnan, who is responsible for Iowa's rapid rise in cinder path athletics. George is a product of the University of Wisconsin, and assumed the role of head track and field coach at Iowa in January of 1921.

The present Hawkeye coach ran in the middle distance and distance events while wearing the Cardinal of Wisconsin. He also was a member of the Badger cross country team

which won the Big Ten championship in 1913. Breshnan was graduated from Wisconsin in 1914, but returned in 1918 to act as assistant coach of the track and cross-country teams. This position he held until 1920.

"Let's have a thinking track team," were the first words of Coach Breshnan when he went to Iowa. The Hawkeye coach always has tried to instill into his men the faculty of outsmarting opponents. The athletes are sent into events knowing just what they are expected to do and the veterans are given the added responsibility of setting the example for the younger performers.

**Nervous Before Meets**  
George is a keen observer and listener. He attended the Olympic Games of 1920 and 1924 to gather more knowledge, which has added him immensely in developing star athletes, some of whom are holders of various records.

Breshnan probably has the most nervous temperament of any man engaged in coaching track and field teams. In fact, George works himself into the same state of nervousness as his athletes. Before important sets of games George has been known to forego all food because he was too nervous to digest it properly.

At other times, Breshnan is relaxed and seldom talks about his vocation. But when it comes to defending an Iowa athlete, almost any one can get into an argument with the man who has done just as much for Iowa track and field athletics as Howard Jones did for Hawkeye football.

**His Men Win 14 Titles**  
Across a span of six years, Coach Breshnan has been molding champions and near champions. During this time, nine Hawkeye athletes have won 14 titles in individual track events; four have elevated themselves to the heights in a field event and four relay quartets have sent their anchor men across the finish lines as winners. Such a record has been established only in championship games of the Western conference.

Charles R. Brookins is probably the most noted athlete developed by the Iowa coach. The man who captained the Hawkeye team of 1924 was three times Western conference low hurdle champion, once a 50 yard dash title holder, twice the best over the low barriers at the National Collegiate A. A. championships, and on two occasions won the low hurdles in the National A. A. U. title games against the best performers in the country.

Big Ten titles in the 220 yard dash were won by Eric Wilson in 1921 and 1923. He was twice the national collegiate title holder. Chan Coulter won the Big Ten 440 yard title in 1924 and Harold Phelps won the two mile indoor championship the same year.

The quartet of Brookins, Wilson, Coulter, and Phelps wore the shield of America in the Olympic Games held in Paris in 1924. Harry Morrow, John Hancock, P. Boyles, R. G. Dabner, and F. J. Cuhel were other athletes to gain fame under the direction of Breshnan.

**Won Team Title in 1926**  
Although Iowa athletes had won individual Western conference titles, it remained for Breshnan's 1925 team to win its first Big Ten team championship. This occurred late last winter when the Hawkeyes won the indoor title at the Northwestern university gymnasium with a total of 24 1-3 points. It was a great triumph for Breshnan and his team.

MURDER of the NIGHT CLUB LADY THE NEW THATCHER COLT DETECTIVE MYSTERY BY ANTHONY ABBOT

SYNOPSIS Within five minutes we stopped again before the door of that apartment house where mysterious death had overtaken two beautiful women...

CHAPTER THIRTY LUCKNER is a queer old bird, the chief remarked. "Once he was offered a chair as professor of pathological anatomy at the University of Berlin. He turned it down because he did not like Berlin, and took a lesser job in Heidelberg. I think he is at heart a great detective but he will devote himself to criminal research only as a special favor to me. He has the gift of investigation and with all of the resources of science at his disposal, he could become one of our most valuable agents. Of course, he's old, but he could train his successor so that the work could go on when he grew too old or tired. But he will not hear of it. He regards detective work as degrading to a scientist. He says he is not interested in catching the criminal but he wants to understand the crime. But this time he has made, in an amazingly short period, a truly extraordinary discovery. Whoever is guilty must certainly consider himself beyond detection." Again he relapsed into silence, as the car sped on through Central Park in a weaving diagonal route—a speedy one-way passage since Colt had put into effect the new traffic regulations. And then a vicious warning through the tangled traffic across Fifth Avenue and into the purlieus of the far East Side where, on the water-front, majestic modern apartment houses flourish today in uneasy democracy with slaughter-houses and tenements.

Cotton Slump Downs Values in Stock Mart Losses of \$5 Per Bale Brings Decline to Market

NEW YORK, Sept. 8 (AP) — A swift decline in cotton futures, representing net losses of about \$5 a bale, brought heavy offerings into the stock market today and share values were pared down, in some instances rather generously.

Although selling was at a brisk pace at times during the afternoon, swelling the turnover to 5,392,040 shares, or the second largest volume this year, declines were insufficient to cancel yesterday's average gain. The net loss of 90 issues was 2.7 against Wednesday's rise of 3.2.

U. S. Steel lost more than 3 points, Bethlehem more than 4; Allied Chemical, American Telephone, Case, Du Pont, Union Carbide, Westinghouse, North American, Consolidated Gas, Western Union and United Aircraft 2 to 3; and a large number at least a point.

