C.I.O., A.F. of L. Delegations Fail In Peace Efforts

First Attempts For Settlement End in Failure

Tension Between Two Groups Growing, Test Today

WASHINGTON, Oct. 26 — The C.I.O. laid down its peace terms to the A.F. of L., today, asking such a broad grant of power over the American labor movement that rejection appeared inevitable.

Whether its demands constituted an ultimatum, or merely an asking price, remained for future negotiations to develop. A growing tension between the two groups was obvious, but a determination to work out a mutually acceptable formula was equally apparent.

Tomorrow, the federation will make a counter-proposition. Then will come the real test, whether each side is willing to make such concessions as will end the guerrilla warfare that has disrupted the labor movement for nearly two years.

Three Principles

- The C.I.O. asked three things:
1. That the federation adopt a basic policy that workers in mass production, marine, public utilities, service and basic fabricating industries be organized on an industrial basis.
 2. That the C.I.O. shall become a new and completely autonomous department of the federation, with a constitution of its own and sole jurisdiction over the workers enumerated above.
 3. That a convention attended by representatives of all American Federation of Labor and Committee for Industrial Organizations unions be called soon to ratify such an agreement and adopt regulations "to guarantee the fulfillment of the program."
- A C.I.O. official, Lee Pressman, general counsel, frankly told reporters a settlement on such a basis would probably give the C.I.O. control of the federation.
- "This seems to us to be a case where we would control the federation by sheer strength of numbers," he said.
- "They're proposing that the federation be taken into the C.I.O.," said a prominent A.F. of L. man.

Philip Murray

While yesterday, the conferees held two sessions, morning and afternoon, today there was only one and it was short. It recessed soon after Philip Murray of the United Mine Workers had read the C.I.O. stipulations.

The first to emerge from the hotel suite in which the conferees are taking place was Joseph Curran, hard-boiled leader of the maritime union and a former to'c'sie hand.

"How did Harrison like it?" he was asked. (George Harrison of the railway clerks is chief A.F. of L. spokesman.)

"He's still quivering," Curran replied.

Asks Party To Back Mahoney

NEW YORK, Oct. 26 (AP) — Postmaster General James A. Farley appealed tonight from the stump for Jeremiah T. Mahoney, democratic candidate for mayor of New York, bearing down hard on the theme of party faithfulness.

"The democratic party," he said in a prepared radio address, "... has won the right to ask the loyalty of its members."

His address was designed to stiffen the lines of the democratic faithful against Mayor F. H. LaGuardia, supported by a fusionist group running from republicans on the right to communists on the left.

Election day is Nov. 2.

The postmaster general did not seek to give Mahoney the essence of the new deal as such — although Clarence Low of the state democratic party had flatly called it "the opening gun..." of the new deal for Mahoney—but he did pay high compliment to the candidate's "unswerving loyalty to the new deal."

Brunken Claims He Received None Of National Bank Funds

DES MOINES, Oct. 26 (AP) — William Brunken, 28, bookkeeper of the First National Bank at Burlington, Iowa, said today that he did not receive any of the \$400,000 allegedly embezzled from the bank's funds by William Kurrle, 51.

Kurrle, former assistant cashier at the bank, is being held in Polk county jail in default of bond pending action of the federal grand jury.

Brunken, also being held in Polk county jail, was taken into custody yesterday for alleged "irregularities" in the bank's records.

Prof. Updegraff President

Prof. Ruth Updegraff of the Iowa Child Welfare Research station was elected president of the National Association of Nursery Education at the biennial conference of the association at Nashville, Tenn., recently. She will hold the office for two years.

Spokesmen Shake Hands at Parley

In a momentous peace meeting in Washington, spokesmen of the rival labor organizations, the American Federation of Labor and the Committee for Industrial Organization, join in an effort to heal the branch between the two.

George Harrison, left, A.F. of L. Steel Workers Organizing Committee and chief lieutenant of John L. Lewis, Homer Martin, president of the United Automobile Workers' union and a strong C.I.O. man. In the center is Philip Murray, chairman of the

Petitions Protest Cabins

By MERLE MILLER
Daily Iowan City Editor

University of Iowa faculty members and prominent Iowa Citizens yesterday joined hands to circulate two petitions—one to the board of adjustment and the other to the mayor and city council—protesting the proposal of Harvey Secor, roadhouse operator, to erect "tourist" cabins near the Casino roadhouse.

By last night each of the petitions had close to 500 names. The one addressed to the board of adjustment will be circulated today and tomorrow and is presented to the adjustment board at its meeting tomorrow night.

Plenty Hot Meeting

Several prominent local citizens, both businessmen and university officials and professors, told The Daily Iowan last night that they will be on hand at tomorrow night's meeting at the city hall. "It will be a plenty 'hot' meeting," one professor promised.

City Attorney Robert Larson is to read an opinion on the legality of allowing the Casino to be admitted to the business district so that the cabins can be erected.

Will Consider Again

The council—after having twice read an ordinance to allow the Casino in the business district—will consider the matter for a third reading Nov. 5.

Spurred on by a scandal at the University of Illinois at Champaign, where a student editor of the Daily Illini uncovered evidences of vice and gambling just outside the campus, university officials are determined there shall be no repetition on the Iowa campus.

Unfavorable Impression

Many local business men have pointed out that the erection of cabins near a roadhouse is "very bad."

Mountain Jury Frees Fabulous John Montague

ELIZABETHTOWN, N. Y., Oct. 26 (AP) — John Montague, fabulous Hollywood golfer, was acquitted tonight by an Adirondack Mountain jury of a seven year old robbery charge.

The verdict was announced after four and one half hours of deliberation.

A crowd of nearly 100 natives of this summer resort town remained awake long after their usual bedtime to hear the verdict.

When the jury filed into the courtroom where John Brown's body once lay in state, County Judge Harry E. Owen inquired: "Have you reached a verdict, gentlemen?"

"We have," responded Foreman John Gardner. "We find the defendant not guilty of first degree robbery."

Immediately the crowd rose to its feet and cheered lustily.

Montague smiled broadly. A half dozen persons attempted to shake his hand. First to extend congratulations was his chief counsel, James N. Noonan of Albany, N. Y.

The elderly judge repeatedly banged his gavel for order, and instructed Sheriff Percy Egglefield to remove all spectators standing in the aisles.

