# ESKIMO DESCRIBES FATAL CRASH

## Dale Williams Takes Honors at Show

### Judges Award Club Prizes On Last Afternoon

Spencer, Propst In Grand Championship Wins for Exhibition

Officials of the 4-H club show last night estimated the attendance of the three day show at Iowa stadium and airport at "nearly 10,000 persons."

The show was the largest in the history of the Johnson county expositions, according to the farm officials.

Final judging in the most successful 4-H club show ever staged in Johnson county awarded grand champion and reserve champion honors to two Chester White boars exhibited by Dale Williams at Iowa stadium yesterday.

Edwin Siders displayed the grand champion litter in the hog division judging and Lawrence Lacina exhibited the reserve champion litter.

Win Championships  
Donald Spencer and Lloyd Propst won the grand championships in the colt and lamb divisions, respectively, out of highly competitive exhibitions at the Johnson county 4-H show yesterday morning.

Fifteen-year-old Donald Spencer showed his colt, "Pat," to win the colt sweepstakes. Donald's brother, Harold, won the reserve championship with "Peggy." Both boys are students at University high school.

Adds Another Win  
Lloyd Propst added another championship ribbon to his laurels, winning this year's sheep award, and having won both the grand and reserve titles on his sheep last year. Lloyd is only 12 years old.

The reserve championship in the lamb division went to Joe Donohue. Winners in yesterday's livestock judging include:

**Pig Club**  
Market litter—Cleo Yoder, first; Howard Yoder, second; and Robert Cress, third.

Market pig—Dale Williams, first; and Richard Blank, second.

Spotted Poland-China barrow—Howard Yoder, first; and Robert Cress, second.

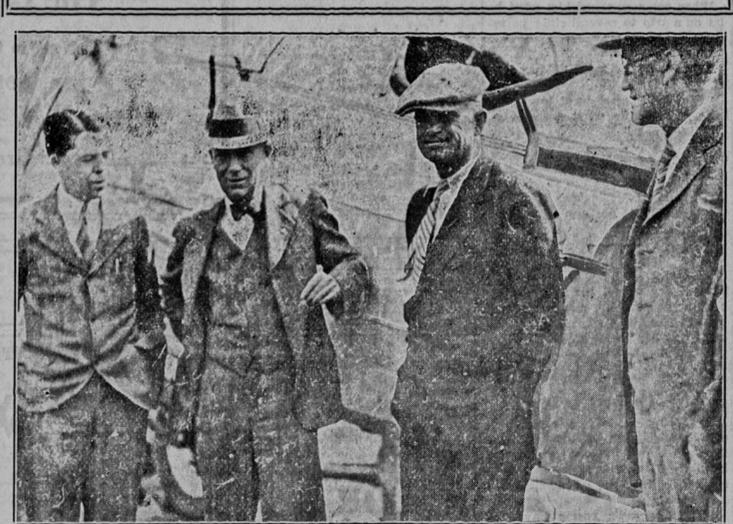

Chester barrow—Dale Williams, first; and Leo Schott, second.

Tamworth barrow—Cleo Yoder, first; and Dale Williams, second.

Poland boars—Lawrence Lacina, first; Joe Donnell, second; and Donald Doskott, third.

Poland gilt—Robert Cress, first; and Joe Dongall, second.

### WILL ROGERS POSES AT IOWA CITY AIRPORT

Will Rogers, the famed humorist and screen star who met death in Alaskan wilds with Wiley Post yesterday, is shown here as he posed at Iowa City's airport six years ago. Pictured from left to right, Virgil L. Lewis, at that time city editor of The Daily Iowan, D. W. Crum, Rogers, and former Mayor J. J. Carroll.

## Cowboy's Drawl, Mirthful Grin Made Will Rogers Famous Star

Rogers Began Life On Western Plains, Died World Known

LOS ANGELES, Aug. 15 (AP)—A cowboy's drawl, a shy grin and a mirthful tongue that convulsed king and commoner alike made Will Rogers an international favorite.

At 56 he was known all over the world for his homely humor where motion pictures are shown or where he had visited.

He began life as a plain Oklahoma cowboy, proud of his Cherokee Indian blood and of his ability to twirl a lariat. He ended it as the intimate friend of presidents, monarchs, dictators, millionaires—film extras and "blathering" cow hands.

In homely vein, he could size up in a paragraph a national crisis that had statesmen snarling at each other—and make even the statesmen laugh.

Born in Indian territory, he learned to throw a rope and ride a horse as a youth. He always called Oklahoma home although he lived in California.

By way of a wild west show, he reached the vaudeville stage and from there it was only a step to the legitimate with the Rogers' imitable brand of humor making him a star in Ziegfeld's follies.

The first time Will Rogers' audience laughed at him—the important moment that launched him on his fortune-making career as a humorist—Will was miffed.

He thought they were chiding his Oklahoma drawl. That was in 1905 while he was in vaudeville doing a roping stunt. The show manager told him he might explain some of

## Hopkins Bows To A. F. of L.

Gives Permission To Employ Union Labor Exclusively on Jobs

WASHINGTON, Aug. 16 (AP)—Harry L. Hopkins today gave permission for employment of union labor exclusively, whether on relief rolls or not, on all work relief projects carried out under contract.

The order, applying to both skilled and unskilled labor, in effect returned all heavy construction—including slum clearance, non-federal PWA, and rivers and harbors projects—to their status under the old PWA program.

It provided that contractors who so desired might recruit both skilled and unskilled labor from union rolls instead of from the United States employment service. Preference, however, must be given members on relief, and the contractor may go to the employment service for labor if sufficient men are not provided within 48 hours after he presents his request to the union.

The new policy was supported by Secretary Ickes, who had contended there were not sufficient skilled construction workmen on relief to carry out heavy projects. It was as well, a concession to the building trade unions.

## Johnson Co. 4-H Club Boys To Enter Fair

Johnson county 4-H club boys will enter 32 baby beavers, helters, and hairy cattle at the West Liberty fair today. The entries, winners in the county 4-H club show, will be judged Monday.

The same animals will be exhibited at the Iowa State fair later this month and at the Dairy Cattle congress at Waterloo in October.

The exhibitors from Johnson county include: Billy Hunter, Ralph Brown, Leland Stock, Alvin Meyer, Dwight Hunter, Darrell Brown, Harold Crow, Harold Spencer, Maynard Pechman, Cleo Yoder, Duane Stock, Leslie Crow, Joe Miltner, Robert Cress, John Ford, and Howard Yoder.

## Sharon Hustlers Win Demonstration Contest In County 4-H Show

The Sharon Hustlers' demonstration team, composed of Marjorie Sinder and Gleanina Roberts won the demonstration contest at the county 4-H show yesterday for the second time in two years.

The Sharon team won the honor of representing Johnson county at the state fair next week.

Showing a uniqueness of adaptability, the Sharon township girls won the prize in demonstrating "Becoming Lines for Larger Figures."

The club leader is Mrs. Lloyd Groat of Iowa City.

## Report More Trouble Clipper Lands Safely

WAKE ISLAND (By Pan-American Radio) (AP)—The Pan-American Clipper seaplane alighted here at 12:25 p.m. yesterday (7:25 p.m. Friday central standard time), ending the flight of 1,191 miles from Midway island.

### ON EVE OF FATAL FLIGHT

When this picture was taken Post and Rogers planned to take the flyer's wife, Mae, inset, with them. However, at the last minute she decided not to accompany them. Lower picture shows the death plane, a new red monoplane.

## Post Whittled Toy Airplanes In Youth; Accident Gave Him Start

Post Was Farm Boy With Distaste For Agricultural Work

OKLAHOMA CITY, Aug. 16 (AP)—The stocky little globe galloper who made the name of Wiley Post known around the world was a farm boy with a distaste for farming.

Wiley Post was born Nov. 22, 1898, on an isolated farm near Grand Saline, Van Zandt county, Texas. In the days when flying was only a stunt for professional daredevils the boy who was to bring the aviation world to his feet whittled out models of airplanes.

Accident Starts Post  
An accident, which cost him the sight of his left eye, gave him his start toward the goal he set for himself in the skies.

The taciturn youth with brown eyes and brown hair had a farming heritage of several generations of southwestern pioneers, but agriculture never interested him.

Liked to Tinker  
His mother, Mrs. W. F. Post, recalls that even when he was a bare-foot, freckle-faced youngster he had an inordinate desire to tinker with things. He read adventure stories, showed a preference for mechanical toys, and only once developed sufficient enthusiasm for farming to show he could do it if he would.

With the utmost pains he developed a cotton crop and with its proceeds he set out for a school in Kansas City to train himself in automobile mechanics.

Course Costs \$85  
The course cost him \$85, and young Wiley had to work out of school hours to pay living expenses. Then he took a "post graduate" course in garages, machine shops and the oil fields of Oklahoma. He got a job in a machine shop at Holdenville. The accident that blinded him in his left eye occurred there. The \$2,000 he received as compensation was used to purchase his first airplane.

Already he had become chummy "with airplanes in the dangerous role of wing walker, parachute jumper and general barnstormer.

Having acquired his own plane Post set out to learn all he could about flying.

## Packer to Head NYA for Iowa

Dean to Administer Share of Funds Set Aside by Roosevelt

The appointment of Dean Paul C. Packer of the college of education as Iowa director of the national youth administration was announced last night from Washington, D. C.

As state director he will administer Iowa's share of the \$50,000,000 set aside by President Roosevelt to be used in providing work apprenticeships in private industry, in offering high school and college training for young persons between the ages 16 and 25, and in giving work relief to youths.

One division of the relief program will replace the SRE division organized in colleges and universities last year in which students were given jobs with wages varying from \$15 to \$20 per month.

President Eugene A. Gilmore announced last week after conferring with relief administrators in Washington, D. C., that 600 University of Iowa students would participate in this division of the national youth program.

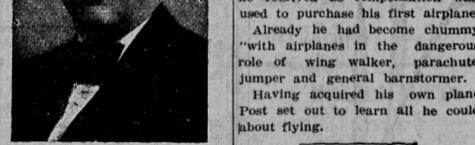

Dean Packer, head of the college of education for the last 14 years, is a graduate of the University of Iowa. He received his M.A. degree from the University of Michigan and his Ph.D. degree from Columbia university.

## Fear Attempt to Save 'Machine Gun' Dingman

"Machine Gun" Dingman, wanted for the slaying of a policeman in a Marshfield, Wis., robbery last fall, was transferred from a chartered plane to a heavily guarded auto at the local airport yesterday.

Dingman, who was serving a two year term in a Nebraska prison for carrying a machine gun, is being taken to Wisconsin Rapids for trial.

Great secrecy surrounded the plans to transport him from the Nebraska prison to Wisconsin Rapids since several members of the gang involved in the Marshfield robbery are still at large and have boasted that they would attempt to free the gunman.

DEAN PAUL C. PACKER

## Senate Finds Evidence On Hopson's Acts

WASHINGTON, Aug. 16 (AP)—The senate lobby committee learned today that Patrick J. Hurley dashed to Miami for a "pep talk" from Howard C. Hopson, utilities king, when he expressed fear that Hopson companies might "get the works" from a house committee.

At the same time, Senator Gibson (R-Vt.), a member of the committee, announced he would demand that Marvin H. McIntyre be summoned to explain the circumstances of his having been on a party with a Hopson agent on Wednesday night.

Other evidence related that Hopson wired William Randolph Hearst his fear that America was faced with a dictatorship and that two days later an editorial signed by Hearst appeared in his papers under the heading:

"Which—American Democracy or Personal Dictatorship?"

## Terrified Native Runs 15 Miles To Point Barrow After Seeing Plane Crash in Arctic Wastes

Rogers Leaves Rich Legacy of Humorous Remarks to Nation

NEW YORK, Aug. 16 (AP)—Will Rogers left the world a rich legacy of spontaneous humor.

He expressed the hope a few years ago that his gravestone would bear this epitaph: "I joke about every prominent man of my time, but I never met a man I didn't like."

"And when you come around to

Post, Rogers Slain Instantly as Motor Crashes Fuselage

(Copyright, 1935, by The Associated Press)

POINT BARROW, Alaska, Aug. 16 (AP)—Death, reaching through an Arctic fog, overtook Will Rogers, peerless comedian, and Wiley Post, master aviator, as their rebuilt airplane faltered and fell into an icy little river last night near this bleak outpost of civilization.

They had just taken off for a thrilling 10-minute flight from their river position to Point Barrow. Sixty feet in the air the motor misfired. The plane heeled over on its right wing.

Die Instantly  
The lives of both the gentle master of the wisecrack and the champion aerial globe trotter were crushed out instantly as the impact drove the heavy motor back through the fuselage.

The bodies rested tonight in the Presbyterian Mission warehouse here, to be flown to Fairbanks by the flying friend of both men, Pilot Joe Crosson. Leaving Fairbanks today, he said he hoped to return the bodies tomorrow.

Remove Debris  
Dr. Henry W. Grest, medical missionary, said the rescue party reported "the plane debris was readily removed as it was torn and broken to fragments by the plume."

"The bodies," he said, "were dressed by Charles D. Brower, the 'king of the arctic,' whom Rogers was flying to see, Sgt. Stanley R. Morgan of the U. S. Army Signal corps, and myself."

A terrified Eskimo ran 15 miles to Point Barrow with the news of the crash of the flying vacationists. Morgan dashed to the scene, recovered the bodies and brought word of the tragedy that shocked the world.

Known Internationally  
President and pauper alike expressed sorrow for both men were known over virtually the length and breadth of civilization.

Hours after the two-star tragedy became known, relatives in the United States made arrangements with Col. Charles A. Lindbergh and other officials of the Pan-American airways to have the bodies returned home by airplane.

Dr. Grest said both men apparently had died instantly. Post's watch stopped at 8:20 p.m., probably after his arm dropped into the water.

"Both men's limbs were broken and both suffered severe head wounds when they were crushed in the wreckage," said Dr. Grest.

Land on River  
Rogers and Post had landed on the river when the arctic fog had made them uncertain of their bearings on a 500-mile flight from Fairbanks to Point Barrow.

The Eskimo pointed out the way. A few seconds after the takeoff the plane's engine sputtered. The ship dropped into the river, striking first on its right wing and then nosing into the bank head-on.

Runs to Water  
"The Eskimo said he ran to the water's edge and called, but there was no answer," said Dr. Grest.

"Alarmed, he turned and ran the 15 miles to Barrow and informed Sergeant Morgan."

"The Eskimo was three hours running the 15 miles to Barrow over the rough tundra, with many small lakes to encircle and many streams to cross.

Runner Excited  
"The native runner," Dr. Grest went on, "in his excitement on first arriving here, mumbled in his dialect of a red plane 'blowing up' close to his little camp."

"Sergeant Morgan immediately set out in a whale boat for the scene, but darkness and ice made progress slow."

"By the time he and a companion had arrived, natives had taken the body of Rogers out of the wreckage and salvaged the personal effects they could find."

Pull Wreckage Apart  
"Under Morgan's direction, ropes then had to be secured to the wreckage to pull it apart to free the body of Post, which was jammed under the wreckage."

"Both wings had been broken loose from the fuselage and the motor driven back into the cabin by the crash."

"The bodies of the two men and their effects were placed in a skin boat and towed back here."

## Il Duce Blanks Try to Avoid African War

Ethiopia Offers To Make Concessions To Italian Gov't

PARIS, Aug. 16 (AP)—Ethiopia offered Italy economic concessions tonight but Premier Mussolini's unwillingness to tell France and England exactly what he wants blanketed efforts to avert a war.

Refuse Occupation  
In a message from Ethiopia to the tri-power conference Emperor Haile Selassie emphasized that he would not accept a military occupation.

His offer climaxed long deliberations by Premier Pierre Laval of France, Anthony Eden of Great Britain, and Baron Pompeo Aloisi of Italy as the talks formally were opened.

Declines to Speak  
A British spokesman said Aloisi was pressed for a "frank statement" of what Mussolini wants. He declined to give it but instead quit the meeting and telephoned Il Duce, "into whose lap the whole thing has now been dumped," the spokesman asserted.

Through his minister to Paris Haile Selassie laid the following proposal before the three powers:

Three Point Proposal  
1. A guarantee of the security of the Italian colonies of Somaliland and Eritrea and of the security of Italians living in Ethiopia.  
2. The granting to Italy of economic facilities for mining, road building and railway operations in Ethiopia.  
3. The possibility of even more extensive agriculture concessions to Rome.

After a full meeting of all three delegations, Laval announced the day had been devoted to analyzing diplomatic documents, presumably treaties involved in the dispute, and that further discussions would be held tomorrow.

### Committees for First District Announced by Iowa Federation

List Announced By Mrs. H. C. Houghton Jr., of Red Oak

Committee members for the first district of the Iowa Federation of Women's Clubs are announced by Mrs. H. C. Houghton Jr. of Red Oak, state president of the federation. Mrs. Thomas Reese, 124 Grand Avenue court, is director of the first district, having been elected to her office at the biennial meeting of the Iowa Federation of Women's Clubs at Cedar Rapids in May.

