BALLOON LANDS IN SOUTH DAKOTA

Sino-Japanese Relations Tense After Disorders

Japanese Gov't Utters Demand Of Settlement

Reported Stoning of Girl Causes Outbreak in Late Developments

SHANGHAI, Nov. 12 (Tuesday) (AP) — Tension increased in Sino-Japanese relations today with reports of the asserted stoning of a Japanese school girl, while the Japanese government formally requested the immediate arrest of perpetrators of disorders last night.

The developments followed the arrival of more troops from Japanese warships.

Smash Window

The window of a Japanese-owned store on busy Nanking road was smashed with bricks and bottles in the demonstration last night, causing feeling in the Japanese community, aroused by the slaying Saturday of a Japanese marine, Hideo Nakayama, to mount still higher.

The Japanese press gave prominence today to reports that the Japanese girl had been endangered by stones thrown by a Chinese youth.

Calls on Official

A Japanese consular representative called on the deputy commissioner of the international settlement police today to request the "immediate arrest" of persons responsible for the disorder last night, during which handbills were dropped urging "war on Japan to save China."

The Japanese naval officers obtained an agreement from settlement police to launch a new investigation into the slaying of Nakayama.

The Japanese took exception to the release by Shanghai police of testimony that the assassin was clothed similarly to Nakayama. Japanese officials assert the marine was shot down by a Chinese and intimate the killing was for political motive. They denied rumors that a Japanese or Korean was the assailant.

In Peiping, the Japanese military command agreed to halt the arrests of suspected "blue shirts" there, municipal authorities announced after representations by the mayor of Peiping.

The "blue shirts" are a nationalistic Chinese organization, which the Japanese claim has sponsored fascist anti-Japanese terrorism.

Marines Increase

Japanese marines now in Shanghai reached more than 2,000 with the arrival of 500 more marines. Officials of the Japanese navy said, however, that they were merely replacements for as many blue jackets who were to depart for Japan Wednesday.

Gen. T. Ishii of Japan called upon Gen. Wu Teh-Chen, mayor of Shanghai, today and urged redoubled efforts in the hunt for the slayer of Nakayama.

Chinese Seek Safety

Chinese, alarmed by the presence of the Japanese military force, continued to flock into the international settlement for safety.

Officials of the Chinese national government at Nanking said the slaying was a local issue, to be handled by Shanghai authorities, and expressed hope it would remain a local matter.

Flays Chinese

A spokesman for the Japanese military attaché called the anti-Japanese demonstration "a violation of the Chinese government's assurances regarding suspension of anti-Japanese organizations."

Legionnaires Enjoy After Dinner Talks At Armistice Feast

More than 165 Legionnaires and business men enjoyed the Armistice day game supper last night at the American Legion building. Informal jokes and talks were the highlights of the after dinner entertainment.

An autographed photograph of President Franklin D. Roosevelt, along with a letter from Congressman E. C. Elcher, who obtained the photograph for the local post, were presented by Lou E. Clark, commander.

Nations Honor All War Dead

World's Nations Pause To Observe Day of World War's End

By The Associated Press
The world paused Tuesday to pay homage to the dead of its last great war, even as martial spirit flamed anew among its people.

Everywhere, the vast tide of activity in the affairs of nations halted at the hour of 11 — 17 years after the declaration of armistice in the World War.

In the brief minute or two of silence at 11 a. m., the state and the people of once-warring nations bowed at the shrine of the dead soldier—the Cenotaph, the Arc de Triomphe, the national tombs of the unknown soldiers, Arlington and the countless rows of white crosses marking the legion of the war dead.

In Rome, the occasion of King Victor Emmanuel's sixty-sixth birthday was observed by bristling military display as fascist troops in far off Ethiopia pressed ahead in their colonial war.

Premier Mussolini told Italians and the world that Italy's armies were ready to defend her "interests in Europe, Africa or anywhere."

President Roosevelt, before the tomb of the United States unknown soldier, pledged the nation "will ever seek the ways of peace" but "must and will protect herself."

In the Pacific, America's navy was engaged in far flung aerial peacetime maneuvers.

Great Britain's fleet, massed grimly in the Mediterranean, formed a guard of honor for ceremonies honoring the Egyptian war dead at Alexandria. Italy's consul took part in the ceremony.

London hushed before the Cenotaph upon the booming of Big Ben and a salute from a gun from the horse guards parade.

"Taps" sounding from a bugler's lips stilled busy Times square in New York City. For two minutes, an eerie silence gripped the ever roaring caverns of the city's subway system as power was shut off to stop all trains during the observance period.

In Paris, the stern "death's head" legions of the nationalistic Croix de Feu paraded to the tomb of France's unknown soldier at the Arc de Triomphe, then broke ranks to stage a street battle with leftist veterans.

President Albert Lebrun officially reviewed France's armed forces at the Arc de Triomphe.

Unseen, a stranger's hand left upon the tomb of France's unknown dead a white wreath, "from Germany's unknown soldier."

Fire Causes \$100,000 Damage
CHICAGO, (AP)—A fire which raged for two hours last night destroyed the main building of the Seigel Lumber company on the west side and caused damages estimated by A. A. Siegel, president of the company, at \$100,000.

Stratosphere Flyers Crack All Records for Height Reached By Man in All Previous Attempts

Huge Balloon Lands Without Slightest Harm To Any of Delicate Instruments; Army Men Expect Flight Will Give Much Information

WHITE LAKE, S. D., Nov. 11 (AP) — A gentle landing by the world's largest balloon in a farm field near here late today successfully ended man's most sensational venture into the heights of the stratosphere—to an unofficially recorded altitude of 14 miles.

Two American army flyers, Captains Albert W. Stevens and Orvil A. Anderson—if later calibrations sustain their barometric computations of 74,000 feet as zenith of their soaring—the daring venture returned to America the world's altitude record

and brought back from the high unknown valuable additions to science's knowledge of the super-atmosphere.

Moves to Climax
Their epic feat, climaxing a six weeks long wait for favorable weather and compensation for two previous disappointments on their part, moved smoothly to its climax after the rocky wall of their camp's base was cleared—by only 50 feet—at 8 o'clock (CST) this morning.

They landed at 4:13 p. m. (CST), after eight hours and 13 minutes of adventure which thrilled a world, some 240 miles to the west and north of their camp near Rapid City, S. D.

"Not a Scratch"
"Not a scratch," was the word from the field about a dozen miles from here when the two climbed out of the gondola.

