Believe It or Not!

In 1934, Mr. and Mrs. J. O. 3,000,000 contract were awarded to a firm to manufacture a new kind of pen which would have saved the school $2,500. The idea was that the pen would hold enough ink to last a week, and the supply would be stored in a special holder. However, the pens were never delivered, and the school had to find another supplier.

Difficulties when buying pens

When a prospect is tempted to sign the $2,500 contract, Mr. J. O. 3,000,000 of his students, who are not used to writing with pens, changed their minds.

Parker Vacumatic

Parker Vacumatic pens are noted for their smooth writing and reliable operation. They are available in a variety of colors and styles, and are ideal for use in business and personal correspondence.