**Two Year Term**  
All directors and committee members will serve a two year term. The first district of the state federation embraces 11 counties: Cedar, Muscatine, Louisa, Des Moines, Lee, Van Buren, Henry, Washington, Iowa and Johnson.

**Executive**—Mrs. Emil Hessel-schwerdt, vice-chairman, and Mrs. Reese, director, both ex officio members.

**Adult Education**  
Adult and parent education—Mrs. May Pardee Youts of Iowa City and Mrs. Orville Elder of Washington. American citizenship—Mrs. R. G. Cherry of Washington with Mrs.

S. C. Snider of West Liberty, adviser.  
**Art**—Mrs. Louis Pelzer of Iowa City, chairman, Mrs. Anna Lane Dixon of Burlington and Mrs. C. D. Rawhauser of New London.

**Child welfare**—Mrs. F. W. Noble of Ft. Madison with Dr. Amy Daniels of Iowa City, adviser.

**Institutes**  
Club institutes—Mrs. Charles Cloughly of Ft. Madison.  
Community youth—Mrs. Ray Louden of Fairfield, chairman, and Mrs. Orren Kiser of Tipton.

**Conservation of parks and natural resources**—Mrs. Arthur Trowbridge of Iowa City. Birds and wild life refuges, Mrs. Hugh Robertson of Keokuk, chairman. Wild flowers, plants and nature trails, Mrs. Carlton Wilson of Washington.

**Cooperation**  
Cooperation of rural and urban women—Mrs. Dorothy Hiller of Oakville.

**Drama**—Barbara Davidson of Burlington. Sponsoring play writing, Mrs. W. F. Bristol of Iowa City. Advisory, Mrs. E. P. Conkle of Iowa City.

**Economic problems**—Mrs. W. F. Boiler of Iowa City.

**Education of deaf and blind**—Mrs. J. M. Dowser of Marengo.

**Endowment**—Mrs. W. L. Bywater of Iowa City, chairman, and Mrs. E. L. Hollis of Marengo.

**Finance**  
Family finance—Mrs. C. M. Waite of Burlington.

**Finance**—Mrs. Hessel-schwerdt. Fine arts—Mrs. Pearl Bennett Broxam of Iowa City, chairman.

**Garden**—Mrs. Lester Royal of West Liberty.

**Home making**—Mrs. F. H. McCleary of Washington and Prof. Frances Zull of Iowa City, adviser.

**International relations**—Mrs. Jacob Van der Zee of Iowa City and Mrs. George Stewart of Ft. Madison, adviser.

**Iowa history**—Mrs. Hugh Massey of Lowell and Mrs. J. M. Casey of Ft. Madison and Mrs. Benj. F. Shambaugh of Iowa City, advisers.

**Junior membership**  
Junior membership—Mrs. William Stever of Fairfield, senior; Bernice Adrian of Washington, junior; and Mrs. Harry Lauer of Mt. Union, adviser.

**Legislation**—Martha McClure of Mt. Pleasant.

**Library extension**—Mrs. Clarence Van Epps of Iowa City and Mrs. E. B. Warner of North English.

**Literature**—Mrs. Frank Rick-sher of Fairfield.

**Motion pictures**—Mrs. E. E. Wes-sel on New London.

**Music**—Mrs. Alexander Ellett of Iowa City.

**News sources**—Mrs. Orville Elder of Washington.

**Poetry**—Mrs. Sadie Seagrave of Oakdale.

**Public Health**  
Public health—Mrs. C. W. McLaughlin of Washington and Mrs. Walter Bonn of Victor.

**Public instruction**—Mrs. H. W.

### Marie Rummelhart Weds George Bauer In Denver, August 6

Announcement is made of the marriage of Marie Rummelhart, daughter of Mr. and Mrs. R. C. Rummelhart of Riverside, to George F. Bauer, son of Mrs. Josephine Bauer, 426 E. Church street. The wedding took place in Denver, Colo., Aug. 6.

An aunt and uncle of the bride, Stella and Edward F. Rummelhart, both of Denver, attended the couple. Following the ceremony, a wedding breakfast was served at the home of the bride's uncle and aunt. The couple is at home, temporarily, at 515 E. College street.

Mrs. Bauer, a graduate of Riverside high school, was employed in Yetter's Dry Goods store until her departure for Denver for the wedding. Mr. Bauer is an employee of the First Capital National bank.

### Four Women Win In Weekly Golf Tourney At I. C. Country Club

Mrs. Harold Hands, Mrs. Albert Droll, Mrs. Martin Shoup, and Mrs. W. L. Davis were prize winners at golf yesterday when Iowa City Country club women golfers met for their weekly game at the Country club.

Play began at 8:30 a.m., the women playing in foursomes. Mrs. Harold Hands and Mrs. Herbert Ries were in charge of arrangements. Luncheon was served at noon on the sunporch of the clubhouse. The players were seated at a table decorated with bowls of zinnias.

Out of town guests included Mrs. G. Marshall Kay of New York city, daughter-in-law of Mrs. George F. Kay, and Lydia Krall of Chicago, a guest of Mrs. Shoup.

### Pi Beta Phi Sorority To Entertain Guests At Rushing Tea Today

Members of Pi Beta Phi sorority will entertain at a rushing tea at the chapter house today from 2:30 to 5 o'clock.

Mrs. William Byington and Mrs. Glenn Ewers will pour tea during the first hour, and Mrs. Wendell Smith and Mrs. Ted Swenson will pour during the second hour.

Refreshments and table decorations will be in pink and white. Bowls of assorted garden flowers will center the tables and decorate the rooms. Committee members in charge of the tea include Florence Whitmore, Amanda McCloy, and Helen Saunders.

**Baker of Wapello**—Mrs. Forest C. Ensign of Iowa City.

**Revision**—Mrs. C. D. Rawhauser of New London.

**Religious education**—Grace Roberts of Mt. Pleasant.

**Safety**—Mrs. O. H. Tynes of Salem.

**Scholarship and loan**—Mrs. W. H. Davidson and Lola Waite, both of Burlington.

**Social welfare**—Mrs. T. P. Hallowell of Ft. Madison.

### ETTA KETT

### Out of Town Guests Honored At Parties by Younger Set

#### Departing Locals Also Honored At Several Affairs

This week's social calendar included a round of parties given by the younger social set of Iowa City honoring out of town guests and Iowa Cityans who are leaving town. Bridge was the popular diversion of the afternoon.

Honoring Martha Miller from Beirut, Syria, Sarah Woodward, 521 N. Dubuque street, entertained six guests at a 12 o'clock luncheon in the river room at Iowa Union yesterday.

Guests at the party were Helen Beye, Patty Bates, Louise Williams, Marjorie Parsons, Mary Woodward, and the honoree. The afternoon was spent informally.

Amelia Woodward entertained at a 2 o'clock bridge party yesterday afternoon at Youde's inn.

Bridge was played at three tables during the afternoon, followed by refreshments.

Included in the guest list were Jane McGovern, Helen Ries, Alice McColister, Gretchen Hughes, Charlotte Whitmore, Patricia Baldwin, Helen Hughes, Suzanne Krueger, Barbara Bouchard, Margaret Chittenden, Dorothy Voss, and Glenora Chappell.

Entertaining at a 2 o'clock party Thursday afternoon, Barbara Bouchard honored Amelia Woodward, who leaves next week for Knoxville, Tenn., and Thelma Richey of Honolulu, who is visiting here.

The party took place at Youde's Inn. Three tables of bridge were played during the afternoon. Guests included Dorothy Voss, Margaret Chittenden, Charlotte Whitmore, Alice McColister, Patricia Baldwin, Glenora Chappell, Helen Hughes, Suzanne Krueger, Jane McGovern, Gretchen Hughes, and the honorees.

### WILL ROGERS Leaves Legacy Of "Wisecracks"

(Continued from page 1)

my grave," he added, "you'll probably find me sitting there proudly reading it."

Some of his recorded "wisecracks" follow:

"We landed at Cairo but I didn't go out to see that thing—what do they call it, the sphinx. I figured anyhow I had just seen Cal Coolidge not long ago."

"The republicans have a habit of having three bad years and one good one, and the good one always happens election year."

"Argentina exports wheat, meat and gigolos, and the United States puts a tariff on the wrong two."

Describing the London naval conference of 1930:

"We stood through one speech, sat through eight, slept through 12, and in three solid hours of compliments not a rowboat was sunk."

"England has more money invested in dress suits and dinner jackets than America has in plows and farming utensils."

Commenting on Andrew Mellon's appointment as ambassador to the court of St. James:

"Why, a man with as much money

as Andy could be popular anywhere."

When someone asked him what he did on a trip to several cities he replied:

"Just blathered."

"What's blathering?" he was asked.

"You don't know what blathering is? Why, that's what we are doing right now."

To Mrs. Grace Coolidge:

"Well, Grace, you can imitate Cal's voice better'n me, but look what you had to go through to learn it."

Concerning Lady Astor:

"Every time she comes to the show I try to get her to stand up and take a bow, but she won't. And over in the house of commons they can't get her to sit down."

### Father, Son Write Poem, Draw Sketch

Appearing in today's paper is a sketch and poem of the Oathout funeral home. The poem is by Franklin Lee Stevenson and the sketch by his son, Wendell Adam Stevenson.

Mr. Stevenson's poems have appeared for many years in newspapers all over America under the title, "Saith the Vagabond." He has traveled around the world several times.

The Oathout family here honored him recently when he visited them. The sketch of the funeral home was drawn by pencil. It is framed and hanging in the Oathout funeral home where visitors have an opportunity to view it.

### Geologists To Begin Survey At University

#### Ninth Annual Meet Will Begin Here To Last for One Week

Climaxing three years of preparation by a committee of 35 scientists of four middlewestern states, New York, and Massachusetts, the ninth annual field conference of the Kansas Geological society will start Aug. 25, from the University of Iowa to make a week's survey of geological formations in Iowa, Illinois, Wisconsin, and Minnesota.

**Surveys Cooperate**

Cooperating in the administration of the trip are the state geological surveys of Iowa, Illinois, Wisconsin, and Minnesota, educational institutions in the four states, and several commercial firms. Planned for several years the survey trip will be the most extensive and best organized geological conference ever held in the United States.

A cortege of 50 or 75 cars and more than 200 scientists will leave Iowa City to make the seven day trip. Included in the survey will be observation of glacial and interglacial deposits and formations in the four states and also a study of the classic district around Abeman, Barbou and Devils Lake.

**Special Feature**

A special feature of the conference will be a two hour boat trip from Eau Claire, Wis., during which the origin and history of the Devils will be explained. An unusual part of this year's conference will be a comprehensive guide book which will include a statement of the geology of the upper Mississippi valley area and will embody all the recent geological research and opinions of the geologists of the four states involved. A series of authoritative papers will discuss the stratigraphy of each of the pre-Pennsylvania systems.

**Directing Personnel**

Included in the directing personnel of the conference are the following persons: Dean George F. Kay of the college of liberal arts, director; Prof. Arthur C. Trowbridge, state geologist, leader; Prof. Allen C. Tester, assistant state geologist, associate director.

G. Marshall Kay, Columbia university, state leader; C. S. Gwynne, Iowa State college; Harry S. Ladd, University of Rochester; William H. Norton, Cornell college; Merrill A. Stainbrook, Texas Technological college; S. W. Stookey, Coe college; assistant Iowa state leaders.

Illinois leadership: Morris M. Leighton, state geologist, associate director; J. Marvin Weller, Illinois Geological survey, state leader; John R. Ball, Northwestern university; Charles H. Behre Jr., Northwestern university; George E. Ekblaw, Illinois Geological survey.

### WSUI PROGRAM

**For Today**

9:50 a.m.—Program calendar and weather report.

10 a.m.—The book shelf, Josephine Gillette.

10:30 a.m.—Yesterday's musical favorites.

10:45 a.m.—Garden talk, Gretchen Fischer Harshbarger.

11 a.m.—Illustrated musical chats, Thomas C. Collins.

11:50 a.m.—Program highlights and weather report.

12 a.m.—Fisher's concertina orchestra.

6 p.m.—Dinner hour program.

**For Tomorrow**

9:15 a.m.—Familiar hymns program, Donald Helm.

**Visits Here**

Mr. and Mrs. George E. Leonard, Jr., of Chicago arrived last evening to spend several days at the home of Mrs. Leonard's parents, Mr. and Mrs. Charles M. Dutcher, 629 S. Summit street. Mr. and Mrs. Dutcher and son, Charles, will return this afternoon from a vacation at Balsam lake, Wis.

**Settings Institute of Technology:** Gilbert O. Raasch, University of Wisconsin; Robert R. Shrock, University of Wisconsin; assistant state leaders.

**Minnesota leadership:** William H. Emmons, state geologist, associate director; Clinton R. Stauffer, University of Minnesota, state leader; George M. Swartz, University of Minnesota, Lewis H. Powell, St. Paul Institute; George A. Thiel, University of Minnesota; state leaders.

The committee on arrangements is as follows: Anthony Folger, chairman, L. W. Kelsor, E. P. Philbrick, and E. A. Wyman.

### Education Just Beginning Says Mrs Lena Hecker, 58, Ph.D.

When the procession of Ph.D. candidates files across the west portico of Old Capitol next Thursday at the Convocation ceremonies of the second summer session term, none of them will wear his cap at a jauntier angle than Mrs. Lena B. Hecker of La Porte City, 58 year old student at the University of Iowa who will receive her doctor's degree in political science.

"Oh, I started on my Ph.D quite by accident," said Mrs. Hecker yesterday. "I like to travel in the summer time. I would either go east and take six weeks at Teachers college, Columbia university, or go west and go to the University of California at Berkeley. My credits began piling up and one day when I dropped in to see Prof. Shambaugh I decided I would begin working on a degree."

Mrs. Hecker who made straight A's during the year that she has been in residence at Iowa did her undergraduate work at the Iowa State Normal school and the Iowa State Teachers college. She received her M.A. degree in history from the University of Iowa in 1920.

A high school principal for 13 years at Postville and at Greene for six years, she taught at the Ft. Lewis school of the Colorado college of Agriculture.

In spite of the fact that she is one of the oldest women ever to get a doctor's degree at the university, Mrs. Hecker thinks that her education is just beginning.

"I have enjoyed this year more than any I have ever lived," she commented. "I've worked hard but I have liked every minute of it. I like the university atmosphere and the young people. I think that they are the biggest hope that we have for the future."

"I haven't worried about getting a job and have had a lot of fun working like a Trojan."

"What am I going to do next year? I don't know. I have about four things that I might do. I might stay on my farm in Winneshiek county for a year, I might go to Washington, D. C., to do some research work, or I might go to Alaska for several months, or I might stay here and take some courses in the political science department and school of journalism."

"I would like to do some free lance writing. I want to write some profound articles for some good magazines."

"No, I don't want to go into social work. I did that at Berkeley to get a broader view. I might go into the college of law here."

Mrs. Hecker's thesis is entitled, "Constitutional Status of Education in Alaska." She traces the development of the constitutional status of education in the northern land from 1867 to the present time and makes an appraisal of the federal and territorial school systems.

Three other women have received doctor's degrees in the political science department. They are Ruth Gallaher, librarian of the State Historical Society of Iowa, Dorothy Schaffter, a professor at Vassar college, and Hilda Watters, a professor

at Illinois State Teachers college at Macomb.

The political science department in 1933 ranked fifth of all universities and colleges in the United States in the number of persons who had received Ph.D. degrees. Leading all state institutions, Iowa was surpassed only by Columbia university, Harvard university, the University of Chicago, and Johns Hopkins university.

# Huff Defeats Tom Martin

In Torrid Tussle 1 up, Advancing To Round of Eight

Paul Huff took the regulation two putts on the eighteenth hole of his match yesterday with Mayor Tom Martin, and as the mayor took three, eked out a 1 up victory to advance to the quarter-finals of "B" flight.

This was the only match of the day. Two more first round matches, both in "B" flight, remain to be played off today, before the second round gets underway in earnest. Don Young, Country club professional, plans to complete several of these second round tussles over the week end.

Huff and Martin played evenly all through their battle, with neither gaining any appreciable advantage. They tied off on the eighteenth lap, all even, and it was only by the margin of a workable putter that Huff emerged the winner.

# RED JACKETS WALLOP OILERS 6 TO 2

## Tony Canzoneri Bangs Sparring Partners In Final Hard Workout

SAN FRANCISCO, Aug. 16 (AP)—Bustling little Tony Canzoneri, lightweight champion, banged three sparring partners around today in the last hard workout of his training grind for the 10 round bout Monday night with Frankie Kliek.

Locally, Kliek remained a 10 to 5 favorite to win the decision over Tony.

The San Franciscan worked four rounds against one opponent and appeared in good shape.

**Extends Race Dates**  
MIAMI, Fla. (INS)—Florida, which obtained a considerable revenue from horse racing last winter, has decided to extend the next season five days longer, the state racing commission announced.

## Bowers Leads Hilltoppers To Easy Victory

### Smith's Double In Fourth Responsible For Oiler Tallies

By JACK MAHR

A determined assault on the offerings of Garrett and Otto in the first, fifth and seventh innings gave the Davenport Red Jackets a 6 to 2 victory over the faltering Kelly Oilers here last night.