Henry Ubel, who had followed the balloon for several miles, was in the field when it landed. He said the metal ball dropped to the turf "like a feather, rolled over on its side and stopped."

"There was no bounce at all, Captain Stevens and Captain Anderson jumped to the ground and immediately began to inspect everything. They said they were delighted and they acted like they were 'tickled to death' with their success," he said.

Pull Rip Cord
"As soon as it hit they pulled the rip cord that deflated the balloon. There was no pull from the ground wind, which was slight," Ubel said.

Ubel added that no sooner had the flyers started to check over their equipment than the crowd of curious onlookers began to arrive. Meanwhile, 12 airplanes that had been following the balloon landed, and volunteers spread out the balloon fabric and roped off a space around the gondola.

Nothing Damaged
Captain Anderson said that nothing was damaged in the landing, that all the delicate scientific instruments were unharmed.

There was no report of damage by souvenir seekers such as the flyers encountered when they landed from the ill fated expedition into the stratosphere in 1934. At that time parts of the balloon fabric, pieces of metal from the wrecked gondola and bits of rope were taken by the souvenir hunters before the flyers, who were forced to "ball out," could arrive.

Chases Souvenir Hound
It was even reported at that time that one of the flyers was forced to chase one souvenir hunter who had taken a parachute for a "keepsake."

Telephone service into this little town was jammed far beyond capacity within a few minutes after the balloon landed and it was impossible to get service with the outside for more than an hour.

If the reading of recordings taken aloft sustain their 74,000-foot figure, it will mean that Stevens and Anderson surpassed by some 2,000 feet the hitherto unequalled—but never officially recognized—record claimed for a trio of Soviet airmen whose venture last year ended in their deaths.

**Thirty-Seven Appear
In City Police Court
On Various Charges**

Thirty-seven persons appeared before Mayor Thomas E. Martin in police court yesterday on charges ranging from intoxication to speeding as results of Homecoming festivities.

Fines totaling more than \$100 and costs were assessed in police court. Fourteen persons were charged with intoxication, nine were fined on a charge of malicious mischief, two appeared in police court for disturbing the peace, and the remainder of the cases were traffic violations and other minor arrests.

**Action Denied
On Application**

No action can be taken on the class B beer permit application of Alderman George Bouck of the third ward until a vacancy arises in the list of 23 class B places allowed by city ordinance and state law, Mayor Thomas E. Martin revealed last night.

Alderman Bouck entered his application for an establishment at 23 E. College street more than two weeks ago, basing his hopes for a permit on the possible surrender of Jess Taylor's permit for the Uptown cafe.

"The Taylor permit has not been surrendered and can not be taken up without cause," Mayor Martin said. "However, a ruling from the assistant attorney general states that the receivership is not eligible to sell beer under the Uptown Cafe while the permit is under Taylor's name."

**Quadrangle Men To
Vote in 11 Precincts**

Quadrangle men in 11 precincts will vote tonight in the annual election of conciliers.

Votes may be cast at any time between 7:30 and 10 o'clock in the polling place in the Quadrangle lounge, it was announced last night.

Annual Spree Will Reverse Usual Custom

Women Will Act As Escorts at U. W. A. Party Next Friday

By JANE NILES

It won't be corsages Friday night but boutonnières, for the university women are going to give the men the time of their lives. It's the night for the all time famous Spinsters' Spree.

Life at the University of Iowa will move a little faster when U. W. A. takes over the Union to show the campus men just how entertaining should be done.

Agnew to Play

With Homecoming weariness worn off, the 600 spinsters and their dates will get back into rhythmic dances with tunes played by Charlie Agnew and his orchestra from Chicago.

Dancing will stop only for intermission when the three most eligible bachelors on the campus will be presented by the party committee.

Girls Pick Dates

It is the one party of the semester when the girls pick their dates, and are given the opportunity to show them the way to spend a perfect evening. Dancing begins at 9 o'clock and will continue until midnight.

Four Best Hawkeye Sellers Will Vacation in Southland

Four University Coeds Will Speak Week's Vacation in South

New Orleans, the city of gaiety and... of charm and personality, will be host during the Christmas vacation to the four most vivacious University of Iowa coeds.

Night life tours, cabarets, night clubs, casinos, The French market and all the highlights of "America's Most Interesting City" will be the reward for those girls who labor most diligently to see that a picture history of this S.U.I. year will be had by all.

Teams of four girls, representing virtually every organization on the campus, will vie for the grand prize of the 1937 Hawkeye contest—a seven day all-expense tour to New Orleans and the Southland during the Christmas holidays.

The elaborate stage has been set! The gun is about to be fired, starting off some of the firmest Iowa supporters this school has ever known in a frenzied race down the stretch after a glorious prize.

Who will compose the fortunate quartet? Those exhibiting the most energy, vigor and enthusiasm in the thrilling battle to sell the 1937 Hawkeye.

The winner will be announced Dec. 14.

What Others Say Of New Orleans

Arthur Brisbane, dean of American newspapermen, reports, "If there are two wonderful cities in this country, New Orleans is one of them. The other is your home town. New Orleans... romantically old, energetically modern, city of sunlight, warmth, beauty, grace."

"Different and Distinct"

The late Will Rogers, beloved American humorist and philosopher, says, "I always told you there was just three towns in the whole of America that was different and distinct—New Orleans, Frisco and San Antonio. Each has got something that even the most persistent Chamber of Commerce can't standardize."

"Most Romantic City"

O. G. McIntyre, celebrated columnist, finds that "the most romantic city in America today is New Orleans, the one American city that is preserving the sweeping charm of its antiquity. New Orleans was fashioned for poets and love."

They Never Forget Strange, unique, picturesque, fascinating—these adjectives characterize New Orleans. Little wonder then that it has been called "America's Most Interesting City."

Winning Sorority To Receive Trophy, Miller Says

Ed Miller, business manager of the 1937 Hawkeye, with an eye for beautifying some sorority mantel has announced a sub-contest with the award of a huge silver plated, gold lined loving cup handsomely etched, and standing on a bakelite base.

To the sorority whose team turns in the greatest number of Hawkeye sales goes this beautiful traveling trophy. Each team from the sorority groups will be competing with teams from all organized groups of girls in the balance of the contest, but in the competition for this beautiful loving cup only the sorority teams will be seeking to be on top when the final hour rolls around Saturday, Dec. 14, at midnight.

The names of the four girls in the winning team will be engraved under the year 1937 on the traveling trophy.