Then, in slow, soft spoken voice, he addressed the jury:

"Gentlemen, this verdict was not in accord with what I think you should have returned. That, however, is up to you."

Report Schacht Decision False

BERLIN, Oct. 26 (AP) — Dr. Hjalmar Schacht announced informally today his resignation as minister of economics had been accepted by Reichsfuehrer Adolf Hitler, but Nazi officials staunchly denied any decision concerning him had been reached.

Dr. Schacht told a group of guests at a farewell party at Douglas Jenkins, American consul general who is leaving shortly for London, that he considered himself discharged from his duties in the ministry since yesterday.

The announcement came after foreign correspondents had tried for hours to run down rumors of his resignation only to be assured by all official press sources that the whole story was "quatsch," meaning there was nothing to it.

They persisted in the denials even after they were shown the financier's statement.

Dr. Schacht said, whimsically: "The official announcement of my resignation will be made yesterday, today or tomorrow."

To this, authoritative government sources replied:

"How can Schacht say this when a decision has not even been made?"

Japanese Push Drive Along Shanghai Front; Chinese Leave Chapei

British Report Air Strafe By Jap War Plane

Tommies Return Fire; Plane Believed To Have Been Hit

SHANGHAI, Oct. 27 (Wednesday) (AP) — British authorities today reported a Japanese plane opened fire with its machine guns on British outposts in the vicinity of Jessfield park.

British troops guarding borders of Shanghai's International Settlement returned the fire with machine guns.

Troops who witnessed the incident said that from the manner in which the Japanese plane flew away they believed it had been hit.

The new incident occurred as Chinese forces started a full retreat from battered Chapei directly across Soochow creek from the International Settlement.

An American eye witness informed the Associated Press that British outposts fired on the Japanese plane six times.

The Japanese craft had been engaged in bombing and strafing retreating Chinese in the Jessfield vicinity and flew over the International Settlement defense lines several times spattering bullets around the British.

The plane was believed to have been hit in the last burst of fire but it was impossible to determine if the plane had crashed.

Orchestra Leader Sees Resemblance Of Youth To Actor

DES MOINES, Oct. 26 (AP) — Jan Garber, orchestra leader, thought Thurston Wagner, 19-year-old Ankeny, Ia., youth, looked so much like Robert Taylor, screen star, that he took the young man's name and address and promised to see what could be done about a screen test.

Garber sighted Wagner on the dance floor here last Thursday. Wagner today didn't know what to think of the matter. His immediate concern, he said, is a correspondence course in radio and television engineering.

Examine Quad Water Supply

University health department officials are investigating a "rather extensive outbreak" of diarrhea, an intestinal disease, among an undetermined number of the Quadrangle's 700 residents, Dr. M. E. Barnes, director of the health department, reported last night.

Examinations of the dormitory's food and water supplies were conducted all day yesterday, but the cause of the disease was not found. Since the illness is found among students who eat at the Quadrangle and those who eat elsewhere, the source of the infection has been difficult to determine, Dr. Barnes said.

Tests have been made of the water supply. "If it's in the water supply, it's in the Quadrangle only," Dr. Barnes declared.

Omaha Trailrites Organize To Fight Ouster From City

OMAHA, Neb., Oct. 26 (AP) — Twenty-five Omaha trailerites, ordered by city officials today to move out within 48 hours, organized tonight to fight the ouster, elected officers, started a defense fund and a membership drive.

They announced through their attorney, Simon A. Simon, they will not budge until some court tells them they have to.

"These people are willing to observe any reasonable regulations laid down by the city," Simon said, "but they will not be thrown out of their homes unless it is definitely shown they are violating some city ordinance. I don't believe they are."

Discovery of Ransom Bill Intensifies Hunt

CHICAGO, Oct. 26 (AP) — Discovery of a second ransom bill intensified the search for the kidnapers of aged Charles S. Ross today.

A \$10 note from the \$50,000 bundle of currency turned over to the snatch gang in a vain attempt to obtain the release of the retired manufacturer was found by Frank H. Stremmel, an employee of the Association of American Railroads.

He reported that he received it from the cashier of a loop department store when he cashed a check there yesterday.

The first \$10 bill identified as part of the ransom money was given to federal agents last Thursday by Mrs. Clara Ludwig, a resident of suburban Blue Island. That one was traced to a Blue Island bank.

Thus, for the second time in six days, the G-men were placed on cold and difficult trails. They declined to disclose whether they had been able to trace the bills beyond the bank and department store—institutions handling hundreds of dollars in currency each day.

However, the finding of the bills tended to strengthen two theories. The first was that the kidnaping and ransom collection were engineered by Chicago criminals.

The second was that the government operatives were working against an apparently cunning gang instead of against a band of "amateur punks" as first deduced by police.

The 31st day passed without any clue to the whereabouts or well being of the captive. Authorities have frequently expressed the belief that Ross, 72, and suffering from heart disease, had died or had been slain.

Plane Crashes In Fog; All Occupants Are Believed Dead

COWLESVILLE, N. Y., Oct. 26 (AP) — A red monoplane crashed tonight on a farm, half a mile west of here. All occupants were believed dead.

Fred Hoertz, Cowlesville storekeeper, said he led a party of townspeople to discover the plane, its nose and cockpit buried in a pasture on the farm of Albert Merlau.

Hoertz said that when he reached the scene of the crash it was impossible to determine how many persons were in the plane or whether any lived.

The plane arrived over this western New York village, only 30 miles from its destination, after dark. A fog was settling. At about 6:30 p.m., farmers heard the motor sputtering.

Federal Investigation Of Air Liner Crash Begins Immediately

SALT LAKE CITY, Oct. 26 (AP) — Federal investigation of the air liner crash in which 19 persons died 80 miles east of here Oct. 17 opened today with persons who arrived early at the scene on call to describe conditions of the nation's most disastrous airplane wreck tomorrow.

Major R. W. Schroeder, operations manager for United Air Lines, outlined the personnel setup of the concern which operated the luxury ship today, and W. E. Kline, bureau of air commerce official, gave technical data on flight markers of the Cheyenne-Salt Lake City route.

Miller C. Foster presided at the hearing for the department of commerce.

Chinese Begin Retreat From Chapei at Dawn

Japanese Naval Units Take North Station After 2 Months

SHANGHAI, Oct. 27 (Wednesday) (AP) — Chinese defenders of Shanghai began a general retreat from war-shattered Chapei at dawn today, unable longer to withstand the Japanese military steamroller along the entire battle line near Shanghai.