**Sharpest Thorn**  
One man, Bowers, who cavorted around at shortstop for the Red Jackets, was the sharpest thorn in the Oilers' sides. He had something to do with every rally, scoring one run and driving in four of the other five, through the medium of three sharp singles.

With two down in the first he got his first hit, went to third on Hagen's safe blow, stayed there while Garrett passed Marcussen, and scored when Kiefert drew another walk.

**Oilers Rally**  
In the fourth the Oilers rallied to take a temporary 2 to 1 lead. Garrett opened with a single, and Gunia followed suit. Smith got hold of a fast one and stopped at second, after Garrett and Gunia scored. Lund speared Sulek's line drive and doubled Smith off second with a perfect throw to Peters.

Two passes following two singles, plus Bower's second safe drive gave the Red Jackets three counters in the fifth, and they ended the scoring in the seventh when Schrader singled, Bartling walked, both advanced on a wild pitch by Otto, and Bowers lashed out his third safe single, scoring both men.

Score by innings:  
Davenport .....100 030 200-6 8 1  
Iowa City .....000 200 000-2 6 1  
Batteries—Schrader and Graham; Garrett, Otto and Pohoski.

**Raiders Whip Rails**  
CEDAR RAPIDS, Aug. 16 (AP)—Coming to life in the sixth inning, the Cedar Rapids Raiders cracked out an 8 to 2 victory here tonight over Council Bluffs in their series opener.

## John Fletcher Beats Ainley, Meets Coggeshall in Finals

DES MOINES, Aug. 16 (AP)—Harris Coggeshall, Des Moines, defending champion, and John Fletcher, University of Iowa captain, will meet tomorrow afternoon in the final round of the Iowa State tennis tournament at the Des Moines Net club.

**Straight Sets**  
Fletcher rode his way into the final round by the score of 6-1, 9-7, 5-2, defeating Bruce Ainley, Iowa conference intercollegiate titleholder. Coggeshall worked in with a 6-0, 9-7 (limited by agreement) victory over Dr. Julius Swartz, Des Moines.

Also upset during the day's proceedings was the favorite junior, Bill Bliss of Ames, district titleholder seeded No. 1. Claude Douthett of Waterloo, smooth stroking southpaw player accomplished the act, 2-6, 6-3, 6-4. The other junior finalist, Bobby Sandler, came through as his No. 2 seed signified but he was within a point of losing before overcoming Lawrence Owens of Ames, 5-6, 8-6, 6-2.

**Reach Finals**  
Ben Beckerman and Coggeshall reached the doubles final with a straight set victory over the Sioux City pair of Merle Parent and Lauren Barnes. In the other bracket Ainley and Frank Wegener, Jr., were deadlocked at two sets apiece with Swartz and Fletcher. They will finish tomorrow.

## Donald Budge Tops Grant In Straight Sets

### Red-Headed Coast Star Will Tackle Shields in Finals

NEWPORT, R. I., Aug. 16 (AP)—Bryan Grant, Atlanta's little tennis giant, today took a beating in the semi-finals of the Casino tennis tournament from tall, red-headed Don Budge of Oakland, Cal.

**On Verge of Collapse**  
Just as Grant was on the verge of collapse the match ended with the Californian on the long end of an 8-6, 6-4, 6-1 count.

This triumph, Budge's second straight over Grant, moved him into the finale against Frank X. Shields of New York, tennis' gift to Hollywood, who had an easy session turning back his doubles partner, Frankie Parker of Milwaukee and Spring Lake, N. J., in another straight set semi-final, 6-3, 6-3, 6-4.

**Long and Bruising**  
Both of the doubles semi-finals were long and bruising competitions. Shields and Parker gained a 7-9, 7-5, 10-8, 6-3 victory over the top-seeded Budge and Gene Mako, another of California's Davis cup rookies.

It took Wilmer Hines of Columbia, S. C., and Henry Culey of Santa Barbara, Cal., almost four hours to come from behind twice and subdue Berkeley Bell of New York, and Gregory Mangin of Newark, N. J., by scores of 3-6, 17-15, 5-7, 6-4, 9-6.

## The Big Six

(By The Associated Press)  
Buddy Myer assumed command in the American league section of the Big Six battle race yesterday when he added a point to his average, bringing it up to .350, but with two hits in five times up. His rival, Joe Vosmik, failed to hit and dropped back into a tie with Doc Cramer for second in the league and

## Great Britain Leads by 2-1

### Kay Stammers Of English Team Tips Over Helen Jacobs

By ALAN GOULD  
(Associated Press Sports Editor)  
FOREST HILLS, N. Y., Aug. 16 (AP)—Thanks to a stunning, uphill triumph for left-handed, winsome Katherine Stammers over the sturdy American champion, Helen Jacobs, Great Britain gained a 2-1 lead over the United States today in the competition for the Wightman cup, international women's tennis trophy.

**May Be Decisive**  
The 21-year-old English girl struck the blow that may prove decisive in Britain's challenge to America's four-year winning streak. Making her debut in cup play she rallied courageously, after being on the verge of defeat several times in a bristling extra set, to achieve the downfall of Miss Jacobs, 5-7, 6-1, 9-7.

As expected, England's No. 1 player, hard-hitting Dorothy Round, decisively defeated Mrs. Ethel Burkhardt Arnold of Los Angeles in the second singles encounter, 6-0, 6-3, but the American girls averted a rout and likewise contributed to the day's surprising developments by capturing the doubles with unforeseen ease.

**Quick**  
Miss Stammers and Freda James were quickly swept off their feet by the American team of Miss Jacobs and Sarah Palfrey Fryman of Boston, national titleholders, by scores of 6-3, 6-2.

## Reds Take 2 From Braves

### After Losing First Three Tilts of Series Triumph 3-1, 4-3

BOSTON, Aug. 16 (AP)—After winning the first three games of the series the lowly Boston Braves reverted to their usual form today and dropped a doubleheader to the Cincinnati Reds, 3 to 1 and 4 to 3.

The Braves let loose with a three-run blast in the eighth of the nightcap to deadlock the score at 3-3, but Riggs tripled and Lombardi doubled to open the ninth for Cincinnati and Boston couldn't catch up again.

Gene Schott limited the Braves to 10 scattered hits in the first game.

**(FIRST GAME)**  
Cincinnati 200 600 100-3 8 2  
Boston 100 001 000-1 10 1  
Schott and Campbell; Cantwell and Spohrer.

**(SECOND GAME)**  
Cincinnati 001 002 001-4 8 0  
Boston 000 000 030-3 7 1  
Derringer, Hollingsworth, Brennan and Campbell; Betts, Benton, Frankhouse and Mueller.

## Eddie Lynch, New Hawk End Coach, Known for Ability

The most capable end coach Iowa has ever had will aid Ossie Solem in building the 1935 football squad.

Eddie Lynch, assistant to "Doc" Spears at both Wisconsin and Minnesota, will have charge of the Hawkeye wingmen. He is known for his ability to develop stars. Haycraft and Wheeler at Minnesota became all-Americans under his tutelage.

The new mentor teaches a smashing type of play.

Lynch is also reputed to be an outstanding scout.

Cain Whiffs 13 As Brownies Whip A's 7-2

ST. LOUIS, Aug. 16 (AP)—Merritt (Sugar) Cain, whose 1935 hurling achievements have been anything but astonishing, today set a new American league strikeout record for the year by fanning 13 batters, and the Browns defeated the Athletics, 7 to 2.

per gave the winners three runs in that inning.
Score by innings: Philadelphia...000 000 200—2 10 1 St. Louis...003 002 200—7 9 0 Batteries—Wilshere, Turbeville and Berry; Cain and Hensley.
OMAHA, Neb., Aug. 16 (AP)—Fourteen of the midwest's leading golfers, including Johnny Goodman of Omaha, former National Open champion, will tee off here next Tuesday in the sectional qualifying trials for the National Amateur golf tournament.

CHAPTER 58
VAL WENT swiftly through the house in search of his wife. Garenne had come to join him and they finally returned to the bedroom to stare at each other with growing apprehension. As his eyes darted about summing up the situation Val saw that the fringed shawl was missing. An uncovered box with the powder spilled out as if used hastily stood on top of the dressing table. The noise he had heard when he had first gone in to talk to Garenne must have been caused by the flash of perfume that had been knocked to the floor. It still lay there with the loosened stopper slowly dripping its contents into the carpet.
Where could the girl have gone? She had no close friends. If she had sought refuge at Sue's and found no one at home, she surely would have returned by this time.
"Her purse is there in the drawer," he told Garenne, "and she could not have ventured far in the clothes she was wearing."
The man's eyes avoided his. "I think she hasn't gone far," he snapped.
"Do you know where she is?" Val demanded.
The man shrugged. "She has probably gone to Cordray," he answered shortly.
"Where does she go?" Val asked.
"Where she is," he said. "I can't tell you all this very quickly."
Garenne broke in, "Think it over for a fresh start with her." "If Lia has any foolish notion of telling him the truth about herself, you may be sure she'll be sent home speedily enough. Remember you are an officer. No use involving yourself in an open quarrel with this fellow—in a scandal that might cause you trouble because of attending publicity."
"I shan't do anything they can hang me for," Val assured him grimly. "But I must find Lia and bring her home. And while I am about it I shall see to it that, hereafter, Cordray lets my wife alone."
Val came out into a night that was hot and smoldering with the tangy breath of forest fires. The wind had died. Low, thick clouds closed in oppressively. Something electric, portentous, seemed to hang in the atmosphere, as the storm crouched waiting to strike. At the yard gate the marine on duty gave him a smart salute. But the man's curious glance confirmed the young officer's suspicion that the sentry had marked Lia's strange attire and, perhaps, distraught manner when she had passed this way; and although Val longed to ask the chap what direction she had taken, he could not bring himself to do so.
He walked quickly the short distance from the gate to the wall surrounding Cordray's grounds, then turned in at the main driveway and strode along the curving path to the entrance. Takki, the Japanese butler, answered his ring and greeted him with an indrawn breath of respect.
"Mr. Cordray just finish dressing Rottenant Preston," he said smilingly. "He is in studio. I tell him you are here."
"Will come with you," Val replied shortly. He was puzzled when the man offered no opposition and seemed undisturbed. Surely if Lia were in the house he would have acted differently. And yet, where else could she have been for the last three-quarters of an hour?
The young man's mouth was a harsh line, his jaw was sternly set but he was filled with uncertainty when Takki announced him. Cordray, an imposingly handsome figure in dinner clothes, was at the far end of the studio bending over a vase that held the block of wood he was fashioning into a mask. At the sound of Takki's voice he glanced up hastily, then sent Val a cordial and unperturbed smile. "Hello there, Preston," he called heartily. "This is nice of you to drop in. Have a good leave?"
"Very pleasant, thanks."
Val's swift glance about the room had told him there were no other occupants. The Japanese had followed him through the door and stood waiting. Cordray kept on with his work. "Takki was just about to bring me a cocktail," he said. "Any particular kind you would like?"
"None for me. I wish to speak with you alone."
The man looked suddenly across at him and Val wondered whether he were stalling for time when he said, "Be with you in a minute. I'm just ironing out a line that has eluded me. I caught the right idea a while ago." He called to the butler, "Wait, Takki. Mr. Preston may change his mind. And I'm not sure but that I'd prefer a highball to a cocktail."
The Japanese remained by the door and Cordray went on talking. "During your leave, Preston," he said, "I hope you thought over that last chat of ours. I am trusting that you will, perhaps, reconsider your decision," he looked up smilingly from his work. "I am prepared to make you a very handsome offer for that invention of yours. Something you can't afford to turn down."
"I'm not interested," Val said tersely.
"Oho, come now," Cordray laughed, quipping the russet eyebrow, "Every man has his price."
"I haven't," Val turned suddenly to the butler. "Mr. Cordray will call you when he wants you," he snapped. "Get out!" The man stared, then went quickly through the door and closed it behind him.
Cordray's eyes had narrowed. He said, "Well, really, old chap—"
Val strode down the room toward him. "Cordray," he said, "I want to know where my wife is."
"Mrs. Preston? But how on earth should I know?" The man's hard blue eyes widened in apparent amazement.
"You give me your word she hasn't been here within the last hour?"
"Of course she hasn't. But what has happened?"
Val was silent for a moment. Finally he said, "All right, Cordray. We'll let it go at that. But I want you to understand you are to keep away from my wife. You are no longer welcome in my home! Is that clear?"
Cordray said indignantly, "Preston, don't be an ass! I admire Mrs. Preston. Of course I do. Why shouldn't I? She is an extremely pretty and charming girl. But if you are hinting that I have any more than a casual friendship for her—you are insane. He wore a deeply affronted expression; his eyes met Val's squarely.

Hadley Stops Tigers, Nats Win 8-1 Tilt
Senators Lambast Three Detroiters For 16 Safe Hits
DETROIT, Aug. 16 (AP)—The seventh-place Washington Senators pounded three Detroit pitchers for 16 hits today, seven of them for extra bases, to beat the league-leading Detroit Tigers 8 to 1.

Out In Seventh
Sullivan was taken out in the seventh when Manager Mickey Cochrane sent Charley Gehring, injured second baseman, in as a pinch hitter. Elton Hogssett finished the game.
Washington made a big inning of the third, scoring four runs, one of them the result of a double steal.
Score by innings: Washington...004 200 002—3 16 0 Detroit...000 100 000—1 4 3 Batteries—W. Ferrell and R. Ferrell; Kennedy and Sewell.

Yank Miscues Hand Indians 8-5 Decision
CLEVELAND, Aug. 16 (AP)—The Yankees' wildness cost them a chance to gain a game on the league leading Detroit Tigers as they tossed away two leads and lost the final game of the series to the Indians 8 to 5 today.
First Johnny Allen yielded to a fit of peevishness in the third inning, tossed his glove high into the air and started an argument with Umpire Harry Geisel about a called ball. He was thumbed out of the game and Pat Malone, who came in, failed to hold a 3-0 lead, tossing a home run ball to Earl Averill with two on base.
The Yanks pulled ahead at 5-4 in the sixth but Jack Saltzger made two errors, Malone handed out a walk and wild-pitched one run home and Pinch Hitter Ralph Winegarner knocked in two more with a single to give Cleveland the decision.
Score by innings: New York...111 011 000—5 11 2 Cleveland...004 003 100—8 8 1 Batteries—Allen, Malone, Deshong, Brown and Dickey; Pearson, Stewart and Phillips.

Well Dressed Hawkeyes Gold and Black Color Scheme Of Iowa Uniforms
What the well dressed Hawkeye football player of 1935 will wear: Gold colored headgear. Black jersey with gold numerals in front and back. Rubberized silk pants, light in weight and gold in color. Black wool stockings. Black shoes, five cleats for linemen, four for backs.
These are the outfits the athletes will don Sept. 28 for the opener with Bradley Tech, Elwyn Shain, equipment manager, reports. The only changes from the 1934 uniform are the gold headgear and the gold numerals on the front of the black jerseys.
The four-cleated shoes which have three cleats at the driving points, will be issued to the backs. They have the recommendation of Oze Simmons, who found last year that the new cleat arrangement improved his footwork.

Dodgers Beat Cubs Again, 2-1 Homers by Bucher, Hack, Cuccinello Recept Scoring
BROOKLYN, Aug. 16 (AP)—The Dodgers proved more proficient than the Cubs at home run hitting today and won the fourth game of their series 2 to 1 as boundary belts produced all the runs in a mound duel between George Earnshaw and Charley Root.
Jimmy Bucher, first man up in the ninth, poled out the homer that won the game after Stan Hack had hit one for Chicago in the fifth and Tony Cuccinello had evened the count with a circuit drive in the seventh.
Chicago...000 010 000—1 5 1 Brooklyn...000 000 101—2 3 0 Batteries—Root and Hartnett; Earnshaw and Lopez.

### Statements Urge Voters To Vote for New School Building

**Editor's note:** The following two statements favoring the erection of a new high school building and urging voters to place their X in the Yes square of their ballot at the school election Tuesday were presented to The Daily Iowan yesterday for publication.

On Aug. 20 you will have an opportunity to pass judgment upon a bond issue for the erection of a high school building in Iowa City. I am quite sure that nobody who is informed will question the need of such a building. In fact, there has been need for additional room for our high school for several years.

The present quarters are very inadequate. The necessity being established, the next thought is whether or not it should be built at this time. One of the first problems to present itself is that of increased taxes. The school board is told by experts that with a 45 per cent grant and a very small increase, if any at all, in our tax levy will be required to retire the bonds which will be needed.

However, should we wait until the federal government withdraws its very liberal offer in the way of a grant then it certainly will require nearly twice as large a levy to retire the bonds which are needed.

Some may be opposed to this federal grant, but if Iowa City does not take the grant then some other school district will get it. It simply

resolves itself into the question of whether the tax payers wish to escape nearly half of the tax burden or whether they want to carry the entire load themselves, whether they want to build the school at the present time with no increase in taxes or whether they prefer to wait a few years when the tax levy will have to be doubled.