In following this procedure the Hawkeye is setting a new precedent that will in later years prove to be most colorful.

Hawkeye Tour Train Leaves Chicago Depot For South on Dec. 26

Iowa's four championship Hawkeye sellers will leave Central station in Chicago at 9 a.m. Dec. 26 to speed smoothly southward from chilly wintry winds toward the cherry sunshine of the southlands.

The special train, carrying the winning Iowa girls and winners of other contests in midwestern states, will arrive at New Orleans the following evening after brief visits in Cincinnati, Louisville, St. Louis, and Memphis.

Sightseeing of New Orleans begins Dec. 28. The party will leave New Orleans at 8:30 a.m. Dec. 31.

cinating—these adjectives characterize New Orleans. Little wonder then that it has been called "America's Most Interesting City."

Few who have ever spent time in New Orleans will ever forget it. It leaves an experience etched upon the mind that nothing can erase. New Orleans weaves a spell around you. The threads reach out vast distances to bring you back once again. You simply succumb to its "magic spell."

New World In One City

S. U. I. Saleswomen Will Tour All Parts Of Famous City

Hawkeye champions will enjoy and thrill in a Christmas vacation filled with seven days and nights of what some would call a new world all wrapped up in one city; America's most interesting city with its old French, Spanish and Creole quarter; the modern New Orleans with its beautiful residential district and Lake Pontchartrain; its historically interesting points, including Chalmette Battlefield, River Wharves, Old Vieux Carre; and last but not least, New Orleans' Night Life.

The Creole quarter is the old part of New Orleans, dating back almost to the beginning of American history, and has an atmosphere that is distinctly its own. Artists and poets have thrilled to its splendor and indeed every visitor is impressed by its quaint, old world beauty.

Within the confines of a few blocks, international history lay in the making. Near this spot French colonists landed. Here Napoleon's followers planned to house him in the new world.

Upon that curious sunny courtyard dancing feet have tapped gay, fantastic rhythms. Behind that lattice window, the Creole belle of yesterday thrilled to her lover's serenade. Nowhere else in all America will you find anything like it. A bit of Paris—a bit of Spanish splendor set down amongst us for you to see and enjoy. New Orleans' parks, public buildings, landmarks, monuments, gardens, tree lined boulevards, Lake Pontchartrain, the business and residential districts are interesting sights.

For they, too, are unusual and in direct contrast to what you see in the Vieux Carre. Along the highways roses bloom in December and trees are green the year 'round. Here is almost tropical splendor.

Everybody can have a good time in New Orleans. No other city in America weaves such a glamorous

big party will take place in Memphis.

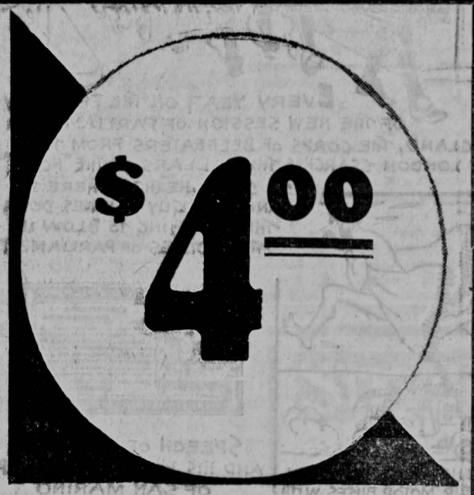

After bathing in the warm waters of the Gulf and lolling upon the warm sandy beach under the rays of Old Sol and the last big night in New Orleans, the champions will board the Illinois Central de luxe train at 8:30 a.m. and arrive in Memphis at 7:15 p.m., having had lunch and dinner in the dining car.

On arriving in Memphis the champions will be whisked away from the station in taxi cabs to the Chiska Hotel where rooms and bath will be assigned and the girls will dress for the New Year's Eve celebration.

The Illinois Central railroad has made great plans for this hilarious evening and assure the Hawkeye business manager that the girls will be treated wonderfully.

The Girls

The girls composing the teams in this new contest are the liveliest girls in their respective groups and are deserving of the admiration and respect of the entire campus for their pep and enthusiasm in putting over the best yearbook in the Middle West and the Big Ten. Give them your support; pick your favorite team now.

BEAUTY CONTEST

In answer to many suggestions the 1937 HAWKEYE has revamped the selection of the six Iowa Beauties. This year any person may enter the picture of any girl registered in the University in the Hawkeye Beauty Contest. From the total number entered twenty girls will be nominated by the persons purchasing Hawkeyes. Each purchaser of a Hawkeye receives one hundred votes and should cast this vote for his or her favorite entered in the Beauty Contest.

1937 HAWKEYE

The Hawkeye of last year was heralded the country over as the new and different yearbook with pages chuck full of pictures. The 1937 Hawkeye will have even more pictures and will be dressed up with color and art.

A One Minute Lesson

YESTERDAY AT 11 a.m. the eyes of a nation turned east for a moment's tribute to its war dead. From the president of the United States to the humblest beggar—from the greatest city to the tiniest village came a universal sentiment of homage.

Parades, orations, and flying colors created impressive spectacles as the American citizen laid aside his work for a moment of meditation. Yet, for many this feeling lasts only for the day.

Still there are some who will never forget the war. From the hearts of mothers who have lost sons, from the gas-seared lungs of the unfortunate veteran, from the minds of the shell-shocked and wounded comes a cry of anguish which falls upon the too deaf ears of most of us.

It is impossible for us to realize the depth of these feelings. We cannot weep with bereaved mothers and sweethearts. We cannot feel the pain and poverty of the wounded. We cannot refigure the battles of the war in our minds as men do from the beds of veterans hospitals.

Germany Completes the Cycle

GERMANY TODAY has completed a cycle. After the overthrow of the Kaiser, Germany had an interval of liberalism in which the long-strengthened concept of expansion through physical forces was subdued, and the ideals of liberty, peace, and equality had their short trial.

Now, Hitler, the Austrian whose mad faith is founded on force, wields the power that once was the Kaiser's and receives the personal oath of allegiance of each soldier of the reich.

Hitler, pledged to wipe out the disgrace the Germans feel the Versailles treaty imposed upon them, expands his army, incites into the German people that rigid discipline which made them the greatest military nation in the world in 1914.

Hitler may reap the same harvest that Kaiser did. But this cycle teaches a lesson that diplomats should well remember when the time comes for the imposition of another peace treaty.

