GOPHERS TURN BACK HAWKS, 21-6

Political Campaigns Strike Two Centers

Demos Held
Up Recovery,
Says Hoover

Crowds Cheer, Boo as
President Speaks
at Detroit

OLYMPIC ARENA, DETROIT, Oct. 22 (AP)—Pointing directly to 10 points of "evidence" that the gigantic forces of depression are in retreat," President Hoover tonight asserted the Democratic party had retarded this recovery and that its leader had broadcast "a misstatement of facts."

Greeted in Detroit with mingled boos and cheers, the president was given a riotous four minute ovation when finally he entered the arena.

The boos were given him at the railroad station by a crowd bearing banners labeled "vote communists" and "workers' ex-service men's league."

"We Want Hoover"

When one of their members attempted to speak from the vantage point of a lamp post, throwing handbills to those below him, he was unmercifully hauled down by several men shouting "We want Hoover."

Once inside the arena, where a year ago he pleaded successfully with the American Legion against the bonus, the president responded with smiles and bows to the cheers and applause from a throng that packed solid the 18,000 seat auditorium and overflowed into the aisles.

The crowd applauded when he time after time assailed statements he quoted from his Democratic opponent, Franklin D. Roosevelt.

He said that Roosevelt had been "amazingly removed from the truth" in his recent statement that the administration's fiscal policy was "extravagant."

The Democratic nominee, he asserted, had sponsored a plan holding out hope that 10,000,000 men and women now unemployed "will be given jobs by the government." He said such a plan was "fantastic" and said:

"Is this a new deal?"

"Tide Has Turned"

At the very outset of his address the president declared that the nation's economic "tide has turned."

Then he named his 10 points of "evidence" as follows:

Return of \$300,000,000 of gold into the country through restored confidence abroad; return of \$250,000,000 of currency from hoarding; increase in the values of bonds by 20 per cent; increase in manufacturing production by 10 per cent, in some groups, such as textiles, by 50 per cent; increase in building contracts; return of 180,000 workers to the manufacturing industry in August and 360,000,000 more in September; increase in carloadings from 400,000 per week to 650,000 per week; increase in exports and imports by nearly 23 per cent; improvement in farm prices and decrease in bank failures.

Claims Hoover Failed
to Follow Own
Assertions

ABOARD ROOSEVELT SPECIAL, Oct. 22 (AP)—Franklin D. Roosevelt brought his campaign into Kentucky today with a declaration at Louisville that the Republican leadership had shown itself "absolutely destructive to the prosperity of America."

Speaking to upward of 15,000 persons who crowded into the huge Jefferson county armory, the Democratic presidential candidate said the "failure of this administration to meet the realities of 1929 started the world into the depression," and the Hawley-Smoot tariff carried the decline in world trade "from what amounted to a minor disaster to a genuine international calamity."

Hoover Wrote Report

The speech, which preceded his swing down through the Kentucky mining and hill country into Tennessee, brought a reference by Mr. Roosevelt to a report of a commission appointed by President Harding in 1920 to study business decline.

The Democratic candidate said that President Hoover, then secretary of commerce, wrote the introduction to the report, the conclusions of which Mr. Roosevelt added asserted that peace-time slumps were the direct results of war.

"When the boom started in this country on an unprecedented scale about the year 1927, there was no attempt on the part of the administration to give any regard to or even to read over the sound conclusion stated in that report of 1922 which had been done under the auspices of Secretary Hoover," he said.

"In fact, as I have shown repeatedly, the administration from 1927 all through 1928 and down to the actual crash in the fall of 1929 instead of trying to flatten, instead of trying to prevent the boom from going upwards, actually prompted and encouraged that boom, and then after it broke proceeded to minimize its importance to the nation.

"And so," he added a moment later, "there is a clear cut argument and I submit that it is a test of the sincerity of the alibi of the Republican leadership in this campaign."

The candidate was interrupted by frequent applause that echoed up to the steel rafters, where clung dozens of men seeking a vantage point from which they might see him. He went to the armory in a parade through crowded streets and before leaving Louisville issued a statement thanking the city officials for the manner in which the crowd was handled.

"It was Kentucky hospitality at its best," he said.

The governor's train came here from St. Louis, where the nominee spoke last night. A large crowd swarmed around it as yet pulled into the depot in New Albany, and across the river from Louisville, and cheered as the governor spoke formally from the rear platform.

At Louisville the governor's party was met by Gov. Laffoon, Mayor Harrison and others.

Cops Work With
Close Harmony

"Dark was the night and cold was the ground when my love was laid to rest," the colored boy, of mixed drinks and mixed melodies, picked up by the police yesterday at the Rock Island station, plaintively moaned last night through the bars of the south cell in the police station.

Not to be outdone, the whiskey tenor and his three pals in the north cells would retaliate with, "Bury me out on the prairie," and so the battle between the husky voice of the Negro and the quartet would continue for about 10 minutes until one of them would shout, "Iowa Fights."

Five Crooks Plunder Jail at Crookston

Move Loot in Truck After Binding Jailer

CROOKSTON, Minn., Oct. 22 (AP)—Five audacious criminals raided the city jail early today to loot the pile of steel and stone where men of their ilk are penned, and flee with a truckload of plunder.

Arousing sleeping policemen to seal their eyes and mouths with adhesive tape, the robbers carted away a machine gun, police pistols and rifles, 500 rounds of ammunition, a quantity of liquor, \$500 in cash, and 20 slot machines with their contents, estimated by authorities at about \$500.

No Clues

Diligent search by officers of northern Minnesota and the Twin Cities, whence the five are believed to have come, failed to unearth a clue.

The bandits eluded James Duckworth, night jailer and watchman, with a blackjack before taping him up and binding his hands and feet, a few minutes later trussing up Iver Forseth, day jailer, and his friend, Clifford Larum, in a similar manner.

Seizing Duckworth's keys, three of the invaders lugged out the loot, stowing it in a light delivery truck where one of the bandits sat behind the wheel while another waited in a sedan nearby.

Lock Up Police

Before fleeing in the two vehicles, the robbers shoved the two policemen into the steel rafters, where clung dozens of men seeking a vantage point from which they might see him. He went to the armory in a parade through crowded streets and before leaving Louisville issued a statement thanking the city officials for the manner in which the crowd was handled.

"It was Kentucky hospitality at its best," he said.

Concert Presented as Part of Plans During Homecoming

Presented as a new feature for the Homecoming entertainment, an informal concert was given yesterday morning by the music department in the north rehearsal hall of the new music building.

Heretofore, the band and orchestra have given concerts, but this year the music department united its talent to present a special music hour.

Included on the program were two numbers by the University chorus, a solo by Prof. Frank Estes Royal, A3 of West Liberty; M. Janice McNeill, A3 of Monticello, and Phebe Jamison, A2 of Oelwein,

by Herald Stark.

