"Valley Forge" Pleases

Capacity Crowd Sees University Theater Give Maxwell Anderson's Revolutionary Drama

University theater proved the full effect of poetic verse in Maxwell Anderson's excellent historical production, "Valley Forge," presented before a capacity crowd in Macbride auditorium last night. The poetic verse developed in Anderson's earlier plays, "Elizabeth the Queen," and "Mary of Scotland," more matured in "Valley Forge," and carried to even greater heights in the definitely poetic "Winterset."

Rich humor, and pathos contributed to the account of the soldiers of Washington's army, who fought for "liberty and the curfew of kings." The play presents a vivid account of the stirring months of the revolution, fought with greatest difficulty because of a misunderstanding, congress, poor rations, and dissatisfaction within the ranks.