Sixty-Six Years Of Collegiate Football

THE WORLD'S first football game. We can picture a little group of fans-to-be assembled on a bleak November day in 1869 at New Brunswick, N. J., to see the new football game in which Rutgers tore through Princeton for a 6 to 4 victory.

Saturday we actually saw 52,000 fans, equipped with warm clothing, robes, and field glasses yelling like crazy people at 22 fighting men on the green below.

gers to a friendly contest. Each team numbered 25 men. The first Football Intercollegiate Association was formed at Springfield, Mass., in 1875 with Columbia, Harvard, and Princeton as its charter members.

Helping To Avoid Confusion

TIME MARCHES on but certain persons are inclined to live in the past.

For instance, notices of university events are posted in university buildings prior to their occurrence. However, weeks and in some instances even months after functions take place, these placards still remain posted.

Yes, time marches on. Someone should be held responsible for removing these signs just as someone is assigned to post them.

University Songs and Loyalty

ONE PALPABLE flaw in the pep meetings conducted during Homecoming week was represented by the failure of students to participate wholeheartedly in the singing of university songs.

However, this was not due to lack of spirit but, strange to say, it's a pitiful fact that few University of Iowa students know their school songs.

School songs instill school spirit into the student body—songs give one the feeling of esprit de corps. The promotion of a spirit of oneness means much to the student as well as to the university.

Freshman lectures are required in the university curriculum. Why not make it compulsory for new students to learn the university songs as a part of these lectures?

What Others Think

We reprint the following without comment from Henry Ansley's column in the Amarillo Globe-News:

I like the depression. No more prosperity for me. I have had more fun since the depression started than I ever had in my life!

I like the depression. No more prosperity for me. I have had more fun since the depression started than I ever had in my life! I had forgotten how to live, what it meant to have real friends, what it was like to eat common every-day food.

Three years ago, only one man of the Globe-News organization could be out of town at a time and he had to leave at the last minute and get back as soon as possible.

I like the depression. I have time to visit my friends, to make new ones. Two years ago, when I went to a neighboring town, I always stayed at a hotel. Now I go home with my friends, stay all night, and enjoy home-cooking. I have spent the week end with some of the boys who have been kind enough to invite me.

It's great to drop into a store and feel that you can spend an hour or two or three or half a day just visiting and not feel that you are wasting valuable time. I like the depression.

I am getting acquainted with my neighbors. In the last six months I have become acquainted with folks who have been living next door to me for three years. I am following the Biblical admonition, "love your neighbors." One of my neighbors has one of the best looking wives I have ever seen. She is a dandy.

Three years ago I ordered clothes from a merchant-tailor—two, three suits at a time. All my clothes were good ones; I was always dressed up. But now I haven't bought a suit of clothes in two years. I am mighty proud of my Sunday-go-to-meeting clothes. When I dress up, I am dressed up, and I don't mean maybe. I like the depression.

I am feeling better since the depression. I take more exercise. I walk to town and a lot of folks who used to drive Cadillacs are walking with me. I like the depression.

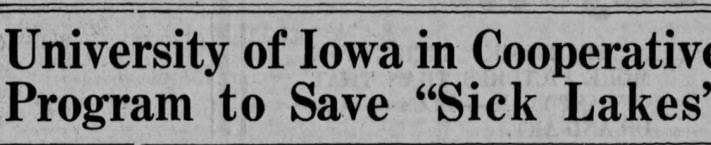

My indignation is better. I haven't been to see a doctor in a year. I can eat anything I want to.

I am getting real honest-to-goodness food. Three years ago we had a fllet mignon once a week, now we have round steak and flour gravy. Then we had roast breast of guinea hen, now we are glad to get sow-bosom with the buttons on it.

University of Iowa in Cooperative Program to Save "Sick Lakes"

(Editor's Note)—This is the first in a series of four articles on research carried on at Lakeside laboratory, a project of the University of Iowa, during the last summer. The biological survey is planning a cooperative enterprise with the University of Iowa, and the Iowa conservation department to save the sick lakes of the north central states.

By WILSON TAYLOR toward each other, and they would sink themselves into the gill. Because of the microscopic wounds he made, spores were able to attack the skin of the fish. Very high mortality rates were found in most of the fish studied.

Dozens of varieties of unarmed flukes lived in the intestinal tracts. The total number of these types have never been determined; many of them are entirely new to science. The life cycles of each generation of these flukes are very complex—only one stage of their lives being spent in the fish's body.

Research Barely Begun According to L. O. Nolf, assistant director of the Lakeside laboratory last summer, the research in this field has barely begun. To learn enough more about flukes to make the knowledge already acquired of any use, much more work remains to be done.

And, he said, the work must be done on a larger scale. Only four fish tanks were available last summer. More of every kind of equipment, including diving helmets, is needed in the future. Fish in Iowa lakes must be saved while there is still time.

Grubby fish, so far as known, are not common in Iowa; but neither were they always common in those northern lakes that fishermen now avoid. One type of internal parasite infecting the fishes there is a larval stage of tapeworm, and people who eat half-cooked fish so infected frequently grow the adult tapeworms in their own intestines.

Italo-League Problem Told By Kirby Page

Abolition of Empire Is Price of Peace Page Tells Peace Forum

"League sanctions against Italy will be utterly disastrous unless the nations can prove their purpose is not to preserve the status quo, but to arrange peaceably for drastic changes in the world order to relieve Italy of an intolerable situation," the Rev. Kirby Page said at the peace forum in Old Capitol last night.

The abolition of empire, including the British Empire, is the price of peace, the Rev. Mr. Page added in explaining that Article XIX in the covenant of the League of Nations provides for peaceable change of an intolerable situation has been ignored.

Must Face Fact: "Only when the nations still in the league face the fact that Japan and Germany have left the league, and Italy may withdraw at any time because their economic situation is intolerable," the Rev. Mr. Page asserted, "can they take any action to preserve the peace of the world."

War Inevitable: "Nine chances out of 10, he added, war is inevitable when doubts of security arise. The one chance for peace lies with the destruction of the system of empire. Great Britain, through the statement of her foreign minister, Sir Samuel Hoare, has taken the first step. Hoare said recently that England now desires Italy's position is intolerable, and is preparing to cooperate with her."

Infuriate Italy: "Unless the nations of the world do say to Italy, 'We are willing to make a sacrifice to do away with the system of empire, and we are determined that you shall cooperate with us in this change,' their sanctions will only infuriate Italy," Page asserted. "Sanctions for the purpose of 'freezing the status quo' are recognized by rebellious nations and their people will only glory in resistance to such coercion."