Pi Phi Win Sales Contest for Frivol

Pi Beta Phi earned the right yesterday to handle Frivol sales throughout the university year, by virtue of its victory in a sales contest conducted by the humor magazine. Second was Gamma Phi Beta, and third Kappa Kappa Gamma.

The three high sellers were all representatives of Pi Beta Phi in the contest. They were Gabrielle Royal, A3 of West Liberty; M. Janice McNeill, A3 of Monticello, and Phebe Jamison, A2 of Oelwein.

Record Vote
Expected in
Iowa Election

Curtis, Norris Head List
of Speakers Invading
State

DES MOINES, Oct. 22 (AP)—Election machinery has been placed in readiness to record what may be a record vote for Iowa in the Nov. 8 general election.

Selection of the Republican and Democratic nominees for the state supreme court vacancy caused by the death of Justice Morling and certification of the names to county auditors cleared the way for the printing of ballots in all counties.

Dismissal of an injunction suit brought here to prevent the printing of the general election ballots in the form certified to county auditors earlier by the secretary of state, cleared away what might otherwise have been an obstacle in the path of election arrangements.

As election officials went ahead with arrangements, the candidates and Republicans and Democratic campaigners proceeded with their final drives for votes.

The speech of Vice President Charles Curtis in Sioux City Friday night and that of Senator George W. Norris of Nebraska in Des Moines tonight held major attention on the week's schedule of addresses in behalf of the national tickets. Norris, a Republican progressive, supported the candidacy of Governor Roosevelt.

Iowa Campaigners

Democratic campaigners appearing in Iowa in the next few days include Ruth Bryan Owen, former member of congress, and Mrs. Nellie Taylor Ross, former governor of Wyoming. Mrs. Owen was to speak in Iowa City Oct. 27, and Mrs. Ross in Clinton on Oct. 28.

Among the out-of-state speakers invading Iowa for the Republican ticket will be Montville Flowers of Pasadena, Cal., veteran farmer; Col. Albert E. Barnes, former president of the National Citizenship organization; Mrs. Elizabeth Boucher, George L. Dick, Mrs. Anna L. Smith of Illinois.

Also scheduled for addresses are Raymond L. Bellamy, state director of employment in Maryland; former Governor Fred Zimmerman of Wisconsin, and Lloyd V. Harmon, a 20-year-old minister in the Methodist Episcopal church.

The candidates for the United States senate and for major state offices were booked solidly for addresses over the state during the week.

**Harold Cooper to
Speak in Program
From Radio WSUI**

LARAMIE, Wyo., Oct. 22 (AP)—The identity of the man found slain last Sunday near Mountain Home, Wyo., today remained a mystery as Ruth Wending of Omaha, Neb., advised officials here the victim was not her missing brother.

A picture of the man was sent Miss Wending after she advised him in a telephone conversation that she believed the description tallied with that of her brother who is missing from Atlanta, Ga. The victim wore a hat with the name of that town stamped on it.

Sheriff Eugene P. Smith of Albany county, who has directed a searching investigation of the slaying, today said he was convinced the man was the victim of gangster activities, and possibly from Denver.

The candidates for the United States senate and for major state offices were booked solidly for addresses over the state during the week.

**Three Iowa Faculty
Members Will Take
Part in Discussion**

Harold Cooper of the graduate college will be the speaker on the third program of the radio series sponsored by the school of letters, to be broadcast over WSUI tomorrow evening. His talk will consist of readings and criticisms of present-day Iowa poets.

Prof. A. Dale Yoder, director of the social administration division, will preside at a meeting at 2 p.m. Friday. Prof. Ina T. Tyler of the extension division is chairman of the program committee. Emil Sundley of the social administration division will preside at a round table at 9 a.m. Friday.

Society and Clubs

Ruskin Sandbourne to Play for Iowa City Woman's Club

Jean Westinghouse to Assist Pianist in Performance

Ruskin Sandbourne of Cedar Rapids will give a piano recital under the auspices of the music department of the Iowa City Woman's club in the woman's lounge of the Iowa Union tomorrow at 8:15 p.m. Jean Kelly Westinghouse, soprano, will assist Mr. Sandbourne.

For the program Mr. Sandbourne has chosen:

Schlummerlied ... Liszt
La Fleuse, Op. 157 ... Raff

D'un Cahier D'esquisses ... Debussy

Farniente, Op. 40, No. 2 ... Cuf

Miss Westinghouse will sing:

BOOK REVIEWS

Edited by Harriet I. Mahnke

As the Press Rolls

Paul Green, author and playwright who visited the campus last summer on the occasion of the world premiere of his play, "Tread the Green Grass," staged by the University theater, has had another novel, "The Laughing Pioneer," published by Robert McBride. Other of his works include "In Abraham's Bosom," and "Wide Fields." . . . Walter D. Edmonds from whose "Rome Haul," Frank Elser adapted "Low Bridge," current University theater production, has finished a new novel, "Erie Water," which will be published by Little, Brown in the spring. . . . Internationally celebrated as a dancer Ruth St. Denis is also a poet. Houghton Mifflin will release her new volume of poetry "Lotus Light." Miss St. Denis has been chosen director of the dance for the World Exposition in Chicago in 1933. . . . Norman Thomas, Socialist candidate for president, and Paul Blanshard are collaborators on a new book, "What's the Matter with New York? A National Problem." Macmillan is publisher.

Rome Haul, by Walter D. Edmonds; Little, Brown. Reviewed by Roland A. White. (Note: "Low Bridge," by Frank Elser, first 1932-33 university play, is an adaptation of the novel about which this review was written in the spring of 1929.)

"It's a funny thing. Books is all right—stories, I mean—when there is people around. But when you're by yourself, you keep thinking about it, a play is better. There's people talking all the while, and coming in and going out, and it seems right you should be sitting where you be to see 'em. But in a book you can't go around with anybody without knowing all the while you're setting by yourself."

This comment on reading which young Edmonds, who is (in 1929) only 25, puts into the mouth of a character, is no indictment of his own work. In Rome Haul you move along the Erie canal behind walking mules, almost a part of the story itself.

Conversations that mix an occasional bit of philosophy with natural, broken talk result from many chats Mr. Edmonds has had with old timers in the region of which he writes. Perhaps he used shorthand. Certainly he duplicated real talk.

Vivid color predominates. Verbs that sit up and perform before the reader make him almost an eye witness to the slow moving panorama. Briefly done, descriptions are sharply defined and demand no eye strain for visualization.

Characters that live move in situations seen with a sympathetic eye

Prof. Daniels Will Give Radio Address

Prof. Amy L. Daniels of the child welfare department will speak over station WSUI tomorrow at 8 p.m. on "The protection of the child during the period of economic stress."

This is the fourth program in the "Understanding our children" series which is being sponsored by the Iowa Child Welfare Research station.

Phi Omega Pi

Phi Omega Pi entertained at an alumni luncheon yesterday noon at the chapter house. The following were guests: Mrs. Harold McCarty, Mrs. Arthur Leff, Ethel Stone, Josephine Cerney, and Mrs. J. V. Blackman of Iowa City.