The other question under discussion is the location. The only objection to the grounds selected is the distance the school will be from pupils living on the west side. That does look like a hardship, but, for pupils who have reached the high school age, it is not as serious a problem as it is with younger pupils. Besides, no high school that takes care of all activities that belong to an up-to-date school can properly function on a city block of land. Nearly all the high schools that have been built in recent years have been located outside of congested districts.

The site is purchased for less money, the boys and girls are away from congested traffic, they are not spending their time running down town, they have quiet surroundings, and room for physical developments along with their mental.

At this time labor is very much in need of jobs. If we were to build a new high school building a great many men who are not out of work would be given employment.

It just looks as though it would be too bad at this time to pass up an opportunity to get a fine high school building to be paid for without any increase in taxation, to furnish employment for a large number of men, and to put up a high school in a location where all educational and recreational activities could be carried on in furnishing our boys and girls with the proper education.

(Signed,) Dr. W. L. Bywater.

Having been associated with the Iowa City public school system as a patron of the schools for the last 14 years, and having served six years as a member of the board of education, naturally I have a very keen

interest in the welfare of our schools. The board of education of the Iowa City independent school district has always felt great appreciation for the loyal support of our schools by the patrons and by all citizens of Iowa City, and never since I have been familiar with the school system has the board worked on any project or activity, under the disadvantage of an antagonistic public.

I thoroughly believe that every member of the board during the 14 years which I have been familiar with the school system, has bent forth every effort to serve the best interests of the schools as economically as possible.

It was with such a spirit of public service that former boards and school administrations, after careful consideration and advice from nationally recognized school authorities from various localities, chose the site which was acquired and on which it is proposed to erect a new high school plant.

It is with a like spirit of public service that the present board has launched an effort to erect a new high school plant under a plan which will not increase our taxes and which will furnish educational facilities which our young people deserve and of which we will not be ashamed as we now are.

I wish to pledge my loyal support to the present school administration in their efforts to put this program over, my vote at the polls next Tuesday will be YES and I wish to enlist the support of all voters for a project which is so sadly needed, and which will mean so much to the welfare of our excellent educational system.

(Signed,) Herman Smith.

### Mattes to Join Liquor Store Staff Monday

John Mattes, 113 E. Court street, will become a member of the local state liquor store staff Monday to succeed Mort Koser, H. J. Reichardt, store manager, announced yesterday.

Mr. Koser resigned from the staff to accept a position as head coach at the Garrett, Ill., high school.

Mr. Mattes has been employed by the Iowa City Creamery company for the last several years.

## AROUND the TOWN

with Bob Griffith

### Appreciation

Emmett C. Gardner, county agent, last night issued a statement of appreciation to all those who

helped make the seventh annual 4-H club show the greatest ever staged in Johnson county. Mr. Gardner and the show committee wish to thank the following for their splendid cooperation: the University of Iowa athletic board and the building and grounds committee, the Chamber of Commerce and Iowa City business men, the fire and police departments, and the farmers who donated their labor.

### Toward the Big House

Don Finley and Chester Frott started on a journey which may land them in the "big house" on a charge of larceny. The boys were arrested Thursday night by Deputy Sheriff Preston Koser and were

taken to Chariton yesterday afternoon.

### Two Hearts

Iowa Citizens today will be asked to have "two hearts" as workers for the Volunteers of America tag day solicit the city.

### Broken Heel

Roy Wolfe, 50, suffered a broken heel bone and minor injuries yesterday afternoon when he fell from a ladder while painting an oil tank on S. Dodge street. Last night he was reported to be resting easily.

### Going Down!

Well drillers at Smith's cafe have reached the 130 foot depth in drill-

## Attorneys File Suit for Libel

### Cooper Starts Suit Against Gazette For Alleged Libel Act

Attorneys for Harold M. Cooper, former head of the Iowa liquor control commission, filed a \$50,000 libel suit against the Cedar Rapids Gazette in district court here yesterday and named the Gazette new agency, 229 S. Capitol street, as a defendant in the court action.

The petition, filed by Attorneys Boardman and Cartwright of Marshalltown, charged that the local distributing agency, managed by Ralph Fisher, assisted in circulating "some 50,000 copies of libelous and defamatory matter" in the newspaper's editions of April 28. According to the petition, the Gazette "falsely and maliciously charged the plaintiff with being guilty of perjury."

The case which calls for a judgment of \$25,000 for actual and \$25,000 for exemplary damages is scheduled for September term of Johnson county district court.

## Your Home

We love to call it home—this place of ours—  
And we've rebuilt it just for you—our friends—  
We offer it in humble attitude  
For those who find their weary trail ends.  
It is a place of quiet dignity  
With standards high and quality of gold,  
It is a place where dead may lie in peace  
When they no more may hear the seas that rolled.

'Tis here we serve—both friend and stranger well,  
'Tis here we'll often watch the falling tear  
But those who bring their loved ones unto us  
Have learned that there need never be a fear;  
For as our home was furnished just to serve  
So, too, our training has been just for you—  
In order that deep grief might be assuaged  
We've learned to this profession to be true.

—Franklin Lee Stevenson

## Open House

WON'T you visit our lovely funeral home on Saturday or Sunday. We will have open house on these two days and you are most cordially invited to attend.

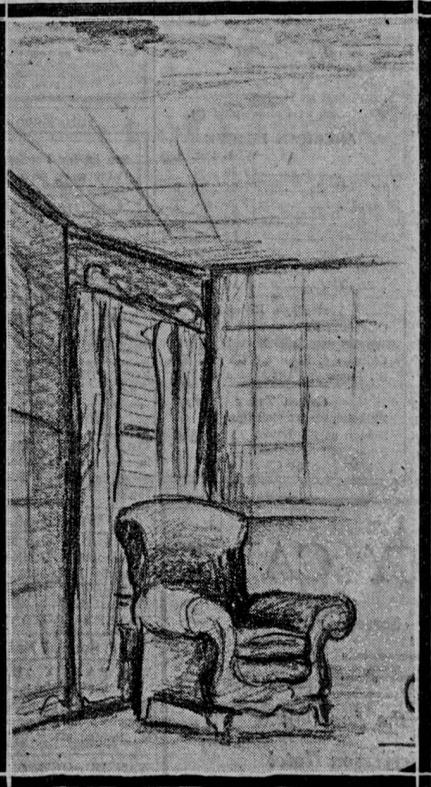

We have just completed the addition of a new chapel and private family room. The chapel, finished with the most modern interior, has a seating capacity of 225 people, the family room with private outside entrance seats 50 and is equipped with earphones for anyone who may need them.

The remainder of the home has been remodeled and completely redecorated. A cooling system automatically regulating temperature and humidity has been added. New equipment producing organ music by electrical transcription has been installed.

While here you may also see our modern preparation room. Also please pay attention to the beautiful oak stairway leading to our rooms on the second floor, which are used for living quarters for our employees and to our casket display rooms.

However, we cannot possibly describe this home to you in every detail, so will you not visit our funeral home at the corner of Clinton and Court streets on Saturday or Sunday between the hours of 10 a. m. and 10 p. m. There will be souvenirs for the ladies, of course.

## Newly Reorganized Employment Service Will Serve University of Iowa Students

### Change Will Go Into Full Force Soon to Handle Student Work

#### Will Locate Offices On First Floor Of Old Dental Building Under New System

New students at the University of Iowa this fall will be served by a reorganized employment service and personnel director, Lee H. Kann. The change in organization first made this spring will be in full force by Sept. 1.

Under the new organization the department is a unit of the business office of the University of Iowa. The service assumes responsibility for all student jobs, whether they be for cash or board and room. The problem and needs of the individual student are considered in working out employment schedules.

**New Offices**  
Reorganized, with offices in the first floor of the old dental college building, application and other data forms have been changed to conform with the new procedure.

The old system in which a student applying for a job furnished three letters of reference has been discarded. Substitution of a personnel form with extensive data about each student, personal interviews, office reports from other offices, and the official card of introduction make for efficient and effective contacts between the employee, employer, and the personnel office.

The official card of introduction, used as the official notice of referral on regular openings reported and as an auxiliary procedure to deal with exceptionally needy cases and the rush periods preparatory to the fall and spring terms of school, must be returned to the personnel office thus enabling the office to know what student has been accepted for the job.

**New Procedures**  
Before undertaking reorganization of the office, Mr. Kann interviewed faculty members and persons who regularly employed students. Suggestions were received and new procedures organized on the basis of these interviews.

The department has succeeded in building up a procedure which in actual use eliminates to a large extent the problem of students who are scholastically and financially in-

(Turn to Page 14)

### S.U.I. School Of Religion Is Unusual Idea

One of the most unusual aspects of the University of Iowa is its school of religion. In addition to offering credit courses in the history and literature of religion, it seeks to bring together in common interests the students of all faiths, Protestant, Catholic and Jewish, without the sacrifice of beliefs.

**All Three Faiths**  
Organized as a unit in the college of liberal arts, the school, headed by Prof. M. Willard Lampe, has members of all three faiths on its faculty.

Working on the basis that religion is a fundamental part of university life and should be included in the curriculum of any school, the department carries on an extensive program of extra curricular activities.

It is active in the work of the student religious organizations and also cooperates in the university vesper services.

**Representatives**  
The Newman club, Philo club, Y.M.C.A. and Y.W.C.A., student religious organizations have representatives on the commission on religious activities. Student groups in local churches also have representatives on the commission.

Prof. William H. Morgan assists in the cooperative enterprises of these groups under the commission. Townspeople and university staff members meet with students on Sunday mornings at local churches to discuss various problems of university life.

### Speakers For S.U.I. Series Announced

Stephen Butler Leacock, Canadian humorist, historian, and lecturer; Louis Anspacher, dramatist, and John Mason Brown, dramatic critic of The New York Evening Post, are three lecturers that are already scheduled on the university lecture series for the coming year according to Prof. Benj. F. Shambaugh, head of the political science department and chairman of the committee on university lectures. Other speakers on the lecture program will be announced later.

Mr. Leacock was born at Swanmoor, in the county of Hampshire, England, Dec. 30, 1869. In 1876 his parents moved to Ontario, Can. Entering Upper Canada college at Toronto, where he was head boy in 1887, and later finishing at the University of Toronto with a B.A. degree, Leacock studied languages 16 hours a day. For the next eight years he taught at Upper Canada college. In spite of the fact that he is still engaged in the teaching profession, he calls it the most dreary, the most thankless, and the worst paid profession in the world.

**Receives Ph.D. Degree**  
In 1899 he gave up teaching and went to the University of Chicago to do graduate work in economics, and political science. In 1903 he received his Ph.D. degree from there.

Since 1903 he has been a member of the political science department at McGill university in Montreal. Since 1908 he has been head of the department.

In 1907 he made a year's tour of the British empire, delivering addresses on "Imperial Organization" under the auspices of the Cecil Rhodes trust.

**Essay Writer**  
Beginning as a serious writer with his book "Elements of Political Science" and a critical and biographical study of Robert Baldwin, found-

(Turn to Page 13)

### WSUI Plans New Program For Students

#### Titled "On the Way To an Education Series"

Radio station WSUI will broadcast a new program from Sept. 3 through Sept. 13 at 8:15 p.m. Entitled "On the Way To an Education Series" the programs are presented to acquaint freshmen and new students at the University of Iowa, with the highlights of student life on the Iowa campus.

Betty Braverman, A2 of Iowa City, and Sidney Miller of University high school will interview members of the faculty and administrative staff on subjects of general interest to students.

**Deans to Talk**  
Sept. 3, Miss Braverman will interview Charles H. Maruth, assistant registrar, on "Becoming a Student of the University of Iowa." The following day Mrs. Adelaide L. Burge, dean of women, will be interviewed on the subject, "University Home Life for Women Students." Mr. Miller will interview Robert E. Rlenow, dean of men, on "University Home Life for Men Students" Sept. 5.

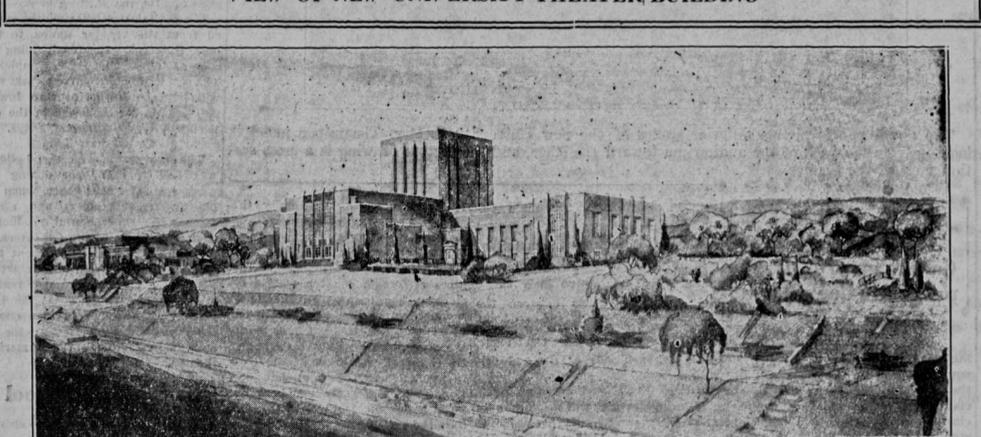

Lee H. Kann, director of the personnel department, will present the next in the series, "Earning Your Way at the University." Prof. Rufus H. Fitzgerald, director of the school of fine arts, will talk Sept. 9, on "Extra Curricular Activities for the Students." "The Students' Post Office" by C. A. Bowman, city postmaster, will be the sixth interview of the series.

**Greek Organizations**  
The next interview will be given by W. H. Seiffert, manager of the university business service, on "The Fraternities, Sororities, and the University."

Ossie M. Solem, director of university athletics, will speak on "Athletics for All at the University" and Sarah Beach, Iowa area chairman of the Y.W.C.A., will close the series talking on the subject, "Religious Influences at the University."

After the conclusion of this series of interviews a week's program of sports news, "Football Snapshots" will be given by William Brown. This program will present personal sketches of players and will be in the nature of a Who's Who program.

VIEW OF NEW UNIVERSITY THEATER BUILDING

Above is an architectural drawing of the new theater building, now nearing completion on the west campus, north of the fine arts building. The drawing shows the building as it will look when it is completed. Interior scenes will be found on an inside page.

### Mayor Martin

Civic head welcomes freshmen, returning students.

### Mayor Martin Greets New Students

Thomas E. Martin, recently elected mayor of Iowa City, issues the following proclamation of welcome to students planning to attend the University of Iowa this fall:

"Iowa City looks forward with great interest to the return of the student body each year. It is our hope that we can make your year both pleasant and profitable.

**Maintain Standard**  
"In return we ask that you help us maintain a high civic standard to the end that many other prospective students will want to make Iowa City their college home.

"It is our hope that Iowa City be considered the best college town in the state and that you convince more and more of your buddies to come to the State University of Iowa.

**Cordial Welcome**  
"On behalf of the citizens of Iowa City and the city officials, I wish to take this opportunity to extend a cordial welcome to all Iowa students and especially to those students entering this great university for the first time. You will be in strange surroundings, but you will find Iowa Citizens, as a whole, helpful and sympathetic. You will be assured of cooperation in every way possible.

"We wish you a happy, successful year."  
Thomas E. Martin  
Mayor of Iowa City.

C. Sarber Weds M. Smith  
BEATRICE, Neb. (AP)—Clinton M. Sarber, 85, Beatrice, and Martha C. Smith, 81, Sioux City, Ia., were married here yesterday by Judge E. P. Wickham. It is Sarber's third matrimonial venture.

### New Fine Arts Colony Will Form Imposing Addition To Campus West of Iowa River

#### Work on Two Art Studios, University Theater Progressing

The fine arts colony at the University of Iowa, the first of its kind in the United States, with two units completed will form an imposing addition to the west side campus this fall for students at the University of Iowa.

The new fine arts building was opened this summer to summer session students. Work on the two art studios, to be built on both ends of the fine arts building, is going forward rapidly. According to George Horner, university architect, one of the studios will be finished by the time school opens. The other one will be completed later in the fall.

**"H" Design**  
The studios will house advanced work in mural design and sculpture.

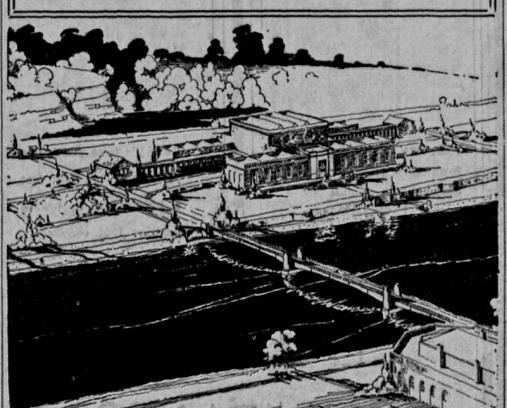

The architecture of the building is a modern adaptation of the Georgian; this type was chosen because of the unusual requirements of the building called for large blank areas on the interior. The building has been designed in the shape of an "H," the length of which extends to the north and south. The east portion is 149 by 32 feet and the west portion 218 by 40 feet. The center connecting portion is 70 by 40 feet. The east entrance is of buff limestone with grill work blasted with sand. The east foyer has two large wall panels which will probably be used for mural paintings. According to present plans the foyer will be paneled in walnut. The exhibition hall, 73 by 42 feet, is lighted artificially with a battery of 180 lights enclosed in the glass ceiling.