Speaks at Mass Meeting: At a community mass meeting in the American Legion building yesterday afternoon, the Rev. Mr. Page discussed specific action for the United States to take in preparing for peace. He maintained that we cannot sit back and moralize on stealing when nations know that we got what we have now by stealing. "We can't build tariff walls, increase our navy, refuse to participate in the League of Nations and the World court, without isolating ourselves from any constructive action that may be taken in the world to prevent war."

DeMolay Order: Iowa City chapter of Order of DeMolay will not conduct its regular business meeting this evening. All members who are interested in going to Washington, Ia., may report at the Masonic temple before 6:30 p.m.

W.A.A. Coffee Hour: The second coffee hour planned by the W.A.A. as a social meeting for faculty and women students will be in Iowa Union this afternoon from 4 o'clock to 6 o'clock. Faculty members of the home economics department will be in attendance.

Next Monday Ted Shawn and his ensemble of men dancers will present a program in Macbride hall auditorium under the auspices of Orchestral and Phi Epsilon Kappa, men's physical education fraternity. This will be Mr. Shawn's second performance in Iowa City.

Mr. Shawn and his company of eight male dancers have in a few years become internationally popular because of their unique programs. They comprise the only company in the world made up entirely of men dancers.

Mr. Shawn has created something new and essentially virile in the field of dancing, and in so doing, has built one of the most beautiful dance programs ever presented to modern audiences.

All of their dances were created by Mr. Shawn. There are religious dances, dances of primitive play and labor, and visualizations of music and dance epic based on the story

Seeks Suggestions

Ten years ago, in order to commemorate historical sites in the state of Iowa, the president of the Iowa Society of the Colonial Dames of America called for suggestions. Mrs. Leonard Everett of Council Bluffs received recognition for submitting the best proposal, a memorial to the site upon which the Lewis and Clark expedition first held council with the Indians.

One of the first encampments made by the Lewis and Clark expeditions, sent out by President Thomas Jefferson, was on the bluffs above the Missouri river near the present site of Council Bluffs.

Explore West

After the Louisiana Purchase went into effect, an expedition was sent out to explore the west and northwest portion of the territory. A conference was held with the Oto and Missouri Indian tribe on these bluffs in order to convey to them Jefferson's proclamation that the United States owned that property upon which the Indians were living.

Because of this council on the bluffs the future city was so named.

Visual Education Department Gets Six Geology Films

Six new geology films, the first of their kind, have just been received by Lee W. Cochran of the visual education department. These "talkies" form part of an extensive series in the physical sciences, prepared by specialists to supplement lectures at the University of Chicago.

Scenes of mountains, volcanoes, ice caves, and glaciers, from all parts of the world, are interspersed with animated drawings and maps to explain the work of rivers, wind, ice, ground water, and mountain building. The films are planned for beginning classes in geology. The organization of material is far superior to any geology films ever

attempted before, according to Mr. Cochran.

Dean George F. Kay of the college of liberal arts, an authority on geology, says, "Prof. Carey Cronels, who supervised the making of these pictures illustrated splendidly the geological features with which he deals."

Prof. C. C. Josey, head of the philosophy and psychology departments at the University of South Dakota, will lecture before the Philosophical club this evening at 8 o'clock in room E105, East hall on "The Reconstruction of Religion."

He will discuss contemporary religion from the point of view of psychology and the decline of certain religious practices.

For many years a teacher and research worker in psychology and religion, Professor Josey is the author of "The Psychology of Religion," "The Social Philosophy of Instinct," and "Race and National Solidarity."

funds for such a memorial, and upon taking action to this effect they received individual contributions within the society and aid from government relief agencies.

Mrs. Everett has been chairman of the committee, instrumental in securing completion of the memorial, assisted by Mrs. George Watson of Davenport and Mrs. Henning Larsen of Iowa City.

Heretofore, all contributions from the Iowa society have gone to national causes. This is the first project it has completed in the state of Iowa.

STANDARD RED CROWN

THE FASTEST-STARTING GASOLINE IN STANDARD OIL HISTORY HAS ARRIVED

35% QUICKER WARM-UP WITH NEW STANDARD RED CROWN
AT THE PRICE OF "REGULAR" GASOLINE

SOME surprising new discoveries have been made recently about what it takes to start a cold automobile engine—start it and warm it up to full, smooth drive-away power faster.

For many years Standard's research staff has been at work on this problem. Not satisfied with laboratory experiment alone, they have conducted thousands of road tests—in all sorts of temperatures—using all sorts of gasoline formulas.

And now they come forward with a motor fuel that is different, in many respects,

It's ready in the pumps now—where you see the sign of STANDARD OIL SERVICE.

One suggestion: Because this new Double-Quick gasoline does turn on full power in a cold engine so quickly, the use of a light grade of winter motor oil is desirable to assure instant, active lubrication of all moving parts. Iso-Vis "D"—10-W or 20-W—is a perfect running mate for the new Standard Red Crown.

SEASONS will pass before fans will witness a game so fraught with hard, sharp blocking and dead-end tackling as the Iowa-Minnesota contest Saturday.

Iowa coaches will have to battle desperately to ward off a let-down which usually follows a grueling battle. So will the Minnesota mentors.

Johnny Hild came into his own against Minnesota. Always known for his manly defensive game, the Hedrick junior displayed adeptness at toting the pigskin.

Hild counted twice in the opening game of the season against Bradley, but strangely, he was not permitted to carry the ball after that.

Sheer grit kept Dick Crayne in the battle. His leg pained him so and he was so near exhaustion, he all but collapsed on the field.

The Gopher game has been played; Purdue is next on the "take 'em as they come" schedule.

Sheldon Beise and George Roscoe opined to us after the game here that the Hawkeyes, if they played the same fighting game again, would surmount the Boilermakers.

Despite the shutout by the Badgers, the Purdue running game is one of the strongest in the loop.

VOGEL REPORTS PURDUE IS POWERFUL

Scout Reports Purdue Ready For Hawkeyes

Solem Schedules Chalk Talk in Place Of Field Workout

"Purdue has a fast, hard charging line and a fine set of backs," said Coach Otto Vogel, who scouted the Boilermakers in their upset loss to Wisconsin Saturday.

"Saturday will be their Homecoming and they will be keyed to the utmost for an upset. All the regulars, including Burmeister and Isbell, who were out of the Wisconsin contest, will be ready for action.