Japanese naval units fought their way into the bitterly contested north station in the haze of dawn and at 6:15 a.m., the Rising Sun flag was raised above the shell-pocked station that withstood two months of the heaviest pounding.

British and American sentries on duty nearby at the international settlement border heard victorious Japanese bugles blare as the Red and White banner fluttered over the captured objective.

Japan's forces also occupied the Kiangwan race course, just north of Shanghai, another long fought sector of the north Shanghai front.

On the north bank of Soochow creek winding through the international settlement opposite United States marines and other foreign guards, Chinese soldiers were plainly seen hastily evacuating their Chapei dugouts and joining the straggling columns of Chinese troops that fell back before the Japanese advance.

Behind them they left acres of ruins in the native city that they have defended for more than two months.

The backbone of the Chinese troops were retreating in good order, well organized unit by unit, most of them escaping the Japanese enveloping movement and were expected to reorganize defenses quickly on the creek bank.

The majority of Chinese troops withdrew under cover of darkness, but spirited rear guard action was going on at the Blietleneck railway junction of the Shanghai - Nanking and Shanghai - Hangchow lines which provided the only outlet for the Chinese west of Chapei.

A dozen Japanese planes bombed and machine gunned the retreating Chinese attempting to cut off any remnants remaining in the Chapei and Kiangwan areas.

American marines along Soochow creek just south of Chapei reported that no Chinese had attempted to cross the creek to the safety of the international settlement.

Japan's capture of Tazang, key defense point five miles north of Shanghai yesterday after almost a week's heavy pounding, paved the way for the general Japanese advance.

An Italian grenadier, Antonio Padula, was added to the foreign casualty list when he was fatally injured by an anti-aircraft shell. It was believed the shell had been fired at a Chinese plane that raided Japanese positions across from the Italian-guarded sector.

Ready For Business, But County Objects

LUFKIN, Tex., Oct. 26 (AP) — This county voted dry last week so John Fowler moved his beer stand to the middle of the Neches river, mounted it on stilts and declared himself ready for business.

In place of the business came a county charge, accusing him of "obstructing a navigable stream." Fowler posted \$250 bond with the remark:

"Nothing but a catfish could navigate that sand bed."

Also Renew Grant For Chemical Research Under Mattill

The renewal of a grant by Lever Brothers company of Cambridge, Mass., for chemical research under the direction of Prof. Henry A. Mattill of the biochemistry department was accepted at a state board of education meeting in Cedar Falls yesterday.

The state board also formally accepted a legacy of \$500 for "the use and benefit of children's hospital" from the late Harriet E. Smyth of Monticello.

Assisting Professor Mattill in the research project is Calvin Golumbic, research associate in chemistry. Mr. Golumbic received a Ph.D. degree from Rutgers university last year. Fred Deatherage will be a research assistant.

The study deals with a study of anti-oxidants and the oxidation of fats. This year will mark the fifth year of research on the problem. Several papers have already been published on the results of the study.

F. Lazell's Condition Reported Improved

Prof. Fred J. Lazell of the school of journalism, suffering from a brain concussion, is "slightly improved," Mercy hospital authorities said last night.

Professor Lazell, 68, fell from a ladder Sunday morning while putting up storm windows at his home, 604 Grant street. He is still in a semi-conscious condition, but X-ray pictures revealed no skull fracture.

California First In Football Poll

Pitt Advances To 2nd Place

Golden Bears Retain Last Week's Rank; Alabama 3rd

NEW YORK, Oct. 26 (AP)—When Stub Allison's Golden Bears of California pushed three touchdowns over the Southern California goal line in the first half last Saturday, they not only crumbled Troy's defenses but the last resistance of the nation's football critics as well.

At least, so it would appear from the latest returns in the Associated Press national ranking poll.

The Bears were on top last week, it's true, but by no such lopsided margin as theirs this week. Of the 57 contributing experts, all but nine weighed in with their first place vote for California. As a result the coast conference contenders earned a total of 536 points, to 408 for Pittsburgh, which displaced Alabama as runner up.

Alabama Third Behind the Panthers, who got three of the remaining first place nominations, comes the Crimson tide, which got none; Minnesota's gilded, if not quite golden, Gophers, who got two, and Yale, also with two.

These five are the same who occupied the top brackets a week ago. The rest of the first 10, however, includes four Johnny-Come-Late-lys; Baylor, which moved from 15th to sixth; Vanderbilt, from a tie for 20th to seventh; Dartmouth, from 18th to ninth, and Ohio State, from 12th to eighth. The remaining member is Fordham, at No. 10.

Louisiana Beaten Those demoted from the company of the elect were Louisiana State, which skidded into 17th place as a result of its defeat by Vanderbilt; Northwestern, dropped out of seventh place through its loss to the Buckeyes, and Nebraska and Duke, which lost ground despite the fact they came out of last Saturday's strife with whole hides.

Likeliest contender at the moment for one of the "first 10" spots within a very short time is Auburn, which zoomed from 20th to 12th on its convincing victory over Georgia Tech, has been gaining favor steadily and will gain even more if it scores in clean-cut fashion over Rice Saturday in one of the week end's top flight inter-sectional duels.

"Ivy League" Game Of the top rankers, Ohio State would appear to have the simplest assignment Saturday in its clash with Chicago. For the others, the business of the day should be more arduous, Yale and Dartmouth's "Ivy League" combat at New Haven being the only pairing of first-ten members.

California will face its big little brothers of U.C.L.A.; Pitt will tackle neighbor Carnegie Tech, also a tough proposition; Alabama will face Kentucky, heartened by its trimming of Manhattan; Minnesota will meet Notre Dame, which snapped out of its slump against Navy; Baylor will battle Texas Christian, Vanderbilt will play Georgia Tech, and Fordham will go south to meet 15th-ranked North Carolina.

The tabulation, scoring each list on a 10-9-8-7-6-5-4-3-2-1 basis, and with first place votes indicated in brackets:

Table with 2 columns: Rank, Points. Lists top 10 teams and their scores.

Second ten: 11, Nebraska 121; 12, Auburn 85; 13, Duke 84; 14, Santa Clara 33; 15, North Carolina 16; 16, Villanova 13; 17, Louisiana State, 12; 18, Holy Cross and Detroit tied at 9 each; 20, Arkansas 8.

Also ran: Colorado and Army 3 each; Texas Christian and Northwestern 2 each.