The plywood walls have been covered with burlap to facilitate picture hanging.

**Twenty-One Studios**  
The working section of the building.

(Turn to Page 8)

### NEW FINE ARTS BUILDING

The new fine arts building, recently completed on the west campus, is pictured above in an artist's drawing. The arts building, with the University theater and Law Commons constitute the newest university expansion developments on the west campus.

### President Gilmore

Welcomes new, old University of Iowa students.

### Iowa Leader Greets New Students

President Eugene A. Gilmore finishing his first year as head of the University of Iowa, yesterday expressed his faith in the university as an educational and cultural institution.

He paused in his work to send a message of welcome to old and new students in the university and especially to the incoming freshman class.

**"Cordial Welcome"**  
"I extend greetings and a cordial welcome. I welcome you to the beautiful university campus with its many buildings, to the libraries, to the laboratories, to the class rooms, to the gymnasiums, to the Iowa Union, to the recreational fields, and to all the facilities and services which are waiting your use and enjoyment.

"But more sincerely and earnestly I welcome you to the real but invisible university, to the intellectual and cultural life of the campus.

**"Great Adventure"**  
"The university is still the place where the worthwhile things of life may be found by those who seek them earnestly. Here spiritual and intellectual values take precedence over material values. Here idealism, vision and adventure may have full play. True education is a way of living. I welcome you to a great adventure in noble living."

**Order Miller to Return**  
WASHINGTON (AP)—Labor department officials yesterday ordered Frank J. Miller of the regional labor board at Minneapolis to return to Sioux Falls, S. D. for a new attempt to settle difficulties between the management and employees of the Morrell packing plant.

The action followed receipt of word here that the Sioux Falls trades and labor assembly last night voted in favor of a two day "general holiday" in sympathy to discharged union workmen who seek reinstatement at the Morrell plant.

### Police Chief Lists Local Traffic Rules

Iowa City traffic rules for university students and Iowa Citizens constitute the latest chapter of the "Drive Slow and See Our City; Drive Fast and See Our Jail" story by Police Chief C. O. Falne.

"It has been experienced in the past that university students have high standards and are law abiding residents, and there is no reason to believe that students this term will not live up to these standards," Chief Falne said.

"However," the chief continued, "we realize that these incoming students are from various parts of the country and from cities and towns where traffic ordinances may differ from those in Iowa City, so we wish to familiarize students with our regulations.

"Parking cars on public streets or in alleys all night is prohibited. "Parking cars with the left wheel to the curb is prohibited everywhere in Iowa City.

"Drivers should observe the time limit when parking within the 90 minute zone. "Drivers must come to a full stop before entering an arterial highway in Iowa City.

"Riding on the running board and fenders and overloading cars is strictly prohibited. "I wish to especially emphasize and call all drivers' attention to the speed laws within the city of Iowa City. In the residential district, the speed limit is 25 miles an hour and in the business district, 15 miles."

### Churches Aid In Religious Life of Iowans

#### Iowa City Churches Offer Opportunities To Students

Iowa City's 19 churches, of varied faiths, offer many opportunities for religious activity to University of Iowa students.

Several of the leading churches which take a special interest in students provide study clubs and student centers where young people may gather for social or religious affairs.

One Iowa City church has a student pastor and the Catholic churches have special student masses during the school year.

**Churches**  
Churches, and their ministers, are as follows: African Methodist Episcopal, 411 S. Governor street; Baptist, 227 S. Clinton street, the Rev. Elmer E. Dierks; First Church of Christ, Scientist, 722 E. College street; Christian, 217 Iowa avenue, the Rev. C. C. Garrigue; Congregational, 30 N. Clinton street, the Rev. Llewellyn A. Owen; Episcopal, 320 E. College street, the Rev. Richard E. McEvoy; Jewish (Agudas Achim congregation), 432 S. Clinton street; First English Lutheran, 129 N. Dubuque street, the Rev. W. S. Dysinger.

**Student Pastor**  
St. Paul's Lutheran, Jefferson and Gilbert streets, the Rev. Julius A. Friedrich; Zion Lutheran, 602 E. Bloomington street, the Rev. A. C. Proehl; Menonite, Orchard and W. Benton streets, the Rev. Norman W. Hobbs; Methodist Episcopal, Jefferson and Dubuque streets, the Rev. Harry D. Henry; Nazarene, 726 Walnut street, the Rev. Charles M. King.

Presbyterian, Market and Clinton streets, the Rev. I. T. Jones; St. Mary's Catholic, Jefferson and Linn streets, Msgr. A. J. Schulte; St. Patrick's Catholic, 224 E. Court street, the Rev. E. W. Neuzil and the Rev. Lawrence Mork, assistant; St. Venecius Catholic, 630 E. Davenport street, the Rev. Patrick J. O'Reilly.

**Sermon Series**  
Unitarian, 401 Iowa avenue, the Rev. Evans A. Worthley; Bethlehem chapel, 916 E. Fairchild street. During the school year, local ministers frequently give sermon series on modern questions of science, social welfare, and religion.

Topics are announced every Saturday in The Daily Iowan.

**Dedicate Indian School**  
MACY, Neb. (AP)—Sound of the Indian tom tom of the past blended with a call for modern leadership in Indian upbuilding and progress, at the dedicatory ceremony of the new \$40,000 Winnebago Indian vocational school here yesterday.

### Activities Offer New Students Opportunity to Get Acquainted

#### Headquarters Will Be at Union, Older Students Stationed To Help New Ones

A program of 14 events beginning with the university qualifying examinations and closing with the university induction ceremonies will comprise activities of Freshman week, a traditional part of the regular academic year at the University of Iowa.

Plans were announced yesterday by Prof. Rufus H. Fitzgerald, director of the school of fine arts and chairman of the committee in charge.

**Get Acquainted**  
Through Freshman week activities, new students are afforded an opportunity to become acquainted with the university campus and to become orientated in their new surroundings.

Inaugurated several years ago, Freshman week has replaced hazardous methods of introducing new students to the university. All students are enabled to become familiar with the historical and traditional features of the university as well as the modern characteristics.

Headquarters will be set up at Iowa Union. Older students will be stationed there to assist freshmen and new students, and the campus religious organizations will distribute handbooks describing Iowa life and customs.

**Become a Member**  
Freshmen are expected to be in Iowa City, Sunday, Sept. 15, just preceding the registration days. After solving the problem of a rooming place students will begin immediately the activities of becoming a member of the student body.

The first day will be devoted to taking the university qualifying examinations at the field house. Part 1 of the examinations will begin at 8:30 a.m. and the second part will start at 1:30 p.m. These examinations are for placement purposes only, and have no bearing on future grades.

The first social event of Freshman week is scheduled for Sept. 16, at 8 p.m. at Iowa Union when the Women's Pan Hellenic reception will

(Turn to page 10)

### Streets Student Must Know Iowa City Streets To Get About

It's like hunting for a needle in a haystack to try to find one's way around Iowa City without knowing something about street names and the numbering system.

Iowa avenue, which would run into the east and west approach of Old Capitol if continued, is the dividing line for street numbering north and south.

The principal streets south of Iowa avenue, in order, are: Washington, College, Burlington, Court, Harrison, Prentiss, Des Moines, Lafayette, Benton, Kirkwood, and First avenue.

Principal streets north of Iowa avenue are: Jefferson, Market, Bloomington, Davenport, Fairchild, Church, Ronalds, Brown, Park road, and Taft speedway.

The dividing street for street numerals east and west is Capitol street, which approaches the main campus from the north and south.

The main streets east of Capitol street, the Rev. Patrick J. O'Reilly, Van Buren, Johnson, Dodge, Lucas, Governor, Summit, Clark, Oakland, Avenue, Grant, Rundell, Dearborn, Seventh avenue, Sixth avenue, Fifth avenue, Fourth avenue, Third avenue, Second avenue, and First avenue.

Important streets west of Capitol are: Madison, Front, (the Iowa river), Riverside drive or Temple road, Ridgeland avenue, Ellis avenue, Beldon avenue, Ferguson avenue, Magowan avenue, Hutchenson avenue, Lexington avenue, Woolf avenue, Lincoln avenue, Lee, Main, and Wales.

Most of Iowa City's streets and avenues have been named for former United States presidents and state governors, and other state officials.

# University Social Activities Create Diversion for Students

### Friday, Saturday Evening Parties Turn Collegiate Thoughts to Entertainment, Campus Organizations Sponsor Dances

Academic activities fade into the background Friday and Saturday evenings when a brilliant social spotlight creates a whirl of festive week end parties, dances, and frolics of all kinds.

Shortly after the opening week of school, gaiety predominates each week end and becomes even more sparkling as the year continues. By the time spring arrives, Friday and Saturday evenings become a series of parties which turn collegiate thoughts to entertainment.

#### Social Committee

University dances are given under the auspices of campus organizations, each having a traditional type of announcement and decoration which makes its party distinctive. Organizations appoint their own committees, select chaperons, and choose their own orchestra, motif, and program.

#### Homecoming Dance

The I-Blanket Hop, an informal party under the auspices of A.F.L. honorary men's organization, will take place Oct. 11, Dad's Day, opening the fall social season.

#### Junior Prom

In formal dress dignity the graduating class entertains at its traditional Senior Hop early in March. Iowa's peppiest coed, chosen by Pi Epsilon Pi, national pep fraternity, is presented at the annual Pep Jam-boree, festive with confetti and serpentine, which follows the Senior Hop.

#### Sophomore Cotillion

The Sophomore Cotillion, another pre-Christmas party, will be the first formal dance of the year. Before the holidays, the Associated Students of Journalism will entertain at the Pica Ball, an annual informal dance. Each year campus personalities such as the dumbest man, man with the most pull, most merciless professor, purest woman, woman with the best technique for getting her man, and woman with the worst line are announced and awarded nonsensical prizes.

#### Military Ball

After Christmas holidays, formal dances start at full swing again with one of the season's most popular functions, the Military Ball. Each year the honorary cadet colonel, a coed selected by the military students who keep secret her identity, is presented, and crack army companies drill. The cadet colonel and his staff, with the honorary cadet colonel march in review, announced by a flare of gunfire.

#### Club Cabaret

The Club Cabaret, a formal dinner dance in night club style, is open to university students but ticket sales are limited. Tables are arranged in groups bordering the dance floor where guests dance between courses as well as after dinner. The Club Cabaret proves to be one of the year's swankiest affairs. Union Board is in charge of arrangements.

#### Late Permission

University women are granted late permission for special occasions such as the Sophomore Cotillion, Military Ball, Senior Hop, and Junior Prom. The hour at which they must be in after these events is 1:30 a.m.

#### Mecca Queen

Mecca Queen, elected by the college of engineering and her identity guessed by the law students, is announced at the engineer's annual Mecca Ball early in the spring.

#### Outstanding in social prominence

is the annual Junior Prom, at which Hawkeye beauties are announced. The beauty queen is selected by a well known national artist and kept secret until her long awaited presentation at the formal prom.

#### Funds for the erection of the building and studios included the Ranney foundation of \$24,000 established 20 years ago, together with the accrued interest; two gifts from the Carnegie foundation—one of \$100,000 to the school of fine arts, and one of \$12,000 for scientific study in discrimination and art ability, an anonymous gift of about \$25,000 received last year, and PWA grants.

#### University Theater

The new university theater building, the second unit in the fine arts colony, will be completed, according to present plans, by Nov. 1. The theater is situated on the banks of the Iowa river just north of the fine arts building, with the main entrance on the east. A beautiful foyer will lead to an auditorium seating nearly 500 spectators. The seats will be mounted in a single block, without aisles between the rows. They will be reached by six entrances leading off the foyer, three on each side of the auditorium.

#### New-Novel Ideas

The auditorium will occupy only the center section of the proposed three section building. The north wing of the building now under construction will allow additional stage space and will provide studios for scenic designing, costume studios, lighting shops, and other technical work in the drama.

#### Revolving Stage

Within the area of the stage proper will be mounted a revolving stage with a turntable 36 feet in diameter. The difficulty encountered in the use of most revolving stages—that of rumbling noise and vibration—will be eliminated by a special mounting of the stage.

#### Wagon Stages

In addition to the stage floor proper, additional space will be provided in the north wing for the storage and shifting of wagon stages. These stages, each basic unit of which will be 16 by 32 feet, will be mounted on tracks. Complete sets will be built on these stages before the play is produced, and it will be a matter of but a few moments to shift a wagon into place on the stage. Three of four wagon stages will be built, according to present plans. The complete stage area, including the storage space for the wagon stages will be 52 by 126 feet.

#### Cornerstone Laid

The cornerstone of the building was laid this summer during the western theater conference, when 150 playwrights, directors, and critics discussed the experimental production of new plays in western theaters.

#### Grad. College, School of Nursing Expect Enrollment Increase

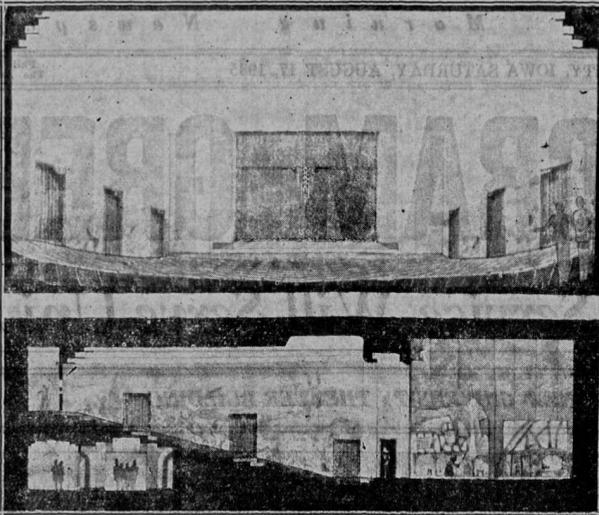

The graduate college and the school of nursing will probably have a five per cent increase in enrollment when school opens Sept. 23, according to figures from the office of H. C. Dorcas, university registrar.

#### Mother's Day Provides Many Fetes at S.U.I.

Mother's day week end proves a festive occasion for both the students at the University of Iowa and their honored parents.

#### Mortar Board conducts all Mother's day week end events.

## NEW UNIVERSITY THEATER INTERIOR VIEWS

# Students Find Opportunities For Education

## Schools, Colleges In University of Iowa Offer Facilities

Freshmen interested in either a liberal arts education or professional training find almost unlimited opportunities to acquire training in either field at the University of Iowa.

The eight colleges of liberal arts, dentistry, pharmacy, engineering, law, medicine, education, and commerce, and the schools of nursing, journalism, religion, and the fine arts offer facilities for students who wish to prepare for many varied professions and occupations.

**College of Law**

The college of law is the oldest west of the Mississippi. Designed primarily to train students who intend to follow the actual practice of law, the school also meets the needs of those who desire a knowledge of law in connection with business or other fields.

Special attention is given to the needs of students who intend to practice law in Iowa and the school seeks to prepare students for active service anywhere that the systems of Anglo-American law prevail.

**College of Medicine**

Three years of liberal arts work are required for admission to the three year course which leads to the degree of juris doctor. A library of approximately 60,000 volumes, a court room for laboratory purposes, offices, classrooms, and study rooms are included in the building of the college of law.

The college of medicine is on the accredited list of the Royal College of Physicians and Surgeons of England and meets all the requirements of all state licensing boards. A prerequisite of the course is three years in the college of liberal arts.

Buildings of the college of medicine include the medical laboratories, General hospital, children's hospital and Psychopathic hospital, all on the west campus.

**School of Nursing**

One of the rapidly growing schools of the university is the school of nursing closely connected in its organization and work with the college of medicine.

The college of dentistry and college of pharmacy offer full courses for degrees. Each college has its own requirements and courses.

Classes in the college of engineering are held in the engineering building, mechanical engineering laboratories, electrical engineering building, and the hydraulics laboratory.

Students may specialize in civil, hydraulic, sanitary, mechanical, electrical, or chemical engineering.

The entire student body is organized as the Associated Students of Engineering, Student branches of the American Society of Mechanical Engineers, the American Institute of Chemical Engineers, and the Society of American Military Engineers have been organized on the campus.

**College of Education**

The college of education organizes the forces of the university which contribute professionally in the preparation of educational leaders in high schools, normal schools, colleges, supervisors, and other persons actively engaged in the field of education.

The university high school, elementary school, and the pre-school laboratories are used for observation and practice work.

The bureau of business research organized with the college of commerce seeks to give direct aid to business interests of Iowa.

The college of commerce embraces the fields of commerce, economics, sociology, and social administration.

**School of Journalism**

The school of journalism, a division of the college of liberal arts, offers a four year course with the opportunity of specializing in the fields of editorial writing, advertising, the country weekly, or free lance writing.

Actual experience in addition to theory, is gained in the publication of The Daily Iowan, Hawkeye and Frivol.

The school of fine arts offers courses in the graphic and plastic arts as well as in music. With the new fine arts building in use this year the school has rapidly grown in size and influence.