Mrs. H. J. Ever of Merrill, Wis.; Sibyl Griffith of Madison, S. Dak.; Helen Seigel of Ackley, Ia.; Elizabeth Lohmann of Burlington; Celia Lewis of Liscob; Mr. and Mrs. G. E. Maines of Cedar Rapids; Albert Hughes of Peoria; Edith Woodford of Erie, and Mrs. Catherine Spafford of Syracuse.

Guests at the Phi Omega Pi house are: Caroline Ortman of Sioux Falls, S. Dak.; Mary Campbell of Burlington; Lucille Reister of Washington, Ia.; Faye Morgan and Eloise Harvey, both of Boone; Betty Zeman of Davenport; Louise Case of Mediapolis; Katherine Kratofka of the Ames chapter; Mary Briley of Washington, Ia.; Helen Moody of Grundy Center; and Cathryn Franco of Tipton.

Triangle

Homecoming guests at the Triangular fraternity house are: Lester Benesh and R. B. McAllister, both of Des Moines; Harold Hosking of Chicago; Ted Anderson of La Salle; John T. Fores of Detroit, Mich.; Paul Cerney of Indianapolis, Ind.; Basil Deegan of Peterson; Drew McDougal and W. G. McAvoy, both of Des Moines; Herbert Bruns of Davenport; D. Togert of Sioux City, and Sim Etzel of Chicago.

Justin Albright, L3 of Lisbon, was general chairman of the party committee.

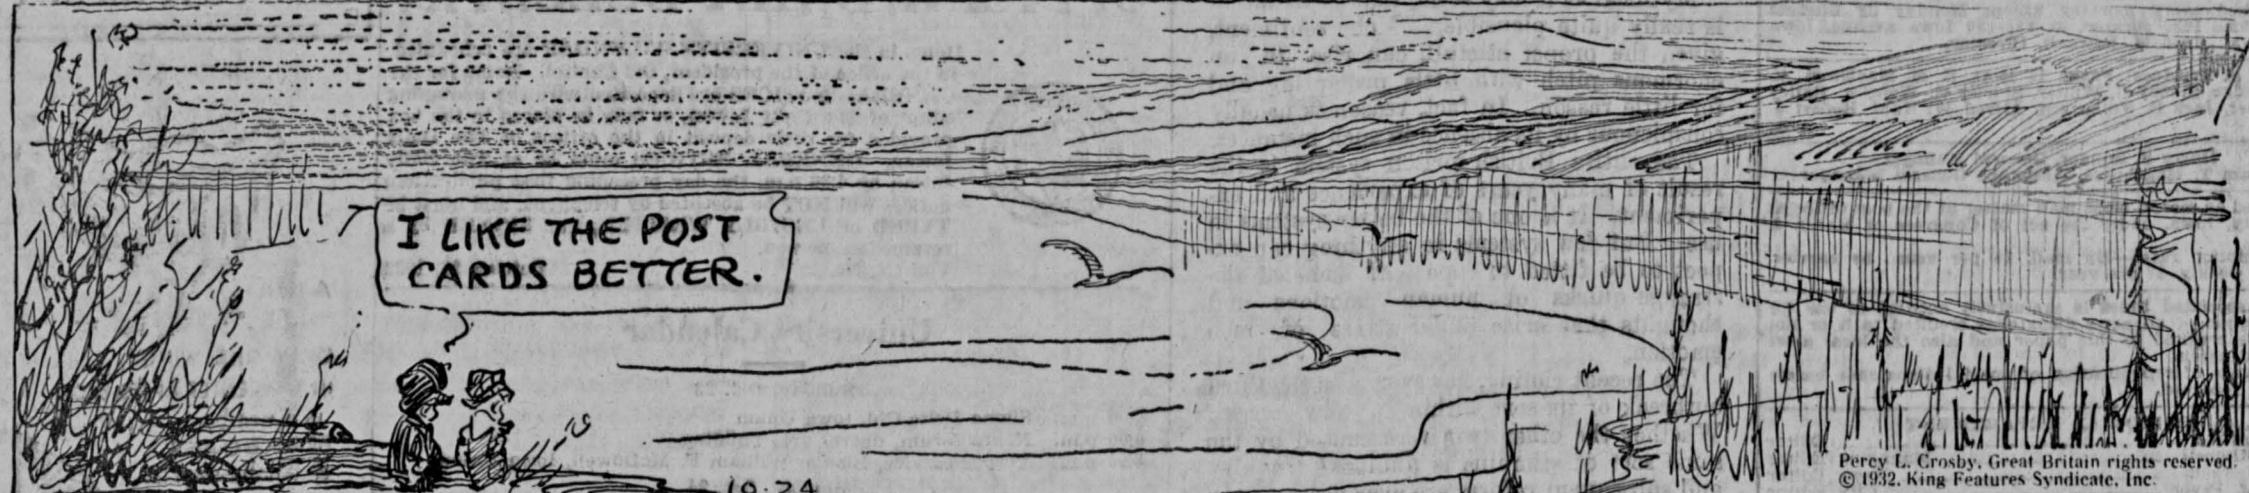

Zeta Tau Alpha

More than 35 guests attended the Zeta Tau Alpha alumnae breakfast this morning at the chapter house. Following the breakfast there was a meeting of the Alpha Omicron Building association.

Guests who arrived in time for the game yesterday were: Mrs. Mildred McKay, Washington, Ia.; Mrs. Leora Smouse and Cleva Miller of Dennison; Marlois Castle of Albia; Mary Bowles of Moulton; Edna Lamb of Fairbank, Minn.; Eurella Waddell of Aurelia, and Naomi Thurston of Clinton.

Theta Epsilon

Eight alumnae of Theta Epsilon were entertained at a Homecoming dinner yesterday, and two pledges were announced. The pledges are Jo Hammel Holzer, A1 of Lorraine, Kan., and Wilma Walker, A2 of Washington, Ia. The theme of the dinner decorations was based on miniature Dutch windmills.

ONE INEVITABLE result of depression and prolonged hard times is distrust and suspicion on the part of the more or less helpless citizens of their government and government officials.

Iowa City is afflicted with its share of this distrust. It is a disease; it spreads under cover, insidiously.

Yesterday County Attorney F. B. Olsen gave the board of supervisors his opinion that they are not legally required to file the report of Allen, Busby, and Harrigan, Des Moines accountants who examined the office of County Treasurer Charles L. Berry, as a public record.

Mr. Olsen is undoubtedly right. Under the law, as he pointed out in his opinion, the matter rests entirely with the board of supervisors. The report is theirs to keep secret or to reveal.

Allen, Busby, and Harrigan were hired to obtain information for the trial of a case in which the board of supervisors seeks to discover the reason for a \$20,000 discrepancy between the records of the county treasurer and the First National bank.

