Tax Quiz Splits Treasury; Two Officials Quit

Dispute Flares Over Order To Name Dodgers

Attorneys Given Choice Of Obeying Chief Or Resigning

WASHINGTON, Sept. 16 (AP) — A clash over administration methods in Congress today was turned over to the Justice Department's advisory committee, which has now been a consultative member.

The dispute, which began a few days ago, involved the issue of whether it was proper to use a 'tax quiz' to determine the value of property owned by Japanese nationals. The committee, which has members from the Treasury Department, was asked to review the matter.

The Justice Department, which is headed by U.S. Attorney General, declared that it would not participate in the investigation.

Meanwhile, in a separate development, the committee was asked to consider whether it was proper to use a 'tax quiz' to determine the value of property owned by Japanese nationals.

Protamine Insulin Makes For Easier Diabetic Treatments

PROCEEDINGS OF THE DAILY IOWAN
WEDNESDAY, JUNE 15, 1938

A New Yorker At Large

Dr. George V. C. New York, New York...a recent trend has been away from taking insulin to keep them more nearly normal. Newer, more simple tests have been introduced, and the burden of the test has been lifted. Perhaps it is impossible to say. But I must confess that I have been inspiring me throughout the years. Not an I.O.U. of the present, but a justly or justly so one of me. But a justly or justly one of the measures of the federal government. Some have been taken. The burden of the test has been lifted. Perhaps it is impossible to say. But I must confess that I have been inspiring me throughout the years. Not an I.O.U. of the present, but a justly or justly so one of me. $2,032 Tax Met By Johnson County People

Auto Buyers Assessed Under New Law of New Low

Johnson county residents purchasing new autos in the state will have to account for the recent sales tax increase. The law went into effect July 1, and the tax was imposed by the General Assembly last spring. The tax is $1.00 on every $100 of price, and it applies to all vehicles sold for $100 or more. The tax covers new cars, used cars, and motorcycles.

The sales tax was designed to help reduce the state's budget deficit and provide funds for various state programs, including education and transportation. It has been controversial, with some critics arguing that it is a regressive tax that disproportionately affects lower-income residents. However, proponents argue that it is necessary to balance the state's budget and provide essential services.