Despite a conference record of 6 wins and 6 losses, the 1934-35 Iowa basketball season was successful because:

- 1) They outscored opponents 638 to 623.
- 2) They ranked fourth in the conference offensively.
- 3) Losses of three game by a total of only four points prevented a tie for the title.

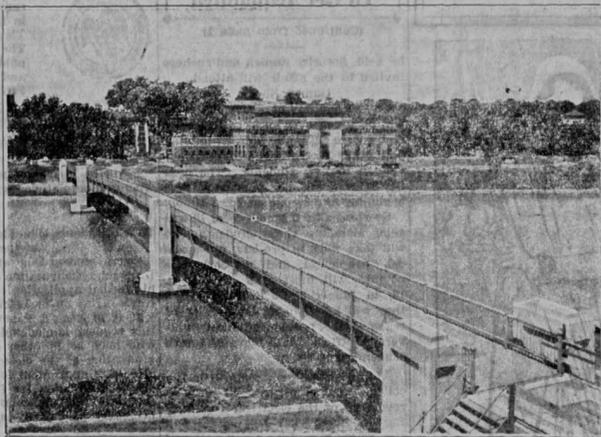

### Approved Room Lists Available at Housing Service Office, Union

Lists of rooms approved by the university for undergraduate students are available to old and new students at the office of the housing service in Iowa-Union.

Undergraduate students are required to live in university dormitories or in rooms in private homes that have met certain specifications, set by university officials.

The housing service handles only those problems connected with non-dormitory rooms. The offices of the dean of women and the dean of men in Old Capitol handles the dormitory housing.

## NEW BRIDGE TO WEST CAMPUS

Pictured above is the newly completed foot bridge over the Iowa river, from the main to the west campus. The bridge is just above Iowa Union, on the east side of the river and below the fine arts building on the west bank.

## Suitable Wardrobe Interests College Bound Coeds-to-Be

By BETTY PHELPS  
(Society Editor, The Daily Iowan)

In a month trains, buses and cars will be crowded with students college bound for rushing, reason, writing and rhythm. At present, the University of Iowa student isn't concerned with the academic work of the future, but instead, is confronted with the problem of a suitable wardrobe. Youthful freshmen-to-be gather about in groups on the beach to discuss proposed "college shopping" trips to the city.

"Now when my sister went to college she took—" is interrupted by, "My mother says I can have a hat for each costume."

**Campus Costumes**

Hats of all types and colors look smart bobbing about the campus, but the new student will find that they are generally discarded during early fall. Only in the evenings, on Sundays, or for special occasions does the hat make an appearance.

At this point the question arises: What should be worn below the hat?

In the classroom and on the campus swapper suits with a variety of blouses and sweaters are most often seen. They are simple, clever, and easily cared for. Light weight wool dresses in subdued plaids brighten up the wardrobe of the University of Iowa coed who will find that party dresses aren't worn in the classroom.

**Shoes for Wear**

Medium heeled sport shoes are best for daytime wear tracking down the hill to the Union, reserve library, or up and down the cement stairs of the university buildings. Even the old proverbial "flats" are worn with skirt and blouse outfits.

Knit suits, or street length dresses are popular "date night" apparel for the theater or dance, while for fraternity or sorority parties an ankle length velvet or silk, jacket type which may be worn either with or without the jacket, dress up this occasion considerably. Higher heels

are worn at these parties. Shoe fashions declare suede and kid pumps or T-strap slippers appropriate for any such dance.

**For Formal Wear**

Since many University of Iowa parties are informal, long sleeved dinner gowns or Sunday night super frocks with jackets are welcome additions to a collegian's wardrobe. Frilly frocks and sheer gowns of all colors and styles are saved for formal wear only. High heeled sandals in gold, silver, or pastel shades tinted to match formals are seen at the Union on formal occasions such as all-university dances, or fraternity formal dinner dances.

Rainy days need not be a problem to the coed when so many varieties of rain capes and coats are easily purchased. Since damp weather is prevalent in the fall, the smart university woman will choose costumes for school which will not muss easily or become spotted if she is caught in the rain, which so often happens.

**Winter Coats**

As for coats in the winter, the winter swaggar or polo coat is a useful garment. It does not muss when tossed over the back of a chair hour after hour in the classroom besides looking sporty and chic. Informal sports jackets also add a comfortable air to school outfits.

College days do not demand an

## Plan Early Forensic Start

### Public Discussion, Debate, Speaking, Being Planned

With the international debate with the Oxford university team scheduled for October the forensic program at the University of Iowa will get off to an early start.

Since 1924 Iowa has debated one or more teams from abroad including Cambridge, Oxford, German universities, University of Philippines, Trinity college of the University of Dublin, the University of Sydney, Australia, and Robert college, Turkey.

#### Forensic Program

The forensic program is arranged to meet the needs and interests of both the participants in intercollegiate contests and persons who wish training in speaking as a practical or cultural activity.

The speech department provides courses in public discussion, debate, public speaking, and the history and criticism of oratory. Freshman speech activities form a part of the program of the freshman speech courses. Intercollegiate and freshman debate contests with other universities and colleges, junior colleges, and high schools, and freshman and interclass debating clubs and intercollegiate oratory are regular features of the program.

In addition to the international debate the 1935-36 schedule includes the contests of the western conference debate league, an intercollegiate tournament, and a considerable number of debates, some of them radio debates, in Iowa City and elsewhere with colleges and universities not yet scheduled for definite dates.

For the December men's debates, Wisconsin will come to Iowa, Dec. 14, and Iowa will go to Minneapolis to debate Minnesota on the same date. Iowa women's debates are scheduled for Feb. 22. Wisconsin comes to Iowa City and the Iowa women debate with Minnesota at Minneapolis.

Iowa will again conduct an in-

extensive supply of clothes. Rather, they should be chosen carefully to supply more than one purpose. Besides fitting properly and being becoming, clothes need to be selected with care in order that they do not require hours of pressing or cleaning, for the coed is far too busy to worry her head about what she is going to wear the next day when all of her outfits are "simply unspeakable, my dear."

tational tournament during the first week of March. A selected number of institutions, largely those with Delta Sigma Rho chapters, will be invited to participate.

**Freshman Speaking**

In general freshman find a wide

outlet for their speaking interests in the freshman speech course. A few superior freshman debaters each year debate with the freshman from Northwestern and with the neighboring high schools and junior colleges. In the last nine years three

freshmen have been regular varsity debate speakers. Freshmen are also eligible to membership in Gavel club and to various campus teams. In February an intramural tournament will be conducted.

# BE RIGHT!

Get Your Fall Clothes  
At Bremer's

- Finer Than Ever
- More Value Than Ever

University men's clothing and furnishing goods this fall are quite different from the average type of young men's wearing apparel.

The styles, fabrics and patterns in suits and topcoats are more distinctive than ever — so may we suggest that you be sure you are right when it comes to selecting your fall outfit. And — the best way to know that you're right is to buy your new fall clothing here.

The smartest and the largest selection of new college men's styles in the state awaits you here and remember — the quality is right and the styles are right and at the most moderate prices.

For The Prospective Student

FOR THE purpose of better acquainting prospective students with the advantages of the University of Iowa, The Daily Iowan today is including with its regular edition a special freshman section.

There is little point in debating whether or not a college education is essential to a person in this modern world. But, the strongest argument for it lies in the fact that when the struggle for jobs is as keen as it is at the present time, the man or woman with training in his or her profession has a very real advantage.

Nearly every high school graduate hopes at one time or another to be able to take a college course. Finances are usually the deciding factor in whether or not a person gives college very serious consideration.

During the last few years of depression, the University of Iowa with its scholarships, loans, and employment facilities has made it possible for thousands of students to get higher education despite lack of finances.

Leaving home and coming to the university provides the first and most radical break in the life of an Iowa youth. His first impressions upon arriving are ones of bewilderment and he feels usually a bit lost.

When he becomes accustomed to this new life, makes new friends, and begins to participate in those activities in which he is most interested, the freshman then appreciates the true values of university life.

America Mourns Will Rogers

WILL ROGERS is gone. He has been a good comedian, a wise clown, a tweaker of the noses of the most high, a friend of everyone.

If the president of the United States had died there could not have been such universal mourning, by children who loved his winsome smile on the silver screen, by their elders who waited anxiously for his humorous, devil routing conversations, in books, magazines, and papers everywhere.

Dead? Will Rogers can never die in the hearts of the millions of young and old, rich and poor who loved him as an actor, a politician, a writer, and a king among jesters. He was probably as sincere a friend as the American people ever had.

A Great Flyer

THE PASSING of Wiley Post leaves a gap in aviation circles of America that will be hard to fill.

Few of America's ace flyers entered the game with less equipment and training, and there are few other pilots in the country who have added as much to the annals of aviation as did this one-eyed, stocky Oklahoman with the bushy hair.

Though he hung up records that were the envy of his competitors and accomplished deeds that were the constant wonder of his contemporaries, Post, when not occupied with some aerial exploit, usually remained pretty much in obscurity until some new idea developed and he became headlines again.

Since 1930, Post and his Winnie Mae became the idols of American lovers of adventures and thrills. His flight around the world with Harold Gatty in 1931, his solo flight over the same course two years later in less time, and his latest attempts to

penetrate the stratosphere won him a reputation as a great flyer in the eyes of America and the world.

Maybe Knighthood's Still in Flower

Knighthood is in flower again.

In these days of commercialism with the every man for himself and root, hog or die spirits so prevalent, it is encouraging to note the occasional acts of gallantry and kindness that pass through the day's news.

A New York patrolman, Thomas J. Harris, was highly honored and rewarded for the capture of Merton Goodrich, murdered of an 11-year-old girl. Patrolman Harris' first act after receiving the reward was to go to the home of the murdered girl's mother. He wanted to give the mother \$1,000 of the reward money.

The mother was reluctant to accept, but Patrolman Harris insisted, saying, "My little girl will feel awfully bad if you don't accept. She wanted to do something for you because she felt so bad about Lillian."

Mr. Harris is not just a patrolman, he is also a true gentleman. By that generous act he proved himself as much a knight as those of legendary fame.

Yes, knighthood is in flower again.

Hull House Goes On

THE WORK of Hull House in Chicago will go on. The board of directors has announced that Adena Miller Rich is to succeed the late Jane Addams as president of the organization.

The fact that Mrs. Rich was co-winner with Miss Addams of the Nobel Peace prize in 1931 speaks for the utmost loyalty and devotion and success in the cause for which Hull House is widely known. Mrs. Rich, the wife of a Chicago broker, was the personal choice of Miss Addams for the position.

Under the leadership of such a woman, Hull House will continue its priceless service to humanity. Were there more Jane Addams and Adena Miller Rich.

A New Thesis System

NO LONGER does the student taking advanced degrees in the university speech department need fear a rejection of master's or doctor's thesis at the end of the semester or term in which he planned to take a degree.

This system of an instructor-adviser offering criticisms and requiring corrections and rewriting of parts of the thesis not only insures a thesis worth your time in reading when it is finished, but it insures the student a more efficient learning process. To work well is to work economically under this system where extra good work exempts one from useless and antiquated oral and written examinations.

Let us hope that this system will not go wholly unnoticed by other departments of the university and that they will judge the efficiency of the plan by its products, the student and the finished thesis.

What Others Think

One must feel sorry for Japanese Ambassador Hiroshi Saito, whose vacation is being constantly interrupted by the necessity to rush back to Washington to make protest to the state department against some new joke mentioning the Mikado.

When the Japanese government decided that it ought to feel officially insulted, and ought to do something about a cartoon published in an American magazine, the cartoon had been seen by not more than 100,000 subscribers to that particular magazine. Many of them, indeed, may hardly have noticed it. The rest would have quickly forgotten.

Then Japanese officialdom got busy, ostensibly to protect the honor of the Mikado. And what was the effect? Why, naturally, to focus attention upon the very thing that Japan wanted suppressed. Every subscriber to Vanity Fair got out the issue again to have another look. Some thousands of other Americans, wondering what the shooting was about, went to the news stands and bought a copy.

Newspapers, in order to explain to their readers the reason for the fuss, reproduced the offending drawing in their own pages. The circulation of the cartoon was increased to millions.

Nor was that all. Amused by the picture of a great and solemn government making a great stir over a bit of humor, some folks out in Seattle thought it would be a bit of fun, to enliven a social affair, to act out the incident of the cartoon in costume. This is the occasion of Mr. Saito's new protest.

The business gets funnier as it goes along, and if the solemn Japanese officials keep up their present tactics, they will presently have people all around the world burlesquing their emperor, as the most diverting game of the year. Even a bunch of Japanese politicians should have been able to foresee this result. — The Evening Currier, Champaign-Urbana.

A Washington Bystander

By KIRKE SIMPSON

WASHINGTON — As chairman of the house committee on appropriations during the new deal regime, Representative James Buchanan of Texas is presumed to know something about future spending plans of the government and how the bills already contracted are to be met.

"Does the gentleman mean the seventy-fifth congress or the next session of the seventy-fourth congress?" asked Fiesinger of Ohio. "I mean the next session of the seventy-fourth congress and future congresses," answered Buchanan and house democrats applauded while republicans sniffed in scorn at the prediction.

It's His Belief, at Least Buchanan may be over-optimistic about that. The results of the work-relief recovery drive and of the effort to shift the relief of unemployed from federal taxpayer shoulders, are still to be demonstrated.

Republicans Sniffed "I firmly believe that with the \$270,000,000 to be raised by the new tax bill, with the payments due on money heretofore loaned by various government departments, with a re-

duction in the enormous working balance in the treasury, we can pass through the next congress without any additional taxation or without the issuance of any additional bonds or increasing the national debt, except to cover appropriations heretofore made."

Three Hurt in Wreck LEMARS, (AP)—The car in which Mrs. Phil Geary was taking her injured son to a hospital overturned in a ditch near here yesterday, resulting in severe face and arm cuts to Mrs. Geary. Mary Geary, a sister-in-law, suffered cuts and bruises. The son, Eugene, was being taken to the hospital for treatment of badly-cut fingers.

To Buy "Winnie Mae" WASHINGTON (AP)—A senate-approved bill for purchase by the Smithsonian institution of Wiley Post's famed world-circling plane, Winnie Mae, was passed yesterday by the house. A minor amendment will require senate action before the bill is sent to the White house. An appropriation of \$25,000 was authorized.

Lake Superior has the largest waves of the Great Lakes, and it is thought probable that during severe storms waves may be encountered in deep water of a height of from 20 to 25 feet.

Great speed can be attained by experts on skis. It is possible for such persons to travel at the rate of a mile in a minute and a half.

ACTIVITIES OFFER

New Students Chance To Get Acquainted

(Continued from page 1)

be held. Sorority women and rushers invited to the affair will attend. Games, Sports

The second day of Freshman week will be given over entirely to games and sports. Tennis, golf, swimming and other recreations will offer diversion to new students.

The next day there will be social activities beginning at 2:30 p.m. at Iowa Union. Freshmen in the college of liberal arts, including those students who will take work in pre-law, pre-medical, pre-dental and pre-commerce courses will meet at 2 p.m., Sept. 19, in Macbride auditorium.

At the same time freshmen in the college of engineering will meet in room 103 of the electrical engineering building. They will go through the same procedure as the liberal arts group. Freshmen in the college of pharmacy will meet at the same time in room 308 of the pharmacy-botany building.

Activity Night A new feature of the program this year is the student activity night, starting at 8:15 p.m., Sept. 19, at Iowa Union.

Open to all students the event replaces the "how do you do" night of last year. Representatives of various extra curricular activities will tell of the work of the different groups. Students will also be introduced to the campus and social traditions at Iowa.

Registration for freshmen in the college of liberal arts will begin at university hall, and reserve library at 8 a.m., Sept. 20. Engineering and pharmacy freshmen will register according to instructions given in their respective Thursday meetings.

At 8 p.m., Sept. 20, there will be the president's reception at Iowa Union to which all new students are invited.

Open House Registration will continue the next day. Open house at Iowa Union will

OFFICIAL DAILY BULLETIN

Items in the UNIVERSITY CALENDAR are scheduled in the office of the president, Old Capitol. Items for the GENERAL NOTICES are deposited with the campus editor of The Daily Iowan, or may be placed in the box provided for their deposit in the office of The Daily Iowan. GENERAL NOTICES must be at The Daily Iowan by 4:30 p.m., the day preceding first publication; notices will NOT be accepted by telephone, and must be TYPED or LEGIBLY WRITTEN and SIGNED by a responsible person.

Vol. X, No. 583 Aug. 17, 1935

General Notices

Graduate Consultation I will be in my office, room 240, medical laboratories, for consultation with graduate students, at 10 o'clock daily, beginning Aug. 1.

To All Students Who Expect to Graduate at the Close of the Second Term of the Summer Session, Aug. 23, 1935

Every student who expects to receive a degree or a certificate at the University Convocation to be held Thursday, Aug. 23, 1935, should make his formal application on a card provided for the purpose at the Registrar's office on or before Saturday, Aug. 10, 1935.

It is of utmost importance that each student concerned comply with this request immediately, for otherwise it is very likely that a student who may be in other respects qualified will not be recommended for graduation at the close of the present semester.