It might be that it is in the best interests of the county for the report of the auditors to be kept secret until the trial. It might be that it would make no real difference.

In either case, the best policy for the board of supervisors would appear to be one of frankness. Mr. Olsen told them orally a week ago that the law left the matter to their own discretion. They took no action, but attempted to place the responsibility upon the county attorney again by asking for a written opinion.

Now that the opinion has been received there appears to be no further reason why the supervisors should not make a frank statement and either place the report on file or refuse to do so.

By doing that they would take the first step, however late, in checking the growth of the creeping malady.

Gentleman and Scholar

WHY A FRENCHMAN should be awarded a medal by the German government may be somewhat difficult to understand, but why he should receive recognition because he is a lover and admirer of Goethe and Beethoven is much harder to probe for a logical solution.

Nevertheless, Premier Herriot was presented with the Goethe Centenary Medal in Paris the other day, after confirmation of the honor had been received from President von Hindenberg.

All Germany, according to nationalist papers, are aroused and astonished by the award, and quizzical as to why it was made. "Whoever may be responsible for this curious act of courtesy, nationally minded Germany has little understanding for such a gesture at this most inappropriate time," says the Boersenzzeitung.

"That M. Herriot takes a literary interest in Goethe is commendable, but it does not alter the fact that this Radical Socialist is a more dangerous enemy of Germany than the most fervid avowed French Chauvinist," the newspaper continues.

Among other things, the presentation gave the nationalist press a chance to give the government a thorough berating, stressing the present unamiable attitudes of the two nations, the unwillingness of France to consider Germany within the circle of great nations, and the war guilt lie.

Perhaps the gesture was made with an eye to cementing certain associations, with a view to subsequent amiable dealings. There is little doubt but that Herriot is agreeable to German demands for recognition, for repudiation of war guilt, for equality among nations. Whether such recognition will alter his views seems quite doubtful.

But aside from any ulterior motives that the promulgators may have entertained, and aside from what the German nation as a whole thinks of the matter, there is little good reason why it should be made on the basis of national pride or appreciation of a fellow admirer. Whatever Herriot may think of it, the medal will always be tainted in the eyes of the German public, and classic literature will gain not a whit.

Room for Improvement

MUCH CENSURE is being heaped upon the heads of Canadian officials whose Portsmouth penitentiary was turned into a bedlam the other day with the rioting of several hundred inmates. But few know the real cause of the unrest that prompted the uprising.

According to one of the inmates, a rumor had spread about the prison that the Canadian parliament was to pass a bill authorizing a one-third cut in sentences for all convicts, by September 15. When that day arrived with no verification and as several weeks went by with still no word from the ad-

ministration, the unrest was heightened and finally given expression in the recent riots.

Mythical as it may seem, that explanation is really quite plausible. Mob sentiment, given the proper stimuli, can rise to an enormous pitch with little prompting and for little reason. In fact, reason is usually conspicuous in its absence in such instances.

The entire British prison system is the result of many years of experience and experiment. It is one of the better systems in use. But few systems in anything can expect to be fitted to cope with some of the strange quirks of human emotions and thoughts that arise under stress of mob emotion.

The recent rioting, however, was the third outbreak of its sort within a few weeks. Whether the other two were caused by the same sort of stimulus is dubious. Inquiry and subsequent reform are ever necessary in this changing world, and no matter how high any institution is rated it is never beyond reach of static conditions.

It's a Great Cause

A BOON to alarm clock dealers who have experienced slumps in their business is the promise of milk dealers in Moorhead, Minn. To the early risers who have been dependent upon the clatter of milk wagons and the clump of the milkman's number 11's on the back steps for an awakening—those days are gone forever.

The well-dressed milkman now wears rubber soled and heeled shoes, and Dobbin, whose iron footwear clattered on the pavement with a sound anything but musical is completely shod with rubber.

Dobbin's wagon has been equipped with rubber tired wheels, too, and the steel wire carriers which uttered a jangling protest every time bottles were withdrawn from them have been coated with rubber.

The beauty of the idea is that it is nearly alone in its accomplishment; only in one other city in the country is there a silent milk delivery. Just another cause for the midwest to point with pride to its modern ideas.

TODAY'S TOPICS

BY FRANK JAFFE

The 21-6 defeat administered by Minnesota yesterday certainly loses its sting with the realization that Iowa's football team scored its first Big Ten touchdown in three years—the last one came in the 1929 Minnesota game. And this starts a new era in Iowa football—the Hawkeyes have not forgotten to make touchdowns against a conference team.

No one could have asked for a more spirited game, for a more spirited team, fighting its way from the wall to a score. And if you think that 6 on the scoreboard didn't lighten the heart of every fan present in Iowa stadium and make him forget the 21 on the other side, you are just plain loco.

Just as Prognosticator Harvey Woodruff told readers of the Chicago Tribune Saturday morning, that "you offer sympathy, they are polite, but do not seem to want it," Iowans with a great big warm spot for clean sport are jubilant tonight, secure in the knowledge that Iowa can still boast a fighting team, a fighting spirit and an indomitable one.

The rain and sloppy gridiron brought back to many fans thoughts of not many years ago, when a drizzle of a Saturday meant mudbound overnight in Iowa City, or up to the fenders in cozy stickum all the way home.

Of course, it's too bad we didn't come out on the large end of the final verdict—to paraphrase rabid sportspersons—and bring home the bacon, as it were, still there's more satisfaction in the single touchdown for local Hawkeye fans than all the 15 that West Waterloo piled up against Iowa City high Friday night.

From the performance yesterday those loyal Iowans (see above paragraph) ought to have an opportunity to recoup the family fortunes next Saturday when Iowa plays George Washington (there), the team that yesterday took a trimming from the Tulsa university outfit, at Tulsa.

Somehow, the political horizon is becoming smeared with all too much mud these days, as the reader of any newspaper will readily attest. Gone is the glamor of political ballyhoo and in its stead is resignation—not very enlightening situation. In place of the curiosity that the voting public displayed avidly during the opening weeks of the campaign, there is some show of impatience for the end—which, of course, will only be the beginning.

Why that should be so hard to decide, but all will agree that it shouldn't be that way. People ought to be all the more interested as the campaign progresses, learning new things, assimilating new facts, making new decisions about them.

But the entire business has resolved itself into a round of accusation and denial, of old dirt and new, of growing antagonism and resentment. If the bigger ballyhooers could only delete from their line of chatter the incessant references to depression and revolution, death by starvation and decay of American civilization, politics would be inestimably more palatable to the average run of voters.

Maybe there ought to be a law against it, but then there would be too many of those who listen and like it ready to march on Washington and cow the congress into being agreeable. But something ought to be done, if it is only a protest by way of that eternal force and divine power, good old Public Opinion.

Book Bits—

(From Hatter's Castle, by A. J. Cronin)

With a considerable effort Foyle controlled his temper.