Demo Nominee's Son in Physician's Care After Stumping Tour

LITTLE BOARS HEAD, N. H., Sept. 8 (AP) — James Roosevelt, son of Governor Franklin D. Roosevelt of New York, was put to bed tonight suffering from "complete exhaustion" and was under the care of a physician, members of the household said.

New Yorker Speaks to Insurance Agents

DES MOINES, Sept. 8 (AP) — The most conscientious motorist state in the country is Iowa, said J. J. Hall, director of the street and highway division of the national bureau of casualty underwriters, New York, who arrived today to attend the annual convention of the Iowa Association of Insurance Agents.

AROUND THE TOWN with DON PRYOR

Taps A military funeral, conducted by the local post of the American Legion, was accorded yesterday afternoon to Levi F. Vorheis, who killed himself by drinking poison last Saturday in the Muscatine jail. The service was held at the McGovern funeral home. Burial was in Oakland cemetery.

Pampered Porkers Demonstrations of correct methods of swine feeding will be given at the A. E. Reeve farm near Tiffin at 1:30 p.m. Monday, according to S. Lysle Duncan, county Farm Bureau agent.

Change of Mind Noma Lewis, accusing George Peterson Totting of Coralville of assaulting her with intent to commit great bodily injury, refused to appear against him at a hearing in the court of Justice of the Peace Elias J. Hughes yesterday. The case was later dismissed upon petition of Miss Lewis.

Busier Than Busy Yesterday was the last day of service at the court house, which meant that the office of Sheriff Don McComas was more than usually busy. Both Mr. McComas and Preston Koser, deputy sheriff, worked all day and long after the day was over serving papers and still more papers.

Another Foreclosure The Northwestern Mutual Life Insurance company filed a petition in district court yesterday asking judgment of \$14,500 against John T. Winborn on two notes secured by mortgages on Johnson county property. Deacon, Sargent, Spangler, and Hutchinson are attorneys for the insurance company.

For Paper and Such The Clinton Paper company filed

suit in district court yesterday against Charles A. Demery for \$103.60 claimed to be due for merchandise. Neiman and Leake are the attorneys for the paper company.

Ripley Explanations EXPLANATION OF YESTERDAY'S CARTOON The Flower Clock: The "Blumenuhr" is situated in the midst of the famous Kurpark of Interlaken, a highly cosmopolitan resort in the Swiss Oberland. The park is very famous for its profusion of flowers. While I drew the clock on the spot last year a Swiss friend proudly pointed out to me that everything in the Kurpark is of flowers, even the clock.

A Most Distinguished Career: Joseph Branch (1782-1863), famous American statesman, made his first appearance in public life as a state senator of North Carolina in 1811, and was re-elected to that office six times. In 1817 he was elected governor of the state of North Carolina, being re-elected to the office twice, 1818 and 1819. In 1822 he was elected as United States senator from North Carolina and re-elected in 1828. Before he completed his second term as United States senator he was appointed United States secretary of the Navy in the Cabinet of President Jackson. After resigning he was elected as congressman in 1831. He was de-

feated in running for re-election as governor in 1834. Ten years later, 1844, having in the meantime moved to the Territory of Florida, he was appointed governor of the territory by President Tyler. Florida became a state in 1845, and Branch automatically succeeded to the position of acting governor of the new state. He declined to run for governor of Florida again for the reason that in his long career he had already "sound-ed all the depths and shoals of honor."

Tomorrow: An Ideal Landlord.

Enjoy Cleaning . . . .

# EASE

and efficiency .  
 by selecting one  
 of the new . . .  
 Silver Jubilee . . .  
 Hoovers now . .

Dusting tools included at no increase in payments

Call us TODAY for a home demonstration.

WHETHER housecleaning is hard or easy depends entirely upon the kind of cleaning equipment you have.

With a new Hoover you can clean your rugs in much less time. When through, you are sure that every bit of destructive dirt and grit has been removed, too.

By means of Positive Agitation the Hoover gently taps the rug on a cushion of air, loosening the deeply embedded grit and thereby greatly lengthening rug life.

Come in and see the new Silver Jubilee models, or call us for a home demonstration. Then you'll appreciate what marvels of cleaning efficiency they really are.

The Popular-Priced Hoover is actually the most efficient cleaner ever offered at the price. It is lighter in weight than the former Hoover, lower in price, and available on more convenient terms.

Ask about the new Two-Speed Hoover, for rugs of various thicknesses, and the Gold Chevron Hoover for unusually heavy service, too.

Liberal allowance for your old cleaner. Convenient terms . . . New low prices. On three new Silver Jubilee Models . .

Approved appliances may also be purchased from other reliable dealers in this community.

## Would You Spend \$10 to Make \$225?

\$10 is the average cost of papering a room—\$225 is the amount you will receive if you rent your room to students this fall.

Nothing gives a room a more inviting and "comfortable" appearance than new wall paper and fresh paint. Only about two more weeks until students will begin looking for rooms. Be sure your room makes its strongest appeal—give it new wall paper and paint.