Making application for the degree, or certificate, involves the payment of the graduation fee (\$15.00) and also the cap and gown fee (\$1.00) at the time the application is made—the payment of these fees being a necessary part of the application. Call at the Registrar's office for the card.

The petition of the Association of Senior Class Presidents that a fee of \$1 be assessed to cover the cost of the caps and gowns for Commencement has been granted. Therefore, hereafter this additional fee of \$1 is to be paid by each graduate for a degree at the time he pays his graduation fee.

Heretofore the normal rental fee for bachelors' caps and gowns has been \$2 and for doctors' caps and gowns \$4-\$5.

The service for handling the taking of orders, and the distribution of the academic apparel, will be explained to students when information about Commencement is sent out from the Alumni office.

H. C. DORCAS, Registrar

be held for all new students at 8 p.m., Sept. 21.

The freshmen vesper service will begin at 8 p.m., Sept. 22, at Iowa Union. Members of the various campus religious organizations will be introduced to new students. President Eugene A. Gilmore will speak and Prof. M. Willard Lampe, director of the school of religion, will also talk.

The most impressive part of the week's activities will occur Sept. 23 at 7:50 a.m. when the annual induction ceremony will be held on the west approach to Old Capitol. Old and new students and faculty will verify. President Eugene A. Gilmore will give the induction address.

Following the administering of the traditional oath, the bell on Old Capitol will ring out the beginning of the new year and Iowa's freshmen will be a part of the student life of the campus.

Committee

Members of the committee assisting Professor Fitzgerald are as follows: Mrs. Adelaide L. Burge, dean of women; Robert E. Rionow, dean of men; Prof. Lonzo Jones, assistant dean of men; Prof. Frederic G. Higbee of the college of engineering; H. C. Dorcas, university registrar; Theodore M. Rehder, manager of the dining service at Iowa Union; Helek Reich, Iowa Union hostess, and Prof. Ernest G. Schroeder of the men's physical education department.

### Prof. Lampe Announces Vesper Service Speakers for 1935-36

Kirby Page, Charles R. Brown, Rufus Jones Named

Charles R. Brown, dean emeritus of the Yale divinity school, Kirby Page, economist and world peace advocate, and Rufus Jones, distinguished Quaker professor at Haverford college, will be among the vesper service speakers for the next academic year. Prof. M. Willard Lampe, director of the school of religion, has announced.

Dean Emeritus Charles R. Brown of the Yale divinity school will return to the University of Iowa for the twelfth time to present the address at the first university vesper service Sept. 29. Born at Bethany, W. Va., in 1862, Dean Brown received a B.A. degree from the University of Iowa, an M.A. degree from Boston university, and a D.D. degree from the Yale divinity school. From 1911 to 1928 he was dean of the school from which he received the D.D. degree.

**Contributes to Publications**  
For 15 years he was pastor of the First Congregational church at Pasadena, Cal. He has delivered special lectures at Leland Stanford, Yale, Cornell, Columbia, and Harvard universities.

The author of "The Modern Man's Religion," "The Making of a Minister," "The Gospel for Main Street," and "Have We Outgrown Religion," he is a frequent contributor to religious publications.

Kirby Page, economist and world peace advocate, will speak at the second university vesper service Nov. 10. He will also be on the campus the following day and will hold conferences with students.

**Kirby Page**  
Mr. Page attended Drake university, Des Moines, receiving his B.A. degree from there in 1915. He did graduate work at the University of Chicago, Columbia university and the Union Theological seminary.

A student pastor at Montclair, Page later served as minister of several large churches among them Morgan Park church, Chicago. Traveling extensively in Europe he engaged in Y.M.C.A. work in France and the British Isles. From 1916 to 1917 he traveled with Sherwood Eddy in an evangelistic campaign among students in America, China, Japan, and Korea.

**Became Editor**  
In 1926 he became editor of The World Tomorrow and since that time has contributed to magazines and written several books on international, economic, and religious problems.

He is the author of "Something More," Christianity and Economic Problems," "War, Its Causes, Consequences, and Cure," "Dollars and World Peace," "National Defense," and "Individualism and Socialism."

**Rufus Jones**  
A frequent visitor at the University of Iowa is Prof. Rufus Jones of Haverford college, Haverford, Pa., who will speak at the vesper service Jan. 13. Professor Jones graduated with a B.A. degree from Haverford college from which he received his M.A. and L.L.D. degrees. He did graduate work at the University of Pennsylvania, and the University of Heidelberg. He was awarded a D.D. degree by Oxford university.

Since 1904 he has been professor of philosophy at Haverford college. He was editor of The Friend's Review and The American Friend, two Quaker publications.

**An Author**  
He is a trustee of Bryn Mawr college and Brown university. From 1917 to 1928 he was chairman of the American Friends service committee on European relief. Three years ago he was a member of the appraisal committee of foreign missions in the Orient.

He holds membership in the American Philosophical society and Kant-Gesellschaft. He is the author of a score of books some of which are "A Preface of Christian Faith in a New Age" and "Mysticism and Democracy in the English Commonwealth."

Other vesper speakers will be announced later.

### Prof. Bruce Mahan to Serve As Secretary of Alumni Association

A new executive secretary of the Alumni association will be seen among the officials of the university this year following the appointment of Prof. Bruce E. Mahan, director of the extension division, succeeding Prof. Frederic G. Higbee. Professor Higbee resigned the position to devote his time to work in the drawing department of the college of engineering.

Professor Mahan has been associated with alumni groups throughout the state as director of the extension division and has been connected with Professor Higbee in the work of the alumni office.

Retaining his position as director of the university convocations, Professor Higbee will have a desk in the alumni office in Old Capitol. He has been secretary of the association for the last six years.

Professor Mahan graduated from the University of Iowa in 1914, received his M.A. degree in 1914, and Ph.D. degree in 1927. He was superintendent of schools at Cascade until 1918 and then returned to Iowa City as head of the history department and director of dramatics at Iowa City high school, remaining there until 1923.

For the next six years he served as lecturer in Iowa history in the university and as associate editor of the State Historical Society of Iowa. In 1929 he was appointed head of the extension division.

Professor Higbee has been a member of the faculty since 1905 and head of the department of engineering drawing since 1909.

#### Alumni Secretary

BRUCE E. MAHAN

### Old Capitol-Center, Symbol of University of Iowa Traditions

For more than 50 years, Old Capitol has been the center, the symbol of university traditions. Once the entire university, the beautiful Doric building, product of the pioneers, has seen countless generations of students finish their academic careers at the university.

On May 4, 1839, three men chosen by the first legislative assembly of Iowa Territory selected the site for Old Capitol. To them it was not Old Capitol, but the capitol of Iowa Territory.

**Priest Planned Building**  
A young Italian priest, Father Mazzuchelli, Indian missionary, gave to Old Capitol its classic beauty. He was a student of classic architecture, and it was he who conceived the plans for the beautiful stone building, and even the plans for the streets of the city which grew about it.

A portrait of Father Mazzuchelli, a gift to Iowa of the Dominican Sisters of Sinsinawa, Wis., now hangs in Old Capitol, in the office of the president.

Excavation for Old Capitol was under way soon after the commissioners had made their report. Natural quarries were found at the river bank, and the first stone was procured from the site on which the president's home now stands, at the head of Clinton street. The supply at this point proved inadequate, and Old Capitol quarry, 10 miles up the river, was then established. The builders used individual cut stones weighing 8,000 pounds. The foundation walls are six feet thick and the basement walls have a uniform thickness of four feet.

**Administrative Offices**  
Territorial assemblies, six sessions of the state legislature, and three constitutional conventions were held in Old Capitol.

When the seat of government was moved to Des Moines, in the fall of 1857, Old Capitol passed into the hands of the university.

During the transition period from summer school to the regular fall term, the number of mis-addressed or poorly addressed letters arriving at the Iowa City post office mount to more than 1,500.

**"Nixie" Section**  
The mis-addressed mail is first placed in the "nixie" section and then given directory service. If the correct address is still unavailable, letters are placed in general delivery for seven days. Letters, still unclaimed, are either returned to the sender or sent to the dead letter office.

The postmaster also warned against first class matter, such as personal letters and lecture notes, in laundry bags and parcel post packages. When such cases are discovered, the whole package goes under the first class postage rate.

**Excavation for Old Capitol**  
Excavation for Old Capitol was under way soon after the commissioners had made their report. Natural quarries were found at the river bank, and the first stone was procured from the site on which the president's home now stands, at the head of Clinton street. The supply at this point proved inadequate, and Old Capitol quarry, 10 miles up the river, was then established. The builders used individual cut stones weighing 8,000 pounds. The foundation walls are six feet thick and the basement walls have a uniform thickness of four feet.

**Administrative Offices**  
Territorial assemblies, six sessions of the state legislature, and three constitutional conventions were held in Old Capitol.

When the seat of government was moved to Des Moines, in the fall of 1857, Old Capitol passed into the hands of the university.

### Cooperative Dorms Help Iowa Students

The cooperative dormitories for men and women instituted several years ago to meet the exigencies of the needy students will be conducted on a similar basis again this year.

According to Robert E. Rienow, dean of men and a member of the committee in charge, definite expenditure items have not yet been determined but they will be about the same as for last year.

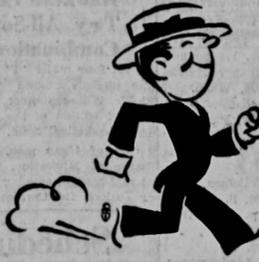

**Cooperative Houses**  
About 250 students, 210 men and 50 women are expected to live in the cooperative houses. The same houses that were used last year will be used again this year.

All the work is on a cooperative basis, each person being assigned a particular duty each day. In this way living expenses are cut to the very minimum.

The field house dormitory will be conducted again this year on a semi-cooperative basis. This dormitory plan is designed for men who have board jobs, or who wish to eat at the Quadrangle cafeteria near the field house.

A limited number of women will again be admitted to Eastlawn.

women's dormitory on a semi-cooperative plan. Women will work one and one-half hours per day and will receive one-half of their board for this work. Currier hall, women's dormitory and the Quadrangle, will be operated on a basis similar to that of last year.

### Hawkeye Grid Prospects Look Fair to Coach

#### Veteran Backfield Will Bolster Strong, Inexperienced Line

A wealth of backfield and potentially powerful forward material will greet Coach Ozzie Solem Sept. 10 when the Iowa grid mentor opens the training period for the 1935 football season.

From this, Coach Solem will attempt to mould an eleven capable of staying off the challenges of Big Ten and non-conference foes.

When the Iowa mentor leads his gridders onto old Iowa field for the opening practices he is faced with the problem of pointing ahead, not looking back to the disappointing season of last fall when the Iowans won only one major game, the season's opener with Northwestern before injuries to key men called an abrupt halt to any winning streak envisioned by fans.

This fall Coach Solem will have a host of experienced backfield candidates, including Capt. Dick Crayne, fullback, and the elusive Oze Simmons, halfback. Indications point to a heavy, yet fairly fast line composed mostly of juniors.

Scarcely past mid-summer, this is no time for prognostications as to the outcome of the impending grid-iron wars. Iowa meets eight foes—the usual schedule—this fall. This is certain at this early date. The schedule:

- 1935 Schedule**
- Sept. 28—Bradley Tech (Peoria, Ill.) at Iowa City (fourth game).
  - Oct. 5—University of South Dakota (Vermillion, S. D.) at Iowa City (fifth game).
  - Oct. 12—Colgate university (Hamilton, N. Y.) at Iowa City (fourteenth annual Dad's day) (first game).
  - Oct. 26—University of Illinois at Urbana (nineteenth game, first since 1929).
  - Nov. 2—Indiana university at Iowa City (second annual American Legion day) (eighth game).
  - Nov. 9—University of Minnesota at Iowa City (twenty-fourth annual Homecoming) (twenty-ninth annual game).
  - Nov. 16—Purdue university at Lafayette, Ind. (fourteenth game).
  - Nov. 23—Northwestern university at Evanston, Ill. (twenty-second game).

#### Team of Potentialities

In early September, 1934, hopes for a fine season were high, considerably higher than will be the case this September. In 1932 Coach Solem, in his first year on the campus, was expected to do no big things, and he lived up to expectations. The 1933 season was a big surprise as far as real football was concerned. Iowa defeated three conference foes in 1933, but was the Hawkeyes last fall.

A team of potentialities—one with a chance to become as surprising as the eleven of 1933—appears likely to be developed by Coach Solem and his aides this fall. No definite predictions are in line, but we present a lineup of factors which will give the readers an idea of strengths and weaknesses of the 1935 team.

#### Strengths

- 1—Presence of 19 major letter men, seven of whom were starters in the majority of the final four games last fall.
- 2—A set of eight good backs, including Capt. Dick Crayne and Oze Simmons as ball carriers, and such experienced blockers as Dwight Hoover and John Hill.
- 3—A group of 11 veteran linemen, among whom are men like Jim Kelley and Floyd McDowell, who, as sophomores a year ago, were just starting to play their best football in November.
- 4—Good sophomore talent at some positions, especially end, tackle, and center, where several backs may be useful.

#### Weaknesses

- On the pessimistic side of the ledger might be listed:
- 1—Loss of 10 letter men, half of whom were regulars or semi-regulars.
- 2—The fact that some of the 19 returning "I" men saw a minimum amount of service on a team which won only one big game (Northwestern).
- 3—Inexperience of the sophomores, which often prevents the highly-rated athletes from "coming through" in October games. It was this factor which hindered the 1934 team, since the new men were not especially valuable until past mid-season.
- 4—Severity of the schedule: games with Minnesota, Big Ten champion; Illinois, third, and Purdue, fourth, last fall; and Colgate, eastern power which lost only one game in 1934.

#### Experienced Candidates

Experienced candidates for the 1935 team:  
Returning varsity regulars of 1934 (7)—Capt. Dick Crayne, fullback; Dwight Hoover, halfback; Ted Osmaloski, center; Oze Simmons, halfback; Frank Jakoubek, end; James Kelley, tackle; and Floyd McDowell, guard.  
Semi-regulars or first string substitutes (14)—Gordon Matson, end; John England, end; Don Simmons, end; Lloyd Hoffman, tackle; William Seel, guard; Donald Nelson, guard; Jack Shea, center; Merrill Robb, center; Warren Haltom, quarter and half; Sheldon Gordinier, halfback; John Hill, halfback; Joe

Richards, halfback; Robert Moore, halfback; and Paul Atkins, halfback.

#### Among Sophomore Candidates

These athletes showed ability on the freshman squad last fall and in spring practice: Ends—Robert Lannon, 195 pounds, 6-2, Winner, S. D.; Dale Liddlecoat, 185 pounds, 6-2, Charlton; Robert Oshlo, 175 pounds, 6-3, Council Bluffs; Homer Harris, 195 pounds, 6-2, Seattle, Wash.

Tackles—Frank Gallagher, 206 pounds, 6-3, Des Moines; Floyd DeHeer, 235 pounds, 6-7, Oskaloosa; Nate Estrin, 220 pounds, 5-10, Waterloo.

Guards—Charles Tolofson, 190 pounds, 5-10, Elk Point, S. D.; Lorence Fuhrmeister, 200 pounds, 6 feet, North Liberty; Jake Song, 180 pounds, 5-11, Waterloo.

Centers—Frederick Lindenmeyer, 175 pounds, 6-2, West Chester; and Richard Anderson, 180 pounds, 5-11, Yankton, S. D.  
Backs—Scott Wagner, 200 pounds, 6-2, Bloomfield; Richard Bowlin, 165 pounds, 5-11, Chicago, Ill.; Wilbur Page, 175 pounds, 5-9, Newton; Don Gugler, 192 pounds, 6-2, Council Bluffs; Bush Lamb, 190 pounds, 6-1, Newton; Emil Klumpar, 168 pounds, 6, Cedar Rapids; and Shipley Farroh, 190 pounds, 5-11, Michigan City, Ind.

**\$100 Prize Offered**

For New Hawkeye Rally Song by Alumni Group

There's a prize of \$100 awaiting the winner of a contest for a new University of Iowa rallying song.

Singable music and memorable words to form a song for use at athletic events and alumni rallies are needed, the alumni association directors have decided.

The competition will be directed by a committee of Albert F. Fisher, 15, of Waterloo; Prof. Bruce E. Mahan, alumni secretary; and Prof. Charles B. Righter of the music department. Rules soon to be announced.

### Williams Must Build Basketball Team Around Four Letter Men

#### Hawkeye Coach May Try All-Sophomore Combination

Just four major "I" men compose the nucleus around which Coach Rollie Williams must construct the 1935-36 edition of the University of Iowa basketball team.

One of these men, Capt. John Barko of Muscatine, will graduate at mid-season, causing even a darker outlook for the campaign. Fred

Schwartz, Dubuque senior and letter winner, was considered only a semi-regular, leaving Sid Rosenthal of Chicago, Ill., and Albert Bobby of Farrell, Pa., as the only key men.

To fill in the positions vacated by the graduations of John Grim and Ivan Blackmer, sparkling guard and center, respectively, Williams must draw from seven minor letter winners and a host of promising freshmen.