"Mr. Brodie," he pleaded. "I wish you would listen to me. Surely you must admit that a man is what he makes himself—that he himself controls his own destiny, irrespective of what his parents may be. I am not ashamed of my ancestry, but if that is what you object to, surely it does not damn me."

Brodie looked at the other frowningly.

"Ye dare to talk that damned new-fangled socialism to me!" he roared angrily. "One man is as good as another, I suppose! What are we comin' to next? You fool! I'll have none of ye. Get out!"

Man Stabbed in New York Prison Fight

"Peace Meeting" Starts Melee in Welfare Island Pen

NEW YORK, Oct. 22 (AP)—A "peace meeting" between leaders of rival factions in the city penitentiary on Welfare Island today precipitated a 100 man melee during which one of the prisoners, a Manhattan gunman, was stabbed to death.

A general riot among the 1,560 prisoners on the narrow island in the East river was imminent for the next half hour, as members of the two factions defied the smoking revolvers of officers.

Dozens of shots were fired before 200 prisoners who were out of their cells were herded back behind bars.

It took some of the 500 city police who answered a riot call with shotgun and gas bombs to get the last of the recalcitrants rounded up.

Meantime word of the killing had spread through most of the cell blocks. Hundreds of inmates set up a weird cacophony of rattling cell locks and screaming.

Police Guard

Three police planes roared overhead, ready to drop bombs.

Four police launches circled the island with machine guns ready for action.

Police cars with screeching sirens raced to the center of Queensborough bridge and sent squad after squad of bluecoats, with sawed-off shotguns in hand, down a huge elevator to the island below.

Patrol wagons, ambulances and fire apparatus joined in the parade. The man picked up dying from the center of the milling, slugging, prisoners was George Holshoe, who had been sentenced for carrying a concealed revolver.

He had represented a faction of prisoners of Irish extraction at the peace meeting in the warden's office.

The other two inmates at the conference were Anthony Mazzio and Joey Rao, who spoke for the Italian faction.

Warden McCann and Medical Director Norman, who had sat in the conference with the three inmates, gave vivid eye-witness accounts of what happened.

Trouble Brewing
"There had been trouble brewing between the two factions since Wednesday," the warden said.

"I sent for the three prisoners to see if we couldn't work out a peaceful solution. The four of us, with the medical director, sat down in my office to talk."

"I asked them what the trouble was all about. Holshoe said one of the men in the other faction had been sending tales out to the Italian mob."

Rao and Mazzio said it was a lie. Holshoe got up from his chair and struck Mazzio.

"When the fight started I rushed over to the safe in which we kept all our revolvers, about 50 of them, to be sure it was locked."

Dr. Norman picked up the story at this point.

"I ran out to get help," he said. "As I did 15 or 20 prisoners who were passing through the office building on the way to various jobs rushed through the warden's door and joined in the fight."

"The battle gradually moved out into the large anteroom. About 100 men then joined in. It was a free-for-all, with fists flying."

Wounded Twice

"When it was over we picked up Holshoe and at the hospital, where he soon died, we found he had two stab wounds in his chest."

From among the combatants and those outside the office building who sought to foment a riot of general proportions, 27 prisoners were gathered for questioning.

Meantime, a search went on for the death weapon. A search of cells disclosed a razor, a pair of scissors and several penknives. Some had been secreted in emergency fire buckets.

Officials immediately ordered 50 inmates transferred to other unnamed institutions, and a 42 man police guard was established for

Drop Poorer Teacher Says Schools Head

Agnes Samuelson Gives Suggestions to Aid Jobless

DES MOINES, Oct. 22 (AP)—Elimination of the inferior teacher was said by Agnes Samuelson today to be the solution to the unemployed problem among well-qualified instructors in Iowa.

Of 200 teachers who have applied to her regarding a position, the Iowa superintendent of public instruction said 40 per cent were graduates of four-year college courses and 25 per cent had teaching experience.

Miss Samuelson offered four suggestions for meeting the situation: Increasing standards so that those with the best preparation have greater opportunity to get employment.

Boards of education should seek better teachers.

Set up standards for the profession so that only promising neophytes will be able to enter teaching.

Some plan to maintain a balance between supply of teachers and demand.

She also listed four reasons for the current surplus of teachers. Persons who left teaching before the depression and who are now jobless and those who prepared, in vain, for some other work, are turning to teaching, she said; boards are hiring few teachers, and the number of persons trained for the profession is out of proportion to the demand.

She disavowed a belief that there is a surplus of good teachers. "Under the present economic conditions," she explained, "teachers with the least preparation have obtained positions, while the better trained teachers have found it impossible to obtain employment."

Sig Nu Takes House Prize for 3rd Year

Gamma Phi House Best Decorated Among Sororities

For the third consecutive year, Sigma Nu won first prize in the Kiwanis club's contest for the best decorated fraternity house, it was announced yesterday by Wilbur Cannon, chairman of the judging committee, who with Prof. A. C. Trowbridge, inspected the decorations.

Permanent possession of the Kiwanis cup will go to Sigma Nu as a result of its third straight win.

Sigma Nu's decorations include a foreground of cornstalks, with a blue background. Leading from the ground up to the second floor is a ladder made of corn, each rung of which represents a Big Ten game. The two lower rungs, Indiana and Wisconsin, are broken, signifying the defeats handed the Iowa team earlier in the season. A figure of Coach Ossie Solem is reaching for Minnesota, the third rung, seeking to get a foothold for the remaining games of the season. A large replica of the fraternity's pin, over the entrance, completes the decorations.

Gamma Phi Beta was last night awarded the Lions club cup given to the sorority with the best decorated house. Phi Mu placed second, and Kappa Kappa Gamma and Pi Beta Phi tied for third.

Lions club judging committee consisted of Irving Weber, chairman; Coach D. A. Armbruster, and Dr. W. D. Kell.

WHILE yesterday's game left much to be desired insofar as really great Iowa teams are concerned, that last minute touchdown after Scharnitzel's interception of Champlin's pass, and the great battle put up by the Hawkeyes took much of the sting out of defeat. We won't call it a "moral victory," but it was far from a humiliation.

Southern California Continues Unbeaten; Drops Stanford, 13-0

N. U. Beaten, Outplayed in 1st 3 Periods

Purdue Muffs Many Scoring Chances Early in Tilt

EVANSTON, Ill., Oct. 22 (AP)—Outplayed and beaten for three periods, Northwestern, rallying furiously in the dramatic closing three minutes of the game, swept down the field on a 65 yard march for a touchdown that held Purdue to a 7 to 7 tie today.

Before that uprising, gloom hung over the crowd of 40,000 that almost filled Dyche stadium because the Wildcats seemed certain to go down in defeat. Then they opened up, in desperation, with a sensational forward passing assault, bringing their aerial attack to a climax with a perfect shot over Purdue's goal line.