Schedule Chalk Talk Fearing the Boilermakers, Coach Ossie Solem scheduled an immediate chalk talk for last night in place of a limbering-up drill on a snow-covered, soggy gridiron.

No serious injuries were reported by Dr. W. W. Hayne as a result of the Gopher game Saturday, although Capt. Dick Crayne's foot was far from healed and Ted Osmaloski suffered additional strain to pulled leg muscles.

Solem Satisfied With Line Coach Solem expressed satisfaction with the play of both the Hawkeye line and backfield and it is likely that the two new men, DeHeer and Liggett, will occupy starting positions against the Riveters.

The game with Purdue is the first of two consecutive games away from home. Northwestern will be met at Evanston Nov. 23, concluding the season's schedule.

Iowa's six seniors recall the last visit to Lafayette when, in 1933, the team upset the forecasts of all experts and whipped Purdue, 14 to 6 to knock the Boilermakers from a share of the title.

Hawks Outgain Rivals Statistics compiled for the first six games show the Hawkeyes have traveled 1,628 yards from scrimmage against 954 for their opponents.

The Hawkeyes have completed 12 of 40 forward passes, intercepted 12 of their rivals' 68, and lost 250 yards on penalties as compared to 167 for their opponents.

Ozzie Simmons leads the ground gainers with 533 yards, 49 more yards than the combined totals of Dick Bowlin and Dick Crayne.

Interest Over Iowa-Purdue Battle at Peak LAFAYETTE, Ind., Nov. 11—Few games scheduled in the Ross-Adé stadium here have captured the advance interest that has been shown in the Purdue-Iowa battle that will be played Saturday, as the feature of the annual "Dad's day" festivities at the Boilermaker institution.

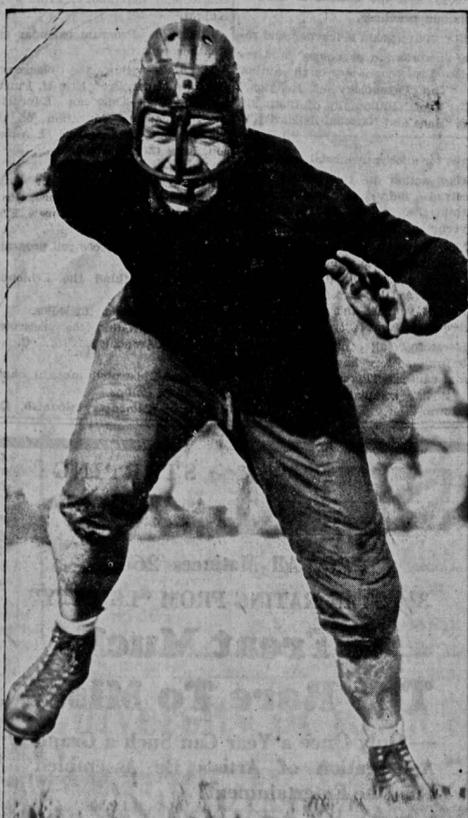

The spectacular prospects involved in the clash of two of the Big Ten's most colorful attacks, with Ozzie Simmons, the Hawkeye's great colored back, matched against Tom McGannon and Cecil Isbell, the Boilermakers' flash runners, and John Drake matched against Dick Crayne as a power plunger, have stimulated the advance interest in the game to the point where the over-the-counter sale of tickets has already been launched a week ahead of the normal time.

Although there are still plenty of good tickets available, Ticket Manager C. S. Doan pointed out that the early rush indicates that next Saturday will find the choice seats rapidly dwindling, and that if the sale continues to pick up at its present rate a near-capacity crowd is in prospect.

The abnormally early rush for tickets brings to mind the ticket rush for the Purdue-Iowa game played here six years ago when the Big Ten title hinged on the outcome. However, at that time there were only a little over 13,000 seats in the concrete stands, as compared with 23,074 at the present time.

FACES HAWKS SATURDAY

Forrest Burmeister, 230 pound Purdue tackle from Davenport high school, will face the Hawkeyes in the Homecoming battle at Lafayette Saturday.

Purdue Works Despite Holiday

Regulars Look on While Freshmen Demonstrate Hawkeye Plays

LAFAYETTE, Ind., Nov. 11 (AP)—Amistice day was no holiday for Purdue university's Boilermakers. Coach Noble Kizer had the entire football squad out, although the field was soggy.

Assistant Coach Dutch Fehring who scouted the Iowa-Minnesota game Saturday, brought back a report that Purdue could look for a tough battle.

Fehring said that around Ozzie Simmons and Dick Crayne the Hawkeyes had built one of the best running attacks in the middle west, and warned they would test the Purdue line to the limit.

Blue Cagers Begin Drilling For Loop Tilts

After a protracted delay that has lasted since last Thursday, University high's cage hopefuls will don their shorts again today in continuation of the season's work.

Coach Joy Kistler, assisted by Herb Canine, will start the season in earnest this afternoon. Only two previous workouts have been taken by the squad and both have been occupied more with instructions than with actual work.

Kistler's basketballers still have a month before their opening performance against St. Pat's on Dec. 13. However, the team will be made largely of green players and the coaches face a struggle to get the men in shape by the season's opening.

Merten Drills Little Hawks For Opening

Keen Competition For Regular Duty on 1st 5 Faces Aspirants

Coach Francis Merten's Little Hawks have begun to round into shape for their opening cage battle the last of the month. Coaches Merten and Cormack are still experimenting around for capable starting members.

Yesterday afternoon Merten used about a dozen men in juggling his material to find a suitable combination.

Dick Amrine and Alvin Miller were working at the pivot posts most frequently. Paul Ross, Jerry Pooler, Kenny Jones and Jens Norgaard were the quartet of guards seeing most action.

Hawkeye Poultry Run Slated Today On Finkbine Course

Iowa's hungry Hawkeye runners will have a chance to satisfy their inward cravings this afternoon in the annual Hawkeye Run over the Finkbine course for the poultry prizes.

A live turkey will be given to the winner along with the traveling trophy. Second place will receive a live goose; third, a duck; fourth, a rooster, and fifth, a hen.

This race will be run over the regular high school 1.9 mile course, and anyone may enter except men who have competed on varsity cross country team and "T" winners in track.

Mustangs Down California

Old Professor Honors Star Pupils, Waldorf and Bierman, For Saturday Performances

CHICAGO, Nov. 11 (AP)—The Old Professor awoke with a jump at dawn today to get his room all dressed up for his Monday morning class for Big Ten football coaches.