Tinsley After Record NEW YORK, Oct. 26 (AP)—While the national football league contenders are shooting for new team records this season, three of its outstanding 1937 campaigners, one veteran and two "freshmen," also are aiming at brand new marking in individual lines of endeavor.

Strom Captures First in Discus Event Yesterday

Pfif Strom, freshman from Ft. Dodge, won the Dutton traveling discus trophy yesterday afternoon at the West Side track with a toss of 120 feet 6 inches.

Strom, also winner of the DeHeer shot put trophy, was never pressed as Fred Martin, Hampton was second with 106 feet 10 inches. Bill Sulentic was third with a heave of 99 feet 10 inches.

The Dutton Discus meet, under the direction of Francis Cretz-meyer, was the second in a series of field events open to all university students with the exception of former winners and varsity letter winners in the sport.

The meet has been held annually for the past four years with Floyd DeHeer, Merrill Harkness, and Bush Lamb winning the trophy in successive years. The record is held by Harkness and is 138 feet 6 inches.

The trophy was given by Attorney W. Lawrence Dutton of Cedar Rapids. Dutton was a discus thrower in the days when anything over 130 feet was considered to be an excellent toss.

According to Coach Bresnahan the outstanding feature of Dutton's throwing was his terrific spin. Today discus throwers make only one complete turn before releasing the platter. Dutton spun three and occasionally four times to gain the momentum that his lack in physical weight demanded.

Cage Coaches Stress Speed In Daily Drills

Speed is the byword at the fieldhouse these days as Iowa university cagers practice daily. A squad of twelve has reported for work-outs.

Sacrificing height for speed Coach Rollie Williams and his assistant, "Pops" Harrison, are stressing fast breaking plays that require excellent footwork and ball handling.

Kenneth Suesens, Hawkeyes' former captain, named the basketball player's greatest requirement when he expressed his opinion during practice Monday night. He said "What we need is an iron 'gut'!"

For years Purdue, who is always a strong contender for the Big Ten championship, has based its strong teams on speed. Last year along came Minnesota's small but fast quintet to outspeed the Boiler-makers and grab first place in the Big Ten.

This year, Minnesota and Northwestern will begin their campaign with the same five starters as last year, while Purdue has lost only two of its regulars. As all teams along the Big Ten front begin their practices speed seems to be the main objective.

With elimination of the center jump this year, except to start the game and the second half, fast breaking plays involving swift, sure passes will be featured.

Iowa's Captain Sam Johnson, Benny Stephens, Kenny Suesens, and Elmer Bratten are players of this type. Fast, rugged, and good ball handlers these players are expected to work well into the style of play that will be demanded.

'Little Brother' Of Sam Francis Has Teeth Extracted

LINCOLN, Neb., Oct. 26 (AP)—Vike Francis, 200-pound "little" brother of Sam Francis, all American fullback for Nebraska last year, won't bite anyone if and when he gets into competition next year.

Vike, a freshman who plays fullback, too, reported today he must have all his teeth extracted because of an infection and he commented that it isn't exactly safe to wear store teeth on the football field.

Sigma Chi and S.A.E. Touch Football Teams Win From Theta Xi, Alpha Sig

Midseason touch football games yesterday found the Sig Chi's defeating the Theta Xi's 21-0, S.A.E.'s conquering the Sig Ep's 27-0, and the Alpha Sig's barely nosing out the A.T.O.'s 6-0.

In a game characterized by long passes Alpha Sig Don Fishel heaved a long one to Spencer Smith for the only score of the game which was hard fought with neither team yielding ground.

Spencer Smith was the outstanding player in the Alpha Sig lineup but both Don Fishel and Bernard Smith played well. The whole A.T.O. team played good ball with Herb Olsen and Earl Seibers doing exceptionally fine work.

Full of rough play and disputes the Sig Ep-S.A.E. game ended with the S.A.E.'s four touchdowns ahead of the Sig Eps who had none.

Sam Johnson scored the first on a pass from Jim Buckner. The extra point, was also made by Johnson on a line plunge. The other markers were made by Ray Haberkorn on a run and Walter Riley and Bill Long on passes from Haberkorn. Haberkorn also kicked two extra points.

With many passes and interceptions the Sig Chi's crossed the Theta Xi goal three times in the other game. Don Clarke and Bob Off each scored once on passes from Hutch Holmes while Bill Goenne aided with another on a heave from Bob Winter. Goenne also added two points to the total by chasing one of the Theta Xi backs behind his goal for a safety. John Boe and Harold Reynolds showed up well for the losers.

Irish Prepare For Wellman

St. Patrick's football team went through a tough scrimmage with U High last night in preparation for their last game of the season with Wellman Friday.

Throughout most of the scrimmage the Irish were on defense but when in possession of the ball could make no gain against the strong U High outfit.

The purpose of the scrimmage was mainly to polish up the Irish pass defense. Coach Ryan stated that his men have an even chance against the mediocre Wellman eleven, if they improve in this phase of the game.

So far this season the Wellman outfit has not displayed the power shown in former years, and should make even competition for the green St. Pat's eleven.

For this game the Irish will be in fine physical condition, coming through the Lone Tree fracas with no one on the injury list.

Last night the lineup was changed slightly with Don Black assuming the quarterback position, and Ed Rohner being shifted to guard. In the backfield, Walden looked impressive in knocking down U High's attempted passes.

War Admiral Wins 'Comeback' Dash

The brown son of Man O'War got away fast and wasn't headed during the entire race, except for a second or two at the first turn.

Stengel To Get Stung? Writers Glad to See Casey Back in Loop; Hartnett is Puzzle

NEW YORK, Oct. 26 (AP)—Sports parade in ink: Rag picker: Casey Stengel, baseball's old rag picker, has gone to the Boston bee hive and every wise guy in baseball thinks he'll get stung. How he can escape, no one, with the probable exception of himself, knows.

He'll get all the blame if the Bees do worse than last season and Bill McKechnie will get all the glory if the Bees do better. And the goofy part of it all is that Casey will get less for managing the Bees that he got for not managing Brooklyn this year.

However, every baseball writer is elated because Casey is back in the National League. He's got "it," which means good copy, more than any pilot in the big top. Brooklyn writers and fans never will forget how Casey used to try to show why Brooklyn couldn't win. He'd simply turn his pockets inside out and sigh: "No money, no ball players."