The result was sweet revenge for Northwestern. A year ago Northwestern, with the Western conference championship in its grip, met Purdue in a post-season charity game. Purdue conquered the Wildcats, throwing the title into a three-way tie, Purdue, Michigan and Northwestern sharing it. The situation today leaves only Michigan and Chicago undefeated and unbroken in the Big Ten race.

The stirring climax of today's game was furnished by blond Ollie Olson, fullback, and Pug Renter, Northwestern's all-American halfback. With the ball on Purdue's five yard line, Olson took the ball from center, tossed it to Renter, who with perfect aim, shot a forward pass to George Potter, the Wildcats' halfback, who was standing back of Purdue's goal in one corner of the end zone, ready to pluck the ball out of the air.

Calmly Olson walked into position to kick the extra point that tied the score, booting a dropkick squarely between the uprights, with the crowd, silent and anxious, suddenly cutting loose with tremendous cheer as his shoe cracked against the pigskin with perfect aim.

Purdue, hitherto undefeated and playing Northwestern off its feet for three periods, scoring after a terrific 28 yard march in the third quarter, and missed four other opportunities to register touchdowns or points by means of field goals.

The Boilermakers muffed three chances to score in the second when they crowded dangerously near the Northwestern goal.

Although Notre Dame has defeated Army 12 out of 14 games, the difference in the total score of the series is only 25 points.

I was really the passes that spelled defeat for Iowa. Coach Ossie Solem's charges slipped badly on aerial defense again, and twice let the receiver slip into the open to grab the pigskin and scamper across the goal line unmolested. The Hawkeyes had no trouble all season stopping forward passes.

Minnesota backers left the stadium considerably heartened, for they declared that at last the Gophers showed their class. Bierman has plenty of good material, but hadn't been able to get his team to clicking until yesterday. And don't think that touchdown Iowa got isn't going to do the Hawkeyes some good. They have scored against Big Ten competition, after two barren years, and they should be picking up.

Wolverines in 32-0 Triumph Over Illinois

ANN ARBOR, Mich., Oct. 22 (AP)—Michigan, hot on the trail of the Western conference title, jumped another barrier today, smothering Illinois, 32 to 0, to win its third Big Ten game of the season and remain, with Chicago, the only undefeated and untied conference football eleven.

Twenty thousand spectators, the smallest crowd of the year, saw the Wolverines loose an overwhelming offense, both passing and plunging, to score five touchdowns.

The pass-snatching of Captain Williamson, and the line-smashing and long sprints of Ted Petoskey, made over from end to fullback for the day, were too much for the Illini. Harry Newman, Michigan's star quarterback, called for a mixed overhead and running game which the Illinois squad was unable to halt.

State Teachers Beat Morningside, 12 to 0 Before Homecomers

CEDAR FALLS, Oct. 22 (AP)—Iowa State Teachers college outplayed Morningside in a drizzling rain today to win their first football meeting in 13 years by a 12 to 0 score.

Two thousand fans witnessed the Homecoming struggle.

Harmon scored both of the Tutor touchdowns in the third period. He plowed over the goal line after a 15 yard penalty had placed the ball on the one-yard mark for the first score, and then reeled off a 40 yard run for the next counter. Both tries for the extra point were missed.

Marquette Wins
MILWAUKEE, Oct. 22 (AP)—Scoring two touchdowns in the first quarter, Marquette university's football team coasted to an easy 13 to 0 victory over Boston college before a small crowd of 6,000 here today.

Missouri Tigers Hold Iowa State to Scoreless Tie

MEMORIAL STADIUM, CO-LUMBIA, Mo., Oct. 22 (AP)—The University of Missouri Tigers snappet out their lethargy today but failed to gain when gains meant touchdowns and wound up in a scoreless tie with the Iowa State college Cyclones in a Big Six conference tussle.

After playing on reasonably even terms in the first half, the Tigers put on two powerful drives in the third and fourth periods, one good for six consecutive first downs and 70 yards, but the fighting Cyclones held both times in the shadow of their goal line.

Although unable to score, the Tiger showing both offensively and defensively was by far the best they have done under their new coach, Frank Carideo, former Notre Dame star quarterback.

Navy Eleven Holds Princeton to 0-0 Tie to Surprise 65,000 Fans

Scores Upset to Surprise 65,000 Fans

Princeton, N. J., Oct. 22 (AP)—A scrapping Navy eleven, which hasn't been doing so well this season, made up for any previous lapses by playing Princeton's well-liked Tigers, to a scoreless tie before 40,000 spectators at Palmer stadium today.

Coach Rip Miller's Middlesex most of the way and contributed what few scoring threats were offered.

Only once did Princeton threaten the Middle's goal line late in the second period, while the future admirals harassed their rivals repeatedly in the first half and kept them backed against their own goal posts much of the second.

SYNOPSIS

Lovely, young Patricia Braithwaite agrees to marry wealthy, middle-aged Harvey Blaine because the father she adores is in financial straits. She hopes, however, that handsome Jack Laurence, a young camper whom she only met once, and the only man she ever wanted to kiss her—will rescue her from Blaine. When Jack fails to appear, she turns, in desperation, to Jimmie Warren, her Aunt Pamela's fascinating husband. They became infatuated and Pat breaks her engagement. Aunt Pam is suspicious but blames herself for warning Pat that love fades, inferring that her marriage to Jimmie had failed. Feeling that Pam no longer loves Jimmie and Pat see no wrong in their "love." Then Jack appears, but Pat tells him he is too late—the emotion he awakened, blossomed to love under another's kiss. Jack, claiming he is the one Pat really cares for, refuses to give up, and the next day moves to the hotel in which she also is quartered.

CHAPTER NINETEEN

Jack stepped out of an elevator. "Don't tell us that's your date," whispered Mary Lou, her round face glowing.

He crossed to them. Patricia introduced him.

"Mr. Laurence," Ida echoed, "does your name happen by any chance to be—it is! You are Jack Laurence! I saw you play Yale three years ago. Girls, you know Jack Laurence. Oh, tell us about it."

Mary Lou, seeing his face change, caught his arm to her; "Don't answer. She's a rude woman."

Ida, realizing her mistake, possessed herself of his other arm. "Mary Lou's right. It's your affair."

They hustled him away to play ping pong which they had just deserted in high boredom. He was an expert player and they took turns against him. It was clear to Patricia that there would be no conflict between Jack and Jimmie over her if the girls could prevent it.

"Pat, there's no use in your going back to the hotel," Pamela said when Mr. Braithwaite's train pulled out. "I'll send my maid over to pack your things and Ben can fetch them tonight. Who was the stunning sheik you were talking with on the wet veranda when we drove up?"

"Jack Laurence." "Not the Jack Laurence!"

"The."

"Where on earth did you meet him and when? I didn't see him around yesterday. Hotel pick-up?"