Al Buss of Keokuk and Ted Osmaloski, Toledo, Ohio, a football performer, both saw action at the guard positions last year. The defensive play of the latter was especially outstanding. Leslie Rudd was a third string backcourt man and has one year of competition remaining.

Matt Walsh, 6 feet 6 inch Council Bluffs man, showed promise of developing into an outstanding pivot man until he became ineligible at mid-season. Glen Tangeman, a "pony" forward from Sioux City, was used extensively at forward until he also was declared scholastically ineligible to play. John Lindenmeyer of West Chester and Dick Moran of Rock Island, Ill., rangy centers, will both return for their second year of competition.

From the fresh ranks, Williams will have a number of former high school luminaries led by Wally Gaddis, forward on Dunkerton's state championship five of 1932. Because of his fast footwork, ability to feint skillfully, and accurate passing faculty, the Hawkeye mentor may shift him to a guard position for the approaching season.

Dick Shaw, a small, exceedingly speedy forward from Council Bluffs, will make a strong bid for a job. An all-state prep performer, Shaw showed possibilities in scrimmages against the varsity last year.

Jack Drees, Chicago, and Floyd DeHeer, Oskaloosa, both towering in the vicinity of the 6 feet 6 inch height, will wage a battle for Blackmer's center position. Kenneth Suesens of Burlington, Walter Brinker, Keokuk, Bush Lamb, Newton, Charles Sprague, Newton, Ed Thompson of Marshalltown, and Joe Van Yaseidky were the best of the yearling guards.  
Coach Bill Boelter will also turn

### Facts About Members Of Coaching Staff

**OSSIE M. SOLEM**—For the fourth year, Solem will serve as the University of Iowa's head coach. He is 44 years old, was a star tackle and end at the University of Minnesota. His coaching experience exceeds 18 years, including 11 years at Drake university, Des Moines. Coach Solem also has been director of athletics at Iowa since 1934.

His 1933 team was the surprise of the Big Ten, with three wins and two defeats in the five games. In 1934, injuries to key men ruined the season after a brilliant win over Northwestern in the first league game.

Solem's teams always are smartly coached, equipped with a good repertoire of plays, and feature a clever shift attack and an active, resourceful line.

**ROLLE F. WILLIAMS**—Head basketball coach at Iowa since 1930 who has helped with football for the last 11 seasons. At Wisconsin Williams was a nine-letter man, former all-western halfback and basketball guard.

**OTTO H. VOGEL**—He has been head baseball coach since 1925. In 1932, after seasons of service with the freshman football men, he began as an assistant to Solem. Vogel graduated

from the University of Illinois. **EDWARD B. LYNCH**—Lynch, Dartmouth, was added to the Iowa grid staff at the beginning of the summer as an end coach. He was assistant to Spears at Minnesota, 1925 to 1929, and from 1932 through 1934 helped Spears at Wisconsin.

# Pan-Hellenic Reception Before Rush Week Honors Rushees

## Active Members Of Sororities To Serve As Hostesses

Rush week for the fall of '35 will be preceded by a formal Pan Hellenic reception Monday night, Sept. 16, in Iowa Union. The reception, given by all sororities to honor all rushees, is a new venture of Women's Pan Hellenic association, which governs rushing activities at the University of Iowa.

Active members of all sororities will serve as hostesses to the rushees who will receive formal printed invitations upon their arrival in Iowa City.

**Rushees Entertained**  
Another innovation in 1935's rushing program for Iowa sororities is the abolition of preferred parties because of the shortening of the formal rushing period from three to two days. The rushing period will begin Tuesday, Sept. 17, at 9 a.m. and will conclude Wednesday, Sept. 18, at 10 p.m.

During these two days rushees will find themselves entertained as never before when they attend many parties crowded into this brief period. But more important than the mere attendance at these parties is the opportunity which rush week festivities give to rushees in formulating their sorority choice and to the Greek groups in selecting the rushees they desire to affiliate.

**Meeting**  
Preceding the actual parties all rushees will meet at 8 a.m. Tuesday, Sept. 17, in Macbride hall auditorium for an explanation of rushing rules. Attendance at this meeting, when questions will be answered and information given about sororities in general, will be compulsory since it is at this time that rushees pay a two dollar rushing fee and turn in filled out rushing card. Sororities cannot bid a rushee who has failed to pay the fee or hand in her card.

The Women's Pan Hellenic association's booklet of rushing information, published annually, is now being mailed, with invitations for rushing dates, name cards and room reservation cards to all rushees. This booklet explains all rushing rules

and customs enforced at the University of Iowa.

**Two Parties**  
Parties themselves will be limited to five per sorority, each group being permitted to entertain at two parties Sept. 17, each no more than two and one-half hours in length. Sororities may choose the hours of their parties, but rushing must conclude at 10 p.m. On Wednesday, Sept. 18, each sorority will be permitted to entertain at two parties, two and one-half hours each, before 7 p.m. Following the custom of several years' precedence, all sororities will entertain at open house from 7 to 10 p.m. the last night of rush week, Wednesday, Sept. 18.

**Degree of Interest**  
During the open house hours, rushees will be given opportunity to visit the sororities in which they are most interested, designating the degree of their interest by the hour at which they visit sororities during the open house hours. The custom of rushees on the Iowa campus is to show the sorority of their first preference by visiting its open house latest in the evening, just before the 10 o'clock closing hour.

Between 10 and 10:30 p.m. the night of Sept. 18 rushees will fill in their preference slips, designating in order the sorority of their first, second and third choice, and hand in these slips at the dean of women's office in Old Capitol before the 10:30 deadline. All biddings of pledges is handled by this preference slip method alone, no oral bidding being permissible. This system allows the rushee freedom of her own independent selection.

**Notification**  
Sororities will hand in typewritten lists of the rushees they desire to pledge at the dean of women's office by 8 a.m. Sept. 19. Rushees will be notified by special delivery letter at 4 p.m. Thursday, Sept. 19, as to which group they will be pledged. At this hour sororities will call at the rushing referee's office for the acceptance lists.

Notification of bidding an acceptance will be followed immediately by personal calls for the rushees by members of the sorority which they will pledge. The rushees will then

# Iowa Union, Student Center Serves University as Social, Art Center; Is Headquarters for Registration

As Old Capitol is the center of academic life on the University of Iowa campus, so Iowa Union is the center of social life and student activities.

Erected by subscription pledges of students, faculty and alumni, Iowa Union has served the university as a social center, art center, and headquarters for registration, student meetings and other similar activities.

**Main Lounge**  
Iowa Union is three stories high in front, and one in back. The main lounge, where all-university parties are held, covers nearly all of the back part. On the sides of the main lounge are private dining rooms, the kitchen, Union offices, the Union studios of station WSUI, the university housing service, employment service and the Union library.

Looking out over Iowa river on the west is the sun porch, scene of many dinners and meetings, and the soda fountain.

The front part of the building houses the main lobby, offices of the campus religious organizations, a smaller lounge and several meeting rooms. In the upper stories are the club rooms of the faculty clubs—University club and Triangle.

In addition to serving as a dance floor and lecture auditorium, the main lounge has for years been Iowa's art center. Here paintings, sculpture and exhibits of photography have been on display for the students.

The lounge is equipped with tables and chairs for study, and soft, comfortable sofas and deep chairs for relaxation, reading, or just listening to the radio.

Iowa student life clusters about the Union. Whether it's a party, a meeting, or just a "coke"—the Iowa student learns to say: "I'll see you at the Union."

er of the Canadian reform party, he has written over 40 volumes of serious and humorous essays.

"My Financial Career," originally published in Life, and "Literary Lapses" and "Nonsense Novels," were his first humorous publications.

His recreation includes gardening, fishing, and carpentry. He is a member of the American Political Science association and the Royal Colonial Institute. He will speak at the University of Iowa Oct. 15.

**Louis Anspacher**  
Louis Kaufman Anspacher, dramatist and poet, will be presented by the university lecture series, Dec. 5. Educated at the College of the City of New York, Mr. Anspacher studied in the graduate school of philosophy of Columbia university.

For three years he has been a lecturer at Temple Emanuel, New York city. Since 1906 he has been a member of the lecture staff of the League for Political Education. He has also delivered lectures at the

Brooklyn Institute of Arts and Sciences since 1908 and has been a member of the staff of the civic forum lecture bureau since its formation. Among the plays that he has written are "Tristan and Isolde," "The Glass House," "Our Children," "All the King's Horses," "The New House," and "Rhapsody."

**John Mason Brown**  
The dramatic critic of the New York Evening Post, John Mason Brown, will talk at the University of Iowa Feb. 7.

Born at Louisville, Ky., in 1900, he received his B.A. degree from Harvard in 1923. He began his journalistic career on the staff of the Louisville Courier Journal. In 1917 he taught classes in the history of the theater and also in Shakespeare at the summer session of the University of Montana.

In 1923, 1929, and 1931 he was associate editor and dramatic critic of the Theater Arts Monthly. Since 1929 he has served in his present capacity.

**History Lecturer**

**WHY is SIDWELL'S called Hy-Score milk?**

Why We Say Sidwell's Is Hy-Score Milk

SIDWELL'S MILK is obtained from carefully selected dairy farms that are subject to frequent, rigid inspection.

But Sidwell's go farther than that to insure milk of the finest quality obtainable for Iowa City.

As an added inducement each of the farmer-producers supplying us milk that scores 90 or better (see score card) receives a bonus of 10 cents for each hundred pounds of milk. These scorings are made twice each week and

give a constant check on the quality and cleanliness of the milk coming to our plant. All milk distributed by us is bonus quality milk. That's why we say, Sidwell's is HY-SCORE MILK.

Pasteurized in our modern dairy—it is pure, rich, safe milk—purchased by us at a premium—sold to you at no more than you would pay for ordinary milk.

### Group Parties Add to Campus Social Whirl

#### Organizations Will Keep Social Spirit Active

Social supplements to the university's party calendar on the Iowa campus will be found in abundance in week end "group" festivities. No week end passes at the university without several parties on schedule. During the intervals between all-university parties special organized groups keep the social whirl whirling with their own entertainments.

Hosts at these group parties, which admit only the organization members and their "dates," are sororities, fraternities, dormitories, collegiate clubs and professional colleges in the university.

Even with admission to these special parties restricted to the group members, the parties are so numerous that each student may attend several of them each season.

Tea dances at Iowa Union from 4 to 6 p.m. each Wednesday are weekly social events open to all university students paying a small admission charge. Favorite campus orchestras play popular melodies for these tea dances, which are included in the activities of Union Board.

Graduate students are entertained at their own special dances, card parties and mixers, arranged for many evenings during the school year by the graduates' social committee.

Quadrangle men's dormitory, Currier and Eastlawn women's dormitories, Westlawn nurses' residence, and cooperative dormitories for both men and women students organize social committees to take charge of their parties. Greek letter houses appoint social chairmen and assistants to arrange dances, radio parties, and dinner dances, and professional colleges annually forsake their scholastic activities for their private dances.

Titles of these dances for all students enrolled in professional colleges have become traditions in college activities. Among these are the Barristers Ball, a formal dance for law students and their "dates," the Aesculapian Frolic for the medicals,

### Iowa Gridders Have 25 Practice Days Before Major Game

Thanks to a smartly drawn schedule and the opening of practice five days earlier than usual, Hawkeye gridders will have 25 practice days before the first major game and 11 more before the initial Big Ten contest.

The Iowans, along with other Big Ten squads, start practice Sept. 10, and will have 10 days of double drills before university classes begin.

Iowa's first game is Sept. 28 with Bradley Tech and the next with South Dakota Oct. 5. Aided by the experience of two minor games and the longer practice period, the team will face Colgate here Oct. 12 in a major inter-sectional affair.

Techni Ball of the engineers, the All-Dent party and the pharmacists' festivity.

During the autumn and early winter months, radio parties and informal dances prove popular with fraternity and sorority groups and dormitories, but the Christmas holidays give impetus to these groups to entertain at formal dances.

Even the first spring breezes occasion annual spring dances of a more formal trend. Each group customarily saves its best decoration theme and orchestra for an annual dinner dance, usually an event of late winter or early spring.

Many collegiate clubs, organized for discussion and study purposes or problems of their special fields break away from studious and earnest meetings to entertain their members at a annual dance. A party of this type was the costume Arts Ball, inaugurated by the Student Art guild last spring.

Although parties of an informal nature usually take place at the sorority or fraternity chapter houses or the dormitory lounges settings for formal and dinners include one of the various rooms in Iowa Union, the Jefferson hotel, Iowa City Country club, American Legion building ballroom, music building, Varsity ballroom and other amusement centers in Iowa City.

Through this medium of extra parties in addition to all-university gala dances Iowa students are offered diversion practically every week end, at the conclusion of a week of study.

### DEAN OF COLLEGE OF MEDICINE

### Dr. Ewen M. MacEwen New Head of College of Medicine

Dr. Ewen M. MacEwen became dean of the college of medicine July 1 following approval of his appointment at a meeting of the Iowa state board of education at Ames.

The position had been vacant since 1932, when Dr. Henry S. Houghton resigned to join the medical faculty at the University of Chicago. The college of medicine had been administered by an interim committee headed by Dr. John T. McClintock. Other members were Dr. Howard L. Beyne, and Dr. Everett D. Plass.

Since about 1915 Dr. MacEwen has been a member of the board of student publications; he is on the board of directors of the Iowa State Bank and Trust company, and is president of the Federal Loan Investment company, organized here last spring.

Graduating from the college of medicine in 1912, Dr. MacEwen has

been connected with the university continuously since that time.

He has served in the anatomy, histology, embryology and neuro-anatomy department and for three years was demonstrator in the department.

In 1920 he was appointed professor and since 1931 has been head of the department. He will continue as head of the department for the present.

#### Fraternal Affiliations

He holds membership in four scientific and medical organizations; he is a member of the American Medical association, American Association for the Advancement of Science, American Association of Anatomists, and the American Association of Physical Anthropologists.

He is a member of Sigma Xi, honorary scientific society, Alpha Omega Alpha, honorary medical fraternity, and Nu Sigma Nu, medical fraternity.

### Employment At S.U.I. On Upgrade-Kann

With 25 or 30 per cent of the existing positions open for new assignments, the employment situation at the University of Iowa is not discouraging, according to Lee H. Kann, personnel director. Percentages for cash jobs now open to students run somewhat lower.

During the last year from Aug. 31, 1934, to March 31, 1935, approximately 1,515 students held 2,039 jobs at the university. About 560 students worked at SRE jobs; this year about 600 persons are expected to participate in the national youth program at the university.

The majority of board jobs at the university are under contract and are already filled. Contracts are given in the spring before summer vacation to allow regular employment to those students who have proved satisfactory and also to permit them to stay at home during the summer with the assurance of a job for the next year. About 323 board jobs at the university hospitals will be filled by students.

During the last year student jobs were distributed among the various colleges as follows: graduate college, 360; first year students in the college of liberal arts, 349; second year students in the college of liberal arts, 221; third year students in the college of liberal arts, 207; fourth year students in the college of liberal arts, 100.

In the college of law a total of 65 persons were employed. About 78 students in the college of medicine, 26 in the college of dentistry, 96 in the college of engineering, and 16 in the college of pharmacy were employed. About 187 persons were employed in cooperative dormitories during the last year.

### EMPLOYMENT

#### Change in Methods Help to Students

(Continued from page 1)

eligible for jobs, attempting to work.

#### Established to Aid

The office is established on a service basis to aid the total employment problem; to employ students who merit jobs; to see that the student employed receives but a fair share; and to give the employer an opportunity of selecting his own employes as much as possible. The office also has developed methods by which students can be rechecked as to their merit, need, and general attitude.

The office handles special projects developed by the university. It occupies a midway position between the scholarship and loan committee and the business office in the national youth program which is being substituted this year for the SRE organization of last year. Selections of student workers are made by the committee and are then turned over for assignment and supervision to the personnel office.

#### Non-Student Setup

A new part of the organization this year is the non-student set up. While not assuming responsibility for non-student jobs the office does make an effort to place persons.

About 160 students have been employed this summer in the physical improvement projects at the Law Commons and the fine arts building.

Under the direction of Mrs. Frances Schramper of the college of commerce tests are being worked

out in typing, short hand, and filing. The tests which are objective in nature, are designed to test the applicant's ability for such work and to assure satisfactory performance.

#### Reactions Good

Jobs in the university libraries are also being brought under the personnel office. A new arrangement is being initiated whereby library workers may work more hours and earn a large sum of money to the end that they will not need to hold employment in other departments. The office while immediately concerned with assisting students who have to work for part of their expenses while in college, also gives attention to the general student employment situation.

Reaction to the new system on the part of professors and townspeople has been good, according to Mr. Kann. The new system emphasizes the personal responsibility of the student and at the same time gives the personnel department a way of checking and regulating both employes and employment.

Coach Ossie Solem, headman of the Hawkeye football team, is beginning his second year as director of athletics.

Solem accepted the directorship when Edward H. Lauer resigned to accept a position at the University of Washington in 1933.

The weight of the earth is estimated to be 6,000 billions of billions of tons.