Puzzle: Another big baseball problem is the fate of Gabby Hartnett, grand old Chicago Cub catcher. So far, Gabby has missed chances to manage three major league teams to stick with the Cubs. He wants to manage the Cubs but he can't get the break.

The trouble is the Cubs have a manager named Charlie Grimm, who is a far better pilot than a lot of people think. But the dope sticks that Hartnett will get the pilot's wheel with Grimm in the front office. Maybe Grimm is too nice a fellow to manage a club like the Cubs.

Bud Holland Nominated Bombardment: Zero hour already is here for the worn out football experts. It's every one for his own storm cellar in the bombardment of demands to put everybody's son on the All-America team. Two of the strongest endorsements to arrive today were for Bud Holland, Cornell's star end, and a "boy named Padley" from Dayton University.

Elliott Cushing, sports editor of the Rochester, N. Y., Democrat and Chronicle, is leading the Holland - for - All - America movement.

"It behooves such a fearless individual as the old professor to put in a plug for a real football player who is a credit to his race (Holland is a Negro) and school," wires Mr. Cushing, a fellow who seldom gets excited over sports heroes.

We still have to find out what Padley's first name is but Jake Frong, sports editor of the Dayton Journal, says he doesn't need a front handle. "He is not just another football player," says Uncle Jake, "he's the greatest I've seen among backs."

win any tournament in America. Dick Amerine, former Iowa City high school athlete, made the headlines last week when he caught a pass and raced 25 yards for a touchdown in the last 10 seconds of play in the Kansas-Oklahoma game Saturday, scoring the winning points as Kansas won, 6-3. Amerine played for the Little Hawks two years ago when they won seven games in a row against tough competition before losing to East high of Des Moines in the season's finale, 8-7.

Amerine is a native of the sunflower state but lived in Iowa City during his senior year, which was a break for the Hawkeyes all the way around, meaning by that that he carried his talent from the gridiron to the hard courts in winter-time. He also proved to be an all-around performer on the track team.

Amerine was in line for the first string Jawhawk quarterback job but a siege of boils hampered him so during the early part of the season that he was forced to relinquish his position. In a letter to his old high school mentor, Herb Cormack, the other day, Dick appraised him of the fact that he now has only one boil.

Jerry Pooler, a former teammate of Amerine on the same powerful Little Hawk aggregation, has enrolled at Columbia academy and has seen action in several games this year.

Don Budge Injured As Car Overturns Near Bakersfield BAKERSFIELD, Cal., Oct. 26 (AP)—Donald Budge, world amateur tennis champion, suffered several broken ribs and other injuries today as his automobile turned over while he was en route to Los Angeles to practice with Ellsworth Vines, professional champion.

Although Budge was painfully hurt, he refused to stay in a hospital, where he was taken, and was removed to a hotel. The Oakland, Cal., raquet wizard was believed to have gone to sleep at the wheel while traveling 50 miles an hour. The machine turned over several times and landed in a ditch off the highway, 10 miles north of Bakersfield.

Coach Divides Varsity Squad Into 3 Teams

Frosh Running Attack Stopped but Aerial Heaves Connect

It's going to be long week for the University of Iowa football team.

Coach Irl Tubbs, still seeking to instill some snap and drive into his gridders, last night sent his men through a workout that lasted until after the floodlights were turned on. Although they showed lots of determination the varsity men are still weak on spirit and it is expected that Tubbs will dish out long scrimmage sessions from now until the team leaves Friday.

The practice opened last night with the varsity trying their

passing and ground attack on the freshmen. Three full teams alternated running plays with each crew carrying the ball about five times. It was impossible to tell what men will start the Purdue game Saturday as the Iowa mentor divided his regulars among the three teams.

Olson Still Injured Red Olson, injured fullback, watched the drill from the sidelines and it is hoped that he will be ready for the game with the Boiler-makers.

In the last half of the workout Tubbs sent the freshmen against the varsity with the yearlings using Purdue running and passing attack. Although the Hawkeye line was able to stop the other team's ground plays, the latter team completed several long passes of the type used a great deal by the Boiler-makers. Purdue last year made both of their touchdowns through the air as they downed the Hawks, 13-0.

Niles and Blandin Pass The freshman passing attack last night was built around Jerry Niles and Carl Blandin. Niles, Blandin, Huebner and Norgaard did most of the ground gaining

with the running plays and Snider played well in backing up the freshman line on defense.

Both Purdue and Iowa will be battling to climb out of the Big Ten cellar when they meet this week. The Boiler-makers have lost both of their conference starts this year, the first to Ohio State, 13-0, and the second to Northwestern a week ago, 14-7. Iowa has been beaten by Wisconsin, 13-6 and by Michigan, 7-6.

Kinnick Carries On Hawkeye fans will be hoping that history repeats itself in the Purdue tilt. When the Hawks upset the Boiler-makers in 1933, Joe Laws returned a punt for the winning touchdown. This year the Hawkeyes have Nile Kinnick to carry on and he has already shown one Big Ten team what he can do in the way of punt returning with his 74-yard run against Michigan last week.

Stalwarts in the Purdue line this year are Clem Woltman, 211 pounds, and Captain Martin Schreyer, 218 pounds, both seniors. The two are rated as the best tackles in the Big Ten and both proved highly annoying to the Hawks last year.

Since the day back in 1933 when the Boiler-makers defeated Iowa, 7-0, to clinch the undisputed Big Ten title, the series has been noted for its spectacular play and upsets. By virtue of last year's 13 to 0 victory, Purdue holds a slim one-game edge in the series, with eight triumphs against seven for the Hawkeyes.

Dane Will Head Service Club; Mott Named Vice-President

Kiwanis Elects Year's Officers Tuesday Night

Four Directors Selected At Meeting, Hear Hughes Speak

H. J. Dane last night was elected president of the Kiwanis club for the year beginning Jan. 1, while Prof. Frank L. Mott was named vice-president and E. B. Raymond, treasurer, at a meeting held in the Welsh church southwest of Iowa City.

Four directors were named to serve terms of three years at last night's meeting. They were Edward S. Rose, the Rev. Edwin E. Voigt and Prof. Mason Ladd. One director, H. H. Gibbs, was elected for a two-year term.

The speaker at Tuesday night's meeting was W. M. Hughes, an executive of the Johns-Manville corporation, who spoke to the club on the subject, "Remodeling a Home." Hughes discussed the materials needed and the problems which must be faced in changing an old home into a modern one.

