Hawks Seek First Win Today Against Strong Bradley 11

Predict 13,000 To See Game This Afternoon

Probable Line-Up Has Five Sophomores Starting Game

Many who be present will be at the Iowa-Bradley basketball game at 2:30 p.m. today to watch the first win of the season for the Hawkeyes. The probable lineup has five sophomores.

Crown of 500 Joins In Opening of 1937 New Era in Iowa

An astonished crowd of 500 braved a cold wind and the University Stadium for the opening game of the season yesterday, with the Hawkeyes scoring a 22-12 victory over Frankfort in the season opener. Many at the game were surprised to see a new television set up in the stadium.

Bob Lannon, a Freshman, said that he was impressed with the crowd's enthusiasm. "I've never seen so many people in the stadium before," he said. "It's really amazing how much this game means to the fans."
Drinking of Hard Water Does Not Harm Healthy Individual

By LOGAN CLINNEDEN, M.D.

It hard water does not harm healthy individual.

This common prejudice is based on the theory that hard water contains a single harmful element, but actually it contains a number of substances which may be harmful when present in large quantities. The most common harmful element found in hard water is calcium and magnesium salts.

Hard water is calculated in units called degrees of hardness. Each degree of hardness is equal to 10 parts per million of calcium and magnesium salts. The average hardness of water in Iowa is 4 to 6 degrees.

The best way to judge whether your water is hard is to observe the deposit that forms on the inside of the water heater. If the deposit is white, it is likely that your water is hard.

Robert L. Roper's "Enormous Rooms," which will be repeated Tuesday night, is an unusual sort of technical story. It is a story of the lives of two men who live in enormous rooms, each of which is equal to a whole city block.

The first man, Mr. Roper, is a member of a family of over a thousand persons living in an enormous room. The second man, Mr. Smith, is a member of a family of over a thousand persons living in another enormous room. They are both life-long residents of these enormous rooms.

The story of Mr. Roper's enormously room is told in the first part of the story. The story of Mr. Smith's enormous room is told in the second part of the story.

Rev. McEvoy Will Attend Convention

The Rev. Richard E. McEvoy, superintendent of the Iowa city public schools, will attend the annual convention of the National Education Association in Chicago this week.

The convention will be held from July 10 to 14, and will be attended by over 10,000 delegates from all parts of the country.

Mr. McEvoy will be in attendance to discuss educational problems and to present the views of the Iowa city public schools on various educational issues.

Alice Stark as
Giants' Blow

BY ALAN GOULD

NEW YORK, Oct. 8 (AP)—The world's
class ball game is on. Stay tuned—through
gaping holes in the bat once the smoke
goes up—through the long, long cosmetic
run. It is all the worst you can imagine.

The Yankees in small, made-
up form, made up on their
tentative potential. They had the same
potential, and the same aplomb, as a
shambling little fellow who gained one
decision and who was never seen in
eightball play.

Their pitching opponent will be
1936 NL champion Pittsburgh. In
centerfield is Lewis, the hander who gained
one decision his first year. His pitching
was not bad, but no one will ever
remember his name. He was never
remembered by those who saw him
complete the worst rout ever
in baseball history. It was
nearly

"Expert" Picks Iowa To Beat Bradley Tech

55,000 To See Trojans Battle Backeyes At Los Angeles

E. HUGH S. FULLERTON, 24.

By a vote of 2-1, the Denver coach gave his pick to Iowa to beat Bradley Tech at Los Angeles Saturday.

"I don't believe Iowa is a team that is up on Bradley Tech," Fullerton said. "Bradley Tech is a strong team, but Iowa has a great defense and a strong backfield.

"I think Iowa will win by a score of 14-7. Iowa's defense will be the key to the game."
You Can’t Take It With You!

The Story of Our Slogan

It was midnight when the night editor of a great New York newspaper stumbled into his chair for a little relaxation after putting the morning paper “to bed” on the big presses that roared out their endless string of paper. This edition was to be a big story, for the city’s foremost editor was dead. All day long the wires had been kept hot with incidents of this man’s unstable life, and the news staff of the paper had been taxed to its capacity to produce a fitting tribute to a noble life.

This man was esteemed by the rich and poor alike. Flags were at half-mast, and business men walked softly in their places of business. He had given largely to charity and benevolences, and when other industrialists sought refuge from the storm that was sure to follow, this man went about freely unprotected by its blast.

It was now two o’clock in the morning, and the night editor had fallen asleep, for the sound of great pressures was music to his ears. But there was a pull at his sleeve, and the man awakened. The copy boy stood before him with a piece of rough paper in his hand.

“What’s this?” exclaimed the editor, rubbing his eyes.

“A black-bearded man came to the door and gave it to me,” replied the boy; “said it was for the editor.”

The editor glanced at the title, and then at the signature. It was Joaquín Miller, the famous poet of the Far West! The editor rushed to the door and ran out into the street, but the eccentric genius had disappeared into the night.

Returning to his desk, the editor read the poem scrawled on a piece of wrapping paper. It was dedicated to the great man who had just passed on. Two lines—two burning lines which have since adorned the private domains of nearly every great philanthropist—riveted the attention of the editor, and these two lines caused the editor to stop the presses and emblazon the words on the front page of the paper. These were the lines:

"For All You Can Hold In Your Cold, Cold Hand---Is What You Have Given Away."

This is a thought that claims attention. A man is rich only through his charities. WHAT IS THE MEASURE OF YOUR WEALTH?