A malicious smile lit up Pat's blue eyes. "Beach pick-up. He's the tramp I told you about yesterday who quoted Browning and explained a marvelous opera to me and gave me a campfire lunch by the side of the road, or rather the sea. You said I'd gone sun-mad and made him up. I thought so myself. But there he is, no longer a tramp, but guest of an expensive hotel, with all the girls cutting each other's throats over him, and there's no sun or moon to account for him. So he must be real."

Her words racedpell-mell in time with her racing pulses. Warren looked up as if about to speak, but sank back, silent. Patricia felt a thrill of triumph.

"Too bad of me to carry you off," murmured Pamela. "His father is the senator from Virginia. Very important people. When did he get back? And from where?"

"I'll introduce you, and he can tell you all about it. It's a thrilling tale. I won't spoil it."

Wheat Operators Waiting for "Jolt" to Liven World Trade

CHICAGO, Oct. 22 (AP)—Wheat markets the world over are so narrow and prices so low, and the trade so light that operators as a rule have no pronounced opinion with regard to the future prices in either direction. All in all, they are in a waiting position, with hopes that something may develop within a few days to give the trade a jolt.

Corn export business is the best known in years, with probably 2,000,000 bushels in various positions sold during the week, is not generally regarded as a bullish factor. Specialists declare that any material advance would cut off the export business. With prices around the present level, it is said however, there is likelihood of continuance of good overseas demand.

HAWKEYES**Powerful Minnesotans Take 21-6 Win**

(Continued from page 1) worked smoothly behind almost perfect interference.

Tyro Bests Lund

Tyro bested Lund by a five yard average in punting, getting his spirals off for a mean of 46 yards, with many of them being made close to his goal line.

Page, Iowa's 156-pound fullback, looked well on defense, and picked up

some yardage through the defensive line. Laws also turned in some nice defensive work, knocking down one pass over the goal line that looked like another Minnesota score.

In the line, Capt. Marc Magnussen, Tom Moore, and Schammel were outstanding, with Bob Loufek making a good showing at right end.

Lund was the sparkplug of the Minnesota offense, his passes going fast and straight, while he led the field in yards from scrimmage, threatening the Hawkeyes constantly with his open field jaunts.

Manders appeared in top form, his drives through the line accounting for several of the Gophers' 12 first downs. Proffitt, the

Corn Market Strong While Wheat Sinks to Low Marks

CHICAGO, Oct. 22 (AP)—Surprising activity and strength of the cash corn market today contrasted sharply with a persistent downward trend of wheat.

Indications were that a large amount of corn was being moved to eastern positions to take advantage of prospective big European demand. It was estimated 2,000,000 bushels or more corn had been disposed of to exporters this week, the best export business known in years.

Corn closed firm at the same as yesterday's finish for immediate delivery, with futures a shade to 3¢ off, and oats at a shade decline to an equal advance. On the other hand, wheat was 3¢ to 5¢ down, and provisions showing setbacks of 2 to 5 cents.

Chicago handlers made shipping sales of 532,000 bushels of corn to day, largely to seaboard exporters. Vessel charters were taken for 200,000 bushels to Montreal, and there was evidence that 750,000 bushels were loading to go out from here to Canada. Nevertheless, there was something of a deadlock in the market, bigger export business apparently depending on a small decline in prices.

Less favorable weather for corn movement from rural sources appeared to be developing over the midwest. This was construed in some quarters as threatening to curtail exports.

A curious feature was that speculative trade in corn remained slack, although pit operators as a rule professed to be favorable to the buying side, taking the ground that

prices were at an unusually low level.

Wheat values churned within a narrow range today, with the volume of dealing small.

Provisions sympathized with weakness of hog values.

Stocks Quiet, Trades Slow

Car Loadings Indicate Unseasonal Gain; Rails Rise

NEW YORK, Oct. 22 (AP)—The stock market received positively day news of an unseasonal gain in freight car loadings. Fluctuations over the two hour session were irregular, resulting in a slight average loss.

With speculative activity stale-mated by what brokers are calling

the usual pre-election apathy and hesitation, and also by uncertainty as to next Tuesday's action on U. S. Steel corporation's preferred dividend, "in and out" traders were ready enough to accept small profits.

Thus the moderate first hour gains that followed the freight movement report willed quickly, in some instances being converted into minor losses. Net changes, however, were almost entirely of a fractional nature.

Most rails rose at least a point on the temporary upturn in which other groups participated. Union Pacific rallied 2 1/2 but lost it all. Santa Fe, up 1 3/4, finished slightly lower; other carriers behaved in similar fashion. Tobacco stocks steadied after a week of sharp declines, reflecting late covering. American Telephone yielded most of a 2 point rise. Net changes, either way, for U. S. Steel, General Motors, General Electric, Case, Standard Oil of New Jersey, Allied Chemical, North American, Har-

vester and Consolidated Gas were very narrow. Sales totaled only 447,820 shares.

Loadings of revenue freight in the week ended Oct. 15 showed the surprising advance of 24,942 cars. An increase had been expected, but the actual gain exceeded best estimates.

Campaigners Criticize Each Party's Farm Relief Plans

Curtis Takes Part in Yankton College Homecoming

YANKTON, S. D., Oct. 22 (AP)—Vice President Charles J. Curtis, speaking here today in the interest of the Republican national ticket, detailed the administration's record in behalf of agriculture, the tariff and other measures, and criticized Gov. Franklin D. Roosevelt's recent Topeka speech.

Mr. Curtis was a guest at the Yankton college Homecoming festivities, but limited his political activity to the speech today. He was the guest of honor at the college Homecoming banquet tonight.

Much of the vice president's address was a repetition of his talk at Sioux City last night. He reiterated statements that the troubles of the American farmer started in 1919 "when the deflation policy of the Democratic administration began, and not after the Republican party gained control in 1921," as he said Governor Roosevelt "is trying to make folks believe."

Criticizes Roosevelt

He also repeated his criticism of the six point plan of agriculture relief outlined at Topeka by Governor Roosevelt, and referred to the Democratic presidential candidate as "this New York state farmer who has a swimming pool and a polo ground and some tennis courts and a golf course on his farm."

The vice president cited the record of measures enacted under the Republican administration since 1921 for the aid of agriculture, adding that "the Republican party knows that agriculture is the foundation of our civilization and the farmer is entitled to his profit. We are doing all we can to find the right remedies."

He said the per capita circulation of money is "something we can all take as a promise of better times," declaring that such circulation "which is the economic pulse of the people, has jumped from \$36 per person in 1921 to \$45.50 per person this year, which is even better circulation of cash than we had in the boom days of 1929."

G.O.P. Efforts

Referring to the administration's efforts to maintain the nation's credit, the vice president said:

"Today, as a result of this fight by the Hoover administration to uphold our national credit, American bonds are at top prices when most of foreign government bonds are at low prices. The soundness of our money system stands unquestioned. Through the prompt action of our president and the hearty support of our business men, chaos and ruination of credit has been averted."

"I appeal to the American people," he concluded, "to put patriotism ahead of politics and all pull together behind the leadership of our president until this trouble is over."