With the assistance of Doc Spears and Francis Schmidt, the Old Professor really went to town as a decorator. Dancing about merrily, he festooned the classroom with Purple drapings, placed miniature Wildcats on each desk, and hung a life sized portrait of Lynn Waldorf on the big blackboard behind his chair.

Waldorf Does It Professor: "Glorious, what a day this is. The Big Ten has finally beaten Notre Dame. And our freshman, Lynn Waldorf of Northwestern, had to show us how. Before we start the recitations, I have a surprise for you. Lynn has agreed to autograph programs and so has our other star member, Mr. Bierman. Lynn, you've got us in the palm of your claws."

Waldorf: "Professor, this is the second proudest moment of my life. The first was Saturday afternoon when we beat those Irish. I was so darned thrilled that I couldn't talk for a couple minutes. It was a great victory, but what pleased me was the play of our seniors who have been taking it on the chin day after day and still grinning. I don't think we made a mistake all afternoon to beat a great Notre Dame team. The turning point came when Paul Tangora recovered that Irish fumble on their 20-yard line to open the way for that winning touchdown. Professor, our scouts tell us that Wisconsin really is developing by leaps and bounds, so we're worried about a let-down."

Send Pig to Thompson Professor: "I'll believe anything you say hereafter, Lynn. Last week you said you had a chance to beat Notre Dame and you did. Bernie, the governor of Iowa should send that pig to Tuffy Thompson and Sheldon Beise instead of to Governor Olson."

Little Brown Jug Harry Klink, Michigan: "We'll try to forget what happened at Illinois and think about the little brown jug."

Battaglia Stops Pirrone PHILADELPHIA (AP)—Frank Battaglia, Canadian battler, stopped Paul Pirrone, Cleveland puncher, in five rounds over the technical knockout route last night in a bout Middleweight Champion Babe Risko had said would decide the next challenger for his crown.

Texans Ride To Victory Upon Passing Attack

50,000 Persons Marvel At Sparkling Aerial Game of S.M.U.

LOS ANGELES, Nov. 11 (AP)—Southern Methodist university's Mustangs galloped all over the big Memorial coliseum today to defeat the University of California at Los Angeles, 21 to 0.

Fifty thousand spectators marveled at the forward passing magic of the Texans who threw the ball with abandon from first to last.

Constant Threat Although the visitors scored only one touchdown—their first—directly through the medium of a forward pass, the overhead game was a constant threat. Time after time the Pacific coast team stopped drives on its goal after passes had sent the Methodists inside the 20 yard line.

Wilson Stars Bobby Wilson, S.M.U.'s fast stepping halfback, played a great game for the winners although he succeeded in getting away for only one of his sensational dashes. He ran and passed, however, until the California players grew very tired of the sight of him. He averaged six yards a try in carrying the ball.

Shuford Injures Knee Harry Shuford, plunging fullback of S.M.U., suffered an injured knee in the third quarter and was carried from the field. Bill Murphy, U.C.L.A.'s smart quarterback, was hurt late in the second period and was unable to play in the second half.

The visitors showed superiority over their opponents in every department of play, except in punting, where a very slight advantage went to the losers, with U.C.L.A. averaging 42.4 and S.M.U. 42 yards.

The winners ran up a total of 17 first downs to seven for the losers and gained a total of 385 yards to 144.

Central 11 Whips Penn 18-0 Before Homecoming Crowd OSKALOOSA, Iowa, Nov. 11 (AP)—The Central college football team took advantage of the opportunities here today and won an 18 to 0 victory from Penn college before a Homecoming crowd.

It is possible, however, that the final check-up will reveal a new stadium record, Galher said. He declared that there were more people in the permanent stands last Saturday than a year ago, but possibly fewer at the ends.

These are the approximate attendance figures for each of Iowa's games to date, as given by Galher: Bradley Tech at Iowa City, 8,000; South Dakota at Iowa City, 8,000; Colgate at Iowa City, 28,000; Illinois at Champaign, 25,000; Indiana at Iowa City, 29,000; and Minnesota at Iowa City, 52,000.

Central 11 Whips Penn 18-0 Before Homecoming Crowd OSKALOOSA, Iowa, Nov. 11 (AP)—The Central college football team took advantage of the opportunities here today and won an 18 to 0 victory from Penn college before a Homecoming crowd.

The Quakers played on fairly even terms but could not find a scoring play when they got within sight of the goal line.

Top Flight Teams Face Heavy Week End Barrages

Tilts Involve Rivalries Of Long Standing

All Go Up Against Teams Which Have Nothing To Lose

NEW YORK, Nov. 11 (AP) — There's no Armistice this week on the college gridiron battlefront. With the exception of California and Princeton, which have relatively light assignments next Saturday, the top flight of unbeaten and untied aggregations face a heavy barrage.

This applies especially to such leaders as Minnesota, Dartmouth, North Carolina, Syracuse, Marquette and Texas Christian, because all will go up against teams which have nothing to lose and can consequently "shoot the works." Northwestern, as well as Wisconsin, demonstrated quite impressively last Saturday what can be done by the underdog under such circumstances.

The fact that several of the outstanding matches involve long standing rivalries contributes to the uncertainty. There's nothing like tradition or "poison ivy" to make things uncomfortable for a football favorite. Yale's upset of Princeton last year—the only defeat for the Tigers, incidentally, over a three year period—is an example of what an ancient feud can develop.

Syracuse carries an unblemished record into this Saturday's battle with Colgate, for the third time in five years, but every follower of the Orange has his fingers crossed. Dartmouth should overpower a Cornell team that has not scored a victory in five starts but this is another old rivalry where reverse English is often applied to the "hope."

Minnesota, dominating the middle-west for the second straight year, has every reason to "fear" Michigan, especially as the game will be played on the home grounds of the Wolverines at Ann Arbor.

North Carolina, so far bearing all the earmarks of being the south's "team of the year," runs a risk in invading the stronghold of twice beaten Duke.

Texas Christian, co-leader in the southwest conference, may be lucky to escape with its unblemished record intact after tangling with Texas. Marquette, sidestepping no good arguments, carries another unbeaten record into action this Saturday, against Temple.

Notre Dame's winning streak has been snapped, but that won't keep the biggest crowd of the eastern season from pouring into the Yankee stadium to see the fighting Irish renew a colorful rivalry with Army's twice beaten team.

Pittsburgh, entertaining Nebraska's newly crowned Big Six champions, looks to have the edge in another outstanding intersectional affair.