The program and election of officers, nominated on a first ballot at last week's meeting, followed a 6:30 p.m. dinner at the Welsh church.

228 Work For \$19,890 Goal

Thomas E. Martin Says First Reports Show Good Response

The first reports coming into community chest headquarters from the 228 solicitors canvassing the city in the 1937 community chest campaign indicate a generous response from contributors this year. Attorney Thomas E. Martin, campaign director said yesterday.

The campaign began Monday noon and is expected to continue for two weeks with a goal of \$19,890 to be reached.

The assignment cards given to the workers at Monday's meeting are to be returned to headquarters, 110 S. Linn street, by tomorrow evening. The returns will then be audited and the first definite results of the campaign released on Friday.

Corn Husks Will Fly

Competitors Begin Action to Determine County Champion

The smack, smack of ears of corn against the backboard will ring through the cornfield of the Glenn Gleason farm near Solon at 9:30 this morning when 10 men swing into action to determine who will be this year's corn husking champion of Johnson county.

The Gleason farm is located nine miles north of Iowa City on primary road 261 and then one mile east on the gravel road off 261.

The winner will be sent to the state cornhusking contest to be held Nov. 2 near Oskaloosa.

The 10 contestants are William G. Long of Solon; Clifford Idle of Lone Tree; Arthur Schuessler, last year's champion, Lone Tree; Vincent O'Brien, Solon; William Spratt, Oxford.

Albert Steinbrech, Solon; Harry Brenneman, Nichols; Lloyd Burr, Lone Tree; Ray Frank, Riverside, and Lloyd M. Kelley, also of Riverside.

It's Only the Beginning

The task of reconstructing the former American Legion building into a modern community center started yesterday and will be completed in approximately four months. Smith and Burger, Iowa City contractors who have received a \$22,592 general contract, yesterday erected the scaffold around the building at Gilbert and College street.

likely to create an unfavorable impression in the rest of the state.

"We've had enough bad publicity," one merchant said last night. "I'm for doing all I can to keep us out of the headlines again."

Group Protests
At last week's session of the adjustment group, Prof. C. M. Uppgraft, assistant to President Eugene A. Gilmore, read a letter from the board of deans protesting the granting building of the cabins. Secor was present at the meeting as was his attorney, Will J. Hayek.

The petition to be presented to the adjustment board tomorrow will probably bear several hundred signatures, its circulators said. The text follows:

Text of Petition
"There is now pending before your body an appeal by Harvey Secor praying that he be permitted to build a series of cabins on the property on which the roadhouse or Casino is located.

"We the undersigned respectfully petition your honorable body the request be refused and the findings of the planning board be upheld."

Week to Circulate
The petition to be brought before the council will have more than a week to circulate and will be sent to property owners all over Iowa City, its backers declare. It reads:

"There is now pending for your consideration an amendment to the zoning ordinance of Iowa City, whereby it is proposed that certain lots be and property along highway 6 near the west limits of the city and including the property known as the Casino be placed in the business district. The Iowa City planning board, having studied the question, has by a unanimous vote, recommended that no such change be made in the present zoning ordinance and that the status of the area in question remain unchanged.

"We, the undersigned, residents of Iowa City, hereby respectfully petition your honorable body that the proposed amendment be rejected and that the recommendation of the planning board be approved and adopted by the city council."

Measurement of Heat

No. 2 of a Series

The measure of heat is the "British thermal unit."
COAL contains from 5,000 to 15,000 heat units per pound.
FUEL OIL contains from 125,000 to 142,000 units to the gallon.
NATURAL GAS is metered by cubic feet but sold by "therms," one therm being 100,000 heat units.

It is easy to figure the amount of natural gas needed to heat your home as warm as you have had it with coal.

Lodges Honor Senator Davis

Local Moose Observe Pilgrim Governor's Anniversary

The Moose lodges of Iowa City met in the Moose hall at 7:45 p.m. yesterday to celebrate Moosehart day and the 61st birthday anniversary of its founder, Senator James J. Davis of Pennsylvania, Pilgrim Governor of the Moose order.

A bibliographical sketch of Mr. Davis and a resume of his work by Leo Kohl featured the program. Moosehart, founded in 1913 by Davis, is a home for orphans whose parents were members of the Moose lodge. Called the most famous "child city" in the world, it provides grade and high school education and vocational training for thousands of children.

Moosehaven, a home for aged members of the lodge, at Jacksonville, Fla., was also founded by Davis. Moose lodges make annual contributions for the support of these institutions. Women of the Moose have contributed nearly a million dollars in the last 10 years for the support of Mooseheart and are now raising funds for the erection of a new hospital there.

Other reviews were given of the work of these homes. Reports were made on the state conference at Ft. Dodge and the international convention of Moose lodges at Cleveland, Ohio in September. Committee chairmen gave resumes of their work for the past year.

Following is the complete program of which Vivian Kirshner was chairman:

- Opening song..... Star Spangled Banner
- Prayer..... G. W. O'Harra
- Address of welcome..... Mrs. William Wiese, senior regent.
- State conference report..... Mrs. George Unash.
- Bibliographical sketch..... Leo Kohl
- Lodge song..... Mrs. Clifford Heacock

Add Oddities: When Tibetians meet, they greet each other by sticking out their tongues. . . . When you tip a Japanese—and it's rarely done—you are supposed to put the money in an envelope. . . . It offends him to have you give it to him openly. . . . Snakes, according to Will Cappy, are deaf. . . . When they sway to music, it's because they feel the vibrations. . . .

Dime
The dime-novels you once had to sneak under your pillows at night to read have now become classical. I'm told by a campusite who's collecting them. . . . If you've any Nick Carter, Deadey Dick, Old Sleuth or Frank Merriwell books around in the attic, they can be sold for as much as \$100 a copy. . . . Sunday, in passing was the centennial of the birth of Harlan Page Halsey, original author of the "Old Sleuth" tales. . . .

One of the best inebriation stories I've heard lately has double the charm because it happens to be true. . . . A fellow you may know wandered into a local cafe one recent night bringing his own food which he sent back to the kitchen to have the cook fry until "well-done." . . . The food, my I add, was a manhole cover.

And a local lawyer who has a flair for the whimsical recently amused his neighbors mightily when he walked to work in his bedroom slippers. . . . Not so surprising, though, for one barrister I know always keeps a pair of house slippers under his desk in his bank-building office. . . .