Spangler Will Give Address

Iowa City Republicans will hear the problems of the current political campaign discussed in detail at the American Legion Community building tomorrow night by Harrison E. Spangler of Cedar Rapids, attorney and national committee man.

Mr. Spangler will speak at the Legion building following a dinner in his honor in the Spanish room at the Hawks' Nest cafe.

In addition to outlining the work of the party in the campaign, Mr. Spangler is expected to discuss some of the major issues in the race.

Family Escapes as Bomb Rocks Home of Superintendent

CHICAGO, Oct. 22 (AP)—A powerful bomb blasted into fragments the porch and stone steps at the home of William J. Bogan, superintendent of schools, at an early morning hour today.

Bogan and his wife and three children were thrown from their beds by the explosion, but were unharmed.

Heleen Heffernan, a trustee of the Chicago school board, said she presumed the incident grew "out of the trouble with the small store owners in school communities who have protested against the schools operating cafeterias and selling school supplies."

Sterling to Assist G.O.P. Candidate

AUSTIN, Tex., Oct. 22 (AP)—Gov. R. S. Sterling, Democrat, announced definitely today he would support Orville Bullington, Republican nominee for the governorship of Texas, in the general election.

Mrs. Miriam A. Ferguson, former governor and wife of James E. Ferguson, former governor who was impeached and removed from office during his second term in 1917, won the Democratic nomination over Governor Sterling in the party primaries last summer.

Norris Speaks Before Iowa Audience at State Capital

DES MOINES, Oct. 22 (AP)—Senator George W. Norris of Nebraska tonight told an audience here that President Hoover has failed to redeem "every pledge he made to the farmers," and as secretary of commerce "blocked genuine farm legislation."

The progressive Republican senator campaigning in support of Governor Roosevelt, assailed the president's record on agriculture in a speech which he said was in reply to President Hoover's opening campaign address in the same auditorium Oct. 4.

Norris recalled that four years ago he had pleaded with the farmers of Iowa and the northwest "not to elect the man who had sat in the cabinets of Presidents Harding and Coolidge for eight years, using his influence and appearing before committees," to block real farm relief measures.

Did Not Listen

"At that time you did not listen to my advice. But I am here tonight to remind you that in the last four years every prophecy I made in 1928 had been fulfilled and every pledge Candidate Hoover made to the farmers of this country is unredeemed," Norris declared.

Measures which he and his colleagues proposed and which were defeated "through the power and influence of Herbert Hoover and his associates" would, Norris asserted, have brought relief to agriculture and to a large measure have prevented the general depression.

"The question in the present campaign," he said, "is: Will the American people longer confine their destiny to the hands-off one who has never yet made a promise of a prophecy which has been fulfilled?"

Norris attributed principally to the "vigorous opposition and influence" of Mr. Hoover as secretary of commerce the defeat of a bill which would have set up a governmental crop purchasing corporation when the plight of the farmer finally was recognized after the war.

Hoover to Blame

He also placed responsibility for the rejection of other bills proposed by the agricultural committee on Mr. Hoover as "the leading representative of the administration against such legislation."

"It was clearly shown that the farmer was not getting this benefit of the tariff," Norris said. "We undertook to meet this by legislation. The McNary-Haugen bill had no other object than to give the farmer the benefit of the same tariff protection which is given to the manufacturer."

"Later on, we proposed the debt-reduction plan. That had the same object but it was much simpler in operation. It seemed to me no one could question the fairness of this proposal."

"All of this was opposed by Mr. Hoover, who, by that time, had become president of the United States and it was through his influence alone that it was defeated in the house of representatives after it had twice passed the senate."

In the 1928 campaign, Norris declared, Hoover expressly promised that if he were elected he would propose a measure which would bring about farm relief and would give the farmer the benefit of a protective tariff. The American people took him at his word, he said.

Higher Tariffs

"We got an increase of the tariff which was already too high," he said, "and what is the result? Every farmer knows. Every citizen knows. The farm board was his baby. The act was passed at his request and it was given \$500,000,000 of public money to make good. And again we know the result. Times have been getting worse and still worse."

"President Hoover promised prosperity to the farmer. In that spectacular campaign, Hoover promised to abolish poverty. After about four years of his rule, poverty and starvation run rampant all over the United States."

Earlier in his speech, the Nebraskan senator referred to efforts he said Mr. Hoover had made when secretary of commerce to take over some of the functions of other departments but had been blocked at one point by the late Henry Wallace, then secretary of agriculture.

Wallace, Norris asserted, "knew from his record as food administrator that Herbert Hoover was more solicitous of the welfare of packers, millers and grain combinations, than he was for farmers who raise livestock and crops."

Men Study Home-Making

DURANT, Okla. (AP)—Men students at Oklahoma Teachers college here are to study home economics in a course planned for next semester. The course, enrolling both men and women, will deal with home budgeting, food selection, etiquette, home appreciation and clothes personality.

CHATTANOOGA, Tenn. (AP)—Where a man's woodpile is there is his residence, Samp Robinson claims. Robinson's cabin is on the Tennessee side of the Tennessee-Georgia state line, but his woodpile is in Georgia and in Georgia he has served as a justice of peace for 22 years.

As a permanent step toward improving conditions he proposed enactment of a progressive inheritance tax to prevent the accumulation of vast fortunes.

THOUSANDS HAIL ROOSEVELT AT INDIANAPOLIS

A general view of the huge crowd that listened to Governor Franklin D. Roosevelt at Indianapolis Thursday afternoon in the Monument Circle of the city. The audience was estimated at 100,000, about all the space could hold. They heard the Democratic candidate assail Wall Street "buccaneers."

AROUND THE TOWN with DON PRYOR

Another Gift

In an effort to show his appreciation of the Iowa team, "win or lose," Bill Williams presented the team and staff with Iowa cushions following the game yesterday afternoon. This is in accordance with his policy of reviving the old Iowa spirit by handing out Iowa pennants to rooters who attended the send off of the team to Indiana and his window display of cowbells this week.

Off for a While

Employees at the court house took a recess yesterday afternoon to attend the Iowa-Minnesota game.

Those Six Points

That one touchdown the Iowa team made yesterday did almost as much to the people of the town as a winning score would have done. The simple idea that an Iowa team made a touchdown against a Big Ten rival was something they could hardly grasp for a while.

The Litter

The corn festival has left its mark on Iowa City. The streets in the downtown district look something like barn yards. It is something like the day after the Fourth of July. Just the cluttered evidence of fun the day before.

Rustic

Jack Curtis and his men at the Boeing airport have constructed a 100 foot old rail fence in front of the office building. The fence is covered with autumn leaves and has owls perched along the top. The whole affair is lighted at night.

Barnyard

The window of the Reliable Electric store is just a small barnyard. The entire window has been decorated, with leaves and other accessories, to resemble a farm scene. Even chickens are given their rightful place in the setting.