Louisiana State, if it can turn back Georgia's aerial circus this Saturday, looms as a likely choice to represent the south in the Sugar Bowl game at New Orleans on New Year's day.

Ducats for Purdue And Northwestern Games Are Ready

Tickets for the University of Iowa's last two football games—500 for Purdue and 2,500 for Northwestern—have been placed on sale at the department of athletics.

Purdue tickets, each selling at \$2.25, may be ordered by mail up to Thursday, while the Northwestern tickets will be on sale up to Nov. 22 at \$2.50.

Few Hawkeye supporters are expected to see the Purdue game at Lafayette Saturday, but the season's finale with Northwestern at Evanston Nov. 23 probably will attract a large crowd.

THIMBLE THEATER STARRING POPEYE

Hawk Cagers Get Long Drill Under Will'ms

A long offensive drill was the order of the day for the University of Iowa basketball team as they went through their paces yesterday afternoon at the fieldhouse.

Coach Rollie Williams picked two teams and had them go through a rather lengthy drill. Defensive measures were forgotten for the moment as the boys polished up their offensive maneuvers.

Williams paced his crew through all of the plays that they have received so far. He paid particular attention to the work of the guards where Ken Suesens and Wally Gaddis were given instructions on feeding the ball to the forwards.

Suesens and Gaddis were also given instructions in the art of dribbling and in ball handling.

Capt. John Barko was absent from practice and in his stead was Dave Bolotin, a diminutive forward who greatly resembles Sid Rosenthal both in physical looks and basketball style.

Matt Walsh and Jack Drees alternated at center. Walsh showed to good advantage underneath the basket where he converted many rebounds off the board into points for his team.

No first string has been chosen as yet and all the boys are being switched around to enable the coaches to find the best possible working combination. Those who have shown the most so far and seem to have a possible inside track are Rosenthal and Barko, forwards, Drees and Walsh, centers, Suesens, Thompson and Bus at the guards.

Veenker Satisfied With Football Team

AMES, Iowa, Nov. 11 (AP)—Optimistic even in defeat, Coach George Veenker expressed satisfaction with Iowa State's general performance against Kansas State here today but he decried the lack of Cyclone scoring punch.

The Cyclones came out of the Kansas State encounter with no injuries and were given only a chalk talk and scout report of Drake, their next opponent.

Wilson lost a yard and then finally surged forward enough to get the ball over the goal line.

The final quarter was made possible by teamwork between Ranspot and Finley. Ranspot intercepted a pass in midfield, ran 20 yards and then threw a lateral pass to Finley, who ran across the goal line behind sensational interference. Orr kicked goal.

23 Report For Initial St. Pat's Cage Practice

Father Ryan Pleased With Speed, Size And Experience of Irish

St. Pat's initial basketball practice yesterday emphasized the fact that the Irish have everything it takes to make a winning ball club; namely, height, speed, deceptive floor work and experience. Twenty-three men, six of them veterans, reported to Coach Ryan for the largest turnout at the Shamrock institution in years.

Fundamentals occupied the attention of the south-side basketballers as Father Ryan instructed his men in their fine points of the game such as shooting with the left hand, dribble in shots, pivoting and passing. Most of the Irish showed their ability to learn quickly and willingly for the competition is keen this year.

Open Season Dec. 4

In three weeks the Shamrockers meet their first trial when they encounter Oxford here Dec. 4. The Oxford aggregation will meet a veteran team as St. Pat's has Leuz, Healy, Carrigg, Patterson, Coen and yers from last year's outfit. In addition to these experienced men, Coach Ryan is expecting results from Demery, Pinney and Floehinger.

The hoopers who put in their appearance yesterday were: Carrigg, Patterson, Byers, Healy, Coen, Leuz, Carmody, the Gatens brothers, Elbert, Nabish, Bradley, Gutierrez, Pinney, Neuhauer, Pugh, Connors, Hogan, Quinlan, Demery, Regan, Aaron, Scheetz, Love and Don Black.

The Schedule:

St. Pat's schedule for the coming season is:

Dec. 4—Oxford, here.

Dec. 8—St. Pat's (C.R.), there.

Dec. 13—University high, there.

23 Report For Initial St. Pat's Cage Practice

Father Ryan Pleased With Speed, Size And Experience of Irish

St. Pat's initial basketball practice yesterday emphasized the fact that the Irish have everything it takes to make a winning ball club; namely, height, speed, deceptive floor work and experience. Twenty-three men, six of them veterans, reported to Coach Ryan for the largest turnout at the Shamrock institution in years.

Fundamentals occupied the attention of the south-side basketballers as Father Ryan instructed his men in their fine points of the game such as shooting with the left hand, dribble in shots, pivoting and passing. Most of the Irish showed their ability to learn quickly and willingly for the competition is keen this year.

Open Season Dec. 4

In three weeks the Shamrockers meet their first trial when they encounter Oxford here Dec. 4. The Oxford aggregation will meet a veteran team as St. Pat's has Leuz, Healy, Carrigg, Patterson, Coen and yers from last year's outfit. In addition to these experienced men, Coach Ryan is expecting results from Demery, Pinney and Floehinger.

The hoopers who put in their appearance yesterday were: Carrigg, Patterson, Byers, Healy, Coen, Leuz, Carmody, the Gatens brothers, Elbert, Nabish, Bradley, Gutierrez, Pinney, Neuhauer, Pugh, Connors, Hogan, Quinlan, Demery, Regan, Aaron, Scheetz, Love and Don Black.

Legion Women Will Sponsor Amateur Night

Local Show Will Be Part of State-Wide Search for Talent

As part of a state-wide search for youthful amateur talent, the women's auxiliary of the American Legion will sponsor a local amateur night in the Legion building at 7:30 Monday night, Mrs. Ellis Crawford, 45 Highland drive, announced yesterday.

Started in Dallas Center

The contest, divided into local and district tryouts and state finals, was originated by Esther Thompson of Dallas Center, state radio chairman of the auxiliary.

Entrants must be under 18 years of age, and any kind of entertainment, with the exception of tap dancing, will be accepted. Contestants are also required to limit their performances to three minutes.

Compete Against Others

Local contest winners will compete against winners of other local contests in district semi-finals, the winners of which will enter the state finals, from which Iowa's champion amateur will be chosen.

The rules for the local contest follow:

1. All entrants must be under 18 years of age.
2. Any kind of entertainment, except tap dancing, will be allowed.
3. The performance must not last more than three minutes.
4. Groups will be considered as units.
5. All decisions will be made by popular vote.