My personal nomination—and that of several scouts as well—for the poorest taste in advertising goes to that of the World Peaceways, allegedly a peace organization. . . . Their current ad, now appearing in the mags, declares, "Nice fresh babies. . . . 79 cents a pound!" . . . I personally wouldn't give a dime to an organization sponsoring such disgusting propaganda, and it may be one reason peace propaganda doesn't carry the punch of the war advertisements.

In New York, I'm told by a scout who recently returned, political pressure unheard of in these parts is being brought to bear to put Mahoney in the city hall in place of LaGuardia. . . . Although all the newspapers have denied it, there is a whispering campaign that if Fiorello is put back in, federal relief will be denied New York. . . .

Another group of shushers declare Hitler will send an international protest if the voters put the Italian back in office. . . .

Although in the midwest, the sailing seems smooth for another LaGuardia term, my friend declares the mayor has the fight of his career on his hands. . . . He declares the Roosevelt attitude has helped none either. . . . In addition, he declares, if LaGuardia is defeated, New Yorkers who are fighting for his reelection will declare the election illegal and may bring out facts that may blot out Tammany entirely. . . .

Also, in New York, they're saying certain big business interests have given as much as \$6,000,000—as much as is spent in national elections—to try to recapture the city hall. . . .

Thirteen Cases Face Petit Jury, District Court

O. C. Sorlien Charged With Manslaughter After Crash

An assignment of 13 criminal cases will be heard by petit jurors who will appear for duty in Johnson county district court at 9 a.m. tomorrow, Judge James P. Gaffney announced yesterday.

Several of the cases involve charges of driving while intoxicated. The last case on the docket is the charge of manslaughter brought against O. C. Sorlien of Mason City, made following the automobile crash in which Dr. C. L. Drain, acting head of the bureau of dental hygiene, was fatally injured. The crash occurred on U. S. highway 161 at Dr. and Mrs. Drain were returning from Cedar Rapids June 5.

Local Resident Dies at Home

Had Been Ill Several Months; Son Of Old Pioneer

Homer S. Johnson, 77, 1017 Bowers street, died at his home just before midnight after an illness of several months. He had been bedfast for the last three weeks.

Mr. Johnson was the son of Sylvanus Johnson, a pioneer resident of Iowa City who first came here in 1838, just after the city had been laid out.

Mr. Johnson spent his early life on a farm near Iowa City and moved here in 1924. He married Bessie Wickham in 1902. He was a member of the Odd Fellows and Masonic lodges.

He is survived by his widow. The body is at the Hohenschuh mortuary.

C. F. Smith, Assistant Director, Speaks In Iowa City

"We are trying to make better parents as well as better boys," Charles F. Smith, assistant director of cubbing of the National Boy Scout council, told scout officials of the Iowa City area last night in the river room of Iowa Union. Smith, a leader of boys for many years, discussed the aims of cubbing and the part scout officials play in cubbing and then answered the questions of the scouters present.

Local scouters were introduced to Smith at a luncheon held yesterday noon at the Union. In the afternoon the mothers of cubs were told the part they play in cubbing. The evening meeting was preceded by a dinner for Smith.

Theater matinees only date back about 60 years.

Looking Glass Reflections

By VERA SHELDON

A smooth, unfurrowed brow is the demand of off-the-face hats which are leading the millinery parade this season.

Forehead wrinkles are most frequently caused by frowning expressions, induced by poor eyesight or days of exposure to summer suns. They add years of age to an otherwise youthful face and will become permanent wrinkles unless treated soon after their appearance.

Such wrinkles can be erased by careful facial treatments. The use of rich lubricating oils and vigorous massage will correct the dry condition of the skin and return it to its normal smoothness.

Professional facial treatments should be supplemented by home care. All massage must be an upward movement to stimulate a fresh blood supply to the area under treatment and to strengthen sagging muscles.

An effective manipulative movement is one which starts from the inner corners of the eyes. Using the index fingers, work upward to the center of the forehead, lightly down around the eyes and over the bridge of the nose, returning to the starting position.

For further treatment of forehead lines, a firm but sweeping rotary movement is used across the forehead to the temples. Another manipulation employs a zigzag movement made with the first, second and third fingers. Starting at the center of the forehead, the fingers of first one hand and then the other move in zigzag fashion across the forehead, pausing lightly on each temple at the completion of the motion.

All of the fingers are used in the third manipulation. With the right hand overlapping the left, the hands move apart, pressing firmly on the forehead. This movement should be repeated three times to act as a relaxing treatment after the vigorous massage of the preceding ones.

Tissue cream is easily removed with pads of cotton dampened in warm water. The application of muscle oil over lined areas, particularly around the outer corners of the eyes and between them at the center of the forehead, is desirable.

Prof. Thornton Has Roosevelt Essay Printed

Prof. Harrison J. Thornton of the history department has recently published an essay on Theodore Roosevelt in a collection entitled, "Essays in American Historiography," by the former students of Prof. Marcus W. Jernegan, who has been a member of the University of Chicago faculty for almost 30 years.

The writers of the 21 essays were chosen from Professor Jernegan's former students in historiography who have made a worthy record in their field. This group, including Professor Thornton who studied under Professor Jernegan in 1926, represents universities and colleges from all over the United States.

Time Changed For Akers' Address At Smoker Tomorrow

The time for the law student smoker at which W. W. Akers, chief of the bureau of criminal investigation of the state of Iowa, will speak has been changed from 7:30 p.m. to 6:40 p.m. tomorrow, it was announced last night.

An informal discussion will follow Mr. Akers' explanation of the work of his bureau. All law students are invited to attend the discussion.

Theater Guild subscriptions for out-of-New York presentations increased 40 per cent for the 1937-38 season.

Betty Proctor Will Conduct Forum On Peace Problems

Betty Proctor, field secretary for the student peace service of the Emergency Peace campaign, will conduct an open forum on peace problems in the religious activities office in Iowa Union this afternoon at 4:10.

All students and faculty members who are interested are invited to attend. For all those unable to attend there will be a supplementary meeting at 5 o'clock.

The discussion will cover plans for student work, and questions concerning the work will be answered.

WSUI Will Carry Child Welfare Talk

Howard V. Meredith of the Iowa Child Welfare Research station will give the second lecture in the "Guiding the Adolescent" course of the Radio Child Study club at 2:30 p.m. tomorrow over stations WSUI and WOI.

Bierman Fulfills Dream

Minnesota Coach Began Life as Cripple; Won Fame Despite Handicap

By The AP Feature Service

Bernie Bierman has coached Minnesota to one of football's most remarkable winning streaks—28 games without defeat, 21 consecutively wins, beginning in 1933 and continuing up to date. His full record shows 113 wins, 35 losses.

Bierman started life with a crippled leg that kept him in bed or on crutches most of the time. Numerous operations and a determination to play finally overcame his handicap.

Learned By Observing

Bierman was born March 11, 1894 in Springfield, Minn. of German pioneer stock. While crippled, he learned athletics by observation. His first chance at football came midway through high school and as a senior he captained his team at Litchfield, Minn. Admiration of an older brother who played halfback for Minnesota sent him to college there. Under Dr. Henry L. Williams, Bierman became an all-conference back, and won letters in basketball and track. He won the Western conference medal for proficiency in scholarship and athletics and captained Minnesota on the gridiron in 1915.

He first coached at Billings, Mont., high school where he also taught mathematics, economics and commercial subjects. After coaching at the University of Montana, serving as an officer in the Marines during the World War he landed as assistant to Coach Clark Shaughnessy (now

Interviews With Fifty Persons Indicate New School Favored

Daily Iowan Announces Result Of Survey Among Citizens

Majority Believe That New School Will Be Erected

An overwhelming majority of Iowa Citizens believe that the proposed Iowa City high school building will be erected as a result of the Nov. 4 bond election, according to a survey conducted by The Daily Iowan.

More than 90 per cent of 50 citizens replied "Yes" to the question, "Do you think Iowa Citizens will vote to bond \$398,750 to supplement a PWA grant of \$326,250 for the construction of a modern high school building?"

The impossibility of ever again obtaining federal PWA assistance to construct the building if its erection is not approved at the Nov. 4 election, will probably influence voters, according to the survey.

"It's our last chance to get help from the government," a secretary, Agatha Brandt, 307 N. Capitol street, said. "I think we should take advantage of the opportunity to erect the much-needed school."

Unless construction of the building is approved at the election Nov. 4, the PWA grant will not be available, the city school board announced.

The project must be started by Jan. 4, 1938 or the \$326,250 PWA allotment will be withdrawn and never again offered, the board has announced.

Discontentment with the present school buildings — labeled a fire trap by PWA inspectors — will be another strong factor influencing the citizen's voting Nov. 4, the survey revealed.

"Now we realize how much we need a safe building," Clara Brennan, 932 E. Washington street, said. "I'm sure the plan will be carried out this time," she declared.

The present school buildings were discovered to be "fire traps" when inspected last spring by federal PWA officials.

State PWA Director P. F. Hopkins has informed the board that "The sole purpose in extending the grant has been to eradicate school buildings in which school children are exposed to potential danger every day."

"Our inspection revealed," Hopkins told the board, "that their out-of-date construction makes them a fire hazard of the worst sort. Iowa City school children are overcrowded in distinctly unsafe structures."

A provision of the PWA grant calls for the destruction of the present junior high school and a administration building immediately after the modern high school building is completed.

If the new high school is erected, junior high school students will be more comfortably housed in the present high school building and the other two buildings will be razed.

"We can obtain safe conditions for the children if we get the new building," Charles Wilson, 617 Rundell street, stated. "If the young voters get out there and vote, it will certainly go through," he said.

"The people seem sold on the idea of replacing the old buildings with a modern school," H. S. Ivie, 127 Melrose avenue, declared. "I'm sure it will go through," he said.

Student comment was typified by Jules Greenwald, A4 of Pas-saic, N. J., who said "It would be a great advantage to Iowa City. I'm for it 100 per cent."

Iowa Citizens will vote on two propositions at the Nov. 4 election. They will answer "Yes" or "No" to the first question — "Shall we bond \$398,750 to supplement the PWA grant of \$326,250 for the construction of a new high school building?"

And they will also vote "Yes" or "No" on the second proposition — "Shall we bond a sum not to exceed \$80,000 for the purchase of a site within the school district on which to erect the building?"

"If you want the building to be centrally-located—vote "Yes" on both propositions," the school board has announced.

"If you want the building erected on the Morningside site in east Iowa City — vote "Yes" on the first proposition and "No" on the second question," the school board also announced.

Voters' registration closed at 5 p.m. yesterday, and City Clerk Grover Watson characterized the registration as "light."

Five polling booths will be open in Iowa City between 7 a.m. and 7 p.m. Nov. 4. Judges and clerks for each voting booth have been named by the school board.

WSUI Present: First American Legion Program

Interesting angles of the state highway situation will be discussed at 9:30 tonight in an interview over WSUI, when Attorney Edward Rate interviews Highway Patrolman R. S. Hohl of the Iowa City district of the Iowa state highway patrol. The junior farm bureau male quartet will also appear on the program.

This is the first of a series of broadcasts to be presented on the fourth Wednesday of each month by the radio committee of the Roy L. Chopek post 17 of the American Legion.

J. Kadlec Grants Day Continuance

A one-day continuance was granted C. B. and Margaret Russell in arguments filed on a demurrer before Justice of the Peace J. M. Kadlec yesterday.

Ida Healy is the plaintiff of the litigation charging the defendants with illegally withholding possession of her property.

Three Delegates To Attend Red Cross Conference Today

Three delegates will represent the Johnson county chapter of the Red Cross at a conference with officials of the national organization to be held at Dubuque today. The delegation will include Mr. and Mrs. Martin Pederson, and Arthur Boss, chairman of the local chapter.

One of a series of similar meetings being conducted this fall at strategic points in the middlewest, the conference will formulate roll call plans and instruct chapter workers for the membership appeal.

Watch the Workers' Progress!

Center of much excitement during the next two weeks will be the Iowa City Community Chest headquarters, 110 S. Linn street, from which all the workers in the present drive for \$19,890, will be directed. The large chart on the building will be watched eagerly as it will record the individual workers' progress toward the goal during the two-week campaign.

Today With WSUI

An interview by Marjorie Young, A4 of Watertown, Mass., with Albert Williams of Liverpool, England, will take the spotlight on today's American Legion auxiliary program. Williams, who traveled extensively in Europe last year will discuss England and conditions there. Mrs. Floy Schermerhorn, state radio chairman for the auxiliary, will introduce the program.
